b. Enlargement and installation of two black and white graphics for each stand from Participant's photographs or artwork if material provided by the Participant is deemed suitable by the Director of the U.S. Exhibition or designee. The Department reserves the right to control the type of display and materials used by participants to ensure conformity with the Exhibition theme and to maintain overall design integrity. Additional graphics may be enlarged at the Participant's expense and displayed with the approval of the Director of the U.S. Exhibition or designee.

c. Installation of a display system and furnishings such as shelves, chairs and tables.

d. Mounting of standard Participant and agent/distributor identification signs.

e. Normal utilities and hookup services. (Utility requirements determined by the Director of the U.S. Exhibition or designee to be unusual will be charged to the Participant at cost.)

f. Interpreter assistance, if deemed necessary under local conditions by the Director of the U.S. Exhibition, for Participants not having representation in the country of the Exhibition.

g. Normal housekeeping and security services.

4. Provide marketing counseling and advice, including identification of prospective customers, licensees, joint-venture partners, distributors and agents, and assistance in evaluating their suitability; and background information on local trade and pricing practices and customs.

5. Provide the following transportation, loading and packing services:

a. Arrange, through the Department's Exhibits Transportation Unit or its agent, the scheduling of the shipment of the Participant's exhibit items to be shipped from the United States. U.S. carriers must be used whenever practicable. Further, arrange for the movement of the Participant's exhibit items from the point of entry in the host country to the Exhibition site (irrespective of shipment point of origin) on condition that the Participant has complied with all shipping and marking instructions and carrier designations provided by the Department or its agent.

b. Arrange and pay for unloading from transport vehicles and unpacking of Participant's equipment at the exhibition site, placement in the display area and storage of empty shipping cartons or crates during the Exhibition.

c. Arrange and pay for the repacking of exhibit items to be shipped from the Exhibition using inbound packing materials. If it is not practicable to use the original packing material, new packaging materials will be used, the cost of which shall be borne by the participant.

d. Arrange and pay for the loading of exhibit items onto a transport vehicle at the exhibition site.

These services are to be provided on the basis of the Participant's agreement hereunder that the U.S. Government shall be held harmless against breakage or other damage to the Participant's equipment that might occur in the course of the performance of these services. Accordingly, the Participant may wish to obtain insurance to cover its risk of loss due to breakage or other damage that might so occur.

The U.S. Department of Commerce may limit the amount of cost to be incurred by the Department in connection with the unloading, placement, hookup, dismantling, and loading of exhibition equipment. Should special equipment be required beyond

that normally used for handling, installation, or operation, the Director of the U.S. Exhibition or designee will obtain it if available; additional costs incurred shall be paid by the Participant. The Director of the U.S. Exhibition, at his or her discretion, may refuse to handle exceptionally large, delicate or complex equipment not identified on the Participation Agreement.

E. The Participant Agrees To—

1. Make a financial contribution to the U.S. Department of Commerce in an amount to be established for each Exhibition for use in funding all services provided to the Participant, including market development, operating and hospitality costs of the Exhibition, and other international trade promotional activities. A signed Participation Agreement (Form ITA 4008) is to be submitted with the contribution.

2. Furnish a listing of exhibit items with the Participation Agreement. Any item not so listed is shipped at the Participant's risk and may release the Department from any or all of its obligations under these Conditions of Participation.

3. Provide a qualified representative to be on duty at the Exhibition during business hours through the term of the Exhibition. This representative shall be prepared and authorized to discuss product lines; to give price quotations on various bases, as appropriate; to make sales and related arrangements; to provide instructions at the close of the Exhibition for the disposition of the Participant's exhibit items; to make immediate payment for all overseas expenses including handling and shipping costs from the port of entry to the exhibition site, as well as such payments to the Department as are necessary to cover unusual expenses chargeable to the Participant under Section E hereof. This person should be designated and his or her name and address furnished to the Department at the earliest possible date. This person should arrive at the Exhibition site a sufficient number of days in advance of the Exhibition opening date to insure that the Participant's exhibit equipment is properly set up for demonstration and to gain familiarity with the market. At a minimum, the representative should be present two days prior to opening to also attend such functions as press previews and exhibitors' briefings.

4. Mark and ship equipment according to instructions to be furnished by the Department or its agent.

5. When directed by the Department, to document, pack, and ship catalogs, brochures, sales literature, and other expendable items separately from exhibit equipment.

6. Obtain:

a. All export licenses required by the Department's Office of Export Administration, or by any other export licensing agency, e.g., the Nuclear Regulatory Commission, the U.S. Department of Energy, and the Office of Munitions Control, U.S. Department of State, for demonstration or exhibit equipment and for the disposition abroad of exhibited equipment or any other items following the exhibition. Information concerning export license requirements may be obtained from the Office of Export Administration, Exporters' Service Branch, Washington, D.C. (202) 377–4811, or from the nearest U.S. Department of Commerce District Office.

b. Any permits necessary under host country law relevant to the operation of exhibit equipment. (While this remains the responsibility of the Participant, the Department will endeavor to ensure that Participants are advised of any such requirements.)

7.a. Before the close of the Exhibition, pay all costs of shipment of exhibit and promotional items from point of origin to the entrance of the exhibition site, including inland freight, duties, if applicable, and other charges such as port handling, transfer, cartage, freight forwarding, customs brokerage, taxes and other fees.

b. Pay any storage costs incurred before or after the Exhibition.

c. Re-export exhibit items within the time limitations set by the host country if not sold or otherwise disposed of, and pay all duties and taxes, customs and related charges which may be levied. The Participant shall comply fully with all import and customs laws of the host country.

8. Arrange for removal of exhibit items from the Exhibition site after the close of the Exhibition within a time period to be determined by the Director of the U.S. Exhibition or designee. At or before the conclusion of the Exhibition, the Participant shall provide the Director of the U.S. Exhibition or designee, in writing, with one or more of the following instructions as to the disposition of the Participant's exhibit items:

a. Release at the Exhibit site to the custody of the Participant.

b. Place in storage for further disposition in accordance with Section E, 8a, above.

c. Release at the Exhibit site to a specified third party, e.g., the buyer, freight forwarder, in accordance with Section E, 8 a and b, above.

9. Pay all costs for shipping exhibit items from the exhibition site to the next destination. If the exhibit items are not to be returned to the United States at the conclusion of the Exhibition, the Participant shall comply with any restrictions on foreign disposition established by the Office of Export Administration or any other relevant export licensing agency. If the Participant fails to provide written disposition instructions at the close of the Exhibition, the Department may, at the Participant's expense, release the Participant's exhibit items to the freight forwarder servicing the Exhibition for appropriate disposition. Failure of the Participant to furnish such instructions shall release the Department from responsibility for any disposition of the Participant's equipment including all related expenses and necessary documentation.

10. Execute a new Participation Agreement if the Participant's exhibit items are to be displayed at another Commerce-sponsored overseas exhibition. The Participant will be responsible for paying all costs involved in shipping the items to the subsequent site.

11. The Participant agrees to indemnify and hold harmless the U.S. Government, its agencies and instrumentalities, against all suits, actions, claims, costs or demands (including without limitation, those resulting from death, illness, personal injury and property loss or damage) to which the U.S. Government, its agencies and instrumentalities may be subject or put by reasons of loss of or damage of illness or injury (including death) to the property or person of any one other than the U.S. Government, its agencies, instrumentalities and personnel, arising or resulting in whole or part from the Participant's participation in the Exhibition, including but not limited to acts done or performed by the Participant, its representatives or employees, and also including but not limited to the Department's performance of services for the Participant under the terms of these Conditions of Participation.

The Participant agrees, and it is incumbent upon the Participant, to be covered at its own expense for comprehensive all-risk insurance, including casualty, accident and liability insurance in amounts adequate to cover reasonable risk of liability for death, personal injury, illness, property loss or property damage relating to acts done or performed by the Participant, its representatives or employees, and its participant otherwise in the Exhibition,

which participation includes the Department's performance of exhibition services for the Participant. (In no event shall these liability coverage amounts be less than may be required for these purposes by the laws of the host country.)

12. Provide detailed and accurate information as to the technical specification of the exhibits equipment on Product Characteristics Form (ITA–426P).

13. Provide promotional information on the Marketing Data Form (ITA–466P) and supply publicity materials in accordance with instructions furnished by the Department.

14. Provide the Director of the U.S. Exhibition or designee at the end of the Exhibition with information on the results of its participation on Exhibitor and Mission Member Report Form (ITA–4075P) or successor forms. In addition, the Participant may be requested to report business activity resulting from participation in the Exhibition on a followup questionnaire provided by the Department 12 months after the close of the Exhibition. Information provided by the Participant will be used for program evaluation purposes only. If the Participant requests that particular information be treated confidentially, the Department will honor the request to the extent possible under applicable law.

F. Other Conditions

1. The Director of the U.S. Exhibition or designee has complete authority to assign space, determine articles and methods to be used for display of items, determine location of the Participant and representation identification in booths, and has overall authority concerning matters directly relating to the U.S. Exhibition and its participants.

2. While the Department makes every effort to insure that marketing information furnished to exhibitors is reliable and up-to-date, it assumes no responsibility for any errors or omissions therein. Although the Department will make every effort to facilitate a successful exhibition, it is understood and agreed that the Department does not guarantee in any way the success of any Participant in the Exhibition. The only contractural obligations the Department assumes are those expressly made herein or mutually agreed to by an amendment in writing.

3. If, for any reason, the Participant cancels participation in the Exhibition, its financial contribution will be refunded only if written notice is received by the Department 90 days before the opening of the Exhibition. Any such notice should be addressed to the attention of the Department's Industry Officer with whom the Participant has been dealing. The Department, at its sole discretion, and upon its determination that it would be consistent with the proper operation of its exhibition program, may allow a partial or full refund of the financial contribution.

4. It is agreed that the Department or its contractors shall be absolved of liability for any damage or loss resulting from or related to the failure of the Participant to comply with the provisions of these Conditions of Participation. If the Participant fails to fulfill any of its obligations under these Conditions of Participation, the Participant's contribution may be forfeited. In the event additional costs are incurred by the Department as a result of the Participant's failure to comply with the provisions of the Conditions of Participation or instructions provided therein, such additional costs, including all attorney fees, shall be paid by the Participant.

5. While the Department will make every effort to select reliable contractors such as freight forwarders, customs brokers, designers, photographers, translators, etc., for the benefit of the Participant, is assumes no responsibility or liability for the acts of any contractor selected.

6. The Department reserves the right to cancel the Exhibition or the participation of any Participant at any time for the convenience of the Government. In the event of such cancellation, the Department shall notify the Participant but shall incur no liability to the Participant for costs incurred by the Participant except the return of the Participant's contribution.

7. Not more than five companies will be allowed to share a single booth under one Participation Agreement and one contribution. The Department will determine the number of firms permitted, up to five per booth, taking into consideration the items to be displayed. The Department will not be obligated to promote or prepare complimentary graphics or stand identification for more than one company.

8. It is understood that all applications for participation in the U.S. Exhibition are subject of approval by the Department.

Official Issuance Date: June 1, 1983.

Department of Commerce

International Trade Administration

Conditions of Participation for U.S. Trade and Seminar Missions; Notice

DEPARTMENT OF COMMERCE

International Trade Administration

Conditions of Participation for U.S. Trade and Seminar Missions

AGENCY: International Trade Administration, Commerce.

ACTION: Notice of Conditions of Participation for U.S. Trade and Seminar Missions.

SUMMARY: This notice sets forth Conditions of Participation for U.S. Trade and Seminar Missions sponsored by the U.S. Department of Commerce.

DATES: These administrative procedures are effective June 1, 1983.

ADDRESSES: Office of Event Management and Support Services, International Trade Administration, U.S. Department of Commerce, 14th & Constitution Ave., N.W., Washington, D.C. 20230.

FOR FURTHER INFORMATION CONTACT: Mr. James B. Hawes, Office of Event Management and Support Services, International Trade Administration, U.S. Department of Commerce, 14th and Constitution Ave., N.W., Washington, D.C. 20230, (202/377-0871).

SUPPLEMENTARY INFORMATION:

Conditions of Participation; Trade and Seminar Missions

A. Trade and Seminar Missions Defined

Trade Missions: overseas events planned, organized and led by Department of Commerce officers which bring groups of U.S. businesspersons into contact with foreign buyers, agents, distributors, licensees, franchisers or joint-venture partners.

Seminar missions: overseas events planned, and organized by the Department of Commerce, which promote the sale of sophisticated products or services through technical seminars presented by participants to potential foreign buyers, agents, distributors, licensees, franchisees or joint-venture partners, and chaired by an industry expert or Commerce official.

B. Criteria

Firms that participate in a Trade or Seminar Mission must use the mission to promote only products or services which in the judgement of the Department, meet one of the following criteria:

1. Manufactured or produced in the United States.

2. If manufactured or produced outside of the United States, the product or service must be marketed under the name of a U.S. firm and have U.S. content representing at least 51 percent of the value of the finished good or service.

The Mission will be composed of the representatives of a limited number of companies of which one will be designated Chairperson. Spouses are not to accompany Mission members except when the spouse is an active member of the participating firm. Each representative must be a director, officer or employee of the participating company or of the Export Management Company designated by the Participant.

C. Within Limits of Available Resources the U.S. Department of Commerce Agrees to:

1. Select a product or service category and an overseas itinerary which offer potential for export development. Selection will be based upon market research and consultation with the U.S. Foreign Service posts in the countries selected to be visited and with key trade associations and companies in the industry to be promoted.

2. Provide to each Mission member available market research relevant to the products and services to be promoted for all countries to be visited.

3. Where appropriate, or upon request, conduct a general briefing for Mission members prior to departure from the United States regarding commercial and economic conditions in the countries to be visited. If a briefing in the United States is not practicable, the briefing will be held at the first overseas stop on the Mission's itinerary. An in-depth briefing by U.S. Commercial Officers at Foreign Service posts will be conducted in each country visited.

4. Arrange a schedule of business appointments with key prospects for the goods or services of Mission members.

5. Provide information for distribution overseas describing the Mission participants, their companies, goods or services and, where appropriate, their marketing objectives. Where appropriate, this material will be in the language of the country visited.

6. Provide a Mission headquarters in each foreign location, as necessary, where individual business appointments can be scheduled and other Mission business transacted.

7. Host official receptions and/or other hospitality events, where appropriate, at or in conjunction with the U.S. Foreign Service posts to provide Mission members with the opportunity to meet key local government officials and business leaders.

8. Provide transportation schedules for members to book appropriate flights.

9. Obtain confirmed hotel reservations for Mission members in advance of each stop.

10. Provide clerical staff and interpreters as needed to assist Mission members. Each post's commercial staff will provide administrative and logistical support as needed by the Mission or arrange for outside logistical support.

11. Provide a U.S. Government official or appropriate private sector representative having extensive knowledge of the Mission theme to serve as Mission Director (Seminar Chairperson in the case of Seminar Mission).

For Seminar Mission only, the Department agrees, in addition to the above, to:

12. Provide a qualified Department of Commerce Officer to coordinate logisitics and administration.

13. Provide a suitable seminar location, including simultaneous translation equipment, if available, interpreters, and audiovisual equipment, as necessary.

D. The Participant Agrees to:

1. Make a financial contribution to the U.S. Department of Commerce in an amount to be established for the Mission for use in funding all services provided to the Participant, including market development, operating and hospitality costs of the Mission, and other international trade promotional activities. A signed Participation Agreement (Form ITA-4008) is to be submitted with the contribution.

2. Furnish detailed descriptive company and product/service information sufficiently in advance of the mission to allow for compilation and/or printing, and advance distribution.

3. Obtain information from the Department's Office of Export Administration, and/or from other licensing agencies, e.g., Nuclear Regulatory Commission, Department of Energy, and Office of Munitions Control, U.S. Department of State as to whether existing laws or regulations might impede or prevent the Participant from marketing its products or services or releasing U.S.-origin technical data in any of the countries to be visited by the Mission. If problems arise in obtaining this information, the Department will provide such assistance or facilitation as may be necessary and appropriate.

4. Promote its individual business interests, e.g., direct sales, licensing agreements; or agent/distributors arrangements.

5. Participate in scheduled briefings by the Department of Commerce and other agencies including the Foreign Service posts.

6. Keep all business appointments which have been arranged, and adhere

to the Mission program and its complete itinerary.

7. Contribute information for the Mission report and provide the results achieved on the Exhibitor and Mission Member Report Form (ITA–4075P) or successor document. If the participant requests particular information to be treated confidentially, the Department of Commerce will honor the request to the extent possible under applicable law.

8. Travel between the United States and abroad an American carriers, whenever practicable.

9. Pay representative's travel, hotel and daily living expenses.

10. Obtain entry permit visas and/or other travel documentation where necessary prior to the Mission's departure from the U.S.

11. Participants' representatives travel at their own risk. It is recommended that they be covered by adequate insurance. The company, on behalf of itself and any of its officers, employees or agents, agrees to save the U.S. Government harmless from liability for any illness, injury, loss of life, or damage or loss of property occasioned by or connected with participation in the Mission.

12. For *Trade Missions only,* The Participant agrees, to provide at its expense a qualified company executive who will participate in all Mission activities. This person shall be authorized to discuss product lines or services, to give price quotations on various bases, as appropriate, and to negotiate sales and related arrangements. The representatives should be designated at the earliest possible date and his or her name furnished to the Department of Commerce. The representative must carry a valid passport, and be a director, officer or employee of the participating U.S. company (the Participant), a subsidiary, or an Export Management Company designated by the Participant. If a participant has an agent or distributor in a country visited by the Mission, the agent or distributor may accompany the member on appointments functions and is encouraged to do so.

13. *For Seminar Mission only,* the Participant agrees to provide at its expense a qualified company executive who will participate in all Mission activities and present in each city visited a state-of-the-art or problem-solving paper that is not oriented to any particular company. The paper should be of a type that tends to demonstrate some aspect of the expertise, unique capabilities or activities of U.S. industry. To permit timely review of the paper for simultaneous interpretation preparation, where necessary, and to enable printing of the Mission brochure for the advance publicity of the mission, a copy of the seminar presentation paper and all other documentation must be submitted a designated number of days before Mission departure for review and approval by the Seminar Chairperson. All seminar papers must be approved in advance by the Department and/or the Seminar Chairperson. The Participant's representative must carry a valid passport, and be a director, officer or employee of the participating company (the Participant), a subsidiary, or an Export Management Company designated by the Participant.

E. Other Conditions

1. If, for any reason, the participating company cancels its participation, its financial contribution will not be refunded unless written notice of cancellation is received by the Department of Commerce at least 60 days before the departure of the Mission, unless a replacement is found.

2. The Department may cancel a Mission or the participation of any company for the convenience of the Government. In the event of such cancellation, any contribution made will be refunded.

3. It is understood that all applications for participation in Missions are subject to approval by the Department of Commerce.

Official issuance date: June 1, 1983.

Department of Commerce

International Trade Administration

Conditions of Participation for U.S. Catalog/Video Catalog Exhibitions; Notice

DEPARTMENT OF COMMERCE

International Trade Administration

Conditions of Participation for U.S. Catalog/Video Catalog Exhibitions

AGENCY: International Trade Administration, Commerce.

ACTION: Notice of conditions of participation for U.S. catalog/video catalog exhibitions.

SUMMARY: This notice sets forth Conditions of Participation for U.S. Catalog/Video Catalog Exhibitions sponsored by the U.S. Department of Commerce.

DATE: These administrative procedures are effective June 1, 1983.

ADDRESSES: Office of Event Management and Support Services, International Trade Administration, U.S. Department of Commerce, 14th and Constitution Ave., N.W., Washington, D.C. 20230.

FOR FURTHER INFORMATION CONTACT: Mr. James B. Hawes, Office of Event Management and Support Services, International Trade Administration, U.S. Department of Commerce, 14th and Constitution Ave., N.W., Washington, D.C. 20230, (202/377-0871).

SUPPLEMENTARY INFORMATION:

Conditions of Participation; U.S. Catalog/Video Catalog Exhibition

A. Catalog and Video Catalog Exhibition Defined

Catalog Exhibition: overseas theme-oriented exhibition which displays catalogs of U.S. companies, primarily at U.S. Embassies and Consulates.

Video Catalog Exhibition: overseas theme-oriented exhibition which combines the display of U.S. firms' catalogs with video-taped presentations of participating firms, primarily at U.S. Embassies and Consulates.

B. Criteria

Firms which participate in a Catalog Exhibition or a Video Catalog Exhibition must promote through the exhibition products or services that meet one of the following criteria:

1. Manufactured or produced in the United States;

2. If manufactured or produced outside of the United States, the product or service must be marketed under the name of a U.S. firm and have U.S. content representing at least 51 percent of value of the finished good or service.

C. Within Limits of Available Resources the U.S. Department of Commerce Agrees To—

1. Provide publicity and promotional support to attract to the exhibition potential importers, distributors, agents, buyers and end-users of the products or services featured in the exhibition.

2. Staff the exhibition with an Industry Technical Representative (ITR) who will assist visitors in finding products, services, or applications of interest to them and who will prepare a brief summary report for exhibitors and for the Department.

3. Provide management staff to mount and operate the Exhibition.

4. Provide space for the Exhibition.

5. Provide each Participant, following the close of the exhibition, with the names of those firms or individuals identified as having specific interest in the Participant's products or services and a copy of the final report prepared by the ITR.

6. Subsequent to the exhibition, place the catalogs with U.S. Foreign Service post commercial libraries, trade associations or other suitable institutions, or use them in additional promotional events, where appropriate, in order to provide continuing market exposure.

Note.—In addition to the services described in items 1–6 above, the Department of Commerce will provide the following services to participants in *video catalog exhibitions.*

7. Produce a Video Tape Recording (VTR), in sound and color, up to seven minutes long, demonstrating the features of not more than two products of the participating company, including a brief narrated introduction and a close with thematic music.

8. Display the VTR, supported by the participating company's catalogs, at a Video Catalog Exhibition (VCE) in a country or countries determined by the Department.

9. Explore opportunities to utilize the VTR in other markets. If such opportunities are found, the Participant will be contacted to obtain its approval for participation. Some opportunities may require no further funding; others might involve charges for language translation, an Industry Technical Representative, or other items. The Participant is under no obligation to participate in any presentations except those referred to in item 8 above, which is covered by the *current* contribution.

D. The Participant Agrees To—

1. Make a financial contribution to the U.S. Department of Commerce in an amount to be established for each Exhibition for use in funding all services provided to the Participant, including market development, operating and hospitality costs of the Mission, and other international trade promotion activities. Contribution of VCE participants will also cover costs of VTR production. A signed Participation Agreement (Form ITA 4008) is to be submitted with the contribution.

2. Reply promptly to any business inquiries generated by participation.

3. Furnish the required number of catalogs and other requested information on exhibitor's firm, its products and participation objectives.

4. Ship catalogs and sales literature according to shipping and marketing instructions furnished by the Department.

5. When requested by the Department, contribute information on sales results and agency agreements concluded or under negotiation. If the Participant requests particular information to be treated confidentially, the Department will honor the request to the extent possible under applicable law.

6. *Video Catalog Exhibition Participants Only*—In the event a VTR is produced live at a trade exhibition in the United States, provide a suitable person or persons to demonstrate the selected piece(s) of equipment at a time designated by the Department.

E. Other Conditions

1. The Department assumes no liability for any damage or loss resulting from or related to the failure of the Participant to comply with the provisions of these Conditions of Participation. If the exhibition is cancelled or rescheduled, or the Participant's materials do not arrive in time for production of the VTR, or the exhibitor's literature does not arrive overseas in time for display, the Participant waives all claims for liability against the U.S. Government for damages or loss to the Participant.

2. While the Department will make every effort to select reliable contractors for services such as VTR production, translation, construction, promotion, and printing, the Participant waives any claim against the U.S. Government for the acts of any contractor.

3. If, for any reason, the Participant cancels its participation, its full financial contribution *will not be refunded unless:*

Catalog Exhibition Only—written notice of cancellation is received by the Department at least 21 days before the date of the event.

Video Catalog Exhibition Only—written notice of cancellation is received by the Department prior to the production of the Participant's segment of the VTR. If a cancellation is received after a Participant's VTR has been produced, the Participant will be given a

copy of its VTR, but no refund will be made.

4. The U.S. Department of Commerce may cancel an exhibition or the participation of any company for the convenience of the Government. In the event such a cancellation occurs:

Catalog Exhibitors Only—Any contribution made by the Participant will be refunded.

Video Catalog Exhibition Only—In the event such a cancellation occurs *prior* to the production of the VTR, any contribution made by the Participant will be refunded. *If the VTR has already been produced,* the Participant will be provided with a copy of its VTR, and that part of the Participant's contribution that would have been used for the exhibition and promotion will be refunded.

5. All applications for participation in the Exhibition are subject to approval by the Department.

6. While the Department will make every effort to facilitate a successful Exhibition, it is understood and agreed that the Department does not guarantee in any way the success of the Exhibitor or the sales efforts of any Participant. The only contractual obligations the Department assumes are those expressly made herein or mutually agreed to an amendment in writing.

Department of Health and Human Services

Food and Drug Administration

Memorandum of Understanding With the Animal and Plant Health Inspection Service and the National Institutes of Health; Notice

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[FDA 225-83-8400]

Memorandum of Understanding With the Animal and Plant Health Inspection Service and The National Institutes of Health

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) has executed a memorandum of understanding with the Animal and Plant Health Inspection Service and the National Institutes of Health. The purpose of the agreement is to maintain and enhance agency effectiveness while avoiding duplication of efforts to achieve required standards for the care and use of laboratory animals. The agreement sets forth procedures of reciprocal cooperation which will assist each agency in meeting its responsibilities in promoting proper laboratory animal care and welfare.

EFFECTIVE DATE: The agreement was effective April 11, 1983.

FOR FURTHER INFORMATION CONTACT: Walter J. Kustka, Intergovernmental and Industry Affairs Staff (HFC-50). Food and Drug Administration, 5600 Fisher Lane, Rockville, MD 20857, 301-443-1583.

SUPPLEMENTARY INFORMATION: In accordance with § 20.108(c) (21 CFR 20.108(c)) stating that all agreements between FDA and others shall be published in the **Federal Register**, the agency is publishing the following memorandum of understanding:

MEMORANDUM OF UNDERSTANDING

AMONG

THE ANIMAL AND PLANT HEALTH INSPECTION SERVICE, U.S. DEPARTMENT OF AGRICULTURE, AND

THE FOOD AND DRUG ADMINISTRATION, U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES, AND

THE NATIONAL INSTITUTES OF HEALTH, U. S. DEPARTMENT OF HEALTH AND HUMAN SERVICES,

RELATING TO LABORATORY ANIMAL CARE AND WELFARE

I. Purpose

The participating agencies share a common concern for the care and welfare of laboratory animals used in research and testing. This agreement sets forth procedures of reciprocal cooperation which will assist each agency in meeting its responsibilities in promoting proper laboratory animal care and welfare. Implementation of this agreement is intended to maintain and enhance agency effectiveness while avoiding duplicaton of efforts to achieve required standards for the care and use of laboratory animals.

II. Background

The Animal and Plant Health Inspection Service, USDA

Each participating agency operates under its own authority for fostering proper animal care and welfare procedure. Primary responsibility is assigned to the U.S. Department of Agriculture (USDA) Animal and Plant Health Inspection Service (APHIS) as specified in the Animal Welfare Act and its implementing regulations (9 CFR Parts 1, 2 and 3). The USDA regulations establish standards for the humane treatment of laboratory animals and a registration procedure for identifying institutions that breed, sell, transport, hold and use such animals. Adherence to these standards is achieved primarily through voluntary compliance, although formal regulatory actions may be taken in cases of flagrant and serious noncompliance. These actions may range from the confiscation of suffering animals to the issuance of "cease and desist" orders. Compliance with the USDA regulations is monitored by an active inspection program that provides for periodic inspections by veterinary medical officers or suitably trained paraprofessionals.

Food and Drug Administration, HHS

The Food and Drug Administration (FDA) is also involved in ensuring proper procedures for the care and use of laboratory animals. The source statute is the Federal Food, Drug, and Cosmetic Act as implemented by the Good Laboratory Practice Regulations (21 CFR Part 58). These regulations establish standards for the proper conduct of nonclinical laboratory studies that include animals. Adherence to the regulations sought through voluntary compliance has been found to be effective in a majority of cases. Serious noncompliance is dealt with by procedures ranging from study rejection to laboratory disqualification. Compliance is assessed through an active program of periodic inspections carried out by trained field inspectors.

National Institutes of Health, HHS

The National Institutes of Health (NIH) implements the Animal Welfare Policy of the Public Health Service (PHS Manual Chapter 1-43 and NIH Manual Issuance 4206 and 6000-3-4.58).

Each institution which receives PHS support for research involving warm blooded laboratory animals is required to submit an acceptable assurance to NIH which commits the institution to actively promote compliance with 12 basic principles for humane care and use of laboratory animals, and with the recommendations set forth in the *Guide for the Care and Use of Laboratory Animals*. Compliance is achieved by means of (a) Review and approval of assurances; (b) site visits to institutions in response to allegations of noncompliance; (c) a program of randomly selected site visits to institutions which utilize laboratory animals—for purposes of gathering information and promoting education; and (d) a nationwide education program relating to the care and use of laboratory animals.

In addition, where NIH scientific review groups conduct on-site visits to institutions to review proposed or on-going research projects, they are encouraged to evaluate the adequacy of the care and use of laboratory animals. Finally, all scientific review groups that review research applications for scientific merit are expected to evaluate projects for compliance with the principles stated in the NIH policy when the use of laboratory animals is proposed. Clarification of responsibilities and procedures at both the institutional and NIH levels has been set fourth by the Extramural Program Management Committee Task Force 2 on Laboratory Animals. Voluntary correction of unacceptable practices is the preferred method of achieving adherence to the policy, but possible sanctions for continued noncompliance range from the suspension or termination of support of a specific project or projects of an individual investigator to withdrawal of approval of the institution's assurance, without which the institution is ineligible to receive support for research involving laboratory animals.

Shared Concerns

Although there are necessary operational differences among the animal welfare programs of the cooperating agencies, it is clear that the agencies share a concern for the care and use of laboratory animals. Common program features include evidence of concern for the welfare of laboratory animals, the promulgation and application of established standards or policies related to animal care, the maintenance of a registry/inventory of institutions and facilities subject to agency policies and regulations, the periodic conduct of routine and directed inspections or site visits, the actions designed to promote voluntary compliance, and the authority to apply a range of sanctions when the need arises.

Interagency cooperation as to common efforts provides an excellent opportunity to achieve program benefits and facilitates program operations. By sharing a perspective on acceptable standards of laboratory animal care, the agencies present a consistent approach to the regulated entities intended to foster positive compliance attitudes.

III. Substance of Agreement

The participating agencies agree to share information of mutual concern and interest about animal care and welfare programs. To facilitate the implementation of this agreement, the cooperating agencies each agree to designate a liaison officer to serve on a standing committee that will meet at a frequency of no less than once per year. Matters for consideration are to include a review of each agency's participation in this agreement and an assessment of progress made so that necessary modifications can be made. As appropriate, the committee will also function to deal with urgent issues and specific cases of serious noncompliance.

Specifically, the participating agencies agree to:

(1) Share information contained in the registry/inventory/listing of establishments that fall under the purview of the cooperating agencies;

(2) Send to one another, each quarter, a listing of establishments that have been inspected or site visited. This listing is to be used in order to avoid redundant evaluations of the same entities;

(3) Provide to each other information on significant adverse findings concerning animal care and welfare revealed by insections or site visits and on followup actions taken;

(4) Inform each other of evidence of serious noncompliance with required standards or policies for care and use of laboratory animals (including defective assurances of compliance with PHS policies) in establishments that fall under the auhority of the cooperating agencies;

(5) Request from each other comments and advice on regulatory or policy proposals involving animal care and welfare under consideration by any of the cooperating agencies; and

(6) Provide each other resource persons for scientific seminars, speeches and workshops related to animal care

IV. Liaison Officers

For the Animal and Plant Health Inspection Service:
Chief Staff Veterinarian, currently Arnett Matchett, D.V.M., M.S.
Animal and Plant Health Inspection Service
U.S. Department of Agriculture, 6505 Belcrest Road, Hyattsville, Maryland 20782 301–436–7835

For the Food and Drug Administration:
Staff Scientist, currently Paul D. Lepore, Ph.D.
Bioresearch Monitoring Staff, Food and Drug Administration, 5600 Fishers Lane, Rockville, Maryland 20857, 301–443–2390.

For the National Institutes of Health:
Director, currently Charles R. McCarthy, Ph.D.
Office for Protection from Research Risks, OD
Westwood Building, Room 3A18 (after February 1983 Building 31, Room 4B09
National Institutes of Health, Bethesda, Maryland 20205, 301–496–7005.

V. Period of Agreement

This agreement becomes effective on the date of last signature and continues indefinitely. It may be modified by mutual written consent of the three parties. The agreement may be terminated by any party upon a ninety (90) day advance written notice to the other parties.

VI. Authorizing Officials

For the Animal and Plant Health Inspection Service: James O. Lee, Jr., B.S., Acting Administrator.

For the Food and Drug Administration: Arthur H. Hayes, Jr., M.D. Commissioner.

For the National Institutes of Health: James B. Wyngaarden, M.D., Director.

Approved and accepted for the Animal and Plant Health Inspection Service, U.S. Department of Agriculture:

By: James O. Lee, Jr., M.S.
Title: Acting Administrator, APHIS
Date: April 11, 1983

Approved and accepted for the Food and Drug Administration, U.S. Department of Health and Human Services

By: Arthur Hull Hayes, Jr., M.D.
Title: Commissioner of Food and Drugs
Date: March 22, 1983

Approved and accepted for the National Institutes of Health, U.S. Department of Health and Human Services:

By: James B. Wyngaarden, M.D.
Title: Director, NIH
Date: February 3, 1983

Effective date. This memorandum of understanding became effective April 11, 1983.

Dated: May 17, 1983.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The following agencies have agreed to publish all documents on two assigned days of the week (Monday/Thursday or Tuesday/Friday). This is a voluntary program. (See OFR NOTICE 41 FR 32914, August 6, 1976.) Documents normally scheduled for publication on a day that will be a Federal holiday will be published the next work day following the holiday.

Monday	Tuesday	Wednesday	Thursday	Friday
DOT/SECRETARY	USDA/ASCS		DOT/SECRETARY	USDA/ASCS
DOT/COAST GUARD	USDA/FNS		DOT/COAST GUARD	USDA/FNS

Note: The Office of the Federal Register proposes to terminate the formal program of agency publication on assigned days of the week. See 48 FR 19283, April 28, 1983.

List of Public Laws

Note: No public bills which have become law were received by the Office of the Federal Register for inclusion in today's List of Public Laws.

Last Listing June 1, 1983

Would you like to know...

if any changes have been made to the Code of Federal Regulations or what documents have been published in the Federal Register without reading the Federal Register every day? If so, you may wish to subscribe to the *LSA* (*List of CFR Sections Affected*), the *Federal Register Index,* or both.

LSA • List of CFR Sections Affected

The LSA (List of CFR Sections Affected) is designed to lead users of the Code of Federal Regulations to amendatory actions published in the Federal Register. The LSA is issued monthly in cumulative form. Entries indicate the nature of the changes—such as revised, removed, or corrected.
$20.00 per year

Federal Register Index

The Index, covering the contents of the daily Federal Register, is issued monthly in cumulative form. Entries are carried primarily under the names of the issuing agencies. Significant subjects are carried as cross-references.
$21.00 per year

A finding aid is included in each publication which lists Federal Register page numbers with the date of publication in the Federal Register.

Note to FR Subscribers.
FR Indexes and the LSA (List of CFR Sections Affected) are mailed automatically to regular FR subscribers.

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The **Federal Register** will be furnished by mail to subscribers, free of postage, for $300.00 per year, or $150.00 for six months, payable in advance. The charge for individual copies is $1.50 for each issue, or $1.50 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the **Federal Register**.

Questions and requests for specific information may be directed to the telephone numbers listed under INFORMATION AND ASSISTANCE in the READER AIDS section of this issue.

Rules and Regulations

Federal Register
Vol. 48, No. 109
Monday, June 6, 1983

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 959

Onions Grown in South Texas; Amendment to Handling Regulation

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This final rule amends the continuing regulation § 959.322 to exempt shippers on May 29, 1983, from the usual Sunday shipping prohibition. The amendment will enable handlers to pack and ship onions that Sunday which would otherwise be lost due to extremely adverse weather conditions in the production area.

EFFECTIVE DATE: May 29, 1983.

FOR FURTHER INFORMATION CONTACT: James B. Wendland, Acting Chief, Vegetable Branch, F&V, AMS, USDA, Washington, D.C. 20250 (202) 447–2615. Copies of the marketing policy are available from him.

SUPPLEMENTARY INFORMATION:
Paperwork Reduction Act.

Information collection requirements contained in this regulation (7 CFR Part 959) have been approved by the Office of Management and Budget under the provisions of 44 U.S.C. Chapter 35 and have been assigned OMB #0581–0074. This rule received emergency clearance by telephone from OMB on May 27, 1983.

The rule has been reviewed under Secretary's Memorandum 1512–1 and Executive Order 12291 and has been designated a "nonmajor" rule. William T. Manley, Deputy Administrator, Agricultural Marketing Service, has certified that this action will not have a significant economic impact on a substantial number of small entities because it would not significantly affect costs for the directly regulated handlers.

Marketing Agreement No. 143 and Order 959, both as amended, regulate the handling of onions grown in designated counties in South Texas. It is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The South Texas Onion Committee, established under the order, is responsible for its local administration.

On May 27, 1983, the South Texas Onion Committee unanimously recommended by telephone vote that the Sunday shipping prohibition be suspended for Sunday, May 29, 1983. Heavy rains in parts of the production area, particularly the Laredo area, have prevented harvesting operations. In order to harvest the remainder of the crop in the affected area shippers will need all of the time available to them. Prohibiting the packing and shipping of onions on Sunday, May 29, would present an unreasonable and unnecessary hardship on handlers in the production area.

Findings. After consideration of all relevant matters, it is found that the following amendment will tend to effectuate the declared policy of the act.

It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice or engage in public rulemaking procedure, and that good cause exists for not postponing the effective date of this section until 30 days after publication in the **Federal Register** (5 U.S.C. 553) in that (1) compliance with this amendment will not require any special preparation on the part of handlers, (2) information regarding the committee's recommendation has been made available to producers and handlers in the production area, and (3) this amendment relieves restrictions on the handling of production area onions.

List of Subjects in 7 CFR Part 959

Marketing agreements and orders, Onions, Texas

PART 959—ONIONS GROWN IN SOUTH TEXAS

Section 959.322 *Handling regulation* (47 FR 8551, March 1, 1982; 48 FR 7427, February 22, 1983) is hereby further revised as follows:

§ 959.322 Handling regulation.

During the period beginning March 10 and ending on June 15 each season no handler may package or load onions on Sunday, except Sunday, May 29, 1983, or handle any onions except red varieties, unless they comply with paragraphs (a) through (d) or (e) or (f) of this section. However, the requirements of paragraphs (a) and (b) and the Sunday prohibition shall terminate at 11:59 p.m. on June 1 of each season.

Federal Aviation Administration

14 CFR Part 71

[Airspace Docket No. 83–AWA–2]

Alteration of Santa Barbara, CA, and Control 1176 Additional Control Areas

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment lowers the floor of a portion of the Santa Barbara, CA, and Control 1176 Additional Control Areas to provide additional controlled airspace needed to improve air traffic control services to offshore helicopter operations. This action also corrects an error in the description of the Santa Barbara, CA, Additional Control Areas.

EFFECTIVE DATE: August 4, 1983.

FOR FURTHER INFORMATION CONTACT: George Hussey, Airspace Regulations and Obstructions Branch (AAT–230), Airspace-Rules and Aeronautical Information Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC. 20591; telephone: (202) 426–8783.

SUPPLEMENTARY INFORMATION:

History

On February 7, 1983, the FAA proposed to amend Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to lower the floor of the Santa Barbara, CA, and Control 1176 Additional Control Areas (48 FR 5573). This action designates additional controlled airspace east of the Pacific Coastal Air Defense Identification Zone (ADIZ) from the southern boundary of Control 1155 to the southern boundary of Control 1176, an area generally west of Vandenburg AFB, CA. Currently, the floor of this airspace is 2,000 feet MSL and this action designates the floor at 1,200 feet MSL. The floor of a major portion of this airspace was recently lowered from 5,000 feet MSL to 2,000 feet MSL. Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received. Except for editorial changes, this amendment is the same as that proposed in the notice. Section 71.163 of Part 71 of the Federal Aviation Regulations was republished in Advisory Circular AC 70-3A dated January 3, 1983.

The Rule

This amendment to Part 71 of the Federal Aviation Regulations lowers the floor of a portion of the Santa Barbara, CA, and Control 1176 Additional Control Areas to provide additional controlled airspace needed to improve air traffic control services to offshore helicopter operations. This action also corrects an error in the description of the Santa Barbara, CA, Additional Control Area.

List of Subjects in 14 CFR Part 71

Additional control areas, Aviation safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, § 71.163 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71), is amended, effective 0901 GMT, August 4, 1983, as follows:

Santa Barbara, CA [Amended]

By deleting the words "except, that airspace extending upward from 2,000 feet MSL" and substituting for them the words "and that airspace extending upward from 1,200 feet MSL" and by deleting the words "lat. 34°19'00"N., long. 120°45'00"W.;" and substituting for them the words "lat. 34°19'36"N., long. 120°45'34"W.;"

Control 1176 [Amended]

By adding the words ", and that airspace extending upward from 1,200 feet MSL bounded by a line beginning at lat. 34°24'00"N., long. 120°30'00"W.; to lat. 34°08'45"N., long. 120°30'00"W.; to lat. 34°03'59"N., long. 120°33'09"W.; to lat. 34°19'36"N., long. 120°45'34"W.; to point of beginning."

(Secs. 307(a), 313(a), and 1110, Federal Aviation Act of 1958 (49 U.S.C. 1348(a), 1354(a), and 1510); Executive Order 10854 (24 FR 9565); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.69)

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 1291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Issued in Washington, D.C., on May 25, 1983.

John W. Baier,

Acting Manager, Airspace-Rules and Aeronautical Information Division.

[FR Doc. 83-14995 Filed 6-3-83; 8:45 am]

BILLING CODE 4910-13-M

---

14 CFR Part 71

[Airspace Docket No. 82-ANM-24]

Alteration and Revocation of Airways

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment alters the descriptions of several VOR Federal Airways in the vicinity of Great Falls, MT, by revoking the alternate route structure and by extending V-19 from Lewistown, MT, to Havre, MT. This action improves traffic flow in the area when the Hays Military Operations Area (MOA) is active, reduces chart clutter, increases safety, and reduces controller workload.

EFFECTIVE DATE: August 4, 1983.

FOR FURTHER INFORMATION CONTACT: Lewis W. Still, Airspace Regulations and Obstructions Branch (AAT-230), Airspece-Rules and Aeronautical Information Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591; telephone: (202) 426-8783.

SUPPLEMENTARY INFORMATION:

History

On March 17, 1983, the FAA proposed to amend Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to extend V-19 and revoke V-19 between Great Falls, MT, and Lewistown, MT, and revode V-120W between Great Falls and Lewistown (48 FR 11286). The airway extension would provide controlled airspace that bypasses the Hays MOA without adding excessive mileage and inconvenience to the pilot. This action aids flight planning, increases safety, and reduces chart clutter and controller workload. Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments were received. Except for editorial changes, this amendment is the same as that proposed in the notice. Section 71.123 of Part 71 of the Federal Aviation Regulations was republished in Advisory Circular AC 70-3A dated January 3, 1983.

The Rule

This amendment of part 71 of the Federal Aviation Regulations alters the description of several VOR Federal Airways in the vicinity of Great Falls, MT, by revoking the alternate route structure and by extending V-19 from Lewistown, MT, to Havre, MT. This action improves traffic flow in the area when the Hays MOA is active, reduces chart clutter, increases safety, and reduces controller workload.

List of Subjects in 14 CFR Part 71

Federal airways, Aviation safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, § 71.123 of part 71 of the Federal Aviation Regulations (14 CFR Part 71), is amended, effective 0901 GMT, August 4, 1983, as follows:

V-19 [Amended]

By deleting the words "Lewistown; Great Falls, MT, including a W alternate via INT Lewistown 274° and Great Falls 122° radials." and substituting the words "Lewistown; INT Lewistown 322° and Havre, MT, 226° radials; to Havre."

V-120 [Amended]

By deleting the words "Lewistown, MT, including a N alternate INT Great Falls 074° and Lewistown 308° radials; 41 miles, 72 miles, 85 MSL, Miles City, MT," and substituting the words "Lewistown, MT; Miles City, MT."

(Secs. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); Sec.

6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.69)

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Issued in Washington, D.C., on May 24, 1983.

John W. Baier,

Acting Manager, Airspace-Rules and Aeronautical Information Division.

BILLING CODE 4910-13-M

DEPARTMENT OF COMMERCE

International Trade Administration

15 CFR Parts 371, 376, 379, 386 and 399

[Docket No. 30510-79]

Clarification of Export Licensing Policy

AGENCY: Office of Export Administration, International Trade Administration, Commerce.

ACTION: Final rule.

SUMMARY: This rule, which neither expands nor limits the provisions of the Export Administration Regulations, amends the Regulations by clarifying various aspects of export licensing policy. Some of these amendments involve adding material inadvertently omitted in recent regulatory revisions; others involve removing provisions inadvertently retained; and others involve rewording or emphasis of current provisions for the sake of clarity and consistency.

DATES: This rule is effective June 6, 1983.

FOR FURTHER INFORMATION CONTACT: Archie Andrews, Director, Exporters' Service Staff, Office of Export Administration, U.S. Department of Commerce, Washington, D.C. 20230 (Telephone: (202) 377-4811).

SUPPLEMENTARY INFORMATION: This rule makes the following amendments to the Export Administration Regulations:

(1) A paragraph referencing outdated controls on exports in support of the 1980 Moscow Summer Olympics is removed.

(2) A clarification is added to a note instructing exporters on how to determine whether written approval from OEA is required for certain exports.

(3) Spain is added to the list of NATO countries that are not subject to certain export restrictions.

(4) A statement is added to emphasize that no technical data or software listed on the Commodity Control List may be exported under General License *GTDR*.

(5) A footnote is amended by clarifying a reference to controls on certain exports to South Africa and Namibia.

(6) A supplement is added to Part 386 listing excerpts from the Bureau of the Census Foreign Trade Statistics Regulations governing exports exempt from a Shipper's Export Declaration. This supplement is designed to help exporters locate information regarding the necessity for a Shipper's Export Declaration.

(7) The Commodity Control List is amended by adding technical notes explaining restrictions on the use of General License *GTDR* and export controls relating to instrumentation incorporating computing facilities.

These changes are made only for the sake of regulatory consistency and clarity, and neither expand nor limit the provisions of the Export Administration Regulations.

Rulemaking Requirements

In connection with various rulemaking requirements, the Office of Export Administration has determined that:

1. Under section 13(a) of the Export Administration Act of 1979 (Pub. L. 96-72, 50 U.S.C. app. 2401 *et seq.*) ("the Act") this rule is exempt from the public participation in rulemaking procedures of the Administrative Procedure Act. This rule does not impose new controls on exports, and is therefore exempt from section 13(b) of the Act, which expresses the intent of Congress that where practicable "regulations imposing controls on exports" be published in proposed form.

2. This rule does not impose a burden under the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 *et seq.*

3. This rule is not subject to the requirements of the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*

4. This rule is not a major rule within the meaning of section 1(b) of Executive Order 12291 (46 Fed. Reg. 13193, February 19, 1981), "Federal Regulation."

Therefore, this regulation is issued in final form. Although there is no formal comment period, public comments on this regulation are welcome on a continuing basis.

List of Subjects

15 CFR Parts 371, 376, 386 and 399

Exports.

15 CFR Part 379

Exports, Science and technology.

Accordingly, the Export Administration Regulations (15 CFR Parts 368-399) are amended as follows:

PART 371—[AMENDED]

§ 371.2 [Amended]

1. Paragraph (c)(13) of § 371.2 is removed.

PARTS 376 AND 379—[AMENDED]

§ 376.12 [Amended]

2. The paragraph numbered "3." in the NOTE to § 376.12 is amended by revising the phrase "If the answers to both questions in 2. are 'no,' " to read "If the answer to either question in 2. is 'no,' ".

§§ 376.14 and 376.16 [Amended]

§ 379.4 [Amended]

3. The word "Spain," is inserted between the words "Portugal," and "Turkey" in § 376.14(a), § 376.16(a), and § 379.4(h).

4. Paragraph (g) of § 379.4 is revised to read as follows:

§ 379.4 General License GTDR: Technical data under restriction.

* * * * *

(g) Restrictions applicable to software. All software exported under this General License *GTDR* requires a letter of assurance. However, no software or technical data may be exported or reexported under General License *GTDR* when such software or technical data are listed on the Commodity Control List (Supplement No. 1 to § 399.1). *See* ECCN's 1091A, 1355A and 1527A. In addition, exports of application software included in § 379.4(c) and (d) require a validated license.

* * * * *

PART 386—[AMENDED]

§ 386.6 [Amended]

5. Footnote 1 to § 386.6(a)(2) is amended by revising the phrase "is

excepted by § 385.4(a)(2)(i) through (v)" to read "is not listed in § 385.4(a)(2)".

6. Part 386 is amended by adding a Supplement No. 1 reading as follows:

Supplement No. 1: Subpart D—Exemptions from the Requirements for the Filing of Shipper's Export Declarations—of the Foreign Trade Statistics Regulations of the Bureau of the Census (15 CFR 30.50–30.57).

§ 30.50 Procedure for shipments exempt from the requirements for Shipper's Export Declarations.

Except as provided below, where an exemption from the requirement for the filing of a Shipper's Export Declaration is provided in this subpart, a notation describing the basis for the exemption shall be made on the bill of lading, air waybill, or other loading document for carrier use, with a reference to the number of the section in this part where the particular exemption is provided so that the carrier at the time of lading, and the Customs Director at the time of exportation, may verify that no declaration is required. If none of the above named documents is used, the person transporting the merchandise must be prepared to identify to the Customs Director at the port of exportation, at the time of exportation but prior to departure, any merchandise which is exempt from the requirement for the filing of a Shipper's Export Declaration and explain to the Customs Director the basis for the exemption. Where shipments are exempt from the requirement for Shipper's Export Declarations on the basis of value and destination, the appearance of the value and destination on the bill of lading, air waybill, or other loading document for carrier use, shall be acceptable as evidence of the exemption, and no reference need be made to the particular section of these regulations where the exemption is provided.

§ 30.51 Government shipments not generally exempt.

Except as provided below in this subpart, Shipper's Export Declarations are required for exports by or to U.S. Government agencies, whether or not shipped on a Government bill of lading. No general exemption is provided for Government shipments, as such.

§ 30.52 Special exemptions for shipments to the U.S. armed services.

Shipper's Export Declarations are not required for the following types of shipment to the U.S. armed services:

(a) All commodities, whether shipped commercially or through Government channels, consigned to the U.S. armed services for their exclusive use, including shipments to armed services exchange systems. (This exemption does not apply to shipments which are for the ultimate use of the U.S. armed services but which are not consigned to the U.S. armed services. However, special exceptions to the requirements of these regulations which may in some circumstances apply to shipments for the ultimate use of the U.S. armed services but not so consigned are provided in § 30.37.)

(b) Department of Defense Military Assistance Program Grant-Aid shipments being transported as Department of Defense cargo under the provisions of Customs Circular Letters VES–5–MA, March 8, 1954 (MC 133), VES–5–MA, June 17, 1954 (MC 133 S.1), VES–5–MA, May 24, 1956 (MC 133 S2) and RES–20–MC, January 25, 1960 (CC 76). Under arrangements with the Department of Defense, information on these shipments for inclusion in U.S. export statistics will be furnished directly to the Bureau of the Census by the Department of Defense. This exception from the filing of Shipper's Export Declarations does not apply to Military Assistance Program Grant-Aid shipments to Which a foreign government has taken title before exportation or to any Grant-Aid Military-Aid Program shipment moving in any manner other than as Department of Defense cargo. (See § 30.37 for possible exceptions to the full reporting requirements of § 30.7 for certain military sales shipments not exempt from the requirement for the Shipper's Export Declaration.)

§ 30.53 Special exemptions for certain shipments to U.S. Government agencies and employees.

Shipper's Export Declarations are not required for the following types of shipments to U.S. Government agencies and employees:

(a) Office furniture, office equipment, and office supplies shipped to and for the exclusive use of U.S. Government offices.

(b) Household goods and personal property shipped to and for the exclusive and personal use of U.S. Government employees.

(c) Food, medicines, and related items and other commissary supplies shipped to U.S. Government offices or employees for the exclusive use of such employees, or to U.S. Government employees cooperative or other associations for subsequent sale or other distribution to such employees.

(d) Books, maps, charts, pamphlets, and similar articles shipped by U.S. Government offices to U.S. or foreign libraries, Government establishments or similar institutions.

(e) All commodities shipped to and for the exclusive use of the Panama Canal Zone Government of the Panama Canal Company.

§ 30.54 Special exemptions for mail shipments.

Shipper's Export Declarations are not required for the following kinds of shipments by mail:

(a) Shipments (except shipments requiring a validated export license) where one or more of the following conditions are present:

(1) Either the consignor or the consignee is not a business concern.

(2) The shipment is valued at $500 or under.

(3) The goods are not mailed for commercial consideration.

(b) Technical data regardless of value, licensing requirements, and the other criteria set forth in paragraph (a) of this section.

(13 U.S.C. 302; 5 U.S.C. 301; Reorganization Plan No. 5 of 1950, Department of Commerce Order No. 35–2A, Aug. 4, 1975, 40 FR 42765)

(41 FR 9134, Mar. 3, 1976, as amended at 44 FR 38833, July 3, 1979)

§ 30.55 Miscellaneous exemptions.

Shipper's Export Declarations are not required for the following kinds of shipments:

(a) Diplomatic pouches and their contents.

(b) Human remains and accompanying appropriate receptacles and flowers.

(c) Shipments from one point in the United States to another thereof by routes passing through Mexico or Canada.

(d) Shipments from one point in Canada or Mexico to another point thereof by routes through the United States.

(e) Shipments, other than by vessel, or merchandise for which no validated export licenses are required, transported in bond through the United States and exported from another U.S. port, or transshipped and exported directly from the port of arrival.

(f) Shipments to foreign libraries, Government establishments, or similar institutions, as provided in § 30.53(d).

(g) Shipments of single gift parcels as encompassed by Office of Export Administration General License GIFT. .

(h) Shipments (except shipments requiring a validated export license) between the United States and Puerto Rico, to the Virgin Islands of the United States, and to all countries except countries included in country groups S, W, Y, and Z, as defined in the Export Administration Regulations of the Office of Export Administration (15 CFR Parts 368–399), where the value of the commodities classified under a single Schedule B number and shipped on the same exporting carrier from one exporter to one importer is $500 or under: Provided, however, that this exemption shall be conditioned upon the filing of such reports as the Bureau of the Census shall periodically require to compile statistics on $500-and-under shipments.

(i) Shipments of interplant correspondence, executed invoices and other documents, and other shipments of company business records from a U.S. firm to its subsidiary or affiliate.

(j) Shipments of pets as baggage, accompanied or unaccompanied, of persons leaving the United States, including members of crews on vessels and aircraft.

(k) Shipments for use in connection with NASA tracking systems under Office of Export Administration Project License DL–5355–S.

(l) Shipments of aircraft parts and equipment, and food, saloon, slop chest, and related stores, provisions, and supplies for use on aircraft, by a U.S. airline to its own installations, aircraft, and agents abroad, under Department of Commerce, Office of Export Administration General License RCS.

(13 U.S.C. 302; 5 U.S.C. 301; Reorganization Plan No. 5 of 1950, Department of Commerce Order No. 35–2A, Aug. 4, 1975, 40 FR 42765)

(41 FR 9134, Mar. 3, 1976, as amended at 41 FR 42845, Sept. 28, 1976; 44 FR 38833, July 3, 1979)

§ 30.56 Conditional exemptions.

Shipper's Export Declarations are not required for the following classes of commodities when they are not shipped as cargo under a bill of lading or an air waybill and do not require a validated export license, but the exporter should be prepared to make oral declaration to the Customs Director, if required:

(a) Baggage and personal effects, accompanied or unaccompanied, of persons

leaving the United States, including members of crews on vessels and aircraft, such as:

(1) Usual and reasonable kinds and quantities of wearing apparel, articles of personal adornment, toilet articles, medicinal supplies, food, souvenirs, games, and similar personal effects and their containers.

(2) Usual and reasonable kinds and quantities of furniture, household effects, household furnishings, and their containers.

(3) Usual and reasonable kinds and quantities of vehicles, such as passenger cars, station wagons, trucks, trailers, motorcycles, bicycles, tricycles, perambulators and their containers.

Provided, That the above-indicated baggage and personal effects (i) shall include only such articles as are owned by such person or members of his immediate family; (ii) shall be in his possession at the time of or prior to his departure from the United States for the foreign country; (iii) are necessary and appropriate for the use of such person or his immediate family; (iv) are intended for his use or the use of his immediate family; and (v) are not intended for sale.

(b) Tools of trade of persons leaving the United States covering usual and reasonable kinds and quantities of implements, instruments and tools of trade, occupation, or employment and their containers. *Provided,* That the above indicated tools of trade (1) shall include only such articles as are owned by such persons; (2) shall be in his possession at the time of or prior to his departure from the United States for a foreign country; (3) are necessary and appropriate and intended for the personal use of such person; and (4) are not intended for sale.

(c) Carriers' stores (including merchandise carried in ships aboard carriers for sale to passengers), supplies, and equipment for departing vessels, planes, or other carriers, including usual and reasonable kinds and quantities of bunker fuel, deck engine and steward department stores, provisions and supplies, medicinal and surgical supplies, food stores, slop chest articles, and saloon stores or supplies for use or consumption on board and not intended for unlading in a foreign country, and including usual and reasonable kinds and quantities of equipment and spare parts for permanent use on the carrier when necessary for proper operation of such carrier and not intended for unlading in a foreign country. Hay, straw, feed, and other appurtenances necessary to the care and feeding of livestock while enroute to a foreign destination are considered part of carriers' stores of carrying vessels, trains, planes, etc.

(d) Dunnage of usual and reasonable kinds and quantities necessary and appropriate to stow or secure cargo on the outgoing or any immediate return voyage of an exporting carrier, when exported solely for use as dunnage and not intended for unlading in a foreign country.

§ 30.57 Information on export declarations for shipments of types of goods covered by § 30.56 not conditionally exempt.

(a) In those cases where Shipper's Export Declarations are required for articles enumerated in § 30.56 (a) through (d) only by virtue of their being shipped under a bill of lading or an air waybill (no validated license is required) the export declaration should clearly show in the column for commodity description, in lieu of the complete commodity description a statement that the shipment consists of baggage, personal effects, household effects, ship's stores, crew's effects, or as appropriate. In such cases, Schedule B commodity numbers should not be shown on the declarations.

(b) In those cases where the articles enumerated in § 30.56 (a) through (d) require a validated export license (whether or not shipped under a bill of lading or an air waybill) the Shipper's Export Declaration must identify the shipment as baggage, personal effects, etc., and must contain all the information normally required for any exportation made under a validated export license, i.e. complete commodity description, license number, Schedule B number, quantity, value, etc.

PART 399—[AMENDED]

7. ECCN 1091A of the Commodity Control List (Supplement No. 1 to § 399.1) is amended by adding a **Technical Note** reading as follows:

ECCN 1091A * * *

Controls for ECCN 1091A:

* * * * *

List of commodities controlled by ECCN 1091A:

* * * * *

Notes:

* * * * *

Technical Note: No technical data or software controlled under this ECCN may be exported or reexported under General License *GTDR.*

Advisory Notes:

BILLING CODE 3510-25-M

15 CFR Parts 373 and 399

[Docket No. 30510-78]

Exports of Spectrum Analyzers; No Special Licensing Procedures Available; Interim Rule

AGENCY: Office of Export Administration, International Trade Administration, Commerce.

ACTION: Interim rule with request for comments.

SUMMARY: Supplement No. 1 to Part 373 of the Export Administration Regulations lists those commodities disqualified from special export licensing procedures of Part 373 for reasons of national security, nuclear non-proliferation, or foreign policy. The Commodity Control List (Supplement No. 1 to § 399.1) includes all commodities subject to Department of Commerce export controls. This rule adds real-time FFT spectrum analyzers to Supplement No. 1 to Part 373 to exclude them from special licensing considerations.

In addition, the entry on the Commodity Control List controlling the export of spectrum analyzers is amended to reflect the lack of special licensing procedures for spectrum analyzers. This rule is necessary because of concern that this equipment has applications to antisubmarine warfare activities.

DATES: This rule is effective June 6, 1983. Comments must be received by the Department August 5, 1983.

ADDRESS: Written comments (six copies when possible) should be sent to: Richard J. Isadore, Director, Operations Division, Office of Export Administration, U.S. Department of Commerce, P.O. Box 273, Washington, D.C. 20044.

FOR FURTHER INFORMATION CONTACT: Archie Andrews, Director, Exporters' Service Staff, Office of Export Administration, Department of Commerce, Washington, D.C. 20230 (Telephone: (202) 377-4811).

SUPPLEMENTARY INFORMATION:

Rulemaking Requirements and Invitation To Comment

In connection with various rulemaking requirements, the Office of Export Administration has determined that:

1. Under Section 13(a) of the Export Administration Act of 1979 (Pub. L. 96-72, 50 U.S.C. app. 2401 *et seq.*) ("the Act"), this rule is exempt from the public participation in rulemaking procedures of the Administrative Procedure Act.

However, because of the importance of the issues raised by the rule and the intent of Congress set forth in section 13(b) of the Act, this rule is issued in interim form and comments will be considered in developing a final rule. This rule may be revised before the end of the comment period. Accordingly, interested persons who desire to comment are encouraged to do so at the earliest possible time to permit the fullest consideration of their views.

2. This rule does not impose a burden under the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 *et seq.*

3. This rule is not subject to the requirements of the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*

4. This rule is not a major rule within the meaning of section 1(b) of Executive Order 12291 (46 FR 13193, February 19, 1981), "Federal Regulation."

The period for submission of comments will close August 5, 1983. All comments received before the close of the comment period will be considered by the Department in the development of final regulations. While comments received after the end of the comment period will be considered if possible, their consideration cannot be assured. Public comments that are accompanied by a request that part or all of the material be treated confidentially because of its business proprietary nature or for any other reason will not be accepted. Such comments and materials will be returned to the submitter and will not be considered in the development of final regulations.

All public comments on these regulations will be a matter of public record and will be available for public inspection and copying. In the interest of accuracy and completeness, comments in written form are preferred. If oral comments are received, they must be followed by written memoranda, which will also be a matter of public record and will be available for public review and copying. Communications from agencies of the United States Government or foreign governments will not be made available for public inspection.

The public record concerning these regulations will be maintained in the International Trade Administration Freedom of Information Records Inspection Facility, Room 4001-B, U.S. Department of Commerce, 14th Street and Pennsylvania Avenue, N.W., Washington, D.C. 20230. Records in this facility, including written public comments and memoranda summarizing the substance of oral communications, may be inspected and copied in accordance with regulations published in Part 4 of Title 15 of the Code of Federal Regulations. Information about the inspection and copying of records at the facilities may be obtained from Patricia L. Mann, the International Trade Administration Freedom of Information Officer, at the above address or by calling (202) 377-3031.

BILLING CODE 3510-25-M

FEDERAL TRADE COMMISSION

16 CFR Part 453

Trade Regulation Rule; Funeral Industry Practices

AGENCY: Federal Trade Commission.

ACTION: Change in effective date of final trade regulation rule.

SUMMARY: The effective date of the Federal Trade Commission's trade regulation rule for funeral industry practices (47 FR 42260 (1982)) is being changed to January 1, 1984, to give parties with court actions pending concerning the rule additional time to comply with the rules provisions.

ADDRESS: Office of the Secretary, Federal Trade Commission, 6th Street and Pennsylvania Avenue, N.W., Washington, D.C. 20580. Requests for copies of the funeral rule should be sent to the Public Reference Branch, Room 130.

FOR FURTHER INFORMATION CONTACT: Erica L. Summers, Division of Service Industry Practices, Bureau of Consumer Protection, Federal Trade Commission, Washington, D.C. 20580 (202) 523–3945.

SUPPLEMENTARY INFORMATION: On September 24, 1982, the Commission published in the **Federal Register** a final trade regulation rule for funeral industry practices, 16 CFR Part 453. See 47 FR 42260 (1982). Pursuant to 15 U.S.C. 57A–1 (Supp. IV 1980), the rule has been subject to congressional review for a period of 90 days of continuous legislative session. The congressional review provisions were continued by House Joint Resolution 631, making continuing appropriations for fiscal year 1983, Pub. L. 97–377, 96 Stat. 1830, 1870 (1982). The Commission's **Federal Register** notice stated that the rule would become effective three months after the expiration of the congressional review period, and that the Commission would publish a further notice advising the public of its effective date. 47 FR 42260. The congressional review period ended on May 15, 1983, without a disapproval of the funeral rule. As a result, the rule would become effective on August 15, 1983.

Ten actions to review the funeral rule are pending in the Untied States Court of Appeals for the Fourth Circuit, *Harry & Bryant Co. et al.* v. *FTC*, Nos. 82–1850(L) et al. (4th Cir.). On the Commission's motion, the Fourth Circuit deferred briefing in these actions until the expiration of the congressional review period. Under this schedule, the last briefs would be due only a few weeks before the rule was scheduled to take effect.

Therefore, in order to give the Court additional time to review the pleadings before the rule takes effect, and to give affected parties additional time to comply with the rule, the Commission is setting the rule's effective date as January 1, 1984. This date may be subject to review by the Commission if circumstances in the litigation so require.

SECURITIES AND EXCHANGE COMMISSION

17 CFR Part 270

[Release Nos. 33–6467; IC–13273; File No. S7–977]

Registration of an Indefinite Number of Investment Company Securities

AGENCY: Securities and Exchange Commission.

ACTION: Final rule; adoption of technical amendment.

SUMMARY: The Commission is adopting a technical amendment to § 270.248–2, rule 24f–2 under the Investment Company Act of 1940 that will permit issuers who have registered an indefinite number or amount of securities by filing a declaration according to that rule to omit the annual notice required by that rule with respect to any fiscal year in which such issuers have not sold securities pursuant to that declaration. Rule 24f–2 allows certain types of registered investment companies to register under the Securities Act of 1933 an indefinite number or amount of securities. The Commission believes that eligible companies which have made no sales of securities in reliance on Rule 24f–2 during the prior fiscal year should not be subject to the notice filing requirements and that the costs of preparing and filing the required notices are unwarranted.

EFFECTIVE DATE: The technical amendment to rule 24f–2 will become effective June 6, 1983.

FOR FURTHER INFORMATION CONTACT: Jane A. Kanter, Special Counsel (202) 272–2115, or Gregory K. Todd, Esq. (202) 272–7317, Office of Disclosure Legal Services, Division of Investment Management, Securities and Exchange Commission, Washington, D.C. 20549.

SUPPLEMENTARY INFORMATION: The Commission is today adopting a technical amendment to rule 24f–2 [17 CFR 270.24f–2] under the Investment Company Act of 1940 (the "1940 Act") [15 U.S.C. 80a–1 *et seq.*] that will eliminate the requirement of filing a notice pursuant to rule 24f–2 (the "Notice") with respect to any fiscal year in which an issuer, who has filed a declaration according to rule 24f–2, has not sold any securities pursuant to such declaration.

Background

Section 24(f) [15 U.S.C. 80a–24(f)] was added to the 1940 Act by the Investment Company Amendments Act of 1970 [1] to authorize the Commission to adopt: (i) Rules permitting registered investment companies to register retroactively securities sold in excess of the number or amount of securities included in the investment company's effective registration statement upon the payment of three times the normal registration fees for these securities,[2] and (ii) rules allowing certain types of registered investment companies to register an indefinite number or amount of securities. In connection with the enactment of this provision, the legislative history states:

> Occasionally, due to inadvertence, a registered investment company making a continous offering of its securities, sells more shares than are covered by its registration statement under the Securities Act of 1933. Although the number of shares sold in excess of those registered are not registered under the act, in practical effect no investor is harmed if each offeree or purchaser is given a current prospectus.[3]

In 1977, the Commission adopted rule 24f–2 permitting face-amount certificate companies, open-end management companies, and unit investment trusts ("eligible companies") to register an indefinite number or amount of securities pursuant to the conditions of that rule.[4]

Rule 24f–2 provides that an eligible company may elect to register, under the Securities Act of 1933 (the "1933 Act") [15 U.S.C. 77a *et seq.*], an indefinite number or amount of securities by including a declaration to that effect on either its original registration statement or any post-effective amendment to its registration statement, and by paying a non-refundable fee of $500.00 to the

[1] Pub. L. 91–547, 84 Stat. 1423 (1970).

[2] This provision has been implemented by rule 24f–1 [17 CFR 270.24f–1], Securities Act Release No. 5208 (November 5, 1971), [36 FR 22673 (November 27, 1971)].

[3] House Report No. 91–1382, 91st Congress, 2d Sess. 32 (August 7, 1970). The report continued by stating: However, the inadvertence may result in a violation of Section 5 of the Securities Act and any person who can show that his shares were not actually registered might be entitled to the rescission rights given by Section 12 of the Securities Act.

Id.

[4] Securities Act Release No. 5981 (November 3, 1977), [42 FR 58400 (November 9, 1977)].

Commission.[5] A company that has made such a declaration must file an annual Notice [6] setting forth, among other things, the number or amount of securities sold pursuant to rule 24f–2, and must include along with such Notice the registration fees for such securities as calculated pursuant to section 6(b) [15 U.S.C. 77f(b)] of the 1933 Act.[7] The Notice must be filed no later than six months after the end of any fiscal year during which the declaration was in effect.[8] Paragraph (b)(2) of rule 24f–2 provides that if an issuer fails to file the required Notice on time, the issuer's registration statement will then terminate and the issuer must discontinue all sales of securities pursuant to that registration statement.[9] If such an issuer intends to continue selling its securities, it must then file a new registration statement and wait until that registration statement becomes effective before it can resume selling its securities.[10]

Discussion

As discussed previously, rule 24f–2 requires that an eligible fund that has filed a declaration pursuant to the rule must, within six months after the close of the fiscal year, file a Notice making definite the number or amount of securities actually sold pursuant to such declaration and must pay the appropriate fees. The Commission is aware, however, that there may be situations in which an eligible company has not sold any securities during the fiscal year pursuant to its rule 24f–2 declaration because either: (i) The company had registered a definite number of securities not less than the number of securities sold in that year and has elected to apply those registered securities to its sales for the year; or (ii) the company has simply not made any sales of its securities during that fiscal year. In either case, at the end of its fiscal year such a company is currently required to file a Notice pursuant to rule 24f–2 even though it has not sold any securities in reliance on the rule and does not owe any registration fee. Moreover, under the rule as currently worded, the registration statement of such a company in these circumstances would be terminated if it failed to file the required Notice in a timely manner.

The principal purpose of the Notice requirement contained in rule 24f–2 is to enable the Commission to monitor the number or amount of securities sold in reliance on that rule and to ensure the payment of the appropriate registration fees for those securities sold. The Commission, consequently, believes that eligible companies, which have in effect a declaration pursuant to rule 24f–2, but which have made no sales of securities in reliance on that rule during the prior fiscal year, should not be subject to the Notice filing requirement of the rule, since there would be no discernible benefit to the public from their compliance with that requirement. Moreover, the Commission believes that for a company which has sold no securities pursuant to its rule 24f–2 declaration during the prior fiscal year the costs of preparing and filing the required Notice are unwarranted.[11]

The Commission has, therefore, decided to adopt a technical amendment to rule 24f–2 to eliminate the Notice filing requirement for a company that has sold no securities pursuant to that rule during the prior fiscal year.[12] Moreover, for reasons discussed below, the Commission has determined that it is appropriate to make this amendment effective immediately without prior notice and comment.

Adoption of the Technical Amendment Without Prior Notice

The Administrative Procedure Act [5 U.S.C. 551 *et seq.*] ("APA") generally requires that any agency or commission publish a notice of proposed rule-making that provides adequate opportunity for comment by interested persons. Section 553(b)(B) of the APA provides an exception from this requirement in situations where the agency for good cause finds that prior notice and comment are "impractical, unnecessary, or contrary to the public interest." These standards are incorporated in rule 4(b) of the Commission's Rules of Practice [17 CFR 201.4(b)], which requires publication of prior notice of proposed rule amendments "[e]xcept where the Commission finds that notice and public procedure are impracticable, unnecessary, or contrary to the public interest."

In addition, the APA provides in section 553(d) that an adopted rule must be published at least 30 days prior to the rule's effective date. However, section 553(d)(1) contains an exception to this required publication of an adopted rule and 30 day delay in effectiveness when the rule is a substantive one that grants an exception or relieves a restriction.

The purpose of this technical amendment to rule 24f–2 is to relieve an unnecessary filing burden on eligible companies. The Commission believes that this amendment to rule 24f–2 would not otherwise alter the existing regulatory framework of the rule and would have no detrimental impact on the rights of companies subject to the rule. In addition, the Commission believes that there is little likelihood that any interested person would have reason to object to the rule's adoption. Accordingly, the Commission has determined that prior notice and comment are unnecessary. Further, the Commission finds, pursuant to section 553(d)(1) of the APA, that a 30 day delay in effectiveness is not required because this amendment to rule 24f–2 grants an exception or relieves a restriction. Therefore, this amendment to rule 24f–2

[5] An eligible company may at the same time register a specific number of securities as well as elect to register an indefinite number or amount of securities pursuant to rule 24f–2. If it does, then the company must pay the appropriate fee for the definite number of securities being registered as calculated in section 6(b) of the 1933 Act [15 U.S.C. 77f(b)]. *See* 17 CFR 270.24f–2(a)(4).

[6] Rule 24f–2 was amended in 1979 to require that 5 copies of the Notice be filed with the Commission and that the issuer's 1933 Act registration number appear on the Notice. Securities Act Release No. 6038 (March 22, 1979) [44 FR 19367 (April 9, 1979)]].

[7] Paragraph (b)(1)(v) of rule 24f–2 also requires that an opinion of counsel be included indicating that the securities covered by the Notice were legally issued, fully paid, and non-assessable.

[8] Rule 24f–2(c) contains the provision that any issuer who files a Notice within two months after the end of its fiscal year may pay a fee based on the aggregate sales price of all securities sold less the aggregate price of all securities redeemed or repurchased, unless that amount has been previously applied by the issuer to reduce its fees pursuant to rule 24e–2(a) [17 CFR 270.24e–2(a)]. This provision allows the issuer to pay 1933 Act registration fees on only net securities sold during the past fiscal year.

[9] Even after an issuer's registration statement has terminated, the rule, nevertheless, requires that the issuer file a separate Notice as described in paragraph (b)(1) with respect to sales of securities made pursuant to the declaration during (i) the fiscal year for which the Notice was not timely filed and (ii) the period after the close of the fiscal year as to which such Notice was not timely filed.

[10] In its release adopting rule 24f–2 the Commission stated its view that when a registrant chooses to register shares pursuant to rule 24f–2, failure to complete the registration process by filing the Notice will result in an incomplete registration of securities which will subject the issuer, or any person liable to the issuer for failure to complete the registration process on its behalf, to the risks arising from that failure. Securities Act Release No. 5981 (November 3, 1977) [42 FR 58400 (November 3, 1977)].

[11] *See* note 5 *supra.*

[12] Simultaneously herewith the Commission is issuing a release proposing for comment two other amendments to rule 24f–2. Those proposed amendments would: (a) Require an issuer relying on rule 24f–2 to place a statement to that effect on the facing sheet of any post-effective amendment to its registration statement and to include the date upon which the issuer has filed, or intends to file, the Notice required by the rule, or a statement that the issuer need not file a Notice because it has not sold any securities in reliance on the rule for the prior fiscal year, and (b) modify the rule so that failure to file the required Notice would no longer result in termination of the issuer's registration statement.

will become effective immediately upon publication in the Federal Register.

Investment companies, Reporting requirements, Securities.

Text of Technical Amendment to Part 270

In accordance with the foregoing, Chapter II, Title 17 of the Code of Federal Regulations, Part 270 is amended as follows:

PART 270—RULES AND REGULATIONS, INVESTMENT COMPANY ACT OF 1940

In § 270.24f–2, paragraph (b)(2) is revised as follows:

§ 270.24f–2 Registration under the Securities Act of 1933 of an indefinite number of certain investment company securities.

* * * * *

(b) * * *

(2) If the Rule 24f–2 Notice is not filed within the time specified in such paragraph, the registration statement containing the declaration filed pursuant to paragraph (a)(1) of this section shall be deemed to be terminated and the registrant shall discontinue all sales of securities pursuant to such registration statement. Separate notices as described in paragraph (b)(1) of this section shall be filed as soon as practicable after such termination with respect to sales of securities made pursuant to the declaration during (i) the fiscal year as to which such notice was not timely filed, and (ii) the period after the close of such fiscal year as to which such notice was not timely filed. Nothing in this paragraph (b)(2) shall require an issuer to file a Rule 24f–2 Notice for any fiscal year in which the issuer has not sold any securities in reliance on a declaration authorized by paragraph (a)(1) of this section.

* * * * *

Statutory Authority

The technical amendment is being adopted pursuant to section 24(f) of the 1940 Act [15 U.S.C. 80a–24(f)].

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

18 CFR Part 271

[Docket No. RM79–76–154 (Texas–27), Order No. 305]

High-Cost Gas Produced From Tight Formations; Texas

June 2, 1983.

AGENCY: Federal Energy Regulatory Commission, DOE.

ACTION: Final rule.

SUMMARY: The Federal Energy Regulatory Commission is authorized by section 107(c)(5) of the Natural Gas Policy Act of 1978 to designate certain types of natural gas as high-cost gas where the Commission determined that the gas is produced under conditions which present extraordinary risks or costs. Under section 107(c)(5), the Commission issued a final regulation designating natural gas produced from tight formations as high-cost gas which may receive an incentive price (18 CFR 271.703). This rule established procedures for jurisdictional agencies to submit to the Commission recommendations of areas for designation as tight formations. This final order adopts the recommendation of the Railroad Commission of Texas that the Middle Wilcox (11,000–15,000') Formation in the Vienna Field area be designated as a tight formation under § 271.703(d).

EFFECTIVE DATE: This rule is effective July 5, 1983.

FOR FURTHER INFORMATION CONTACT: Steven Ross, (202) 357–8571, or Walter Lawson, (202) 357–8556.

SUPPLEMENTARY INFORMATION:

The Commission hereby amends § 271.703(d) of its regulations to include the Middle Wilcox (11,000–15,000') Formation in the Vienna Field area as a designated tight formation eligible for incentive pricing under § 271.703. The amendment was proposed in a Notice of Proposed Rulemaking by the Director, Office of Pipeline and Producer Regulation, issued December 30, 1982, 48 F.R. 421 (January 5, 1983) [1] based on a recommendation by the Railroad Commission of Texas (Texas), in accordance with § 271.703, that the Middle Wilcox (11,000–15,000') Formation in the Vienna Field area be designated as a tight formation.

[1] Comments and requests for a public hearing were invited and one comment in support of the recommendation was received by the Commission in this docket.

Evidence submitted by Texas supports the assertion that the Middle Wilcox (11,000–15,000') Formation in the Vienna Field area meets the guidelines contained in § 271.703(c)(2). The Commission adopts the Texas recommendation.

This amendment shall become effective July 5, 1983.

PART 271—[AMENDED]

Section 271.709 is amended by adding paragraph (d)(130) to read as follows:

§ 271.703 Tight formations.

* * * * *

(d) *Designated tight formations.* * * *

(130) *Middle Wilcox (11,000–15,000') Formation in Texas.* RM79–76 (Texas–27).

(i) *Delineation of formation.* The Middle Wilcox Formation is located in Lavaca County, Texas, Railroad Commission District 2. The designated area is located 14 miles east-southeast of the Halletsville, Texas, and 8 miles south-southeast of Sublime, Texas, and is comprised of the following 15 surveys: James Ryan A–42, Miguel Muldoon A–34, E. W. Perry A–358, Lev. T. Bostiok A–95, F. W. Perry A–358, P. Ansuldua A–621, F. Baseldua A–622, Peter Garza A–632, J. A. Wynmaker A–498, John W. Seymour A–431, H. L and B.P.R. A–523, A. M. Gillespie A–633, H. F. and W.T.R.R. A–551, H. E. and W.T.R.R. A–550, and North ½ John D. Ragsdale A–377.

(ii) *Depth.* The Middle Wilcox Formation is defined as that formation which is encountered between 11,000 feet and 15,000 feet as measured on the log of the Mitchell Energy Corporation C. F. Aschbacher No. 1 well. The top of the Middle Wilcox pay ranges in depth from approximately −11,200 feet in the north to −13,300 feet in the south.

PART 271—[AMENDED]

Section 271.703 is amended by adding paragraph (d)(129) to read as follows:

§ 271.703 Tight formations.

* * * * *

(d) *Designated tight formations.* * * *

(129) *Cleveland Formation in Texas.* RM79-76 (Texas-18).

(i) *Delineation of formation.* The Cleveland Formation is found in the northeast Texas Panhandle and consists of all of Lipscomb, Ochiltree and Hansford Counties, virtually all of Hemphill County, approximately the northern halves of Hutchinson and Roberts Counties, and approximately the northeast quarter of Wheeler County, Texas.

(ii) *Depth.* The top of the Cleveland Formation is located near 2500 feet subsea to the west in Hansford County, Texas, and near 9700 feet subsea in Wheeler County, Texas, to the southeast. The Cleveland Formation is approximately 154 feet thick as demonstrated in a type log from the Diamond Shamrock Corporation No. 1 J. A. Little Well in Lipscomb County, Texas.

[Docket No. RM79-76-178 (Texas-35); Order No. 306]

High-Cost Gas Produced From Tight Formations; Texas

June 2, 1983.

AGENCY: Federal Energy Regulatory Commission, DOE.

ACTION: Final rule.

SUMMARY: The Federal Energy Regulatory Commission is authorized by section 107(c)(5) of the Natural Gas Policy Act of 1978 to designate certain types of natural gas as high-cost gas where the Commission determined that the gas is produced under conditions which present extraordinary risks or costs. Under section 107(c)(5), the Commission issued a final regulation designating natural gas produced from tight formations as high-cost gas which may receive an incentive price (18 CFR 271.703). This rule established procedures for jurisdictional agencies to submit to the Commission recommendations of areas for designation as tight formations. This final order adopts the recommendation of the Railroad Commission of Texas that the Devonian, Fusselman, and Montoya Formations be designated as tight formations under § 271.703(d).

EFFECTIVE DATE: This rule is effective July 5, 1983.

FOR FURTHER INFORMATION CONTACT: Steven Ross, (202) 357-8571, or Walter W. Lawson, (202) 357-8556.

SUPPLEMENTARY INFORMATION: The Commission hereby amends § 271.703(d) of its regulations to include the Devonian, Fusselman, and Montoya Formations as designated tight formations eligible for incentive pricing under § 271.703. The amendment was proposed in a Notice of Proposed Rulemaking by the Director, Office of Pipeline and Producer Regulation, issued March 1, 1983, 48 FR 9298 (March 4, 1983) [1] based on a recommendation by the Railroad Commission of Texas (Texas), in accordance with § 271.703, that the Devonian, Fusselman, and Montoya Formations be designated as tight formations.

Evidence submitted by Texas supports the assertion that the Devonian, Fusselman, and Montoya Formations meet the guidelines contained in § 271.703(c)(2). The Commission adopts the Texas recommendation.

This amendment shall become effective July 5, 1983.

PART 271—[AMENDED]

Section 271.703 is amended by adding paragraphs (d) (131), (132), and (133) to read as follows:

§ 271.703 Tight formations.

* * * * *

(d) *Designated tight formations.* * * *

(131) *Devonian Formation in Texas.* RM79–76 (Texas—35).

(i) *Delineation of the formation.* The Devonian Formation is located in the Nine Mile Draw Field area of Reeves County, Texas, Railroad Commission District 8. The designated area consists of Sections 12, 13, 24, 25, 36 and 37 of T&P RR Block 55, and Sections 5, 6, 11, 12, 13, 14, 17, 18, 19, 20, 21, and 22 of T&P RR Block 54, TWP 7, Reeves County, Texas.

(ii) *Depth.* The top of the Devonian Formation is encountered between the measured depths of 13,080 and 14,120 feet, with an approximate thickness of 100 feet.

(132) *Fusselman Formation in Texas.* RM79–76 (Texas—35).

(i) *Delineation of the formation.* The Fusselman Formation is located in the Nine Mile Draw Field area of Reeves County, Texas, Railroad Commission District 8. The designated area consists of Sections 12, 13, 24, 25, 36 and 37 of T&P RR Block 55, and Sections 5, 6, 11, 12, 13, 14, 17, 18, 19, 20, 21, and 22 of T&P RR Block 54, TWP 7, Reeves County Texas.

(ii) *Depth.* The Fusselman Formation is encountered between the measured depths of 13,340 and 14,396 feet, with an approximate thickness of 80 feet.

(133) *The Montoya Formation in Texas.* RM79–76 (Texas—35).

(i) *Delineation of the formation.* The Montoya Formation is located in the Nine Mile Draw Field area of Reeves County, Texas, Railroad Commission District 8. The designated area consists of Sections 12, 13, 24, 25, 36 and 37 of T&P RR Block 55, and Sections 5, 6, 11, 12, 13, 14, 17, 18, 19, 20, 21, and 22 of T&P RR Block 54, TWP 7, Reeves County, Texas.

(ii) *Depth.* The Montoya Formation is encountered between the measured depths of 13,395 and 14,490 feet, with an approximate thickness of 475 feet.

[Docket No. RM79–179 (New Mexico–19); Order No. 307]

High-Cost Gas Produced From Tight Formations; New Mexico

June 2, 1983.

AGENCY: Federal Energy Regulatory Commission, DOE.

ACTION: Final rule.

SUMMARY: The Federal Energy Regulatory Commission is authorized by section 107(c)(5) of the Natural Gas Policy Act of 1978 to designate certain types of natural gas as high-cost gas where the Commission determined that the gas is produced under conditions which present extraordinary risks or costs. Under section 107(c)(5), the Commission issued a final regulation designating natural gas produced from tight formations as high-cost gas which may receive an incentive price (18 CFR 271.703). This rule established procedures for jurisdictional agencies to submit to the Commission recommendations of areas for designation as tight formations. This final order adopts the recommendation of the State of New Mexico Energy and Minerals Department, Oil Conservation Division that a portion of the Mesaverde Formation underlying certain lands in San Juan County, New Mexico be designated as a tight formation under § 271.703(d).

EFFECTIVE DATE: This rule is effective July 5, 1983.

FOR FURTHER INFORMATION CONTACT: Jane M. Oliver, (202) 357–8316 or Victor Zabel, (202) 357–8616.

SUPPLEMENTARY INFORMATION: The Commission hereby amends § 271.703(d) of its regulations to include a portion of the Mesaverde Formation underlying land in San Juan County, New Mexico, as a designated tight formation eligible for incentive pricing under § 271.703. The amendment was proposed in a Notice of Proposed Rulemaking by the Director, Office of Pipeline and Producer Regulation, issued February 14, 1983 (48 FR 6992, February 17, 1983),[1] based on a recommendation by the State of New Mexico Energy and Minerals Department, Oil Conservation Division (New Mexico) in accordance with § 271.703, that certain areas of the Mesaverde Formation be designated as a tight formation.

Evidence submitted by New Mexico supports the assertion that the Mesaverde Formation meets the guidelines contained in § 271.703(c)(2).[2] The Commission adopts the New Mexico recommendation.

This amendment shall become effective July 5, 1983.

DEPARTMENT OF THE TREASURY

Customs Service

19 CFR Part 101

[T.D. 83-125]

Realignment of Customs Service Field Organization

AGENCY: Customs Service, Treasury.

ACTION: General rule-related notice.

SUMMARY: This document advises the public that the regional structure of the Customs Service is being realigned.

The Norfolk, Virginia, and Washington, D.C. Customs Districts, will become part of the Southeast Region; the Nogales, Arizona, Customs District will become part of the Southwest Region; and the Great Falls, Montana, Customs District will become part of the North Central Region. Also, the boundaries of the Great Falls, Montana, Customs District will be redefined to include the States of Utah, formerly part of the San Francisco, California, Customs District, and Colorado, formerly part of the El Paso, Texas, Customs District.

These administrative changes are being made as part of Customs continuing program to obtain more efficient use of its personnel, facilities, and resources, and to provide better service to carriers, importers, and the public.

EFFECTIVE DATE: July 6, 1983.

FOR FURTHER INFORMATION CONTACT: C. Wayne Hamilton, Budget Division, U.S. Customs Service, 1301 Constitution Avenue, NW., Washington, D.C. 20229 (202-566-5187).

SUPPLEMENTARY INFORMATION:

Background

By Treasury Department Order No. 165-24, published in the **Federal Register** as T.D. 82-118 on June 25, 1982 (47 FR 27655), effective September 30, 1982, the regional management structure of the U.S. Customs Service was reorganized from nine to seven regions. With the completion of the regional consolidation as part of a continuing program to obtain more efficient use of its personnel, facilities, and resources, and to provide better service to carriers, importers, and the public, the regional structure of the Customs Service is being realigned.

The Great Falls, Montana, and Nogales, Arizona, Customs Districts, which are currently part of the Pacific Region, are being transferred to the North Central and Southwest Regions, respectively. In addition, the Norfolk, Virginia, and Washington, D.C., Customs Districts are being transferred from the Northeast Region to the Southeast Region. Finally, the boundaries of the Great Falls, Montana, Customs District are being redefined to include the State of Utah, now part of the San Francisco, California, Customs District, and the State of Colorado, now part of the El Paso, Texas, Customs District. This transfer will also alter regional boundaries because Utah, currently in the Pacific Region, and Colorado, currently in the Southwest Region, are being transferred to the North Central Region.

This realignment is in keeping with the President's program for reducing burdens on taxpayers and increasing productivity. There will be no adverse operational impact on the importing community or the traveling public and the changes will result in a more equitable distribution of workload throughout Customs.

Appropriate changes to the list of Customs regions, districts, and ports of entry, set forth in § 101.3(b), Customs Regulations (19 CFR 101.3(b)), will be made in a future document to be published in the **Federal Register.**

Executive Order 12291

Because this is a general notice which relates to the organization of Customs, it is not a regulation or rule subject to Executive Order 12291.

Regulatory Flexibility Act

This notice is not subject to the provisions of Pub. L. 96-354, the Regulatory Flexibility Act (5 U.S.C. 601-612) because that Act does not apply to a document such as this for which a notice of proposed rulemaking is not required by the Administrative Procedure Act (5 U.S.C. 551 *et seq.*), or any other law.

Drafting Information

The principal author of this document was James S. Demb, Regulations Control Branch, Office of Regulations and Rulings, U.S. Customs Service. However, personnel from other Customs offices participated in its development.

19 CFR Part 177

[T.D. 83-126]

Guidelines for the Disposition of Merchandise Samples Submitted in Connection With Ruling Requests

AGENCY: Customs Service, Treasury.

ACTION: Rule related general notice.

SUMMARY: This document provides guidelines for the handling and disposition of merchandise samples submitted in connection with requests made to Customs for rulings that interpret and apply provisions of the Customs and related laws to a specific set of facts. These guidelines are being adopted as part of Customs continuing program to obtain more efficient use of its personnel, facilities, and resources, and to provide better service to carriers, importers, and the general public. These guidelines provide pertinent information that is appropriate and helpful to persons submitting samples to Customs in connection with ruling requests.

EFFECTIVE DATE: June 6, 1983.

FOR FURTHER INFORMATION CONTACT: John T. Roth, Classification and Value Division, U.S. Customs Service, 1301 Constitution Avenue, NW., Washington, D.C. 20229 (202)-566-5868.

SUPPLEMENTARY INFORMATION:

Background

In response to the growing need for a formal procedure to govern the disposition of merchandise samples received in connection with requests for administrative rulings under Part 177 of the Customs Regulations (19 CFR Part 177), Customs has provided guidelines for the handling and disposition of these samples. Certain of the guidelines relate to the return of samples to the submitting parties. Adoption of these guidelines reflects Customs continuing program to obtain more efficient use of its personnel, facilities, and resources, and to provide better service to carriers, importers, and the general public.

Notice of Guidelines

In general and except as hereinafter provided, the guidelines provide for the return of the sample to the submitting party provided such return is requested in writing within 90 days of the date of issuance of the ruling to which the sample relates (or in the event no ruling can be issued, within 90 days of the date of notice of that fact). In certain cases, Customs may request permission to retain a sample for reference purposes. If such permission is granted, and the return of the sample was requested by the submitting party, the sample will be returned when no longer needed by Customs. The request for the return of a sample should be made at the time the sample is furnished to Customs, but must be received not later than 90 days after the date of issuance of the ruling or decision to which the sample relates (or 90 days after the date of notice that no ruling can be issued). The request should be made to the same office from which the ruling or decision was requested or, in the case of requests made after the issuance of the ruling or decision, to the office which issued that ruling or decision.

In the interests of simplicity and practicality and as a service to parties requesting administrative rulings, Customs will, upon request, package and return by mail any mailable sample. Such parcels will not be mailed insured and Customs will assume no responsibility for breakage, damage, or other loss with respect to samples returned by mail. Similarly, parties submitting samples are advised that any sample submitted may be altered, damaged, or consumed in the course of examination, testing, or analysis by Customs. Customs assumes no responsibility for such change, damage, or loss, or for loss or damage of any kind whatsoever, unless Customs has specifically assumed such liability in writing. Parties submitting samples which cannot be returned by mail, however, are responsible for arranging for the return of such samples (if such return is desired).

As of June 6, 1983, Customs will have many samples on hand which relate to rulings or decisions issued on or before this date. Any party submitting a sample with respect to a ruling or decision which was issued by Customs during the period July 1, 1982, through June 6, 1983 who desires the return of the sample (provided the sample has not already been returned), may request such return from the office which issued the ruling or decision. The request must be made in writing on or before September 6, 1983. Parties submitting samples in connection with rulings or decisions issued after June 6, 1983 will have 90 days from the date of the ruling or decision to request, in writing, the return of their samples.

Except as hereinabove provided, samples which are not retained for reference purposes by Customs or requested to be returned to the submitting party within 90 days of the date of issuance of the ruling or decision to which they relate, will be destroyed or otherwise disposed of by Customs in accordance with applicable law and regulations.

The new guidelines will be applied by Customs to requests for rulings received on and after June 6, 1983. Copies of the guidelines or further information with respect to the return of specific samples will be available on or after that date to persons submitting samples. Inquiries should be directed to the office to which the sample was submitted.

Inapplicability of Both the Delayed Effective Date Provision and the Solicitation of Comments

This document provided guidelines concerning Customs procedures and is designed to promote efficient use of personnel, facilities, and resources. Accordingly, pursuant to 5 U.S.C. 553 (b) and (d)(3), no notice of proposed rulemaking and solicitation of comments is required and good cause is found for dispensing with the delayed effective date for adoption of the new guidelines for the handling and disposing of merchandise samples submitted in connection with ruling requests.

List of Subjects in 19 CFR Part 177

Customs duties and inspection, Imports, Administrative practice and procedure.

Executive Order 12291

Because this will not result in a "major rule" as defined in section 1(b) of E.O. 12291, the regulatory impact analysis and review prescribed by section 3 of E.O. is not required.

Regulatory Flexibility Act

The regulatory flexibility analysis requirements under the provisions of sections 603 and 604 of title 5, United States Code (as added by section 3 of Pub. L. 96-354, the "Regulatory Flexibility Act") are not applicable to this document because there is no requirement to publish a notice of proposed rulemaking under the provisions of section 553, 5 U.S.C. 553.

Drafting Information

The principal author of this document was James. S. Demb, Regulations Control Branch, U.S. Customs Service. However, personnel from other Customs offices participated in its development.

Approved: May 16, 1983.

Alfred R. De Angelus,

Acting Commissioner of Customs.

John M. Walker, Jr.,

Assistant Secretary of the Treasury.

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

23 CFR Ch. I

Acceleration of Projects; Policy Statement

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of policy statement.

SUMMARY: This notice provides an interim statement of FHWA policy on acceleration of projects and how alternative methods to advance a Federal-aid project should be implemented.

EFFECTIVE DATE: June 6, 1983.

FOR FURTHER INFORMATION CONTACT: Mr. Steiner M. Silence, Chief, Special Procedures Branch, (202) 426-0334 or Mr. Edward V. A. Kussy, Office of the Chief Counsel (202) 426-0791, Federal Highway Administration, 400 Seventh Street, SW., Washington, D.C. 20590. Office hours are from 7:45 a.m. to 4:15 p.m., e.t., Monday through Friday.

SUPPLEMENTARY INFORMATION: This notice provides interim guidance to implement Section 129 of the Surface Transportation Assistance Act of 1982, Pub. L. 97-424, January 6, 1983. It sets forth current FHWA policy on acceleration of projects as part of FHWA's continuing efforts to streamline the Federal-aid highway process. This policy is based upon the results of a demonstration project accomplished under Section 141 of the 1976 Federal-Aid Highway Act. Pub. L. 94-280, 90 Stat. 444, known as the Everett Bypass Project, comments and actions taken as a result of the April 1981 report issued by the American Association of State Highway and Transportation Officials (AASHTO) titled, "Federal Mandates Contributing to Excessive Project Costs," and various meetings and workshops dealing with expedited and simplified Federal-aid procedures. The policy encourages States to make maximum use of the program to Facilitate Acceleration through Special

Techniques (FAST) and is considered part of FHWA's on-going work toward the goal of new rulemaking to streamline procedures.

The FHWA is committed to simplification of procedures for developing all highway projects. The procedures set forth in this notice are consistent with current FHWA rules. In a future rulemaking for this program, we will also be considering significant "across the board" changes to existing FHWA and State procedures and operations, which would be available to accelerate projects. Changes such as regulatory waivers and "turnkey" design/construction projects may be involved. Comments will be solicited upon further development of the program.

Every effort should be made to assure that implementation of the FAST program will accommodate a broader effort as well as provide immediate action to improve critically deficient elements of the Federal-aid highway system, obligate the increased Federal-aid funding levels for FY 1983–1986, and accomplish the objectives of Section 129 of the 1982 Surface Transportation Assistance Act (Pub. L. 97–424, 96 Stat. 2118).

Earlier instructions on acceleration of projects suggested reviews of existing policies and procedures to identify areas where changes could be made along lines of the Everett Bypass report. Those reviews should be used at this time to provide background for further implementation of this program.

Based on information received in efforts over the past two years to simplify procedures, accelerate projects, and reduce Federal mandates, it is evident that substantial time and money can be saved through systematic application of special techniques applied to selected priority projects. While suitable projects should be designated with care to allow acceleration efforts to be focused, the number of projects need not be limited to one or two per State as earlier suggested. The FAST program will identify the purpose and approach of expediting projects by special treatment including exemption from normal processing requirements. Of course, where State law requires more restrictive procedures than these, the State law is to govern.

Implementation of this program is to be carried out as follows:

—States shall immediately be advised of the availability of the FAST program to expedite their high priority work and be requested to submit their proposed FAST projects. The number of projects should reflect staffing capabilities to provide the special priority treatment required.

—The FAST projects should be selected from candidates which would: (a) have a high degree of public support and a low level of controversy, (b) provide a significant improvement to safety, traffic operation and/or economic development, (c) upon completion be of immediate use to the traveling public, and (d) be significantly expedited by the special techniques permitted.

—The State's proposal requesting approval of FAST projects should show proposed acceleration techniques to be applied, specific deadline dates for key phases and overall timesavings which may be realized.

—Upon approval by the FHWA Division Administrator, the proposed list of FAST projects, with background information, shall be provided to the FHWA Regional Administrator.

—The Regional Administrator shall coordinate program efforts regionwide and provide information, support and approvals as appropriate.

—The FAST projects shall be advanced in accordance with normal Federal-aid procedures with the following provisions:

• The FHWA Division Administrator is delegated approval authority for all FAST project actions normally reserved for higher FHWA authority unless otherwise provided below.

• Project coordinators shall be designated by the State highway agency and FHWA field offices to monitor progress and to assure there is a joint commitment to expedit.

• Coordination meetings should be held to monitor progress and to assure timely decisions are reached.

• "Milestone" meetings involving top management should be held at major project stages (e.g., Environmental Clearance/Design Approval, PS&E).

• Environmental documents requiring FHWA Headquarters approval should be transmitted to Washington immediately on preparation. Headquarters will provide appropriate comments, and, where possible, will delegate authority for approval of the final environmental impact statement (EIS) to the FHWA regional office without prior concurrence. The region may redelegate such approval to the division subject only to legal review by the Regional Counsel. Special cases may call for Headquarters participation and review during early meetings with the State, FWHA field offices, and other agencies.

• For environmental documents not requiring Headquarters approval, if no significant comments on a drâft EIS or draft 4(f) evaluation are made by Regional or Headquarters offices, processing of the final EIS or 4(f) determination may be accomplished by the Division Administrator, subject only to legal review by the Regional Counsel.

• Categorical exclusion determinations for activities not currently listed in 23 CFR 771.115(b) should be considered where appropriate and approved in accordance with 23 CFR 771.117.

• The draft environmental document should indicate which, if any, of the alternatives currently under consideration is the preferred alternative.

• A critical path schedule of development should be provided for each project showing specific deadline dates for key phases of the remaining project work where the State and Division agree this would save time.

• Where public involvement is required, continuous public involvement processes should be applied which are tailored to each project. If possible, a single combined public hearing should also be used.

• Environmental documents may include public hearing certification and location and design study documentation.

• Any necessary design consultant selection work should be started as early as possible followed by negotiations once the preferred alignment is selected.

• District, area or statewide specialty projects such as those for resurfacing should be used where time and money will be saved.

• Copies of required permit documents should be provided to all reviewing offices for concurrent action.

• State and Federal review agencies should be requested to give priority to necessary actions.

• Where more than one office is required to review elements of a project, concurrent reviews should be made wherever practical.

• Final design work may be authorized to permit engineering and environmental decisions necessary to complete a finding of no significant impact (FONSI) or an EIS and to comply with other laws and regulations which

must be accomplished coincidentally with the NEPA process.

• Value Engineering should be applied early in project development (e.g., environmental/location) to identify cost and timesaving elements.

• Sensitive right-of-way acquisitions and potential relocation problems on all major alternatives should be identified and title evidence for appraisals should be gathered not later than the evironmental study phase.

• A preliminary alignment plan should be provided to right-of-way personnel as soon as possible after identification of the preferred alternative.

• Right-of-way plan preparation should begin as soon as possible after identification of the preferred alternative.

• Necessary right-of-way work, up to the actual acquisition (negotiation) stage may be authorized prior to completion of the NEPA process.

• Last resort housing should be made available when it will significantly expedite clearing the right-of-way and facilitate relocating residents.

• A "caseworker" approach should be used on negotiations and relocation assistance by using one individual for both functions for a more personalized result.

• Use of incentive/disincentive clauses on construction contracts should be considered to save time.

• Specifications should be revised to reduce "method-type" provisions which are too time consuming considering state-of-the-art equipment and materials.

• The use of standard designs and prefabricated items should be encouraged.

• The time from bid opening to contract award should be reduced to 3 weeks or less where possible.

• The period from contract award to start of work should be minimized.

Other items which should be applied as appropriate:

• Photogrammetry, if needed, should be done very early in project development.

• Separate "Technical Reports" should be prepared to complement environmental documentation where they would expedite the process.

• Availability of critical materials should be investigated early in project development.

• Advertising periods for public hearings should be reduced to 2 weeks where consistent with applicable regulations.

• Administrative right-of-way settlement decisions should be delegated to the lowest level practical.

• End result specifications and lump sum payments may be used for selected bid items where reduced time or cost would result.

• An analysis of the project should be done to determine how construction could be reasonably staged to facilitate the earliest opening of usable segments of the project.

• A reduced contract advertising period should be considered along with use of pre-bid advertising.

Expediting planning efforts between project conception and selection for the FAST program can be done through: (1) Grouping smaller projects for inclusion in the TIP/AE by functional classification, geographical area or work type, and (2) taking advantage of the TIP/AE exclusion provisions of the joint FHWA/UMTA urban transportation planning regulations.

This program can be summarized as a systematic effort to expedite projects through exceptions to normal procedures based on predetermined priority need. The FAST procedures outlined above are designed to be consistent with existing FGHWA regulations. Additional techniques consistent with regulations may be obtainable for specific projects and should be addressed in the State submission.

Should difficulties arise in application of a specific element of a selected FAST project, work should revert to normal procedures. The State should be advised that FHWA would normally be more involved in FAST projects than may otherwise be the case especially in the instance of the Secondary Road Plan or Certification acceptance coverage. This is necessary for the FHWA Division Administrator to be able to determine if, at any stage, the selection conditions no longer apply to a particular FAST project, the State's need for the project has diminished or that serious objection by other government agencies or the public has arisen. In such case, the FHWA Division Administrator, upon coordination with the State and consideration of modifications to accommodate problems encountered shall notify the State as well as the FHWA Regional Administrator that these procedures no longer apply and normal procedures shall apply.

Issued on: May 27, 1983.

L. P. Lamm,

Deputy Federal Highway Administrator, Federal Highway Administration.

BILLING CODE 4910-22-M

DEPARTMENT OF JUSTICE

28 CFR Part 0

[Tax Division Directive No. 45]

Redelegation of Authority To Compromise and Close Civil Claims

AGENCY: Tax Division, Justice.

ACTION: Final rule.

SUMMARY: This directive supersedes Tax Division Directive No. 43. The directive gives the United States Attorneys authority to compromise and close judgments referred to them, which do not exceed $50,000, and to reject offers in compromise of judgments referred to them, regardless of amount.

EFFECTIVE DATE: This directive shall become effective June 6, 1983.

FOR FURTHER INFORMATION CONTACT: Mildred L. Seidman, Tax Division, Department of Justice, Washington, D.C. 20530, 202-724-6567.

SUPPLEMENTARY INFORMATION: The Assistant Attorney General for the Tax Division has determined that this directive is not a rule within the meaning of Executive Order 12291 or the Regulatory Flexibility Act.

List of Subjects in 28 CFR Part 0

Government employees, Organization and functions (government agencies).

Appendix to Subpart Y [Amended]

In appendix to Subpart Y—Redelegation of Authority to Compromise and Close Civil Claims, Tax Division Directive No. 43 is removed and Directive No. 44 is added as follows:

By virtue of the authority vested in me by Part 0 of Title 28 of the Code of Federal Regulations, particularly §§ 0.70, 0.160, 0.162, 0.164, 0.166, and 0.168, it is ordered as follows:

* * * * *

[Directive No. 44]

Section 1. The Chiefs of the Civil Trial Sections, the Claims Court Section, and the Appellate Section are authorized to reject offers in compromise, regardless of amount, provided that such action is not opposed by the agency or agencies involved.

Section 2. Subject to the conditions and limitations set forth in Section 7 hereof, the Chiefs of the Civil Trial Sections and Claims Court Section are authorized to:

(A) Accept offers in compromise in all civil cases in which the amount of the Government's concession, exclusive of statutory interest, does not exceed $200,000,

(B) Approve administrative settlements not exceeding $100,000,

(C) Approve concessions (other than by compromise) of civil claims asserted by the Government in all cases in which the gross amount of the original claim does not exceed $100,000.

(D) Accept offers in compromise in injunction or declaratory judgment suits against the United States in which the amount of the related liability, if any, does not exceed $200,000, and

(E) Accept offers in compromise in all other nonmonetary cases,

provided that such action is not opposed by the agency or agencies involved, and provided further that the case is not subject to reference to the Joint Committee on Taxation.

Section 3. Subject to the conditions and limitations set forth in Section 7 hereof, the Chief of the Appellate Section is authorized to:

(A) Accept offers in compromise with reference to litigating hazards of the issues on appeal in all civil cases in which the amount of the Government's concession, exclusive of statutory interest, does not exceed $200,000,

(B) Accept offers in compromise in declaratory judgment suits against the United States in which the amount of the related liability, if any, does not exceed $200,000, and

(C) Accept offers in compromise in all other nonmonetary cases which do not involve issues concerning collectibility,

provided that such action is not opposed by the agency or agencies involved or the chief of the section in which the case originated, and provided further that the case is not subject to reference to the Joint Committee on Taxation.

Section 4. Subject to the conditions and limitations set forth in Section 7 hereof, the Chief of the Office of Review shall have authority to:

(A) Accept offers in compromise in all civil cases in which the amount of the Government's concession, exclusive of statutory interest, does not exceed $500,000,

(B) Approve administrative settlements not exceeding $500,000,

(C) Approve concessions (other than by compromise) of civil claims asserted by the Government in all cases in which the gross amount of the original claim does not exceed $500,000,

(D) Accept offers in compromise in all nonmonetary cases, and

(E) Reject offers in compromise, or disapprove administrative settlements or concessions, regardless of amount,

provided that the action is not opposed by the agency or agencies involved or the chief of the section to which the case is assigned, and provided further that the case is not subject to reference to the Joint Committee on Taxation.

Section 5. Subject to the conditions and limitations set forth in Section 7 hereof, the Deputy Assistant Attorneys General and the Special Counsel to the Assistant Attorney General each shall have authority to:

(A) Accept offers in compromise of claims against the Government in all cases in which the amount of the government's concession, exclusive of statutory interest, does not exceed $750,000,

(B) Approve administrative settlements not exceeding $750,000,

(C) Accept offers in compromise of claims in behalf of the Government in all cases in which the difference between the gross amount of the original claim and the proposed settlement does not exceed $750,000 or 10 percent of the original claim, whichever is greater,

(D) Approve concessions (other than by compromise) of civil claims asserted by the Government in all cases in which the gross amount of the original claim does not exceed $750,000,

(E) Accept offers in compromise in all nonmonetary cases, and

(F) Reject offers in compromise, or disapprove administrative settlements or concessions, regardless of amount,

provided that such action is not opposed by the agency or agencies involved, and provided further that the case is not subject to reference to the Joint Committee on Taxation.

Section 6. Subject to the conditions and limitations set forth in Section 7 hereof, United States Attorneys are authorized to:

(A) Reject offers in compromise of judgments in favor of the Government regardless of amount,

(B) Accept offers in compromise of judgments in favor of the Government where the amount of the judgment does not exceed $50,000, and

(C) Terminate collection activity by that office as to judgments in favor of the Government which do not exceed $50,000 if the United States Attorney concludes that the judgment is uncollectible,

provided that such action has the concurrence in writing of the agency or agencies involved, and provided further that this authorization extends only to judgments which have been formally referred to the United States Attorney for collection.

Section 7. The authority redelegated herein shall be subject to the following conditions and limitations:

(A) When, for any reason, the compromise or administrative settlement or concession of a particular claim, as a practical matter, will control or adversely influence the disposition of other claims totalling more than the respective amounts designated in Sections 2, 3, 4, 5 and 6 the case shall be forwarded for review at the appropriate level.

(B) When, because of the importance of a question of law or policy presented, the position taken by the agency or agencies or by the United States Attorney involved, or any other considerations, the person otherwise authorized herein to take final action (or the Chief of the Office of Review, in cases which have been considered by such office) is of the opinion that the proposed disposition should be reviewed at a higher level, the case shall be forwarded for such review.

(C) If the Department has previously submitted a case to the Joint Committee on Taxation leaving one or more issues unresolved, any subsequent compromise or concession in that case must be submitted to the Joint Committee, whether or not the overpayment exceeds the amount specified in Section 6405 of the Internal Revenue Code.

(D) Nothing in this Directive shall be construed as altering any provision of Subpart Y of Part 0 of Title 28 of the Code of Federal Regulations requiring the submission of certain cases to the Attorney General, the Deputy Attorney General, or the Solicitor General.

(E) Authority to approve recommendations that the Government confess error, or make administrative settlements, in cases on appeal, is excepted from the foregoing redelegations.

(F) The Assistant Attorney General, at any time, may withdraw any authority delegated by this directive as it relates to any particular case or category of cases, or to any part thereof.

Section 8. This Directive supersedes Tax Division Directive No. 43, effective April 19, 1983.

Section 9. This Directive shall become effective on the date of its publication in the Federal Register.

Glenn L. Acher, Jr.,

Assistant Attorney General, Tax Division.

Approved:

Edward C. Schmultz,

Deputy Attorney General.

May 25, 1983.

BILLING CODE 4410-01-M

DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

30 CFR Part 946

Approval of Permanent Program Amendments From the State of Virginia Under the Surface Mining Control and Reclamation Act of 1977

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Interior.

ACTION: Final rule.

SUMMARY: This document amends 30 CFR Part 946 by removing one of the conditions of approval of the Virginia permanent regulatory program under the Surface Mining Control and Reclamation Act of 1977 (SMCRA). Virginia has submitted provisions to OSM which satisfy condition (q) relating to awarding of costs and attorneys' fees against the State in judicial and administrative proceedings imposed by the Secretary of the Interior in his approval of the Virginia program. The document also amends 30 CFR 946 by the inclusion of an amendment to correct an erroneous cross-reference in the Virginia Surface Mining Control and Reclamation Act of 1979 (Virginia SMCRA) which was submitted as a program amendment to the Virginia program under the provisions of 30 CFR 732.17.

After providing opportunity for public comment and conducting a thorough review of the program amendments, the Secretary of the Interior has determined

that the modifications to the Virginia program satisfy condition (q) of the Secretary's approval and that the additional modification meets the requirements of SMCRA and the Federal permanent program regulations. Accordingly, the Secretary of the Interior has removed the condition from his approval of the Virginia program and approved the additional modification.

Part 946 of 30 CFR Chapter VII is being amended to implement this decision.

EFFECTIVE DATE: June 6, 1983.

FOR FURTHER INFORMATION CONTACT: Arthur W. Abbs, Chief, Division of State Program Assistance, Office of Surface Mining, 1951 Constitution Avenue, Washington, D.C. 20240; Telephone: (202) 343–5351.

SUPPLEMENTARY INFORMATION: On March 3, 1980, the Secretary of the Interior received a proposed regulatory program from the Commonwealth of Virginia. On October 22, 1980, following a review of the proposed program as outlined in 30 CFR Part 732, the Secretary approved in Part and disapproved in part the proposed program (45 FR 69977–70000). Virginia resubmitted its proposed regulatory program on August 13, 1981, and after a subsequent review, the Secretary approved the program subject to the correction of 19 minor deficiences. The approval was effective upon publication of the notice of conditional approval in the December 15, 1981 Federal Register (46 FR 61088–61115).

Information pertinent to the general background, revisions, modifications, and amendments to the proposed permanent program submission, as well as the Secretary's findings, the disposition of comments and a detailed explanation of the conditions of approval of the Virginia program can be found in the December 15, 1981 Federal Register. Information pertinent to the previous amendments submitted by Virginia to satisfy 17 of the conditions can be found in the July 21, 1982 Federal Register (47 FR 31549) and in the December 13, 1982 Federal Register (47 FR 55675).

One of the minor conditions of the approval imposed by the Secretary was as follows:

> Condition (q) requires Virginia to submit a copy of enacted law or otherwise amend its program to provide for the awarding of costs and attorneys' fees against the State in judicial and administrative proceedings consistent with section 525(e) of SMCRA.

On March 22, 1983, Virginia submitted an act passed by the Virginia General Assembly which amends Section 45.1–249 and 45.1–251 of the Virginia SMCRA to satisfy condition (q) set by the Secretary in his conditional approval (Administrative Record No. VA 463). This act amends the Virginia SMCRA to provide for the award of costs and expenses, including attorneys' fees, against the State in judicial and administrative proceedings.

Also, in the March 22, 1983 letter, Virginia submitted two additional proposed revisions to the Virginia SMCRA. One of the proposed revisions amends Sections 45.1–240 to correct an erroneous cross-reference in the Virginia SMCRA. The second proposed revision, which is the subject of a separate notice of rulemaking (48 FR 17071, April 21, 1983), amends Section 45.1–234 of the Virginia SMCRA to subject interim program operations to the penalty and enforcement provisions of the Virginia SMCRA and the penalty and enforcement regulations implementing those sections.

OSM published a notice in the Federal Register on April 19, 1983, announcing receipt of the amendments and inviting public comment on whether the proposed program amendment corrected the deficiency (48 FR 16707). The public comment period ended May 19, 1983. A public hearing scheduled for May 16, 1983, was not held because no one expressed a desire to present testimony.

Secretary's Findings

The Secretary finds, in accordance with SMCRA and 30 CFR 732.17 and 732.15, that the program amendments submitted by Virginia on March 22, 1983, meet the requirements of SMCRA and 30 CFR Chapter VII as set forth below.

1. *Condition (q).* Virginia has revised Sections 45.1–249 and 45.1–251 of the Virginia SMCRA to provide for the award of costs and expenses, including attorneys' fees, to any party to any judicial or administrative proceeding and to assess such costs and expenses against any other party as deemed proper. Further, the term "party" includes the Commonwealth or any of its agents, officers or employees. The Secretary finds this amendment to be in accordance with section 525(e) of SMCRA and to satisfy the condition.

2. *Non-substantive correction to the Virginia SMCRA.* Virginia has revised Section 45.1–240 of the Virginia SMCRA to correct an erroneous cross-reference. The amendment relates to the decision of the Director upon a permit application, hearing and appeal. Specifically, the correction changes the erroneous cross-reference relating to informal hearings from Section 45.1–255 to the correct citation of Section 45.1–239 of the Virginia SMCRA. The Secretary finds this amendment consistent with the requirements of SMCRA and the Federal regulations.

Part 946 of 30 CFR Chapter VII is being amended to reflect approval of the above State program modifications. Also, 30 CFR Part 946 is being reorganized and expanded to reflect all final actions to date pertaining to State program amendments submitted by Virginia. This reorganization should afford the reader a clearer indication of the Secretary's approval or disapproval of Virginia's State program amendments.

Public Comment

No comments were received from the public on Virginia's proposed amendments. Comments from Federal agencies were limited and did not identify any specific deficiencies of the proposed program amendments.

Pursuant to section 503(b) of SMCRA and 30 CFR 732.17(h)(10)(i), of those Federal agencies invited to comment, comments were received from the following: Fish and Wildlife Service, Bureau of Mines, Bureau of Land Management, Mine Safety and Health Administration, and the Army Corps of Engineers.

Additional Determinations

1. *Compliance with the National Environmental Policy Act:* The Secretary has determined that, pursuant to Section 702(d) of SMCRA, 30 U.S.C. 1292(d), no environmental impact statement need be prepared on this rulemaking.

2. *Executive Order No. 12291 and the Regulatory Flexibility Act:* On August 28, 1981, the Office of Management and Budget (OMB) granted OSM an exemption from Section 3, 4, 7, and 8 of Executive Order 12291 for actions directly related to approval or conditional approval of State regulatory programs. Therefore, this action is exempt from preparation of a Regulatory Impact Analysis and regulatory review by OMB.

The Department of the Interior has determined that this rule will not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). This rule will not impose any new requirements; rather, it will ensure that existing requirements established by SMCRA and the Federal rules will be met by the State.

3. *Paperwork Reduction Act:* This rule does not contain information collection requirements which require approval by the Office of Management and Budget under 44 U.S.C. 3507.

List of Subject in 30 CFR Part 946

Coal mining, Intergovernmental relations, Surface mining, Underground mining.

Therefore, Part 946 of 30 CFR Chapter VII ia amended as set forth herein.

Dated: May 31, 1983.

Daniel N. Miller, Jr.,

Assistant Secretary for Energy and Minerals.

(Pub. L. 95–87, Surface Mining Control and Reclamation Act of 1977 (30 U.S.C. 1201 *et seq.*))

PART 946—VIRGINIA

1. 30 CFR 946.10 is revised to read:

§ 946.10 State regulatory program approval.

The Virginia State Program, as submitted on March 3, 1980, as amended and clarified on June 16, 1980, as resubmitted on August 13, 1981, and clarified in a meeting with OSM on September 21 and 22, 1981, and in a letter to the Director of the Office of Surface Mining on October 15, 1981, is conditionally approved, effective December 15, 1981. Beginning on that date, the Department of Conservation and Economic Development, Division of Mined Land Reclamation, shall be deemed the regulatory authority in Virginia for all surface coal mining and reclamation operations and all exploration operations on non-Federal and non-Indian lands. Copies of the conditionally approved program, as amended, are available for review at:

(a) Virginia Division of Mined Land Reclamation, Drawer U, 622 Powell Avenue, Big Stone Gap, Virginia 24219
(b) Virginia Department of Conservation and Economic Development, 1100 State Office Building, Richmond, Virginia 23219
(c) Office of Surface Mining, Reclamation and Enforcement, Flannagan and Carroll Streets, Lebanon, Virginia 24266
(d) Office of Surface Mining, Reclamation and Enforcement, Room 5315, 1100 L Street, N.W., Washington, D.C. 20240

2. 30 CFR 946.11 is amended to remove and reserve paragraph (q).

§ 946.11 Conditions of State regulatory program approval.

* * * * *

(q) [Reserved]

* * * * *

3. Part 946 is amended by adding a new § 946.12 as set forth below:

§ 946.12 State program provisions disapproved.

(a) The following provisions were disapproved effective April 22, 1983: §§ 45.1–364.A.1, 45.1.–364.A.3 and 45.1–364.A.4 of Chapter 23 of the Code of Virginia; and 3.01(a)(1), 3.01(a)(5) and 3.01(a)(4) of the Virginia Coal Surface Mining and Reclamation Regulations for Operations Disturbing Two Surface Acres or Less.

4. Part 946 is amended by adding a new § 946.15 as set forth below:

§ 946.15 Approval of regulatory program amendments.

(a) The following amendment was approved effective July 21, 1982: Virginia's revised policy statement granting authority to field inspectors to issue cessation orders for imminent danger or harm, submitted January 28, 1982, to satisfy condition (k).

(b) The following amendments were approved effective August 19, 1982:

(1) Section 33.1–246.1 of the Virginia Surface Mining Control and Reclamation Act (Virginia SMCRA), repealed upon adoption of House Bill 975 and upon approval of the amendment by the Secretary of the Interior, submitted July 9, 1982.

(2) Virginia revised regulations, § V816.150 and V817.150, submitted July 9, 1982.

(c) The following amandments were approved effective September 21, 1982:

(1) New §§ 45.1–270.1—45.1–270.7 of the Virginia SMCRA, submitted July 8, 1982.

(2) Virginia revised regulations, § V808.15, new part V809 and appropriate reference changes to remainder of Subchapter VJ.

(d) The following amendments were approved effective December 13, 1982:

(1) Virginia revised regulations, submitted August 13, 1982, to satisfy conditions (a), (b), (c), (d), (e), (f), (g), (h), (i), (j), (l), (m), (n), (o), (p) and (s).

(2) Amended § 45.1–235(C) of the Virginia SMCRA and Virginia revised regulations, submitted August 13, 1982.

(e) The following amendment was approved effective January 18, 1983: Virginia revised regulations, Section V809, submitted September 30, 1982.

(f) The following amendment was approved effective February 28, 1983: Virginia revised regulations, § V809.11, submitted December 20, 1982.

(g) The following amendment was approved effective April 21, 1983: Amended § 45.1–234 of the Virginia SMCRA, submitted March 22, 1983.

(h) The following amendment was approved effective April 22, 1983: Chapter 23 of Title 45 of the Code of Virginia and the Virginia Coal Surface Mining Reclamation Regulations for Operations Disturbing Two Surface Acres or Less except for the provisions listed at 30 CFR 946.12, submitted on July 9, 1982.

(i) The following amendments were approved effective June 6, 1983:

(1) Amended §§ 45.1–249 and 45.1–251 of the Virginia SMCRA, submitted March 22, 1983, to satisfy condition (q).

(2) Amended § 45.1–240 of the Virginia SMCRA, submitted March 22, 1983.

BILLING CODE 4310–05–M

DEPARTMENT OF TRANSPORTATION

Coast Guard

33 CFR Part 100

[CGD5–83–02]

Regatta; Norfolk Harborfest

AGENCY: Coast Guard, DOT.

ACTION: Final rule.

SUMMARY: Special local regulations are being adopted for the City of Norfolk Harborfest regatta. This event will be held on June 10–12, 1983 at the Norfolk waterfront. The regulations are needed to provide for the safety of life on navigable waters during the event.

EFFECTIVE DATE: These regulations are effective from 10 a.m. EDST to 10:30 p.m. EDST on June 10, 1983; from 8 a.m. EDST to 11 p.m. EDST on June 11, 1983; and from 9 a.m. EDST until 10 p.m. EDST on June 12, 1983.

FOR FURTHER INFORMATION CONTACT: Lieutenant Commander Duane I. Preston, Chief, Boating Affairs Branch, Fifth Coast Guard District, 431 Crawford Street, Portsmouth, Virginia 23705 (804–398–6204).

SUPPLEMENTARY INFORMATION: On March 24, 1983 the Coast Guard published a notice of proposed rule making in the **Federal Register** for this regulation (48 FR 12398). Interested persons were requested to submit comments and no comments were received. The final rule is being made effective in less than 30 days. The application to hold the event was not received in sufficient time to provide for a delayed effective date.

Drafting Information

The drafters of this notice are LCDR Duane I. Preston, project officer, Chief, Boating Affairs Branch, Fifth Coast Guard District, and CDR David J. Kantor, project attorney, Fifth Coast Guard District Legal Office.

Discussion of Regulations

The annual City of Norfolk Harborfest is scheduled to be held on June 10–12,

1983 at the Norfolk waterfront. Numerous water events, including ski shows, boat races, and military demonstrations, are scheduled to take place on the Elizabeth River. In addition, approximately 400 spectator craft are expected to attend the event. As a result, it will be necessary to designate a portion of the Elizabeth River as a regulated area to promote safety of life during Harborfest.

List of Subjects in 33 CFR Part 100

Marine safety, Navigation (water).

Regulations

PART 100—[AMENDED]

In consideration of the foregoing, Part 100 of Title 33, Code of Federal Regulations, is amended by adding a temporary § 100.35–501 to read as follows:

§ 100.35–501. Norfolk Harborfest.

(a) *Regulated Area.* Those waters of the Elizabeth River and its branches from shore to shore and bounded by the Midtown tunnel on the north, the Downtown tunnel on the south, and the Berkley Bridge on the east.

(b) *Special Local Regulations.*—(1) Except for participants in the Norfolk Harborfest or persons or vessels authorized by the Coast Guard Patrol Officer, no person or vessel may enter or remain in the regulated area.

(2) The operator of any vessel in the immediate vicinity of this area shall:

(i) Stop his vessel immediately upon being directed to do so by any Coast Guard officer or petty officer on board a vessel displaying a Coast Guard ensign, and

(ii) Proceed as directed by any Coast Guard officer or petty officer.

(3) Any spectator vessel may anchor outside of the area specified in paragraph (a) of these regulations;

(4) The Coast Guard Patrol Officer is a commissioned officer of the Coast Guard who has been designated by the Commander, Fifth Coast Guard District. The Patrol Commander will be stationed at the reviewing platform at Town Point; and

(5) These regulations and other applicable laws and regulations shall be enforced by Coast Guard officers and petty officers on board Coast Guard and private vessels displaying the Coast Guard ensign.

(46 U.S.C. 454; 49 U.S.C. 1655(b); 49 CFR 1.46(b); and 33 CFR 100.35)

Dated: May 23, 1983.

W. D. Markle, Jr.,

Acting Chief, Marine Safety Division, Fifth Coast Guard District.

BILLING CODE 4910–14–M

DEPARTMENT OF AGRICULTURE

Forest Service

36 CFR Part 222

Management of Wild, Free-Roaming Horses and Burros

AGENCY: Forest Service, USDA.

ACTION: Final rule.

SUMMARY: This final rulemaking provides that the Chief of the Forest Service will charge a fee for the adoption of wild, free-roaming horses or burros. This fee is the same as is established by the United States Department of the Interior, Bureau of Land Management. A fee is needed to recover part of the costs incurred by the United States in connection with the adoption program. This action will establish uniform fees and procedures for the public to follow, regardless of the Federal agency to which the public applies for custody of excess animals.

EFFECTIVE DATE: The rule shall be effective June 6, 1983.

FOR FURTHER INFORMATION CONTACT: Robert M. Williamson, USDA, Forest Service, Range Management Staff, P.O. Box 2417, Room 610 RPE, Washington, D.C. 20013 (703) 235–8139.

SUPPLEMENTARY INFORMATION: The Wild, Free-Roaming Horse and Burro Protection Act of 1971 (85 Stat. 649, as amended; 16 U.S.C. 1331 et seq.) directed the Secretaries of Agriculture and the Interior to protect wild, free-roaming horses and burros on public lands administered by the Forest Service and the Bureau of Land Management (BLM). Of the approximately 57,000 horses and burros on public lands, 95 percent are found on lands administered by BLM, and 5 percent on lands administered by the Forest Service.

As part of its protection and management of wild, free-roaming horses and burros, BLM has established an Adopt-a-Horse Program for placement of excess animals. Through joint agreement between BLM and the Forest Service, 80 percent of the excess animals removed from National Forest System lands are placed in private custody through BLM's adoption program. The remaining 20 percent are placed directly by the Forest Service, through its own adoption procedures.

On March 4, 1983, BLM published final rules establishing fee levels for the adoption of wild, free-roaming horses and burros (48 FR 9260). The BLM rule requires that a $25 fee accompany each application filed by a person wishing to take custody of a horse or burro and also requires that, in addition to an adoption fee, the applicant pays the costs of transporting the animal(s) to the point of pickup.

The requirement that an application for adoption of a horse or burro be accompanied by a nonrefundable payment of $25 is necessary to discourage frivolous applications from individuals who are not actually prepared to adopt or are not seriously interested in adopting animals. Reducing the number of unsuitable applicants will reduce administrative costs of processing such applications and of notifying applicants of available animals. For those whose adoption applications are approved, the $25 application fee is credited toward the adoption fee.

Under the BLM rules transportation costs are charged to those adopters who do not choose to pick up animals at a

holding facility near the point of capture. It would not be fair to charge a transport fee to adopters living nearby. To do so would, in effect, subsidize those adopters whose actual transportation costs would be greater than the adoption fee charged

Consistent with statutory direction that the Secretaries of Agriculture and the Interior coordinate the horse and burro protection activities of their respective departments "to the maximum feasible extent", the Department of Agriculture has decided that the Forest Service will adopt the same fee levels and requirements as used by BLM when the Forest Service makes direct placement of excess animals to private parties.

In addition to these changes, the rule deletes the requirement of the current rule that unless waived in writing the application for title shall include a written statement by a licensed veterinarian attesting that the animal is in good condition. As a practical matter, Forest Service officials have routinely waived this requirement because the cost and burden to the applicant was inpeding titling of excess animals and thus undermining the objective of the adoption program. In practice, the Forest Service can certify the condition of the animal without such statements.

In accordance with exceptions to rulemaking procedures in 5 U.S.C. 553 and Department of Agriculture policy (36 FR 13804), it has been found and determined that advance notice and request for comments is unnecessary since public comments have been received on the substance of the rule as part of the rulemaking initiated by the BLM. Adoption of this final rule brings USDA into conformance with BLM adoption fee requirements and establishes uniform fees and procedures for the public to follow regardless of the agency to which the public applies for custody of excess animals. Moreover, the BLM fee is now in effect and is lower than that presently charged by the Forest Service. Therefore, it is advantageous to potential adoptees and, therefore, to the adoption program to put this rule into effect now rather than wait the customary 30 days.

Because this rule will probably affect no more than 80 excess animals per year and because adoption of these animals is wholly a matter of voluntary initiative by private parties, it has been determined that this is not a major rule as defined in E.O. 12291 and that the rule, in fact, has minimal, if any, impact on costs, prices, or the economy. Likewise the Assistant Secretary for Natural Resources and Environment has determined that this rule will not have a significant impact on a substantial number of small entities as defined in the Regulatory Flexibility Act (15 U.S.C. 601 et seq.) and therefore does not require a regulatory flexibility analysis. It has further been determined that this rule will not result in any significant impact on the quality of the human environment. This rule contains no information collection requirement. In fact, it eliminates a requirement that applicants seeking title provide a written statement by a licensed veterinarian attesting that the animal is in good condition. Removing this requirement relieves applicants of the burden of arranging for these statements and of the cost associated with the veterinarian's inspection, which averages about $30 per animal.

List of Subjects in 36 CFR Part 222

Grazing lands, Livestock, National forests, National grasslands, Range management, Wildlife (horses and burros).

Therefore, for the reasons set forth in the preamble, Subpart B of Part 222 of Chapter II, Title 36 of the Code of Federal Regulations is hereby amended by revising paragraph (e) of § 222.29 and adding a new paragraph (f) to read as follows:

PART 222—RANGE MANAGEMENT

Subpart B—Management of Wild Free-Roaming Horses and Burros

§ 222.29 Relocation and disposal of animals

* * * * *

(e) The applicants must make written application for title and/or adoption, must be of legal age in the State in which they reside, and must pay fees for adoption and transportation as follows:

(1) The application must be accompanied by a nonrefundable advance payment of $25 by guaranteed remittance. If custody of a wild, free-roaming horse or burro is granted by the authorized Forest Service officer, the advance payment shall be applied against the adoption fee required to be paid at the time the maintenance and care agreement § 222.29(c)(4) is executed.

(2) The Forest Service shall charge an adoption fee of $125 for each horse and $75 for each burro, except that there shall be no adoption fee for an unweaned offspring under 6 months of age accompanying its mother.

(3) Any transportation costs incurred for the transportation of the animal(s) to the point of pickup must be paid before an approved individual, group, or government agency takes custody of the animal(s).

(f) Humane conditions, treatment, and care must have been provided for no less that one year preceding the filing of the application for title. The conveyance of title shall include a written statement by an authorized officer attesting that the animal is in good condition.

Dated: May 31, 1983.

Douglas W. MacCleery,

Deputy Assistant Secretary for Natural Resources and Environment.

BILLING CODE 3410-11-M

INTERNATIONAL DEVELOPMENT COOPERATION AGENCY

Agency for International Development

41 CFR Ch. 7

[AIDPR Notice 83-4]

Miscellaneous Revisions to the AID Procurement Regulations

AGENCY: Agency for International Development, IDCA.

ACTION: Final rule.

SUMMARY: This AIDPR Notice makes miscellaneous changes to the AID Procurement Regulations. It changes all references to the "Assistant to the Administrator for Management" to the "Associate Assistant to the Administrator for Management" (except AIDPR 7-1.204 and 7-2.406-3, where the Assistant to the Administrator for Management serves as head of the agency), reflecting AID Redelegation of Authority 93.1; corrects miscellaneous office or form titles and regulatory cross-references; revises Subpart 7-1.6, concerning debarment and suspension, to reflect the requirements of OFPP Policy Letter No. 82-1, and Temporary Regulation 65 of the Federal Procurement Regulations; amends the standard contract clause covering reports to reflect current office functions and titles; amends the list of countries for which partial waivers of Defense Base Act insurance requirements are in effect to add Cape Verde, India, and Pakistan, and; amends Part 7-7, Contract Clauses, and adds a new Part 7-29, Payment to Contractors, to incorporate new contract clauses concerning interest on late payments, payment due dates, and invoice requirements, as required by Temporary Regulation 66 of the Federal Procurement Regulations.

EFFECTIVE DATE: This AIDPR Notice is effective on the date it is signed (May 24, 1983):

FOR FURTHER INFORMATION CONTACT: J. M. Kelly, M/SER/CM/SD/POL, Agency for International Development, Washington, D.C. 20523. Telephone (703) 235–9107.

SUPPLEMENTARY INFORMATION: This AIDPR Notice is a procurement regulation, and has been exempted from the requirements of Executive Order 12291 of February 17, 1981, pursuant to Section 8(b) of the Order, by the Director, OMB, in a letter dated April 8, 1981, as amended on December 2, 1981 and October 4, 1982. The determination required by paragraph 4a of OFPP Policy Letter 80–5, and the certification required by the Regulatory Flexibility Act have been made and are included in the body of this AIDPR Notice.

List of Subjects in 41 CFR Chapter 7

Government procurement.

Part 7–1—GENERAL

Subpart 7–1.3—General Policies

1. Remove all references to the "Assistant to the Administrator for Management" appearing in the AIDPR subsections listed below. In their place insert reference to the "Associate Assistant to the Administrator for Management (M/AAA/SER)". This change affects the following AIDPR subsections:

7–1.003
7–1.006–50
7–1.006–51
7–1.206
7–1.451–3
7–1.451–4
7–1.453–2
7–2.406–4
7–8.211–1(a)
7–8.211–1(b)
7–8.211–2(b)

2. Paragraphs (a)(13), (a)(20), (a)(22), and (a)(23) of § 7–1.313 are revised as follows:

§ 7–1.313 Record of contract actions.

(a) * * *

(13) A copy of any deviations approved pursuant to AIDPR 7–1.009 or FPR 1–1.305–3.

* * * * *

(20) Evidence of contractor's compliance with equal opportunity provisions (FPR 1–12.805–4).

* * * * *

(22) Copies of the Federal Reserve Letter of Credit data (AIDPR 7–30.50).

(23) Copy of contracting officer's decisions under the "Disputes" clause (FPR 1–1.318–4).

* * * * *

§ 7–1.318–1 [Removed]

3. Section 7–1.318–1, *Contracting Officer's decision under a disputes clause,* is removed.

Subpart 7–1.4—Procurement Responsibility and Authority

§ 7–1.451–1 [Amended]

4. Section 7–1.451–1, *General,* is amended by removing the reference to ". . . AIDPR 7–1.106 . . ." in the last sentence, in its place inserting reference to ". . . AIDPR 7–1.004 . . .".

Subpart 7–1.6—Debarment, Suspension, and Ineligibility

5. Subpart 7–1.6, including the table of sections, is revised as follows:

Subpart 7–1.6—Debarment, Suspension, and Ineligibility

Sec.
7–1.600 Scope of subpart.
7–1.601 Policy.

7–1.605–5 Scope of debarment (imputed conduct).
7–1.606 Suspension.
7–1.606–1 General.
7–1.606–2 Causes for suspension.
7–1.606–3 Procedures.
7–1.606–4 Period of suspension.
7–1.606–5 Scope of suspension.
7–1.607 Interchange of information.

Authority: Sec. 621, Pub. L. 87–115, 75 Stat. 424, as amended (22 U.S.C. 2381).

Subpart 7–1.6—Debarment, Suspension, and Ineligibility

§ 7–1.600 Scope of subpart.

(a) This subpart:

(1) Prescribes policies and procedures governing the debarment and suspension of contractors for the causes given in § 7–1.605 and § 7–1.606 involving personal property and nonpersonal services, including construction and leases of real property;

(2) Provides for the listing of debarred and suspended contractors, and of contractors declared ineligible (see the definition of "ineligible" in § 7–1.602(k)); and

(3) Sets forth the treatment to be accorded to contractors listed as debarred or suspended, as well as those listed as having been declared ineligible.

(b) This subpart does not govern or otherwise apply to the exclusion of contractors from Federal grant or assistance programs, or prescribe policies or procedures governing declarations of ineligibility.

§ 7–1.601 Policy.

(a) The Agency shall solicit bids and proposals from, award contracts to, renew or otherwise extend the duration of an existing contract, and approve or consent to subcontracts, with responsible contractors only. Debarment and suspension are discretionary actions which, taken in accordance with this subpart, are appropriate means to effectuate this policy.

(b) The serious nature of debarment and suspension requires that they be imposed only in the public interest, for the Government's protection and not for purposes of punishment. Debarment and suspension shall be imposed to protect the Government's interest, and only for the causes and in accordance with the procedures set forth in this subpart.

§ 7–1.602 Definitions.

(a) "Adequate evidence" means information sufficient to support the reasonable belief that a particular act or omission has occurred.

(b) *"Affiliates".* Business concerns or individuals are affiliates if, directly or indirectly: (1) Either one controls or can control the other; or (2) a third controls or can control both.

(c) "Agency" means the Agency for International Development.

(d) "Authorized representative" means an official who has been designated by and authorized to act on behalf of the Administrator for the purposes of this subpart including, but not limited to, acting as a debarring or suspending official.

(e) "Consolidated List of Debarred, Suspended and Ineligible Contractors" means a list compiled, maintained and distributed by the General Services Administration, containing the names of contractors that have been debarred or suspended by a department or agency of the Government, as well as contractors that have been declared ineligible pursuant to other regulatory, or statutory, authority.

(f) "Contractor" means any individual or other legal entity that: (1) Submits bids or proposals for or is awarded, or reasonably may be expected to submit bids or proposals for or be awarded, a Government contract or a subcontract under a Government contract; or (2) conducts business with the Government

as an agent or representative of another contractor.

(g) "Conviction" means a judgment or conviction of a criminal offense by any court of competent jurisdiction, whether entered upon a verdict or plea, and includes a conviction entered upon a plea of nolo contendere.

(h) "Debarment" means action taken by a debarring official under § 7–1.605 to exclude a contractor from Government contracting and Government-approved subcontracting for a reasonable, specified period; a contractor so excluded is debarred.

(i) "Debarring Official" means the AID Administrator or an official authorized to impose debarment.

(j) "Indictment" means indictment for a criminal offense. An information or other filing by competent authority charging a criminal offense shall be given the same effect as an indictment.

(k) "Ineligible", as used in this subpart, means excluded from Government contracting (and subcontracting, if appropriate) pursuant to statutory, Executive Order, or regulatory authority other than this subpart or subpart 1–1.6 of the Federal Procurement Regulations. For example, contractors excluded pursuant to the Davis-Bacon Act and its related statutes and implementing regulations, the Service Contract Act, the Equal Employment Opportunity Acts and Executive Orders, the Walsh-Healey Public Contract Act, the Buy American Act, and the Environmental Protection Acts and Executive Orders are ineligible.

(l) "Legal proceedings" mean any civil judicial proceeding to which the Government is a party or any criminal proceeding. The term also includes appeals from such proceedings.

(m) "Preponderance of the evidence" means proof by information that, compared with that opposing it, leads to the conclusion that the fact at issue is more probably true than not.

(n) "Suspending Official" means the Administrator or an official authorized to impose suspension.

(o) "Suspension" means action taken by a suspending official under § 7–1.606 to disqualify a contractor temporarily from Government contracting and Government-approved subcontracting; a contractor so disqualified is suspended.

§ 7–1.603 Establishment and maintenance of records and lists of debarred, suspended and ineligible contractors.

§ 7–1.603–1 Consolidated list of debarred, suspended and ineligible contractors.

(a) The General Services Administration (GSA) is responsible for—

(1) Compiling and maintaining a current, consolidated list of contractors debarred, suspended or declared ineligible by Federal agencies or by the General Accounting Office;

(2) Revising and distributing the list quarterly and issuing monthly supplements to Federal agencies and the General Accounting Office; and

(3) Providing in the list the name and telephone number of the official responsible for maintenance and distribution of the list.

(b) The Agency shall—

(1) Notify GSA, within 5 working days after debarring or suspending a contractor or modifying or rescinding such an action, of the information set forth in FPR 1–603.2;

(2) Notify GSA of the names and addresses of the organizations within the Agency that are to receive the consolidated list and the number of copies to be furnished to each;

(3) Direct inquiries concerning listed contractors to the Agency or other Governmental authority that took the action; and

(4) Use the consolidated list to ensure that the Agency does not solicit offers from, award contracts to, or consent to subcontract with, listed contractors except as provided in this subpart.

§ 7–1–602–2 Agency records.

At a minimum, the Agency shall maintain records relating to each contractor it has debarred or suspended that contain the following information:

(a) The contractor's name and address;

(b) The cause for the action (see §7–1.605 and § 7–1.606);

(c) The effective date of the action and, in the case of debarments, the termination date for each listing; and

(d) The name and telephone number of the Agency's point of contact for the action.

§ 7–1.604 Effect of listing.

§ 7–1.604–1 General.

(a) The Agency shall not solicit bids or proposals from, award contracts to, renew or otherwise extend the duration of an existing contract with, or approve or consent to subcontracts (when such approval or consent is required) with a contractor known to have been debarred or suspended by any Department or Federal agency, unless the Administrator or his authorized representative grants an exception pursuant to paragraphs (a) (1) and (2) of this section. For the purpose of this subpart, knowledge of the debarment or suspension of a contractor exists if there is actual knowledge of such status, as, for example, when such status is ascertained from the consolidated list.

(1) Prior to initiating a pre-award survey or any of the procurement actions set forth in (a) above, the consolidated list shall be reviewed. Bids received from any listed contractor in response to an Invitation for Bids shall be opened (see FPR 1–2.402), entered on the Abstract of Bids (see FPR 1–2.403), and rejected (see FPR 1–2.404) unless the Administrator or his authorized representative determines in writing that there is a compelling reason to make an exception. Proposals, quotations or offers received from any listed contractor shall not be evaluated for award or included in the competitive range, and discussions shall not be conducted with such offeror, unless the Administrator or his authorized representative determines in writing that there is a compelling reason to make an exception.

(2) When the Agency makes an exception, a notice describing the exception shall be forwarded to the GSA Office of Acquisition Policy. Some examples of circumstances that may constitute a compelling reason include: (i) The property or services to be acquired are available only from the listed contractor; (ii) The urgency of the requirement dictates that the Agency deal with the contractor; (iii) The contractor and the Agency have entered an agreement covering the same events which resulted in the listing and the agreement includes a decision by the Agency not to debar or suspend the contractor; and (iv) For such other reasons related to U.S. foreign assistance activities which require continued business dealings with the listed contractor.

(b) Ineligible contractors are excluded from receiving contracts and, if applicable, subcontracts, under the conditions and for the period set forth in the applicable statute, Executive Order, or regulation. The Agency shall not solict bids or proposal from, award contracts to, renew or otherwise extend an existing contract with, or approve or consent to subcontracts (when such approval or consent is required) with a contractor known to be ineligible, for the period of the ineligibility, to the extent the particular procurement action is prohibited by the terms of the declaration.

§ 7–1.604–2 Continuation of current contracts.

Notwithstanding the listing of a contractor for the causes set forth in this subpart, the Agency may continue contracts or subcontracts in existence at

the time the contractor was debarred or suspended, unless the Administrator or his authorized representative directs otherwise. A decision as to the type of termination action, if any, to be taken should be made only after review by Agency contracting and technicial personnel and by general counsel to assure the propriety of the proposed action.

§ 7–1.604–3 Restrictions on subcontracting.

When a debarred or suspended contractor is proposed as a subcontractor for any subcontract subject to Government consent (see FPR 1–7.202–8 and 1–7.402–8), consent shall not be given unless the Administrator or his authorized representative states in writing the compelling reasons for the consent.

§ 7–1.605 Debarment.

§ 7–1.605–1 General.

(a) The debarring official may, in the public interest, debar a contractor for any of the causes contained in § 7–1.605–2, using the procedures in § 7–1.605–3; prior to using such procedures, the official initiating such action shall consult with the Agency's central contact point for such matters, i.e., the Assistant General Counsel for Litigation and Enforcement (GC/LE). The existence of a cause for debarment under § 7–1.605–2, however, does not necessarily require that the contractor be debarred; the seriousness of the contractor's acts or omissions and any mitigating factors should be considered in making any debarment decisions.

(b) Debarment of a contractor constitutes debarment of all divisions or other organizational elements of the contractor, unless the debarment decision is limited by its terms to specific divisions, organizational elements, or commodities. Debarment extends to affiliates of the contractor, only if they are: (1) Specifically named and (2) given written notice of the proposed debarment and opportunity to respond (see § 7–1.605–3(c)).

(c) A contractor's debarment shall be effective throughout the Executive branch of the Government, unless the Administrator, or his authorized representative, or other Federal agency taking the procurement action, states in writing the compelling reason for continued business dealings between the Agency or other Federal agency and the contractor.

(d) If no suspension is in effect under § 7–1.606 at the time debarment is proposed by the Agency, bids or proposals shall not be solicited from, contracts shall not be awarded to, existing contracts shall not be renewed or othewise extended with, and subcontracts shall not be consented to or approved for the contractor by any Agency component pending a debarment decision unless the Administrator or his authorized representative states in writing the compelling reason to do so.

§ 7–1.605–2 Causes for debarment.

The debarring official may debar a contractor for any of the causes listed in paragraphs (a) through (d) of this section:

(a) Conviction of or civil judgment for—

(1) Commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public contract or subcontract;

(2) Violation of Federal or State antitrust statutes relating to the submission of bids or proposals; or

(3) Commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property; or

(4) Commission of any other offense indicating a lack of business integrity or business honesty which seriously and directly affects the present responsibility of a Government contractor or subcontractor.

(b) Violation of the terms of a Government contract or subcontract so serious as to justify debarment, such as—

(1) Willful failure to perform in accordance with the terms of one or more contracts; or

(2) A history of failure to perform, or of unsatisfactory performance of, one or more contracts.

(c) Any other cause of so serious or compelling a nature that it affects the present responsibility of a Government contractor or subcontractor.

(d) Debarment for any of the above causes by another Federal agency where the original debarment did not have government-wide effect.

§ 7–1.605–3 Procedures.

(a) *Investigation and referral.* Matters appropriate for the debarring official's consideration shall be reported promptly to that official.

(b) *Decisionmaking process.* (1) Any Agency procedures that may be established to implement the debarment decisionmaking process of this subpart shall be as informal as practicable, consistent with the principle of fundamental fairness.

(2) The contractor (and any specifically named affiliates) shall be given an opportunity to submit, in person, in writing, or through a representative, information and argument in opposition to the proposed debarment.

(3) In actions not based upon a conviction or judgment, if it is found that the contractor's submission in opposition raises a genuine dispute over facts material to the proposed debarment, factfinding shall be conducted. The official conducting the factfinding shall—

(i) Afford the contractor an opportunity to appear with counsel, submit documentary evidence, present witnesses, and confront any person the Agency presents; and

(ii) Ensure that a record of the factfinding is transcribed and made available at cost to the contractor upon request, unless the contractor and the Agency, by mutual agreement, waive the requirement for a transcript.

(c) *Notice of proposal to debar.* The contractor and any specifically named affiliates shall be advised, by certified mail, return receipt requested:

(1) That debarment is being considered;

(2) Of the reasons for the proposed debarment in terms sufficient to put the contractor on notice of the conduct or transaction(s) upon which it is based;

(3) Of the cause(s) relied upon under § 7–1.605–2 for proposing debarment;

(4) That, within 30 days after the receipt of the notice, the contractor may, in person, in writing, or through a representative, information and argument in opposition to the proposed debarment, including any additional specific information that raises a genuine dispute over the material facts;

(5) That the Agency's procedures governing debarment decisionmaking are contained in this subpart (i.e., 41 CFR 7–1.6);

(6) Of the potential effect of the proposed debarment; and

(7) That if no suspension is in effect under § 7–1.606, bids or proposals shall not be solicited from, contracts shall not be awarded to, existing contracts shall not be renewed or otherwise extended, and subcontracts shall not be consented to or approved for the contractor by any component of the Agency pending a debarment decision unless the Administrator or his authorized representative states in writing the compelling reason to do so.

(d) *Debarring official's decision.* (1) In actions based upon a conviction or judgment, or in which there is no genuine dispute over material facts, the debarring official shall make a decision on the basis of all the information in the

administrative record, including any submission made by the contractor. If no suspension is in effect under § 7–1.606, the decision shall be made within 30 working days after receipt of any information and argument submitted by the contractor, unless the debarring official extends this period for good cause.

(2) In actions in which factfinding is conducted as to disputed material facts, written findings of fact shall be prepared. The debarring official shall base the decision on the facts as found, together with any information and argument submitted by the contractor and any other information in the administrative record.

(i) The debarring official may refer matters involving disputed material facts to another official for findings of fact. The debarring official shall accept any such findings unless he specifically determines them to be arbitrary and capricious or clearly erroneous.

(ii) The debarring official's decision shall be made after the conclusion of factfinding with respect to disputed facts.

(3) In any action in which the proposed debarment is not based upon a conviction or civil judgment, the facts establishing the cause for debarment must be proved by a preponderance of the evidence.

(e) Notice of debarring official's decision.

(1) If the debarring official decides to impose debarment, the contractor and any affiliates involved shall be given prompt notice by certified mail, return receipt requested—

(i) Referring to the notice of proposed debarment;

(ii) Specifying the reasons for debarment;

(iii) Stating the period of debarment, including effective dates (see § 7–1.605–4); and

(iv) Advising that the debarment is effective throughout the Executive branch of the Government unless the Administrator, or his authorized representative, or other Federal agency taking the procurement action, states in writing the compelling reason for continued business dealings between the Agency or other Federal agency and the contractor.

(2) If debarment is not imposed, the debarring official shall promptly notify the contractor and any affiliates involved of that decision, by certified mail, return receipt requested.

§ 7–1.605–4 Period of debarment.

(a) Debarment shall be for a period sufficient to protect the Government's interest. Generally, a debarment should not exceed 3 years. If suspension precedes a debarment, the suspension period shall be considered in determining the debarment period.

(b) The debarring official may extend the debarment for an additional period, if that official determines that an extension is necessary to protect the Government's interest. However, a debarment may not be extended solely on the basis of the facts and circumstances upon which the initial debarment action was based. If debarment for an additional period is determined to be necessary, the procedures of § 7–1.605–3 above shall be followed to extend the debarment.

(c) The debarring official may reduce the period or extent of debarment, upon the contractor's request, supported by documentation, for reasons such as—

(1) Newly discovered material evidence;

(2) Reversal of the conviction or judgment upon which the debarment was based;

(3) Bona fide change in ownership or management; or

(4) Elimination of other causes for which the debarment was imposed.

§ 7–1.605–5 Scope of debarment (imputed conduct).

(a) The fraudulent, criminal, or other seriously improper conduct of any officer, director, shareholder, partner, employee, or other individual associated with a contractor may be imputed to the contractor when the conduct occurred in connection with the individual's performance of duties for or on behalf of the contractor, or with the contractor's knowledge, approval, or acquiescence. The contractor's acceptance of the benefits derived from the conduct shall be evidence of such knowledge, approval, or acquiescence.

(b) The fraudulent, criminal, or other seriously improper conduct of a contractor may be imputed to any officer, director, shareholder, partner, employee, or other individual associated with the contractor who participated in, knew of, or had reason to know of, the contractor's conduct.

(c) The fraudulent, criminal, or other seriously improper conduct of one contractor participating in a joint venture or similar arrangement may be imputed to other participating contractors if the conduct occurred for or on behalf of the joint venture or similar arrangement or with the knowledge, approval, or acquiescence of these contractors. Acceptance of the benefits derived from the conduct shall be evidence of such knowledge, approval, or acquiescence.

§ 7–1.606 Suspension.

§ 7–1.606–1 General.

(a) The suspending official may, in the public interest, suspend a contractor for any of the causes in § 7–1.606–2, using the procedures in § 7–1.606–3; prior to using such procedures, the official initiating such action shall consult with the Agency's central contact point for such matters, i.e., the Assistant General Counsel for Litigation and Enforcement (GC/LE).

(b) Suspension is a serious action to be imposed on the basis of adequate evidence, pending the completion of an investigation or legal proceedings, when it has been determined that immediate action is necessary to protect the Government's interest. In assessing the adequacy of the evidence, consideration should be given to how much information is available, how credible it is given the circumstances, whether or not important allegations are corroborated, and what inferences can reasonably be drawn as a result. This assessment should include an examination of basic documents such as contracts, inspection reports, and correspondence.

(c) Suspension constitutes suspension of all divisions or other organizational elements of the contractor, unless the suspension decision is limited by its terms to specific divisions, organizational elements, or commodities. The suspending official may extend the suspension decision to include any affiliates of the contractor if they are: (1) Specifically named and (2) given written notice of the suspension and an opportunity to respond (see § 7–1.606–3(c)).

(d) A contractor's suspension shall be effective throughout the Executive branch of the Government, unless the head of the agency taking the procurement action, or his authorized representative, states in writing the compelling reason for continued business dealings between that agency or Department and the contractor.

§ 7–1.606–2 Causes for suspension.

(a) The suspending official may suspend a contractor suspected, upon adequate evidence, of—

(1) Commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public contract or subcontract;

(2) Violation of Federal or State antitrust statutes relating to the submission of bids or proposals;

(3) Commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false

statements, or receiving stolen property; or

(4) Commission of any other offense indicating a lack of business integrity or business honesty that seriously and directly affects the present responsibility of a Government contractor or subcontractor.

A contractor may be suspended for any of the above causes based on a suspension by another Federal agency where the original suspension does not have Government-wide effect.

(b) Indictment for any of the causes in paragraph (a) above constitutes adequate evidence for suspension.

(c) The suspending official may upon adequate evidence also suspend a contractor for any other cause of so serious or compelling a nature that it affects the present responsibility of a Government contractor or subcontractor.

§ 7–1.606–3 Procedures.

(a) *Investigation and referral.* Matters appropriate for the suspending official's consideration shall be reported promptly to that official.

(b) *Decisionmaking process.* (1) Any Agency procedures that may be established to implement the suspension decisionmaking process shall be as informal as practicable consistent with the principle of fundamental fairness. These procedures shall afford the contractor (and any specifically named affiliates) an opportunity, following the imposition of suspension, to submit, in person, in writing or through a representative, information and argument in opposition to the suspension.

(2) In actions not based on an indictment, if it is found that the contractor's submission in opposition raises a genuine dispute over facts material to the suspension and if no determination has been made, on the basis of Department of Justice advice, that substantial interest of the Government in pending or contemplated legal proceedings based on the same facts as the suspension would be prejudiced, factfinding shall be conducted. Then official conducting factfinding shall—

(i) Afford the contractor an opportunity to appear with counsel, submit documentary evidence, present witnesses and confront any person the Agency presents; and

(ii) Ensure that a record of the factfinding is transcribed and made available at a cost to the contractor upon request, unless the contractor and the Agency, by mutual agreement, waive the requirement for a transcript.

(c) *Notice of suspension.* When a contractor and any specifically named affiliates are suspended, they shall be immediately advised by certified mail, return receipt requested:

(1) That they have been suspended and that the suspension is based on an indictment or other adequate evidence that the contractor has committed irregularities (i) of a serious nature in business dealings with the Government, or (ii) seriously reflecting on the propriety of further Government dealings with the contractor; any such irregularities shall be described in terms sufficient to place the contractor on notice without disclosing the Government's evidence;

(2) That the suspension is for a temporary period pending the completion of an investigation and such legal proceedings as may ensue;

(3) Of the cause(s) relied upon under § 7–1.606–2 for imposing suspension;

(4) Of the effect of the suspension (see § 7–1.606–1(d) and § 7–1.604–1(a));

(5) That, within 30 days after receipt of the notice, the contractor may submit, in person, in writing or through a representative, information and argument in opposition to the suspension, including any additional specific information that raises a genuine dispute over material facts; and

(6) That factfindings to determine disputed material facts will be conducted unless: (i) The action is based on an indictment or (ii) a determination is made, on the basis of Department of Justice advice, that the substantial interests of the Government in pending or contemplated legal proceedings based on the same facts as the suspension would be prejudiced.

(d) *Suspending official's decision.* (1) In actions: (i) Based on an indictment, (ii) in which the contractor's submission does not raise a genuine disputed over material facts; or (iii) in which factfinding to determine dispute material facts has been denied on the basis of Department of Justice advice, the suspending official's decision shall be based on all the information in the administrative record, including any submission made by the contractor.

(2) In actions in which factfinding is conducted as to disputed material facts, written findings of fact shall be prepared. The suspending official shall base the decision on the facts as found, together with any information and argument submitted by the contractor and any other information in the administrative record.

(i) The suspending official may refer matters involving disputed material facts to another official for findings of fact. The suspending official shall accept any such findings, unless he specifically determines them to be arbitrary and capricious or clearly erroneous.

(ii) The suspending official's decision shall be made after the conclusion of factfinding with respect to disputed facts.

(3) The suspending official may modify or terminate the suspension or leave it in force (for sample reasons, see § 7–1.605–4(c)). However, a decision to modify or terminate the suspension shall be without prejudice to the subsequent imposition of suspension by any other Federal Agency or the imposition of debarment by any other Federal agency.

(4) Prompt written notice of the suspending official's decision shall be sent to the contractor by certified mail, return receipt requested.

§ 7–1.606–4 Period of suspension.

(a) Suspension shall be for a temporary period pending the completion of investigation and any ensuing legal proceedings, unless sooner terminated by the suspending official or as provided in this paragraph § 7–1.606–4.

(b) If legal proceedings are not initiated within 12 months after the date of the suspension notice, the suspension shall be terminated unless an Assistant Attorney General requests its extension, in which case it may be extended for an additional 6 months. In no event may a suspension extend beyond 18 months, unless legal proceedings have been initiated within that period.

(c) The suspending official shall notify the Department of Justice of the proposed termination of the suspension at least 30 days before the 12 month period expires to give it an opportunity to request an extension.

§ 7–1.606–5 Scope of suspension.

The scope of suspension shall be the same as that for debarment (see § 7–1.605–5), except that the procedures of § 7–1.606–3 shall be used in imposing the suspension.

§ 7–1.607 Interchange of information.

Debarment or suspension of a contractor by one Department or Federal agency can have an adverse impact on the missions of other Departments or agencies with which the contractor does business. Accordingly, if it appears that there is the potential for such an adverse impact, the cognizant debarring or suspending official should solicit the comments of those Departments or Federal agencies that he believes could be affected before taking action. A Department or Federal agency that believes it could be affected by the

proposed action should comment directly to the cognizant debarring or suspending official of the agency. If several Departments or Federal agencies independently are contemplating a debarment or suspension action against the same contractor, consideration should be given to designating one Department or Federal agency as the lead agency for making the decision.

PART 7-6—FOREIGN PURCHASES

Subpart 7-6.51—Source, Origin, and Nationality

§ 7-6.5103 [Amended]

6. Paragraph (f), *The Cooperating Country as a source,* of § 7-6.5103, *Contract clause—source and nationality requirements,* is amended by removing the reference "* * * (see paragraphs (c)(1) and (c)(2) of this section.) * * *", in its place inserting "* * * (see paragraphs (c)(2) and (c)(3) of this section.) * * *".

PART 7-7—CONTRACT CLAUSES

§§ 7-7.103-50, 7-7.603-50, 7-7.5003-6, 7-7.5301-5, 7-7.5403-7 [Amended]

7. The contract clause entitled "Mandatory use of visa eligibility Form DSP 66 A by participants" appearing in §§ 7-7.103-50, 7-7.603-50, 7-7.5003-6, 7-7.5301-5, and 7-7.5403-7, is retitled as "Required Visa Form for AID Participants".

Subpart 7-7.1—Fixed Price Supply Contracts

8. The following entries are added to the table of sections for Subpart 7-7.1.

Sec.
7-7.102-50 Interest on overdue payments.
7-7.102-51 Payment due dates.
7-7.102-52 Invoice requirements.
* * * * * *

9. A new § 7-7.102-50 is added as follows:

§ 7-7.102-50 Interest on overdue payments.

Insert the clause set forth in FPR 1-29.104 (FPR Temporary Regulation 66) in all non-exempt contracts.

10. A new § 7-7.102-51 is added as follows:

§ 7-7.102-51 Payment due dates.

Insert the clause set forth in AIDPR 7-29.202-50 in all non-exempt contracts.

11. A new § 7-7.102-52 is added as follows:

§ 7-7.102-52 Invoice requirements.

Insert the clause set forth in AIDPR 7-29.301-4 in all non-exempt contracts.

Subpart 7-7.6—Fixed Price Construction Contracts

12. The following entries are added to the table of sections for Subpart 7-7.6:
7-7.602 Required clauses.
7-7.602-50 Interest on overdue payments.
7-7.602-51 Payment due dates.
7-7.602-52 Invoice requirements.
* * * * * *

13. A new § 7-7.602 is added as follows:

§ 7-7.602 Required clauses.

14. A new § 7-7.602-50 is added as follows:

§ 7-7.602-50 Interest on overdue payments.

Insert the clause set forth in FPR 1-29.104 (FPR Temporary Regulation 66) in all non-exempt contracts.

15. A new § 7-7.602-51 is added as follows:

§ 7-7.602-51 Payment due dates.

Insert the clause set forth in AIDPR 7-29.202-50 in all non-exempt contracts.

16. A new § 7-7.602-52 is added as follows:

§ 7-7.602-52 Invoice requirements.

Insert the clause set forth in AIDPR 7-29.301-4 in all non-exempt contracts.

Subpart 7-7.50—Clauses for Cost Reimbursement Contracts

17. The following entries are added to the table of sections of Subpart 7-7.50:
* * * * * *
7-7.5001-48 Interest on overdue payments.
7-7.5001-49 Payment due dates.
7-7.5001-50 Invoice requirements.
* * * * * *

18. A new § 7-7.5001-48 is added as follows:

§ 7-7.5001-48 Interest on overdue payments.

Insert the clause set forth in FPR 1-29.104 (FPR Temporary Regulations 66) in all non-exempt contracts.

19. A new § 7-7.5001-49 is added as follows:

§ 7-7.5001-49 Payment due dates.

Insert the clause set forth in AIDPR 7-29.202-50 in all non-exempt contracts.

20. A new § 7-7.5001-50 is added as follows:

§ 7-7.5001-50 Invoice requirements.

Insert the clause set forth in AIDPR 7-29.301-4 in all non-exempt contracts.

Subpart 7-7.53—Contracts for Participant Training

21. Section 7-7.5301-5 is revised as follows:

§ 7-7.5301-5 Required visa form for AID participants.

Required VISA Form for Aid Participants (Sept. 1982)

The Contractor shall ensure that any foreign student brought to the United States for training under this contract uses visa form IAP 66 A, "Certificate for Exchange Visitor (J-1) Status".

22. Section 7-7.5301-25 (Reserved), is added as follows:

§ 7-7.5301-25 Interest on overdue payments.

Insert the clause set forth in FPR 1-29.104 (FPR Temporary Regulation 66), in all non-exempt contracts.

23. A new § 7-7.5301-31 is added as follows:

§ 7-7.5301-31 Payment due dates.

Insert the clause set forth in AIDPR 7-29.202-50, in all non-exempt contracts.

24. A new § 7-7.5301-32 is added as follows:

§ 7-7.5301-32 Invoice requirements.

Insert the clause set forth in AIDPR 7-29.301-4, in all non-exempt contracts.

Subpart 7-7.54—Clauses for Fixed Price Contracts for Technical Services

§ 7-7.5401-14 [Amended]

25. Section 7-7.5401-14, *Standards of work,* is amended by removing the reference to "* * * AIDPR 7-7.5001-6 * * *", in its place inserting "* * * FPR 1-7.302-3 * * *".

26. Section 7-7.5401-32, is added as follows:

§ 7-7.5401-32 Interest on overdue payments.

Insert the clause set forth in FPR 1-29.107 (FPR Temporary Regulation 66) in all non-exempt contracts.

27. A new § 7-7.5401-39 is added as follows:

§ 7-7.5401-39 Payment due dates.

Insert the clause set forth in AIDPR 7-29.202-50, in all non-exempt contracts.

28. A new § 7-7.5401-40 is added as follows:

§ 7-7.5401-40 Invoice requirements.

Insert the clause set forth in AIDPR 7-29.301-4, in all non-exempt contracts.

Subpart 7-7.55—Clauses for Cost Reimbursement Contracts With Educational Institutions

29. Section 7-7.5501-13 is amended by changing the clause date from "(Feb. 1982)" to "(Mar. 1983)", and by revising paragraph (d) as follows:

§ 7-7.5501-13 Reports.

Reports (Mar. 1983)

* * * * *

(d) Contractor shall submit three copies of each report required by paragraphs (a)(1), (b), and (c) of this section, and any other report of a technical nature required by the Schedule of this Contract, to the Acquisitions Development Information and Utilization Service, Bureau for Program and Policy Coordination (PPC/E/DIU), AID, Washington, D.C. 20523. The title page of all reports sent to PPC/E/DIU shall include the report date, contract number, project number, and project title, as set forth on the Cover Page and in the Schedule of this Contract.

30. Section 7-7.5501-15 is amended by changing the clause date from "(May 1982)" to "(Mar. 1983)", and by revising paragraph (e) as follows:

§ 7-7.5501-15 Training of Foreign Country Nationals.

Training of Foreign Country Nationals (Mar. 1983)

* * * * *

(e) The Contractor shall insure that any foreign student brought to the United States for training under this contract uses visa form IAP 66 A, "Certificate for Exchange Visitor (J-1) Status".

31. Section 7-7.5501-37, is added as follows:

§ 7-7.5501-37 Interest on overdue payments.

Insert the clause set forth in FPR 1-29.104 (FPR Temporary Regulation 66) in all non-exempt contracts.

32. A new § 7-7.5501-44 is added as follows:

§ 7-7.5501-44 Payment due dates.

Insert the clause set forth in AIDPR 7-29.202-50, in all non-exempt contracts.

33. A new § 7-7.5501-45 is added as follows:

§ 7-7.5501-45 Invoice requirements.

Insert the clause set forth in AIDPR 7-29.301-4, in all non-exempt contracts.

PART 7-10—BONDS AND INSURANCE

Subpart 7-10.4—Insurance Under Fixed-Price Contracts

34. Paragraph (b)(2) of § 7-10.402, Workmen's compensation insurance overseas, is amended by adding Cape Verde, India and Pakistan, in their alphabetical sequence, as new entries to the list of countries in paragraph (b)(2), and renumbering the present entries 1 through 84 as 1 through 87.

35. A new Part 7-29, including a table of sections, is added as follows:

PART 7-29—PAYMENT TO CONTRACTORS

Subpart 7-29.2—Payment Terms in Contracts

Sec.
7-29.202-50 Contract clause—payment due dates.

Subpart 7-29.3—Invoice Requirements

7-29.301-4 Invoice requirements clause.

Subpart 7-29.2—Payment Terms in Contracts

§ 7-29.202-50 Contract clause—payment due dates.

As authorized in FPR 1-29.202 (FPR Temporary Regulation 66), the following clause is required in all non-exempt AID-direct contracts:

Payment Due Dates (Oct. 1982)

(a) Payments under this contract will be due as follows:

(1) When the designated paying office identified in the contract or purchase order is located in the U.S.: 30 calendar days after the date of actual receipt of a proper invoice in the designated paying office or 30 days after a designated AID official or authorized representative accepts the property or services, whichever is later.

(2) When the designated paying office identified in the contract or purchase order is at a foreign location: 45 calendar days after the date of actual receipt of a proper invoice in the designated paying office or 45 days after a designated AID official or authorized representative accepted the property or services, whichever is later.

(b) For definition of the term "proper invoice", see the clause of this contract entitled "Invoice Requirements".

(c) The date of the check issued in payment shall be considered to be the date payment is made.

Subpart 7-29.3—Invoice Requirements

§ 7-29.301.4 Invoice requirements clause.

As authorized in FPR 1-29.301-4 (FPR Temporary Regulation 66), the following clause is required in all non-exempt AID-direct contracts:

Invoice Requirements (Oct. 1982)

Invoices shall be submitted in an original and 3 copies to the Government office designated in this contract or on the delivery order to receive invoices. To constitute a proper invoice, the invoice must include the following information and/or attached documentation:

(a) Name of the business concern and invoice date.

(b) Contract number, or other authorization for delivery of property or services.

(c) Description, price, and quantity of property and services actually delivered or rendered.

(d) Shipping and payment terms.

(e) Name (where practicable), title, phone number, and complete mailing address of responsible official to whom payment is to be sent.

(f) Other payment documentation required by the contract.

PART 7-50—EXTRAORDINARY CONTRACTUAL ACTIONS TO PROTECT FOREIGN POLICY INTERESTS OF THE UNITED STATES

Subpart 7-50.2—Requests for Contractual Adjustments

36. § 7-50.202 is revised as follows:

§ 7-50.202 Approving authorities.

Authority to approve actions processed under this Part 7-50 has been delegated as follows:

(a) The Director, Office of Contract Management, may approve actions up to $50,000 per contract, under Section 3 of the Executive Order.

(b) The Associate Assistant to the Administrator for Management (M/AAA/SER), may approve actions up to $250,000 per contract, under Sections 3 or 4 of the Executive Order.

(c) The Administrator or Deputy Administrator must approve any action over $250,000.

Determination

As required by paragraph 4a of OFPP Policy Letter 80-5, I hereby determine that this AIDPR Notice has been reviewed against the policies set forth in paragraphs (1) through (8) of Section 2 of the Office of Federal Procurement Policy Act (Pub. L. 93-400, as amended by Pub. L. 96-83, hereinafter referred to as the Act), and policy directives issued by OFPP under Section 6(h) of the Act.

Based on this review, I hereby determine that this AIDPR Notice is not inconsistent with the policies set forth in paragraphs (1) through (8) of Section 2 of the Act, and policy directives issued by OFPP under Section 6(h) of the Act.

Certification

Pursuant to the Regulatory Flexibility Act, I hereby certify as the Agency's Procurement Executive that this regulation will not have a significant economic impact on a substantial number of small entities including small businesses, small organizational units and small governmental jurisdictions.

Authority: This AIDPR notice is issued under 41 CFR 7-1.006-51.

Dated: May 24, 1983.

John F. Owens,

Associate Assistant to the Administrator for Management Directorate for Program and Management Services.

[FR Doc. 83-15028 Filed 6-3-83; 8:45 am]

BILLING CODE 6116-01-M

GENERAL SERVICES ADMINISTRATION

41 CFR Part 101-29

[FPMR Amdt. E-253]

Procurement and Requisitioning of Items and Services

AGENCY: Office of Federal Supply and Services, GSA.

ACTION: Final rule.

SUMMARY: GSA is amending its regulations to provide policies and procedures for managing and using Federal product descriptions, formerly known as Federal standardization documents; include Commercial Item Descriptions as one of the Federal product descriptions; and to update organizational references.

EFFECTIVE DATE: June 6, 1983.

FOR FURTHER INFORMATION CONTACT: Mr. Walter L. Eckbreth, Director, Policy and Procedures Division (703-557-0536).

SUPPLEMENTARY INFORMATION: The General Services Administration has determined that this rule is not a major rule for the purposes of Executive Order 12291 of February 17, 1981, because it is not likely to result in an annual effect on the economy of $100 million or more; a major increase in costs to consumers or others; or significant adverse effects. Therefore, a Regulatory Impact Analysis has not been prepared. GSA has based all administrative decisions underlying this rule on adequate information concerning the need for, and consequences of this rule; has determined that the potential benefits to society from this rule outweigh potential costs and has maximized the net benefits; and has chosen the alternative approach involving the least net cost to society.

List of Subjects in 41 CFR Part 101-29

Government property management.

Part 101-29 is revised as follows:

PART 101-29—FEDERAL PRODUCT DESCRIPTIONS

Sec.

101-29.000 Scope of part.

Subpart 101-29.1—General

101-29.101 Federal product descriptions.

101-29.201 Specification.
101-29.202 Standard.
101-29.203 Federal specification.
101-29.204 Interim Federal specification.
101-29.205 Federal standard.
101-29.206 Interim Federal standard.
101-29.207 Qualified products list. (QPL)
101-29.208 Commercial item description.
101-29.209 Purchase description.
101-29.210 Product.
101-29.211 Product description.
101-29.212 Tailoring.
101-29.213 Commercial product.
101-29.214 Commercial-type product.
101-29.215 Departmental specification or standard.
101-29.216 Department of Defense Index of Specifications and Standards (DODISS).
101-29.217 Military specification or standard.
101-29.218 Voluntary standards.
101-29.219 Index of Federal Specifications, Standards, and Commercial Item Descriptions.
101-29.220 Market research and analysis.
101-29.221 Federal Specifications, Standards, and Commercial Item Description Program (Federal Standardization Program).

Subpart 101-29.3—Responsibilities

101-29.301 General Services Administration.
101-29.301-1 Policies and Procedures.
101-29.301-2 Federal Standardization Handbook.
101-29.301-3 Availability of Federal product descriptions.
101-29.301-4 Periodic review of Federal product descriptions.
101-29.302 Other Federal agencies.
101-29.303 All Federal executive agencies.

Subpart 101-29.4—Mandatory Use of Federal Product Descriptions

101-29.401 Federal product descriptions listed in the GSA Index of Federal Specifications, Standards and Commercial Item Descriptions.
101-29.402 Exceptions to mandatory use of Federal product descriptions.
101-29.403 Federal product description exceptions and tailoring.
101-29.403-1 Authorization of exceptions.
101-29.403-2 Agency responsibility relative to exceptions to Federal product descriptions.
101-29.403-3 Tailoring of Federal product descriptions.

Subpart 101-29.5—Use of and Optional Use of Federal Product Descriptions and Agency Product Descriptions

101-29.501 Optional use of interim Federal specifications.
101-29.502 Use of Federal specifications and interim Federal specifications in Federal construction contracts.
101-29.503 Agency product descriptions.
101-29.504 Use of Federal product descriptions by mandatory source of supply.

Authority: Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c).

§ 101-29.000 Scope of part.

This part sets forth the policy and procedures for managing and using Federal product descriptions.

Subpart 101-29.1—General

§ 101-29.101 Federal product descriptions.

Federal and interim Federal specifications, their associated Federal qualified products lists (QPL's), Federal and interim Federal standards and Commercial item descriptions (CID's) are referred to collectively as Federal product descriptions. They are developed by GSA or other Federal agencies under the Assigned Agency Plan described in the "Federal Standardization Handbook" issued by the Assistant Administrator for Federal Supply and Services (FSS). Product descriptions are coordinated with other Federal agencies having technical, statutory, or regulatory interest in the commodity or other subject matter covered. Generally, before they are issued, Federal product descriptions are reviewed by technical societies, individual industrial producers, and organizations representing industrial producers and consumers.

Subpart 101-29.2—Definitions

§ 101-29.201 Specification.

A "specification" is a document, prepared specifically to support acquisition that clearly and accurately describes the essential technical requirements for purchased material. Procedures necessary to determine whether these requirements have been met are also included.

§ 101-29.202 Standard.

A "standard" is a document that establishes engineering and technical requirements for items, processes, procedures, practices, and methods that have been adopted as customary. Standards may also establish requirements for selection, application, and design criteria so as to achieve the highest practical degree of uniformity in materials or products, or interchangeability of parts used within or on those products.

§ 101-29.203 Federal specification.

A "Federal specification" is a specification, issued in the Federal series, that is mandatory for use by all Federal agencies. These documents are issued or controlled by the General Services Administration and are listed in the GSA "Index of Federal Specifications, Standards and Commercial Item Descriptions."

§ 101-29.204 Interim Federal specification.

An "interim Federal specification" is a potential Federal specification issued in temporary form for optional use by all Federal agencies. Interim amendments to Federal Specifications and amendments to interim Federal specifications are included in this definition. These documents are issued or controlled by the General Services Administration and are listed in the GSA "Index of Federal Specifications, Standards and Commercial Item Descriptions."

§ 101-29.205 Federal standard.

A "Federal standard" is a standard, issued in the Federal series, that is mandatory for use by all Federal agencies. These documents are issued or controlled by the General Services Administration and are listed in the GSA "Index of Federal Specifications, Standards and Commercial Item Descriptions."

§ 101-29.206 Interim Federal standard.

An "interim Federal standard" is a potential Federal standard issued in temporary form for optional use by all Federal agencies. These documents are issued or controlled by the General Services Administration, primarily for use in the telecommunication functional area.

§ 101-29.207 Qualified products list (QPL).

A "qualified products list" is a list of products that have met the qualification requirements stated in the applicable specification, including appropriate product identification and test or qualification reference number, with the name and plant address of the manufacturer and distributer, as applicable. Documents that contain QPL requirements are listed in the GSA "Index of Federal Specifications, Standards and Commercial Item Descriptions."

§ 101-29.208 Commercial item description (CID).

A "commercial item description" is an indexed, simplified product description that describes by function or performance characteristics of available, acceptable commercial products that will satisfy the Government's needs. These documents are issued or controlled by the General Services Administration and are listed in the GSA "Index of Federal Specifications, Standards and Commercial Item Descriptions."

§ 101-29.209 Purchase description.

A "purchase description" is any informal product description prepared for one-time use only or for small purchases when issuance of a formal product description is not cost effective.

§ 101-29.210 Product.

The term "product" is any end item, either manufactured or produced, and also includes materials, parts, components, subassemblies, equipment, accessories, attachments, and services.

§ 101-29.211 Product description.

A "product description" is a description of a product for acquisition and management purposes. Product descriptions include specifications, standards, commercial item descriptions, purchase descriptions, and brand-name purchase descriptions.

§ 101-29.212 Tailoring.

"Tailoring" is a process by which the individual requirements (sections, paragraphs or sentences) or product descriptions are evaluated to determine the extent to which each requirement is most suitable for a specific acquisition and the modification of these requirements, where necessary, to ensure that each document invoked achieves and optimal balance between operational needs and costs.

§ 101-29.213 Commercial product.

A "commercial product" is any item, component, or system available from stock or regular production that is sold in substantial quantities to the general public at established catalog or market prices (for definition of terms, see FPR 1-3.807.1).

§ 101-29.214 Commercial-type product.

A "commercial-type product" is defined as: (a) Any product similar to the commercial product but modified or altered in compliance with specified Government requirements and, as such is usually sold only to the Government and not through the normal catalog or retail outlets; (b) any product similar to a commercial product that is either assembled or manufactured in accordance with specifically stated Government requirements and sold only to the Government and not to the general public; or (c) a commercial product identified or marked differently than the commercial product normally sold to the general public.

§ 101-29.215 Departmental specification or standard.

A "departmental specification or standard" is a specification or standard prepared by, and of primary interest to, a particular Federal agency, but which may be used by other Federal agencies.

§ 101-29.216 Department of Defense Index of Specifications and Standards (DODISS).

The "Department of Defense Index of Specifications and Standards" is a Department of Defense (DoD) publication of unclassified Federal and military specifications and standards, related standardization documents, and voluntary standards that are used by DoD.

§ 101-29.217 Military specification or standard.

A "military specification or standard" is a specification or standard issued by the Department of Defense and listed in the DODISS.

§ 101-29.218 Voluntary standards.

"Voluntary standards" are established generally by private sector bodies and available for use by any person or organization, private or governmental. The term includes what are commonly referred to as "industry standards" as well as "consensus standards," but does not include professional standards of personal conduct, institutional codes of ethics, private standards of individual firms, or standards mandated by law such as those contained in the United States Pharmacopeia as referenced in 21 U.S.C. 351.

§ 101-29.219 Index of Federal Specifications, Standards and Commercial Item Descriptions.

The "Index of Federal Specification, Standards and Commercial Item Descriptions" is a GSA publication that lists Federal specifications, qualified products lists, standards, and commerical item descriptions.

§ 101-29.220 Market research and analysis.

"Market research and analysis" is a process used to ascertain and analyze the range and quality of available commercial products to determine whether they meet user needs and to identify the market practices of firms engaged in producing, distributing, and supporting the products.

§ 101-29.221 Federal Specifications, Standards and Commercial Item Description Program (Federal Standardization Program).

The "Federal Specifications, Standards and Commercial Item Description Program" is a standarization program developed under authority of the Federal Property and Administrative Services Act of 1949, as amended (63 Stat. 377) in consonance with the Defense Cataloging and Standardization Act (Secs. 2451-2456, Title 10, U.S.C.

Chapter 145), managed by the General Services Administration, for the purpose of coordinating civilian and military standardization functions to avoid unnecessary duplication. Within the program, procedures and controls govern the development, coordination, approval, issuance, indexing, management, and maintenance of product descriptions in the Federal series (Federal specifications, Federal standards, and CID's) that define commercial products and products that have high potential for common Federal agency use.

Subpart 101–29.3—Responsibilities

§ 101–29.301 General Services Administration.

§ 101–29.301–1 Policies and procedures.

The Administrator of General Services is responsible for establishing policies and procedures, in coordination with the other agencies, for the preparation, coordination, approval, issuance, and maintenance of product descriptions in the Federal series of specifications, standards, and CID's.

§ 101–29.301–2 Federal Standardization Handbook.

The Assistant Administrator for Federal Supply and Services will issue and maintain on a current basis a "Federal Standardization Handbook." The Federal Standardization Handbook sets forth operating procedures and applicable definitions used in the development of Federal product descriptions under the Assigned Agency Plan described therein. Federal agencies shall adhere to the provisions of the handbook in the development and coordination of Federal product descriptions.

§ 101–29.301–3 Availability of Federal product descriptions.

The Assistant Administrator for Federal Supply and Services will promulgate and maintain on a current basis the "Index of Federal Specifications, Standards and Commercial Item Descriptions." The Index lists Federal product descriptions which have been printed and distributed, including those which are mandatory for use, and identifies the sources from which these documents may be obtained. Supplements to the Index indicate the dates on which the use of new Federal product descriptions become mandatory. The Department of Defense aslo lists Federal product descriptions in the "Department of Defense Index of Specifications and Standards."

§ 101–29.301–4 Periodic review of Federal product descriptions.

The Assistant Administrator for Federal Supply and Services is responsible for establishing a program for periodically reviewing Federal product descriptions to determine whether revision, cancellation or reauthorization (validation) is appropriate. The frequency of the review shall be based on the degree of change in the technology of the product covered by the description and shall be conducted at least once every 5 years.

§ 101–29.302 Other Federal agencies.

Heads of other Federal agencies are responsible for adhering to the policies and procedures established by GSA for management and control of Federal product descriptions and for the use of these documents in acquisition as applicable.

§ 101–29.303 All Federal executive agencies.

(a) Federal executive agencies shall evaluate the effectiveness of their Federal product descriptions by:

(1) Establishing a system for obtaining user critiques of products acquired using those descriptions; and

(2) Establish a method whereby the preparing activity can locate and communicate with the users.

(b) The system shall encourage users to communicate with acquisition organizations regarding:

(1) The user's essential requirements;

(2) Product suitability for use in the user's environment;

(3) Product failures and deficiences;

(4) The needs of the logistics system; and

(5) Suggestions for corrective actions.

(c) Acquisition organizations shall designate a central point in each agency to evaluate and respond to user critiques and take corrective action on reasonable complaints and suggestions.

(d) At the time of the periodic review, the responsible preparing activity shall consider available user evaluations, the results of market research and analysis, and all reported deviations from the product description. Information, such as the following shall be examined in the review process:

(1) Whether the product description is still needed in its present form and scope or whether a more simplified one can be used;

(2) The existence of voluntary standards or other Government product descriptions that may better reflect current requirements;

(3) The need to convert Federal and agency specifications covering commercial or commercial-type products to CID's; and

(4) The currency and applicability of reference documents included in the product description.

Subpart 101–29.4—Mandatory Use of Federal Product Descriptions

§ 101–29.401 Federal product descriptions listed in the GSA Index of Federal Specifications, Standards and Commercial Item Descriptions.

(a) Federal product descriptions shall be used by all Federal agencies in the procurement of supplies and services covered by such descriptions, except as provided in § 101–29.402 and § 101–29.403.

(b) The order of preference in selecting Federal product descriptions for acquisition shall be:

(1) Any Federal product description adopting voluntary standards.

(2) Commercial item descriptions.

(3) Federal specifications and standards.

§ 101–29.402 Exceptions to mandatory use of Federal product descriptions.

(a) Federal product descriptions do not need to be used under any of the following circumstances:

(1) The purchase is required under a public exigency and a delay in obtaining agency requirements would be involved in using the applicable description.

(2) The total amount of the purchase is less than $10,000. (Multiple small purchases of the same item shall not be made for the purpose of avoiding the intent of this exception. Further, this exception in no way affects the requirements for the procurement of items available from GSA supply distribution facilities, Federal Supply Schedule contracts, GSA procurement programs, and certain procurement sources other than GSA that have been assigned supply responsibility for Federal agencies as provided in Subparts § 101–26.3, § 101–26.4, and § 101–26.5).

(3) The items are purchased in foreign markets for use of overseas activities of agencies.

(4) The products are adequately described in voluntary standards or in standards mandated by law.

(5) The acquisition involves a one-time procurement.

(6) A Federal product description is not currently available and is not expected to be available within a reasonable time of the scheduled acquisition action.

(7) The product is available only from a single source or is produced to a single manufacturer's design.

(8) The product is unique to a single system.

(9) The product (excluding military clothing) is acquired for authorized resale.

(b) If the purchase involves the following, Federal product descriptions do not need to be used except to the extent they are applicable, in whole or in part:

(1) Items required in construction of facilities for new processes or new installations of equipment;

(2) Items required for experiment, test, or research and development; or

(3) Spare parts, components, or material required for operation, repair, or maintenance of existing equipment.

§ 101-29.403 Federal product description exceptions and tailoring.

§ 101-29.403-1 Authorization of exceptions.

When the exceptions listed in § 101-29.402 do not apply and an applicable indexed product description is desired for use in procurement but does not meet an agency's essential needs, exceptions to the product description to effect procurement may be authorized as follows:

(a) All exceptions to Federal telecommunications standards require prior approval by the Assistant Administrator for Information Resources Management, General Services Administration, Washington, DC 20405.

(b) Preparing activities may designate specific product descriptions that require approval of exceptions by the preparing activity before use.

(c) Exceptions to Federal product descriptions that do not require prior approval under paragraphs (a) and (b) of this section may be authorized by the acquiring agency if:

(1) Justifications for exceptions are subject to review before authorization and that such justification can be fully substantiated if post audit is required;

(2) Notification of exception or recommendation for change to the Federal product description is sent promptly to the preparing activity and the General Services Administration (FCO), Washington, DC 20406.

(A statement of the exception with a justification and, where applicable, recommendation for revision or amendment to the description)

§ 101-29.403-2 Agency responsibility relative to exceptions to Federal product descriptions.

Each agency taking exceptions shall establish procedures whereby a designated official having substantial procurement responsibility shall be responsible for assuring that Federal product descriptions are used and provisions for exceptions are complied with.

§ 101-29.403-3 Tailoring of Federal product descriptions.

Product descriptions prepared to define and impose performance characteristics, engineering disciplines, and manufacturing practices such as reliability, system safety, quality assurance, maintainability, configuration management, and the like shall be tailored in accordance with their specific application in acquisitions.

Subpart 101-29.5—Use of and Optional Use of Federal Product Descriptions and Agency Product Descriptions.

§ 101-29.501 Optional use of interim Federal specifications.

Interim Federal specifications are for optional use. All agencies are urged to make maximum use of them and to submit suggested changes to the preparing activity for consideration in further development of the specifications for promulgation as Federal specifications or commercial item descriptions. Interim revisions or interim amendments to Federal specifications are for optional use as valid exceptions to the Federal specifications so revised or amended and must, therefore, be specifically identified by symbol and date in the invitation for bids or request for proposal.

§ 101-29.502 Use of Federal specifications and interim Federal specifications in Federal construction contracts.

When material, equipment, or services covered by an available Federal specification or interim Federal specification are specified in connection with Federal construction, the Federal specification or interim Federal specification shall be made part of the specification for the construction contract, subject to provisions in §§ 101-29.402, 101-29.403, and 101-29.501.

§ 101-29.503 Agency product descriptions.

When a Federal product description is not available, existing agency product descriptions should be used by all agencies consistent with each agency's procedures for establishing priority for use of such descriptions.

§ 101-29.504 Use of Federal product descriptions by mandatory sources of supply.

When items are supplied by a mandatory source such as the Federal Prison Industries, Inc., or the Committee for Purchase from the Blind and other Severely Handicapped, Federal and military specifications or other technical documents must be used in lieu of commercial item descriptions. Any deviations or exceptions to this requirement must have prior approval by the Director of Procurement, Office of Federal Supply and Services (FC), Washington, DC 20406.

Dated: March 25, 1983.

Ray Kline,

Acting Administrator of General Services.

41 CFR Part 101-47

[FPMR Amdt. H-141]

Identification of Unneeded Federal Real Property

AGENCY: General Services Administration.

ACTION: Final rule.

SUMMARY: Executive Order 12348 of February 25, 1982 among other things requires the Administrator of the General Services Administration (GSA) to issue standards, procedures, and guidelines for the conduct of surveys of real property holdings of Executive Agencies on a continuing basis to identify properties which are not utilized, are underutilized, or are not being put to their optimum use. The GSA is amending portions of its regulations regarding the identification of unneeded Federal real property in order to implement sections 4 and 5 of E.O. 12348.

EFFECTIVE DATE: June 6, 1983.

FOR FURTHER INFORMATION CONTACT: Mr. B. Michael O'Hara, Office of Real Property (202-535-7074).

SUPPLEMENTARY INFORMATION: GSA has determined that this rule is not a major rule for the purposes of Executive Order 12291 of February 17, 1981, because it is not likely to result in an annual effect on the economy of $100 million or more; a major increase in costs to consumers or others; or significant adverse effects. GSA has based all administrative decisions underlying this rule on adequate information concerning the need for, and consequences of, this rule; has determined that the potential benefits to society for this rule outweigh the potential costs, and has maximized the net benefits; and has chosen the alternative approach involving the least net costs to society.

List of Subjects in 41 CFR Part 101-47

Government property management, Surplus property management.

PART 101–47—[AMENDED]

Accordingly, Subpart 101–47.8 of Title 41, Code of Federal Regulations, is amended as follows:

Subpart 101–47.8—Identification of Unneeded Federal Real Property

1. Section 101–47.800 is revised to read as follows:

§ 101–47.800 Scope of subpart.

This subpart is designed to implement, in part, sections 4 and 5 of Executive Order 12348, which provide, in part, that the Administrator of General Services shall (a) issue standards, procedures, and guidelines for the conduct of surveys of real property holdings of Executive agencies on a continuing basis to identify properties which are not utilized, are underutilized, or are not being put to their optimum use; and (b) make reports to the Property Review Board describing any property or portion thereof which has not been reported excess to the requirements of the holding agency and which, in the judgment of the Administrator, is not utilized, is underutilized, or is not being put to optimum use, and which he recommends should be reported as excess property. The provisions of this subpart are presently limited to fee-owned properties and supporting leaseholds and lesser interests located within the States of the United States, the District of Columbia, the Commonwealth of Puerto Rico; American Samoa, Guam, the Trust Territory of the Pacific Islands, and the Virgin Islands. The scope of this subpart may be enlarged at a later date to include real property in additional geographical areas and other interests in real property.

2. Section 101–47.802 is amended by revising the introductory sentence of (b) and paragraphs (b)(5)(ii) through (b)(5)(v) to read as follows:

§ 101–47.802 Procedures.

* * * * *

(b) *GSA Survey.* Pursuant to section 4 of Executive Order 12348, GSA will conduct, on a continuing basis, a survey of real property holdings of all executive agencies to identify properties which, in the judgment of the Administrator of General Services, are not utilized, are underutilized, or are not being put to their optimum use.

* * * * *

(5) * * *

(ii) The GSA Central Office will notify the head of the Executive agency or his designee, in writing, of the survey findings and/or recommendations. A copy of the survey report will be enclosed when a recommendation is made that some or all of the real property should be reported excess, and the comments of the Executive agency will be requested thereon. The Executive agency will be afforded 45 calendar days from the date of the notice in which to submit such comments. If the case is resolved, GSA Central Office will notify the head of the Executive agency or his designee, in writing, of the resolution, and the case will be completed at such time as the agency completes all resolved excess and/or disposal actions. The agency will be afforded a period of 90 calendar days from the date of the notice to complete such actions.

(iii) [Reserved].

(iv) [Reserved].

(v) If the case is not resolved, the, GSA Central Office will report to the Property Review Board with respect to unresolved recommendations as prescribed in section 5 of Executive Order 12348. The head of the Executive agency or his designee will be notified by the Property Review Board of the resolution, and the case will be completed at such time as the agency completes all resolved excess actions. The agency will be afforded a period of 90 calendar days from the date of the notice to complete such actions.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c))

Dated: May 11, 1983.

Ray Kline,

Acting Administrator of General Services.

[FR Doc. 83–15080 Filed 6–3–83; 8:45 am]

BILLING CODE 6820–24–M

41 CFR PART 105–53

Statement of Organization and Functions

AGENCY: General Services Administration.

ACTION: Final rule.

List of Subjects in 41 CFR Part 105–53

Archives and records, Office of Information Resources Management, Computer technology, Federal buildings and facilities, Government property, Government property management, Organization and functions (Government agencies), Surplus Government property, Strategic materials.

Therefore, Part 105–53 is revised to read as follows:

PART 105–53—STATEMENT OF ORGANIZATION AND FUNCTIONS

Sec.
105–53.100 Purpose.

Subpart A—General

105–53.110 Creation and authority.
105–53.112 General statement of functions.
105–53.114 General statement of organization.
105–53.116 General regulations.
105–53.118 Locations of material available for public inspection.
105–53.120 Addresses and telephone numbers.

Subpart B—Central Offices

105–53.130 Office of the Administrator.
105–53.130–1 Office of Congressional Affairs.
105–53.130–2 Office of Ethics.
105–53.130–3 Office of the Executive Secretariat.
105–53.130–4 Office of Small and Disadvantaged Business Utilization.
105–53.130–5 Office of Communications.
105–53.130–6 Office of Program Control.
105–53.131 Office of Inspector General.
105–53.132 GSA Board of Contract Appeals.
105–53.133 Information Security Oversight Office.
105–53.134 Associate Administrator for Administration.
105–53.135 Office of Operations.
105–53.136 Office of Policy and Management Systems.
105–53.137 Office of Acquisition Policy.
105–53.138 Office of General Counsel.
105–53.139 Office of Plans, Programs, and Financial Management.
105–53.140 Office of Organization and Personnel.
105–53.141 Office of Oversight.
105–53.142 Office of Public Affairs.
105–53.143 Office of Information Resources Management.
105–53.144 Federal Property Resources Service.
105–53.145 Office of Federal Supply and Services.
105–53.146 National Archives and Records Service.
105–53.147 Public Buildings Service.

Subpart C—Regional Offices

105–53.150 Organization and functions.
105–53.151 Geographic composition; addresses and telephone numbers.

Authority: 5 U.S.C. 552(a)(1), Pub. L. 90–23, 81 Stat. 54 sec. (a)(1); 40 U.S.C. 486(c), Pub. L. 81–152, 63 Stat. 390, sec. 205(c).

§ 105–53.100 Purpose.

This part is published in accordance with 5 U.S.C. 552 and is a general description of the General Services Administration.

Subpart A—General

§ 105–53.110 Creation and authority.

The General Services Administration was established by section 101 of the Federal Property and Administrative Services Act of 1949 (63 Stat. 377), effective July 1, 1949. The act consolidated and transferred to the agency a variety of real and personal property and related functions fomerly assigned to various agencies. Subsequent laws and Executive orders assigned other related functions and programs.

§ 105–53.112 General statement of functions.

The General Services Administration, as a major policy maker, provides guidance and direction to Federal agencies in a number of management fields. GSA formulates and prescribes a variety of Government-wide policies relating to procurement and contracting; real and personal property management; transportation, public utilities, and telecommunications management; automated data processing management; records management; the Nation's emergency defense supplies; the use and disposal of property; the information security program; and the creation, preservation, and disposal of records.

§ 105–53.114 General statement of organization.

The General Services Administration is an independent agency in the executive branch of the Government. The work of the agency as a whole is directed by the Administrator of General Services, who is assisted by the Deputy Administrator. A summary description of each of GSA's major functions and organizational components is presented in subparts B and C.

§ 105.53 116 General regulations.

Regulations of the General Services Administration and its components are codified in the Code of Federal Regulations in Title 1, Chapters I and II; Title 32, Chapter XX; and Title 41, Chapters 1, 5, 101, and 105. Titles 1, 32, and 41 of the Code of Federal Regulations are available for review at most legal and depository libraries and at the General Services Administration Central Office and regional offices. Copies may be purchased from the Superintendent of Documents, Government Printing Office, Washington, DC 20402.

§ 105–53.118 Locations of material available for public inspection.

GSA maintains reading rooms containing materials available for public inspection and copying at the following locations:

(a) General Services Administration, 18th & F Streets, NW., Library (Room 1038), Washington, DC 20405. Telephone: 202–566–1240.

(b) Business Service Center, General Services Administration, John W. McCormack Building, Post Office & Courthouse, Boston, MA 02109. Telephone: 617–223–2868.

(c) Business Service Center, General Services Administration, 26 Federal Plaza, NY, NY 10007. Telephone: 212–264–1234.

(d) Business Service Center, General Services Administration, Seventh & D Streets, SW., Room 1050, Washington, DC 20407. Telephone: 202–472–1804.

(e) Business Service Center, General Services Administration, Ninth & Market Streets, Room 5142, Philadelphia, PA 19107. Telephone: 215–597–9613.

(f) Business Service Center, General Services Administration, Richard B. Russell Federal Building, U.S. Courthouse, 75 Spring Street, SW., Atlanta, GA 30303. Telephone: 404–221–5100.

(g) Business Service Center, General Services Administration, 230 South Dearborn Street, Chicago, IL 60604. Telephone: 312–353–5383.

(h) Business Service Center, General Services Administration, 1500 East Bannister Road, Kansas City, MO 64131. Telephone: 816–926–7203.

(i) Business Service Center, General Services Administration, 819 Taylor Street, Fort Worth, TX 76102. Telephone: 817–334–3284.

(j) Business Service Center, General Services Administration, Building 41, Denver Federal Center, Denver, CO 80225. Telephone: 303–324–2216.

(k) Business Service Center, General Services Administration, 525 Market Street, San Francisco, CA 94105. Telephone: 415–974–9000.

(l) Business Service Center, General Services Administration, 440 Federal Building, 915 Second Avenue, Seattle, WA 98174. Telephone: 206–442–5556.

§ 105–53.120 Addresses and telephone numbers.

The Office of the Administrator; Office of Inspector General; GSA Board of Contract Appeals; Information Security Oversight Office; Associate Administrator for Administration; Office of Operations; Office of Policy and Management Systems; Office of Congressional Affairs; Office of Communications; Office of Ethics; Office of the Executive Secretariat; Office of Small and Disadvantaged Business Utilization; Office of Program Control; Office of Acquistion Policy; Office of Organization and Personnel; Office of Plans, Programs, and Financial Management; Office of Oversight; Office of Public Affairs; Office of Information Resources Management; Federal Property Resources Service; and Public Buildings Service are located at 18th and F Streets, NW., Washington, DC 20405. The Office of Federal Supply and Services is located in Crystal Mall Building 4, 1941 Jefferson Davis Highway, Washington, DC 20406. The National Archives and Records Service is located in the Archives Building, Seventh and Pennsylvania Avenue, NW., Washington, DC 20408. The telephone number for the above addresses is 202–655–4000. The addresses of the eleven regional offices are provided in § 105–53.151.

Subpart B—Central Office

§ 105–53.130 Office of the Administrator.

The Administrator of General Services, appointed by the President with the advice and consent of the Senate, directs the execution of all programs assigned to the General Services Administration. The Deputy Administrator, who is appointed by the Administrator, assists in directing agency programs and coordinating activities related to the functions of the General Services Administration.

§ 105–53.130–1. Office of Congressional Affairs.

The Office of Congressional Affairs, headed by the Director of Congressional Affairs, is responsible for directing and coordinating the legislative and congressional activities of GSA.

§ 105–53.130–2 Office of Ethics.

The Office of Ethics, headed by the Director of Ethics, is responsible for developing, directing, and monitoring the agency's program governing employee standards of ethical conduct. It is the focal point for the agency's implementation of the Ethics in Government Act of 1978.

§ 105–53.130–3. Office of the Executive Secretariat.

The Office of the Executive Secretariat, headed by the Director of the Executive Secretariat, is responsible for policy coordination, correspondence control, and various administrative tasks in support of the Administrator and Deputy Administrator.

§ 105–53.130–4 Office of Small and Disadvantaged Business Utilization.

(a) *Creation and authority.* Public Law 95–507, October 14, 1978, an amendment to the Small Business Act and the Small Business Investment Act of 1958, established in each Federal agency having procurement authority the Office of Small and Disadvantaged Business Utilization. Each office is headed by a Director of Small and Disadvantaged Business Utilization. The Director is appointed by the head of the agency or department.

(b) *Functions.* The Director of Small and Disadvantaged Business Utilization is responsible for the implementation and execution of the functions and duties under Sections 8 and 15 of the Small Business Act to include the issuance of policy direction and guidance. The office provides information, assistance, and counseling to business concerns, including small businesses, small socially and economically disadvantaged persons, women-owned businesses, labor surplus area concerns, and workshops operated by the blind and other severely handicapped persons. The office also conducts outreach, liaison, source listings, and seminars for small and disadvantaged businesses and coordinates and promotes procurement programs and policies.

§ 105–53.130–5 Office of Communications.

The Office of Communications, headed by the Director of Communications, is responsible for the planning, implementation, and coordination of the public events activities and the GSA publications program.

§ 105–53.130–6 Office of Program Control.

The Office of Program Control, headed by the Director of Program Control, is responsible for developing and maintaining an agencywide management information system to track and monitor critical projects, problems, and issues. It is also responsible for planning, implementing, and coordinating the GSA customer relations activities.

§ 105–53.131 Office of Inspector General.

(a) *Creation and authority.* Public Law 95–452, known as the Inspector General Act of 1978, consolidated existing audit and investigation functions and established an Office of Inspector General in 11 major domestic departments and agencies, including GSA. Each office is headed by an Inspector General appointed by the President with the advice and consent of the Senate.

(b) *Functions.* The Office of Inspector General is responsible for policy direction and conduct of audit, inspection, and investigation activities relating to programs and operations of GSA; and maintaining liaison with other law enforcement agencies, the Department of Justice, and United States Attorneys on all matters relating to the detection and prevention of fraud and abuse. The Inspector General reports semiannually to the Congress through the Administrator concerning fraud, abuses, other serious problems, and deficiencies of agency programs and operations; recommends corrective action; and reports on progress made in implementing these actions.

§ 105–53.132 GSA Board of Contract Appeals.

(a) *Creation and authority.* The GSA Board of Contract Appeals (GSBCA), headed by the Chairman, GSA Board of Contract Appeals, was established on February 28, 1979, by the Administrator of General Services as an independent administrative/judicial tribunal under the provisions of the Contract Disputes Act of 1978 (Pub L. 95–563).

(b) *Functions.* The GSBCA hears, considers, and decides disputes between contractors and GSA and other executive departments, agencies, and commissions under the provisions of the Contract Disputes Act of 1978, the "Disputes" clause of contracts and in connection with contract related claims. The Board furnishes hearing examiners for the Suspension and Debarment Board which serves as the fact-finder in suspension and proposed debarment matters. The Suspension and Debarment Board Provides the suspending official with a determination as to whether adequate evidence exists to support the cause for suspension, delivers written findings of fact to the debarring official which resolve any facts in dispute based on a preponderance of the evidence and determines whether a cause for debarment exists. The Board also serves as an *ad hoc* body convened to consider any other type of dispute, including appeals involving violations of post-Federal employment restrictions pursuant to the Ethics in Government Act of 1978.

(c) *Regulations.* Regulations pertaining to GSBCA programs are published in 41 CFR Part 5A–60. Information on availability of the regulations is provided in § 105–53.116

§ 105–53.133 Information Security Oversight Office.

(a) *Creation and authority.* The Information Security Oversight Office (ISOO), headed by the Director of ISOO, who is appointed by the Administrator with the approval of the President, was established by the Administrator on November 20, 1978, under the provisions of Executive Order 12065. Effective August 1, 1982, this authority is based upon Executive Order 12356, which superseded E.O. 12065.

(b) *Functions.* ISOO oversees and ensures, under the general policy direction of the National Security Council, Government-wide implementation of the information security program established by Executive order.

(c) *Regulations.* Regulations pertaining to ISOO Programs are published in 32 CFR Chapter XX, Part 2000 et seq.

§ 105–53.134 Associate Administrator for Administration.

The Associate Administrator for Administration participates in the executive leadership of the agency, provides advice on major policies and procedures to the Administrator and Deputy Administrator, and oversees organizational effectiveness within the agency.

§ 105–53.135 Office of Operations.

The Office of Operations, headed by the Associate Administrator for Operations, participates in the executive leadership of the agency and in the formulation of GSA-wide policy; has primary responsibility for GSA's field operations; supervises GSA's Regional Administrators; and ensures that regional programs are executed in the most cost-effective and efficient manner.

§ 105–53.136 Office of Policy and Management Systems.

The Office of Policy and Management Systems, headed by the Associate Administrator for Policy and Management Systems, participates in the executive leadership of the agency and in the formulation of GSA-wide policy; serves as the focal point for policy regarding agency management matters; and exercises control of agencywide management systems with oversight responsibility of general operating systems.

§ 105–53.137 Office of Acquisition Policy.

(a) *Functions.* The Office of Acquisition Policy (OAP), headed by the Assistant Administrator for Acquisition Policy, serves as the single focal point for GSA acquisition and contracting matters and is responsible for ensuring that the GSA procurement process is executed in compliance with all appropriate public laws and regulations

and is based on sound business judgment.

(b) *Regulations.* Regulations pertaining to OAP programs are published in 41 CFR Chapter 5, General Services Administration Procurement Regulations (GSPR), and 41 CFR Chapter 1, Federal Procurement Regulations (FPR). Information on availability of the regulations is provided in § 105–53.116.

§ 105–53.138 Office of General Counsel.

Functions. The Office of General Counsel (OGC), headed by the General Counsel, is responsible for providing all legal services to the services, programs offices, staff offices, and regions of GSA with the exception of certain legal activities of the Office of Inspector General and legal activities of the Board of Contract Appeals; drafts legislation proposed by GSA; furnishes legal advice required in connection with reports on legislation proposed by other agencies; provides liaison on legal matters with other Federal agencies; coordinates with the Department of Justice in litigation matters; and reviews and gives advice on matters of contract policy and contract operations.

§ 105–53.139 Office of Plans, Programs, and Financial Management.

(a) *Functions.* The Office of Plans, Programs, and Financial Management (PPFM), headed by the Assistant Administrator for Plans, Programs, and Financial Management, is responsible for centralized agencywide budget and accounting functions; overall allocation and administrative control of agencywide resources and financial management programs; and for the audit of transportation bills paid by the Government and subsequent settlement of claims.

(b) *Regulations.* Regulations pertaining to PPFM programs are published in 41 CFR Parts 101–2 and 101–41. Information on availability of the regulations is provided in §105–53.116.

§ 105–53.140 Office of Organization and Personnel.

The Office of Organization and Personnel, headed by the Director of Organization and Personnel, plans for and administers GSA-wide programs for staffing, position classification and pay administration, employee relations, training, career development, equal employment opportunity, organization, and staff utilization.

§ 105–53.141 Office of Oversight.

The Office of Oversight, headed by the Director of Oversight, is responsible for conducting independent reviews of agencywide programs within priorities set by the Administrator to determine the effectiveness, efficiency, and economy of GSA activities; overseeing agencywide implementation of OMB Circular A–123; serving as the central point of control for audit and inspection reports from the Inspector General and the Comptroller General of the United States; administering GSA's security programs; and directing an agencywide program of administrative services.

§ 105–53.142 Office of Public Affairs.

The Office of Public Affairs, headed by the Director of Public Affairs, is responsible for the planning, implementing, and coordinating of all GSA public information activities.

§ 105–53.143 Office of Information Resources Management.

(a) *Creation and authority.* The Office of Information Resources Management (OIRM), headed by the Assistant Administrator for Information Resources Management, was established on August 17, 1982, by the Administrator of General Services. The Office was assigned responsibility for administering the Government-wide automatic data processing (ADP) resources management program and the Government-wide telecommunications management program.

(b) *Functions.* OIRM is responsible for directing and managing Government-wide programs for the procurement and use of automatic data processing, office information systems, and telecommunications equipment and services; developing and coordinating Government-wide plans, policies, procedures, regulations, and publications pertaining to ADP and telecommunications activities; managing and operating the Automatic Data Processing (ADP) Fund and the Federal Telecommunications (FT) Fund; managing and operating the Federal Telecommunications System (FTS); planning and directing programs for improving Federal records and information management practices Government-wide; managing and operating the Federal Information Centers and the Consumer Information Center; and developing and overseeing GSA policy concerning internal automated information systems, equipment, and facilities.

(c) *Regulations.* Regulations pertaining to OIRM programs are published in 41 CFR Chapter 1 and 41 CFR Chapter 101, Subchapters B and F. Information on availability of the regulations is provided in § 105–53.116.

§ 105–53.144 Federal Property Resources Service.

(a) *Creation and authority.* The Federal Property Resources Service (FPRS), headed by the Commissioner, Federal Property Resources Service, was established on July 18, 1978, by the Administrator of General Services to carry out the utilization and disposal functions for real and related personal property and the management of the Strategic and Critical Materials Stockpile.

(b) *Functions.* FPRS is responsible for utilization surveys of Federal real property holdings; the reuse of excess real property; the disposal of surplus real property; and acquiring, maintaining quality, storing, and disposing of the Nation's inventory of strategic and critical materials essential to the military and industrial requirements of the United States in times of emergency.

(c) *Regulations.* Regulations pertaining to FPRS programs are published in 41 CFR Chapter 1 and 41 CFR Chapter 101, Subchapters C and H. Information on availability of the regulations is provided in § 105–53.116.

§ 105–53.145 Office of Federal Supply and Services.

(a) *Creation and authority.* The Office of Federal Supply and Services (FSS), headed by the Assistant Administrator for Federal Supply and Services, was established on August 17, 1982, by the Administrator of General Services.

(b) *Functions.* FSS is responsible for determining supply requirements; procuring personal property and nonpersonal services; transferring excess (except ADP equipment) and donating and selling surplus personal property; managing GSA's Government-wide transportation, traffic management, travel, fleet management, and employee relocation programs; developing Federal standard purchase specifications and Commercial Item Descriptions; standardizing commodities purchased by the Federal Government; cataloging items of supply procured by civil agencies; and ensuring continuity of supply operations during defense emergency conditions.

(c) *Regulations.* Regulations pertaining to FSS programs are published in 41 CFR Chapters 1 and 5 and 41 CFR Chapter 101, Subchapter A, E, G, and H. Information on availability of the regulations is provided in § 105.53.116.

§ 105–53.146 National Archives and Records Service.

(a) *Creation and authority.* The National Archives and Records Service (NARS), under the direction of the Archivist of the United States, was established on December 11, 1949, by the Federal Property and Administrative Services Act of 1949 to succeed the National Archives Establishment originally established by the Act of June 19, 1934 (48 Stat. 1122).

(b) *Functions.* NARS is responsible for providing economical storage in Federal records centers for semiactive and noncurrent Federal records; appraising and scheduling records for appropriate disposition; selecting, preserving, and servicing the permanently valuable noncurrent records of the Federal Government; publishing the laws, constitutional amendments, Presidential documents, and administrative regulations having general applicability and legal effects; providing for the preservation, publication, and administration of the historical materials in Presidential libraries operated by GSA; and providing staff support to the National Historical Publications and Records Commission.

(c) *Regulations.* Regulations pertaining to NARS programs are published in 1 CFR Chapter I and II; 41 CFR Chapter 101, Subchapter B; and 41 CFR Parts 105–61, 105–63, and 105–65. Information on availability of the regulations is provided in § 105.53.116.

§ 105–53.147 Public Buildings Service.

(a) *Creation and authority.* The Public Buildings Service (PBS), headed by the Commissioner, Public Buildings Service, was established on December 11, 1949, by the Administrator of General Services to supersede the Public Buildings Administration, which was abolished by the Federal Property and Administrative Services Act of 1949.

(b) *Functions.* PBS is responsible for the design, construction, management, maintenance, operation, alteration, extension, remodeling, preservation, repair, improvement, protection, and control of buildings, both federally owned and leased, in which are provided housing accommodations for Government activities; the acquisition, utilization, custody, and accountability for GSA real property and related personal property; representing the consumer interests of the Federal executive agencies before Federal and State rate regulatory commissions and providing procurement support and contracting for public utilities (except telecommunications); the Government-wide safety program as it relates to GSA public buildings, and the GSA employee safety and health program; the implementation of Executive Order 11593; and coordination of GSA's activities towards improving the environment as required by the National Environmental Policy Act of 1959.

(c) *Regulations.* Regulations pertaining to PBS programs are published in 41 CFR Chapter 1 and 41 CFR Chapter 101, Subchapters D and H. Information on availability of the regulations is provided in § 105.53.116.

Subpart C—Regional Offices

§ 105–53.150 Organization and functions.

Regional offices have been established in 11 cities throughout the United States. Each regional office is headed by a Regional Administrator, who is responsible to the Associate Administrator for Operations for the overall direction and administration of the regional office and for the total performance of GSA programs and activities within the region. The overall organizational structure for each region is identical and consists of the following: Regional Administrator, Executive Assistant, Office of Regional Counsel, Office of Project Control and Oversight, Office of Controller, Office of Public Building and Real Property, Office of Federal Supply and Services, and Office of Information Resources Management. In certain instances, regional offices are assigned national interregional jurisdiction for a specific program. The geographic composition of each region is shown in § 105–53.151.

§ 105–53.151 Geographic composition; addresses and telephone numbers.

Regional Offices—General Services Administration

Region and Address

No. 1. (Comprising the States of Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont); John W. McCormack Building, Post Office and Courthouse, Boston, MA 02109. Telephone: 617–232–2100.

No. 2. (Comprising the States of New Jersey and New York, the Commonwealth of Puerto Rico, and the Virgin Islands. *Exception: FPRS Real Property functions for the Commonwealth of Puerto Rico and the Virgin Islands are administered by Region 4); 26 Federal Plaza, New York, NY 10007. Telephone: 212–264–3311.

No. 3. (Comprising the States of Maryland, Virginia, (except those jurisdictions within National Capital Region boundaries), West Virginia, Pennsylvania, and Delaware); Ninth and Market Streets, Philadelphia, PA 19107. Telephone: 215–597–3311.

No. 4. (Comprising the States of Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, and Tennessee; and the FPRS Real Property functions for the Commonwealth of Puerto Rico and the Virgin Islands); 75 Spring Street, SW., Atlanta, GA 30303. Telephone: 404–221–3200.

No. 5. (Comprising the States of Illinois, Indiana, Michigan, Minnesota, Ohio, and Wisconsin); 230 South Dearborn Street, Chicago, IL 60604. Telephone: 312–353–4401.

No. 6. (Comprising the States of Iowa, Kansas, Missouri, and Nebraska); 1500 East Bannister Road, Kansas City, MO 64131. Telephone: 816–926–7201.

No. 7. (Comprising the States of Arkansas, Louisiana, New Mexico, Oklahoma, and Texas); 819 Taylor Street, Fort Worth, TX 76102. Telephone: 817–334–2321.

No. 8. (Comprising the States of Colorado, Montana, North Dakota, South Dakota, Utah, and Wyoming); Building 41, Denver Federal Center, Denver, CO 80225. Telephone: 303–234–3131.

No. 9. (Comprising Guam and the States of Arizona, California, Hawaii, and Nevada); 525 Market Street, San Francisco, CA 94105. Telephone: 415–556–0000.

No. 10. (Comprising the States of Alaska, Idaho, Oregon, and Washington); GSA Center, Auburn, WA 98002. Telephone: 206–396–5000.

National Capital Region. (Comprising the District of Columbia; the Counties of Montgomery and Prince Georges in Maryland; and the City of Alexandria and the Counties of Arlington, Fairfax, Loudoun, and Prince William in Virginia); Seventh and D Streets, SW., Washington, DC 20407. Telephone: 202–655–4000. *FPRS Real Property utilization and disposal functions for Region 2 are administered by Region 1; Region 3 and National Capitol Region administered by Region 4; Region 6 administered by Region 7; and Region 8 administered by Region 10.

Dated: May 31, 1983.

Jon R. Halsall,

Acting Director of Organization and Personnel.

BILLING CODE 6820–24–M

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

43 CFR Public Land Order 6391

[OR-15667, I-18188]

Oregon and Idaho; Transfer of Jurisdiction; Addition to Wallowa National Forest

AGENCY: Bureau of Land Management, Interior.

ACTION: Public land order.

SUMMARY: This order transfers jurisdiction of 6,744 acres of public lands and an additional 6,212 acres of Federal minerals to the Secretary of Agriculture. The lands which lie within the Hells Canyon National Recreation Area will also become part of the Wallowa National Forest. All public lands and minerals involved will remain closed to surface entry, mining and mineral leasing.

EFFECTIVE DATE: June 6, 1983.

FOR FURTHER INFORMATION CONTACT: Champ C. Vaughan, Jr., Oregon State Office, 503-231-6905.

SUPPLEMENTARY INFORMATION: By virtue of the authority vested in the Secretary of the Interior by Section 204 of the Federal Land Policy and Management Act of 1976, 90 Stat. 2751; 43 U.S.C. 1714, and as provided by Section 9 of the Act of December 31, 1975, 89 Stat. 1117; 16 U.S.C. 460gg, which established the Hells Canyon National Recreation Area, it is ordered as follows:

1. Subject to valid existing rights, administrative jurisdiction of the following described public lands lying within the boundaries of the Hells Canyon National Recreation Area are hereby transferred to the Secretary of Agriculture:

Willamette Meridian, Oregon

T. 6 N., R. 47 E.,
- Sec. 15, lots 1, 2, 3, and 4;
- Sec. 17, lots 1, 2, 3, and 4;
- Sec. 20, W½;
- Sec. 21, N½NW¼, SW¼NW¼, NW¼SW¼, and S½SW¼;
- Sec. 25, lots 1 and 2;
- Sec. 28, N½ and W½SW¼;
- Sec. 29, S½NE¼;
- Sec. 33, lots 4, 5, 6, and 7, SW¼NW¼, N½SW¼, and S½S½;
- Sec. 35, lot 5.

T. 6 S., R. 48 E.,
- Sec. 18, that portion lying within the Hells Canyon National Recreation Area;
- Sec. 19, W½, SW¼SE¼, and those portions of the N½NE¼ and N½SE¼ lying within the Hells Canyon National Recreation Area;
- Sec. 30, W½ and those portions of the N½NE¼ and SE¼ lying within the Hells Canyon National Recreation Area;
- Sec. 31, that portion lying within the Hells Canyon National Recreation Area.

T. 7 S., R. 48 E.,
- Sec. 6, those portions of lot 4, SW¼NW¼, and W½SW¼ laying within the Hells Canyon National Recreation Area.

Boise Meridian, Idaho

T. 28 N., R. 2 W.,
- Sec. 15, lots 1, 2, and 3, and SW¼NE¼;
- Sec. 23, lots 1, 3, 4, and 5;
- Sec. 25, S½NW¼ and W½SW¼;
- Sec. 26, lots 1, 2, 3, and 4;
- Sec. 35, lots 1, 2, 3, and 4.

- Sec. 32, lot 1;
- Sec. 33, lots 1, 2, 3, and 4, NW¼NW¼, S½SE¼NW¼, S½NW¼SE¼, and SE¼SE¼.

The areas described aggregate approximately 3,535 acres in Baker and Wallowa Counties, Oregon, and 3,209.41 acres in Idaho and Nez Perce Counties, Idaho.

2. Subject to valid existing rights, administrative jurisdiction of the reserved mineral estate in the following described patented lands lying within the boundaries of the Hells Canyon National Recreation Area is hereby transferred to the Secretary of Agriculture to the extent necessary to carry out the purposes of the Act of December 31, 1975:

Willamette Meridian, Oregon

T. 6 N., R. 47 E.,
- Sec. 14, lot 1;
- Sec. 18, lots 1, 2, 3, and 4;
- Sec. 19, NE¼, N½SE¼, and that portion of the SW¼ lying within the Hells Canyon National Recreation Area;
- Sec. 20, E½;
- Sec. 21, E½, SE¼NW¼, and NW¼SW¼;
- Sec. 22, NW¼;
- Sec. 23, lots 1, 2, and 3;
- Sec. 26, lots 1, 3, 4, and 5, SE¼NW¼, W½SW¼, and SW¼SE¼;
- Sec. 27, SW¼ and S½SE¼;
- Sec. 28, E½SE¼;
- Sec. 29, those portions of the N½NE¼, SE¼, and E½SW¼ lying within the Hells Canyon National Recreation Area;
- Sec. 30, those portions of the NE¼ and E½NW¼ lying within the Hells Canyon National Recreation Area;
- Sec. 32, that portion of the SE¼ lying within the Hells Canyon National Recreation Area;
- Sec. 33, lot 3 and NW¼NW¼;
- Sec. 34, NE¼, W½, and W½SE¼;
- Sec. 35, lots 1, 2, and 3, and N½.

T. 7 S., R. 47 E.,
- Sec. 26, that portion of the W½W½ lying within the Hells Canyon National Recreation Area;
- Sec. 27, E½ and E½W½;
- Sec. 28, those portions of the E½SW¼ and W½SE¼ lying within the Hells Canyon National Recreation Area;
- Sec. 33, NE¼ and that portion of the E½NW¼ lying within the Hells Canyon National Recreation Area;
- Sec. 34, N½NE¼, SE¼NE¼, and SW¼NW¼;
- Sec. 35, that portion of the NW¼NW¼ lying within the Hells Canyon National Recreation Area.

Boise Meridian, Idaho

T. 28 N., R. 2 W.,
- Sec. 6, lots 7 and 8;
- Sec. 7, lot 3;
- Sec. 8, lots 1, 2, 3, and 4;
- Sec. 9, lots 1 and 2, NW¼NW¼ and SE¼NW¼.

T. 28 N., R. 3 W.,
- Sec. 2, lots 1 and 2, SW¼NW¼, NE¼SW¼, and SW¼SE¼;
- Sec. 3, lot 2;
- Sec. 11, lots 1 and 2, and NE¼NE¼;
- Sec. 12, lots 1 to 5, inclusive.

T. 29 N., R. 3 W.,
- Sec. 27, lots 1 and 2, SW¼NW¼, and NE¼SW¼;
- Sec. 28, lots 1, 2, and 4;
- Sec. 34, lots 1, 2, and 3.

T. 30 N., R. 4 W.,
- Sec. 6, lots 5, 14, 15, 18, 19, and that portion of lot 4 lying within the Hells Canyon National Recreation Area;
- Sec. 7, W½NE¼NE¼.

The areas described aggregate approximately 4,797 acres in Baker and Wallowa Counties, Oregon, and approximately 1,415 acres in Idaho and Nez Perce Counties, Idaho.

3. Subject to valid existing rights, the lands described in paragraphs 1 and 2 are hereby made a part of the Wallowa National Forest to be administered as the Wallowa-Whitman National Forest and shall hereafter be subject to all laws and regulations applicable thereto.

4. Subject to valid existing rights, Section 11 of the Act of December 31, 1975, withdraws the lands described in paragraphs 1 and 2 from all forms of

location, entry, and patent under the mining laws of the United States, and from disposition under all laws pertaining to mineral leasing and all amendments thereto.

Inquiries concerning the lands should be addressed to the State Director, Bureau of Land Management, P.O. Box 2965, Portland, Oregon 97208.

Dated: May 27, 1983.

Garrey E. Carruthers,

Assistant Secretary of the Interior.

[Amdt. Nos. 192-44 and 195-27; Docket No. PS-59]

Transportation of Natural and Other Gas and Hazardous Liquids by Pipeline; Line Marking at Navigable Waterways

AGENCY: Materials Transportation Bureau (MTB), RSPA, DOT.

ACTION: Final rule.

SUMMARY: This amendment revokes the regulations that require pipeline operators to place and maintain line markers at locations where gas and hazardous liquid pipelines cross navigable waterways. The current regulations are considered costly and unnecessary for safety in light of requirements and practices of the U.S. Army Corps of Engineers and voluntary practices of the pipeline industry.

EFFECTIVE DATE: July 6, 1983.

FOR FURTHER INFORMATION CONTACT: Mr. L. M. Furrow, (202) 426-2392, regarding the content of this notice, or the Dockets Branch, (202) 426-3148, regarding copies of this notice or other information in the dockets.

SUPPLEMENTARY INFORMATION:

Background

Line markers (or signs) historically have been installed by gas and hazardous liquid pipeline companies at navigable waterway crossings to warn vessel pilots of the presence of underwater pipelines. The objective of this practice is to reduce the possibility that underwater pipelines will be damaged by activities such as anchoring, dredging, pile driving, spud mooring, or by collision at the shoreline. A version of this voluntary practice became mandatory for hazardous liquid pipelines when § 195.410, Line markers, was adopted in 1970 (34 FR 15473). Later, the standards in § 192.707 for marking gas pipelines were amended in 1975 (40 FR 13502) to, among other things, establish specific, detailed requirements for marking mains and transmission lines at navigable waterway crossings.

Although the term "navigable waterway" is not defined in either the gas or liquid regulations, MTB has interpreted it in a manner consistent with the U.S. Coast Guard's application of the term. This application has been recently expanded, however, by statutes and court decisions to include waters where there is little or no likelihood that marine activities will damage pipelines. For instance, markers would not be very useful for protecting crossings of minor streams that, although "navigable," have no vessel traffic and no likelihood of being dredged.

Another problem with both the gas and liquid line marking regulations is the difficulty and impracticality of installing warning signs at the shore that are large enough to be seen from passing vessels. Usually as waterways increase in size, so must the signs to provide adequate notice. At some point, aesthetic objections occur.

Review

These problems caused MTB to include §§ 192.707 and 195.410 in its program for reviewing existing regulations, with a view toward revoking or revising those regulations that are not achieving their intended purpose. MTB's review concluded, preliminarily, that despite their longstanding usage, there was no empirical evidence to demonstrate the effectiveness of line markers in reducing the potential for accidents at navigable waterway crossings. It was also obvious that marker benefits, if any, would not likely be available at night or in fog, or far from shore where markers of moderate size could not be seen.

Another finding was that the consequences of accidents that have occurred have not been severe in terms of deaths and injuries. From 1970 through 1979, there were 40 accidents reported on gas pipeline crossings caused by marine activities, resulting in no deaths and four injuries. Between 1968 and 1977, there were only 16 marine-activity related accidents on liquid pipelines, and no deaths or injuries were reported.

Finally, even in the absence of a complete cost study, information supplied by the Tennessee Gas Pipeline Company and East Tennessee Natural Gas showed that compliance with the existing requirements for water crossings that might be classed as navigable is very costly for the industry.

To complete its review of the regulations that require placement of line markers at navigable waterway crossings, MTB issued an Advance Notice of Proposed Rulemaking (ANPRM) on June 17, 1981 [46 FR 32287; June 22, 1981], inviting comments on the problem of interference with underwater pipeline crossings, the benefits of installing line markers at these crossings, and the size and costs of markers to be used.

The ANPRM set forth five alternative courses of action to deal with the line marker problem. Of these, Alternatives 2 and 4 received the most favorable responses. These alternatives were as follows:

Alternative 2. "Require line markers only at crossings of rivers or other bodies of water which carry potentially damaging vessels or where channel dredging and commercial dredging [such as oyster shell dredging] is commonly performed, but place a reasonable limit on the size of signs."

Alternative 4. "Revoke the present requirements for line markers at navigable waterways. In this case, safety would be regulated by other existing Department of Transportation requirements, such as depth of burial, by "one-call" damage prevention programs, or by Coast Guard and Corps of Engineer requirements. . . ."

Notice of Proposed Rulemaking

After considering the comments on the ANPRM, MTB issued a Notice of Proposed Rulemaking concerning line markers at navigable waterways [48 FR 2987; January 24, 1983]. In this notice, MTB gave its reasons for rejecting Alternative 2 and proposing to adopt Alternative 4. The reasons in regard to Alternative 2 were as follows:

> MTB is not persuaded by the respondents who favored Alternative 2 that there should be a Federal pipeline safety requirement for placement of line markers at particular waterways. The waters to which the respondents would apply such a requirement, ones where damage to pipelines is most likely to occur, are the same ones they stated they would continue to mark in the absence of any Federal pipeline safety requirement. Indeed, the Regulatory Evaluation indicates that in high traffic locations, it is cost beneficial to install line markers, giving credence to the industry comments that line markers will be voluntarily installed where appropriate. MTB does not believe that it should require by regulation that which industry largely does on its own initiative, particularly when the failure to act voluntarily would not measurably threaten public safety.

Another consideration regarding Alternative 2 is that the Corps of Engineers and the Coast Guard also have regulations which affect the safety of pipelines crossing navigable waterways.

The Corps of Engineers and National Ocean Survey of the Department of Commerce produce charts for purposes of navigation on U.S. waterways. Submarine cables and pipelines are shown on these charts, based on information furnished by the Corps as set forth in 33 CFR 209.310 and 209.325 (g), (h), and (i). Also, information about pipelines which affect navigation is published in Notices to Mariners, a Coast Guard and Department of Commerce publication, and in the U.S. Coast Pilot Monthly, another government sponsored publication, both of which are available to mariners. The U.S. Coast Guard requires vessels of 1,600 gross tons and up operating on the navigable waters of the U.S. to carry current government charts, coast pilots, and Notices to Mariners (33 CFR 164.33). Thus, information about pipeline crossings that could affect navigation is available on charts and publications to pilots of all vessels, and required to be kept on vessels with sufficient capacity to damage pipelines.

Moreover, the Corps of Engineers has authority under Sec. 10 of the River and Harbor Act of 1899 to regulate and grant permits for pipeline crossings of navigable waters of the United States and for dredging of other construction activities that might interfere with such crossings. The regulations which apply to the issuance of permits are in 33 CFR Parts 320 through 330.

The Corps of Engineers' policies for review of applications for Department of Army permits include a public interest review (33 CFR 320.4). All factors which may be relevant to a proposed crossing are considered, among which are navigation, safety, and in general, the needs and welfare of the people. Comments on the ANPRM from the Corps stated that the need for line markers is also part of this review. No permit is granted unless its issuance is found to be in the public interest.

Thus, the Corps not only furnishes information about pipeline crossings that is used by mariners, but also conducts a case-by-case review of the safety of pipeline crossings of navigable waters, including the need for line markers. Furthermore, after a crossing is constructed, the Corps' permitting program in regard to dredging and marine construction activities serves to protect the crossing against damage. It follows, therefore, that the present requirements of §§ 192.707 and 195.410 for marking navigable waterway crossings are to a large extent unnecessary in light of the Corps of Engineers' practices.

The reasons for selecting Alternative 4 were as follows:

After reviewing all the comments and considering other information available, MTB does not believe that its current requirements for placing line markers at navigable waterway crossings are justified. In short, MTB believes that because of their location, there is little risk of damage to underwater pipelines, and most of the incidents to underwater pipelines that do occur expose very few members of the general public to danger. Moreover, there is insufficient evidence to show that line markers have had any effect in preventing damage to underwater pipelines and such quantitative information appears unobtainable.

A major factor related to the lack of need for Federal regulations is MTB's belief, as supported by the comments, that most operators will voluntarily install and maintain line markers at crossings where they consider line markers to be helpful. Clearly, it is unnecessary for MTB to require by Federal regulations what industry can and will do in the absence of Federal regulations.

Another very important consideration involves the requirements and practices of the Corps of Engineers regarding issuing permits for pipeline crossings, dredging, and other construction activities in navigable waterways and the information provided mariners about pipeline crossings. The Corps' permitting and informational programs protect the public not only in regard to hazards to navigation, but also against risks posed by interference with underwater pipelines by vessels, dredging, or other water-use activity.

Discussion of Comments

There were 34 persons who submitted comments on the Notice of Proposed Rulemaking. They included public utility companies, gas and liquid transmission companies, State agencies, industry trade associations, a maritime association, and Federal agencies.

Twenty-five of these commenters supported the proposed rulemaking categorically. Of this group, some acknowledged they previously were proponents of Alternative 2, but were persuaded by the notice that Alternative 4 is a better choice.

Both §§ 192.707 and 195.410 provide, in general performance terms, that line markers must be installed where necessary to identify the location of a pipeline. To assure that this general provision could not be construed to apply to navigable waterway crossings, MTB proposed to amend paragraph (b) of each rule to add "navigable waterways" to the list of situations in which markers are not required. A few commenters pointed out, however, that use of the term "navigable waterways" without a definition would be confusing because the exclusion would not apply to all waterways. Inasmuch as the rationale for not requiring markers at navigable waterways applies equally, or even more so, to waterways that are not navigable, there is no valid reason why the regulations should imply that some nonnavigable waterway crossings should be marked. Therefore, in the final rules, the words "navigable waterways" are deleted from paragraph (b), but replaced by the words "waterways and other bodies of water". Hence, no one may infer that markers are required at any waterway or other body of water.

Four commenters opposed the proposal to revoke the current regulations: the U.S. Coast Guard, the National Transportation Safety Board, the New York State Public Service Commission, and the West Gulf Maritime Association. They argued in favor of Alternative 2, which was to require markers at waterways with potentially damaging vessel traffic. Some of the supporting statements advanced were that in emergencies pilots would not have time to consult charts before dropping anchor, and it is unrealistic to assume that the voluntary placement of signs would provide satisfactory protection. The U.S. Coast Guard said that pipeline markers are more effective than charts. The National Transportation Safety Board added that waterway markers have the benefit of warning shoreside excavators of the presence of buried pipelines. Yet, none of these commenters submitted any hard data regarding the benefits of existing line markers at navigable waterway crossings. For example, even though the proposal did not rest on the assumption that pilots would consult charts instead of line markers during an emergency, no information was presented to show how markers have helped to prevent accidents in an emergency. Since the benefits of waterway markers remain a matter of conjecture, and the historical practices of industry and the Corps of Engineers appear to provide sufficient safeguards against vessel damage and dredging, the primary threats to underwater pipelines, MTB's line marking regulations on the subject cannot be justified. The general linemarking requirements will continue to protect against shoreside excavation activities that do not affect waterways but might interfere with a buried pipeline. Also, "one call" damage prevention programs (e.g., § 192.614) will protect against damage from onshore excavation activities.

Advisory Committee Review

Section 4(b) of the Natural Gas Pipeline Safety Act of 1968, as amended (49 USC 1673(b)), requires that each proposed amendment to a safety standard established under that statute be submitted to a 15-member advisory committee for its consideration. The committee, composed of persons knowledgeable about the transportaion of gas, considered the proposed amendment to § 192.707 at a meeting in Washington, D.C., on November 16 and 17, 1982.

In its report, dated January 14, 1983 (a copy of which is in the docket), the committee found the proposed amendment, as set forth in a draft of the Notice of Proposed Rulemaking, to be technically feasible, reasonable, and practical provided (1) the words "or at crossings of" in the proposed paragraph (b)(1) were deleted, and (2) the heading of paragraph (d) was changed to read "Marker." The second of these recommended revisions was included in substance in the published Notice of Proposed Rulemaking. The first was not adopted, however, in either the notice or this final rule because MTB does not concur with the committee's rationale for the change. The committee thought the express exclusion of waterway crossings from the marker regulations (by adding "or at crossings of" to the existing paragraph (b)) would serve to deter voluntary installation of markers, and also, not permit use of the general duty provision in paragraph (a) (discussed above) as a shield against persons who might object to the voluntary installation of waterway markers on aesthetic grounds. As discussed above, MTB has left the exclusion in the final rule to avoid any implication that the general duty provision requires waterway markers in some locations and to avoid the associated interpretive difficulties. Pipeline companies have historically installed markers at waterway crossings. MTB doubts, based on the comments of operators in the record, that a clear Federal statement that markers are no longer mandatory in these locations will cause companies to change their long-standing policies. As to the protection a Federal rule might give companies against opponents of waterway markers, providing such defenses is certainly not an authorized purpose of rulemaking when a rule cannot otherwise be justified. In addition, MTB believes that most objections to signs in the past have arisen because of the oversized signs companies have had to erect to comply with § 192.707 at wide navigable waterways. A more judicious approach to choosing sign sizes should result in few, if any, objections in the future.

Likewise, Section 204(b) of the Hazardous Liquid Pipeline Safety Act of 1979 (49 USC 2003(b)) requires that the proposed amendment to § 195.410 be submitted for consideration by a 15-member advisory committee composed of persons knowledgeable about the transportation of hazardous liquids. The committee considered the proposed amendment at a meeting in Washington, D.C., on December 7–8, 1982. In its report, dated March 9, 1983 (a copy of which is in the docket), the committee found the proposed amendment, as set forth in a draft of the Notice of Proposed Rulemaking, to be technically feasible, acceptable, and reasonable.

Classification

This final rule is not a "major rule" under Executive Order 12291. The Order defines a "major rule" as one which would have an annual effect on the economy of $100 million or more, a major increase in costs, or a significant adverse effect on the economy. As shown by the Regulatory Evaluation for this proceeding, this final rule does not have such an impact. This final rule also is not a "significant" rule as defined by the Department of Transportation Policies and Procedures (DOT Order 2100.5).

The Regulatory Flexibility Act (5 USC 601 et seq.) requires a review of certain rules proposed after January 1, 1981, for their effects on small businesses, organizations and governmental bodies. I certify that the final rule will not have a significant economic impact on a substantial number of small entities because there will be no direct or indirect costs of compliance or other adverse effects.

List of Subjects

49 CFR Part 192

Pipeline safety.

49 CFR Part 195

Ammonia, Petroleum, Pipeline safety, Reporting and recordkeeping requirements.

Therefore, for reasons set out in the preamble, MTB amends 49 CFR Parts 192 and 195 as follows:

PART 192—[AMENDED]

1. Section 192.707 is amended by revising paragraphs (a) and (b) and the introductory text of paragraph (d) to read as follows, and by removing paragraphs (e) and (f):

§ 192.707 Line markers for mains and transmission lines.

(a) *Buried pipelines.* Except as provided in paragraph (b) of this section, a line marker must be placed and maintained as close as practical over each buried main and transmission line:

(1) At each crossing of a public road and railroad; and

(2) Wherever necessary to identify the location of the transmission line or main to reduce the possibility of damage or interference.

(b) *Exceptions for buried pipelines.* Line markers are not required for buried mains and transmission lines—

(1) Located offshore or at crossings of or under waterways and other bodies of water; or

(2) In Class 3 or Class 4 locations—

(i) Where placement of a marker is impractical; or

(ii) Where a damage prevention program is in effect under § 192.614.

* * * * *

(d) *Marker warning.* The following must be written legibly on a background of sharply contrasting color on each line marker:

* * * * *

(49 U.S.C. 1672; 49 CFR 1.53 and Appendix A of Part 1)

PART 195—[AMENDED]

2. Section 195.410 is amended by revising the introductory text of paragraphs (a) and paragraph (a)(2) and (b) to read as follows, by removing paragraph (c), and by redesignating paragraph (d) as paragraph (c):

§ 195.410 Line markers.

(a) Except as provided in paragraph (b) of this section, each operator shall place and maintain line markers over each buried pipeline in accordance with the following:

* * * * *

(2) The marker must state at least the following: "Warning" followed by the words "Petroleum (or the name of the hazardous liquid transported) Pipeline" (in lettering at least 1 inch high with an approximate stroke of one-quarter inch on a background of sharply contrasting color), the name of the operator and a telephone number (including area code) where the operator can be reached at all times.

(b) Line markers are not required for buried pipelines located—

(1) Offshore or at crossings of or under waterways and other bodies of water; or

(2) In heavily developed urban areas such as downtown business centers where—

(i) The placement of markers is impracticable and would not serve the purpose for which markers are intended; and

(ii) The local government maintains current substructure records.

* * * * *

(49 U.S.C. 2002; 49 CFR 1.53 and Appendix A of Part 1)

Issued in Washington, D.C., on May 27, 1983.

L. D. Santman,

Director, Materials Transportation Bureau.

BILLING CODE 4910-60-M

National Highway Traffic Safety Administration

49 CFR Part 571

[Docket No. 80-14; Notice 7; Docket No. 71-16; Notice 12]

Safety Standards for New Pneumatic Tires

AGENCY: National Highway Traffic Safety Administration (NHTSA), DOT.

ACTION: Technical amendment.

SUMMARY: In this agency's safety standards applicable to new pneumatic tires for use on motor vehicles, there are listings of standardization organizations whose publications of specifications are accepted under the standards as means for determining appropriate rim sizes on which to mount the tires during testing, and for providing other technical data. This agency has received two petitions requesting changes to these listings. The Society of Motor Manufacturers & Traders Ltd. (SMMT) stated that they no longer set or maintain standards for new tires, and that those functions are now handled for the group by the British Standards Institution, a group already listed in both new tire standards. SMMT requested that their name be deleted from the list of standardization organizations in the new tire standards. Japan Automobile Tire Manufacturers' Association, Inc. (JATMA) asked that the name of the Japanese group currently listed in the standard for new tires for use on motor vehicles other than passenger cars be deleted, because that group does not issue specific tire standards. JATMA, which does issue such standards, asked that its name be added to the list of standardization organizations. This notice makes the changes requested by these petitions. Additionally, this notice corrects an error in the name of the German standardization organization in the passenger car tire standard.

DATE: This amendment is effective June 6, 1983.

FOR FURTHER INFORMATION CONTACT: Arturo Casanova, Office of Vehicle Safety Standards, National Highway Traffic Safety Administration, 400 Seventh Street, S.W., Washington, D.C. 20590 (202-426-1715).

SUPPLEMENTARY INFORMATION: Section S4.4.1(b) of Standard No. 109, *New Pneumatic Tires—Passenger Cars* (49 CFR 571.109), and section S5.1(b) of Standard No. 119, *New Pneumatic Tires for Motor Vehicles Other Than Passenger Cars* (49 CFR 571.119), both contain listings of the various standardization organizations. A standardization organization is a voluntary association composed of representatives of each of the member tire companies. The purpose of a standardization organization is to establish and promulgate engineering standards for tires, rims, and their allied parts. NHTSA relies on the standardization organizations to list the acceptable rim sizes for each tire size and for certain technical information regarding the tire sizes.

Two petitions recently submitted to the agency indicate that these listings of standardization organizations need to be updated in order to reflect the current status of standardization activities. In the first petition, SMMT stated that it no longer performs any of the tasks associated with standardization organizations, and that those activities are now performed for SMMT by the British Standards Institution, a group already listed in both standards. Accordingly, SMMT requested that its name be deleted from the list of standardization organizations.

In the second petition, JATMA noted that the group currently listed in Standard No. 119 as the Japanese standardization organization is Japanese Industrial Standards. JATMA noted that that organization is an organization for all Japanese industries, not just the Japanese tire industry, and does not currently perform the functions associated with a standardization organization. JATMA does perform these functions, and is so recognized in Standard No. 109, which no longer lists Japanese Industrial Standards. JATMA requested that Standard No. 119's list of standardization organizations be amended to correspond to the listing in Standard No. 109 with regard to the Japanese standardization organization.

Both of these petitions are granted. Additionally, the agency erroneously listed the German standardization organization as the Deutsches Institut fur Norming in its response to the petitions for reconsideration of the final rule deleting the tire tables from Standard No. 109 (47 FR 36180; August 19, 1982). The correct name for that organization, and the name which has been used in all previous agency rulemaking notices referring to that standardization organization, is Deutsche Industrie Norm. The correct name is substituted in Standard No. 109 by this amendment.

These changes represent only technical corrections to the agency's listing of recognized standardization organizations. They impose no obligations on any party, but only accommodate the wishes of the listed organizations or correct an error by this agency. Accordingly, the agency finds for good cause that notice and opportunity for comment are unnecessary, and these changes are effective as soon as this notice is published.

List of Subjects in 49 CFR Part 571

Imports, Motor vehicle safety, Motor vehicles, Rubber and rubber products, Tires.

PART 571—[AMENDED]

In consideration of the foregoing, section S4.4.1(b) of 49 CFR 571.109 and section S5.1(b) of 49 CFR 571.119 are revised to read as follows:

§§ 571.109 and 571.119 [Amended]

* * * * *

(b) Contained in publications, current at the date of manufacture of the tire or any later date, of at least one of the following organizations:

The Tire and Rim Association
The European Tyre and Rim Technical Organisation
Japan Automobile Tire Manufacturers' Association, Inc.
Deutche Industrie Norm
British Standards Institution
Scandanavian Tire and Rim Organization

Vol. 48, No. 109
Monday, June 6, 1983

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

FARM CREDIT ADMINISTRATION

12 CFR Part 614

Loan Policies and Operations

AGENCY: Farm Credit Adminstration.

ACTION: Proposed rule.

SUMMARY: The Farm Credit Administration ("FCA") by its Federal Farm Credit Board, publishes for comment proposed amendments to its regulation concerning interest rate programs.

The amendments authorize banks or associations to establish interest rate programs subject to FCA approval. Differential interest rates, based on costs reasonably associated with different portions of the banks' or associations' loan portfolios, are now specifically authorized.

DATE: Written comments must be received on or before August 8, 1983.

ADDRESSES: Submit any comments in writing to Donald E. Wilkinson, Governor, Farm Credit Administration, Washington, DC 20578. Copies of all communications received will be available for examination by interested persons in the Office of the Director, Congressional and Public Affairs Division, Office of Administration, Farm Credit Administration.

FOR FURTHER INFORMATION CONTACT: Michael C. Salapka, Finance Division, (202) 755–4055, or Gary Griffith, Operations Management Section, (202) 755–5943, Farm Credit Administration, 490 L'Enfant Plaza East, S.W., Washington, DC 20578.

SUPPLEMENTARY INFORMATION: The current FCA regulation § 614.4321 does not specifically authorize Farm Credit System ("System") banks or production credit associations to establish differential interest rates based on costs reasonably associated with particular segments of their loan portfolios. An amendment to the regulation is being proposed to allow banks and associations to set differential interest rates based on funding and operations costs and on such other factors as the FCA may approve. All differential interest rate programs shall be subject to FCA approval.

The current FCA Regulation § 614.4321 authorizes System banks and associations to implement differential interest programs which price credit for specific classes of loans based on type, purpose, amount, quality, or any combination of these factors. Except for the limited use of match-funded loan programs, System institutions currently do not price credit to their borrowers giving specific consideration to the funding and operating costs properly attributable to the particular type of loan involved. Such costs are spread over the institution's entire loan portfolio rather than weighted in the calculation of the rates applicable to the respective types of credit. One result of this practice is that borrowers under one type of credit program which has lower associated costs may be subsidizing the interest rates of borrowers under another type of credit program which has higher associated costs. Since such a result may be considered inequitable, the proposed amendment to the regulation is designed to allow System institutions to address the problem by also considering funding and operating costs as factors in formulating differential interest rate programs. A differential interest rate program which considers such costs will better enable System institutions to meet the statutory objective of providing the types of credit needed by eligible borrowers, at the lowest reasonable cost. The proposed amendment permits, but does not require, System banks to develop differential interest rate programs.

PART 614—LOAN POLICIES AND OPERATIONS

As stated in the preamble, it is proposed that Part 614 of Chapter VI, Title 12 of the Code of Federal Regulations, be amended by revising § 614.4321 to read as follows:

§ 614.4321 Interest rate programs.

The following types of interest rate programs may be employed by banks and production credit associations. Bank interest rate programs are subject to Farm Credit Administration approval.

(a) *Fixed rates.* The rate of interest specified in the note or loan document shall prevail as the maximum rate chargeable to the borrower during the period of the loan.

(b) *Variable rates.* The interest rate(s) on outstanding loan balances may be changed from time to time during the period of the loan, if appropriate provisions are made in the note or loan document.

(c) *Fixed interest spread.* Interest rates shall be expressed in terms of a percentage to be added to the cost of money to the bank or association.

(d) *Differential rates.* Differential interest rates may be established for loans based on type, purpose, amount, quality, funding or operating costs, any combination of these factors, or such other factors as may be approved by the Farm Credit Administration. Differential interest rate programs should achieve equitable rate treatment among categories of borrowers. In the adoption of differential interest rate programs bank boards shall consider the effect that such interest rate structures will have on the achievement of district objectives relating to the special credit needs of young farmers. The Federal intermediate credit banks must provide other financing institutions with the same differential interest rate programs as they provide to production credit associations.

(Secs. 5.9, 5.12, 5.18, Pub. L. 92–181, 85 Stat. 619, 620, 621 (12 U.S.C. 2243, 2246 and 2252))

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. 83–ASW–21]

Airworthiness Directives; Garlick Helicopters, Hawkins & Powers Aviation, Inc., Wilco Aviation (Bell) Model UH–1B Series Helicopters

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of Proposed Rulemaking (NPRM).

SUMMARY: This notice proposes to adopt an airworthiness directive (AD) that would require an inspection of Bell Helicopter Textron, Inc., Model UH–1B series helicopters (modified by Garlick Helicopters, Hawkins & Powers Aviation, Inc., or Wilco Aviation) to assure that unapproved tail rotor hub assemblies are not installed. The proposed AD is needed to prevent operation of the helicopter with unapproved tail rotor hubs which could lead to excessive structural loads resulting in possible loss of the helicopter.

DATE: Comments must be received on or before August 1, 1983.

ADDRESSES: Comments on the proposal may be mailed in duplicate to: Regional Counsel, Attention: Docket No. 83–ASW–21, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101; or delivered in duplicate to: Office of the Regional Counsel, Southwest Region, Room 100, Building 3B, Federal Aviation Administration, 4400 Blue Mound Road, Fort Worth, Texas 76106.

Comments delivered must be marked: Docket No. 83–ASW–21.

Comments may be inspected at Room 100, Building 3B, between 8:30 a.m. and 4 p.m., Monday through Friday.

FOR FURTHER INFORMATION CONTACT: Gary B. Roach, Helicopter Certification Branch, ASW–170, Aircraft Certification Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101, Telephone (817) 877–2592.

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket number and be submitted in duplicate to the address specified above. All communications received on or before the closing date for comments will be considered by the Director before taking action on the proposed rule. The proposal contained in this notice may be changed in light of comments.

Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the proposed rule. All comments submitted will be available, both before and after the closing date for comments, in the Office of Regional Counsel, Federal Aviation Administration, Southwest Region, 4400 Blue Mound Road, Fort Worth, Texas 76106, for examination by interested persons. A report summarizing each FAA-public contact, concerned with the substance of the proposed AD, will be filed in the Rules Docket.

Commenters wishing the FAA to acknowledge receipt of their comments submitted in response to this notice must submit a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket Number 83–ASW–21." The postcard will be date/time stamped and returned to the commenter.

The FAA has determined that the tail rotor hub assembly on certain bell Helicopter Textron Model UH–1B series helicopters modified by Garlick Helicopters, Hawkins & Powers Aviation, Inc., and Wilco Aviation, may have unapproved parts installed that could increase the tail rotor blade angle beyond approved limits. This could result in higher structural loading than has been substantiated for this model, resulting in possible loss of the helicopter. Since this condition is likely to exist on other helicopters of the same type design, the proposed AD would require the removal of the unapproved tail rotor hub assembly and installation of the proper tail rotor hub assembly on Bell Helicopter Textron, Inc., Model UH–1B series helicopters.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Safety.

The Proposed Amendment

Accordingly, the Federal Aviation Administration proposes to amend § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) by adding the following new airworthiness directive:

Garlick Helicopters, Hawkins & Powers Aviation, Inc., Wilco Aviation (Bell Helicopter Textron, Inc.): Applies to Bell Helicopter Textron, Inc., Model UH-1B helicopters, and modified by Garlick Helicopters, Hawkins & Powers Aviation, Inc., or Wilco Aviation certified in all categories.

Compliance is required within the next 100 hours' time in service after the effective date of this AD unless already accomplished.

To prevent excessive structural loads, accomplish the following:

(a) Inspect the tail rotor hub assembly and identify the part number of the tail rotor hub assembly. (The tail rotor hub assembly part number is located on the yoke assembly.)

(b) If the tail rotor hub assembly, P/N 204–011–801–003, is installed, remove and replace with P/N 204–011–801–005, –009, or –017.

(c) Any equivalent method of compliance with paragraph (b) above of this AD must be approved by the Manager, Aircraft Certification Division, Southwest Region, Federal Aviation Administration.

(d) In accordance with FAR 21.197, flight is permitted to a base where the inspections required by this AD may be accomplished.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); 14 CFR 11.85)

Note:— The FAA has determined that this proposed regulation includes approximately 11 helicopters at an anticipated total expense of $5,306 per helicopter. Therefore, I certify that this action (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal; and (4) if promulgated, will not have a significant economic impact on a sustantial number of small entities under the criteria of the Regulatory Flexibility Act.

Issued in Fort Worth, Tex., on May 17, 1983.

Richard L. Failor,

Acting Director, Southwest Region.

14 CFR Parts 121 and 139

[Docket No. 20450; Notice No. 80–10A]

Applicability of Part 139

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Supplemental notice of proposed rulemaking.

SUMMARY: This supplements an FAA notice of proposed rule making which proposed to require airport operating certificates for certain airports serving "commuter" air carriers. After further analysis the FAA concluded that its authority to issue the proposed rule was unclear, and, therefore, requested clarification from Congress. This supplemental notice revises the original proposal to implement a statutory change approved by Congress in response to the FAA's request.

DATES: Comments must be received on or before July 22, 1983.

ADDRESS: Send comments on this proposal in duplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attn: Rules Docket (AGC–204), Docket No. 20450, 800 Independence Avenue, SW., Washington, D.C. 20591; or deliver comments in duplicate to:

FAA Rules Docket, Room 916, 800 Independence Avenue, SW., Washington, D.C. 20591. Comments may be examined in the Rules Docket on

weekdays, except Federal holidays, between 8:30 a.m. and 5:00 p.m.

FOR FURTHER INFORMATION CONTACT:
Mr. Jose Roman, Jr., Safety and Compliance Division (AAS–300), Office of Airport Standards, 800 Independence Avenue, SW., Washington, D.C. 20591, Telephone (202) 426–3087.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket or notice number and be submitted in duplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, AGC–204, 800 Independence Avenue, SW., Washington, D.C. 20591. All communications received on or before July 22, 1983, will be considered by the Administrator before taking action on the proposed rule. The proposal contained in this notice may be changed in light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report summarizing each substantive public contact with FAA personnel concerning this rulemaking will be filed in the docket.

Commenters wishing the FAA to acknowledge receipt of their comments submitted in response to this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket Number 20450." The postcard will be date and time stamped and returned to the commenter.

Availability of NPRM

Any person may obtain a copy of this Supplemental Notice of Proposed Rule Making (SNPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA–430, 800 Independence Avenue, SW., Washington, D.C. 20591, or by calling (202) 426–3058. Communications must identify the notice number of this SNPRM. Persons interested in being placed on the mailing list for future NPRMs should also request a copy of Advisory Circular No. 11–2 which describes the application procedures.

Background

This notice supplements Notice of Proposed Rule Making No. 80–10 (45 FR 39857, June 11 1980). That notice proposed amending Part 139 of the Federal Aviation Regulations (FAR) (Certification and Operations: Land Airports Serving CAB—Certificated Air Carriers) to require airport operating certificates for certain airports serving "communter" air carriers. Notice 80–10 proposed a definition of "commuter air carrier," which at the time was consistent with that used by the Civil Aeronatics Board (CAB). The CAB definition has since been changed.

Since 1970, section 612 of the Federal Aviation Act of 1958 (FA Act) (49 U.S.C. 1432) has empowered the Administrator to issue airport operating certificates to airports serving certain air carriers and to establish minimum safety standards for the operation of those airports. Prior to the enactment of the Airport and Airway Improvement Act of 1982, this authority was limited to air carriers certificated by the CAB. The FAA implemented section 612 in 1972 by adopting Part 139 of the Federal Aviation Regulations (FAR). Under Part 139 an airport serving an air carrier conducting operations at that airport under the authority of a certificate of public convenience and necessity (CPCN) issued by the CAB is required to hold an airport operating certificate if any of those air carrier operations at the airport are conducted in large aircraft (more than 12,500 pounds maximum certificated takeoff weight). If all of the CPCN operations at the airport are unscheduled large aircraft operations or scheduled small aircraft operations the airport operator is required to hold a limited airport operating certificate.

When Part 139 was adopted, the routes on which air carriers holding CPCN's could operate were strictly controlled by the CAB. With the implementation of the Airline Deregulation Act of 1978 (Pub. L. 95–504, 92 Stat. 1705) and the relaxation of the CAB policies and regulations, route structures became more flexible, numerous scheduled air carriers not holding CPCN's ("commuters") began conducting operations similar to those that were previously conducted only by CPCN holders, and CPCN holders also began serving airports not included in former routes.

The FAA became concerned that Part 139 did not require many airports used by these "commuter" air carriers to be certificated. For example, a "commuter" air carrier to be certificated. For example, a "commuter" air carrier providing service between two points that are also being served by a CPCN holder could use uncertificated airports as intermediate stops. However, members of the traveling public, using the "commuter" air carrier service instead of CPCN air carrier service, are likely to assume that the same level of service and safety will be provided at all airports. In some limited cases, the "commuter" air carrier and the CPCN air carrier operate the same type aircraft. This concern has increased since the CAB authority to regulate the routes air carriers operate expired January 1, 1982, in accordance with the provisions of the Deregulation Act

Under current CAB regulations, CPCN certificates only apply to operations conducted by air carriers in aircraft having a maximum passenger seating capacity of more then 60 passengers or a maximum payload of more than 18,000 pounds.

Since current Part 139 is applicable to an airport only if it serves an air carrier conducting operations into the airport under a CPCN, airports serving only air carriers operating aircraft with less than 61 passenger seats are not required by Part 139 to be certificated. Nevertheless, § 121.590 provides that air carrier operations conducted under the rules of Part 121 may operate only into Part 139 certificated airports. Therefore, air carriers utilizing aircraft with a seating capacity of more than 30, but less than 61, passengers are required to operate into certificated airports under the rules of Part 121, but the airports into which they operate are not required by Part 139 to hold a certificate. Thus, airports serving air carriers operating under the rules of Part 121 using only aircraft with a seating capacity of more than 30 passengers and less than 61 passengers remain under Part 139 only if they voluntarily elect to do so in order to keep this service. This has resulted in much confusion on the part of airport operators and air carriers as to which air carriers can operate into which airports.

Notice 80–10 was published as part of the FAA implementation of the Airline Deregulation Act of 1978. It was intended to eliminate the confusion that existed with respect to airport certification as well as to ensure that passengers traveling on "commuter" air carriers will be afforded a level of safety equivalent, to the extent feasible, to that provided passengers of air carriers holding certificates of public convenience and necessity (CPCN). After further analysis and review in light of comments received to Notice 80–10, the FAA concluded that rulemaking should not proceed until the statutory basis for the proposed rule was clarified. For this reason the FAA suspended action on the Notice, and on January 22, 1981, published in the **Federal Register** (46 FR 6975) a copy of

its letter to Congress requesting clarification of its authority to regulate airports under section 612 of the FA Act. On September 3, 1982, the Airport and Airway Improvement Act of 1982 (Pub. L. 97–248) was enacted, in part amending sections 610 and 612 of the FA Act. Section 612(a), as amended by Pub. L. 97–248, empowers the Administrator to issue airport operating certificates to, and establish minimum safety standards for the operation of, airports that serve any scheduled or unscheduled passenger operation of air carrier aircraft designed for more than 30 passenger seats. Section 612(b), as amended, provides that any person desiring to operate an airport which is described in section 612(a) and is required by the Administrator, by rule, to be certificated, may file an application for certification with the Administrator. Section 612(a)(8) was amended to make it unlawful for any person to operate an airport without an airport operating certificate required by the Administrator pursuant to section 612, or in violation of the terms of that certificate.

To implement the authority provided in Pub. L. 97–248, and to simplify and clarify the language in Parts 121 and 139, this notice proposes to revise Notice 80–10.

Supplemental Proposal

It is proposed that Part 139 require airports to be certificated only if they serve any scheduled or unscheduled operation of an air carrier that is conducted with an aircraft having a seating capacity of more than 30 passengers. It also is proposed to revise the requirement in Part 121 that air carriers use only certificated airports.

Part 139

Notice 80–10 proposed to extend the applicability of Part 139 to airports serving commuter air carriers with a certain frequency of scheduled operations. It is now proposed that Part 139 be amended to apply to airports serving any scheduled or unscheduled air carrier operations of aircraft having a seating capacity of more than 30 passengers. The references to "CAB-certificated air carriers" in Part 139 would be deleted.

The more-than-30-seat limit is consistent with limited authority granted by Congress and with the general division now existing in the FAR between air carriers operating under the rules of Part 121 and those operating under Part 135.

While Pub. L. 97–248 speaks to "aircraft *designed for* more than 30 passenger seats" (emphasis added), the proposed amendment would limit Part 139 applicability to airports serving air carrier aircraft having a *seating capacity* of more than 30 passengers. This would exclude from the certification requirement airports serving aircraft designed to carry more than 30 passenger seats, but with 30 or fewer passenger seats actually installed in the aircraft. As noted above, section 612 of the FA Act as amended provides the Administrator with discretion to determine the appropriate criteria for certification of airports. The FAA believes that the requirement that airports must obtain and maintain certificates should be keyed to the number of passenger seats installed, rather than the number of passenger seats for which the aircraft is designed. This would place the burden of certification on airports only when there is the potential for the safety or more than 30 passengers to be protected, and place no direct burden on the airports when only cargo air carrier operations were served.

Notice 80–10 further proposed to amend the firefighting and rescue equipment requirements for airports with limited certificates. Many comments were received supporting and opposing these proposals, and suggesting changes. The economic impact of the proposed amendments was the subject of many comments. In addition, the FAA has recently received the report on a study conducted by H. H. Aerospace Design Co., Inc., and has solicited comments from the public concerning its findings. The study provides a cost/benefit analysis of current firefighting and rescue equipment requirements and offers alternatives. The FAA is now reviewing the study and the public comments to determine what, if any, changes are appropriate. Therefore, no changes in the firefighting and rescue equipment requirements are being proposed in this notice.

Section 139.12a(a) currently provides, in part, that airports serving CPCN holders using only small aircraft are required to obtain a limited airport operating certificate. Small aircraft, as defined in Part 1 of the FAR, are aircraft of 12,500 pounds or less, maximum certificated takeoff weight. These aircraft have about 20 or fewer seats. Under the proposed amendments to Part 139, no airport would be required to be certificated if it served only air carriers using aircraft with 30 or fewer passenger seats. This would render the reference to small aircraft in section 139.12a(a) meaningless. It is therefore proposed that the reference be deleted.

Part 121

Section 121.590(a) currently provides in part that no domestic, flag or supplemental air carrier, or air carrier certificated under Part 127, may operate an aircraft of any passenger capacity or payload into a land airport in the United States unless the airport has been certificated under Part 139. This includes operations with small airplanes which, as explained previously, have about 20 seats or fewer. Small air carrier aircraft of Part 121 certificate holders are required by § 121.9 to be operated under the rules of Part 135, which has no requirement that aircraft be operated into certificated airports. In order to maintain a consistent policy regarding this size of aircraft, it is proposed to remove the requirement from § 121.590(b) that small aircraft operated by Part 121 air carriers use only certificated airports.

While Part 139 is proposed to be keyed only to passenger seating capacity, § 121.590 would continue to require aircraft with a maximum payload capacity of over 7,500 pounds, that is, any cargo operations under Part 121, to operate only into certificated airports. Thus, while the airport operator would not have to refer to the payload capacity of aircraft to determine whether certification is necessary, air carriers would continue to be required to conduct operations under Part 121 only into certificated airports. The FAA in appropriate cases would authorize a deviation from § 121.590 if (1) the air carrier shows it needs to operate an aircraft with a maximum payload capacity over 7,500 pounds, but with a seating capacity of 30 or fewer passengers, into an uncertificated airport because of unique circumstances, and (2) the FAA determines any conditions necessary for safe operations by that air carrier into the specified airport.

Under this scheme, air carriers operating under Part 121 would continue to be held to the highest standard of safety, in that they would in general only use certificated airports. When the aircraft being used does not have a seating capacity of more than 30 passengers (but has a maximum payload capacity of over 7,500 pounds), however, the FAA would have the flexibility to determine that, with any special conditions found necessary for safety, the air carrier could operate into a particular uncertificated airport. It is anticipated that under the proposed rule there would be very few Part 121 operations into uncertificated airports. By placing no direct burden on the

operators of the airports involved, this proposal appears to provide the least amount of regulation consistent with safety and the efficient administration of the program. As experience is gained with the proposed amendments to Part 139, if adopted, the FAA would determine whether § 121.590 should be amended to require air carriers to use certificated airports based only on passenger seating capacity.

Section 121.590 by its terms applies to domestic, flag and supplemental air carriers, and air carriers certificated under Part 127, conducting operations under Part 121. Consistent with nomenclature changes made by Special Federal Aviation Regulation 38, it is proposed to remove reference to specific air carriers from the heading and body of § 121.590, and refer only to air carriers operating under that part.

Regulatory Evaluation

A review of available data indicates that under the proposed amendments to Part 139, a number of airports would no longer be required by Part 139 to hold certificates. It is anticipated that many of these airports would choose to retain their Part 139 certificates for safety purposes or in order to continue to be available for service to unscheduled passenger or cargo operations of air carriers operating under Part 121. The FAA has been unable to determine the number of these airports which would choose to retain their Part 139 certificates, and therefore is unable to accurately determine the potential economic relief involved.

In addition, any air carrier operating under Part 121 would incur minor costs if it wanted to use an airport which has dropped its Part 139 certificate, associated with either obtaining a deviation so that the airport can be used, or with landing at a different airport and transporting the cargo from there.

Available data also indicates that there are only minor costs to a few airports which would become certificated because of the proposed amendment.

In order to more accurately assess the potential economic impact of the proposed amendment, comments providing the following information are requested:

1. The number and location identifiers of airports which currently hold Part 139 certificates which would elect to drop their certificate if the proposed amendments were adopted.

2. The number and names of air carriers operating under Part 121 which would wish to operate into the airports described in 1. above, the frequency and type of aircraft which the air carriers would use into those airports, and the location identifiers of, and distance to, the nearest certificated airport.

3. The number and names of air carriers operating under Part 121 which serve the airports at Palacios, Texas; Rockport, Texas; Sherman/Dennison, Texas; and Houma/Terrebone, Louisiana, on a scheduled or unscheduled basis; the frequency and type of aircraft used into those airports, the profits from service to those airports which would be lost if they could no longer be used; airports to which service could be diverted; and typical cargo and passenger loads on flight into those airports.

14 CFR Part 139

Air safety, Safety, Aviation safety, Air carriers, Aircraft, Airports, Airplanes.

The Proposed Amendment

Accordingly, the Federal Aviation Administration proposes to amend Parts 121 and 139 of the Federal Aviation Regulations (14 CFR Parts 121 and 139) as follows:

PART 121—CERTIFICATION AND OPERATIONS: DOMESTIC, FLAG, AND SUPPLEMENTAL AIR CARRIERS AND COMMERCIAL OPERATORS OF LARGE AIRCRAFT

1. By revising § 121.590 to read as follows:

§ 121.590 Use of certificated land airports.

(a) Unless otherwise authorized by the Administrator, no air carrier and no pilot being used by an air carrier may, in the conduct of operations governed by this part, operate an aircraft into a land airport in any State of the United States, the District of Columbia, or any territory or possession of the United States, unless that airport is certificated under Part 139 of this chapter. However, an air carrier may designate and use as required alternate airport for departure or destination an airport that is not certificated under Part 139 of this chapter.

(b) Notwithstanding § 121.13 (a) and (b), the provisions of this section apply to air carriers specified herein when conducting operations with helicopters.

PART 139—CERTIFICATION AND OPERATIONS: LAND AIRPORTS SERVING CERTAIN AIR CARRIERS

2. By revising the title of Part 139 to read as set forth above.

3. By revising § 139.1(a), the introductory phrase of §§ 139.1(b), and 139.1(b)(2) to read as follows:

§ 139.1 Applicability.

(a) This part describes rules governing the certification and operation of land airports which serve any scheduled or unscheduled passenger operation of an air carrier that is conducted with an aircraft having a seating capacity of more than 30 passengers.

(b) The following are definitions of terms used in this part:

* * * * *

(2) "Air Carrier User" means an air carrier while operating an aircraft having a seating capacity of more than 30 passengers.

* * * * *

§ 139.3 [Amended]

4. By removing the words "CAB-certificated air carrier operating aircraft into that airport" in § 139.3 and inserting, in their place, the words "scheduled or unscheduled passenger operation of an air carrier with an aircraft having a seating capacity of more than 30 passengers".

§ 139.12a [Amended]

5. By removing the words "CAB-certificated" in section 139.12a(a).

6. By removing the words "or operations with small aircraft" in section 139.12a(a).

(Secs. 313(a) and 612 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a) and 1432); Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

Note.—The proposed amendment, if adopted, would permit a number of airports now certificated under Part 139 to drop their certificates, resulting in minor economic benefits to those airports which would choose to do so, and minor costs to those air carriers who would wish to operate into the airports which drop their certificates. In addition, the proposed amendment, if adopted, would require a few airports which are not now certificated to obtain airport operating certificates with minor costs involved as to these airports. For these reasons, the FAA has determined that this document involves a proposed regulation that is not a major regulation under Executive Order 12291 and is not significant under the Department of Transportation Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). The FAA has determined that a relatively small number of small entities would receive an economic benefit or cost under the proposed rule, and that these benefits or costs would be minor. It is

therefore, certified that under the criteria of the Regulatory Flexibility Act the proposed rule, if adopted, will not have a significant economic impact on a substantial number of small entities. A draft regulatory evaluation has been prepared and placed in the regulatory docket. A copy may be obtained by contacting the person listed under "FOR FURTHER INFORMATION CONTACT."

Issued in Washington, D.C., on May 11, 1983.

Leonard E. Mudd,

Director, Office of Airport Standards.

[Docket No. 23655; Notice 83-5]

Carpools on Dulles Access Highway

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of Proposed Rulemaking (NPRM).

SUMMARY: This notice requests comments on a proposal to amend the Federal Aviation Regulations to allow carpools with two or more persons to use the Dulles Airport Access Highway during peak commuter hours. Use of the highway is presently restricted to airport users with certain exceptions including an exception for 4-person carpools. The amendment would allow 2-person carpools to operate until January 1, 1985.

DATE: Comments must be received on or before July 22, 1983.

ADDRESS: Comments may be mailed in duplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket (AGC-204), Docket No. 23655, 800 Independence Avenue, SW, Washington, DC 20591

or delivered in duplicate to: Room 915 G, 800 Independence Avenue, SW,, Washington, DC. 20591.

Comments must be marked: Docket No. 23655.

Comments may be inspected in Room 915 G weekdays between 8:30 a.m. and 5:00 p.m.

FOR FURTHER INFORMATION CONTACT: Edward Faggen, Legal Counsel, AMA-7, Hangar 9, Washington National Airport, Washington, D.C. 20001, Telephone: (703) 557-8123.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons are invite to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Comments relating to the environmental, energy, or economic impacts that might result from adoption of the proposals contained in this notice are invited. Communications should identify the regulatory docket or notice number and be submitted in duplicate to the address above. All communications received on or before the closing date for comments will be considered by the Administrator before taking action on the proposed rule. The proposals contained in this notice may be changed in light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report summarizing substantive public contacts with FAA personnel concerned with the rulemaking will be filed in the docket. Commenters wishing to have the FAA acknowledge receipt of their comments submitted in response to this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket Number 23655." The postcard will be dated, time-stamped, and returned to the commenter.

Availability of NPRM

Any persons may obtain a copy of this NPRM by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue, S.W., Washington, D.C. 20591, or by calling (202) 426-8058. A copy may be obtained from the Public Affairs Office at Washington National Airport, Hangar 9 or by calling David Hess at (703) 557-1155. Communications must identify the docket number of this NPRM. Persons interested in being placed on a mailing list for future NPRM's should also request a copy of Advisory Circular 11-2, Notice of Proposed Rulemaking Distribution System, which describes the application procedures.

Background: Use of the Access Highway

The Dulles International Airport Access Highway (Access Highway) is owned by the United States and operated by the Department of Transportation (DOT), Federal Aviation Administration (FAA). The Administrator of the FAA, in accordance with a delegation of authority from the Secretary of Transportation, has the responsibility for the care, operation, maintenance, improvement and protection of Dulles Airport, including the Access Highway and the Administrator has the authority to make and amend regulations in order to carry out this responsibility.

The Access Highway was built to provide rapid ground access from Wahington, D.C., to the airport which is located near Chantilly, Virginia, 26 miles from the downtown metropolitan center. The Access Highway was built in 1962 to accommodate airport traffic. It was decided that the best way to achieve this was to keep the airport traffic separate from commuter and local traffic. Since it as been open the Access Highway has been restricted to airport related business; there are only two restricted entrances, other than at the airport itself, for vehicles traveling eastbound away from the airport. Similarly, with limited exceptions, the only westbound exit is at Dulles Airport.

FAA regulations have permitted certain non-airport uses by emergency vehicles, vehicles bound to or from the Wolf Trap Farm Park for the Performing Arts, buses being operated in common carriage, and Fairfax County school buses. Since April, 1980, vehicles occupied by four or more persons have been permitted to use the Access Highway via ramps at Reston Avenue and Trap Road during the morning and afternoon peak commuter periods. Carpools are also permitted to enter the highway at Route 28 to travel to the airport to turn around and use the highway eastbound. The reverse movement is allowed for carpools exiting at Route 28.

It is the FAA's intention that all non-airport uses of the Access Highway (other than emergencies) will cease when the high capacity, parallel roadways are completed. The Commonwealth of Virginia is presently constructing the parallel lanes known as the Dulles Toll Road. The new highway is scheduled to open late in 1984.

In addition to the authorized uses of the Access Highway there are numerous unathorized users who enter the highway, proceed west to the airport only for the purpose of making a U-turn, and then proceed back eastbound. This maneuver is known as "backtracking." It enables commuters to avoid congested alternate routes and results in some real or perceived time savings for commuters, its circuitous nature notwithstanding. The practice is widespread. A detailed study in 1981 indicated that 6,400 cars entered Dulles Airport each day solely to reverse their direction. Recent FAA police studies indicate that the number of daily backtrackers has increased to approximately 8,000. The practice has resulted in considerable congestion on the airport roadways, particularly on the portion of the Access Highway between Route 28 and Dulles terminal.

The I-66 Connection

The Access Highway extends from the terminal roadway at Dulles eastward to I-495 and Virginia Route 123. FAA is currently constructing an extension to the Access Highway from its present terminus at Route 123 to join I-66 near West Falls Church. When the extension is completed and open to traffic in September, 1983, air travelers driving between Dulles and downtown Washigton will have the use of a free flowing highway for the entire length of the trip. This will produce a 10–5 minute savings compared to present routing and should be significant benefit to Dulles Airport travelers.

Since its opening in December, 1982, traffic on I-66 between I-495 and the Theodore Roosevelt Bridge over the Potomac River has been restricted to high occupancy vehicles with 4 or more persons (HOV–4) during morning and afternoon peak commuter hours in the peak directions. The restrictions on I-66 were developed during environmental studies and were incorporated into the January 5, 1977 decision by Secretary of Transportation Coleman after extensive controversy over the environmental impact of I-66. The HOV–4 restrictions are enforced by State and local police.

When the Access Highway extension to I-66 is completed, airport traffic will be commingled with I-66 tafffic. During peak hours, airport traffic will be exempt from the HOV–4 restrictions as set forth by Secretary Coleman's decision. The extension, however, would also enable unauthorized backtrackers to gain access to I-66 in violation of the HOV–4 restrictions. From the time of the I-66 decision in 1977, it was recognized that when the connection of the Access Highway to I-66 was completed in 1983, backtrackers would be excluded from the Access Highway. FAA, therefore, must now take effective enforcement action to eliminate backtracking to ensure that only airport related traffic and HOV–4 vehicles will enter I-66 by way of the Access Highway.

Description of Proposed Action

FAA is now proposing to reduce the carpool requirement on the Access Highway (between the Airport and Route 123) from 4 or more persons to 2 or more persons per vehicle until January 1, 1985. The intent of the liberalized carpool exception to the airport only policy is to allow more commuters to gain lawful access to the Access Highway at the ramps now used by 4 person carpools thereby easing the impact of the enforcement action against backtracking. They will not have to travel many miles to the Airport and back. Commuters will have an alternative to congested routes and an alternative to continued backtracking and risk of prosecution. FAA is cognizant to the problems of commuters in Western Fairfax and Loudoun Counties and we believe that the toll road will provide an adequate commuter thoroughfare. Until that road is open, FAA is proposing that these non-airport related carpool uses of the Access Highway be broadened.

If adopted, 2- and 3-person carpools with a pass would be allowed access and egress via the same ramps that the 4-person carpools currently use. The hours of operation of the ramps would not be changed. The Reston Avenue ramps would be open to eastbound and westbound traffic from 6:00 a.m. to 9:00 a.m. and from 3:30 p.m. to 7:00 p.m. The Trap Road ramps would be open to estbound traffic from 6:00 a.m. to 9:00 a.m. and to westbound traffic from 4:00 p.m. to 7:00 p.m. Carpools would not be given access to the highway via the ramps at Route 657 (Centerville Road) and Route 674 (Hunter Mill Road). These ramps allow entry onto the Access Highway in the direction of the airport and do not facilitate eastbound traffic. Vehicles that might otherwise enter the highway at these locations should enter at Reston Avenue or Trap Road which can accommodate traffic to and from the east. In addition, authorized carpools will be permitted to enter the Access Highway westbound from Route 28 and turn around on the airport. Single occupant vehicles, however, and vehicles with 2 and 3 persons without a pass, will not be allowed to enter the airport for the purpose of making a U-turn, or otherwise turning around. They would be in violation of the regulations prohibiting backtracking and subject to prosecution for a traffic violation.

The 2- and 3-person carpools would have to be clearly identified by a pass because, although the proposal would allow 2- and 3-person carpools onto the Access Highway, these carpools would remain restricted from using I–66 during the peak hours in the peak direction. Vehicles with fewer than 4 persons that are not on airport related business would have to continue to use routes other than I–66. Two- and 3-person carpools would have to exit the Access Highway eastbound at I–495 and Route 123. Therefore, it would be necessary to identify 2- and 3-person carpools with a pass that visibly distinguishes these vehicles from airport related low occupant vehicles that are allowed to proceed on to I–66. The carpool vehicles so distinguished (by a bumper sticker or marking) would be permitted to pass on to the Access Highway, but if the vehicle proceeds on to I–66 those same markings would signify to law enforcement personnel that the vehicle is not on airport related business and therefore is in violation of the I–66 HOV–4 restrictions.

In the afternoon restricted hours on I–66, low occupancy vehicles with a distinguishing pass would have to enter the Access Highway westbound from Route 123 or I–495. These vehicles so marked would not be allowed on I–66 during the restricted hours. The pass would signify that the occupants of the vehicle are not on airport related business. Low occupancy vehicles without a distinguishing pass headed in a westerly direction in the afternoon restricted hours would not be prevented from using I–66 to proceed toward the airport. However, once on the Access Highway these vehicles without a pass would not be permitted to exit from the Access Highway at ramps for authorized carpools nor would they be permitted to turn around at the airport.

Thus, only legitimate airport traffic would be permitted to use I–66 in low occupancy vehicles, and even legitimate airport traffic would not be permitted to use I–66 in a low occupancy vehicle with a distinguishing pass. Otherwise there would be no means of differentiating between the legitimate airport traffic and commuter traffic not exempt from the HOV–4 restrictions on I–66.

Vehicles with four or more persons would continue to have access to I–66 and the Access Highway as they do today.

FAA views this proposal as an effort to accommodate the commuters in western Fairfax and Loudoun Counties while preserving the Access Highway and I–66 for their intended purposes. In view of the Commonwealth of Virginia's commitment to build the Dulles Toll road, it should be possible to ease the restrictions on the Access Highway to benefit the commuters to and from both counties until that roadway is open.

To some persons it may appear that FAA has the alternative of not enforcing the regulation against backtracking even after the connection to I–66 is complete. While perhaps the easiest administrative solution for FAA and the most agreeable to commuters, this would also be inconsistent with the Department of Transportation's conditions for the construction of I–66. It would add several thousand vehicles to I–66 during the peak hours that do not conform to the HOV–4 restrictions. It is therefore not a viable alternative.

An alternative that is viable is to maintain the carpool restriction on the Access Highway at HOV–4 and to eliminate all backtracking when the connection to I–66 is completed. This would also be administratively easier than the proposal to implement. It would, however, impact upon commuters and would add to the congestion on already crowded arteries such as Route-50 and Route-7. Therefore, the proposed rule is FAA's preferred approach because it eases the burden on commuters and preserves the I–66 compromise. FAA hopes that the Fairfax and Loudon County governments and northern Virginia commuters will view this proposal as it was intended by FAA and lend it support.

As FAA stated at the time the 4-person carpool regulation was adopted for the Access Highway, a strong commitment to enforcement is essential to its success. At that time, FAA's position was that enforcement is primarily a local government responsibility inasmuch as local citizens, businesses, and employees derive the benefit from the carpool regulations. FAA sought and received the excellent cooperation of the Commonwealth of Virginia for enforcement. State and local authorities have stationed attendants at the gates and have policed the ramps. As with the 4-person carpool, FAA believes that the enforcement matters and administrative matters associated with the 2-person carpool should be the responsibility of State and local authorities. In particular, although the pass will be FAA approved for standardization, the printing and distribution of the passes for 2-person carpools ought to be administered by local authorities.

If, however, there are excessive violations of the regulations by vehicles without passes and if unauthorized backtracking cannot be brought under control, FAA would have to reconsider the carpool program. Furthermore, if it proves to be administratively infeasible or if the program jeopardizes the I–66 restrictions FAA may limit carpools to 3 or more persons in order to limit the number of cars gaining access to the roadway. Finally, in FAA's judgment, if the program is jeopardizing the primary role of the Dulles Access Highway as a free flowing airport access way, the FAA would have to place more restrictions on carpool use.

Environmental Assessment

FAA, in conjunction with the Federal Highway Administration, has prepared an environmental assessment of the proposed amendment to the carpool regulation. In 1980 FAA prepared a detailed assessment of opening the Access Highway to 4-person carpools. At that time, FAA concluded that that proposal would not have significant primary or secondary impacts upon the environment. The updated assessment on the present proposal also reveals no significant impact. The principal impacts relate to traffic flow and are secondary. Under this proposal vehicles that currently backtrack to I–495 or Route 123 will use the Access Highway legally as a carpool to gain access to the same highways. If the proposal is adopted, overall traffic on the Access Highway would decrease. Even though some vehicles now using the alternate routes will shift to the Access Highway. While recordering the flow of traffic somewhat in Fairfax and Loudoun Counties, the 2-person carpool is not likely to affect the volume or type of traffic passing through Arlington County, Virginia or other communities between the District of Columbia and Dulles Airport. There will be no significant increase in noise or air pollution from the amendment.

The principal alternative of keeping the Access Highway restricted to 4-person carpools (no change) would, when backtrackers are eliminated, cause the majority of backtracking vehicles to use the alternate routes.

The other alternatives are to not enforce the restrictions on backtracking or to open the Access Highway completely without restriction pending the opening of the parallel lanes. These approaches would attract a significant number of vehicles from alternate routes particularly when the connection to I–66 is open. The cars backtracking daily will increase over the thousands of vehicles backtracking today. This would pose potentially insurmountable problems for those attempting to distinguish legitimate airport users from unauthorized low occupancy vehicles on I–66 after the extension of the Access Highway is complete. A complete opening would also be inconsistent with the purpose for which the Dulles Access Highway was built, i.e., to assure rapid access to Dulles Airport for airport patrons.

The assessment is available for review and comment at the public docket at 800 Independence Avenue, SW., Room 916, at the Dulles Airport Manager's Office, and at Washington National Airport, Office of the Director, (Hangar 9). A copy may be obtained by writing to: Mr. Henry L. Mahns, Engineering Division, West Lab Building, AMA–32, Washington National Airport, Washington, D.C. 20001.

List of Subjects in 14 CFR Part 159

Airports, Access Highway, Carpools.

Proposed Amendment

FAA proposes to amend the Federal Aviation Regulations to permit carpools of two or more persons to have access to the Dulles Airport Access Highway until January 1, 1985. If, as a result of the comment period the FAA is, in its judgment, presented with good and sufficient reason not to amend the regulations, or to alter the proposal, FAA may withdraw or otherwise modify this proposal.

Comment Period: A comment period of 45 days will be provided. The Dulles Access Highway extension will be open on or about September 30, 1983. A comment period of 45 days will enable FAA to receive meaningful comments in a time frame that will allow an FAA decision prior to the opening of the extension and prior to stepped up enforcement of the regulation against backtrackers.

PART 159—NATIONAL CAPITAL AIRPORTS

§ 159.35 [Amended]

Accordingly, it is proposed to amend § 159.35(b)(3) of Part 159 of the Federal Aviation Regulations [14 CFR 159.35(b)(3)] to read as folows:

* * * * *

(b) *Exceptions.* Any person may enter upon and travel over the Access Highway in the following vehicles:

* * * * *

(3) Until January 1, 1985.

(i) a vehicle occupied by 4 or more persons, or

(ii) a vehicle occupied by 2 or 3 persons displying a pass that bears an FAA approval affixed to the vehicle front and rear bumpers,

(iii) a vehicle described in (i) or (ii) shall be an "authorized carpool" and the diver of such a vehicle shall operate the vehicle in compliance with the requirements of road signs pertaining to the Access Highway erected or posted upon the Access Highway or the approaches thereto.

(Secs. 3 and 4, Second Washington Airport Act, 64 Stat. 770; sec 313 of the Federal Aviation act of 1958, as amended (49 U.S.C. 1359); sec. 6, Department of Transportation Act (49 U.S.C. 1655)).

Note.—It is certified under the criteria of the Regulatory Flexibility Act that this proposed rule, if promulgated, will not have a significant economic impact on a substantial number of small entities. Only a few small entities (businesses) are affected and the cost of implementation and compliance is deemed minimal. FAA has therefore determined that

the proposed regulation is not major under Executive Order 12291 or significant under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979). A detailed economic evaluation is not required because the economic impact of the proposal is judged to be minimal.

Issued in Washington, D.C., on April 29, 1983.

James A. Wilding,

Director, Metropolitan Washington Airports

FEDERAL TRADE COMMISSION

16 CFR Part 457

Standards and Certification

AGENCY: Federal Trade Commission.

ACTION: Publication of Presiding Officer's Report and Invitation for Comment.

SUMMARY: Federal Trade Commission's Presiding Officer has released to the public the Presiding Officer's Report in the rulemaking proceeding on Standards and Certification. The report contains a recommended decision based upon the Presiding Officer's findings and conclusions as to all relevant and material evidence, taking into account the Final Staff Report. Interested persons and the public are invited to submit written comment on both the Final Staff Report of April 8, 1983, and the Presiding Officer's Report, and other matters described in this notice. The Commission has not reviewed or adopted the Presiding Officer's Report. The Commission's final determination in this matter will be based upon the entire rulemaking record, including comments received in response to this notice.

DATE: Written comment will be received for a period of 90 days following publication of this notice or until September 6, 1983. Rebuttal comments on new material presented during this post record comment period will be accepted for 45 days commencing on September 7, 1983, and ending October 21, 1983.

Both post record comments and rebuttal comments should be submitted on 8½ by 11 inch paper, and those in excess of four pages in length should be accompanied by three copies.

ADDRESSES: Copies of the Presiding Officer's Report and of the Final Staff Report are available at the Public Reference Branch, Room 130, Federal Trade Commission, 6th Street and Pennsylvania Avenue, N.W., Washington, D.C. 20580. Telephone: 202-523-3598.

FOR FURTHER INFORMATION CONTACT: Henry B. Cabell, Presiding Officer, Federal Trade Commission, 6th Street and Pennsylvania Avenue, N.W., Washington, D.C. 20580. Telephone: 202-724-1045.

SUPPLEMENTARY INFORMATION: The Presiding Officer's Report in the Standards and Certification rulemaking proceeding has been placed on the rulemaking record (Public Record No. 215-61). During the post record comment period which will end on September 6, 1983, the public, including persons interested in this proceeding, is invited to submit comments on this report and upon the Final Staff Report of April 8, 1983.

Such comments should be confined to: (1) Information already in the rulemaking record; (2) Information on the impact of Office of Management and Budget (OMB) Circular A-119, "Federal Participation in the Development and Use of Voluntary Standards," 45 FR 4326, January 21, 1980, and revised and superseded by OMB Circular A-119, published in 47 FR 49496, November 1, 1982; (3) Issues relevant to this rulemaking proceeding, including those raised in the Conference Report to accompany H.R. Rep. 2313, Federal Trade Commission Improvements Act of 1980, H.R. Rep. No. 96-917, 96th Cong., 2d Sess. (1980) at pgs. 29-30 (These issues include the advisability of issuing voluntary rules and guidelines in the area of standards and certification as an alternative to a trade regulation rule, and whether or not Commission action is necessary in the light of the activities of other interested Federal agencies in the interest of avoiding inconsistent or duplicative activity); and (4) current information relating solely to the nature and effectiveness of any changes standard developers and certifiers have made in their procedures for processing and disposing of complaints (including complaints made before January 15, 1980) since the rulemaking record closed on January 15, 1980. Information as to the number of complaints received since that date and how they were handled will also be relevant. The information on any changes in complaint handling procedures is intended to be responsive to the views expressed by the Commission Staff, in its final report at pages 360-65, that the decision of the Supreme Court in *American Society of Mechanical Engineers* v. *Hydrolevel Corp.*, — U.S. —, 102 S.Ct. 1935 (1982), and other factors or events subsequent to January 15, 1980, may have prompted standard developers to institute changes in their procedures to insure that their standards actions have not or will not result in an unreasonable restraint of trade, thereby reducing or obviating the need for a trade regulation rule.

The inclusion in comments of further evidence or factual material not germane to the subjects listed in (2), (3), and (4) of the previous paragraph, or in further support or rebuttal of testimony or other information previously included in the rulemaking record would be neither helpful nor relevant to the central issue of whether or not standard developers and certifiers have changed and improved their complaint handling procedures. Accordingly, the inclusion of such irrelevant material in a post record comment may result in rejection of the comment as a whole.

Immediately following the close of the post record comment period on September 6, 1983, the record will remain open for a period of 45 days for the receipt of rebuttal comment to new information or evidence presented during the post record comment period. The period for the submission of such rebuttal comment will end on October 21, 1983.

The Commission has not yet reviewed the rulemaking record in this proceeding or determined whether or not to promulgate a rule. Any decision by the Commission in this matter will be based solely upon the contents of the rulemaking record, including the material submitted in response to this notice. Publication of the Presiding Officer's Report should not be interpreted as representing the views of the Commission or of any individual Commissioner.

COMMODITY FUTURES TRADING COMMISSION

17 CFR Part 12

Proposed Rules Relating to Reparation Proceedings

AGENCY: Commodity Futures Trading Commission.

ACTION: Notice of availability of proposed rules.

SUMMARY: On January 11, 1983, Section 14(b) of the Commodity Exchange Act, 7 U.S.C. 18(b) was amended, effective May 11, 1983, to authorize the

Commodity Futures Trading Commission to "promulgate such rules, regulations and orders as it deems necessary or appropriate for the efficient administration of this section." The Commission is making available to the public, by request to the Office of the Secretariat, 2033 K Street, N.W., Washington, D.C. 20581, proposed rules which would effectuate major changes in its existing procedure to simplify the reparation rules and streamline the entire reparations process. The Commission invites comment on the rules as proposed and suggestions for any other changes that would improve and expedite the reparations procedure.

DATE: Comments and suggestions must be received on or before July 21, 1983.

ADDRESS: Interested persons should submit their comments and suggestions to Jane K. Stuckey, Secretary, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581, Attention of the Secretariat. Telephone: (202) 254–6314.

FOR FURTHER INFORMATION CONTACT: Kenneth M. Raisler, Acting General Counsel, or Edward S. Geldermann, Attorney, Office of General Counsel, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581. Telephone: (202) 254–9880.

SUPPLEMENTARY INFORMATION: In a recent amendment to Section 14(b) of the Commodity Exchange Act, effective May 11, 1983, Congress authorized the Commission to:

> Promulgate such rules, regulations, and orders as it deems necessary or appropriate for the efficient and expeditious administration of this section. Notwithstanding any other provision of law, such rules, regulations, and orders may prescribe, or otherwise condition, without limitation, the form, filing, and service of pleadings or orders, . . . hearing (including the waiver thereof, which may relate to the amount in controversy), rights of appeal, if any, and all other matters governing proceedings before the Commission under this section.

Futures Trading Act of 1982, Pub. L. No. 97–444, section 231, 96 Stat. 2294, 2319 (1983). Congress conferred this broad discretion upon the Commission "[t]o enable the Commission to simplify its rules of procedure regarding reparations and streamline the process." H.R. Rep. No. 565, 97th Cong., 2d Sess. 55 (1982). In addition, the amendments to Section 14(b) were intended to authorize the Commission "to use its best judgment in fashioning appropriate procedures that will be both fair and efficient." *Id.*

In accordance with this grant of authority, the Commission recently published an advance notice of proposed rulemaking concerning revisions in its reparations procedure. 48 FR 6720 (February 15, 1983). In the advance notice, the Commission indicated that it was considering the following ideas as changes to be made in the reparations procedure: instituting a purely voluntary procedure analogous to commercial arbitraton in which a final, unappealable decision can be expected within 180 days after the filing of a reparations complaint; raising from $5,000 to $10,000 the monetary ceiling for damage claims that could be heard pursuant to the summary procedure; permitting a decisionmaker in a voluntary or summary proceeding to conduct oral examination of the parties and their witnesses in Washington, D.C. or by telephonic conference; creating the position of "proceedings officer" to conduct most of the discovery in proceedings where claims may be decided by an Administrative Law Judge; and dismissing, instead of staying, reparation claims or respondents from reparation proceedings in which the claims, at the time the complaint was filed, were pending in arbitration or in court, or in which one or more respondents are the subject of receivership or bankruptcy proceedings. These matters are discussed in greater detail in the Commission's advance notice. 48 FR 6720 (February 15, 1983).

On May 24, 1983, the Commission determined to propose new rewritten and renumbered reparation rules which essentially incorporate all of the concepts discussed in its advance notice of proposed rulemaking.[1] In addition, the Commission is proposing three other significant changes in the reparation procedure not discussed in its advance notice, which relate to discovery, the formal decisional procedure, and the method of obtaining Commission review of an initial decision.

In the proposed rules, the Commission is proposing to modify the method by which parties can obtain discovery (*e.g.*, Proposed Rules §§ 12.208 and 12.209). The new method would permit the parties to apply to the decisionmaker (or, if a formal decisional procedure has been elected, the proceedings officer) for an order compelling other parties to produce documents and tangible items, verified affidavits, and verified written responses to interrogatories which the applying party may suggest to the decisionmaker. The decisionmaker would have the authority to accept or reject, in whole or in part, any such application for a discovery order. The Commission is proposing this change in discovery procedure because the decisionmaker, after reviewing all of the pleadings and submissions of documentary proof that are required to be filed with a complaint, answer or reply, would be sufficiently familiar with the issues in the proceeding to recognize whether information sought in a discovery request is truly necessary for resolution of those issues. The Commission believes that this procedure would benefit the parties by sparing them the time and expense of having to comply with discovery requests for unnecessary information. The Commission also expects this procedure to abbreviate the discovery phase in all proceedings, and increase the likelihood of and early final determination of the parties' claims.

Under the proposed rules, in cases where the amount of damages exceeds $10,000 and the parties have not elected the voluntary procedure, the proceeding would be conducted pursuant to a formal decisional procedure. In such procedure, if credibility determinations are required to decide the case, parties (or their counsel) would be granted the opportunity to conduct oral examination of other parties and their witnesses in the presence of an Administrative Law Judge. (Proposed Rule § 12.317(b).) However, all direct proof in such proceedings would be required to be submitted in documentary form, *e.g.*, verified affidavits, prior to the oral hearing. Direct examination would not be allowed at an oral hearing conducted pursuant to a formal decisional procedure, and oral examination would be restricted to cross and redirect examination, which would be confined to the factual issues to be decided by a credibility determination.

The Commission is proposing to alter its decision review procedure to afford parties a right to appeal the initial decision by filing a notice of appeal within 15 days after service of the initial decision.[2] (Proposed Rule § 12.401.) The

[1] Comments received in response to the advance notice of proposed rulemaking have been carefully reviewed and considered in preparing the proposed rules, and will be considered, as well, with respect to the adoption of final rules.

[2] The proposed appellate procedure contrasts with the Commission's current review procedure which affords the parties with an opportunity for

notice of appeal would need only contain a very brief expression of the appealing party's intention to appeal the initial decision. Within 30 days after filing a notice of appeal the appealing party must file an appeal brief and pay an appellate filing fee in the amount of $50, or have its appeal dismissed. If no party filed an appeal, the Commission would still be authorized to review and initial decision on its own motion, 30 days after the initial decision is served. Unless the Commission took review on its own motion, the proposed rules provide that the timely filing and perfecting of an appeal to the Commission is a mandatory prerequisite to judicial review of a final reparations decision of the Commission. (Proposed Rules §§ 12.213(e), 12.320(e).)

The proposed rules contain numerous other changes not discussed in the advance notice, which include: restructuring the Office of Hearings and Appeals and redesignating it as the Office of Proceedings, and creating the position of Director to serve as the administrative head of that Office (Proposed Rule § 12.2); eliminating the investigatory function of those staff members who screen reparation complaints; requiring the parties when filing the complaint and answer (and reply, if applicable) to include all documentary proof (including verified affidavits of third party witnesses) then available to support their claims and defenses (Proposed Rules §§ 12.13, 12.18, and 12.20); granting the decisionmaker in the summary and formal decisional procedures the authority to entertain motions for dismissal on the merits (Proposed Rules §§ 12.205, 12.313); in the formal decisional procedure limiting the locations for oral hearings to the 12 regional cities in which the United States Circuit Courts of Appeals are situated (Proposed Rule § 12.318(b)); permitting a decisionmaker to set the requirement of a bond against a party ordered to pay a reparation award, in the event that such party files an appeal to the Commission (Proposed Rules §§ 12.213, 12.320); authorizing the Commission to review a final decision in a voluntary proceeding if manifest injustice would otherwise result (Proposed Rule § 12.403); and imposing a trading prohibition upon parties who fail to pay an award—based on a counterclaim (Proposed Rule § 12.408). In addition, the Commission is proposing other numerous changes in the existing Reparation Rules which have not been mentioned herein. The Commission is inviting public comment on such other changes as well as the changes discussed above. Moreover, the Commission reiterates its interest is receiving additional suggested changes in the reparation rules that would help streamline the procedures.[3]

Copies of the proposed rules and a descriptive summary are available for inspection at the Office of the Secretariat, 2033 K Street, NW., Washington, D.C. 20581. Such copies can also be obtained through the Office of the Secretariat by mail at the above address or by telephone at (202) 254–6314. Any person interested in submitting comments on the proposed rules or suggestions for other changes that would improve and expedite the reparations process should send such comments or suggestions to Jane K. Stuckey, Secretary, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581, by July 21, 1983.

Jane K. Stuckey

Secretary of the Commission.

[FR Doc. 83-15070 Filed 6-3-83; 8:45 am]

BILLING CODE 6351-01-M

Commission review of an initial decision if they file and application for review within fifteen days after being served with the initial decision. Under this procedure, the Commission could deny review if it determined that review was not necessary to resolve an important issue of law or public policy.

[3] The proposed rules relate solely to agency organization, procedure and practice. Therefore, the provisions of the Administrative Procedure Act, 5 U.S.C. 553, generally requiring notice of proposed rulemaking and opportunity for public comment, are not applicable. However, because these proposed amendments represent significant changes in the Commission's current reparations procedure, the Commission is inviting public comment on the rules as proposed and suggestions for any other changes that would improve or expedite the reparations procedure.

The Regulatory Flexibility Act ("RFA"), Pub. L. No. 96-354, 94 Stat. 1164 (1980), 5 U.S.C. 601, *et seq.*, requires that agencies, in proposing rules, consider their impact on small businesses. Section 3(a) of the RFA defines the term "rule" to mean "any rule for which the agency publishes a general notice of proposed rulemaking pursuant to section 553(b) of this title . . . for which the agency provides an opportunity for notice and public comment." 5 U.S.C. 601(2). As the proposed rules have not been effected pursuant to 5 U.S.C. 553(b), they are not "rules" as defined in the RFA and the analysis or certification specified in that Act do not apply. In any event, the proposed rules, in proposing to streamline and simplify the reparation procedure and provide an expeditious voluntary decisionmaking forum, are not expected to have a significant economic impact on a substantial number of small business entities.

SECURITIES AND EXCHANGE COMMISSION

17 CFR Part 270

[Release Nos. 33-6468; IC-13274; File No. S7-978]

Registration of an Indefinite Number of Investment Company Securities

AGENCY: Securities and Exchange Commission.

ACTION: Proposed rulemaking.

SUMMARY: The Commission is proposing for public comment two amendments to § 270.24f-2, rule 24f-2, under the Investment Company Act of 1940. One proposed amendment would require any issuer who has filed a declaration pursuant to rule 24f-2 to include a statement to that effect on the facing sheet of any post-effective amendment to its registration statement, and to include therein either the date upon which the issuer filed, or intends to file, the notice required by rule 24f-2, or a statement that the issuer need not file a notice for the prior fiscal year because it has not sold any securities in reliance on that declaration during that fiscal year. The other proposed amendment would modify the consequences for failure to file timely the notice required by rule 24f-2 so that the declaration filed pursuant to the rule would be terminated if the notice was not filed timely, but the registration statement containing the declaration would remain in effect. These two proposed amendments would improve the ability of the Commission and issuers to monitor the timeliness of rule 24f-2 notices while making less harsh the consequences of failure to file such notices on time.

DATE: Comments on the proposed amendments to rule 24f-2 should be received on or before July 8, 1983.

ADDRESS: Comments should be submitted in quintuplicate to George A. Fitzsimmons, Secretary, Securities and Exchange Commission, 450 Fifth Street, N.W., Washington, D.C. 20549. Comment letters should refer to File No. S7-978. All comments received will be available for public inspection and copying in the Commission's Public Reference Room, 450 Fifth Street, N.W., Washington, D.C. 20549.

FOR FURTHER INFORMATION CONTACT: Jane A. Kanter, Special Counsel (202) 272-2115, or Gregory K. Todd, Esq. (202) 272-7317, Office of Disclosure Legal Services, Division of Investment Management, Securities and Exchange Commission, Washington, D.C. 20549.

SUPPLEMENTARY INFORMATION: The Commission is publishing for comment two proposed amendments to rule 24f–2 [17 CFR 270.24f–2] under the Investment Company Act of 1940 (the "1940 Act") [15 U.S.C. 80a–1 *et seq.*]. The first would require any issuer who has filed a declaration pursuant to that rule to include on the facing sheet of any post-effective amendment to its registration statement a statement that the issuer has filed a declaration pursuant to rule 24f–2 and the date upon which the issuer filed, or intends to file, its notice as required by that rule (the "Notice"), or a statement that the filing of such a Notice is unnecessary. The second amendment would modify the consequences for failure to file timely the Notice required by rule 24f–2 so that the declaration filed pursuant to the rule would be terminated if the Notice was not filed timely, but the registration statement containing the declaration would remain in effect. This change would permit an issuer that failed to file a timely rule 24f–2 Notice and sold securities thereafter to use rule 24f–1 [17 CFR 270.24f–1] to register retroactively securities sold within six months after the termination of its rule 24f–2 declaration.

Background

Section 24(f) [15 U.S.C. 80a-24(f)] was added to the 1940 Act by the Investment Company Amendment Act of 1970 [1] to authorize the Commission to adopt: (i) rules permitting registered investment companies to register retroactively securities sold in excess of the number or amount of securities included in the investment company's effective registration statement upon the payment of three times the normal registration fees for these securities [2] and (ii) rules allowing certain types of registered investment companies to register an indefinite number or amount of securities. In connection with the enactment of this provision, the legislative history states:

> Occasionally, due to inadvertence, a registered investment company making a continuous offering of its securities, sells more shares than are covered by its registration statement under the Securities Act of 1933. Although the number of shares sold in excess of those registered are not registered under the act, in practical effect no investor is harmed if each offeree or purchaser is given a current prospectus.[3]

In 1977, the Commission adopted rule 24f–2 permitting face-amount certificate companies, open-end management companies, and unit investment trust ("eligible companies") to register and indefinite number or amount of securities pursuant to the conditions of that rule.[4]

Rule 24f–2 provides that an eligible company may elect to register, under the Securities Act of 1933 (the "1933 Act") [15 U.S.C. 77a *et seq.*], an indefinite number or amount of securities by including a declaration to that effect on either its original registration statement of any post-effective amendment to its registration statement, and by paying a non-refundable fee of $500.00 to the Commission.[5] A company that has made such a declaration must file an annual Notice [6] setting forth, among other things, the number or amount of securities sold pursuant to rule 24f–2, and must include among with such Notice the registration fees for such securities as calculated pursuant to section 6(b) [15 U.S.C. 77f(b)] of the 1933 Act.[7] The Notice must be filed no later than six months after the end of any fiscal year during which the declaration was in effect.[8] Paragraph (b)(2) or rule 24f–2 provides that, if an issuer fails to file the required Notice on time, the issuer's registration statement will then terminate and the issuer must discontinue all sales of securities pursuant to that registration statement.[9]

If such an issuer intends to continue selling its securities, it must then file a new registration statement and wait until that registration statement becomes effective before it can resume selling its securities.[10]

Discussion

Section 24(f) and rule 24f–2 recognize and accommodate the unique character of investment companies that issue redeemable securities. Unlike operating companies and closed-end investment companies, whose offerings are intended typically to yield a specific maximum amount of proceeds to the issuer and are limited to a specified distribution period, investment companies issuing redeemable securities (other than certain unit investment trusts) normally offer their securities for sale on a continuous basis. It is, therefore, difficult for such companies to determine prospectively how many securities to register. Rule 24f–2 resolves this problem by permitting these investment companies to register an indefinite number or amount of securities.

It has come to the Commission's attention that several eligible companies that had been selling securities in reliance on rule 24f–2 have had their registration statements terminated automatically because of inadvertent failures to file required 24f–2 Notices on timely basis. In light of the fact that in practical effect no investor is harmed by the sale of securities in excess of those registered when each investor or potential investor receives a current prospectus from the issuer, the Commission believes that termination of the issuer's registration statement because of the issuer's failure to file its Notice timely is too harsh a result. On the other hand, the Commission must attempt to assure that required registration fees are paid. To address these concerns, the Commission is proposing for comment two amendments to rule 24f–2.[11]

---

[1] Pub. L. 91–547, 84 Stat. 1423 (1970).

[2] This provision has been implemented by rule 24f–1 [17 CFR 270.24f–1]. Securities Act Release No. 5208 (November 5, 1971), [36 FR 22873-(November 27, 1971)].

[3] House Report No. 91–1382, 91st Congress, 2d Sess. 31 (August 7, 1970). The report continued by stating: However, the inadvertence may result in a violation of Section 5 of the Securities Act and any person who can show that his shares were not actually registered might be entitled to the rescission rights given by Section 12 of the Securities Act.

Id.

[4] Securities Act Release No. 5881 (November 3, 1977), [42 FR 58400 (November 9, 1977)].

[5] An eligible company may at the same time register a specific number of securities as well as elect to register an indefinite number or amount of securities pursuant to rule 24f–2. If it does, then the company must pay the appropriate fee for the definite number of securities being registered as calculated in section 6(b) of the 1933 Act [15 U.S.C. 77f(b)]. *See* 17 270.24f–2(a)(4).

[6] Rule 24f–2 was amended in 1979 to require that 5 copies of the Notice be filed with the Commission and that the issuer's 1933 Act registration number appear on the Notice. Securities Act Release No. 6036 (March 22, 1979) [44 FR 19367 (April 9, 1979)].

[7] Paragraph (b)(1)(v) of rule 24f–2 also requires that an opinion of counsel be included indicating that the securities covered by the Notice were legally issued, fully paid, and non-assessable.

[8] Rule 24f–2(c) contains the provision that any issuer who files a Notice within two months after the end of its fiscal year may pay a fee based on the aggregate sales price of all securities sold less the aggregate price of all securities redeemed or repurchased, unless that amount has been previously applied by the issuer to reduce its fees pursuant to rule 24e–2(a) [17 CFR 270.24e–2(a)]. This provision allows the issuer to pay 1933 Act registration fees on only net securities sold during the past fiscal year.

[9] Even after an issuer's registration statement has terminated, the rule, nevertheless, requires that the issuer file a separate Notice as described in paragraph (b)(1) with respect to sales of securities made pursuant to the declaration during: (i) The fiscal year for which the Notice was not timely filed and (ii) the period after the close of the fiscal year as to which such Notice was not timely filed.

[10] In its release adopting rule 24f–2 the Commission stated its view that when a registrant chooses to register securities pursuant to rule 24f–2, failure to complete the registration process by filing the Notice will result in an incomplete registration of securities which will subject the issuer, or any person liable to the issuer for failure to complete the registration process on its behalf, to the risks arising from that failure. Securities Act Release No. 5881 (November 3, 1977) [42 FR 58400 (November 3, 1977)].

[11] Simultaneously herewith the Commission is issuing a release adopting a technical amendment to

First, the Commission is proposing an amendment to rule 24f–2 that would require all eligible companies that have filed declarations pursuant to rule 24f–2 to include on the facing sheet of any post-affective amendments to their registration statements a caption: (i) Stating that the eligible company has elected to register an indefinite number or amount of securities pursuant to rule 24f–2; and (ii) stating either the date on which the eligible company filed, or intends to file, its rule 24f–2 Notice for the immediately preceding fiscal year, or stating that the eligible company did not or need not file a Notice because it did not sell any securities in reliance upon rule 24f–2 during that year.

The Commission believes this proposed amendment is necessary to help issuers avoid inadvertent failures to file the required Notices and to enable its staff to monitor compliance in that respect. Requiring that companies having a rule 24f–2 declaration in effect place a statement to that effect on the facing page of any post-effective amendments to their registration statements and set forth the date when a 24f–2 Notice was filed or will be filed, should assure that sufficient attention will be directed to the requirement to file 24f–2 Notices that inadvertent failures to file will be minimized.

The second amendment proposed by the Commission would alter the consequences of failing to file a 24f–2 Notice on time. At present, pursaunt to paragraph (b)(2) of the rule, such failure results in termination of the issuer's registration statement, which means that securities sold after such termination may be considered unregistered securities and purchasers of such securities may have rescission rights under the 1933 Act. As stated above, the Commission believes this result is too harsh, at least in cases in which the delinquency is not unduly prolonged. Therefore, the Commission proposes to amend paragraph (b)(2) of rule 24f–2 to provide that failure to file a 24f–2 Notice on time will result, not in termination of the registration statement, but merely in termination of the issuer's declaration of registration of an indefinite number of securities. The practical consequence of this change would be that an issuer that failed to file its 24f–2 Notice on time and continued to sell its securities thereafter would, because its registration statement was still in effect, be able to use rule 24f–1 to register retroactively securities sold within six months after the termination of its rule 24f–2 declaration.[18] However, any securities sold more than six months after a failure to file a timely rule 24f–2 Notice could not be registered retroactively under rule 24f–1 and might, accordingly, be considered unregistered. An issuer that failed to file a rule 24f–2 Notice on time and wished to resume selling that rule could do so by filing a new declaration and paying a new $500.00 fee.

rule 24f–2. Pursuant to that amendment an issuer will no longer be required to file a Notice for any year during which it sold no securities pursuant to the rule.

[18] Rule 24f–1 [17 CFR 270.24f–1] permits the retroactive registration of shares sold in excess of the number of shares authorized by an effective registration statement, if, *inter alia*, the issuer files, within six months after the sale of the securities, a notification authorized by its board of directors and pays a fee equal to three times the registration fee as calculated in section 6(b) of the 1933 Act.

Text of Proposed Amendments to Part 270

The Commission is publishing for comment amendments to Chapter II, Title 17 of the Code of Federal Regulations as follows:

PART 270—RULES AND REGULATIONS, INVESTMENT COMPANY ACT OF 1940

By revising paragraphs (a)(1) and (b)(2) of § 270.24f–2 to read as as follows:

§ 270.24f–2 Registration under the Securities Act of 1933 of an indefinite number of certain investment company securities.

(a)(1) A face amount certificate company or an open-end management company or unit investment trust may, subject to the provisions of this section, elect to register an indefinite number or amount of securities under the Securities Act of 1933 by including on the facing sheet of its registration statement a declaration that an indefinite number or amount of its securities is being registered by such registration statement, or if a registration statement under the Securities Act of 1933 is in effect as to such securities by amending such registration statement on the facing sheet to declare that to the number or amount of securities of the same class or series presently registered is added an indefinite number or amount of such securities. Such declaration shall take effect when the registration statement or post-effective amendment in which it is included becomes effective. The issuer shall place on the facing sheet of any post-effective amendment to the registration statement filed after the issuer has made a declaration pursuant to this paragraph (a) (1) a statement to the effect that the issuer has registered an indefinite number or amount of securities under the Securities Act of 1933 pursuant to this section, and the date on which the Rule 24f–2 Notice for the issuer's most recent fiscal year was filed or will be filed, or a statement that pursuant to paragraph (b)(2) the issuer need not file a Rule 24f–2 Notice because it did not sell any securities pursuant to such declaration during the most recent fiscal year.

* * * * *

(b) * * *

(2) If the Rule 24f–2 Notice is not filed within the time specified in such paragraph, the declaration filed pursuant to paragraph (a)(1) of this section shall be deemed to be terminated on the next business day, and the registrant shall disscontinue all sale of securities pursuant to such declaration. Separate notices as described in paragraph (b)(1) shall be filed as soon as practicable after such termination with respect to sales of securities made pursuant to the declaration during (i) the fiscal year as to which such notice was not timely filed, and (ii) the period after the close of such fiscal year but before such declaration was terminated. Securities sold after termination of such declaration shall, for purposes of Rule 24f–1, be deemed to have been sold in an amount in excess of the number of shares of securities of the same class or series included in a registration statement of such issuer under the Securities Act of 1933 in effect at the time of the sale. Nothing in this paragraph (b)(2) shall require an issuer to file a Rule 24f–2 Notice for any fiscal year in which the issuer has not sold any securities in reliance on a declaration authorized by paragraph (a)(1) of this section.

* * * * *

Summary of Initial Regulatory Flexibility Analysis

The Commission has prepared an Initial Regulatory Flexibility Analysis in accordance with 5 U.S.C. 603 regarding the proposed amendments to rule 24f–2 proposed herein. The analysis notes that the first proposed amendment would require certain registered investment companies to indicate on the facing sheet of any post-effective amendment to their registration statements the fact that they have registered an indefinite number of securities under the Securities Act of 1933 and the date they filed or intend to file the notice required by rule 24f–2. The second proposed amendment would modify rule 24f–2 so

that only an issuer's declaration pursuant to the rule would be terminated if the issuer failed to file timely the notice required by the rule. The object of the proposed amendments is to monitor compliance with the filing requirements of rule 24f–2 and to modify a harsh remedy.

A copy of the Initial Regulatory Flexibility Analysis may be obtained by contacting Gregory K. Todd, Esq., Office of Disclosure Legal Services, Securities and Exchange Commission, (202) 272–2317, Room 5128, 450 Fifth Street, N.W. Washington, D.C. 20549.

Statutory Authority

The Commission publishes the proposed amendments to rule 24f–2 pursuant to section 24(f) of the 1940 Act (15 U.S.C. 80a–24(f)).

By the Commission.

May 26, 1983.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010–01–M

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

18 CFR Part 271

[Docket No. RM79–76–194 (Texas-36)]

High-Cost Gas Produced From Tight Formations; Texas

AGENCY: Federal Energy Regulatory Commission, DOE.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Federal Energy Regulatory Commission is authorized by section 107(c)(5) of the Natural Gas Policy Act of 1978 to designate certain types of natural gas as high-cost gas where the Commission determines that the gas is produced under conditions which present extraordinary risks or costs. Under section 107(c)(5), the Commission issued a final regulation designating natural gas produced from tight formations as high-cost gas which may receive an incentive price (18 CFR 271.703). This rule established procedures for jurisdictional agencies to submit to the Commission recomendations of areas for designation as tight formations. This Notice of Proposed Rulemaking by the Director of the Office of Pipeline and Producer Regulation contains the recommendation of the Railroad Commision of Texas that a portion of the Cook Mountain Formation be designated as a tight formation under § 271.703(d).

DATE: Comments on the proposed rule are due on July 15, 1983.

Public Hearing: No public hearing is scheduled in this docket as yet. Written requests for a public hearing are due on June 16, 1983.

ADDRESS: Comments and requests for hearing must be filed with the Office of the Secretary, 825 North Capitol Street, NE., Washington, D.C. 20426.

FOR FURTHER INFORMATION CONTACT: Leslie Lawner, (202) 357–8511, or Walter W. Lawson, (202) 357–8556.

I. Background

On April 4, 1983, the Railroad Commision of Texas (Texas) submitted to the commission a recommendation, in accordance with § 271.703 of the Commission's regulations (45 FR 56034, August 22, 1980), that a portion of the Cook Mountain Formation, located in Harris County, Texas, be designated as a tight formation. Pursuant to § 271.703(c)(4) of the regulations, this Notice of Proposed Rulemaking is hereby issued to determine whether Texas' recommendation that a portion of the Cook Mountain Formation be designated as a tight formation should be adopted. Texas' recommendation and supporting data are on file with the Commission and are available for public inspection.

II. Description of Recommendation

Texas recommends that the upper 275 feet of Cook Mountain Formation, as found in an area roughly rectangular in shape and approximately 6.4 miles by 18.9 miles and located approximately 2.5 miles northwest of the City of Houston, in Harris County, Texas, Railroad Commission District 3, be designated as a tight formation.

The Cook Mountain Formation is found at subsea depths ranging from approximately −7,300 feet on the west to −8,000 feet in the southeast, with a thickness of approximately 2,000 feet, and is part of the Middle Eocene Claiborne Group that was deposited during the Tertiary Period of the Genozoic Era. It is overlain by the Yegua formation and overlies the Sparta sandstone. The recommended portion of Cook Mountain Formation is identified as that formation occurring between the measured depths of 7,730 feet and 8,005 feet on the log of the Pringle Petroleum Inc. John Ivy No. 1 well.

III. Discussion of Recommendation

Texas claims in its submission that evidence gathered through information and testimony presented at a public hearing in support of this recommendation demonstrates that:

(1) The average *in situs* gas permeability throughout the pay section of the proposed area is not expected to exceed 0.1 milidarcy;

(2) The stabilized production rate, against atmospheric pressure, of wells completed for production from the recommended formation, without stimulation, is not expected to exceed the maximum allowable production rate set out in § 271.703(c)(2)(i)(B); and

(3) No well drilled into the recommended formation is expected to produce more than five (5) barrels of oil per day.

Texas further asserts that existing state and federal regulations assure that development of this formation will not adversely affect any fresh water aquifers that are or are expected to be used as a domestic or agricultural water supply.

Accordingly, pursuant to the authority delegated to the Director of the Office of Pipeline and Producer Regulation by Commission Order No. 97, issued in Docket No. RM80–68 (45 FR 53456, August 12, 1980), notice is hereby given of the proposal submitted by Texas that a portion of the Cook Mountain Formation as described and delineated in Texas' recommendation as filed with the Commission, be designated as a tight formation pursuant to § 271.703.

IV. Public Comment Procedures

Interested persons may comment on this proposed rulemaking by submitting written data, views or arguments to the Office of the Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, on or before July 15, 1983. Each person submitting a comment should indicate that the comment is being submitted in Docket No. RM79–76–194 (Texas-36) and should give reasons including supporting data for any recommendation. Comments should include the name, title, mailing address, and telephone number of one person to whom communications concerning the proposal may be addressed. An original and 14 conformed copies should be filed with the Secretary of the Commission. Written comments will be available for public inspection at the Commission's Office of Public Information, Room 1000, 825 North Capitol Street, NE., Washington, D.C., during business hours.

Any person wishing to present testimony, views, data, or otherwise participate at a public hearing should notify the Commission in writing of a desire to make an oral presentation and

therefore request a public hearing. Such request shall specify the amount of time requested at the hearing. Requests should be filed with the Secretary of the Commission no later than June 16, 1983.

List of Subjects in 18 CFR Part 271

Natural gas, Incentive price, Tight formations.

(Natural Gas Policy Act of 1978, 15 U.S.C. 3301–3432)

Accordingly, the Commission proposes to amend the regulations in Part 271, Subchapter H, Chapter I, Title 18, *Code of Federal Regulations*, as set forth below, in the event Texas' recommendation is adopted.

Kenneth A. Williams,

Director, Office of Pipeline and Producer Regulation.

PART 271—[AMENDED]

Section 271.703 is amended by adding paragraph (d)(181) to read as follows:

§ 271.703 Tight formations.

* * * * *

(d) Designated tight formations.

* * * * *

(129) through (180) [Reserved]

(181) *Cook Mountain Formation in Texas.* RM79–76 (Texas-36).

(i) *Delineation of formation.* The Cook Mountain Formation is located in Harris County, Texas, Railroad Commission District 3. The designated area is the upper 275 feet of the formation as found in an area roughly rectangular in shape and approximately 6.4 miles by 18.9 miles and located approximately 2.5 miles northwest of the City of Houston, Texas.

(ii) *Depth.* The Cook Mountain Formation is found at subsea depths ranging from −7,300 feet in the west to −8,000 feet in the southeast and is identified as that formation occurring between the measured depths of 7,730 feet and 8,005 feet on the log of the Pringle Petroleum Inc. John Ivy No. 1 well.

BILLING CODE 6717–01–M

DEPARTMENT OF THE TREASURY

Customs Service

19 CFR Part 177

Tariff Classification of Thread Seal Tape Made of "Teflon"

AGENCY: Customs Service, Treasury.

ACTION: Notice of proposed change of practice; solicitation of comments.

SUMMARY: Customs has determined that there is an established and uniform practice with respect to the tariff classification of merchandise which is a nonfibrous, nonlaminated, nonreinforced, continuous form plastic tape made of polytetrafluoroethylene ("teflon" fluorocarbon resin). The merchandise is also known as thread seal tape made of "teflon." Customs is now proposing a change in the tariff classification of this merchandise which, if adopted, would result in the imposition of a higher rate of duty. Accordingly, this notice invites public comments on the matter before any final action is taken.

DATE: Comments must be received on or before August 5, 1983.

ADDRESS: Comments (preferably in triplicate) should be addressed to the Commissioner of Customs, Attention: Regulations Control Branch, U.S. Customs Service, 1301 Constitution Avenue, NW., Room 2426, Washington, D.C. 20229.

FOR FURTHER INFORMATION CONTACT: Phil Robins, Classification and Value Division, U.S. Customs Service, 1301 Constitution Avenue, NW., Washington, D.C. 20229 (202–566–8181).

SUPPLEMENTARY INFORMATION:

Background

This document pertains to the tariff classification of merchandise which is a nonfibrous, nonlaminated, nonreinforced, continuous form plastic tape made of polytetrafluoroethylene ("teflon" fluorocarbon resin). The merchandise is also known as thread seal tape made of "teflon."

Proposed Change of Practice

Customs has determined that there is an established an uniform practice of classifying, for tariff purposes, the subject merchandise, which meets the dimensional requirements for man-made fiber strips, under the provision for "articles not specially provided for, of rubber or plastics, other," in item 774.55, Tariff Schedules of the United States (TSUS; 19 U.S.C. 1202), at a Column 1 rate of duty of 6.9 percent ad valorem.

Customs is proposing to change its practice such that the merchandise would be classified under the provision for "strips (in continuous form), whether known as artificial straw, yarns, or by any other name: not laminated," in items 309.20 and 309.21, TSUS. Item 309.20, TSUS, which covers strips valued not over $1 per pound, carries a Column 1 rate of duty of 10¢ per pound, while item 309.21, TSUS, which covers strips valued over $1 per pound, carries a Column 1 rate of duty of 10.5 percent ad valorem.

Customs is proposing this change of practice because the merchandise meets the criteria for man-made fiber strips as defined in Headnotes 2(b) and 3(d) of Schedule 3, Part 1, Subpart E, TSUS. Further, the proposed change is based on the decision of the Customs Court in *Le Jeune, Inc. v. United States*, 67 Cust. Ct. 301, C.D. 4289 (1971).

Authority

Because the proposed change of practice, if adopted, will result in the imposition of a higher rate of duty, Customs in giving interested parties notice and an opportunity to comment in accordance with section 177.10(c)(1), Customs Regulations (19 CFR 177.10(c)(1)). Pursuant to section 315(d), Tariff Act of 1930, as amended (19 U.S.C. 1315(d)), if the proposed change of practice is adopted, it shall not be effective prior to the expiration of 30 days after the date of publication in the Federal Register of notice of such adoption.

Comments

Consideration will be given to any written comments timely submitted to the Commissioner of Customs. Comments submitted will be available for public inspection in accordance with section 103.11(b), Customs Regulations (19 CFR 103.11(b)), on normal business days between the hours of 9:00 a.m. and 4:30 p.m. at the Regulations Control Branch, Headquarters, U.S. Customs Service, 1301 Constitution Avenue, NW., Room 2426, Washington, D.C. 20229.

Drafting Information

The principal author of this document was Gerard J. O'Brien, Jr., Regulations Control Branch, Office of Regulations and Rulings, U.S. Customs Service. However, personnel from other Customs offices participated in its development.

Alfred R. De Angelus,

Acting Commissioner of Customs.

BILLING CODE 4820–02–M

Internal Revenue Service

26 CFR Part 1

Deduction for Motor Carrier Operating Authority

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of proposed rulemaking.

SUMMARY: This document contains proposed regulations regarding a deduction which is to be taken ratably over a 60-month period for the adjusted bases of motor carrier operating authorities held by taxpayers on July 1, 1980. Changes to the applicable tax law were made by the Economic Recovery Tax Act of 1981, the Highway Revenue Act of 1982, and the Technical Corrections Act of 1982. These regulations provide relief to taxpayers who, on July 1, 1980, held one or more motor carrier operating authorities, or later acquired such an authority pursuant to a binding contract in effect on July 1, 1980.

DATES: Written comments and requests for a public hearing must be delivered or mailed by August 5, 1983. The regulations are proposed to be effective for taxable years ending after June 30, 1980.

ADDRESS: Send comments and requests for a public hearing to: Commissioner of Internal Revenue; Attention: CC:LR:T [LR–203–81], Washington, D.C. 20224.

FOR FURTHER INFORMATION CONTACT: Robert B. Coplan of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224 (Attention: CC:LR:T) 202–566–3287, not a toll-free call.

SUPPLEMENTARY INFORMATION:

Background

This document contains proposed amendments to the Income Tax Regulations (26 CFR Part 1) relating to a ratable deduction for the adjusted bases of motor carrier operating authorities held by taxpayers on July 1, 1980, as provided by section 266 of the Economic Recovery Tax Act of 1981 (Pub. L. 97–34, 95 Stat. 265), section 517 of the Highway Revenue Act of 1982 (Title V of the Surface Transportation Assistance Act of 1982, Pub. L. 97–424, 96 Stat. 2097), and section 102(n) of the Technical Corrections Act of 1982 (Pub. L. 97–448, 96 Stat. 2365). These amendments are to be issued under the authority contained in section 266 of the Economic Recovery Tax Act of 1981, section 517 of the Highway Revenue Act of 1982, and section 7805 of the Code (68A Stat. 917; 26 U.S.C. 7805).

In General

This document contains proposed amendments to the regulations relating to an ordinary deduction which will be allowed ratably over a 60-month period for taxpayers who held one or more motor carrier operating authorities on July 1, 1980. The deduction is intended to provide relief for taxpayers who acquired motor carrier operating rights before enactment of the Motor Carrier Act of 1980 on July 1, 1980. That Act deregulated the interstate motor carrier industry and significantly reduced the value of motor carrier operating rights acquired before deregulation.

Allowance of Deduction

Section 1.9200–1(a) of the proposed regulations provides that the deduction is allowable to a taxpayer in an amount equal to the adjusted basis of each motor carrier operating authority either held by the taxpayer on July 1, 1980, or acquired by the taxpayer after that date under a binding contract in effect on July 1, 1980. Generally, the 60-month period for taking the deduction begins with the later of July 1980 or the month in which the authority was acquired pursuant to a binding contract. However, the taxpayer may elect to begin the 60-month period with the first month of the first taxable year beginning after July 1, 1980, for all authorities acquired by the taxpayer by the end of the first month of such taxable year.

Rules are provided in paragraph (b) of § 1.9200–1 for determining the taxpayer entitled to claim the deduction for a particular motor carrier operating authority.

Adjusted Basis of Motor Carrier Operating Authority

Generally, for purposes of determining the amount of the deduction, a taxpayer's adjusted basis in a motor carrier operating authority is determined under Code sections 1012 and 1016. However, § 1.9200–1(e)(2) provides a special rule under which a corporation whose stock was acquired by a qualified acquiring party on or before July 1, 1980, and which held an authority at the time of such acquisition, may elect to allocate to the basis of the authority a portion of the cost basis in the corporation's stock held by such qualified acquiring party. If certain requirements are met, then the portion of the cost basis in the stock that may be allocated to the authority is the amount that would have been properly allocable under section 334(b)(2) of the Code (before amendment by the Tax Equity and Fiscal Responsibility Act of 1982) if the qualified acquiring party were a corporation that had liquidated the acquired corporation immediately after the acquistion. If the election under § 1.9200–1(e)(2) is made, the qualified acquiring party's basis in the acquired corporation's stock must be reduced to reflect the amount of basis which is allocated to the authority under this rule. In addition, the aggregate basis of assets of the acquired corporation other than the authority must be reduced, if necessary, so that it does not exceed the qualified acquiring party's basis in the acquired corporation's stock after such reduction. The election under § 1.9200–1(e)(2) is available only if the date of the last acquisition of stock within the 12-month period described in section 334(b)(2)(B) was after June 21, 1952 (the earliest date that a stock acquisition could have been completed where section 334(b)(2) applies to the subsequent liquidation).

Deduction To Be Treated as Section 381 Item

The Technical Corrections Act of 1982 provides that the amortization deduction may carry over in corporate acquisitions to which section 381 of the Code applies. This provision applies to taxable years ending after June 30, 1980.

Manner of Taking Deduction

The deduction is to be claimed by entering the amount of the deduction allowable for the taxable year at the appropriate place on the taxpayer's return for each year in which the deduction is properly claimed. Information relating to the adjusted baiss of each motor carrier operating authority must also be provided on the return on which the deduction for the authority is first taken.

Comments and Requests for a Public Hearing

Before adopting these proposed regulations, consideration will be given to any written comments that are submitted (preferably seven copies) to the Commissioner of Internal Revenue. All comments will be available for public inspection and copying. A public hearing will be held upon written request to the Commissioner by any person who has submitted written comments. If a public hearing is held, noticeof the time and place will be published in the **Federal Register**.

Executive Order 12291 and Regulatory Flexibility Act

The Commissioner of Internal Revenue has determined that this proposed rule is not a major rule as defined in Executive Order 12291. Accordingly, a Regulatory Impact Analysis is not required. The Internal Revenue Service has concluded that although this document is a notice of proposed rulemaking that solicits public comment, the regulations proposed herein are interpretative and the notice and pubic procedure requirements of 5 U.S.C. 553 do not apply. Accordingly, no Regulatory Flexibility Analysis is required for this rule.

Drafting Information

The principal author of these proposed regulations is Robert B. Coplan of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulations, both on matters of substance and style.

List of Subjects in 26 CFR 1.9200-1-1.9200-2

Income taxes, Motor carrier operating authorities.

Proposed Amendments to the Regulations

Part 1—[AMENDED]

The proposed amendments to 26 CFR Part 1 are as follows:

Paragraph 1. The following new §§ 1.9200–1 and 1.9200–2 are added to read as follows:

§ 1.9200–1 Deduction for motor carrier operating authority.

(a) *In general.* Section 266 of the Economic Recovery Tax Act of 1981 (Pub. L. 97–34, 95 Stat. 265) provides that, for purposes of chapter 1 of the Internal Revenue Code of 1954, an ordinary deduction shall be allowed in computing the taxable income of all taxpayers who either held one or more motor carrier operating authorities on July 1, 1980, or later acquired a motor carrier operating authority pursuant to a binding contract in effect on July 1, 1980. The deduction for each motor carrier operating authority is to be allowed ratably over a 60-month period and is equal to the adjusted basis of the motor carrier operating authority on July 1, 1980. Except as provided in this section, no deduction is allowable for any diminution in value of any motor carrier operating authority caused by administrative or legislative actions to decrease restrictions on entry into the interstate motor carrier business.

(b) *Person entitled to claim deduction.* In general, the deduction provided by this section for a particular motor carrier operating authority may be claimed only by the taxpayer which held the authority on July 1, 1980. However, if another person acquired the motor carrier operating authority after July 1, 1980, pursuant to a binding contract in effect on that date, the deduction for such authority may be claimed only by the acquirer and may not be claimed by the taxpayer which held the authority on July 1, 1980. A taxpayer, otherwise entitled to claim a deduction under this section, who sells a motor carrier operating authority after July 1, 1980 (in a sale which is not pursuant to a binding contract in effect on July 1, 1980) may not claim an amortization deduction for such authority for any month which begins after the date of such sale. In addition, acquisition of a motor carrier operating authority after July 1, 1980, if not pursuant to a binding contract in effect on July 1, 1980, will not entitle the acquirer to a deduction under this section.

(c) *Allowance of deduction*—(1) *Determination of period for deduction.*—(i) *General rule.* Except as provided in paragraph (c)(1)(ii) of this section, the 60-month period for taking the deduction provided by this section for a particular motor carrier operating authority begins with the month of July 1980, or, if later, the month in which the motor carrier operating authority was acquired pursuant to a binding contract in effect on July 1, 1980.

(ii) *Election.* In lieu of beginning the 60-month period as provided in paragraph (c)(1)(i) of this section, the taxpayer may elect to begin the 60-month period with the first month of the taxpayer's first taxable year beginning after July 1, 1980. This election, if made, shall apply to the deduction for all motor carrier operating authorities either held by the taxpayer on July 1, 1980, or later acquired by the taxpayer by the end of the first taxable year beginning after July 1, 1980, pursuant to a binding contract in effect on July 1, 1980. Any such election will not apply to the determination of the period for amortizing the bases of authorities acquired by the taxpayer after the end of the first month of the first taxable year beginning after July 1, 1980.

(2) *Amount of monthly deduction.* In the case of each motor carrier operating authority for which the taxpayer is entitled (under paragraph (b) of this section) to claim a deduction, the deduction for each month during the 60-month period relating to the motor carrier operating authority is equal to the adjusted basis (determined under paragraph (e) of this section) of the motor carrier operating authority divided by 60.

(d) *Definition of motor carrier-operating authority.* For purposes of § 1.9200–2 and this section, the term "motor carrier operating authority" means a certificate or permit held by a motor common carrier or motor contract carrier of property and issued pursuant to the Revised Interstate Commerce Act, 49 U.S.C. § 10921–10933 (Sup. III 1979). The terms "motor common carrier" and "motor contract carrier" shall be defined as in 49 U.S.C. 10102 (Supp. III 1979).

(e) *Adjusted basis of motor carrier operating authority.*—(1) *In general.* Except as provided in paragraph (e)(2) of this section, the adjusted basis of a motor carrier operating authority for which a deduction is allowed under this section is the adjusted basis of the motor carrier operating authority as determined under sections 1012 and 1016 in the hands of the taxpayer who is entitled to claim the deduction under paragraph (b) of this section.

(2) *Special rule in case of certain stock acquisitions*—(i) *Election by holder.* A corporation entitled to claim a deduction under paragraph (b) of this section for a motor carrier operating authority may elect to allocate a portion of the cost basis of a qualified acquiring party in the stock of an acquired corporation, to the basis of the authority. A qualified acquiring party is a corporation (or a noncorporate person or group of noncorporate persons described in paragraph (e)(2)(ii) of this section) that after June 21, 1952, and on or before July 1, 1980 (or after July 1, 1980 under a binding contract in effect on such date) acquired by purchase, within the meaning of section 334(b)(3) and during a period of not more than 12 months, 80 percent or more of the stock (as described in section 334(b)(2)(B)) of a corporation (the acquired corporation) which held the authority directly or indirectly on the date which is the end of the period of 12 months or less within which such 80 percent of the acquired corporation's stock was purchased. The election to allocate basis in an acquired corporation's stock to the basis in an authority may be made only if 80 percent of all classes of the acquired corporation's stock (other than nonvoting stock which is limited and preferred as to dividends) was acquired by purchase (within the meaning of section 334(b)(3)) during a period of not more than 12 months, as described in section 334(b)(2)(B). If the qualified acquiring party is a corporation, the taxpayer holding the authority on July 1, 1980, may elect the basis allocation of this paragraph only if it is a member of the affiliated group (as defined in section 1504(a)) of which the qualified acquiring party is a member. If there is more than one acquisition of stock that might permit an election to allocate basis under this paragraph (e)(2)(i), the taxpayer may elect to allocate to the authority only the basis in the acquired corporation's stock held by the qualified acquiring party which became a qualified acquiring party as a result of the last of such acquisitions.

(ii) *Certain noncorporate persons treated as qualified parties.* For purposes of paragraphs (e)(2)(i)–(vi) of this section, the term "qualified acquiring party" shall include a

noncorporate person or group of noncorporate persons which, after June 21, 1952 and on or before July 1, 1980, acquired in one purchase, stock in a corporation (the acquired corporation) which at the time of acquisition held, directly or indirectly, a motor carrier operating authority. In order to be treated as a qualified acquiring party under this paragraph, a noncorporate person or group of noncorporate persons must have held stock constituting control (within the meaning of section 368(c)) of the acquired corporation on July 1, 1980. A group of noncorporate persons consists of two or more noncorporate persons who, acting together on the same date, made the required purchase of stock in the acquired corporation.

(iii) *Portion of stock basis allocable to basis of authority when stock of direct holder of authority is acquired.* If the qualified acquiring party acquired the stock of a corporation directly holding the authority, the portion of the stock basis allocable to the basis of the authority is the amount that would have been properly allocable under section 334(b(2) if the qualified acquiring party were a corporation that had received the authority in a distribution of all the acquired corporation's assets in a complete liquidation of the acquired corporation immediately after the acquisition of the acquired corporation's stock. If the acquired corporation's stock was acquired on more than one date, the date on which the liquidation is deemed to have occurred shall be the date which is the date of the last acquisition by purchase of stock of the acquired corporation within the 12-month period described in section 334(b)(2)(B).

(iv) *Portion of stock basis allocable to basis of authority when stock of indirect holder of authority is acquired.* If the qualified acquiring party acquired the stock of a corporation indirectly holding the authority (such as by owning all of the stock of a subsidiary that directly holds the authority), a portion of the qualified acquiring party's cost basis in the stock of the acquired corporation may be allocated to the basis in the operating authority. The portion allocable is the amount that would have been properly allocable under section 334(b)(2) if, immediately before the liquidation of the acquired corporation on the date of the last acquisition by purchase of stock of the acquired corporation within the 12-month period described in section 334(b)(2)(B), the authority had been transferred in such a way that the qualified acquiring party would have received direct ownership of the authority upon the liquidation of the acquired corporation immediately after the acquisition.

(v) *Other assets to be accounted for.* For purposes of paragraphs (e)(2) (iii) or (iv) of this section, in determining the portion of stock basis properly allocable to the operating authority under section 334(b)(2), the portion of the qualified acquiring party's basis in the acquired corporation's stock that would have been allocable following the liquidation to other assets of the acquired corporation, including intangible assets such as goodwill and going concern value, must be taken into account.

(vi) *Adjustments to basis in acquired corporation's stock and other assets.* If a taxpayer makes the election provided by paragraph (e)(2)(i) of this section, the qualified acquiring party's basis in the stock of the acquired corporation shall be decreased, effective as of July 1, 1980, by the amount determined by the following formula:

$$\frac{\text{basis in acquired corporation's stock}}{\text{basis in acquired corporation's stock plus unsecured liabilities of acquired corporation}} \times \text{amount allocated to basis in authority.}$$

In addition, if the aggregate basis of the assets of the acquired corporation other than the authority as of July 1, 1980 (reduced by the liabilities secured by such assets) exceeds the qualified acquiring party's basis in the stock of the acquired corporation remaining after application of the preceding sentence, then the bases of such assets shall be reduced proportionately so that their aggregate basis as of such date (minus secured liabilities) is equal to such remaining stock basis. If the acquired corporation held the authority indirectly, appropriate basis reductions shall be made to reflect the transfers deemed to have occurred under paragraph (e)(iv) of this section.

(vii) *Pre-TEFRA law applies.* References made in this section to section 334 of the Code relate to such section as it existed before amendment by the Tax Equity and Fiscal Responsibility Act of 1982.

(f) *Adjustment to basis of motor carrier operating authority.* A taxpayer's basis in a motor carrier operating authority must be reduced by the amount of any amortization deductions allowable to the taxpayer under this section.

(g) *Examples.* The principles of this section may be illustrated by the following examples:

Example (1). (i) Corporation X acquired all the stock of corporation Y for $130,000 in 1970. Y's assets at the time of acquisition consisted of a motor carrier operating authority valued at $210,000, in which it has a basis of $90,000, and trucks with a fair market value of $70,000 and an aggregate basis of $30,000. Y has $50,000 of liabilities secured by the trucks and $100,000 of unsecured liabilities. Both X and Y use a June 30 fiscal year for tax purposes.

(ii) Y is the only taxpayer eligible to claim a deduction under § 1.9200–1(b). If X sold its Y stock to Z in October 1980 (other than pursuant to a binding contract in effect on July 1, 1980), Y would continue to be the only taxpayer eligible to claim the deduction. However, if Y sold the operating authority to W in February 1981, neither Y nor W would be eligible to claim the monthly deduction for the remainder of the 60-month period. Also, Y would realize gain or loss on the sale after reducing its basis in the authority by any amortization claimed for the period prior to the sale.

(iii) Y must begin the 60-month period in July 1980 unless it elects under paragraph (c)(1)(ii) of this section to begin the 60-month period with the first month of the first taxable year beginning after July 1, 1980, which in Y's case would be July 1981.

(iv) Y's allowable monthly deduction is equal to its adjusted basis in the operating authority of $90,000, divided by 60, or $1,000. However, Y may elect under § 1.9200–1(e)(2) to allocate to its basis in the authority a portion of X's basis in Y stock, since X is a qualified acquiring party under paragraph (e)(2)(i) of this section and Y is a member of an affiliated group of which X is a member. Assuming Y makes the election, Y may allocate to the basis of the authority the amount of X's basis in Y stock that would have been allocable under section 334(b)(2) if X had received the authority in a distribution of all of Y's assets in a complete liquidation of Y immediately after X acquired Y's stock. Therefore, for purposes of the allocation, X's $130,000 cost basis in Y stock is deemed to be increased by Y's $100,000 of unsecured liabilities to $230,000. Of the $230,000 deemed basis, $210,000 is allocated to the authority and $20,000 to the trucks. Y's allowable monthly amortization deduction would be $210,000 divided by 60, or $3,500. X's $130,000 cost basis in its Y stock must be decreased to $11,304 as provided in paragraph (e)(2)(vi) of this section. Y's $30,000 aggregate basis in its trucks remains unchanged.

Example (2). Assume the same facts as in Example (1), except that Y's aggregate basis in the trucks is $90,000. If Y makes the election under § 1.9200–1(e)(2), the same allocation as in Example (1) would occur. However, in addition to the decrease in X's basis in its Y stock to $11,304, the $90,000 aggregate basis in the trucks must be reduced to $61,304 (so that the $61,304 basis minus secured liabilities of $50,000 is equal to X's $11,304 remaining stock basis).

§ 1.9200–2 Manner of taking deduction.

(a) *In general.* The deduction provided by § 1.9200–1 shall be taken by multiplying the amount of the monthly deduction determined under § 1.9200–1(c)(2) for each motor carrier operating authority by the number of months in the taxable year for which the deduction

is allowble, and entering the resulting amount at the appropriate place on the taxpayer's return for each year in which the deduction is properly claimed. Additionally, in any year in which falls the first month of a 60-month period selected pursuant to § 1.9200–1(c)(1), a statement must be attached to the return showing the manner in which the adjusted basis of each motor carrier operating authority was determined.

(b) *Filing and amendment of returns.* A taxpayer who has filed its return for the taxable year that includes July 1, 1980 claiming the deduction allowed under § 1.9200–1, may amend its return for such year in order to elect under § 1.9200–1(c)(1)(ii) to begin the 60-month period in the subsequent taxable year. A taxpayer eligible to take the deduction under § 1.9200–1 who has filed its return for the taxable year that includes July 1, 1980 without claiming the deduction, may (1) file an amended return or claim for refund for such year claiming the deduction, or (2) elect to begin the 60-month period by claiming the appropriate deduction on its return for the following taxable year.

(c) *Deduction taken for operating authority other than under § 1.9200–1.* If a deduction other than the deduction allowed under § 1.9200–1 was taken in any taxable year for the reduction in value of a motor carrier operating authority caused by administrative or legislative actions to decrease restrictions on entry into the interstate motor carrier business, the taxpayer should file an amended return for such taxable year which computes taxable income without regard to such deduction.

Par. 2. Section 1.1502–32 is amended by removing the word "and" at the end of paragraph (d)(1)(i)(*b*), by adding ", and" in lieu of the period at the end of paragraph (d)(1)(i)(*c*), and by adding a new paragraph (d)(1)(i)(*d*) to read as follows:

§ 1.1502–32 Investment adjustment.

* * * * *

(d) * * *

(l) * * *

(i) * * *

(*b*) * * *

(*c*) * * *, and

(d) In computing the earnings and profits of a member holding one or more motor carrier operating authorities who makes the election under § 1.9200–1 (e)(2), the annual amortization deduction allowed under § 1.9200–1 shall not be taken into account.

(Sec. 266 of the Economic Recovery Tax Act of 1981, Pub. L. 97–34, 95 Stat. 265 and Sec. 7805 of the Internal Revenue Code of 1954, 68A Stat. 917, 26 U.S.C. 7805)

Imposition of Accumulated Earnings Tax on Corporations Having Foreign Corporate Shareholders; Withdrawal of Notice of Proposed Rulemaking

AGENCY: Internal Revenue Service, Treasury.

ACTION: Withdrawal of notice of proposed rulemaking.

SUMMARY: This document withdraws the notice of proposed rulemaking relating to imposition of accumulated earnings tax on corporations having foreign corporate shareholders that appeared in the **Federal Register** on December 22, 1980 (45 FR 84088).

FOR FURTHER INFORMATION CONTACT: Carol T. Doran of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Ave., N.W., Washington, D.C. 20224, Attention: CC:LR:T (LR–125–78), 202–566–3289, not a toll-free call.

SUPPLEMENTARY INFORMATION:

Background

This document withdraws the notice of proposed rulemaking that appeared in the **Federal Register** on December 22, 1980 (45 FR 84088). The notice proposed amendments to the regulations under sections 532, 533, 535, and 537 of the Internal Revenue Code of 1954. The principal purpose of the proposed amendments was to apply the accumulated earnings tax to corporations accumulating earnings and profits to avoid the income tax on distributions to foreign corporate shareholders.

Drafting Information

The principal author of this document is Carol T. Doran of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing this document, both in matters of substance and style.

Withdrawal of Proposed Amendments

The proposed amendments to 26 CFR Part 1 relating to imposition of accumulated earnings tax on corporations having foreign corporate shareholders and published in the **Federal Register** on December 22, 1980 (45 FR 84088), are hereby withdrawn.

ACTION: Withdrawal of notice of proposed rulemaking.

SUMMARY: This document withdraws the notice of proposed rulemaking relating to travel expenses of Members of Congress that was published in the **Federal Register** for January 21, 1982 (47 FR 3006).

FOR FURTHER INFORMATION CONTACT: Linda M. Kroening of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224 (Attention: CC:LR:T) (202–566–3297, not a toll-free call).

SUPPLEMENTARY INFORMATION:

Background

This document withdraws the notice of proposed rulemaking that appeared in the **Federal Register** on January 21, 1982 (47 FR 3006). That notice was cross-reference to temporary regulations under section 274 of the Internal Revenue Code of 1954 (47 FR 2987) and provided rules whereby deductions for traveling expenses of Members of Congress could be claimed without substantiation.

Subsequent to the issuance of the notice of proposed rulemaking section 162(a) and 280A(f)(4) of the Code were amended by section 215 of the Urgent Supplemental Appropriations Act, 1982 (Pub. L. 97–216, 96 Stat. 194). The amendments limited deductions by Members of Congress for living expenses to a maximum of $3,000 per taxable year and provided that substantiation of such deductions could be required. The amendments were effective for taxable years beginning after December 31, 1981. Due to these amendments, the Internal Revenue Service has decided to withdraw the proposed regulations.

Drafting Information

The principal author of this document was Linda M. Kroening of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing this document, both on matters of substance and style.

The proposed amendments to 26 CFR Part 1 relating to travel expenses of Members of Congress published in the **Federal Register** (47 FR 3006) on January 21, 1982, are hereby withdrawn.

Roscoe L. Egger, Jr.,

Commissioner of Internal Revenue.

BILLING CODE 4830-01-M

DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

30 CFR Part 942

Public Comment and Opportunity for Public Hearing on Modified Portions of the Tennessee Permanent Regulatory Program

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Interior.

ACTION: Proposed rule.

SUMMARY: OSM is announcing procedures for the public comment period and for a public hearing on the substantive adequacy of proposed amendments to the Tennessee permanent regulatory program under the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The amendments submitted by Tennessee for the Secretary's approval include modifications intended to satisfy nine of the Secretary's conditions of approval of the Tennessee permanent program.

DATE: Written comments must be received on or before 4:00 p.m. on July 6, 1983, to be considered in the Secretary's decision to approve or disapprove the proposed amendments.

A public hearing on the proposed modifications has been scheduled for June 27, 1983, at the address listed below under "ADDRESSES." Any person interested in making an oral or written presentation at the hearing should contact Mr. James Curry at the address below by June 20, 1983. If no person has contacted Mr. Curry by this date to express an interest to participate in this hearing, the hearing will be cancelled. If only one person requests to comment, a public meeting, rather than a public hearing, may be held and the results of the meeting included in the Administrative Record.

ADDRESSES: The public hearing will be held starting at 7 p.m. at the TVA Office Complex, Plaza West Towers, Room C-36, 400 West Summit Hill Drive, Knoxville, Tennessee 37901.

Written comments should be mailed or hand-delivered to Mr. James Curry, Field Office Director, Office of Surface Mining Reclamation and Enforcement, 530 Gay Street, S.W., Suite 400, Knoxville, Tennessee 37902.

Copies of the proposed modifications to the Tennessee program, a listing of any scheduled public meetings and all written comments received in response to this notice will be available for review at the OSM Offices and the Office of the State Regulatory Authority listed below, 8:00 a.m. to 4:00 p.m., excluding holidays:

Office of Surface Mining Reclamation and Enforcement, Administrative Record Room, 1100 "L" Street, NW., Washington, D.C. 20240.

Office of Surface Mining Reclamation and Enforcement, Field Office, 530 Gay Street, S.W., Suite 400, Knoxville, Tennessee 37902; Telephone: (615) 523-9523.

Tennessee Department of Public Health, Division of Surface Mining and Reclamation, 305 W. Springdale Avenue, Knoxville, Tennessee 37917.

FOR FURTHER INFORMATION CONTACT: Mr. James Curry, Field Office Director, Office of Surface Mining, 530 Gay Street, S.W., Knoxville, Tennessee 37902; Telephone: (615) 523-9523.

SUPPLEMENTARY INFORMATION: The Tennessee surface coal mining regulatory program was conditionally approved by the Secretary on August 10, 1982 (47 FR 34724-34754). The approval was conditioned on the State's correction of 11 minor deficiencies in its program.

Information pertinent to the general background, revisions, modifications and amendments to the proposed permanent program submission, as well as the Secretary's findings, the disposition of comments and explanation of the conditions of approval of the Tennessee program can be found in the August 10, 1982 **Federal Register** (47 FR 34724-34754).

Submission of Revisions

On May 2, 1982, OSM received program amendments submitted by the Tennessee Division of Surface Mining (DSM) which are intended to satisfy conditions (b), (c), (d), (e), (f), (g), (h), (i), and (j) of the Secretary's approval of the Tennessee regulatory program. Set forth below is a general description of the provisions submitted by the State and of the conditions they are intended to satisfy.

Condition (b)

Condition (b) specifies that termination of the approval found in 30 CFR 942.10 will be initiated on April 30, 1983, unless Tennessee submits to the Secretary by that date copies of promulgated regulations containing definitions of "surface mining activities" and "surface coal mining operations" which are consistent with Federal requirements, and which make it clear that "surface coal mining operations" has the same meaning as the State's term "surface mining operations."

To address condition (b), Tennessee submitted to OSM a proposed amended version of Rule 0400-1-1.03 which 1) establishes definitions of "surface mining activities" and "surface coal mining operations" which, the State indicated, are consistent with the Federal requirements and 2) which clarifies that "surface coal mining operations" has the same meaning as the State's term "surface mining operations."

Condition (c)

Condition (c) stipulates that termination of the approval found in 30 CFR 942.10 will be initiated on April 30, 1983, unless Tennessee submits to the Secretary by that date, copies of promulgated regulations which correct the typorgraphical and editorial errors identified in the June 4, 1982, letter to the State (See OSM Administrative Record TN-528).

In satisfaction of this condition, Tennessee submitted to OSM revised promulgated regulations which correct the typographical errors and editorial errors referenced above. The State also submitted to OSM a list of eight errors identified in OSM's June 4, 1982, letter to the State which the State inadvertently failed to correct. The Director, DSM, advised OSM that the eight remaining editorial errors in the rules would be corrected in the near future.

Condition (d)

Condition (d) specifies that termination of the approval found in 30 CFR 942.10 will be initiated on April 30, 1983, unless Tennessee submits to the Secretary by that date, copies of promulgated regulations which delete the exception to the limitation on bare areas in Tennessees's underground mining regulations for evaluating vegetation survival which says, "unless

such areas are too stony to support vegetation."

To address condition (d), Tennessee submitted to OSM a copy of regulation 0400–1–15–.62, as amended, from which the State has deleted the above-cited exception to the limitation on bare areas.

Condition (e)

Condition (e) stipulates that termination of the approval found in 30 CFR 942.10 will be initiated on April 30, 1983, unless Tennessee submits to the Secretary by that date, copies of promulagated regulations which include the missing requirements for a water quality protection plan in the permit application to require information in the plan to be represented by a "detailed description, with appropriate maps and cross-section drawings," and unless Tennessee submits to the Secretary by that date, either copies of promulgated regulations which delete the redundant and incomplete TR 0400–1–5–.22 or assurance that TR 0400–1–5–.32 is the controlling regulation for the water quality protection plan for underground mining.

As required by condition (e), Tennessee submitted a proposed amended version of Rule 0400–1–5–.32 which includes requirements pertaining to the water quality protection plan to be included in the permit application. Tennessee also submitted a proposed amendment which deletes Rule 0400–1–5–.22.

Condition (f)

Condition (f) specifies that termination of the approval fund in 30 CFR 942.10 will be initiated on April 30, 1983, unless Tennessee submits to the Secretary by that date, copies of promulgated regulations which include provisions for location of natural and man-made features that are no less effective than 30 CFR 779.24 (d), (e), (h), and (j), 779.25(j), 783.24 (d), (e), (h), and (j), and 783.25(j).

As required by condition (f), Tennessee submitted promulgated regulations 0400–1–2–.29, 0400–1–2–.32, 0400–1–5–.29, 0400–1–5–.32, 0400–1–9–.10, which, the State indicated, are no less effective than 30 CFR 779.24 (d), (e), (h) and (j), 779.25(j), 783.24 (h) and (j), and 783.25(j). Tennessee also submitted a proposed amended version of item 9 of subparagraph (c) of paragraph 2 of Rule 0400–1–5–.34 which, the State indicated, includes provisions consistent with 30 CFR 783.24 (d) and (e).

Condition (g)

Condition (g) specifies that termination of the approval found in 30 CFR 942.10 will be initiated on April 30, 1983, unless Tennessee submits to the Secretary by that date, copies of promulgated regulations, or otherwise amends its program to include parameters for determining significant departures from the approved permit for purposes of requiring a formal review of a proposed permit revision.

To address condition (g), Tennessee submitted to OSM a copy of proposed amended rule 0400–1–3–.17 which provides parameters for determining significant departures from the approved permit.

Condition (h)

Condition (h) specifies that termination of the approval found in 30 CFR 942.10 will be initiated on April 30, 1983, unless Tennessee submits to the Secretary by that date, copies of promulgated regulations concerning the five year period of liability under performance bond, which provide that such period shall begin "after the last year" of augmented seeding, fertilizing, irrigation, or other work, as required by SMCRA.

To address condition (h), Tennessee has submitted to OSM a proposed amended version of paragraph (2) of Rule 0400–1–7–.05 which provides that the five year period of liability under performance bond shall begin "after the last year" of augmented seeding, fertilizing or other work.

Condition (i) and (j)

Condition (i) specifies that "termination of the approval found in 30 CFR 942.10 will be initiated on April 30, 1983, unless Tennessee submits to the Secretary by that date, additional documentation for Chapters VII (1), (4), (5), (6), (7), (8), (9), (15), and (16) of the Tennessee program concerning procedures and forms for permitting, inspection and enforcement, which is complete and adequate to describe the State's intended methods of implementing the program."

Condition (j) of the Secretary's approval specifies that "termination of the approval in 30 CFR 942.10 will be initiated on April 30, 1983, unless Tennessee submits to the Secretary by that date, additional information for Chapters V, VI, X, XI and XII of the Tennessee Program concerning staffing and funding, which includes sufficient documentation to show that the State will have qualified personnel and funding adequate to implement all aspects of the State program."

The original deadline established by the Secretary for Tennessee to satisfy conditions (i) and (j) was October 31, 1982. In satisfaction of these conditions, Tennessee submitted on November 1, 1982, amendments to Chapters V, VI, and VII of the approved Tennessee program. In the December 3, 1982, Federal Register (47 FR 54474), OSM announced receipt of these amendments and invited public comment on them.

Subsequently, on February 15, 1983, the Governor of Tennessee transferred the Division of Surface Mining (DSM) from the Department of Conservation to the Department of Public Health. Because of this transfer, the Secretary granted Tennessee an extension until April 30, 1983, to satisfy conditions (i) and (j) in order to allow the State time to further amend the program chapters referenced above to reflect the agency reorganization. (See 48 FR 8058, February 25, 1983.) On May 2, 1983, OSM again received amendments submitted by Tennessee intended to satisfy conditions (i) and (j). The amendments, which revise the chapters cited above, reflect the transfer of DSM from the Department of Conservation to the Department of Public Health.

The Secretary invites comment on the adequacy of the amendments submitted by the State in satisfying conditions (b)–(j). The full text of the material submitted by the State is available for public review at the address listed above under "ADDRESSES."

Because some of the material submitted by the State was in proposed rather than promulgated form, OSM would like to point out that the Secretary will not approve any of the proposed amendments submitted to OSM by Tennessee unless the State promulgates them in the same form as submitted to OSM on May 2 and as reviewed by the public. If changes are made to any of the provisions which were submitted to OSM in proposed form before the State promulgates them, OSM will reexamine the provisions as modified and reopen the comment period on the adequacy of the amendments in satisfying the conditions.

Additional Determinations

1. *Compliance with the National Environmental Policy Act:* The Secretary has determined that, pursuant to Section 702(d) of SMCRA, 30 U.S.C. 1292(d), no environmental impact statement need be prepared on this rulemaking.

2. *Executive Order No. 12291 and the Regulatory Flexibility Act:* On August 28, 1981, the Office of Management and Budget (OMB) granted OSM an exemption from Sections 3, 4, 7, and 8 of Executive Order 12291 for actions directly related to approval or

conditional approval of State regulatory programs. Therefore, this action is exempt from preparation of a Regulatory Impact Analysis and regulatory review by OMB.

The Department of the Interior has determined that this rule would not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). This rule would not impose any new requirements; rather, it would ensure that existing requirements established by SMCRA and the Federal rules will be met by the State.

3. *Paperwork Reduction Act:* This rule does not contain information collection requirements which require approval by the Office of Management and Budget under 44 U.S.C. 3507.

DEPARTMENT OF TRANSPORTATION

Coast Guard

33 CFR Part 162

[CGD 78–151]

Inland Waterways Navigation Regulations; Connecting Waters From Lake Huron to Lake Erie

AGENCY: Coast Guard, DOT.

ACTION: Proposed rule.

SUMMARY: The Coast Guard is proposing regulations that would amend the existing inland waterways navigation regulations for the connecting waters from Lake Huron to Lake Erie. The purpose of this action is to modernize and simplify the requirements, and to make them compatible with the requirements of the Canadian Coast Guard in the Canadian portion of the waterway.

DATE: Comments must be received on or before September 6, 1983.

ADDRESSES: Comments may be mailed to Commandant (G-CMC/44) (CGD 78–151), U.S. Coast Guard, Washington, D.C. 20593. Comments may be delivered to and will be available for inspection and copying at the Marine Safety Council (G-CMC/44), Room 4402, U.S. Coast Guard Headquarters, 2100 Second Street, SW., Washington, D.C. 20593, between the hours of 8 a.m. and 4 p.m. Monday though Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Mr. Edward J. LaRue, Jr., Project Manager, Office of Marine Environment and Systems, Room 1606, U.S. Coast Guard Headquarters, 2100 Second Street, SW., Washington, D.C. 20593, (202) 426–4958, between the hours of 8 a.m. and 4 p.m. Monday through Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in this proposed rulemaking by submitting written views, data, or arguments. Written comments should include the docket number (CGD 78–151), the specific section of the proposal to which each comment applies, and the reason for the comments. Commenters should include their name and address. Those desiring acknowledgement that their comments have been received should enclose a stamped, self-addressed postcard or envelope.

The proposal may be changed in view of the comments received. All comments received before the expiration date of the comment period will be considered before final action is taken on this proposal. No public hearing is planned but one may be held if written requests for a hearing are received and it is determined that the opportunity to make oral presentations will aid in the rulemaking process.

Drafting Information

The principal persons involved in drafting this proposal are Mr. Edward J. LaRue, Jr., Project Manager, Office of Marine Environment and Systems, and Lieutenant Mark Hanlon, Staff Attorney, Office of the Chief Counsel.

Discussion of the Proposed Regulations

On September 29, 1977, responsibility for certain inland waterways navigation regulations was transferred from the U.S. Army Corps of Engineers to the Coast Guard (42 FR 51758). At that time, the regulations were moved from 33 CFR Part 207 to 33 CFR Part 162 with only minor editorial changes. The Coast Guard is now proposing minor procedural and editorial changes to the regulations governing the connecting waters from Lake Huron to Lake Erie. The changes will simplify the regulations, remove outdated requirements, and make the regulations consistent with current practices on the waterways. The changes will also make them compatible with regulations presently being drafted by the Canadian authorities to cover their portion of the waterways.

In drafting these proposed regulations, the provisions of the existing regulations have been incorporated except as noted. Provisions which have been transferred without substantive change are not discussed in the following paragraphs unless confusion might result without some explanation. The proposed regulations have been organized in the format and style of vessel traffic service regulations. These regulations are similar in content to the various vessel traffic service regulations and the Coast Guard feels that the regulations would be clearer to the reader if a similar format is used.

The existing regulations are found at §§ 162.135 and 162.140 of Title 33, Code of Federal Regulations. In order to arrange the regulations in a simple and logical manner, the proposed rules have been revised and redesignated using §§ 162.130 through 162.140. A section by section redesignation table can be found at the end of the discussion of the proposed regulations.

Applicability, § 162.130(b)

Proposed § 162.130(b) would change the applicability of the existing speed rules (§ 162.135(d)) from "commerical vessels 65 feet or greater in length" to "vessels 20 meters or more in length". This has a twofold purpose. First, vessels of equal size, commercial or otherwise, could cause equal damage due to excessive speed. Second, although the actual size limit changes very little, 20 meters is a standard of vessel length used in other maritime related laws and regulations. Adopting this standard will make it easier for the mariner to remember that the rules apply.

Proposed § 162.130(b)(3) would establish the type and size of vessels to which the security calling rules (proposed § 162.132), the traffic rules (proposed § 162.134), and the anchorage rules (proposed § 162.136) would apply. The vessels described are essentially the same (20 meters equals 65.7 feet, 8 meters equals 26.2 feet) as the ones to which the provisions of the existing Joint United States Coast Guard-Canadian Coast Guard Contingency Plan for Emergency Vessel Traffic Management on the Detroit and St. Clair Rivers apply. The existing requirements apply to vessels 65 feet and over and 26 feet and over, respectively.

The vessels required to participate in the contingency plan are the same as those required to have a VHF–FM radiotelephone by the Agreement Between the United States and Canada for Promotion of Safety on the Great Lakes by Means of Radio, 1973. Since

the United States and Canada have previously established the size and type of vessels to which navigation safety and communication rules should apply, the Coast Guard is proposing to use essentially the same limits for these regulations. Few vessels are built with lengths between 65 and 65.7 feet or between 26 and 26.2 feet.

Definitions, § 162.130(c)

Several definitions have been added in proposed § 162.130(c). "Harbor Master" and "Regional Director" would identify Canadian officials who exercise responsibilites similar to the U.S. Coast Guard Captain of the Port and District Commander. "SARNIA TRAFFIC" would identify the Canadian traffic center at Sarnia, Ontario. A definition of "Security Call" would be included for clarity. Although the term is used in the existing regulations (§ 162.140(f)), it is not defined.

Security Calling and Reporting Rules, § 162.132

Proposed § 162.132 would require various radiotelephone security calls. Presently, § 162.140(f) requires security calls when a vessel is entering, leaving, or obstructing the Rouge River or the Short Cut Canal. Also, District Commander Order No. 1–78 (NAV ORDER 1–78) requires vessel masters to coordinate their movements in order to avoid meeting in an area around the Blue Water Bridge in the St. Clair River. This is accomplished by use of bridge-to-bridge radiotelephone. Vessels also make random radiotelephone calls throughout the waterway in order to facilitate meeting and overtaking. The Coast Guard is proposing to formalize the security calling procedures by establishing fixed calling points throughout the waterway. Although radiotelephone calls are usually made voluntarily by mariners, there is a need to avoid overcrowding the calling frequency. This is particularly important during the pleasure boating season. Therefore, the Coast Guard is proposing to require security calls by vessels only at certain geographic points or when performing certain operations. These requirements, coupled with an effort to make the boating public in the area aware of the congestion problem, should substantially reduce unnecessary radio transmissions. This, in turn, should facilitate the required communications.

Proposed § 162.132(b)(1) lists the locations at which vessels transiting the waterway would make calls. A vessel transiting the entire waterway (approximately 90 miles) would be required to make a total of 6 calls, whether upbound or downbound. A call would be required if a vessel is entering or leaving the Rouge River or Short Cut Canal. Proposed § 162.132(b)(2) would require vessels to make a security call when getting underway in two portions of the waterway that are narrow and/or visually obstructed. Proposed § 162.132(c) would require vessels to make a security call before maneuvering to come about.

The security calls outlined above are designed to establish a pattern of regular communication among certain types of vessels. The intent is to provide safe meeting and overtaking situations while maintaining smooth traffic flow. Because the security calls are usually made by the person conning the vessel, without leaving his or her station, the proposed requirements should add little or no burden to the mariner.

Proposed § 162.132(d) would require the master of a vessel to make a report of impairment or other hazard. The requirements which deal with impairment of a vessel's navigation (proposed § 162.132(d)(1)) and difficulty with towing (proposed § 162.132(d)(2)) are common to vessel traffic services and similar to an existing requirement (33 CFR 161.15) that, in all U.S. navigable waters, the Coast Guard is to be notified of a hazardous condition aboard a vessel.

Proposed § 162.132(e) would allow an exemption from compliance with the calling and reporting requirements of a vessel's radiotelephone equipment had failed.

Traffic Rules, § 162.134

The bulk of the traffic rules in proposed § 162.134 are simply the existing requirements, reworded and reorganized. Rather than list the traffic rules by type of requirement, they are organized geographically in the order the mariner meets them when navigating from Lake Erie to Lake Huron.

A "Note" to proposed § 162.134(b) informs the mariner that he or she may proceed down the Amherstburg Channel only with authorization from the proper authority. The downbound channel is presently restricted to passenger vessels. The Amherstburg Channel is entirely in Canadian waters. The relaxation of the regulation is being proposed by the Canadian authorities. It has been included for consistency.

Proposed § 162.134(d) would restrict vessels to overtaking only towing vessels in the Detroit River near Belle Isle. This area is almost entirely Canadian waters and the requirement is one which the Canadian government has proposed. It has been included in these regulations for the sake of consistency.

Proposed § 162.134(g) would make permanent a requirement foir a zone of alternating one way traffic in the St. Clair River in the vicinity of Blue Water Bridge. The waterway in this area has a channel width of approximately 400 feet at the bridge and widens to about 1400 feet near Port Huron Traffic Lighted Buoy (two miles downstream). The channel is in the shape of an "S" curve and the current flows at speeds up to 6 miles per hour. The U.S. Army Corps of Engineers (COE) institude a one way traffic zone in the area primarily as a result of the collision between the S.S. PARKER EVANS and the S.S. SIDNEY E. SMITH in 1972. When the responsibility for these Inland Waterways Navigation Regulations was shifted to the Coast Guard in 1977, the one way restriction was continued by District Commander Navigation Order. At this time the Coast Guard proposes to make it a permanent requirement.

Proposed § 162.134(g) would prohibit meeting, overtaking, and coming about in the zone. Vessels approaching the zone would indicate their intentions using the radiotelephone at the fixed calling points. Before entering the zone, vessels would also coordinate their movements by radiotelephone following the procedures outlined in proposed § 162.132. A downbound vessel would have the right of way if it passes Lake Huron Cut Lighted Buoy 7 and upbound vessel enters the zone. Vessels in transit would also have the right of way over vessels getting underway in the zone.

Anchorage Rules, § 162.136

Proposed § 162.136(a) (1) and (2) describe the areas in the Detroit and St. Clair Rivers where vessels may normally anchor. In proposed § 162.136(a) the provisions of existing § 162.135(f)(1) (2), and (3) have been condensed and simplified and specific geographic references have been deleted. The purpose of the existing sections is to prohibit the obstruction of traffic by vessels both underway and at anchor. The Coast Guard feels that proposed § 162.136(b) in conjuction with the new Inland Navigation Rules will accomplish this and that additional language is unnecessary. The tonnage limitation (500 gross tons) has been deleted because it is no longer considered an appropriate standard of measure. The proposed limit (20 meters) is discussed under "Applicability, § 162.135(b)". The area of "Canadian waters just above Fighting Island" exists as an anchorage by authority of the Canadian government. This information is included in a "Note" to proposed § 162.136. In the Saint Clair River, there

are no specified anchorages. Vessels have traditionally anchored where they could find good ground and avoid obstructing dredged channels or steering ranges. The Coast Guard is proposing to make this practice a permanent requirement.

Speed Rules, §162.138

Proposed §162.138(a) would require vessels of 20 meters or more in length to normally proceed at a speed not greater than 12 statute miles per hour (10.4 knots) in the waters to which this section applies. The speed rules which presently exist are somewhat complicated. The limits range from 9 to 14 m.p.h. in parts of the Detroit and St. Clair Rivers. Speed limits have proven to be necessary to enhance navigation safety and to reduce shoreline property damage. However, informal consultation with the Canadian Coast Guard suggests that a uniform speed limit of 12 m.p.h. throughout the waterway would be as effective as the complex requirements which presently exist.

Modifying the existing limits would, of course, involve raising the limit in some area and lowering it in others. The Coast Guard feels this would be safely accomplished by the proposed speed rules and the traffic rules in proposed § 162.134 (which restrict meeting and overtaking in certain areas).

It is generally assumed that the faster a vessel proceeds, the more damaging the wake produced. Observation of the patterns or vessel wakes suggests that speed is not necessarily the most critical factor with regard to the size of the wake generated. The beam, draft, and design of a vessel have an effect on the wake. The ratio of a vessel's a beam to the width of the waterway can also be a factor. A number of vessels navigating in a waterway will compound the effects of a single vessel's wake. For example, if a vessel passes another in a narrow channel, wave height will usually increase and the transverse stern waves of the vessels may be superimposed. It is believed that the proposed speed limit will not necessarily increase wake damage and should enhance traffic flow. In addition, restriction of meeting and overtaking in some critical areas should serve to minimize the effects of vessels' wakes.

The Coast Guard does not intend to change the speed limit in the Rouge River because the present limit adequately controls vessel wakes while allowing vessels to maintain steerage. However, the existing regulations in the Rouge River have a different applicability from the existing regulations which cover the Detroit and St. Clair Rivers. For the sake of consistency, the Coast Guard proposes to change the applicability of the speed rules for the Rouge River from "vessels of 100 gross tons or more" to "vessels of 20 meters or more in length". This would simplify the regulations and bring them in line with the applicability of the other speed regulations in the area.

Miscellaneous rules, § 162.140

Proposed § 162.140(a) contains rules aimed at preventing towing vessels from obstructing navigation in the waterway. The existing regulations contain a general prohibition of obstruction of navigation. The Coast Guard feels this is a valid concern which is dealt with by Rule 9 of the Inland Navigation Regulations. However, towboats making up, breaking, and anchoring tows in the waterway would not be effectively covered if the existing regulation was simply deleted in favor of Rule 9. Therefore, the Coast Guard proposes two specific rules regarding towboats operating in the waterway.

Proposed § 162.140(a)(1) would require tows to be dropped or anchored only in the authorized anchorages. Proposed § 162.140(a)(2) would prohibit towing vessels from obstructing navigation while arranging tows.

As previously discussed under "Traffic rules, § 162.134", the area around Blue Water Bridge is particularly hazardous to navigation. In view of the swift current and narrow, winding channel, the Coast Guard believes that only underway operations that are absolutely necessary should be carried out in this stretch of water. Therefore, proposed § 162.140(b) would prohibit vessels from taking on, discharging, or exchanging pilots in the one way traffic zone near Blue Water Bridge.

Disposition of existing regulations

This supplementary information shows the disposition of the existing regulations in 33 CFR 162.135 and 162.140. As indicated in the following table, most of the existing regulations have been included (though reworded) in the proposed regulations. Some portions have been deleted for various reasons as set forth below.

TABLE 1.—DISPOSITION OF §§ 162.135 AND 162.140

Existing section	Disposition
162.135(a)(3) and (a)(5)(v)	Deleted
162.135(a)(remainder)	162.130
162.135(b)	Deleted
162.135(c)	162.134
162.135(d)	162.138
162.135(e)(4)	Deleted
162.135(e)(remainder)	162.134
162.135(f)	162.136
162.135(g)	Deleted

TABLE 1.—DISPOSITION OF §§ 162.135 AND 162.140—Continued

Existing section	Disposition
162.140(a)	162.130
162.140(b)	162.130
162.140(c)	162.136
162.140(d)	162.134
162.140(e)	162.134
162.140(f)	162.132
162.140(g)	Deleted

Paragraphs (a)(3) and (a)(5)(v) of § 162.135 would be deleted because they make reference to patrol vessels. "Patrol Vessel" is an outdated term and there is presently no Coast Guard unit by that name. Because of the reliability of VHF-FM radiotelephone, there is no longer a need for the special sound signals used by the patrol boats. The requirement for these would also be deleted.

Paragraph (b) of § 162.135, which prescribes the length of towlines for towing vessels, would be deleted. This requirement is no longer relevant to the amount and type of towing done on the waterway. At present, towboats are more powerful than when these regulations first came into force, giving operators better control over their tows. In addition, the majority of towing is now done by pushing ahead.

Paragraph (e)(4) of § 162.135 would be deleted because it is overly restrictive. The rule requires certain vessels to enter or navigate in a one way channel with a minimum time interval between them. Rule 2 of the Inland Navigation Rules (which come into effect on the Great Lakes on March 1, 1983) applies to this situation. Vessel masters are in a better position to determine what precautions are required to insure safe transit. Rule 2, the "Rule of Good Seamanship", makes them responsible for insuring that the proper precautions are taken.

Paragraph (g) of § 162.135 will be deleted for a number of reasons. First, it is redundant in that it reiterates the lighting requirements for certain vessels when aground or not under command. This paragraph requires sounding of a danger signal upon the approach of other vessels. The regular use of radiotelephone makes this practice obsolete. This paragraph outlines the manner in which vessels should interact when navigating near a disabled vessel. This is the type of injunction which is covered by Rule 2 of the Inland Navigation Rules and the Coast Guard believes the additional cautionary words are unnecessary. Finally this paragraph requires that the Coast Guard be notified of the nature and location of any vessel casualty which is observed. This requirement is covered in the

security calling and reporting rules in proposed § 162.132.

Paragraph (g) of § 162.140 would be deleted because it is unnecessary. Insuring that a vessel is properly moored or secured is a matter of such elemental seamanship that no amplification should be required.

Regulatory Evaluation

This Proposed rulemaking action is considered to be "non-major" under Executive Order 12291 (46 FR 13193; February 19, 1981) and is classified as "non-significant" under Department of Transportation Order 2100.5, "Policies and Procedures for Simplification, Analysis and Review of Regulations," dated May 22, 1980. A draft Evaluation has not been prepared because the impact of the proposed regulations is expected to be minimal. For example, the equipment required by the proposed regulation, a radiotelephone, is already required on most vessels by the Agreement between the United States and Canada for Promotion of Safety on the Great Lakes by Means of Radio, 1973 (which is implemented by the Vessel Bridge-to-Bridge Radiotelephone Act). The proposed regulations would only require a radiotelephone on one additional category of vessel, non commercial vessels 20 meters or more in length. The most recent figures available (1978 and 1979) indicate that there should be approximately 50 of these vessels documented in Great Lakes ports today. Considering the complex navigation equipment normally found aboard yachts of this size, it is unlikely that any of the vessels would not carry a radiotelephone. However, assuming all the vessels were to be fitted with this equipment ($500 per unit) the total cost would be $25,000.

The reports that would be required by the proposed regulations are for navigational safety purposes and would, for the most part, simply require a master to report the position of the vessel. Each report should normally take no more than 10 seconds.

Based on experience under the existing requirements, the Coast Guard is of the opinion that the costs imposed on vessel operators will not be burdensome. The one way traffic zone, for instance, will occasionally require vessels to lose some time while another vessel passes through the zone. However, this expense is minor compared to the losses involved if a collision were to again close the waterway for an extended period of time.

Regulatory Flexibility Analysis

Because the maximum cost of these proposed regulations is expected to be less than $25,000, the Coast Guard believes that these regulations will not have a significant economic effect. For the reasons stated above, pursuant to section 605(b) of the Regulatory Flexibility Act (Pub. L. 96–354, 94 Stat. 1164) it is certified that these regulations, if promulgated, will not have a significant economic impact on a substantial number of small entities.

Reporting and Recordkeeping Requirements

There are no reporting or recordkeeping requirements in the proposed regulations which fall under the Paperwork Reduction Act of 1980 (Pub. L. 96–511, 94 Stat. 2812, December 11, 1980).

Environmental Impact

This action has been thoroughly reviewed by the Coast Guard and it has been determined to be categorically excluded from further environmental documentation, in accordance with Section 2.B.3.(g) of Commandant Instruction (COMDINST) M16475.1A.

List of Subjects in 33 CFR Part 162

Coast Guard, Navigation (water), Waterways.

In consideration of the foregoing it is proposed that Part 162 of Title 33 of Code of Federal Regulations be amended as follows:

PART 162—[AMENDED]

1. The authority citation for Part 162 is revised to read as follows:

Authority: (33 U.S.C. 1208, 33 U.S.C. 1221, 33 U.S.C. 1223, 33 U.S.C. 1231; 33 CFR 26.09(b), 49 CFR 1.46)

§ 162.135 [Removed]

2. By removing § 162.135.

3. By adding new §§ 162.130, 162.132, 162.134, 162.136, and 162.138 to read as follows:

§ 162.130 Connecting waters from Lake Huron to Lake Erie; general rules.

(a) *Purpose.* The regulations in §§ 162.130 through 162.140 prescribe rules for vessel operation in U.S. waters connecting Lake Huron to Lake Erie (including Rouge River) to prevent collisions and groundings, to protect waterway improvements, and to protect these waters from environmental harm resulting from collisions and groundings.

(b) *Applicability.* (1) Unless otherwise specified, the rules in §§ 162.130 through 162.140 apply to all U.S. vessels.

(2) The general rules in this section and the miscellaneous rules in §§ 162.140 apply to all vessels.

(3) The speed rules in § 162.138 apply to vessels 20 meters or more in length.

(4) The security calling and reporting rules in § 162.132, the traffic rules in § 162.134, and the anchorage rules in § 162.136 apply to the following vessels:

(i) Vessels of 20 meters or more in length;

(ii) Commercial vessels more than 8 meters in length engaged in towing another vessel astern, alongside, or by pushing ahead; and

(iii) Each dredge and floating plant.

(c) *Definitions.* As used in §§ 162.130 through 162.140-"Captain of the Port" means the United States Coast Guard Captain of the Port of Detroit, Michigan.

"Detroit River" means the connecting waters from Windmill Point Light to the lakeward limits of the improved navigation channels at the head of Lake Erie.

"Harbor Master" means the harbor master appointed to the Windsor Harbor Commission and who has delegated authority to enforce the regulations and By-Laws of the Windsor Canada Harbor Commission.

"Lake St. Clair" means the waters from St. Clair Flats Canal Light 2 to Windmill Point Light at the head of the Detroit River.

"Master" means the licensed master or operator, the person designated by the master or operator to navigate the vessel, or, on a vessel not requiring licensed personnel, the person in command of the vessel.

"Regional Director" means the Regional Director for the Central Region, Canadian Coast Guard, Department of Transport.

"Rouge River" means the waters of the Short Cut Canal and the Rouge River from Detroit Edison Cell Light 1 to the head of navigation.

"SARNIA TRAFFIC" means the Canadian Coast Guard traffic center at Sarnia Ontario.

"Security call" means a voice radiotelephone transmission giving navigational information concerning a vessel's presence in the waterway.

(d) *Laws and regulations not affected.* The regulations in §§ 162.130 through 162.140 do not relieve the owners or operators of vessels from complying with any other laws or regulations relating to navigation on the Great Lakes and their connecting or tributary waters.

(e) *Local arrangements.* The District Commander or the captain of the Port may make local arrangements with appropriate Canadian officials, in the

interest of safety of operations, to facilitate traffic movement and anchorage, to avoid disputes as to jurisdiction and to take necessary action to render assistance in emergencies.

§ 162.132 Connecting waters from Lake Huron to Lake Erie; security calling and reporting rules.

(a) *General.* (1) Security calls required by this section shall be made by the master using a radiotelephone capable of operation on a vessel's navigation bridge, or in the case of a dredge, from its main control station.

(2) Security calls shall be made on Channel 16(156.8Mhz) and shall be conscise (no longer than 10 seconds). When longer transmissions are necessary, communications shall be shifted to a working frequency.

(3) Security calls shall be made in the English language.

(4) Security calls shall include the name of the vessel, its location, and direction of travel.

(b) *Required security calls.* (1) Security calls shall be made as indicated at the following points:

Downbound vessels	Calling points	Upbound vessels
Security Call	Lake Huron Cut Lighted Buoy 11.	
Security Call	Lake Huron Cut Lighted Buoy 7.	
Security Call	Lake Huron Cut Lighted Buoy 1.	
	Port Huron Traffic Lighted Buoy.	Security Call.
	Stag Island Upper Light.	Security Call.
Security Call	Grande Point Light 23	
	St. Clair Flats Canal Light 2.	Security Call.
Security Call	Belle Isle Light	Security Call.
Security Call	Immediately before entering or leaving the Rouge River.	Security Call.
	Fighting Island North Light.	Security Call.
Security Call	Fighting Island South Light Detroit River Light.	Security Call.

(2) A security call shall be made when departing any mooring or anchorage which is:

(i) In the St. Clair River between Lake Huron Cut Lighted Buoy 1 and Port Huron Traffic Lighted Buoy; or

(ii) In the Detroit River between Belle Isle Light and Fighting Island North Light.

(c) Additional security calls shall be made:

(1) Before maneuvering to come about; and

(2) Within 20 minutes of departing any mooring in the Rouge River.

(d) *Report of impairment or other hazard.* The master of a vessel shall report to the Captain of the Port as soon as possible:

(1) Any condition on the vessel that may impair its navigation, including but not limited to: fire, defective steering equipment, or defective propulsion machinery;

(2) Any tow that the towing vessel is unable to control, or can control only with difficulty;

(e) *Exemptions.* Compliance with this section is not required:

(1) When a vessel's radiotelephone equipment has failed; or

(2) When vessel traffic management is in effect and requires vessels to report to a Vessel Traffic Center.

§ 162.134 Connecting waters from Lake Huron to Lake Erie; traffic rules.

(a) In the Detroit River, the West Outer Channel is restricted to downbound vessels.

(b) In the Detroit River, the Livingston Channel, west of Bois Blanc Island, is restricted to downbound traffic.

NOTE.—The Amherstburg Channel, in Canadian waters east of Bois Blanc Island, is normally restricted to upbound traffic. No vessel may proceed downbound in the Amherstburg Channel without authorization from the Regional Director.

(c) In the Detroit River, between Fighting Island South Light and Bar Point Pier Light 29D, no vessels shall meet or overtake in such a manner that more than two vessels would be abreast at any time.

(d) In the Detroit River between the Grain Elevator at Walkerville and Peach Island Light, vessels may only overtake vessels engaged in towing.

(e) In the Rouge River, no vessel shall overtake another vessel.

(f) In the St. Clair River, between St. Clair Flats Canal Light 2 and Russel Island Light 33, vessels may only overtake vessels engaged in towing.

(g) In the St. Clair River between Lake Huron Cut Light Buoy 1 and Port Huron Traffic Buoy there is a zone of alternating one way traffic. Masters shall coordinate their movements in accordance with the following:

(1) Vessels shall not overtake;

(2) Vessels shall not come about;

(3) Vessels shall not meet;

(4) Downbound vessels which have passed Lake Huron Cut Lighted Buoy 7 have the right of way over upbound vessels which have not reached the Port Huron Traffic Buoy. Upbound vessels awaiting transit of downbound vessels will maintain position south of the Port Huron Traffic Buoy;

(5) Vessels transiting the zone shall coordinate passage by using communication procedures in § 162.132; and

(6) Transiting vessels shall have the right of way over moored vessels getting underway within the zone.

(h) In the waters described in § 162.130(a), the District Commander or Captain of the Port may establish temporary traffic rules for reasons which include but are not limited to: Channel obstructions, winter navigation, unusual weather conditions, or unusual water levels.

(i) The requirements of this section do not apply to public vessels of the U.S. or Canada engaged in icebreaking or servicing aids to navigation or to vessels engaged in river and harbor improvement work.

§ 162.136 Connecting waters from Lake Huron to Lake Erie; anchorage rules.

(a) *Anchorage grounds.*—(1) In the Detroit River, vessels shall be anchored so as not to swing into the channel or across steering courses.

Note.—There is an authorized anchorage in Canadian waters just above Fighting Island.

(2) In the St. Clair River, vessels shall be anchored so as not to swing into the channel or across steering courses.

(b) *Order of departure from anchorage.* Vessels collected in any of the waters described in § 162.130(a) for reasons of weather, ice, or other impediment to navigation shall get underway and depart in the order in which they arrived, unless otherwise directed by the Captain of the Port of SARNIA TRAFFIC.

§ 162.138 Connecting waters from Lake Huron to Lake Erie; speed rules.

(a) *Maximum speed limit.* Except when required for the safety of the vessel or any other vessel, vessels of 20 meters or more in length shall proceed at a speed not greater than:

(1) 12 statute miles per hour (10.4 knots) between Fort Gratiot Light and Detroit River Light;

(2) 4 statute miles per hour (3.5 knots) in the Rouge River.

(b) *Temporary speed limits.* The District Commander may temporarily establish speed limits or temporarily amend existing speed limit regulations on the waters described in § 162.130(a).

4. By revising § 162.140 to read as follows:

§ 162.140 Connecting waters from Lake Huron to Lake Erie; miscellaneous rules.

(a) *Rules for towing vessels.* (1) A towing vessel shall drop or anchor its tows in authorized anchorage areas only.

(2) A towing vessel engaged in arranging its tow shall not obstruct the navigation of other vessels.

(b) *Pilots.* In the St. Clair River between Lake Huron Cut Lighted Buoy 1 and Port Huron Traffic Lighted Buoy, Vessels shall not take on, discharge, or exchange pilots.

Dated: May 6, 1983.

B. F. Hollingsworth,

Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Environment and Systems.

[FR Doc. 83-14887 Filed 6-3-83; 8:45 am]

BILLING CODE 4910-14-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 271

[OSWER-FRL 2376-7]

Hazardous Waste Management Program; Maine; Application for Interim Authorization, Phase II, Components A, B, and C

AGENCY: Environmental Protection Agency.

ACTION: Notice of public hearing and public comment period.

SUMMARY: EPA is today announcing the availability for public review of the Maine application for Phase II, Components A, B & C, Interim Authorization, Hazardous Waste Management Program, inviting public comment, and giving notice that EPA will hold a public hearing on the application.

DATES: A public hearing is scheduled for July 14, 1983 at 10:00 a.m. All written comments on the Maine Interim Authorization Application must be received by the close of business on July 19, 1983.

ADDRESSES: EPA will hold a public hearing on Maine's Application for Interim Authorization on July 14, 1983 at 10:00 a.m. at the Downtown Holiday Inn, 88 Spring Street, Portland, Maine.

Written comments on the application and requests to speak at the hearing should be sent to: Beverly Roehrig, Maine State Coordinator, State Waste Programs Branch, U.S. EPA, Region I, John F. Kennedy Federal Building, Boston, Massachusetts 02203, Telephone (617) 223-5630.

Copies of the Maine Phase II Interim Authorization application are available during normal business hours at the following addresses for inspection and copying by the public:

Maine Department of Environmental Protection, Bureau of Oil and Hazardous Materials Control, Licensing and Enforcement Division, Ray Building, Augusta, Maine, 04333, Telephone (207) 289-2651

Environmental Protection Agency, Region I Office Library, Room 2100B, John F. Kennedy Federal Building, Boston, Massachusetts, 02203, Telephone (617) 223-5791

EPA Headquarters Library, Room 2404, 401 M Street, S.W., Washington, DC 20460.

FOR FURTHER INFORMATION CONTACT: Beverly Roehrig, Maine State Coordinator, State Waste Programs Branch, U.S. EPA, Region I, John F. Kennedy Federal Building, Boston, Massachusetts 02203, Telephone (617) 223-5630.

SUPPLEMENTARY INFORMATION: In the May 19, 1980 **Federal Register** (45 FR 33063) the Environmental Protection Agency promulgated regulations, pursuant to Subtitle C of the Resource Conservation and Recovery Act of 1976, (RCRA), as amended, to protect human health and the environment from the improper management of hazardous waste. These regulations included provisions under which EPA can authorize qualified State hazardous waste management programs to operate in lieu of the Federal program. The regulations provide for a transitional stage in which qualified state programs can be granted interim authorization. The interim authorization program is being implemented in two phases corresponding to the two stages in which the underlying Federal program will take effect.

The State of Maine received interim authorization for Phase I on March 18, 1981.

In the January 26, 1981 **Federal Register** (46 FR 7965), the Environmental Protection Agency announced the availability of portions or components of Phase II of interim authorization. Component A, published in the **Federal Register** January 12, 1981 (46 FR 2802), contains standards for permitting storage and treatment in containers, tanks, surface impoundments and waste piles. Component B, published in the **Federal Register** January 23, 1981 (46 FR 7666), contains standards for permitting hazardous waste incinerators. Component C, published in the **Federal Register** July 26, 1982 (47 FR 32274), contains technical facility standards which apply to ground water protection, surface impoundments, waste piles, land treatment and landfills.

A full description of the requirements and procedures for State interim authorization is included in 40 CFR Part 271, Subpart F, as amended by 47 FR 32377. It should be noted that on April 1, 1983 at 48 FR 14146, EPA promulgated rules reorganizing the presentation of permit program requirements in the Consolidated Permit Regulations, 40 CFR 122, 123, and 124, governing, among other things, the Hazardous Waste Management Program under RCRA. Part 122 is now, for RCRA, new Part 270. Part 123 is now, for RCRA, new Part 271. Part 124 remains the same. Because the Maine Phase II application was developed largely prior to April 1, all citations therein are to the original consolidated permit regulations.

As noted in the May 19, 1980 **Federal Register**, copies of complete state submittals for Phase II interim authorization are to be made available for public inspection and comment.

Dated: May 27, 1983.

Paul G. Keough,

Acting Regional Administrator, Region I.

[FR Doc. 83-15089 Filed 6-3-83; 8:45 am]

BILLING CODE 6560-50-M

DEPARTMENT OF TRANSPORTATION

Research and Special Programs Administration

49 CFR Parts 173 and 179

[Docket No. HM-175; Notice No. 83-1]

Specification for Railroad Tank Cars Used to Transport Hazardous Materials; Extension of Time for Public Comment

AGENCY: Materials Transportation Bureau (MTB), Research and Special Programs Administration, DOT.

ACTION: Notice of proposed rulemaking (NPRM); extension of comment period.

SUMMARY: On April 14, 1983, MTB published an NPRM under docket HM-175 (48 FR 16188) pertaining to the construction and maintenance standards for certain railroad tank cars used to transport hazardous materials. Specifically, the NPRM proposes that existing large capacity specification 105 and 111 tank cars built before September 1, 1981 and used for the transportation of a flammable gas, anhydrous ammonia, or ethylene oxide have the same added tank head and thermal safety systems that are now required on newly built specification 105 tank cars and all specification 112 and 114 tank cars used to carry those same hazardous materials. By this notice, MTB is extending the closing date of the comment period from June 7, 1983 to July 13, 1983.

DATE: The time for filing comments is extended from June 7, 1983 to July 13, 1983.

FOR FURTHER INFORMATION CONTACT: Philip Olekszyk, Office of Safety, Federal Railroad Administration, Washington, D.C. 20590, (202) 426–0897.

SUPPLEMENTARY INFORMATION: In consideration of a request made by the Compressed Gas Association, Inc. (CGA) for additional time in which it may file comments on this NPRM, MTB is extending the comment period to July 13, 1983. CGA requested an extension of at least 90 days so that it and its members may respond to the NPRM with comments that are thoroughly developed, well considered, and factually supported. The CGA contends that its members are substantially affected by this proposal, which would require major technical, logistical, and economic efforts in retrofitting the specification 105 and 111 tank cars.

The MTB believes comments on the proposed amendments can be prepared in less additional time than is sought by CGA since they relate to existing safety requirements for specification 112 and 114 tank cars, and newly constructed specification 105 tank cars. Extending the comment period to July 13, 1983 allows a total of 90 days to file comments which MTB considers to be adequate time for all interested parties to participate in this rulemaking.

(49 U.S.C. 1803, 1804, 1808; 49 CFR 1.53, App. A to Part 1 and paragraph (a)(4) of App. A to Part 106)

Issued in Washington, D.C. on June 1, 1983.

Alan L. Roberts,

Associate Director for Hazardous Materials Regulation, Materials Transportation Bureau.

[FR Doc. 83–15508 Filed 6–3–83; 8:45 am]

BILLING CODE 4910–60–M

National Highway Traffic Safety Administration

49 CFR Part 571

Federal Motor Vehicle Safety Standards; Denial of Petition for Rulemaking

AGENCY: National Highway Traffic Safety Administration (NHTSA), DOT.

ACTION: Denial of petition for rulemaking.

SUMMARY: This notice denies a petition filed by Scovill, Inc., requesting this agency to establish performance requirements for snap-in tubeless tire valves. According to the petitioner, this action is necessary to prevent sudden deflation of tires caused by the failure of Japanese tire valves. The agency is denying the petition because of the absence of any data indicating that the Japanese tire valves are failing on the road to any greater extent than American valves or that tire valves in general fail at a rate warranting the establishment of performance requirements.

FOR FURTHER INFORMATION CONTACT: Arthur Neill, Jr., Office of Vehicle Safety Standards, NHTSA, 400 Seventh Street SW., Washington, D.C. 20590 (202–426–2800).

SUPPLEMENTARY INFORMATION: Scovill, Inc., a tire valve manufacturer, has filed a petition requesting this agency to establish requirements for the low temperature performance and ozone resistance of snap-in tubeless tire valves. According to Scovill, "(l)ow ambient temperatures cause a hardening of the rubber compound which seals the valve to the rim hole. If subsequently flexed—as will happen under rotational forces—cracking can develop which could lead to catastrophic failure of the rim hole seal." As to ozone resistance, Scovill stated that, "ozone is known to cause rubber deterioration . . . Valves not meeting these Standards (SAE J1206) exhibit cracking which can lead to catastrophic failure of the rim hole seal."

Scovill contends that adoption of low temperature performance and ozone resistance requirements is necessary because imported Japanese tire valves are manufactured in accordance with a standard, Japanese Industrial Standard (JIS) D4206, that does not regulate those aspects of performance. Scovill tested samples of the Japanese tire valves in accordance with the low temperature and ozone resistance tests contained in Society of Automotive Engineers (SAE) Standard J1206 and found that while the low temperature test was met, a large percentage of the sample failed to meet the ozone resistance test. Scovill accordingly urges the adoption of the low temperature performance and ozone resistance tests contained in SEA J1206.

Scovill has not provided any data showing that tire valves which do not comply with the SAE requirements are responsible for deflations or have caused accidents. The agency checked its own files to see if they contained any such data. Of the more than 10,000 consumer complaints received by NHTSA since 1976, only 11 involved reported sudden tire deflations. That low number does not suggest the existence of a general problem warranting the regulation of tire valves. Further, the nature of the 11 complaints does not suggest that Japanese tires are more prone to failure. Of the 11 complaints, two were not related to a tire valve failure, six were only possibly related to such a failure, and three were definitely related to such a failure. Of the six complaints possibly relating to a tire valve failure, two occurred on Japanese tires and the others occurred on American tires. Of the three complaints definitely involving a tire valve failure, one was a valve that had been pulled out of a motorcycle tire, one was a valve cut by a wheel cover, and the other was a valve on an American tire. None of these three incidents would have been prevented by making the SAE requirements mandatory.

Moreover, a recent study prepared for this agency by three University of Michigan researchers concluded that tire valves in general are responsible for less loss of air pressure than occurs from the pressurized air inside the tire escaping through the rubber body of the tire. There was no evidence of significant failure rates for tire valves.

NHTSA does not dispute Scovill's findings that 60 percent of the Japanese tire valves it tested did not comply with the requirements of the SAE ozone resistance test. However, there are no data available to this agency suggesting that ozone is causing failure of the Japanese tire valves actually in service on the roads. Given the absence of any data or analyses showing that snap-in tubeless tire valves in general or Japanese valves in particular have exhibited or are likely to exhibit a significant failure rate while in service, this agency denies the petition. NHTSA will continue to monitor complaints and accident reports to see if tire valve failures represent a safety hazard on the road. If Scovill can provide any data or analyses to support its contentions that Japanese tire valves pose a greater safety hazard than do tire valves which meet the SAE standards, it should submit those data and analyses with a new petition. If such a petition were received, NHTSA would give it careful consideration.

(Secs. 103, 119, Pub. L. 89–563, 80 Stat. 718 (15 U.S.C. 1392, 1407); delegations of authority at 49 CFR 1.50 and 49 CFR 501.8)

Issued on May 27, 1983.

Kennerly H. Digges,

Acting Associate Administrator for Rulemaking.

BILLING CODE 4910–59–M

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Parts 611 and 675

Foreign Fishing and Groundfish of the Gulf of Alaska

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of availabilty of an amendment to a fishery management plan and request for comments.

SUMMARY: NOAA issues this notice that the North Pacific Fishery Management Council has submitted an amendment (Amendment 11) to the Fishery Management Plan for the Groundfish Fishery in the Gulf of Alaska for review by the Secretary of Commerce and is requesting comments from the public. Copies of the amendment may be obtained from the address below.

DATE: Comments on the plan amendment should be submitted on or before August 12, 1983.

ADDRESSES: All comments should be sent to Robert W. McVey, Director, Alaska Region, NMFS, P.O. Box 1668, Juneau, Alaska 99802.

Copies of the amendment are available upon request from the North Pacific Fishery Management Council, P.O. Box 103136, Anchorage, Alaska 99510.

FOR FURTHER INFORMATION CONTACT: Jeffrey J. Povoly (North Pacific Fishery Management Council, Groundfish Plan Coordinator), 907–274–4563.

SUPPLEMENTARY INFORMATION: The Magnuson Fishery Conservation and Management Act (16 U.S.C. 1801 *et seq.*) requires that each regional fishery management council submit any fishery management plan or paln amendment it prepares to the Secretary of Commerce (Secretary) for review and approval or disapproval. This act also requires that the Secretary, upon reviewing the plan or amendment, must immediately publish a notice that the plan or amendment is availalbe for public review and comment. The Secretary will consider the public comments in determining whether to approve the plan or plan amendment.

Amendment 11 proposes measures for managing the foreign groundfish fishery in the Gulf of Alaska. Regulations proposed by the Council and based on this amendment are scheduled to be published within 30 days.

(16 U.S.C. 1801 *et seq.*)

Dated: May 31, 1983.

Roland F. Smith,

Acting Director, Office of Data and Information Management, National Marine Fisheries Service.

Notices

Federal Register
Vol. 48, No. 109
Monday, June 6, 1983

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Office of the Secretary

Agribusiness Promotion Council Committee on Honduras, Meeting

Notice is hereby given that the USDA Agribusiness Promotion Council Committee on Honduras will meet June 16, 1983, from 12:00 to 5:00 pm, in Room 201–W of the U.S. Department of Agriculture Administration Building, 14th and Independence Avenue, Washington, D.C. The agenda will consist of selection of committee chairman, discussion and planning of committee activities. The meeting will be open to the public. Written statements may be submitted to Joan S. Wallace, Administrator, USDA/OICD, Room 3047, South Building, Washington, D.C. 20250 until June 14, 1983.

Joan S. Wallace,
Administrator.

BILLING CODE 3410–01–M

Packers and Stockyards Administration

Proposed Posting of Stockyards

The Packers and Stockyards Administration, United States Department of Agriculture, has information that the livestock markets named below are stockyards as defined in section 302 of the Packers and Stockyards Act, 1921, as amended (7 U.S.C. 202), and should be made subject to the provisions of the Act.

AL–165 Southeastern Livestock Service and Auction, Inc., Phenix, Alabama
MO–257 Oregon, Livestock Sales Co., Oregon, Missouri

Notice is hereby given, therefore, that the Packers and Stockyards Administration, pursuant to authority under the Packers and Stockyards Act, 1921, as amended (7 U.S.C. 181 *et seq.*), proposes to designate the stockyards named above as posted stockyards subject to the provisions of the Act as provided in section 302 thereof.

Any person who wishes to submit written data, views, or arguments concerning the proposed designation, may do so by filing them with the Chief, Financial Protection Branch, Packers and Stockyards Administration, United States Department of Agriculture, Washington, D.C. 20250, by June 21, 1983.

All written submissions made pursuant to this notice shall be made available for public inspection in the office of the Chief of the Financial Protection Branch during normal business hours.

Done at Washington, D.C., this 27th day of May, 1983.

Jack W. Brinckmeyer,
Chief, Financial Protection Branch, Livestock Marketing Division.

DEPARTMENT OF AGRICULTURE

Forest Service

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

National Forest System Land and Resource Management Planning; Public Land and Resources; Planning, Programming, and Budgeting

AGENCIES: Forest Service, USDA and Bureau of Land Management, Interior.

ACTION: Joint Notification of Land and Resource Management Planning Schedules.

SUMMARY: Land and resource management plans of the Forest Service and the Bureau of Land Management frequently cover adjoining areas which share common resource issues and management concerns requiring continuous and close interagency coordination. Therefore, the USDA Forest Service and the USDI Bureau of Land Management have again elected to jointly announce land management planning schedules for lands each agency administers. The purpose of publishing joint planning schedules is to provide interested agencies and publics the opportunity to study the relationships between the two agencies' current and projected planning activities.

The Forest Service and the Bureau of Land Management's planning systems are authorized and administered under different laws and regulations. Consequently, this notice is organized into two parts (Part A—Forest Service and Part B—Bureau of Land Management).

Comments on projected new plans should be directed to the appropriate agency (see **ADDRESS**, Part A and Part B).

Part A—Forest Service

In March 1981, the President's Task Force on Regulatory Relief requested that the Secretary of Agriculture review the 1979 National Forest Management Act regulations for possible modification. As a result of the review, revised regulations to guide land and resource management on the National Forest System were published September 30, 1982, in Vol. 47, No. 190 of the **Federal Register**. The rules set forth a process for developing and revising the land and resource management plans as required by the Forest and Rangeland Renewable Resources Planning Act of 1974 (RPA), as amended by the National Forest Management Act (NFMA) of 1976. These rules require development of Regional Guides and Forest Plans. Each plan will include all management planning for resources and be supported by an environmental impact statement. NFMA advises the Forest Service to make every attempt to develop the required Forest Plans by 1985.

The impact of developing new direction for analysis standards and roadless area evaluation to be conducted through Forest planning has had a significant effect on Forest Service programs and schedules. Draft and final Regional Guides and Forest Plans and associated environmental impact statements will be filed with the Environmental Protection Agency and made available to the public for comment. A planning schedule is included showing the fiscal year in which draft and final documents have been or will be filed, as well as projected dates for publication of Supplemental Draft Forest Plans and EIS's required as a result of the roadless area evaluation. Also given are the addresses of the Forest Service's nine

Regional Offices and National Forests headquartered in each Region for which plans are to be prepared.

Readers interested in the progress and status of a particular Regional Guide or Forest Plan should contact the appropriate Regional Forester or Forest Supervisor.

DATES: Comments on the schedule will be accepted until July 1, 1983.

ADDRESS: Comments should be sent to: Chief, Forest Service, USDA, P.O. Box 2417, Washington, DC 20013.

FOR FURTHER INFORMATION CONTACT: Joyce P. Parker, Land Management Planning, P.O. Box 2417, Washington, DC 20013, (202) 447–6697.

Part B—Bureau of Land Management

Regulations governing resbource management planning for Bureau of Land Management Administered lands were published in the **Federal Register** on August 7, 1979 (44 FR 46385). Those regulations (43 CFR 1601.3) require that the Bureau Publish a planning schedule for that Fiscal Year and for three succeeding Fiscal Years. The schedule below complies with this requirement.

The schedule incorporates changes in the planning schedule made as a result of Fiscal Year 1983 appropriations. The planning process for ongoing plans is projected through Fiscal Year 1986. New starts for resource management plans are projected only for Fiscal Years 1983 and 1984. New starts for Fiscal Years 1985 and 1986 will be projected in subsequent planning schedules. A key to abbreviations used is provided after the schedule.

The **Federal Register** notice of December 3, 1979 (44 FR 69374), describes the use of planning regulation provisions in the transitionmanagement framework plans shown in the schedule.

DATES: Comments on the schedule will be accepted until July 1, 1983.

ADDRESS: Comments should be sent to: Director (202), Bureau of Land Management, Washington, D.C. 20340.

FOR FURTHER INFORMATION CONTACT: Alan Stein, (202) 653–8824.

COMMISSION OF FINE ARTS

Meeting

The Commission of Fine Arts meeting scheduled for June 14, 1983 is cancelled. The next meeting will be held on Tuesday, July 12, 1983 at 10:00 a.m. in the Commission's offices at 708 Jackson Place NW., Washington, D.C. 20006 to discuss various projects affecting the appearance of Washington including buildings, memorials, parks, etc., also matters of design referred by other agencies of the government. Access for handicapped persons will be through the main entrance to the New Executive Office Building on 17th Street between Pennsylvania Avenue and H Street NW.

Inquiries regarding the agenda and requests to submit written or oral statements should be addressed to Mr. Charles Atherton, Secretary, Commission of Fine Arts, at the above address or call 566-1066.

Dated in Washington, D.C., May 27, 1983.
Charles H. Atherton,
Secretary.

DEPARTMENT OF COMMERCE

International Trade Administration

Certain Stainless Sheet and Strip Products From France: Amendment to Final Determinations of Sales at Less Than Fair Value

AGENCY: International Trade Administration, Department of Commerce.

ACTION: Amendment to the final determinations of sales at less than fair value.

SUMMARY: On April 29, 1983, we published final affirmative antidumping duty determinations on certain stainless steel sheet and strip products from France (48 FR 19441). Due to a clerical error when computing the weighted-average margins for sales of cold-rolled sheet by Ugine-Gueugnon, sales of a product group which was outside the scope of the investigations were inadvertently included. Due to an investigative error, the interest on a value-added tax as incorrectly deducted from the United States price for sales of cold-rolled sheet and strip by Usinor. Also, for Usinor, we have allowed a claimed adjustment for surface differences on sales of strip. This adjustment was not previously allowed because the adjustment was incorrectly shown on the computer tapes and was not brought to our attention until after publication of the final determinations; we now correct that error.

In the "United States Price" section of the notice, we stated: "We also made a deduction for a value-added tax, erroneously reported as an uncollected export duty and included in the United States sales prices reported by Usinor, as the home market prices reported to us contained no amount for this tax." This

sentence should be deleted. Also, in the "United States Price" section of the notice under "*Usinor.*" we stated: "A value added tax, erroneously described as an uncollected export duty and included in the United States sales prices reported by Usinor, was deducted from the United States price as the home market prices reported to us contained no amount for this tax." This sentence should be deleted.

In the "Foreign Market Value" section of the notice, under "*Usinor:*", the following paragraph should be added. "We allowed a claimed adjustment for certain surface differences on sales of strip. We did not allow a claimed deduction for an imputed interest icurred in the home market on value-added tax (VAT) expenses for the time period between the time the VAT was paid on raw materials and the time the VAT was collected on the sale of the finished product. It is the Department's policy to allow deductions for interest expense only when it is a directly related selling expense."

In the "Results of Investigations" section of the notice, we stated: "For cold-rolled stainless steel sheet, margins were found on 38 percent of metric tons sold. The margins ranged from .1 percent to 55.3 percent. The overall weighted-average margin on these sales was 6.5 percent." This sentence should read: "For cold-rolled stainless steel sheet, margins were found on 35.7 percent of metric tons sold. The margins ranged from .01 percent to 46.5 percent. The overall weighted-average margin on these sales was 3.4 percent. For cold-rolled stainless steel strip, margins were found on 61.8 percent of metric tons sold. The margins ranged from .1 percent to 55.3 percent. The overall weighted-average margin on these sales was 5.3 percent."

In the "Continuation of Suspension of Liquidation" section of the notice, the posting of a cash deposit, bond, or other security will be based on the following revised weighted-average margins.

Manufacturer/producer/exporter	Weighted-average margins
Hot-rolled stainless steel sheet:	
Ugine-Gueugnon	2.9
Usinor	4.7
All Other Manufacturers/Producers/Exporters	3.4
Hot-rolled stainless steel strip:	
Usinor	7.9
All Other Manufacturers/Producers/Exporters	5.3
Cold-rolled stainless steel sheet:	
Ugine-Gueugnon	2.9
Usinor	4.7
All Other Manufacturers/Producers/Exporters	3.4
Cold-rolled stainless steel sheet:	
Usinor	7.9
All Other Manufacturers/Producers/Exporters	5.3

This amendment corrects the four sections quoted. No other information in the April 29, 1983, determinations is affected by this amendment.

EFFECTIVE DATE: June 6, 1983.

BILLING CODE 3510–25–M

Final Affirmation Countervailing Duty Determination: Frozen Concentrated Orange Juice From Brazil

AGENCY: International Trade Administration, Commerce.

ACTION: Final affirmative countervailing duty determination.

SUMMARY: We have determined that certain benefits which constitute subsidies within the meaning of the countervailing duty laws are being provided to manufacturers, producers, or exporters in Brazil of frozen concentrated orange juice. The estimated net subsidy is 2.77 percent *ad valorem*. The U.S. International Trade Commission (ITC) will determine within 45 days of the publication of this notice whether these imports are materially injuring, or are threatening to materially injure, a U.S. industry.

The Department of Commerce (the Department) and the government of Brazil have entered into a suspension agreement. We continued the investigation at the request of the government of Brazil in accordance with section 704(g) of the Tariff Act of 1930, as amended (the Act). If the final determination by the ITC is negative, the suspension agreement shall have no force or effect. If the final determination by the ITC is affirmative, the suspension agreement shall remain in force.

EFFECTIVE DATE: June 6, 1983.

FOR FURTHER INFORMATION CONTACT: Francis R. Crowe, Office of Investigations, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, D.C. 20230, telephone: (202) 377–0171.

SUPPLEMENTARY INFORMATION:

Final Determination

Based upon our investigation, we have determined that certain benefits which constitute subsidies within the meaning of section 701 of the Act are being provided to manufacturers, producers, or exporters in Brazil of frozen concentrated orange juice. For purposes of this investigation, the following programs are found to confer subsidies:

- Preferential working capital financing for exports.
- Income tax exemption for export earnings.

We have determined the estimated net subsidy on frozen concentrated orange juice from Brazil to be 2.77 percent *ad valorem*.

The Department of Commerce (the Department) and the government of Brazil have entered into a suspension agreement. If the final determination by the ITC is negative, the suspension agreement shall have no force or effect. If the final determination by the ITC is affirmative, the suspension agreement shall remain in force.

Case History

On July 14, 1982, we received a petition from Florida Citrus Mutual, filed on behalf of the U.S. growers of oranges for processing into frozen concentrated orange juice. The petition alleged that certain benefits which constitute subsidies within the meaning of section 701 of the Act are being provided, directly or indirectly, to the manufacturers, producers, or exporters in Brazil of frozen concentrated orange juice.

We found the petition to contain sufficient grounds upon which to initiate a countervailing duty investigation, and on August 2, 1982, we started an investigation (47 FR 37172). We stated that we expected to issue a preliminary determination by October 7, 1982. We subsequently determined that the investigation is "extraordinarily complicated," as defined in section 703(c) of the Act, and postponed our preliminary determination for 65 days until December 13, 1982 (47 FR 45896).

Since Brazil is a "country under the Agreement" within the meaning of section 701(b) of the Act, an injury determination is required for this investigation. Therefore, we notified the U.S. International Trade Commission (ITC) of our initiation. On September 9,

1982, the ITC determined that there is a reasonable indication that these imports are materially injuring, or are threatening to materially injure, a U.S. industry (47 FR 39740).

We presented a questionnaire concerning the allegations to the government of Brazil in Washington, D.C. on August 27, 1982. On December 1, 1982, we received the response to that questionnaire.

On December 13, 1982, we preliminarily determined that the government of Brazil was providing its manufacturers, producers, or exporters of frozen concentrated orange juice with benefits that constitute subsidies. The programs preliminarily determined to bestow subsidies were:

- Preferential working capital financing for exports.
- Income tax exemption for export earnings.

Notice of the preliminary affirmative countervailing duty determination was published on December 17, 1982 (47 FR 56528). We directed the U.S Customs Service to suspend liquidation of all entries of the frozen concentrated orange juice entered, or withdrawn from warehouse, for consumption on or after December 17, 1982, and to require the posting of a cash deposit, bond or other security in the amount of 2.655 percent of the f.o.b. value of the merchandise.

On January 25, 1983, the Department and the government of Brazil initialed a proposed agreement to suspend the countervailing duty investigation involving frozen concentrated orange juice from Brazil. The basis for the proposed agreement was that the government of Brazil would offset by an export tax the entire amount of benefits we found to confer subsidies on exports of frozen concentrated orange juice to the United States.

On the same date, in compliance with the procedural requirements of section 704(e) of the Act, we consulted with the petitioners regarding the proposed agreement and provided them a copy of it. We received no comments concerning the proposed agreement.

On February 24, 1983, the Department and the government of Brazil signed a suspension agreement, as provided for under section 704 of the Act. The agreement became effective with its publication in the **Federal Register** on March 2, 1983 (48 FR 8839). Under the agreement, the government of Brazil is required to offset completely by an export tax the amount of the net subsidy determined by the Department to exist on Brazilian exports of frozen concentrated orange juice to the United States.

By letter of March 21, 1983, counsel for the government of Brazil requested that the investigation be continued under section 704(g) of the Act. Therefore, we have completed the investigation and are issuing a final determination.

Scope of Investigation

The product covered by this investigation is frozen concentrated orange juice as provided for in item 165.35 of the *Tariff Schedules of the United States.*

There are nine known producers and exporters in Brazil of frozen concentrated orange juice to the United States. We have received information from the government regarding three of these companies, Cargill Industrial Ltda. (CARGILL), Citrosuco Paulista S.A. (CITROSUCO) and Sucocitrico Cutrale S.A. (CUTRALE), which represented over 85 percent of exports of this product to the United States during a recent, representative period—calendar year 1981.

The period for which we are measuring subsidization is that fiscal year for each company which most closely corresponds to calendar year 1981. That period is March 1, 1981 to February 28, 1982 for CARGILL; and May 1, 1981 to April 30, 1982 for CITROSUCO and CUTRALE. We have referred to these periods as fiscal year 1981 in this notice. It its response, the government of Brazil provided data for the applicable periods.

Analysis of Programs

I. Programs Determined To Confer Subsidies

We have determined that subsidies are being provided to manufacturers, producers, or exporters in Brazil of frozen concentrated orange juice under the following programs.

A. Preferential Working Capital Financing for Exports: Resolution 674

Under this program, companies are declared eligible to receive working capital loans by the Department of Foreign Commerce of the Banco Central do Brasil (CACEX). These loans may have a duration of up to one year. Firms in the frozen concentrated orange juice industry can obtain this financing at preferential rates for up to 12 percent of the net f.o.b. value of the previous year's exports. The maximum dollar eligibility under this program is established by CACEX and is stated on the "Certificado de Habilitacao" issued to recipients. Since this program is designed to promote exports and is tied to export performance, we have determined that such financing is an export subsidy and therefore is countervailable. This program has also been found to be countervailable in previous investigations involving Brazilian products.

The net export value is calculated by taking numerous deductions from the export value of the merchandise, including agent commissions, contractual penalties or refunds, exports denominated in cruzeiros, imported inputs over 20 percent of the export value, and a deduction for the company's trade deficit as a percentage of the value of its exports.

To determine the value of loans in existence under this program during the 1981 fiscal year, we prorated any loans that straddled other fiscal years. For loans taken out in fiscal year 1980, only that portion extending into fiscal year 1981 was included in our calculation. Any fiscal year 1981 loans extending into fiscal year 1982 were similarly adjusted.

As in previous Brazilian countervailing duty cases, we are using the rate established by the Banco do Brasil for discounting sales of accounts receivable as the commercial rate for the acquisition of short-term working capital. We have used this comparison because information provided by the government of Brazil indicates that within the Brazilian financial system, working capital is normally raised through the sale of accounts receivable. In the review period the annual rate for discounting sales of accounts receivable was 59.6 percent plus a 6.9 percent tax on financial transactions (IOF). The subsidy is the difference between the interest rate available under Resolution 674 and the commercial rate.

The interest rate on loans under Resolution 674 is 40 percent, with interest pyable semiannually and the principal fully payable on the due of the loan. The effective rate of interest for these loans is 44 percent. These loans are also exempt from the IOF. Therefore, the differential between these two types of financing is 22.5 percent. Multiplying this differential by the amount of preferential financing received and dividing the result by the value of exports, we calculated a subsidy of 1.64 percent *ad valorem.*

On February 11, 1983, the government of Brazil notified the Department that the Banco do Brasil rate for discounting accounts receivable had increased from 59.6 percent to 72 percent effective January 3, 1983. In addition, effective January 11, 1983, the tax on financial transactions was reduced from 6.9 percent to 4.6 percent. These changes result in a subsidy rate differential of

32.6 percent rather than 22.5 percent as stated above. Consequently, since the rate established for purposes of the suspension agreement is prospective, we will use 32.6 percent as the applicable differential in determining the net subsidy rate which must be offset by an export tax under the terms of the agreement.

B. Income Tax Exemption for Export Earnings

Exporters of frozen concentrated orange juice are eligible to participate in this program, under which the percentage of their profit attributable to export revenue is exempt from income tax. To arrive at this percentage, export revenue is divided by total revenue. The amount of profit exempt from the income tax is then multiplied by the 35 percent corporate income tax rate to determine the amount of the benefit. Since the program is designed to promote exports and is tied to export performance, we have determined that it is an export subsidy and therefore is countervailable. This program has also been found to be countervailable in previous investigations involving Brazilian products.

In a program of this kind, benefits cannot be determined with finality until the books are closed sometime in the following year. Therefore, we must look at fiscal year 1980 income tax returns to determine if any benefit was received in fiscal year 1981. All three companies received benefits under this program in fiscal year 1981. By dividing the benefit received by the value of exports of the companies under investigation, we calculated a subsidy of 1.13 percent *ad valorem*.

II. Programs Determined Not To Confer Subsidies

We have determined that subsidies are not being provided to manufacturers, producers, or exporters in Brazil of frozen concentrated orange juice under the following programs.

A. Exemption From State Value-Added Tax (ICM)

The state value-added tax (ICM) is applicable only to domestic sales of frozen concentrated orange juice. Export transactions are exempt from such taxation. The exemption of indirect taxes levied on the value added on exported goods does not consitute a countervailable benefit under either section 303 or section 701 of the Act.

B. Exemption From Federal Industrialized Products Tax (IPI)

The federal IPI value-added tax is applicable only to domestic sales of frozen concentrated orange juice. Export transactions are exempt from such taxation. The exemption of indirect taxes levied on the value added on exported goods does not constitute a countervailable benefit under either section 303 or section 701 of the Act.

III. Program Determined Not to Be Used

We have determined that the following program was not used by the manufacturers, producers, or exporters in Brazil of frozen concentrated orange juice.

A. Federal Industrialized Products Tax (IPI) Export Credit Premium

The IPI export credit premium program was suspended on December 7, 1979. When the IPI export credit premium was reinstated on April 1, 1981, the orange concentrate industry was specifically excluded from receiving the benefits of this program (Ministry of Finance Ordinance No. 78).

IV. Program Determined To Be no Longer in Existence

We have determined that the following program is no longer in existence.

A. State Value-Added Tax (ICM) Export Credit Premium

This program, under which Brazilian companies were eligible for an overrebate of a state value-added tax on goods destined for export, was eliminated by Convention 01–79, published January 12, 1979.

Verification

In accordance with section 776(a) of the Act, we have verified data used in making our final determination. During this verfication, we followed normal procedures, including inspection of documents, discussions with company and government officials and inspection of manufacturer's records.

Administrative Procedures

The Department has afforded interested parties an opportunity to present oral views in accordance with its regulations (19 CFR 355.35). There was no request of a public hearing. In accordance with the Department's regulations (19 CFR 355.34(a)), written views concerning the preliminary determination have been received and considered. All comments received were addressed in the notice of suspension of this investigation (48 FR 8839).

Suspension of Liquidation

The suspension of liquidation of entries of frozen concentrated orange juice pursuant to the preliminary affirmative determination was terminated upon publication of the notice of suspension of the investigation.

ITC Notification

In accordance with Section 705(d) of the Act, we will notify the ITC of our determination. In addition, we are making available to the ITC all non-privileged and non-confidential information relating to this investigation. We will allow the ITC access to all privileged and confidential information in our files, provided the ITC confirms that it will not disclose such information, either publicly or under an administrative protective order, without the written consent of the Deputy Assistant Secretary for Import Administration. The ITC will determine within 45 days of the publication of this notice whether imports of frozen concentrated orange juice from Brazil are materially injuring, or are threatening to materially injure, a U.S. industry. If the ITC determines that material injury, or threat or material injury, does not exist, the agreement will have no force or effect and this investigation will be terminated. However, if the ITC determines that such injury does exist, the suspension agreement will remain in force, and we will not issue a countervailing duty order as long as the requirements of section 704(f)(3)(B) of the Act are met.

This determination is published in accordance with section 705(d) of the Act.

Lawrence J. Brady,

Assistant Secretary for Trade Administration.

May 24, 1983.

BILLING CODE 3510-25-M

Tool Steel From the Federal Republic of Germany: Final Determination of Sales at Less Than Fair Value

AGENCY: International Trade Administration, Commerce.

ACTION: Notice of Final Determination of Sales at Less Than Fair Value.

SUMMARY: We have determined that tool steel from the Federal Republic of Germany (FRG) is being sold in the United States at less than fair value. The United States International Trade Commission (ITC) will determine within 45 days of publication of this notice whether these imports are materially injuring, or are threatening to materially injure, a United States industry.

EFFECTIVE DATE: June 6, 1983.

FOR FURTHER INFORMATION CONTACT: Charles Wilson or David Layton, Office

of Investigations, Import Administration, United States Department of Commerce, 14th Street and Constitution Ave., NW., Washington, D.C. 20230, (202) 377–5288 or (202) 377–0160.

SUPPLEMENTARY INFORMATION:

Case History

On July 30, 1982, we received a petition filed by counsel on behalf of 9 U.S. specialty steel producers and on behalf of the United Steel Workers of America. In compliance with the filing requirements of § 353.36 of the Commerce Regulations (19 CFR 353.36), the petition alleged that imports from the FRG of tool steel are being, or are likely to be, sold in the United States at less than fair value within the meaning of section 731 of the Tariff Act of 1930, as amended (the Act), and that these imports are materially injuring, or are threatening to materially injure, a United States industry.

After reviewing the petition, we determined in contained sufficient grounds to initiate an antidumping investigation. We notified the ITC of our action and initiated the investigation on August 18, 1982 (47 FR 22132). On September 13, 1982, the ITC found that there is a reasonable indication that imports of tool steel are materially injuring, or are threatening to materially injure, a United States industry.

Questionnaires were presented to Edelstahlwerke Buderus AG (Buderus) on September 9, 1982, ARBED Saarstahl GmbH (Saarstahl) on September 10, 1982, and Thyssen Edelstahlwerke AG (Thyssen) on September 21, 1982.

Responses were received on November 1, 1982 from Buderus, on November 15, 1982 from Thyssen, and on December 20, 1982 from Saarstahl. The response from Saarstahl was not received in time to be considered for purposes of the preliminary determination. Our review of the Buderus response revealed numerous deficiencies and we requested additional information which was submitted on December 6, 1982. Thyssen furnished computer printouts on November 19, 1982, a partial narrative response on December 6, 1982, and additional information on December 23, 1982, which was not in time to be considered for purposes of the preliminarily determination.

Therefore, we based our preliminary determination of January 12, 1983 (48 FR 1334) on the best information available, which was contained in the petition, as regards Thyssen and Saarstahl. We preliminary determined that imports of tool steel from Buderus should be excluded from the preliminary determination because we found a 0.4 percent weighted-average margin, which is *de minimis*.

We requested and received a new computer tape which included production costs as well as clarifying and explanatory information since our preliminary determination. This additional information now causes us to include this company in our final affirmative determination.

On February 18, 1983, we published a notice extending the period for making our final determination by 60 days until May 27, 1983, at the request of exporters who accounted for a significant portion of exports of this merchandise in accordance with section 735(a)(2) of the Act (48 FR 7242).

On March 21 through March 31, 1983, we verified the response of Thyssen. On March 21–25, 1983, we verified the response of Buderus. On March 28–31, 1983, we verified the response of Saarstahl.

Our verification revealed further deficiencies in the responses of all three companies, and we requested additional information. We received the information requested from Thyssen on April 13, 1983, from Saarstahl on April 14, 1983, and from Buderus on April 12, 1983.

We verified Thyssen's exporter's sales price portion of the response on April 12–15, 1983, at Thyssen Specially Steel, Inc., in Chicago.

Our notice of preliminary determination provided interested parties an opportunity to submit views orally and in writing. We did not hold a public hearing, because none of the interested parties requested a hearing.

Scope of Investigation

The product covered by this investigation is tool steel as used in hand tools or for cutting, shaping, forming, and blanking of materials at either ordinary or elevated temperatures. Tool steel covers hot-finished tool steel and cold-finished tool steel, high speed tool steel, chipper knife steel, and band saw steel bars and rods. The merchandise is currently classified under item numbers 606.9300, 606.9400, 606.9505, 606.9510, 606.9520, 606.9525, 606.9535, 606.9540, 607.2800, 607.3405, 607.3420, 607.4600, 607.5405, and 607.5420 of the *Tariff Schedules of the United States Annotated*. Valve steel is not within the scope of this investigation.

Since Saarstahl, Thyssen and Buderus manufacture and export virtually all of the tool steel exported from the FRG to the United States, we limited our investigation to them.

This investigation covers the period from February 1 to August 1, 1982, for United States sales and from November 1, 1981 to August 1, 1982, for home market transactions. The longer period for home market transactions was used in order to include sales in the home market at the time of exportation of tool steel where exporter's sales price is the proper basis for United States price. As explained below, the investigative period for sales by Saarstahl was November 1, 1981 to March 1, 1982 since Saarstahl was unable to provide us with information for the investigative period.

Fair Value Comparison

To determine whether sales of the subject merchandise in the United States were made at less than fair value, we compared United States price with the foreign market value.

United States Price

As provided in section 772 of the Act, we used purchase price to represent United States price for sales by Buderus and Saarstahl because the merchandise was sold to unrelated purchasers prior to its importation into the United States. For Thyssen, we used exporter's sales price to represent United States price, because the merchandise was sold to unrelated purchasers after its importation into the United States.

We calculated the purchase price based on the f.o.b., c. & f., c.i.f., and c.i.f., duty paid, packed price to unrelated purchasers. Where appropriate, we made deductions for the costs of foreign inland freight, foreign inland insurance, ocean freight, marine insurance, United States duty, and customs brokerage.

Where we used exporter's sales price, we made additional deductions, where appropriate, for credit costs, warranty costs, cutting costs, and other selling expenses incurred in the United States.

Foreign Market Value

In accordance with section 773 of the Act, we calculated foreign market value based on home market sales, and where appropriate, constructed value. For purposes of determining similar merchandise under section 771(16) of the Act, we made comparisons based on categories selected by a Commerce Department industry expert.

The petitioner alleged that sales in the home market were at prices below the cost of producing tool steel. We examined production costs which included all appropriate costs for materials, fabrication and general expenses. Sales below the cost of production were found to be made for certain categories of tool steel examined. Where sales of any category of the merchandise under investigation

were made over an extended period of time and in substantial quantities, and were at prices which did not permit recovery of all costs within a reasonable period of time in the normal course of trade, the Department disregarded these sales in its analysis in accordance with section 773(b) of the Act. For certain categories, we found that sufficient sales of tool steel were made at or above the cost of production and, therefore, those sales were used in makng price-to-price comparisons with sales in the United States market. For certain other categories of tool steel, we found that sales which were made above the cost of production were inadequate as a basis for the determination of foreign market value and consequently, we used the constructed value of the merchandise for these categories of tool steel to determine their foreign market value.

The home market prices for all three manufacturers were based on delivered, packed prices to unrelated purchasers. From these prices we deducted, where appropriate, inland freight and inland insurance. We made adjustments, where appropriate, for credit costs, warranty costs, cutting costs, and the cost of materials, labor, and directly related factory overhead associated with differences in the merchandise. We also deducted home market packing cost and added the cost of United States packing.

Where we used exporter's sales price, we deducted indirect selling expenses to offset other United States selling expenses.

Where we used constructed value as a basis for foreign market value, we calculated it to include the cost of materials, fabrication, general expenses, profit and the cost of packing. The amount added for general expenses was the statutory minimum of 10 percent of the sum of material and fabrication costs when the statutory minimum was higher than the actual general expenses. When the actual general expenses were higher than the statutory minimum, these expenses were added. The amount added for profit was the statutory minimum of 8 percent of the sum of materials, fabrication costs, and general expenses because the actual profit was less than 8 percent.

Buderus: We did not allow as a circumstances of sale adjustment an expense for technical services, because Buderus did not demonstrate that this claim was directly related to the sales of the merchandise covered by these investigations as required by section 353.15 of the Commerce Regulations.

We also did not allow a claim for a commission, because this commission was paid to sales personnel of Buderus as part of that company's compensation plan.

Saarstahl: As previously mentioned, this investigation covers the period from February 1 to August 1, 1982 for United States sales and from November 1, 1981 to August 1, 1982, for home market transactions. Saarstahl did provide us with home market sales information for the period November 1, 1981 to August 1, 1982.

For United States sales, however, Saarstahl provided us only with information concerning its deliveries to the United States during the period of investigation. The dates of purchase for these deliveries occurred during the period February 1, 1981 to March 1, 1982. Consequently, we have contemporaneous sales data for only 4 months, November 1981 through February 1982. We have used this for our price comparisons for Saarstahl.

Thyssen: In accordance with section 353.15 of the Commerce Regulations, we allowed a claim for after-sale warehousing expenses, because Thyssen demonstrated that these expenses were incurred after the sale by specific contractual agreement.

For the same reason as stated for Buderus, we did not allow as a circumstance of sale adjustment, Thyssen's claim for an expense for technical services.

Verification

In accordance with section 776(a) of the Act, we verified all of the information used in making these determinations. We were granted access to the books and records of Thyssen, Saarstahl, Buderus and Thyssen Speciality Steel, Inc. We used standard verification procedures, including examination of accounting records, financial statements, and selected documents containing relevant information.

Result of Investigations

Except as noted for Saarstahl, we made fair value comparisons on all the reported tool steel sold in the United States by the three German companies. Margins were found on 40.94 percent of metric tons sold. The margins range from 1.55 percent to 218.34 percent. The overall weighted-average margin on these sales was 10.23 percent.

Final Determination

Based on our investigations and in accordance with section 735(a) of the Act, we have reached a final determination that tool steel from the FRG is being sold in the United States at less than fair value within the meaning of section 731 of the Act.

Continuation of Suspension of Liquidation

Liquidation will continue to be suspended on all entries of tool steel from the FRG from Saarstahl and Thyssen. For Buderus, liquidation will be suspended as of the date of this notice. The United States Customs Service will continue to require the posting of a cash deposit, bond, or other security in amounts of the following overall weighted-average margins for tool steel. The bond or cash deposit requirements established in our preliminary determination of January 12, 1983, are no longer in effect.

Manufacturer/producer/exporter	Weighted-average margins
Buderus	6.73
Saarstahl	16.41
Thyssen	7.04
All other manufacturers/producers/exporters	10.23

ITC Notification

We are notifying the ITC and making available to it all non-privileged and non-confidential information relating to this determination. We will allow the ITC access to all privileged and confidential information in our files, provided it confirms that it will not disclose such information, either publicly or under an administrative protective order, without the written consent of the Deputy Assistant Secretary for Import Administration. If the ITC determines that material injury or threat of material injury does not exist, this proceeding will be terminated and all securities posted as a result of the suspension of liquidation will be refunded or cancelled. If the ITC determines that such injury does exist, we will issue an antidumping order directing Customs officers to assess an antidumping duty on tool steel from the FRG entered, or withdrawn from warehouse, for consumption after the suspension of liquidation, equal to the amount by which the foreign market value exceeds the United States price. This determination is being published pursuant to section 735(d) of the Act (19 U.S.C. 1673(d)).

Lawrence J. Brady,

Assistant Secretary for Import Administration.

BILLING CODE 3510-25-M

Final Affirmative Countervailing Duty Determination; Tool Steel From Brazil

AGENCY: International Trade Administration, Commerce.

ACTION: Final affirmative countervailing duty determination.

SUMMARY: We have determined that certain benefits which constitute subsidies within the meaning of the countervailing duty law are being provided to manufacturers, producers, or exporters in Brazil of tool steel. The estimated net subsidy is 18.77 percent *ad valorem*. The U.S. International Trade Commission (ITC) will determine within 45 days of the publication of this notice whether these imports are materially injuring, or are threatening to materially injure, a U.S. industry.

The Department of Commerce (the Department) and the government of Brazil have entered into a suspension agreement. We continued the investigaton at the request of the petitioners in accordance with section 704(g) of the Tariff Act of 1930, as amended (the Act). If the final determination by the ITC is negative, the suspension agreement shall have no force or effect. If the final determination by the ITC is affirmative, the suspension agreement shall remain in force.

EFFECTIVE DATE: June 6, 1983.

FOR FURTHER INFORMATION CONTACT: Francis R. Crowe, Office of Investigations, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, D.C. 20230, telephone: (202) 377–0171.

SUPPLEMENTARY INFORMATION:

Final Determination

Based upon our investigation, we have determined that certain benefits which constitute subsidies within the meaning of section 701 of the Act are being provided to manufacturers, producers, or exporters in Brazil of tool steel. For purposes of this investigation, the following programs are found to confer subsidies:

- Industrialized Products Tax (IPI) export credit premium.
- Preferential working capital financing for exports.
- Income tax exemption for export earnings.
- Long-term loans.
- IPI rebates for capital investment.
- Industrial Development Council (CDI) program.
- Accelerated depreciation for capital goods manufactured in Brazil.

We have determined the estimated net subsidy on tool steel from Brazil to be 18.77 percent *ad Valorem*.

The Department and the government of Brazil have entered into a suspension agreement. If the final ITC determination is affirmative, the agreement will remain in force, and we will not issue a countervailing duty order as long as the requirements of section 704(f)(3)(B) of the Act are met.

Case History

On July 30, 1982, we received a petition from Al Tech Specialty Steel Corporation, Braeburn Alloy Steel Dicision, Continental Coppoer & Steel Industries, Inc., Carpenter Technology Corporation, Columbia Tool Steel Company, Crucible Specialty Metals Division, Colt Industries, Inc., Cyclops Corporation, Guterl Special Steel Corporation, Jessop Steel Company, Latrobe Steel Company, on behalf of the U.S. industry producing tool steel, and the United Steelworkers of America, AFL-CIO. The petition alleged that certain benefits which constitute subsidies within the meaning of section 701 of the ACt are being provided, directly or indirectly, to the manufacturers, producers, or exporters in Brazil of tool steel.

We found the petition to contain sufficient grounds upon which to initiate a countervailing duty investigation, and on August 18, 1982, we started an investigation (47 FR 36874). We stated that we expected to issue a preliminary determination by October 25, 1982. We subsequently determined that the investigation is "extraordinarily complicated," as defined in section 703(c) of the Act, and postponed our preliminary determination for 65 days until December 27, 1982 (47 FR 49436).

Since Brazil is a "country under the Agreement" within the meaning of section 701(b) of the Act, an injury determination is required for this investigation. Therefore, we notified the U.S. International Trade Commission (ITC) of our initiation. On September 13, 1982, the ITC determined that there is a reasonable indication that these imports are materially injuring, or are threatening to materially injure, a U.S. industry (47 FR 41881).

We presented a questionnaire concerning the allegations to the government of Brazil in Washington, D.C. on September 2, 1982. On November 15, 1982, we received the response to that questionnaire.

On December 27, 1982, we preliminarily determined that the government of Brazil was providing its manufacturers, producers, or exporters of tool steel with benefits that constitute subsidies. The programs preliminarily determined to bestow subsidies were:

- IPI export credit premium.
- Preferential working capital financing for exports.
- Income tax exemption for export earnings.
- Long-term loans.
- IPI rebates for capital investment.
- Industrial Development Council (CDI) program.
- Accelerated depreciation for capital goods manufactured in Brazil.

Notice of the preliminary affirmative countervailing duty determination was published on January 3, 1983 (48 FR 53). We directed the U.S. Customs Service to suspend liquidation of all entries of tool steel entered, or withdrawn from warehouse, for consumption on or after January 3, 1983, and to require the posting of a cash deposit, bond or other security in the amount of 17.766 percent of the f.o.b. value of the merchandise.

On February 10, 1983, the Department initialed a proposed agreement to suspend the countervailing duty investigation involving tool steel from Brazil. The basis for the proposed agreement was that the government of Brazil would offset by an export tax the entire amount of benefits we found to confer subsidies on tool steel exported to the United States.

In compliance with the procedural requirements of section 704(e) of the Act, we consulted with the petitioners concerning the proposed agreement and provided them a copy of it. We received comments on the proposed agreement and addressed them in the notice announcing the suspension of the investigation.

On March 14, 1983, the Department and the government of Brazil signed a suspension agreement, as provided for under section 704 of the Act. The agreement became effective with its publication in the **Federal Register** on March 21, 1983 (43 FR 11731). Under the agreement, the government of Brazil is required to offset completely by an export tax the amount of the net subsidy determined by the Department to exist on Brazilian exports of tool steel to the United States.

By letter of March 22, 1983, counsel for the petitioners requested that the investigation be continued under section 704(g) of the Act. Therefore, we are required to complete the investigation and issue a final determination.

Scope of Investigation

The product covered by this investigation is tool steel which includes hot-finished tool steel, cold-finished tool steel, high speed tool steel, chipper knife

tool steel and band saw steel bars and rods as currently provided for in items 606.9300, 606.9400, 606.9505, 606.9510, 606.9520, 606.9525, 606.9535, 606.9540, 607.2800, 607.3405, 607.3420, 607.4500, 607.5405, and 607.5420 of the *Tariff Schedules of the United States Annotated.*

There are four know producers and exporters in Brazil of tool steel to the United States. We have received information from the government regarding three of these companies, Acos Finos Piratini S/A (PIRATINI), and Acos Villares S/A (VILLARES), and Eletrometal Acos Finos S/A (ELETROMETAL) which represented approximately 93 percent of exports of this product to the United States during calendar year 1981.

The period for which we are measuring subsidization is that fiscal year for each company which most closely corresponds to calendar year 1981. That period is calendar year 1981 for PIRATINI, February 1, 1981 to January 31, 1982 for VILLARES and October 1, 1980 to September 30, 1981 for ELETROMETAL. We have referred to these periods as fiscal year 1981 in this notice. In its response, the government of Brazil provided data for the applicable periods.

Changes Since the Preliminary Determination

During verification we found additional benefits under the accelerated depreciation and long-term loan programs. These changes as well as others which have resulted from alterations in calculations necessitate modification of the export tax established pursuant to the suspension agreement. Such subsequent determinations are provided for under the terms of the agreement. By letter of March 29, 1983, we notified the government of Brazil that such changes may occur as the result of this determination. We will officially notify the government of Brazil of this determination so that they may adjust the export tax accordingly.

Analysis of Programs

I. Programs Determined To Be Subsidies

We have determined that subsidies are being provided to manufacturers, producers, or exporters in Brazil of tool steel under the programs described below.

A. *Industrialized Products Tax (IPI) Export Credit Premium.*

Under this program the bank involved in the export transaction reimburses in cash to the exporter a percentage of the "adjusted" f.o.b. invoice price of the exported merchandise. After having suspended this program in December 1979, the government of Brazil reinstated it on April 1, 1981. Since the IPI export credit premium program is designed to promote exports and is tied to export performance, we have determined that the program is an export subsidy and therefore is countervailable. The program has also been found to be countervailable in previous countervailing duty investigations involving Brazilian products.

Exporters of tool steel are eligible for the maximum IPI export credit premium which, up until March 30, 1982, was 15 percent of the "adjusted" f.o.b. invoice price of the exported merchandise.

Subsequently, the government of Brazil reduced the benefit to 14 percent on March 31, 1982, 12.5 percent on June 30, 1982, and 11 percent on September 30, 1982.

In calculating the amount the exporter is to receive, several deductions may be made to the invoice price to obtain the "adjusted" f.o.b. value. These adjustments include: any agent commissions, rebates or refunds resulting from quality deficiencies or damage during transit, contractual penalties, and the value of imported inputs. In order to receive the maximum export credit premium, the exported product must consist of a minimum of 75 percent value added in Brazil. If this minimum limit is not met, there is a specific calculation to reduce the f.o.b. invoice price when calculating the base upon which the IPI export credit premium is paid.

To determine the amount of the subsidy, we calculated the value to the IPI credits as of the date of shipment. We used this date, rather than the date of receipt, because the value of the IPI credit is calculated as to the date of shipment. To value it on the date of receipt also would lessen its value and thus constitute an offset impermissible under section 771(b). We divided the value to the IPI credits by the value of exports and calculated a subsidy of 13.70 percent.

This rate is premised on an IPI export credit premium of 15 percent during the period for which we are measuring subsidization.

The government of Brazil has made three reductions in the level of the IPI credit during 1982, the most recent on September 30, 1982 to 11 percent. When there is a fundamental change in the benefit from a program after the period of investigation, which is applicable to all recipients, we take cognizance of that change if we have been able to confirm that the change has occurred and if there is no reason to believe that there has been a shift of these benefits to other programs. We then announce the adjustment in the rate for the deposit of estimated countervailing duties in the next notice published in the normal course of the proceeding. Using 1981 information on the amount of benefit received, we have made a proportional reduction in the amount of estimated net subsidy from this program. On this basis, we calculated a current subsidy of 10.05 percent *ad valorem.*

B. *Preferential Working Capital Financing for Exports: Resolution 674.*

Under this program, companies are declared eligible to receive working capital loans by the Department of Foreign Commerce of the Banco Central do Brasil (CACEX). These loans may have duration of up to one year. Firms in the steel industry can obtain this financing at preferential rates for up to 20 percent of the net f.o.b. value of the previous year's exports. This maximum dollar eligibility under this program is established by CACEX and is stated on the "Certificado de Habilitacao" issued to recipients. Since this program is designed to promote exports and is tied to export performance, we have determined that such financing is an export subsidy and therefore is countervailable. This program has also been found to be countervailable in previous investigations involving Brazilian products.

The net export value is calculated by taking numerous deductions from the export value of the merchandise, including agent commissions, contractual penalties or refunds, export denominated in cruzeiros, imported inputs over 20 percent of the export value, and a deduction for the company's trade deficit as a percentage of the value of its exports. In addition, any growth in the cruzeiro value of exports over the previous year will reduce the value of the benefit as a percentage of the current year's exports.

To determine the value of loans in existance under this program during 1981, we prorated any loans that straddled other years. For loans taken out in 1980, only that portion extending into 1981 was included in our calculation. Any 1981 loans extending into 1982 were similarly adjusted.

As in previous Brazilian countervailing duty cases, we are using the rate established by the Banco do Brasil for discounting sales of accounts receivable as the commercial rate for the acquisition of short-term working capital. Although we are comparing the terms of a loan with the terms of sale of an asset, we have used this comparison because information provided by the

government of Brazil indicates that, within the Brazilian financial system, working capital is normally raised through the sale of accounts receivable. In the review period the rate for discounting sales of accounts receivable was a 59.6 percent plus a 6.9 percent tax on financial transactions (IOF). The subsidy is the difference between the interest rate available under Resolution 674 and the commercial rate.

The interest rate on loans under Resolution 674 is 40 percent, with interest payable semiannually and the principal fully payable on the due date of the loan. The effective rate of interest for these loans is 44 percent. These loans are also exempt from the IOF. Therefore, the differential between these two types of financing is 22.5 percent. Multiplying this differential by the amount of preferential financing received and dividing the result by the value of exports, we calculated a subsidy of 2.37 percent *ad valorem*.

On February 11, 1983, the government of Brazil notified the Department that the Banco do Brasil rate for discounting accounts receivable had increased from 59.6 percent to 72 percent effective January 3, 1983. In addition, effective January 11, 1983, the tax on financial transactions was reduced from 6.9 percent to 4.6 percent. These changes result in a subsidy rate differential of 32.6 percent rather than 22.5 percent as stated above. Consequently, since the rate established for purposes of the suspension agreement is prospective, we will use 32.6 percent as the applicable differential in determining the subsidy rate from this program for determination of the net subsidy rate which must be offset by an export tax under the terms of the agreement.

C. *Income Tax Exemption for Export Earnings.*

Exporters of tool steel are eligible to participate in this program, under which the percentage of their profit attributable to export revenue is exempt from income tax. To arrive at this percentage, export revenue is divided by total revenue. The amount of profit exempt from the income tax is then mutiplied by the 35-percent corporate income tax rate to determine the amount of the benefit. Since the program is designed to promote exports and is tied to export performance, we have determined that is is an export subsidy and therefore is countervailable. This program has also been found to be countervailable in previous investigations involving Brazilian products.

In a program of this kind, benefits cannot be determined with finality until the books are closed some time in the following year. Therefore, we must look at fiscal year 1980 income tax returns to determine if any benefit was received in fiscal year 1981. VILLARES and ELETROMETAL received benefits under this program in 1981. By dividing the benefit received by the value of exports of the companies under investigation, we calculated a subsidy of 0.84 percent *ad valorem*.

D. *Long-Term Loans.*

Long-term financing in cruzeiros is available in Brazil only through government-controlled financial institutions, such as the National Bank for Economic Development (BNDE) and FINAME, a program of BNDE for the purchase of capital equipment manufactured in Brazil. Generally, these loans are fully indexed to the inflation rate in Brazil and are made at fixed real interest rates. The index used for these loans is the ratio established for the Readjustable Bonds of the National Treasure (ORTN). FINAME loans are granted through commercial banks rather than directly from BNDE and carry higher real interest rates than BNDE loans.

VILLARES and ELETROMETAL received direct BNDE loans. As in previous steel countervailing investigations, we have determined that BNDE loans, when fully indexed, are not made at preferential rates. We compared the BNDE loan rates to a constructed benchmark based on the real interest rates of the only private long-term loans commercially available in Brazil—foreign currency loans. Such loans are granted at the London Interbank Offered Rate (LIBOR) plus a certain percentage or spread over LIBOR. Since LIBOR loans are continually readjusted at the prevailing interest rates, we constructed the benchmark by calculating the average real interest component of LIBOR-plus-spread on long-term loans to Brazil for the period 1977–81 during which these BNDE loans were made. We then compared that average real interest rate to the rates at which the long-term BNDE loans were made. Our comparison showed that all the fully-indexed BNDE loans were made at rates above the benchmark. Therefore, we have determined that such BNDE loans are not countervailable.

However, some long-term cruzeiro loans have been granted that are not fully indexed. Under a program instituted in 1975 and no longer in operation, BNDE granted such loans to VILLARES and ELETROMETAL that are adjusted at only 20 percent of the variation in ORTN. These loans were granted only to certain sectors of the economy, including the iron and steel industry, for implementing "priority projects." Because they were granted to a group of enterprises or industries we have determined that the program is countervailable. We have also found this program countervailable in previous cases involving Brazilian products.

Each company has an outstanding balance on their loans. We calculated the interest benefits for these loans as the difference between the amount actually paid in fiscal year 1981 and the amount which would have been paid had the loan been fully adjusted. Even though principal repayments have not yet begun for these loans, the principal balance is recalculated yearly subject to the 20 percent limit on monetary correction. Therefore, the companies benefited from an abatement in principal as well as a reduction in interest. We divided the sum of the interest and principal benefits by total sales of all companies under investigation and calculated a subsidy of 4.48 percent *ad valorem*.

FINAME loans have been received by ELETROMETAL, PIRATINI, and VILLARES and are available to a wide variety of sectors in Brazil. The steel industry has received such loans in proportions similar to other large capital-intensive industries in Brazil. This appears to be warranted by the capital requirements of such industries. In addition, numerous other sectors also received loans from FINAME during this period. Based on the general availability of these fully-indexed loans, we have determined that they do not confer a subsidy.

E. *IPI Rebates for Capital Investment.*

Decree Law 1547 (April 1977) provides funding for the expansion of the Brazilian steel industry through a rebate of the IPI, the Brazilian federal excise tax. Under this tax system, a company determines its liability for the tax at the end of each month. The net tax owed is calculated as the difference between the total IPI the company paid on purchases and the total IPI it collected on domestic sales. Normally, within five months after the end of each month, a company must pay the amount of the net tax owed directly to the Brazilian government. This net IPI tax is the basis for calculating the rebate for investment. A Brazilian steel company may deposit 95 percent of the net IPI tax in a special account with the Banco do Brasil. The amounts deposited are to be applied to steel expansion projects, and when rebated to the firms constitute tax-free capital reserves which must eventually be converted into subscribed capital. Benefits under this program are received only by the steel sector. Because they

are received by a specific industry, we have determined that the benefits are countervailable. We have also found this program countervailable in previous cases involving Brazilian products.

PIRATINI received benefits under this program from 1977 to 1981, while ELETROMETAL and VILLARES continue to receive them. With the enactment of Decree Law 1843 (December 1980), PIRATINI must now pay the IPI tax to the government which in turn rebates 95 percent to SIDERBRAS, the government holding company to which PIRATINI belongs, to increase its capital.

In this investigation, we considered the amount rebated each year as an untied grant received in that year. As such, we have allocated the grants over 15 years. Under our grant methodology, we determine the present value of grants in order to calculate the current value of the benefit to the grant recipient. The calculation of the present value of funds received is a mechanism for allocating money received in one year to other years and is calculated using a discount rate. For this determination, we determine that the most appropriate discount rate is the "risk-free" rate as indicated by the secondary market rate for long-term government debt in the country under investigation. The foundation of a country's interest rate structure is usually its government's debt interest rate (the risk-free rate). In this methodology, we have allocated a grant over the useful life of equipment purchased with it when the value of that grant was large (greater than $50 million) and specifically tied to pieces of capital equipment. Where the grant was small (generally less than one percent of the company's gross revenues and tied to items generally expensed in the year purchased, such as wages or purchases of materials), we have allocated the subsidy solely to the year of the grant receipt. We construe that a grant is "tied" when the intended use is known to the subsidy giver and so acknowledged prior to or concurrent with the bestowal of the subsidy. All other grants, such as in this case, are allocated over 15 years, a period of time reflecting the average life of capital assets in integrated steel mills. The 15-year figure is based on Internal Revenue Service studies of actual experience in integrated mills in the U.S.

To calculate the benefit, we have taken the amount rebated in each month, converted the cruzeiro value to an ORTN value by using the ORTN index rate in that month, added the monthly ORTN amounts to determine the amount of the grant in each year, and used as the discount rate for each year the interest rate of 4% on ORTN-indexed long-term government debt. The total benefit in ORTN for 1981 was converted into cruzeiros using the average ORTN index rate for the year and then divided by the total value of sales for the 1981 fiscal year of all the companies. The benefit of this subsidy is 0.84 percent *ad valorem*.

F. *Industrial Development Council (CDI) Program.*

This program allowed an exemption of 80 percent of the customs duties and 80 percent of the IPI tax on certain imported machinery for certain industrial projects approved by the CDI. Because benefits under the program are limited to "approved" development projects we have determined that they were granted to a group of enterprises or industries and are countervailable. We have also found the CDI program countervailable in previous countervailing duty investigations involving Brazilian products.

Decree Law 1726 repealed this program in 1979 and no new projects are eligible for these benefits. However, companies with projects approved prior to repeal may still receive these benefits pending the completion of the project. The government of Brazil states than ELETROMETAL received such benefits during 1981. By dividing the benefit received by the total value of sales of the companies under investigation, we calculated a subsidy of 0.02 percent *as valorem*.

G. *Accelerated depreciation for capital goods manufactured in Brazil.*

This program allows companies that purchase Brazilian-made capital equipment as part of an approved CDI expansion project to depreciate this equipment at twice the rate normally permitted under tax laws. This program is authorized by the same legislation as the previous CDI program, is likewise countervailable and has been found to be countervailable in previous countervailing duty investigations involving Brazilian products.

ELETROMETAL and VILLARES used the accelerated depreciation provisions of this program. The benefit of such a program is reduced taxable income and a subsequent reduction in tax liabilities. In a program of this kind, benefits cannot be determined with finality until the books are closed sometimes in the following year. Therefore, we must look at fiscal year 1980 income tax returns to determine if any benefit was received in fiscal year 1981. VILLARES claimed that they could have depreciated at a higher "normal" rate than that acutally used to compute its tax liability for the 1980 fiscal year thus offsetting any subsidy that they might receive under this program. However, we used the actual amount of accelerated depreciation used by VILLARES in excess of the normal depreciation that was used by VILLARES in that year.

To calculate the benefit to ELETROMETAL and VILLARES, we determined the amount by which depreciation under this program exceeded normal depreciation, multiplied that amount by 35 percent, the corporate tax rate in Brazil, and then divided the result by the total value of sales for the 1981 fiscal year of the companies under investigation. The benefit of this subsidy is 0.17 percent *ad valorem*.

II. Program Determined Not To Be Subsidies

We have determined subsidies are not being provided to manufacturers, producers, or exporters in Brazil of tool steel under the following program.

Transportation Subsidies From Preferential Port Rates

The Brazilian government, in its response to our questionnaire, stated that none of the exporters of tool steel receive preferential port rates. At verification we examined shipping documents for Brazilian and non-Brazilian carriers, compared the freight rates and port charges to published schedules and found that the rates paid by steel exporters were not preferential and therefore not countervailable.

III. Programs Determined Not To Be Used

We have determined that the following programs were not used by the manufacturers, producers, or exporters in Brazil of tool steel.

A. *The Commission for the Granting of Fiscal Benefits for Special Export Programs (BEFIEX).*

BEFIEX grants several types of benefits to companies that are part of certain targeted industries and that sign contracts that include specific export commitments. These benefits include the following: a reduction of between 70 percent and 90 percent of the import duties and the IPI tax on the import of machinery, equipment, apparatus, instruments, accessories and tools necessary to meet the approved export commitment; an extension of the period for carrying tax losses forward from four to six years, provided no dividends are paid during that time; and amortization of pre-operational expenses of BEFIEX projects at the discretion of the company rather than the normal

straight-line amortization over ten years. As a general rule, companies that sign BEFIEX contracts guaranteeing these and any other benefits must make an export commitment that over the life of the project it will generate export earnings of at least three times the value of imports for the project. The government of Brazil states that since manufacturers of tool steel export only a small portion of their production, they are not in a position to make the required export commitments. We found that none of the companies under investigation received benefits from this program with respect to tool steel.

B. *Export Financing Under Resolution 68.*

This program provides financing for the export of Brazilian goods for a minimum period of 181 days. Such financing is granted on a transaction-by-transaction basis and may cover up to 85 percent of the f.o.b. invoice price for the merchandise (plus freight and insurance). To be eligible, the exporter must show that the foreign purchaser has prepaid 15 percent of the invoice price. We found that none of the exporters of tool steel used Resolution 68 to finance exports of this merchandise to the United States in 1981.

C. *Transportation subsidies from preferential rail rates.*

We found that exporters of certain stainless steel products almost exclusively utilize trucks to ship their products to the ports of exportation because of the low-tonnages of these shipments.

Verification

In accordance with section 776(a) of the Act, we verified data used in making our final determination. During this verification, we followed normal procedues, including inspection of documents, discussions with company and government officials and inspection of manufacturers' records.

Administrative Procedures

The Department has afforded interested parties an opportunity to present oral views in accordance with its regulations (19 CFR 355.35). There was no request for public hearing and no written views were received. We received comments on the proposed suspension agreement and addressed those comments in the notice announcing the suspension of the investigation (48 FR 11731).

Suspension of Liquidation

The suspension of liquidation of entries of certain stainless steel products pursuant to the preliminary affirmative determination was terminated upon publication of the notice of suspension of the investigation.

ITC Notification

In accordance with section 705(d) of the Act, we will notify the ITC of our detemination. In addition, we are making available to the ITC all nonprivileged and nonconfidential information relating to this investigation. We will allow the ITC access to all privileged and confidential information in our files, provided the ITC confirms that it will not disclose such information, either publicly or under an adminstrative protective order, without the written consent of the Deputy Assistant Secretary for Import Administration. The ITC will make its determination within 45 days of the publication of this notice whether imports of tool steel from Brazil are materially injuring or are threatening to materially injure, a U.S. industry. If the ITC determines that material injury, or threat of material injury, does not exist, the suspension agreement will have no force or effect and this investigation will be terminated. If, however, the ITC determines that such injury does exist, the suspension agreement shall remain in force, and we will not issue a countervailing duty order as long as the requirements of section 704(f)(3)(B) of the act are met.

This determination is published in accordance with section 705(d) of the Act.

Lawrence J. Brady,

Assistant Secretary for Trade Administration.

May 27, 1983.

BILLING CODE 3510-25-M

Industrial Nitrocellulose From France; Amendment to Notice of Final Affirmative Countervailing Duty Determination

AGENCY: International Trade Administration, Commerce.

ACTION: Notice of Amendment to Notice of Final Affirmative Countervailing Duty Determination.

SUMMARY: On March 14, 1983, the Department of Commerce signed the final affirmative countervailing duty determination on industrial nitrocellulose from France.

Due to an error involving the total value of sales for Societe Nationale des Poudres et Explosifs (SNPE), the notice incorrectly stated that the net subsidies from grants from the Ministry of Defense, cross subsidization through military sales, assumption of labor costs, and regional development incentives were, respectively, 0.345 percent *ad valorem*, 2.710 percent *ad valorem*, 0.141 percent *ad valorem*, and 0.052 percent *ad volorem* for the product under investigation. The correct figures are, respectively, 0.384 percent *ad valorem* 3.006 percent *od volorem*, 0.157 percent *ad valorem*, and 0.057 percent *ad valorem*.

The total sales value reported by SNPE and used in our calculations was based on the value of industrial nitrocellulose packed in isopropyl alcohol. Since the value of the industrial nitrocellulose represents only 90 percent of the total sales value of the packed product, the total sales value of industrial nitrocellulose was overstated by an amount equal to the value of the isopropyl alcohol. Accordingly, we have recalulated the subsidy rate using only the sales value of industrial nitrocellulose.

Therefore, the estimated net subsidy rate in the "Suspension of Liquidation" section should now be 3.604 percent *ad valorem*.

EFFECTIVE DATE: June 6, 1983.

Computer Peripherals, Components and Related Test Equipment Technical Advisory Committee; Partially Closed Meeting

A meeting of the Computer Peripherals, Components, and Related Test Equipment Technical Advisory Committee will be held June 23, 1983, at 9:30 a.m., Herbert C. Hoover Building, Room B814, 14th Street and Constitution Avenue, NW., Washington, D.C. The Committee advises the Office of Export Administration with respect to technical questions which affect the level of export controls applicable to computer peripherals, components and related test equipment or technology.

General Session

1. Opening remarks by the Chairman.
2. Presentation of papers or comments by the public.
3. A review of subcommittee activities:

a. Memory and Media,
b. Foreign Availability,
c. Display and Terminals, and
d. Export Regulations.

4. Review of the Committee charter and organization.
5. New business.

Executive Session

6. Discussion of matters properly classified under Exescutive Order 12356, dealing with the U.S. and COCOM control program and strategic criteria related thereto.

The general session will be open to the public with a limited number of seats available. A Notice of Determination to close meetings or portions of meetings of the Committee to the public on the basis of 5 U.S.C. 552b(c)(1) was approved on September 29, 1981, in accordance with the Federal Advisory Committee Act. A copy of the Notice is available for public inspection and copying in the Central Reference and Records Inspection Facility, Room 6628, U.S. Department of Commerce, (202) 377–4217.

For further information or copies of the minutes contact Margaret Cornejo (202) 377–2583.

Dated: May 31, 1983.

Milton Baltas,

Director of Technical Programs Office of Export Administration.

BILLING CODE 3510–25–M

Float Glass From Italy; Final Results of Administrative Review and Revocation of Countervailing Duty Order

AGENCY: International Trade Administration, Commerce.

ACTION: Notice of Final Results of Administrative Review and Revocation of Countervailing Duty Order.

SUMMARY: On December 15, 1982, the Department of Commerce published in the **Federal Register** preliminary results of its administrative review of the countervailing duty order on float glass from Italy. The review covered the period January 1, 1980 through December 31, 1980. The notice stated that the Department had preliminarily determined the net subsidy to be 0.88 percent *ad valorem* for Fabbrica Pisana S.p.A., and 3.77 percent *ad valorem* for Societa Italiana Vetro S.p.A.

Interested parties were invited to comment on the preliminary results. At the request of the petitioner, the Department held a hearing on February 18, 1983. After review of all comments received, the Department has determined the amount of the net subsidy during 1980 to be 0.88 percent *ad valorem* for Fabbrica Pisana S.p.A., and 3.61 percent *ad valorem* for Societa Italiana Vetro S.p.A.

As a result of a request by the Delegation of the Commission of the European Communities, the International Trade Commission conducted an investigation and determined that revocation of the countervailing duty order would not cause injury to an industry in the United States. The Department consequently is revoking the order. All entries of this merchandise made on or after April 3, 1980, shall be liquidated without regard to countervailing duties.

EFFECTIVE DATE: June 6, 1983

FOR FURTHER INFORMATION CONTACT: Charles Anderson or Larry Hampel, Office of Compliance, International Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230; telephone: (202) 377–2786.

SUPPLEMENTARY INFORMATION:

Background

On January 1, 1976, the Department of the Treasury published in the **Federal Register** (41 FR 1274) a countervailing duty order on float glass from Italy.

On April 3, 1980, the International Trade Commission ("the ITC") notified the Department of Commerce ("the Department") that the Delegation of the Commission of the European Communities ("the EC") had requested an injury determination for this order under section 104(b) of the Trade Agreements Act of 1979 ("the TAA"). It was not necessary for the Department, upon notification by the ITC, to suspend liquidation of entries of the merchandise pursuant to that section of the TAA, since previous suspensions remained in effect. For a discussion of the procedural background of this order, see the final results of the last administrative review (47 FR 5026).

On December 15, 1982, the Department published in the **Federal Register** (47 FR 56160) the preliminary results of its administrative review of the order. The Department has now completed that administrative review.

On February 15, 1983, the ITC published its determination that an industry in the United States would not be materially injured, or threatened with material injury, by reason of imports of Italian float glass if the order were revoked (48 FR 6794).

Scope of the Review

The merchandise covered by the review is flat glass manufactured by the float process. Such glass may be either tinted or clear and is produced in a wide variety of sizes ranging from 0.125" to 1" in thickness. Such glass is currently classifiable under items 543.2100 through 543.6900 of the Tariff Schedules of the United States Annotated. Entries of float glass which has been substantially further manufactured or modified (e.g., into tempered glass or laminated glass) are not subject to this countervailing duty order.

The review covers the period January 1, 1980 through December 31, 1980, and includes the five programs determined to be countervailable in the final results of the last administrative review, plus three other programs, all with regard to the two companies currently covered by the order, Fabbrica Pisana S.p.A. ("Pisana") and Societa Italiana Vetro S.p.A. ("SIV"). Of the eight programs, we found the following four to be countervailable: (1) exemption from local corporate income taxes, (2) reductions in social security and health benefits payments, (3) capital grants, and (4) preferential long-term financing.

Analysis of Comments Received

Interested parties were invited to comment on our preliminary results. At the request of the petitioner, PPG Industries, Inc. ("PPG"), the Department held a public hearing on February 18, 1983. We also received written comments from two Italian float glass manufacturers.

Comment 1: PPG argues that the effective date of revocation is not April 3, 1980, but November 10, 1980, the date on which the ITC notified the Department for a second time of a section 104(b) request for this order. PPG contends that the earlier notification date is inoperative because the case was then under judicial review.

Department's Position: The Department and the ITC consider the date of the first notification to be the effective date for revocation because: (1) the *order* on float glass from Italy was in effect at that time; and (2) the initial request by the EC conformed to all of the criteria stipulated in section 104(b) of the TAA.

Comment 2: PPG contends that the Department erred in calculating the benefit attributable to the exemption from local corporate income taxes by considering the benefit in the year of review, 1980, to be the savings from the tax year 1979. PPG maintains that a benefit is not bestowed when the final extent of the benefit becomes known; rather, it is bestowed when the (preferential) cost of the program is knowable and accountable. Standard business practice calls for firms to

accure their income tax liabilities as the tax year progresses.

Department's Position: Whether the exemption is partial or complete, the exact benefit for a particular tax year cannot be known until the firm's books have closed, because it is only then that the firm can determine with finality its taxable income. The Department therefore maintains that it must allocate income tax benefits to the year in which the total income is knowable.

To accept argument that benefits should be considered conferred when a firm is able to adjust its cash flow or business efforts with regard to estimated tax liabilities would saddle the Department with the prohibitive burden of determining exactly when each company under review may or should be able to account for potential benefits, and determining when subsequent reconciliations are possible. We doubt the wisdom of attempting such a subjective approach.

Comment 3: PPG objects to the use of a "risk free" rate as the discount rate used to calculate and allocate over time the present value of grant benefits. PPG argues that the time value of money to the grant recipient is equal to the benefit from a loan at zero percent interest with no required repayment of principal. To be consistent with its treatment of loans, the Department must take into account the creditworthiness of the firm and accordingly use as a discount rate a rate which includes an imputed risk element. The proper discount rate would be the interest rate commercially available to that firm for a comparable loan.

Department's Position: The basic function of the "present value" exercise is to allocate money received in one year to other years. Domestic interest rates perform this function within the context of an economy. The foundation of a country's interest rate structure is usually its government debt interest rate ("the risk-free rate"). All other borrowings incorporate this risk-free rate and add interest overlays reflecting the riskiness of the funded investment.

When we allocate a subsidy over a number of years it is not the intention of the Department to comment on nor judge the riskiness of the project undertaken with the subsidized funds nor to evaluate the riskiness of the company as a whole. Nor do we intend to speculate how a project would have been financed absent government involvement in the provision of funds. Rather, we simply need a financial mechanism to move money through time so as to accurately reflect the benefit the company receives. We believe that the best discount rate for our purposes is one which is risk free and applicable to all commercial actors in the country.

Comment 4: SIV argues that we should use documents it submitted after the verification but prior to the publication of our preliminary results to calculate its benefit attributable to reductions in social security and health benefits payments.

Department's Position: We agree. Because we solicited this information at verification and received it in a timely fashion after verification, we have used it in our final calculations. Adjusting our calculations for this information, we determine that the benefit in 1980 to SIV from this program is 2.48 percent *ad valorem.*

We have also recalculated SIV's benefit from long-term preferential loans, using supplemental information on two additional preferential loans discovered during verification. This has raised the *ad valorem* benefit attributable to this program from 0.62 percent, to 0.64 percent.

As a result of these recalculations, we have determined that the aggregate net subsidy in 1980 on float glass produced by SIV is 3.61 percent *as valorem.*

Comment 5: Pisana and SIV maintain that the Department may countervail only the face value of grant, and nothing more.

Department's Position: We are charged with determining the magnitude of the benefit bestowed upon the recipient. In the case of grants, the benefit over time is best measured by calculating the amounts allocated to future years in a way that recognizes the time value of money. As long as the present value (in the year of grant receipt) of the amounts allocated over time does not exceed the face value of grant, we are consistent with domestic law and our international obligations; the amount countervailed will not exceed the total net subsidy.

Comment 6: Pisana argues that the Department should assess separate rates for Pisana's two plants, only one of which is located in the Mezzogiorno and receives countervailable regional benefits.

Department's Position: The Department considers a benefit bestowed on the production of the merhandise at one plant to be a benefit bestowed on the production of all of that merchandise produced by the recipient.

Final Results of the Review

After review of all comments received, we determine that the aggregate net subsidy conferred on this merchandise during 1980 is 0.88 percent *ad valorem* for Pisana and 3.61 percent *ad valorem* for SIV.

Accordingly, the Department will instruct the Customs Service to assess countervailing duties of 0.88 percent of the f.o.b. invoice price on all shipments by SIV, of Italian float glass exported on or after January 1, 1980 and entered, or withdrawn from warehouse, for consumption on or before April 2, 1980.

Further, as a result of the ITC's recent finding of an injury, the Department is revoking the countervailing duty order concerning float glass from Italy, effective April 3, 1980, the date the Department received notification of the request for an injury determination. The Department will instruct the Customs Service to proceed with liquidation of all entries of this merchandise entered, or withdrawn from warehouse, for consumption on or after April 3, 1980, without regard to countervailing duties and to refund any estimated coutervafling duties collected with respect to such entries.

This administrative review, revocation, and notice are in accordance with section 751(a)(1) of the Tariff Act of 1930 (19 U.S.C 1675(a)(1)), section 104(b)(4)(B) of the TAA (19 U.S.C. 1671 note), and § 355.41 of the Commerce Regulations (19 CFR 355.41).

Dated: May 27, 1983.

Gary N. Horlick,

Deputy Assistant Secretary for Import Administration.

BILLING CODE 3510-25-M

Office of the Secretary

Agency Forms Under Review by the Office of Mangement and Budget (OMB)

DOC has submitted to OMB for clearance the following proposals for the collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C Chapter 35).

Agency: Bureau of the Census.

Title: AHS—Census Match Reconciliation Record.

Form Numbers: Agency—ACM-3; OMB—N/A.

Type of Request: New collection.

Burden: 200 respondents; 50 reporting hours.

Needs and Uses: This reconciliation questionnaire (to be administered during August–September 1983) will be used to assess and resolve differences in household reporting between the decennial census and the Annual Housing Survey for five basic housing characteristics.

Affected Public: Individuals or households.

Frequency: One-time.

Respondents's Obligation: Voluntary.

OMB Desk Officer: Timothy Sprehe, 395–4814.

Agency: Bureau of the Census.

Title: Content Evaluation of 1982 Economic Censuses—Petroleum Distributors.

Form Numbers: Agency—EE–0001 and EE–0002; OMB—N/A.

Type of Request: New collection.

Burden: 875 respondents; 1,094 reporting hours.

Needs and Uses: This survey of business establishments in SIC's 5171 and 5172 will collect information needed by the Census Bureau to evaluate the content of 1982 Economic Censuses data on total sales, sales by commodity line, and operating expenses. Results will be used to improve procedures for the 1987 Economic Censuses.

Affected Public: Businesses or other for profit institutions; small businesses or organizations.

Frequency: Non-recurring.

Respondent's Obligation: Voluntary.

OMB Desk Officer: Tim Sprehe, 396–4814.

Agency: Bureau of Economic Analysis.

Title: Survey of Foreign Direct Investment in U.S. Business Enterprises Engaged in the Processing, Packaging or Wholesale Distribution of Fish or Seafoods.

Form Numbers: Agency—BE 21A and B; OMB—NA.

Type Of Request: New collection.

Burden: 50 respondents; 4,100 reporting hours.

Needs and Uses: Secures data on foreign direct investment in U.S. fish and seafood processing firms in which a foreign person has an ownership interest of 10 percent or more. Required for analysis of the effect of foreign ownership of U.S. fishery resources..

Affected Public: Business or other for-profit institutions; small businesses or organizations.

Frequency: One-time.

Respondent's Obligation: Mandatory.

OMB Desk Officer: Tim Sprehe, 395–4814.

Copies of the above information collection proposal can be obtained by calling or writing DOC Clearance Officer, Edward Michals, (202) 377–4217, Department of Commerce, Room 6622, 14th and Constitution Avenue, N.W., Washington, D.C. 20230.

Written comments and recommendations for the proposed information collections should be sent to Tim Sprehe, OMB Desk Officer, Room 3235, New Executive Office Building, Washington, D.C. 20503.

Edward Michals,

Departmental Clearance Officer.

BILLING CODE 3510–GW–M

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Establishing a New Export Visa Requirement and Exempt Certification for Certain Cotton Textile and Apparel Products Produced or Manufactured in Pakistan

May 27, 1983.

AGENCY: Committee for the Implementation of Textile Agreements.

ACTION: Establishing a new visa requirement and exempt certification for certain cotton textile and apparel products, produced or manufactured in Pakistan, pursuant to the Bilateral Cotton Textile Agreement of March 9 and 11, 1982, between the Governments of the United States and Pakistan.

SUMMARY: The Governments of the United States and Pakistan have a new export visa requirement and exempt certification for cotton textile and apparel products in Categories 300–369, produced or manufactured in Pakistan. The new arrangement cancels and supersedes the existing visa and certification requirements. (See 37 FR 13365, 38 FR 14184, and 39 FR 2203.)

A description of the textile categories in terms of T.S.U.S.A. numbers was published in the **Federal Register** on December 13, 1982 (47 FR 55709), as amended on April 7, 1983 (48 FR 15175) and May 3, 1983 (48 FR 19924).

EFFECTIVE DATE: July 15, 1983 for cotton textile and apparel products in Categories 300.369, exported on and after that date. Merchandise exported before July 15, 1983, shall not be denied entry if accompanied by the previously authorized export visa stamp or exempt certification, provided all other requirements associated with the use of those stamps have been met.

FOR FURTHER INFORMATION CONTACT: Gordana Slijepcevic, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, Washington, D.C. 20230 (202/377–4212).

SUPPLEMENTARY INFORMATION: Cotton textile and apparel products in Categories 300–369, which are subject to the terms of the bilateral agreement and exported on and after July 15, 1983, shall be visaed with a circular stamp in order to be entered, or withdrawn from warehouse, for consumption in the United States. Shipments which are exempt from the quantitative limits of the bilateral agreement shall be certified for exemption by the Government of Pakistan prior to exportation. The basis for exemption shall be stated on the certification by use of a description, such as, "handloomed fabrics of the cottage industry" or "handmade cottage industry products of handloomed fabric," or shall include the name of a particular traditional folklore handicraft product which falls within the defination of "Pakistan Items" agreed to be exempt. All items must be cut, sewn, or otherwise fabricated by hand in the cottage industry of Pakistan in order to qualify for exemption. The list of these agreed items is published as an enclosure to the letter to the Commissioner of Customs following this notice. Invoices for certified exempt items shall not include any products that are not agreed to be exempt. Shipments of textile products that are certified for exemption do not require an export visa.

Merchandise imported for the personal use of the importer, and not for resale, does not require a visa or exempt certification for entry, regardless of value.

Shipments shall be visaed or certified for exemption by the placing of orginal stamped markings (the visa or certification) in blue ink on the front of the invoice (Special Customs Invoice Form 5515, successor document, or commercial invoice, when such form is used). Each visa and certification shall include the number, date, and signature of the authorized issuing official. The visa shall also state the correct category and quantity in the shipment in the applicable category units; however, if the quantity shown on the export visa is more than the actual quantity of the merchandise, entry shall be permitted, dispite the inaccuracy.

A facsimile of the new visa stamp is published as an enclosure to the letter to the Commissioner of Customs which follows this notice. The exempt certification stamp which is not being changed is also published.

The Government of Pakistan has authorized the following officials to issue export visas and exempt certifications:

M. Y. Bhutta
Mazar Hussain
Mirza Sadiq Husain
Shafiq Ahmad Bajwa

Interested persons are advised to take all necessary steps to ensure that cotton textile and apparel products, produced or manufactured in Pakistan which are

to be entered into the United States for consumption, or withdrawn from warehouse for consumption on and after July 15, 1983, will meet the stated visa and exempt certification requirements:

Walter C. Lenahan,

Chairman, Committee for the Implementation of Textile Agreements.

Commissioner of Customs,
Department of the Treasury, Washington, D.C.

Dear Mr. Commissioner: This letter cancels and supersedes the directive of June 29, 1972, as amended, from the Chairman of the Committee for the Implementation of Textile Agreements which established an export visa requirement for Cotton textile and apparel products, producted or manufactured in Pakistan.

Under the terms of Section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854), and the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, as extended on December 15, 1977 and December 22, 1981; pursuant to the Bilateral cotton Textile Agreement of March 9 and 11, 1982 between the Governments of the United States and Pakistan; and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended by Executive Order 11951 of January 6, 1977, you are directed to prohibit, effective on July 15, 1983 and until further notice, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textile and apparel products in Categories 300–369, produced or manufactured in Pakistan, and exported on and after July 15, 1983, for which the Government of Pakistan has not issued an appropriate export visa or certification for exemption. Cotton textile and apparel products which have been exported before July 1983, which are visaed or certified for exemption in accordance with previously established procedures shall not be denied entry.

Cotton textile and apparel products in Categories 300–369, exported on and after July 15, 1983, other than the exceptions specified in the following paragraph, shall be visaed with a circular stamp in order to be entered into the United States for consumption, or withdrawn from warehouse for consumption.

Certain cotton textile and apparel products exported on and after July 15, 1983, which are exempt from the levels of restraint of the bilateral agreement, shall be certified by the Government of Pakistan prior to exportation using a square-shaped stamp. The basis for exemption shall be stated on the certification by use of description, such as, "handloomed fabrics of the cottage industry" or "handmade cottage industry products of handloomed fabric," or shall include the name of a particular traditional folklore handicraft product which falls within the definition of "Pakistan Items" agreed to be exempt as indicted on the enclosed list. All items must be cut, sewn, or otherwise fabricated by hand in the cottage industry of Pakistan in order to qualify for exemption.

Merchandise shall be visaed or certified by the placing of original stamped markings (the visa or certification) in blue ink on the front of the invoice (Special Customs Invoice Form 5515, successor document, or commercial invoice, when such form is used). Each visa and exempt certification shall include the number, date and signature of the issuing official. The visa shall also state the correct category and quantity in the applicable category units, except, that, if the quantity indicated on the export visa is more than that of the merchandise, entry shall be permitted. The categories and quantities shall be those determined by the U.S. Customs Service. Facsimiles of the visa and exempt certification stamps are enclosed.

Merchandise imported for the personal use of the importer, and not for resale, does not require a visa or certification for entry, regardless of value.

Merchandise covered by an invoice which has an exempt certification but contains both exempt and non-exempt textile products shall not be permitted entry. Merchandise which is certified exempt does not require an export visa.

You are directed to permit entry into the United States for consumption and withdrawal from warehouse for consumption of designated shipments of textile products, produced or manufactured in Pakistan and exported to the United States, notwithstanding the designated merchandise does not fulfill the aforementioned visa and exempt certification requirements, whenever requested to do so in writing by the Chairman of the Committee for the Implementation of Textile Agreements.

A description of the textile categories in terms of T.S.U.S.A. numbers was published in the **Federal Register** on December 13, 1982 (47 FR 55709), as amended on April 7, 1983 (48 FR 15175) and May 3, 1983 (48 FR 19924).

In carrying out the above directions, the Commissioner of Customs should construe entry into the United States for consumption to include entry for consumption into the Commonwealth of Puerto Rico.

The action taken with respect to the Government of Pakistan and with respect to imports of cotton textile and apparel products from Pakistan has been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, these directions to the Commissioner of Customs, which are necessary for the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the **Federal Register.**

Sincerely,

Walter C. Lenahan,
Chairman, Committee for the Implementation of Textile Agreements.

Enclosures.

BILLING CODE 3510-25-C

List of Pakistan Items

1. Shisha Embroidered Dresses—A traditional mirror embroidery on plain, printed or striped material, worn by the people of Sind and Baluchistan. Short, medium, or long in length according to the areas from which they come.

2. Dastkari Kurta and/or Gharara—A Kurta is a type of halter blouse worn with the Gharara. A Gharara is a traditional form of the pajama worn by ladies of the Moghul courts. Each leg of the Gharara meaures about one yard across the bottom opening. Both made of cotton material with multi-colored embroidery and with drawstrings at the top and waist, in the tradition of the Moghul kings.

3. Multani Kurat—Crochet worked shorts or long tunic worn by the peasants in Panjab. Crocheted work located at the neck and front and has triangular inserts at the armpits.

4. Embroidered Kurta—Type of shirt or loose tunic worn throughout Pakistan over loose trousers. Is embroidered in different colors. Adapted from Angarkha by King Ahmad Shah Abdali. Worn short or long and has triangular inserts at the armpits.

5. Multani Choli—(If in part of set) Fitted blouse worn with either a Lungi (i.e., a scarf) or Sari in Punjab and Sind. Choli is embroidered in different colors or hand printed, tied either in front or back.

6. Rilli Kurta—Kurta of heavy fabric with patchworked decorations appliqued by hand, worn by the women of Sind.

7. Burga—Loose tunic or dress with hood attached worn by ladies when going out of the house. Worn as outer covering and often gaily embroidered or hand printed.

8. Quetta Jackets—Loose vest worn over Kurta by men and women. Made either of printed material or of embroidered material with mirrors on plain colors.

9. Ghagra—Ankle length, loose fitting skirt with drawstring around the waist or hooks worn with either a fitted or loose choli, with traditional colors embroidered or hand printed. Worn in the Tharparkar area of Sind.

10. Batwa—(Drawstring pouches, bags, purses and string bags). Accessories for all Pakistani dresses for carrying betel nuts and other personal things. Gaily printed or hand embroidered or with mirrors, or made with colored string.

11. Shindi Julaba—Very loose ankle length garment in handloom or hand-blocked material with a hood attached, with tie string a V opening in neck and side slits at lower part extending to lower hem. Worn with or without hood in the villages of Sind and can also be embroidered.

12. Izarban—Cotton belt in multi-colored continuous lengths of unwoven threads.

13. Baluchi Kameez—Embroidered top worn by the women of Baluchistan over Shalwar or Turkish trousers. Flared tunic with extra wide sleeves tapering to a buttoned cuff.

14. Cotton Embroidered Kaftan in the traditional embroidery of Multan, Makran, Derz Ghazi Khan and Nuchki. Long, loose fitting dresses with embroidery around top and botton with side slits of about 18 inches to the lower hem.

15. Cholistan Kurta—Colorful striped, heavy, unbleached fabric worn by the camel drivers of the Cholistan Desert with stand up collar band and sleeves made into the body of the garment.

16. Chilaf—Embroidered decorative tubular case open at both ends with drawstring enclosures.

17. Dupatta—(If in part of a set) Long scarf about 4 feet or more long and three feet or more wide of thin cotton fabric with colorful design worn by women to cover the head.

18. Cimmerband—Antique and embroidered wide belts worn about the waist, with heavy mirrored embroidery.

BILLING CODE 3510-25-M

Solicitation of Public Comment on Bilateral Textile Consultations With the Government of the Republic of Korea to Review Trade in Categories 315, 435, 448, 669-F and 644

June 1, 1983.

AGENCY: Committee for the Implementation of Textile Agreements.

ACTION: On May 11, 1983 the Government of the United States requested consultations with the Government of the Republic of Korea with respect to Categories 315, (Printcloth), 435 (Women's, girls', and infants' wool coats), 448 (Women's, girls' and infants' wool trousers) 669-F (fishnets), and 644 (Women's, girls', and infants' suits of man-made fibers). This request was made on the basis of the Agreement of December 14, 1982, between the Governments of the United States and the Republic of Korea relating to trade in cotton, wool, and man-made fiber textiles and textile products.

The purpose of this notice is to advise the public that if no solution is agreed upon in consultations between the two governments, the Committee for the Implementation of Textile Agreements may establish limits for the entry and withdrawl from warehouse for consumption of textile products in Categories 315, 435, 448, 669-F and 644, produced or manufactured in Korea and exported to the United States during the twelve-month period which began on January 1, 1983 and extends through December 31, 1983.

The Government of the United States reserves the right under the agreement to invoke import controls on these categories, as defined in the Bilateral Cotton, Wool, and Man-made Fiber Textile Agreement, with the Government of the Republic of Korea.

Any party wishing to comment or provide data on information regarding the treatment of Categories 315, 435, 448, 669-F, and 644 under the bilateral Cotton, Wool and Man-made Fiber Textile Agreement with the Government of the Republic of Korea, or on any other aspect thereof, or to comment on domestic production or availability of textile products included in these categories, is invited to submit such comments or information in ten copies to Walter C. Lenahan, Chairman, Committee for the Implementation of Textile Agreements, International Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230. Since the exact timing of the consultations is not yet certain, comments should be submitted promptly. Comments or information submitted in response to this notice will be available for public inspection in the Office of Textiles and Apparel, Room 3100, U.S. Department of Commerce, 14th and Constitution Avenue, N.W., Washington, D.C., and may be obtained upon written request.

Further comment may be invited regarding particular comments or information received from the public which the Committee for the Implementation of Textile Agreements considers appropriate for further consideration.

The solicitation of comments regarding any aspect of the agreement or the implementation thereof is not a waiver in any respect of the exemption contained in 5 U.S.C. 533(a)(1) relating to matters which constitute "a foreign affairs function of the United States."

Walter C. Lenahan,
Chairman, Committee for the Implementation of Textile Agreements.

BILLING CODE 3510-25-M

CONSUMER PRODUCT SAFETY COMMISSION

Notification of Request for Extension of Approval of Information Collection Requirements—Children's Sleepwear Standards

AGENCY: Consumer Product Safety Commission.

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1981 (44 U.S.C. 3501 *et seq.*), the Consumer Product Safety Commission has submitted to the Office of Management and Budget a request for extension of approval through June 30, 1986, of information collection requirements in the flammability standards for children's sleepware and enforcement rules, codified at 16 CFR Parts 1615 and 1616. These standards and enforcement rules are applicable to children's sleepware garments in sizes 0 through 14 and to fabrics used in the production of such garments. The standards and enforcement rules require manufactures and importers of children's sleepware garments and fabrics to perform pre-market testing from representatives samples to assure that children's sleepware items meet the performance requirements of the standards. The enforcement rules also require manufacturers and importers to compile and maintain records of such testing, and to make those records available to Commission investigators upon request.

Information About the Request for Extension of Approval of Information Collection Requirements

Agency Address: Consumer Product Safety Commission, 1111 18th Street, N.W., Washington, D.C. 20207.

Title of information collection: Standard for the Flammability of Children's Sleepware: Sizes 0 Through 6X (16 CFR Part 1615); and Standard for the Flammability of Children's Sleepware: Sizes 7 Through 14 (16 CFR Part 1616).

Type of request: Extension of approval.

Frequency of collection: Varies by number of styles of items produced or imported and number of items of each style manufactured or imported each year.

General description of respondents: Manufacturers and importers of children's sleepware garments and fabrics used for production of children's sleepware.

Estimated number of respondents: 200.

Estimated average number of hours per respondent: 437.5 per year.

Comments. Comments on this request for extension of approval of information collection requirements should be addressed to Gwen Pla, Desk Officer, Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, D.C. 20503; telephone: (202) 395–7313. Copies of the request for extension of approval of information collection requirements are available from Francine Shacter, Office of Budget, Planning, and Program Evaluation, Consumer Product Safety Commission, Washington, D.C. 20207; telephone: (301) 492–6529.

This is not a proposal to which 44 U.S.C. 3504(h) is applicable.

Dated: May 31, 1983

Sadye E. Dunn,

Secretary, Consumer Product Safety Commission.

BILLING CODE 6355–01–M

Notification of Request for Extension of Approval of Information Collection Requirements—Procedure for Export of Noncomplying Products

AGENCY: Consumer Product Safety Commission.

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1981 (44 U.S.C. 3501 *et seq.*), the Consumer Product Safety Commission has submitted to the Office of Management and Budget a request for extension of approval through June 30, 1986, of information collection requirements in regulations governing notification to the Commission of exportation from the United States of products which do not comply with standards or regulations issued under the Consumer Product Safety Act, the Federal Hazardous Substances Act, or the Flammable Fabrics Act. These regulations are codified at 16 CFR Part 1019, and implement statutory requirements for notification to the Commission prior to export of noncomplying products contained in 15 U.S.C. 2067(b), 1273(d), and 1202(c).

Information About the Request for Extension of Approval of Information Collection Requirements

Agency address: Consumer Product Safety Commission, 1111 18th Street, NW., Washington, D.C. 20207.

Title of information collection: Procedures for Export of Noncomplying Products (16 CFR Part 1019).

Type of request: Extension of approval.

Frequency of collection: Depends upon the number of shipments from the United States of products which do not comply with a standard or regulation issued under the Consumer Product Safety Act, the Federal Hazardous Substances Act, or the Flammable Fabrics Act.

General description of respondents: Exporters of noncomplying products which would be subject to standards or regulations issued under the Consumer Product Safety Act, the Federal Hazardous Substances Act, or the Flammable Fabrics Act if sold or distributed within the United States.

Estimated number of respondents: 20.

Estimated average number of hours per respondent: 6.5 per year.

Comments: Comments on this request for extension of approval of information collection requirements should be addressed to Gwen Pla, Desk Officer, Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, D.C. 20503; telephone: (202) 395–7313. Copies of the request for extension of information collection requirements are available from Francine Shacter, Office of Budget, Planning, and Program Evaluation, Consumer Product Safety Commission, Washington, D.C. 20207; telephone (301) 492–6529.

This is not a proposal to which 44 U.S.C. 3504(h) is applicable.

Dated: June 1, 1983.

Sadye E. Dunn,

Secretary, Consumer Product Safety Commission.

BILLING CODE 6355–01–M

DEPARTMENT OF DEFENSE

Corps of Engineers, Department of the Army

Alabama-Coosa Rivers, Alabama and Georgia; Intent To Prepare Environmental Impact Statement

AGENCY: Army Corps of Engineers, DoD.

ACTION: Notice of Intent to Prepare a Supplement to the FEIS on file.

SUMMARY: 1. *Proposed Action:* The proposed action is to prepare a Supplement to the FEIS on the Alabama-Coosa Rivers project to evaluate the environmental impact of proposed changes in the operation and maintenance practices on the existing navigation project on the Alabama River

from its mouth to Montgomery, Alabama.

2. *Alternatives:* The following basic alternatives will be evaluated:

a. No action—This alternative will be the "without" project conditions against which impacts will be measured.

b. Construction of additional training dikes.

c. Providing additional storage to augment low flows.

d. Changing dredging and disposal operations.

3. *Scoping Process:*

a. The scoping process, as outlined by the Council on Environmental Quality in the November 29, 1978 **Federal Register**, National Environmental Policy Act—Regulations, will be utilized to involve Federal, State, and local agencies and other interested persons. Identification of significant issues to be addressed in the EIS will be determined through the scoping process. The views and concerns of agencies and individuals will be obtained through personal, telephone, and mail contacts in lieu of a formal scoping meeting.

b. Coordination with the U.S. Fish and Wildlife Service, as required by the Fish and Wildlife Coordination Act and the Endangered Species Act, is being undertaken. Coordination required by other laws and regulations will also be conducted.

4. *SFEIS Preparation:* It is estimated that the Supplement to the FEIS will be available to the public in February 1984.

ADDRESS: Questions about the proposed action and SFEIS can be answered by: Mr. Henry Malec, PD–EE, U.S. Army Engineer District, Mobile, Post Office Box 2288, Mobile, Alabama 36628.

Dated: May 26, 1983.

Ronald A. Krizman,

LTC, Corps of Engineers, District Engineer.

[FR Doc. 83–14087 Filed 6–3–83; 8:45 am]

BILLING CODE 3710–CR–M

Intent To Prepare a Draft Supplement to the Final Environmental Impact Statement (DSFEIS) Entitled Black Warrior and Tombigbee Rivers, Alabama (Maintenance), To Cover Proposed Changes in the Maintenance Practices on the Existing Navigation Project

AGENCY: Army Corps of Engineers, DoD.

ACTION: Notice of Intent to prepare a DSFEIS.

SUMMARY: 1. *Description of Proposed Action:* The proposed action is to prepare a DSFEIS to evaluate the environmental impacts of proposed changes in maintenance practices on the existing navigation project on the Black Warrior and Tombigbee Rivers from the mouth of the Tombigbee River, about 45 miles north of Mobile, Alabama, to the vicinity of Birmingham, Alabama, a total waterway distance of approximately 463 miles.

2. *Alternatives to the Proposed Action:* The following basic alternatives will be evaluated:

a. No action—This alternative will be the "without" project maintenance changes against which impacts will be measured.

b. Additions or deletions to proposed training dike fields and/or revetments.

c. Additions or deletions to proposed disposal areas and/or dredging reaches.

3. *Description of the Scoping Process:*

a. The scoping process, as outlined by the Council on Environmental Quality in the November 29, 1978 **Federal Register**, National Environmental Policy Act—Regulations, will be utilized to involve Federal, State, and local agencies and other interested persons. Identification of significant issues to be addressed in the DSFEIS will be determined through the scoping process. The agencies and individuals views and concerns will be obtained through personal, telephone, and mail contacts in lieu of a formal scoping meeting. Public hearings will be held after the filing of the DSFEIS. Notices informing the public as to time and location of the meetings will be issued.

b. Coordination with the U.S. Fish and Wildlife Service, as required by the Fish and Wildlife Coordination Act and the Endangered Species Act, is being undertaken. Coordination required by other laws and regulations will also be conducted.

4. *DSFEIS Preparation:* It is estimated that the DSFEIS will be available to the public in February 1984.

ADDRESS: Questions about the proposed action and DSFEIS can be answered by: Dr. Diane I. Findley, PD–EE, U.S. Army Engineer District, Mobile, Post Office Box 2288, Mobile, Alabama 36628.

Dated: May 26, 1983.

Ronald A. Krizman,

LTC, Corps of Engineers, Acting District Engineer.

BILLING CODE 3710–CR–M

DEPARTMENT OF EDUCATION

Advisory Council on Dependents' Education; Partially Closed Meeting

AGENCY: Department of Education.

ACTION: Notice of partially closed meeting.

SUMMARY: This notice sets for the schedule and proposed agenda of a forthcoming meeting of the Advisory Council on Dependents' Education and of two committees concerning education programs and administration. This notice also describes the functions of the Council. Notice of these meetings is required under Section 10(a)(2) of the Federal Advisory Committee Act. This document is intended to notify the general public of their opportunity to attend.

DATE: The Advisory Council on Dependents' Education—June 20 and 22, 1983, from 9:00 a.m. to 5:15 p.m.; and two committees—June 21 and 23, 1983, from 9:00 a.m. to 1:00 p.m. and from 11:00 a.m. to 4:30 p.m., respectively.

ADDRESS: The Capitol Hill Hotel, 200 C Street, S.E., Washington, D.C. 20003.

FOR FURTHER INFORMATION CONTACT: Dr. William F. Keough, Administrator of Education for Overseas Dependents, 400 Maryland Avenue, S.W., Room 2083, Washington, D.C. 20202.

SUPPLEMENTARY INFORMATION: The Advisory Council on Dependents' Education is established under section 1411 of the Defense Dependents' Education Act of 1978, as amended (20 U.S.C. 929). The Council is established to:

"(1) Recommeded to the Director general policies for operation of the defense dependents' education system with respect to curriculum selection, administration, and operation of the system,

"(2) Make recommendations to the Director and to the Secretary of Education on the orderly transfer of the functions under the Dependents' Education Act of 1978 to the Secretary and Department of Education, and

"(3) Provide information to the Director from other Federal agencies concerned with primary and secondary education with respect to education programs and practices which such agencies have found to be effective and which should be considered for inclusion in the defense dependents' education system.

"(4) Advise the Director on the design of the study and the selection of the contractor referred to in section 1412(a)(2) of the title, and

"(5) Perform such other tasks as may be required by the Secretary of Education."

The meeting of the Council is open to the public except as indicated below. The proposed agenda for the full meeting of the Council on June 20 and 22 includes: A report by the Administrator on Council matters, a progress report by the Director, a report by the Director on the current status of previously

expressed concerns of the Council, briefings by staff of the Department of Defense Dependents Schools (DoDDS) on screening of the handicapped and the gifted and talented program, presentation and discussion of parts of the comprehensive study of DoDDS, and the reports of the Education Program and Administration Committees.

The proposed agenda for the Education Program Committee for June 21 includes specialists at small schools, graduation credit requirements, substance abuse, and parts of the comprehensive study of DoDDS. Its agenda for June 23 will consist of business remaining from the meeting on June 21 and new business put before it by the full Council on June 20 and 22.

The proposed agenda for the Administration Committee for June 21 includes review of the draft booklet about the Council, review of the report format and training handbook for local school advisory committees, consideration of the regions' responses on intermediate councils, clarification and revision of DOD Instruction 5105.49, a report on local school advisory committees in Germany, communication with local school advisory committees by the Council, appeals from local school advisory committees, and parts of the comprehensive study of DoDDS. The Committee's agenda for June 23 will consist of business remaining from the meeting on June 21 and new business put before it by the full Council on June 20 and 22.

The June 22 Council meeting will be closed to the public from 11:00 a.m. to 12:00 m. to permit Council members to receive answers to detailed, in-depth questions of the Director of DoDDS concerning personnel and other aspects of DoDDS internal management practices in connection with the report and recommendations of the comprehensive study on these matters. The meeting will be closed under the authority of Section 10(d) of the Federal Advisory Committee Act (Pub. L. 92–463; 5 U.S.C. Appendix I) and under subsection (2) of Section (c) of the Government in the Sunshine Act (Pub. L. 94–409; 5 U.S.C. 552b). The discussions will concern internal personnel rules and practices of DoDDS, which are protected from consideration in open session.

A summary of the activities at the closed session and related matters which are informative to the public consistent with the policy of Title 5, U.S.C. 552b will be available to the public within fourteen days of the meeting.

Records are kept of all Council proceedings, and are available for inspection at the Office of the Advisory Council on Dependents' Education, Room 2083, 400 Maryland Avenue, S.W., Washington, D.C. from the hours of 9:00 a.m. to 5:30 p.m.

Dated: May 31, 1982.

Gary L. Jones,

Under Secretary.

Helen R. Wiprud,

Special Assistant to the Administrator of Overseas Dependents.

DEPARTMENT OF ENERGY

Economic Regulatory Administration

[ERA Docket No. 83–CERT–073]

VA Medical Center; Notice of Application for Certification of the Use of Natural Gas To Displace Fuel Oil

The V.A. Medical Center (VAMC), 3200 Vine Street, Cincinnati, Ohio 45220, filed an application on May 9, 1983, with the Economic Regulatory Administration (ERA), and amended it on May 10 and May 20, 1983, for certification of an eligible use of natural gas to displace fuel oil at its hospital facility in Cincinnati, Ohio, pursuant to 10 CFR Part 595 (44 FR 47920, August 16, 1979). More detailed information is contained in the application on file and available for public inspection at the ERA Natural Gas Division Docket Room, RG–43, Room GA–007, Forrestal Building, 1000 Independence Avenue, S.W., Washington, D.C. 20585, from 8:00 a.m. to 4:30 p.m., Monday through Friday, except Federal holidays.

In its application, VAMC indicates that the volume of natural gas for which it requests certification is approximately 123,849,280 cubic feet per year. This volume is estimated to displace the use of approximately 891,002 gallons of No. 2 fuel oil (0.09 percent sulfur) per year.

The eligible sellers are Exxon U.S.A., P.O. Box 2810, Houston, Texas 77001; Texas Gas Corporation, 3800 Frederica Street, P.O. Box 1160, Owensboro, Kentucky 45302; and Ohio Gas Marketing Corporation, 3933 Price Road, Newark, Ohio 43055. The gas will be transported by Columbia Gas Transmission Corporation, P.O. Box 1273, Charleston, West Virgina 25325; and Texas Gas Transmission Corporation, 3800 Frederica Street, P.O. Box 1160, Owensboro, Kentucky 42301; and by the Cincinnati Gas and Electric Company, P.O. Box 960, Cincinnati, Ohio 45202; and The Union Light, Heat & Power Company, P.O. Box 32, Covington, Kentucky 41012, local distribution companies.

In order to provide the public with as much opportunity to participate in this proceeding as is practicable under the circumstances, we are inviting any person wishing to comment concerning this application to submit comments in writing to the Economic Regulatory Administration, Office of Fuels Programs, Natural Gas Division, RG–43, Room GA–007, Forrestal Building, 1000 Independence Avenue, S.W., Washington, D.C. 20585, Attention: Paula A. Daigneault, within ten (10) calendar days of the date of publication of this notice in the **Federal Register.**

An opportunity to make an oral presentation of data, views, and arguments either against or in support of this application may be requested by any interested person in writing within the ten (10) day comment period. The request should state the person's interest and, if appropriate, why the person is a proper representative of a group or class of persons that has such an interest. The request should include a summary of the proposed oral presentation and a statement as to why an oral presentation is necessary. If ERA determines that an oral presentation is necessary, further notice will be given to VAMC and any person filing comments and will be published in the **Federal Register.**

Issued in Washington, D.C., on May 26, 1983.

James W. Workman,

Director, Office of Fuels Programs, Economic Regulatory Administration.

[FR Doc. 83–15060 Filed 6–3–83; 8:45 am]

BILLING CODE 6450–01–M

Federal Energy Regulatory Commission

[Docket No. RP83-96-000]

Inquiry Into Purchasing Practices of Interstate Pipelines; Informal Public Conference

June 2, 1983.

AGENCY: Federal Energy Regulatory Commission, DOE.

ACTION: Notice of informal public conference.

SUMMARY: The Commission will hold an informal public conference to examine whether the purchasing or transportation practices of interstate pipelines, combined with reduced market demand for natural gas, are resulting in undesirable consequences. The Commission seeks views and information from interstate and intrastate pipelines, producers, distributors, end-users, State and local regulatory authorities and the general public on whether problems exist and whether Commission action would alleviate them.

DATES: Requests to participate in the conference are due on or before June 24, 1983. Written statements are due on or before July 1, 1983. The conference is scheduled for July 11–12, 1983, beginning at 10:00 a.m.

ADDRESSES: All submissions should reference Docket No. RP83–96–000 and should be addressed to: Office of the Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426.

The informal public conference will be held in: Hearing Room A, 825 North Capitol Street NE., Washington, D.C.

FOR FURTHER INFORMATION CONTACT:

Bonnie Cord, Office of the General Counsel, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, (202) 357–8475

Christine Benagh, Office of Commissioner Oliver G. Richard III, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, (202) 357–8383.

The Federal Energy Regulatory Commission (Commission) is currently involved in litigation concerning State authority to regulate the purchasing practices of interstate pipelines. *Transcontinental Gas Pipeline Company* v. *Mississippi Oil and Gas Board*, Civil Action No. J82–0531(R) (S.D.Miss.). The Commission's position is that a Mississippi Oil and Gas Board order directed at interstate purchasers of natural gas is an impermissible invasion of the Commission's exclusive jurisdiction under the Natural Gas Act, 15 U.S.C. 717–717w, as amended (Supp. IV 1980), over the sale and transportation of natural gas in interstate commerce for resale. *Northern Natural Gas Company* v. *State Corporation Commission of Kansas*, 372 U.S. 84 (1963). The Commission also believes, as suggested by the Court in *Northern Natural*, 372 U.S. at 94 and n. 12, that States may have authority to accomplish their stated objectives of preventing drainage and promoting conservation by means other than regulating interstate purchasers.

Some producers have alleged that the interstate pipelines are engaging in discriminatory purchasing practices against some producers, which is resulting in denial of access to natural gas markets, drainage and waste. The Commission is unclear as to whether these allegations have merit. Pipelines' current purchasing practices may be, at least in part, a reasonable response to reduced market demand and an attempt to prevent further price increases to their natural gas customers.

The Commission continues to maintain that State regulation of the purchasing practices of interstate pipelines impermissibly invades the Commission's jurisdiction. In enacting the Natural Gas Act, Congress intended to establish a comprehensive scheme of federal regulation of interstate pipelines. Major reasons for establishing the federal scheme were prevention of undue discrimination by interstate pipelines by virtue of their monopsony and monopoly positions, filling the regulatory gap where States could not act effectively, and protecting natural gas consumers from unreasonably high gas prices. 15 U.S.C. 717, 717c, 717d (1976); Federal Trade Commission, Utility Corporations, S. Doc. 92, 70th Cong., 1st Sess. (1936). Congress charged the Commission with the authority and responsibility to administer the Act.

In light of the foregoing, the Commission believes that it is incumbent on it to examine the situation and determine whether Commission action is warranted. Accordingly, the Commission will convene an informal public conference to elicit views and information from members of the public on this matter. The conference will be held at Commission offices in Hearing Room A, 825 North Capitol Street, N.E., Washington, D.C., on July 11–12, 1983, beginning at 10:00 a.m. The Commission encourages the presentation of all views, including those of interstate and intrastate pipelines, independent and affiliated producers, distributors, end-users, State and local regulatory authorities, and the general public, as to whether problems exist and whether Commission action is appropriate. Members of the public are welcome to attend.

In order to aid discussion, the Commission urges participants to focus particularly on the following questions.

1. Does existing State authority consistent with the *Northern Natural* case, or federal authority other than the Natural Gas Act, provide the basis for an adequate remedy for some or all of the problems discussed above?

2. If not, does the Commission's jurisdiction under present statutory authority provide the basis for an adequate remedy for some or all of these problems?

3. Is there any evidence that interstate pipelines are discriminating in the purchase of gas against some producers in favor of other producers?

a. Against independent producers in favor of affiliated producers?

b. Against producers in one state in favor of producers in other states?

c. Against owners in some wells in favor of owners in other wells within a State, or against some owners in a well in favor of other owners in that well?

4. Is there any evidence that pipelines are favoring some producers or end-users with respect to transportation of gas?

5. If pipelines are not purchasing from producers evenly, is this due to:

a. Some producers asking too high a price?

b. Varying contractual obligations of the pipelines, such as varying take-or-pay provisions?

c. Allowables set by the States?

6. Does the right of first refusal under the Natural Gas Policy Act, 15 U.S.C. 3375 (Supp. IV 1980), or under the Commission's regulations, 18 CFR 277.201–277.210, inhibit the flexibility of producers to find alternative markets for their gas?

7. If the Commission should require pipelines to establish practices that allocate the reduced market demand among producers, should reductions be made:

a. Pro rata based upon the total deliverability of wells?

b. By reducing or eliminating higher priced gas first, and then pro rata according to deliverability?

c. By some other method?

What technical problems will arise as a result of any of these methods?

8. Should the Commission take no action and simply allow the marketplace to allocate reduced market demand among producers?

Any person wishing to present data, views or other information on these matters at the conference must submit a written request to participate to the Secretary of the Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, by June 24, 1983. Requests to participate should include a reference to Docket No. RP83–96–000, a brief summary of the participant's interest, the issues to be addressed in the presentation, and an address and telephone number where the participant may be reached. Participants may be assigned to a panel in order to establish a logical order of presentation and to facilitate an informal exchange of views. A schedule of participants and assignments will be available in advance of the conference. To aid the Commission in preparation for the conference, each participant is also requested to submit three copies of a written statement of his or her presentation to the Secretary of the Commission by July 1, 1983. These statements will be made part of the record. Additional copies of statements may be brought to the conference for distribution to members of the audience.

Commissioner Oliver G. Richard III will preside at the conference. Any person may submit questions to Commissioner Richard to be asked of participants. Commissioner Richard will determine whether the question is relevant and whether the time limitations permit it to be presented. If time permits at the conclusion of the scheduled presentations, persons who did not submit requests to participate will be afforded an opportuntiy to speak. Any further procedures will be announced by Commissioner Richard at the conference. A transcript of the conference will be available at the Commission's Office of Congressional and Public Affairs, Division of Public Information, Room 1000, 825 North Capitol Street, N.E., Washington, D.C. 20426. Copies of the transcript may be purchased by members of the public.

By direction of the Commission.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717–01–M

[Project No. 5050–003]

New Hampshire Water Resources Board, Surrender of Preliminary Permit

May 31, 1983.

Take notice that the New Hampshire Water Resources Board (Board), Permittee for the proposed Mascoma Lake Project No. 5050, has requested that its preliminary permit be terminated. The preliminary permit was issued on May 25, 1982, and would have expired on November 30, 1983. The project would have been located on the Mascoma River in Grafton County, New Hampshire. No reason for surrender was offered.

The Board filed its request on May 3, 1983, and the surrender of its permit for Project No. 5050 is deem effective 30 days after the date of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 83–15013 Filed 6–3–83; 8:45 am]

BILLING CODE 6717–01–M

[Docket No. CP83–340–000]

Producer-Suppliers of Transco Gas Supply Co.; Application

May 27, 1983.

Take notice that on May 25, 1983, Transco Gas Supply Company (Gasco), a subsidiary of Transco Energy Company, P.O. Box 1396, Houston, Texas 77251, filed in Docket No. CP83–340–000 an application pursuant to Section 7 of the Natural Gas Act on behalf of producer-suppliers currently selling gas to Gasco pursuant to certificates of public convenience and necessity issued pursuant to Section 7(c) of the Natural Gas Act for permission and approval to abandon certificated sales to Gasco and for a certificate of public convenience and necessity authorizing the sale in interstate commerce of such abandoned reserves to certain customers of Transcontinental Gas Pipe Line Corporation (Transco) for a limited period, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

It is stated that Gasco's affiliate, Transco, in accordance with a settlement agreement approved by Commission letter order dated April 28, 1983, in rate proceedings Docket Nos. RP83–11–000 and RP83–30–000, has implemented a voluntary, experimental Industrial Sales Program (ISP) whereunder Transco, as agent for certain customers, would arrange for gas supplies to be purchased by eligible customers for the purposes of keeping natural gas prices competitive with the prices of alternate fuels and of maintaining historical throughput levels on Transco's system. Gasco states that the authorizations sought in this case are necessary to permit the inclusion into the ISP program, which is limited to the period April 1 through October 31, 1983, of gas supplies which presently are sold to Gasco under certificates of public convenience and necessity and which gas its producer-suppliers voluntarily elect to divert temporarily for sale to Transco's customers. It is also stated that, except to the extent that such gas supplies are utilized for the limited scope and term of the ISP program, Gasco's dedication of its gas reserves to Transco would remain the same.

It is asserted that under the ISP program all Natural Gas Policy Act of 1978 price categories of gas supplies are eligible to participate; therefore, Gasco may release gas reserves tendered by producers that do not require abandonment authority under Section 7(b) or a certificate under Section 7(c) of the Natural Gas Act in order to participate therein.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 13 1983, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the

certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Gasco to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

[Project No. 5203-002]

Puget Sound Power and Light Co.; Surrender of Preliminary Permit

May 31, 1983.

Take notice that Puget Sound Power and Light Company, Permittee for the proposed Goat Mountain Project No. 5203, has requested that its preliminary permit be terminated. The permit was issued on December 10, 1981, and would have expired November 30, 1983. The project would have been located on the South Fork Nooksack River in Skagit County, Washington.

The Permittee filed its request on May 2, 1983, and the surrender of the preliminary permit for Project No. 5203 is deemed accepted as of May 2, 1983, and effective as of 30 days from the date of this notice.

BILLING CODE 6717-01-M

Office of Hearings and Appeals

Implementation of Special Refund Procedures

AGENCY: Office of Hearings and Appeals, DOE.

ACTION: Notice of Implementation of Special Refund Procedures.

SUMMARY: The Office of Hearings and Appeals of the Department of Energy has issued a Decision and Order concerning second stage refund procedures to be implemented for distribution of the consent order funds remitted to the DOE by Worldwide Energy Corporation, Loveladdy Oil Company, Gas Engine and Compressor Service and Fagadau Energy Corporation.

FOR FURTHER INFORMATION CONTACT: Thomas O. Mann, Deputy Director, Office of Hearings and Appeals, Department of Energy, 1200 Pennsylvania Avenue NW., Washington, D.C. 20461, (202) 633-8377.

SUPPLEMENTARY INFORMATION: The Decision and Order which appears below establishes procedures for distribution of the consent order funds remitted to the DOE by the four firms named above. The respective amounts of the escrowed funds are: $49,400 (Worldwide), $25,000 (Loveladdy), $51,400 (Gas Engine) and $83,985 (Fagadau). The entire balance of these

funds, plus all interest accrued to date, remains unclaimed following the expiration of the deadlines for firms who purchased petroleum products marketed by the four firms to submit applications for refund.

In this Decision, the Office of Hearings and Appeals (OHA) apportioned 82.13 percent of the Worldwide consent order fund, or $40,572 plus accrued interest, to the State of Texas. Upon approval by the OHA of a plan submitted by the state which will provide restitutionary benefits to consumers of natural gas liquids products in the State of Texas that amount will be paid to the State of Texas. The remaining 17.87 percent of the Worldwide Fund was apportioned to the State of Oklahoma and will be distributed to the State of Oklahoma under similar conditions. In addition, 100 percent of the Loveladdy, Gas Engine, and Fagadau consent order funds are apportioned for the State of Texas because all of the petroleum products sold by those firms were marketed in Texas. As discussed in the Decision below, the DOE has concluded that the state governments are appropriate bodies to formulate a distribution plan in these proceedings because they will provide effective and efficient restitution to petroleum products consumers in the firms' market areas.

Dated: May 27, 1983.

Richard W. Dugan,

Acting Director, Office of Hearings and Appeals.

Decision and Order of the Department of Energy, Second Stage Refund Procedures

Name of Petitioner: Worldwide Energy Corporation, Loveladdy Oil Company, Gas Engine and Compressor Service, Fagadau Energy Corporation.

Dates of Filing: February 8, 1983 (Worldwide, Loveladdy, & Gas Engine), February 14, 1983 (Fagadau).

Case No.: HQF–0015, HQF–0016, HQF–0017, HQF–0018.

On May 17, 1982, the Office of Hearings and Appeals of the Department of Energy issued a Decision and Order establishing special refund procedures for distributing funds obtained by the DOE through consent orders entered into by Fagadau Energy Corporation (Fagadau), Liquid Products Recovery, Inc., Worldwide Energy Corporation (Worldwide) and Gas Engine and Compressor Service (Gas Engine). *Office of Enforcement*, 9 DOE ¶ 82,567 (1982) (hereinafter cited as *Fagadau*). Subsequently, on May 20, 1982, we issued a Decision and Order establishing special refund procedures for distributing funds from the consent orders entered into with Panhandle Eastern Pipeline Company, PVM Oil Associates, Inc., Loveladdy Oil Company (Loveladdy), Armstrong and Associates, and Ethyl Corporation, *Office of Enforcement*, 9 DOE ¶ 82,569 (1982) (hereinafter cited as *Panhandle*). Under the terms of the consent orders, each firm placed money into a DOE escrow account to be distributed, together with interest, in accordance with the directives of the OHA pursuant to special refund proceedings. While common legal and factual issues in these cases made it appropriate to consolidate them for the purpose of establishing special refund procedures, the consent order funds have remained separate, and the refund proceedings in each case have been handled separately. The present Decision concerns only the Worldwide, Loveladdy, Gas Engine and Fagadau (the four firms) consent order funds.

The May 17 and May 20 Decisions established a two-stage process for the distribution of the consent order funds involved. In the first stage, applications for refund would have been accepted from claimants who purchased refined products from the firms involved during the respective consent order periods. The deadline for filing first stage refund applications for the firms covered by the *Fagadau* decision was August 23, 1982. The deadline for the submission of refund applications for the *Panhandle* group was August 24, 1982. The two Decisions also suggested that any funds remaining after qualified claimants had been paid would be distributed to entities which would pass through the benefits of any refunds to the group of persons who were likely injured as a result of the allegedly improper pricing practices.

The deadline for the submission of claims has now passed, and we have not received any refund applications from firms that purchased products from Worldwide, Loveladdy, Gas Engine or Fagadau. Under these circumstances, any possible claimant has waived its right to receive a refund during the first stage claims process. This Decision will therefore address the procedures to be instituted for distribution of the four firms' consent order funds in the second stage of the refund process. After a careful examination of the records compiled in each of these cases, we have determined that the state governments in respective market areas served by the four firms appear to be the most appropriate entities through which the benefits of these settlement funds may be distributed to injured parties

Background

In its audit of Worldwide's Rattlesnake Creek Gas Processing Plant, which was previously owned by Worldwide's predecessor firm, Central States Gas Company, the Office of Enforcement of the DOE's Economic Regulatory Administration (OE) found possible violations with respect to first sales of natural gas liquids (NGLs) during the period April 1, 1975 through April 30, 1977. Central States sold the output from that plant to Liquid Petroleum Corporation during the months of April and May 1975, and continued to sell butane and natural gasoline to that firm during June 1975. During the period June 1975 through April 1977, Central States sold all of the propane obtained at the Rattlesnake Creek plant to Pontotoc Oil Company, and sold butane and natural gasoline to the same firm from July 1975 through April 30, 1977. In order to settle all claims and disputes between the parties, Worldwide agreed to pay $49,400 to the DOE. The parties further agreed that this amount would be distributed by the DOE pursuant to 10 CFR Part 205, Subpart V. On March 21, 1980, the DOE published notice of the Worldwide Consent Order in the **Federal Register** and requested that persons believing that they had a claim to all or a portion of the refund amount file written notification of such a claim with ERA within 30 days. 45 FR 18430 (1980). No claim was filed. The OE was unable to identify the persons, if any, who were entitled to the Worldwide settlement fund or to ascertain the amounts of refunds that such persons were entitled to receive. Accordingly, it subsequently filed a Petition for the Implementation of Special Refund Procedures with the Office of Hearings and Appeals.

In its audit of Loveladdy the OE found possible regulatory violations with respect to the firm's sales of No. 2 fuel oil and motor gasoline in the State of Texas during the period November 1, 1973, through April 30, 1974. The OE identified thirty-eight firms and individuals who were first purchasers of fuel oil and gasoline from Loveladdy during the period concerned. The DOE and Loveladdy entered into a consent order under which Loveladdy agreed to remit $25,000 to the DOE in settlement of all claims and disputes between the parties arising from the audit. The terms of the final consent order were published in the **Federal Register** on August 3, 1979. *See* 44 FR 45663 (1979). Interested parties were given an opportunity to comment on the terms of the consent order and to submit written notice of potential claims against the refund amount. The DOE received no claims in response to that notice and consequently the OE filed a Subpart V Petition for this settlement fund.

In its audit of Gas Engine's Freestone gas processing plant, the OE found possible price violations with respect to first sales of NGLs during the period September 1973 through December 1976. Gas Engine sold NGLs from this plant to Wanda Petroleum and Martin Gas Sales Company. On August 28, 1979, the OE and Gas Engine entered into a consent order under which the firm agreed to pay $51,400 to the DOE in settlement of all disputes between the parties arising from the OE's audit of the Freestone plant. The parties stipulated that the funds were to be distributed by the DOE pursuant to a Subpart V proceeding. The terms of the final consent order were published in the **Federal Register** on September 11, 1979. *See* 44 FR 52880 (1979). Interested parties were given an opportunity to submit written notice of potential claims against the refund account, and the Consumer Energy Council of America submitted comments identifying itself as a potential claimant. No claims were filed by purchasers of NGLs from Gas Engine.

The OE also conducted an audit of Fagadau in order to determine whether the firm had complied with the DOE pricing regulations applicable to the NGLs. *See* 6 CFR Part 150, Subpart L, *and* 10 CFR Part 212, Subparts E and K. In its audits of Fagadau's

Bluegrove and Marietta gas processing plants, the OE found possible violations with respect to first sales of NGLs during the period September 1973 through October 1976. Fagadau sold the output from those plants only to TLOK Marketing during the relevant time period. In order to settle all claims and disputes between Fagadau and the OE regarding the first sales of NGLs, Fagadau agreed to pay $83,985 to the DOE. The parties further agreed that this amount would be distributed by the DOE pursuant to 10 CFR Part 205, Subpart V. On July 11, 1979, the Proposed Consent Order was finalized without modification and the DOE published notice in the **Federal Register** requesting that persons believing that they had a claim to all or a portion of the refund amount file written notification of such a claim with the OE within 30 days of publication. 44 FR 40545 (1979). No claim was filed.

Following the issuance of final determinations on the ERA's Petitions for the Implementation of Special Refund Procedures in connection with the funds in the *Fagadau* and *Panhandle* cases, we mailed written notice of the opportunity to file applications for refund for a portion of the refund moneys to each firm's first purchasers. We also published the *Fagadau* and *Panhandle* Decisions and Orders in the **Federal Register**. *See* 47 FR 25535 (1982) (*Fagadau*); 47 FR 23015 (1982) (*Panhandle*). However, no applications for refund for a portion of the four firms' funds had been filed by the time the deadlines for filing, August 23 and 24, 1982, had passed.

Comments on Second Stage Refund Procedures

Although we did not establish final second-stage procedures in the *Fagadau* and *Panhandle* Decisions, we suggested several possible distribution mechanisms: (1) First purchasers, who are in the best position to channel refunds to downstream purchasers, would be invited to formulate plans for distribution; (2) refunds might be made in the form of lowered energy or energy-related costs in the firms' market areas, through special programs formulated by state governments; and (3) in the event that other distribution mechanisms proved infeasible or inappropriate, we proposed that the remaining funds be deposited into the United States Treasury. Following our discussion of possible second-stage refund mechanisms, we sought comments from interested parties as to the appropriate distribution of second-stage funds.

In response to our request for comments on the appropriate second-stage refund procedures for these cases, we received submissions from nine state governments contending that residual funds should be distributed through them. *See, e.g., Attorneys General of the States of Delaware, et al.*, 10 DOE ¶ 82,536 (1982). We also received a submission from the Transportation Group, an organization representing four public transportation trade associations, in which the group maintained that all funds should be distributed only to direct purchasers of the petroleum products covered by the consent order. All of the comments which we received in this proceeding were generic rather than case-specific—all of them urged us to adopt a standard policy for disposition of all second-stage funds.

We disagree with the premise advocated by the state governments and the Transportation Group that the OHA should adopt a single approach to the disposition of second-stage funds in all special refund cases. As we have repeatedly stated, the appropriate solution to the question of what should be done with funds remaining after all first-stage claims have been adjudicated depends upon the factual circumstances involved in each case. *See Office of Enforcement*, 8 DOE ¶ 82,597 (1981) at 85,397 (hereinafter cited as *Vickers*); *Office of Special Counsel*, 10 DOE ¶ 85,048 (1982) at 88,217 (hereinafter cited as *Amoco*). Thus, the amount of money remaining, the product involved, and any information available about the probable distribution of the product or about the transactions underlying the consent order are all factors which we consider in determining the appropriate recipient or recipients for second-stage refunds.

The Transportation Group also argued in its submission that the OHA is obligated to refund moneys only to direct purchasers due to DOE statutes and regulations which require that refunds be made to "injured persons." The Transportation Group maintains that this language mandates that refund money may only be distributed to first purchasers and that therefore a distribution to other entities who agree to use the money to benefit the class of consumers who were injured is unlawful.

We find the Transportation Group's assertion that DOE statutes and regulations governing refund procedures permit us to refund settlement money *only* to direct purchasers of products covered by these consent orders to be completely without merit. As we have stated in a number of previous Decisions, the primary purpose of Subpart V special refund procedures is to provide restitution to persons injured by alleged regulatory violations. *See generally, Vickers; Sauder v. DOE*, 648 F.2d 1341 (Temp. Emer. Ct. App. 1981). Direct purchasers of the products involved, particularly direct purchasers who were resellers, may have simply passed on the injury in the form of increased prices. For this reason we required claimants filing first-state refund applications in these proceedings to demonstrate that they absorbed the alleged injury rather than passing it through to their customers. *See, e.g., Fagadau*, 9 DOE at 85,344. All purchasers, direct or indirect, of product covered by the consent orders were given notice of the opportunity to file applications for a portion of the consent order funds in the first stages of these proceedings. No direct purchasers filed claims. These firms have therefore waived their rights to seek a refund from these consent order funds.

However, as we have previously observed,

[T]he fact that claims to specific refunds may not be made does not mean that injuries to customers who did not file claims have not occurred. Rather, the absence of claims for the full amount of the settlement would tend to reflect the small size of these claims as well as the difficulty and expense of filing a claim.

Amoco, 10 DOE at 88,199. An examination of the records in these cases bears out this observation. In each of the present cases, the majority of the products involved was sold directly either to small firms who were consumers or to firms that resold the products. In the former situation, a consumer's claim might well be for so small an amount that the firm would not expend its resources filing a claim. In the latter case, resellers, for whom the product suppled constituted only a small portion of their entire supply, were in a position to pass on the effects of the alleged overcharges to their customers. *See, e.g., Tenneco Oil Company/Mid-Continent Systems, Inc.*, 10 DOE ¶ 85,009 (1982). Consequently, the injury experienced in these cases was likely borne by parties whose individual shares of the refund moneys are too small to justify the expense of their filing and our adjudicating these claims. Second stage refund procedures permit the fashioning of distribution programs to compensate injured persons who are unable for one reason or another to submit valid claims. *See Armstrong and Associates/City of San Antonio*, 10 DOE ¶ 85,050 (1983). Congress has expressly approved of indirect restitution by adopting the "Warner Amendment", Pub. L. No. 97–377, section 155(a), 96 Stat. 1830, 1919 (1982), which provides for distribution to the states of escrowed funds that are not likely to be otherwise refunded to injured persons. We have therefore concluded that we should fashion an appropriate second-stage refund mechanism designed to channel these refunds to injured parties who were unwilling or unable to file first-stage refund applications.

Second Stage Procedures

In several recent cases we have based our determination of the appropriate distribution of second-stage funds upon the factual circumstances in each case. For example, in *Office of Enforcement*, 10 DOE ¶ 85,072 (1983) (hereinafter cited as *PVM*), after examining the investigatory files complied by the DOE in the enforcement proceedings underlying the consent decree, we determined that a substantial portion of the product sold by PVM was sold to two ultimate consumers. In addition, we concluded that the remainder of the product was distributed to consumers of No. 2 fuel oil in the New York City metropolitan area. Consequently, we determined that the two identifed ultimate consumers of the fuel should receive a portion of the PVM fund with the remainder being reserved for distribution to New York State upon our approval of a state plan to use the money in a manner designed to benefit No. 2 fuel oil consumers in the New York City metropolitan area. *PVM*, 10 DOE at 88,307–08.

Of course, as we stressed in *PVM*

it is important to note that the consent decree is the result of a negotiated settlement which compromises the allegations therein and is in no way an admission of liability. . . . Thus, the DOE investigatory files represent preliminary determinations made by the agency and do not reflect actual overcharges. Nonetheless, we believe that these files, which formed the basis of the government's

complaint and which underlie the settlement, do provide an appropriate basis on which to fashion an equitable plan for restitution of the available funds in this case. *See Armstrong and Associates/City of San Antonio*, 10 DOE ¶ 85,050 (1983).

PVM at 88,307. The funds at issue in the present proceedings are also the fruits of settlement negotiations and do not reflect actual overcharges. However, we believe that an investigation into the circumstances underlying the consent orders, including an examination of the enforcement records compiled before agreement on a consent order, will assist us in formulating equitable distribution plans that will most likely benefit persons who were injured by the consenting firms' regulatory practices. We have therefore obtained copies of enforcement documents, when available, and have in some instances conducted our own investigation of the probable chain of transactions by which the products covered by these consent orders reached their ultimate consumers. We have concluded after our analysis of these cases that, based upon the amounts of money remaining, the products involved, and the probable distribution of those products, the funds should be distributed to the respective states in which the four firms' products were marketed. Prior to our issuing orders for payment of these funds to the states they will be required to submit a plan for the use of the money in a manner calcualted to benefit those residents who were likely injured by the alleged overcharges. The results of our analyses of the appropriate second-stage disposition of funds for each of the four firms follows.

The Worldwide consent order fund presently contains $49,400 principal and $23,302 interest as of April 30, 1983. The record indicates that the Worldwide consent order covered the firm's sales of butane, propane and natural gasoline to resellers located in Midland, Texas, and Tulsa, Oklahoma. The record further indicates that 17.87 percent of the alleged violations occurred in transactions with an Oklahoma reseller, Liquid Petroleum Corporation, and the remaining 82.13 percent was attributed to sales to Pontatoc Oil Company, a Texas reseller.[1] As noted above, neither firm filed a refund application even though notice of their eligibility to do so was mailed to them. We shall assume that these resellers of petroleum products likely declined to file first-stage refund applications because their probable recovery seemed insubstantial or because they would have been unable to establish that they did not pass through the alleged overcharges to their customers. We have therefore concluded that the Worldwide consent order fund should be distributed to the state governments of Texas and Oklahoma upon our approval of those states' proposals for projects to benefit likely injured parties.

There is $25,000 in principal and $11,586 in interest as of April 30, 1983, in the Loveladdy escrow account. The Loveladdy consent order was entered into after a Notice of Probable Violation was issued to the firm alleging overcharges in its sales of motor gasoline and No. 2 heating oil. The Notice of Probable Violation listed 38 Loveladdy customers, and Loveladdy furnished the OHA with addresses for those firms that were still in business. Seventeen of the firms were no longer in business. All of the firms were located in Texas and all of those that were still operating were notified of the opportunity to file for a refund. None of these firms, which area apparently small retailers and end-users, filed refund applications. Based upon the natures of Loveladdy's business and of the likely injured parties, and the small size of this fund, we have concluded that the loveladdy fund should be consolidated with other escrow funds from firms doing business in Texas for distribution to that state according to a consolidated plan to be proposed by the state.

Gas Engine's consent order fund is presently comprised of $51,400 principal land $24,317 in interest. The firm's consent order covered its sales of NGLs to two reseller firms in the vicinity of Longview, Texas. Neither firm filed a refund application. We have determined that this money should likewise be consolidated with other escrow funds for use by the State of Texas to benefit probable injured parties.

Finally, there is currently $83,985 principal and $39,733 interest in the Fagadau consent order fund. All of the NGLs covered by the consent order were sold to TLOK Marketing/United LPG Marketing of Dallas, Texas. Although notified by mail of its opportunity to file a refund application, that firm did not file. Upon investigation, we found that during the consent order period TLOK transported the NGLs by by pipeline to Houston, where they were processd for TLOK's account into ethane, propane, and natural gasoline by either Crystal Oil Company, Cities Service Company or Enterprise Products, Inc. These products were then all sold by TLOK to dealers within Texas. Consequently, we have concluded that the Fagadau escrow fund should be included in the consolidated Texas state fund.

State-Formulated Plans

As we have indicated above, the escrow funds designated for second-stage distribution to the States of Texas and Oklahoma will be disbursed upon our approval of a state-formulated plan for spending this money. The plans should meet the general restitutionary objective of benefiting the class of persons who were injured by the violations—consumers of propane, butane, No. 2 fuel and motor gasoline. The plans will be scrutinized to ensure that administrative costs will be minimized. The refunds must not be used as a substitute for state funds to implement projects or programs which would be funded regardless of this distribution. In other words, the money distributed to Texas and Oklahoma should be used to supplement, not supplant, any state or federal funds which are already budgeted for those purposes. Each program must be implemented within a reasonable period following receipt of the funds. After implementation of the plan, the states should certify that the funds were spent in accordance with the approved plans.

Following the broad guidelines discussed above the plans that Texas and Oklahoma submit should include the following information: (1) a description of the programs to be funded; (2) the timeframe for implementation of the programs; (3) a statement explaining whether each program is an enlargement of an existing program or a new project; (4) an explanation of the manner in which consumers of the products covered by the consent orders will benefit from the programs; (5) a statement certifying that the submitting agency or office has authority under state law to submit the plan; and (6) a statement committing the agency or office responsible for administering the plan to filing with the OHA a post-plan report, which will include a certification that the funds were spent in accordance with the DOE-approved plan.

Finally, to assist the States of Texas and Oklahoma in formulating a suitable distribution plan, we can suggest the following types of programs which would provide restitutionary benefits to consumers of the products covered by the four firms' consent orders:

(1) Maintenance or repair of state highways and bridges;

(2) Energy conservation or energy research programs directed toward residential, agricultural and commerical users of the covered products;

(3) Grant or loan programs for weatherization or other energy conservation equipment.

To the extent that benefits will be derived by the class of persons who are users of the covered products the funds may be used to augment various federal energy-related programs already implemented for these purposes. The above list is by no means exhaustive, and the states are free to select any appropriate energy-related project or program, so long as the funds will be spent in a manner which satisfies the restitutionary objectives of this special refund proceeding.

The following procedures will govern the processing of the states' shares of the second-stage refund money in this proceeding. The States of Texas and Oklahoma should submit a plan to spend their share of the four firms' funds. If approved, we will direct disbursement of the escrow funds. The states will be required to submit a post-plan report when the project(s) is completed. Copies of the plan and the post-plan reports will be available for public inspection in the Public Docket Room of the Office of Hearings and Appeals, Room 1111, 12th Street and Pennsylvania Avenue, N.W., Washington, D.C.

It Is Therefore Ordered That:

(1) The State of Texas shall be apportioned:

(a) 82.13 percent of the Worldwide Energy escrow fund ($40,572) plus accrued interest;

(b) 100 percent of the Loveladdy Oil Company escrow fund ($25,000) plus accrued interest;

[1] These calculations are based upon "Attachment A" to the November 26, 1979 Notice of Probable Violation issued to Central States and upon sales information provided by Worldwide.

(c) 100 percent of the Gas Engine and Compressor Service escrow fund ($51,400) plus accrued interest; and

(d) 100 percent of the Fagadau Energy Corporation escrow fund ($83,985) plus accrued interest.

(2) The State of Oklahoma shall be apportioned 17.87 percent of the Worldwide Energy Corporation escrow fund ($8,828) plus accrued interest.

(3) Payment to the states of the amounts set forth in paragraphs (1) and (2) will be made after approval by the Office of Hearings and Appeals of a plan submitted by the states which will benefit probable injured parties within the state and which conforms with the guidelines set forth in the foregoing Decision.

(4) This is a final order of the Department of Energy.

Dated May 27, 1983.

Richard W. Dugan,

Acting Director Office of Hearings and Appeals.

FEDERAL EMERGENCY MANAGEMENT AGENCY

[FEMA-679-DR]

Louisiana; Amendment to Notice of Major-Disaster Declaration

AGENCY: Federal Emergency Management Agency.

ACTION: Notice.

SUMMARY: This notice amends the Notice of a major disaster for the State of Louisiana (FEMA-679-DR), dated April 20, 1983, and related determinations.

DATED: May 25, 1983.

FOR FURTHER INFORMATION CONTACT: Sewall H. E. Johnson, Disaster Assistance Programs, Federal Emergency Management Agency, Washington, D.C. 20472 (202) 287-0501.

SUPPLEMENTARY INFORMATION: The notice of a major disaster for the State of Louisiana dated April 20, 1983, is hereby amended to include the following areas among those areas determined to have been adversely affected by the catastrophe declared a major disaster by the President in his declaration of April 20, 1983.

East Baton Rouge Parish for Public Assistance.

In addition to Individual Assistance, East Feliciana Parish is also designated eligible for Federal assistance to disaster-damaged public schools under Pub. L. 81-815 and Pub. L. 81-874, as appropriate.

National Emergency Training Center, Board of Visitors for the National Fire Academy; Open Meeting

In accordance with Section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), announcement is made of the following committee meeting:

Name: Board of Visitors for the National Fire Academy.

Dates of Meeting: June 29-30, 1983.

Place: National Fire Academy, Emmitsburg, MD.

Time: 9:00 a.m. to 5:00 p.m.

Proposed Agenda: June 29-30: Reviewing FY 84 Operating Plan and Multi-Year Plan.

The meeting will be open to the public with approximately 20 seats available on a first-come, first-serve basis. Members of the general public who plan to attend the meeting should contact Mr. Joseph Donovan, Superintendent, National Fire Academy, 16825 South Seton Avenue, Emmitsburg, MD 21727 (telephone number 301-447-6771) on or before June 12, 1983.

Minutes of the meeting will be prepared by the Board and will be available for public viewing in the Associate Director's Office, Building N, National Emergency Training Center, Emmitsburg, MD: Copies of the minutes will be available upon request 30 days after the meeting.

Dated: May 25, 1983.

Joseph L. Donovan,

Superintendent, National Fire Academy.

BILLING CODE 6718-01-M

FEDERAL MARITIME COMMISSION

[Independent Ocean Freight Forwarder License No. 2602]

Andrew Buchanan Rogers; Order of Revocation

Section 44(c), Shipping Act, 1916, provides that no independent ocean freight forwarder license shall remain in force unless a valid bond is in effect and on file with the Commission. Rule 510.15(d) of Federal Maritime Commission General Order 4 further

provides that a license shall be automatically revoked for failure of a licensee to maintain a valid bond on file.

The bond issued in favor of Andrew Buchanan Rogers, 217 Forest Trail, Isle of Palms, South Carolina 29451 was cancelled effective May 15, 1983.

By letter dated April 25, 1983, Andrew Buchanan Rogers was advised by the Federal Maritime Commission that Independent Ocean Freight Forwarder License No. 2602 would be automatically revoked unless a valid surety bond was filed with the Commission.

Andrew Buchanan Rogers has failed to furnish a valid bond.

By virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. 1 (Revised), § 10.01(f) dated November 12, 1981;

Notice is hereby given, that Independent Ocean Freight Forwarder License No. 2602 be and is hereby revoked effective May 15, 1983.

It is ordered, that Independent Ocean Freight Forwarder License No. 2602 issued to Andrew Buchanan Rogers be returned to the Commission for cancellation.

It is further ordered, that a copy of this Order be published in the **Federal Register** and served upon Andrew Buchanan Rogers.

Albert J. Klingel, Jr.,

Director, Bureau of Certification and Licensing.

BILLING CODE 6730-01-M

GENERAL SERVICES ADMINISTRATION

Travel Expenses; Report on the Cost of Travel and the Operation of Privately Owned Vehicles

The Travel Expense Amendments Act of 1975 (Pub. L. 94-22, May 19, 1975) requires the periodic investigation of the cost of travel and the operation of privately owned vehicles (automobiles, motorcycles, and airplanes) to employees while engaged on official business. Further the Act requires that the results of these investigations be reported to the Congress and published in the **Federal Register**.

Publication of the following report is in compliance with the requirements of the Act.

Dated: May 9, 1983.

Ray Kline,

Acting Administrator of General Services.

Report to Congress

The General Services Administration has concluded the investigation of the cost of travel and the cost of operating privately owned automobiles, airplanes, and motorcycles. We have identified the costs and consulted with representatives of employee organizations, the General Accounting Office, and the Departments of Defense and Transportation.

Based on the results of the current investigations, we are reporting our determination that a per diem allowance of $63 would be necessary to adequately compensate Government travelers. We can take no administrative action to increase the per diem rate, however, since the current allowance is already at the statutory maximum of $50.

The investigations also show that the costs have increased in a majority of the 158 existing high rate geographical areas (HRGA's) (enclosure 1). Travel expenses in HRGA's are reimbursed on an actual expense basis subject to a statutory maximum of $75 per day. Reimbursement rates in 52 of the existing HRGA's are already at the $75 statutory maximum level and cannot be increased until legislation is enacted to provide for further increases. Subsistence costs in these 52 areas range from $75.85 to a high of $157.40 in New York City. Reimbursement rates in the other 106 existing HRGA's are currently under the $75 statutory maximum. The administratively set rate in 18 of these areas is adequate and no change is required; 84 areas require an increase to the level of cost reported in our study. Subsistence costs in the remaining four areas range from $75.60 to $77.10; thus an increase in the reimbursement rates for those areas is restricted to the $75 statutory maximum.

Additionally, the investigations reveal that 23 new locations (enclosure 2) qualify for designation as HRGA's. To qualfiy as an HRGA, an area's subsistence cost (rounded to the nearest dollar) must exceed the maximum per diem by 10 percent or more. Based on a $50 maximum per diem, the minimum qualifying cost for HRGA status is $55. Current subsistence costs in the 23 areas range from $54.85 to over $75 per day.

Designation of these additional HRGA's brings to 181 the total number of HRGA's within the conterminous United States. We will issue the regulations necessary to so designate these additional localities and to increase the amounts allowed in 88 of the localities already designated as HRGA's. As indicated above, however, the current $75 statutory maximum for actual subsistence expense reimbursement is not adequate to cover travel expenses incurred in all areas. The subsistence cost actually exceeds the statutory maximum in 57 of the 181 areas.

With respect to privatedly owned vehicles (POV's) used on official Government business our investigations reveal that the average cost per mile for operating an automobile is 20.5 cents; for a motorcycle is 25.0 cents; and for an airplane is 63.0 cents. We will issue regulations to increase the automobile mileage rate to 20.5 cents, currently an adequate level of reimbursement. The current allowances for motorcycles (20 cents per mile) and airplanes (45 cents per mile), however, are at their respective statutory maximums and cannot be administratively increased.

As noted above, GSA's flexibility in adjusting the POV and subsistence allowances is limited to adjusting the automobile mileage allowance and certain HRGA's rates. Legislative action would be required to allow GSA to administratively adjust all of the allowance rates to levels which adequately cover the costs.

This report on the costs of travel and the operation of privately owned vehicles will be published in the **Federal Register**. The governing regulations will be amended within 30 days to reflect the subsistence and mileage allowance changes discussed above.

EXISTING HIGH RATE GEOGRAPHICAL AREA (HRGA) ALLOWANCE CHANGES

HRGA	Current rate	Current cost	Proposed maximum rate
1. Akron, OH	$59	$61.15	$61
2. Albany, NY	70	74.40	74

BILLING CODE 4220-AM-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Resources and Services Administration

Options for Eligibility Criteria for Beneficiaries Served by the Indian Health Service

AGENCY: Health Resources and Services Administration, HHS.

ACTION: Options for Eligibility Criteria for Beneficiaries Served by the Indian Health Service (IHS).

SUMMARY: The notice sets forth a discussion of major approaches under consideration by the Health Resources and Services Administration (HRSA) for potentially revising current eligiblity criteria for IHS beneficiaries to strengthen the capability of the IHS to manage existing resources.

DATE: Comments should be submitted by July 21, 1983.

ADDRESS: Send comments to: Mr. Rich McCloskey, Director, Office of Legislation and Regulations Services, Indian Health Service, Health Resources and Services Administration, Room 6A–14, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857.

FOR FURTHER INFORMATION CONTACT: Mr. Rich McCloskey, Director, Office of Legislation and Regulations Services, HRSA, 301/443–1116.

SUPPLEMENTARY INFORMATION: The Indian Health Service (IHS) provides a range of health care services to Indians and Alaska Natives directly or through contracts with tribes and private health organizations. In 1982, the IHS service population consisted of approximately

900,000 persons (64% of the total Indian population in the United States). Direct care services are available to persons who are of Indian descent and who are members of the Indian community served by the local facilities and programs. Contract care services are provided to Indians who are eligible for direct care, live in a designated geographic area adjacent to a reservation and either belong to or maintain close ties with the tribe living on the nearby reservation.

The various special programs established by the Congress to provide health services to the Indian people are based on the constitutional supremacy of the Congress to regulate commerce with the Indian tribes and are a direct outgrowth of treaties and the resulting Federal trust relationship. The IHS program is not an entitlement program, although it is generally viewed by the Indian community as an obligation of the Federal Government.

As citizens of the United States and of the States in which they reside, Indians are eligible for Federal, State, and local programs on the same basis as other citizens regardless of their membership in a federally recognized tribe or eligibility for a program based on their status as an Indian.

The IHS and HRSA are presently engaged in a review of potential approaches for strenghening the management and allocation of IHS resources to most effectively serve program beneficiaries. The objective is to maximize the use of existing and potential resources for addressing the needs of the IHS program population. The matter of eligibility criteria for IHS program beneficiaries represents a major element among the considerations under review.

The basic authority for IHS to provide services to Indians is the Snyder Act of 1921 which authorizes the expenditure of funds "for relief of distress and conservation of health" of "Indians throughout the United States." The Snyder Act does not define Indians. The IHS regulations, however, restrict services to certain categories within the overall class of eligible Indians.

The current IHS regulations for basic Indian eligibility (42 CFR 36.12(a)) were published in 1956 and read in relevant part: "Services will be made available, as medically indicated, to persons of Indian descent belonging to the Indian community served by the local facilities and program. . . ." Separate regulations were developed for Contract Health Services (42 CFR 36.22) which require applicants who do not reside on a reservation to meet addditional eligibility requirements including residing within a contract health service delivery area.

These requirements may or may not be the most effective approaches to managing the delivery of health care services to Indians. Therefore, the present management review addresses the matters of both basic program eligibility and residency within a service area.

I. Basic Program Eligibility—Alternatives

The current IHS regulations for basic Indian eligibility (42 CFR 36.12(a)) now limit services to certain categories within the overall class of eligible Indians. Generally, Congress has restricted appropriations under the Snyder Act to Indians on or near a reservation. However, being eligible as an Indian under the Snyder Act is not the same as an eligible Indian meeting the participation requirements of a program established under the authority of the Synder Act. For example, a full-blooded member of a federally recognized tribe living in an eastern city does not mean the person meets residency requirements for a particular program.

Tribal membership, on the other hand, is currently only one of a number of indices which can be used to determine if an individual is considered an Indian by the Indian community in which he lives. It is the belonging to an Indian community served by IHS that now defines who among Snyder Act Indians may receive services.

At this time, HRSA is considering various options regarding the matter of basic program eligibility. These include:

- Continue current practice. Under this option, eligibility for IHS services would continue to be based on the current regulations. Direct care services would be available to persons who are of Indian descent and who are members of the Indian community served by the local facilities and program. Contract care would be provided to Indians who are eligible for direct care, live in a designated geographic area adjacent to a reservation and either belong to or maintain close ties with the tribe living on the nearby reservation.
- Permit tribal governments to establish their own criteria for health services eligibility. This option would allow tribes to set their own requirements for determining who should receive federally-funded health services. To insure that tribes would receive a fair and equitable share of available health resources, this option might require separate critera for the allocation of IHS funds as opposed to the receipt of services. A resource allocation method would be needed to distribute IHS resources equitably among tribal populations; tribes could then establish their own criteria for determining who would be eligible for health care paid for with these resources.
- Require only membership in a federally recognized tribe. This would, in effect, adopt the definition of the term "Indian" as used by Congress in Pub. L. 93-638, the Indian Self-Determination Act.
- Require only a minimum blood quantum. Eligibility requiring a specified minimum blood quantum could be based on either the degree of Indian blood or the degree of tribal blood. For implementation purposes, the Bureau of Indian Affairs should be able to provide the necessary determination of an individual's blood quantum.

HRSA is soliciting comments on whether the major options enumerated above represent a complete and appropriate set of alternatives for consideration. HRSA would be interested in the identification of any additional options, including a combination of those already presented, for potential examination.

HRSA is also soliciting comments on a general set of issues that pertain to all of the above options under consideration. Public comment would be most beneficial if directed to each issue set forth below for each of the options being reviewed:

- For each option, are there specific constitutional or other broad legal or philosophical questions that must be considered? To what extent is the thrust of each alternative consistent or inconsistent with Federal legislation?
- For each option, what are the respective implications for Indian self determination, the role and authority of tribal governments, inter-tribal relationships, and existing Federal-Indian relationships and understandings? If negative consequences are envisioned, what steps could be taken to minimize or avoid such an outcome?
- To what extent do these alternative criteria meet or not meet the different historical, legal, and economic circumstances of individual Indian tribes and Alaska Native villages? How might the IHS beneficiary population differ among the respective options? To the extent that major inequities in access to IHS services are envisioned, what parallel actions or policies could be instituted to lessen or avoid such an impact?
- How would the options differ regarding uniformity, objectivity, and

accuracy of final eligibility criteria for services provided by the IHS? What actions should be considered to address any problem areas identified?

• What operational and administrative factors need to be identified that might affect the implementation of each option? What are the implications for administering there respective options resulting from such developments as the greater mobility and mixing of the Indian and non-Indian population and the greater numbers of people claiming Indian descent? What steps might be undertaken to address any problems or constraints identified?

• How would the options vary in their impact upon the complexity, fairness, and effectiveness of the resource allocation procees used by the IHS? Are there critical uncertainties affecting the full implementation of these alternatives? What actions could be considered to address any problems or uncertainties identified?

II. Service Area Residency as a Condition of Eligibility— Alternatives

As mentioned earlier, the Congress has generally appropriated funds to IHS for Snyder Act programs for Indians on or near a reservation. This is reflected in the basic eligibility regulation (42 CFR 36.12(a)) by inclusion of the phrase "served by the local facilities and program." Most IHS facilities and programs are on or near a reservation. It should be noted that in the case of direct services, the IHS policy and practice has been to serve eligible (Snyder Act) Indians who present themselves at IHS facilities to the extent IHS capabilities permit. Notwithstanding the history of appropriations and the existence of the above quoted phrase, the IHS has not established a residency requirement for direct services.

This is not the case with contract health services. As a result of the court decision in *Morton* v. *Ruiz* 94 S.Ct. 1055 et seq., and *Lewis* v. *Weinberger*, 415 F. Supp. 652 et. seq., Contract Health Services regulations were developed which require applicants who do not reside on a funded reservation to meet additional eligibility requirements, including residing within a contract health service delivery area (CHSDA).

Except where specifically spelled out in the regulation (42 CFR 36.22), CHSDAs are established by application of a formula which is termed the county option. The county option delineates the areas which will be considered "on or near" a reservation in terms of the geographic boundaries of any county which includes all or part of a reservation or which has a common boundary with the reservation. The result is the CHSDA.

The county option was not intended to be an irrevocable decision. In fact, it was explained in the preable to the NPRM for the contract care regulations that the county option definition of "on or near the reservation" may be inconsistent with the cultural traditions and social structures of some tribes and their perception of the geographic limits of their Indian communities.

The current IHS regulations, therefore, provide that, after consultation with the appropriate Indian governing bodies and taking into consideration the criteria specified in 42 CFR 36.22, CHSDA's may be redesignated by the Secretary on the basis of concepts other than the county option. Any such redesignation requires the regulation to be amended.

At this time, HRSA is considering various options regarding the matter of service area residency as a condition of eligibility. These include:

• Retain the current system which requires residency only for contract health services. Under this option the IHS would continue to have a residency requirement for contract health services but not for direct care.

• Establish a unified residency service area requirement that applies to both direct and contract health services. This approach would eliminate existing differences in the requirements for direct and contract health services.

• Retain the CHSCA system and establish different service area residency requirement for direct care. This option would institute a policy that "Snyder Act Indians" must reside in the Indian community served by the IHS facility or program.

• Abolish any residency requirement.

HRSA is soliciting comments here as well on whether the options enumerated above represent a complete and appropriate set of alternatives for consideration. HRSA would also be interested in the identification of any additional options for potential examination.

HRSA is also soliciting comments on issues that pertain to all of the above options under consideration. Public comment would be most beneficial if directed to each issue set forth below, as well as to those issues identified earlier for basic program eligibility options that are believed equally germane for the matter of service area residency as a condition of eligibity:

• What are the merits and shortcomings of adopting a unified residency service area requirement for both direct and contract health services?

• To what extent might these options affect the development and implementation of a registration system for IHS program beneficiaries? (A General Notice regarding "Options for Eligibility Verification for IHS Program Beneficiaries" is published in this same issue of the **Federal Register**).

• What are the respective implications of these options for urban and other Indians who may travel to IHS facilities for services? If negative consequences are envisioned, what policies could be taken to minimize or avoid such an outcome?

• How might the options affect the responsibilities of those IHS facilities that currently serve a larger number of Indians that do not reside on or near a reservation and with which they have close social and economic ties?

• What specific politicial, legal, organizational, and economic constraints may be important for each option? What steps could be undertaken to address each of the constraints identified?

It is anticipated that this General Notice will result in detailed comments regarding the options and issues set forth above. In this regard, the Administrator of the Health Resources and Services Administration is especially interested in receiving general and specific comments from American Indian and Alaska Native people and organizations representing them.

Robert Graham,

Administrator, Assistant Surgeon General.

May 29, 1983.

BILLING CODE 4160-15-M

Options for Eligibility Verification for IHS Program Beneficiaries

AGENCY: Health Resources and Services Administration, HHS.

ACTION: Options for eligibility verification for IHS program beneficiaries.

SUMMARY: The notice sets forth a discussion of major factors under consideration by HRSA for verifying eligibility for IHS program beneficaries to strengthen the capability of the IHS to manage existing resources and to implement the proposed Administration's Fiscal Year 1984 budget for the IHS.

DATES: Comments should be submitted by July 21, 1983.

ADDRESSES: Send comments to: Mr. Rich McCloskey, Director, Office of Legislation and Regulations Services, Indian Health Service, Health Resources and Services Administration, Room 6A-

14, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857.

FOR FURTHER INFORMATION CONTACT: Mr. Rich McCloskey, Director, Office of Legislation and Regulations Services, HRSA, 301/443–1116.

SUPPLEMENTARY INFORMATION: The Indian Health Service (IHS) provides a range of health care services to Indians and Alaska Natives directly or through contracts with tribes and private health organizations. In 1982, the IHS service population consisted of approximately 900,000 persons (64% of the total Indian population in the United States). Direct care services are available to persons who are of Indian descent and who are members of the Indian community served by the local facilities and program. Contract care services are provided to Indians who are eligible for direct care, live in a designated geographic area adjacent to a reservation and either belong to or maintain close ties with the tribe living on the nearby reservation.

The IHS and HRSA are presently engaged in a review of potential approaches for strengthening the management and allocation of IHS resources to most effectively serve program beneficiaries. The intent here is to maximize the use of existing and potential resources for addressing the needs of the IHS program population. This review takes on added importance and urgency given the context of a need to determine how best the President's Fiscal Year 1984 budget submission for the IHS can be implemented. The matter of verifying the eligibility of IHS program beneficiaries represents a major element among the considerations currently under review.

According to the present practice of IHS, an individual applying for services has a medical record established. The medical record contains the information upon which the individual's eligibility was based. Relevant to the issue under consideration, however, the individual does not receive any document attesting to his eligibility, and the method of subsequent verification of eligibility is to check the individual's medical record.

As part of a general management review of the IHS program that includes attention to the matter of eligibility verification, a proposal is being considered to change current practice and institute an IHS registration system of those eligible program beneficiaries who wish to receive services from the IHS. This option would require each IHS beneficiary (current and future) to establish that he or she has met IHS requirements for service.

The review to date has considered a variety of pros and cons regarding the adoption of a registration system versus a continuation of present practice. maintaining the current approach, for example, would clearly be less costly and, at least initially, less disruptive to present operations and service. It is believed that the adoption of a registration system, in contrast, would clearly simplify the current system of verifying eligibilty and allow the IHS to strengthen its capabilities in managing and allocating resources for meeting beneficiary needs.

While the reason for considering an IHS registration system arises from management needs, the HRSA and IHS are acutely aware of a broad set of ethical issues regarding this matter. The concept of a government-sponsored registration system for any identified population group and the specific connection of this concept to existing Federal-Indian relationships are but illustrative of the complex philosophical issues implicit in potentially altering the procedures for eligibility verification.

Preliminary discussions regarding this option have also identified the need to require the inclusion of an appeals system since benefits would be dependent upon a determination that the individual met IHS requirements. Furthermore, these discussions have identified the need to determine an individual identifier for program eligibles that are registered through this system.

In view of the breadth and significance of these considerations under review, the Health Resources and Services Administration is soliciting comments on the matters set forth above. The Administration of the Health Resources and Services Administration is specifically interested in receiving comments from American Indian and Alaska Native people and organizations representing them.

Robert Graham,

Administrator, Assistant Surgeon General.

May 29, 1983.

National Institutes of Health

Safety and Occupational Health Study Section; Meeting

Pursuant to Pub. L. 92–463, a meeting of the Safety and Occupational Health Study Section, National Institute for Occupational Safety and Health, in conjunction with the Division of Research Grants, will be held on June 20–22, 1983, at the Colonial Manor Motel, 11410 Rockville Pike, Rockville, Maryland 20852.

This meeting will be open to the public on June 20 from approximately 8:30 a.m. to 10:00 a.m., to discuss program policies and issues. Attendance by the public is limited to space available.

In accordance with the provisions set forth in Sections 552b(c)(4) and 552b(c)(6), Title 5, U.S. Code, and Section 10(d) of Pub. L. 92–463, the meeting of the Study Section will be closed to the public from 10:00 a.m. June 20 until adjournment on June 22 for the review, discussion and evaluation of individual grant applications. These applications and the discussions could reveal confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the applications, the dislosure of which would constitute a clearly unwarranted invasion of personal privacy.

The Grants Inquiries Office, Division of Research Grants, Westwood Building, National Institutes of Health, Bethesda, Maryland 20205, telephone (301) 496–7441, will furnish summaries of the meetings and rosters of committee members.

Dr. John Beisler, Executive Secretary of the Study Section, Westwood Building, Room 3A10, National Institutes of Health, Bethesda, Maryland 20205, telephone (301) 496–6723, will furnish substantive program information.

BILLING CODE 4140–01–M

General Research Support Review Committee; Meeting

Pursuant to Pub. L. 92–463, notice is hereby given of the meeting of the General Research Support Review Committee, Division of Research Resources, July 21–22, 1983 at the National Institutes of Health. The meeting will be held in Conference Room 4, Building 31, 9000 Rockville Pike, Bethesda, Maryland 20205.

This meeting will be open to the public from 9:00 a.m. to approximately 1:30 p.m. on July 21, 1983, to discuss policy matters relating to the Minority Biomedical Research Support Program.

Attendance by the public will be limited to space available.

In accordance with provisions set forth in Sections 552b(c)(4) and 552b(c)(6), Title 5, U.S. Code and Section 10(d) of Pub. L. 92–463, the meeting will be closed to the public on July 21, 1983, from approximately 1:30 p.m. to 5:00 p.m. and on July 22 from 8:30 a.m. to adjournment for the review, discussion and evaluation of individual grant applications submitted to the Minority Biomedical Research Support Program. These applications and discussions could reveal confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the applications, disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Mr. James Augustine, Information Officer, Division of Research Resources, National Institutes of Health, Building 31, Room 5B10, Bethesda, Maryland 20205, telephone (301) 496–5545, will provide summaries of meeting and rosters of committee members. Dr. Sidney A. McNairy, Executive Secretary of the General Research Support Review Committee, Building 31, Room 5B–09, Bethesda, Maryland 20205, telephone (301) 496–4390 will furnish substantive program information.

BILLING CODE 4140–01–M

Public Health Service

Availability of Carcinogenesis Reports on Melamine and Pentachloroethane

The HHS' National Toxicology Program today announces the availability of technical reports on melamine, a chemical used to make polymeric amino resins and thermosetting plastics used in electrical equipment and housewares, and pentachloroethane, a chemical intermediate used to make tetrachloroethylene.

Melamine was fed in the diet to male F344/N rats and male and female B6C3F$_1$ mice at 0, 2,250 and 4,500 ppm and to female rats at 0, 4,500 and 9,000 ppm for 103 weeks. Under the conditions of these carcinogenesis studies, melamine was carcinogenic for male F344/N rats, causing transitional-cell carcinomas in the urinary bladder. With one exception, urinary bladder stones were observed in male rats that had transitional-cell carcinomas. Melamine was not carcinogenic for female F344/N rats or for male and female B6C3F$_1$ mice.

Pentachloroethane was administered in corn oil by gavage at 0, 75 and 150 mg/kg of body weight to F344/N rats and at 0, 250, and 500 mg/kg to B6C3F$_1$ mice for 103 weeks. Under the conditions of these carcinogenesis studies, technical grade pentachloroethane containing 4.2 percent hexachloroethane (a known carcinogen in mice) was not carcinogenic for F344/N rats. Pentachloroethane was nephrotoxic for male rats. The decreased survival of dosed rats might have reduced the sensitivity for a carcinogenic response in this species. Technical grade pentachloroethane was carcinogenic for B6C3F$_1$ mice, causing hepatocellular carcinomas in males and females, and adenomas in females.

Copies of these reports—*Carcinogenesis Bioassay of Melamine in F344/N Rats and B6C3F$_1$ Mice (Feed Study)* (T.R. 245) and *Carcinogenesis Bioassay of Pentachloroethane in F344/N Rats and B6C3F$_1$ Mice (Gavage Study)* (T.R. 232)—are available without charge by writing to: NTP Public Information Office, M.D. B2–04, P.O. Box 12233, Research Triangle Park, NC 27709. Telephone: (919) 541–3991. FTS: 629–3991.

Dated: May 26, 1983.

David P. Rall,

Director.

BILLING CODE 4140–01–M

Office of the Assistant Secretary for Health; Statement of Organization, Functions, and Delegations of Authority; Correction

In FR Document 83–1498 appearing on pages 2441–2449 in the issue of Wednesday, January 19, 1983, make the following corrections:

1. On page 2441, under the heading Public Health Service and following the preamble paragraph, instructions for making amendments to the Statements for the Mission, Organization, Functions and Delegations of Authority should read:

"Under Part H, Chapter H, Public Health Service, deleted in their entirety Section H–00, Mission, and Section H–10, Organization, and substitute the Mission and Organization below; revise Section H–20, Functions, as stated below:"

2. On page 2442, under *Section HA–10, Office of the Assistant Secretary for Health—Organization,* item (14), Office of Disease Prevention and Health Promotion, should be identified as (HA8);

In the second column under *Office of the Assistant Secretary for Health (HA)* the ninth sentence beginning "ASG supports," should read "ASH supports";

In the last column, the title for the *Office of Refugee Health (ORH)* should read: *"Office of Refugee Health (HAF)";* the abbreviations in the column following the name of this Office remain as (ORH);

3. On page 2443, under the heading, *PHS Executive Secretariat (HA6),* item (4), fourth line, change the words "Secretary to ASH" to read "Secretary or ASH";

Delete the paragraph in the middle of the first column that begins, "Under the heading *National Center for Health Services Research (HAT1),* and substitute the following:

"Under the heading *National Center for Health Services Research (HAT1),* delete the titles and statements for the office and division level entities only, substitute the following, and add the new *Office of Health Technology Assessment (HAR14)*";

Under the heading *National Center for Health Services Research (HAR),* item (8), the sixth line should read "services and health care technology";

Under the heading *Office of Program Development (HAR12),* item (3) should read: "(3) advises the Center Director on the types of projects which should be supported, the projects which should be undertaken by the staff of the Center, and the mechanism to be used for research, demonstrations, and evalution activities to be conducted outside the Center;"

4. On page 2444, in the heading *Division of Intramural Research (HAR5),* the identifier for the division should be (HAR4);

In the last column before the heading *National Center for Health Statistics (HAS),* the instructions should read: "Under the heading *National Center for Health Statistics (HAT2),* delete the titles and statements for the office and division level entities only, substitute the following and add the new *Office of Program Planning, Evaluation and Coordination HAS15:"*

5. On page 2447, under the heading *Division of Analysis (HASE3),* item (5), should read: "(5) augments the policy analysis activities of OASH;"

6. On page 2448, the title for the *Division of Directives and Authorities Management (HAU25),* should read *Division of Systems Management and Improvement (HAU25).*

Dated: May 25, 1983.

Margaret M. Heckler,

Secretary.

BILLING CODE 4160-17-M

Office of the Secretary

Advisory Council on Social Security Meeting

AGENCY: Office of the Secretary, HHS.

ACTION: Notice of meeting.

SUMMARY: Pursuant to Section 10(a)(2) of Pub. L. 92-463, the Federal Advisory Committee Act, notice is hereby given of meeting of the Advisory Council on Social Security, as established by the Secretary of Health and Human Services in accordance with Section 706 of the Social Security Act, 42 U.S.C. 907.

DATE/ADDRESS: The meeting will be held June 21–22, 1983, from 9:00 a.m. to 4:00 p.m. each day. It will be held in the Hubert H. Humphrey Building, 200 Independence Avenue S.W., Washington, D.C. 20201, in room 703A.

FOR FURTHER INFORMATION CONTACT: Thomas R. Burke, Executive Director, Advisory Council on Social Security, 200 Independence Avenue, S.W., Washington, D.C. 20201; telephone (202) 755-8670/71.

SUPPLEMENTARY INFORMATION: The meeting is open to the public. Attendance will be limited to the space available. Correspondence can be addressed to Advisory Council on Social Security, 200 Independence Avenue, S.W., Washington, D.C. 20201. Suggested issues for future Council deliberation may be submitted to the same address. However, suggestions received after June 24, 1983 will not be considered.

Sign language interpreting services will be provided if requested in advance.

The proposed meeting agenda includes further briefings and discussion on the Medicare program; and such other business as the Chairperson, the Executive Director, or the membership may put before the Council.

A previous meeting of the Advisory Council on Social Security was announced in 48 FR 20804, May 9, 1983.

Records are kept of all Council proceedings and are available for public inspection at the Office of the Administrative Officer, Advisory Council on Social Security, Room 317-H, HHH Building, 200 Independence Avenue, S.W., Washington D.C. 20201.

Thomas R. Burke,

Executive Director.

BILLING CODE 4150-04-M

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

Notice of Intent to Amend Eastern San Diego County Management Framework Plan

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of intent.

SUMMARY: Notice is hereby given pursuant to 43 CFR 1600, that the California Desert District is planning to amend the Eastern San Diego County Planning Unit Management Framework Plan (MFP).

DATES: An Environmental Analysis (EA) on the amendment will be completed by summer. A final decision on whether or not to accept the amendments would be made following a 30-day public review of the EA.

SUPPLEMENTARY INFORMATION: The eastern portion of San Diego County is divided into small allotments that are difficult to manage. The current MFP retains these allotments, specifies restrictive grazing seasons for them, and prohibits any prescribed burning in large areas. The proposed amendments rectify these problems. The amendments will be reviewed by an interdisciplinary team representing the following disciplines: Wildlife Biology, Botany, Archaeology, Wilderness, and Range Science.

The Environmental Analysis to be prepared on the amendents will be available for public review and comment for a 30-day period at the offices of the Bureau of Land Management at two locations:

California Desert District, 1695 Spruce Street, Riverside, CA 92507;

El Centro Resource Area, 333 South Waterman, El Centro, CA 92243.

FOR FURTHER INFORMATION CONTACT: Roger Zortman at (619) 352-5842.

H. W. Riecken,

Associate District Manager.

[FR Doc. 83-15057 Filed 6-3-83; 8:45 am]

BILLING CODE 4310-84-M

Moab District Grazing Advisory Board; Meeting

May 26, 1983.

AGENCY: Bureau of Land Management, Interior.

ACTION: Moab District Grazing Advisory Board Meeting.

SUMMARY: Notice is hereby given in accordance with Pub. L. 92-465 that a tour and meeting of the Moab District Grazing Advisory Board will be held June 29, and 30, 1983 in the San Juan Resource Area. The meeting will consist of a tour on the first day in the Beef Basin Area and a meeting at the BLM cabin located in Beef Basin on the second day. San Juan Resource Area Office is located at 480 South 1st West, Monticello, Utah 84535.

The field trip will leave the Resource Area Office at 10:00 a.m., June 29, 1983. BLM will provide transportation to and from Beef Basin and Monticello for board members only; other participants will need to provide their own transportation and meals. The purpose of the tour is to observe recent grazing improvments projects, and the Gibson Dome potential nuclear waste repository site.

The formal Advisory Board meeting will be held at 8:00 a.m. at Beef Basin BLM cabin June 30, 1983.

The Agenda is as follows:

—Review proposed maintenance needs on existing range improvements for FY 84
—Review District range monitoring progress
—Status of the Wilderness Review
—Status on Cooperative Management Agreements
—Discuss Utah Farm Bureau Congressional Inquiry on grazing reductions
—Review of indemity selections made by the State of Utah
—The tour and meeting will end at 2:00 p.m., June 30, 1983 and return to Monticello

All Grazing Advisory Board meetings are open to the public. Interested persons may make oral statements to the Board between 11:00 a.m. and 12:00 noon on June 30, 1983, or file written statements for the Board's consideration. Anyone wishing to make an oral statement must notify the District Manager, Bureau of Land Management, P.O. Box 970, Moab, Utah 84532 by June 24, 1983.

Summary minutes of the Board meeting will be maintained in the District Office and will be available within 30 days following the meeting.

Gene Nodine,

District Manager.

BILLING CODE 1410-84-M

Minerals Management Service

Outer Continental Shelf; Proposed Lease Offering of Polymetallic Sulfide Minerals in the Gorda Ridge Area; Intent To Prepare an Environmental Impact Statement

AGENCY: Minerals Management Service, Interior.

ACTION: Extension of comment period on the scope of the environmental impact statement and on leasing options.

On March 28, 1983, the Minerals Management Service (MMS) published a Notice of Intent to prepare an environmental impact statement (EIS) on a proposed lease offering of polymetallic sulfide minerals in the Gorda Ridge area on the Outer Continental Shelf offshore of Oregon and California (48 FR 12840, March 28, 1983). The Notice requested comments on the scope of the EIS and on several alternatives and leasing options that MMS is currently considering.

Several respondents to the March 28, 1983, **Federal Register** Notice have requested that the comment period be extended 60 days to allow for more thorough analyses and preparation of comments. The MMS is hereby reopening and extending the comment period.

DATE: Written comments on the scope of the EIS, and leasing options should be submitted to MMS at the address given below. Comments must be received on or before July 26, 1983.

ADDRESSES: Written comments should be submitted to: Jeffrey Zippin, Minerals Management Service, Department of the Interior, Mail Stop 644, 12203 Sunrise Valley Drive, Reston, Virginia 22091, telephone (703) 860-6461.

FOR FURTHER INFORMATION CONTACT: Michael Cruickshank, Minerals Management Service, Department of the Interior, Mail Stop 646, 12203 Sunrise Valley Drive, Reston, Virginia 22091, telephone (703) 860-7571.

Dated: May 31, 1983.

David C. Russell,

Acting Director, Minerals Management Service.

BILLING CODE 4310-MR-M

INTERNATIONAL TRADE COMMISSION

[Investigation No. 701-TA-184 (Final)]

Frozen Concentrated Orange Juice From Brazil

AGENCY: International Trade Commission.

ACTION: Scheduling of a hearing to be held in connection with the subject investigation.

EFFECTIVE DATE: May 31, 1983.

SUMMARY: The Commission hereby announces the scheduling of a hearing to begin at 10:00 a.m. on June 17, 1983, in connection with the investigation.

FOR FURTHER INFORMATION CONTACT: Mr. David Coombs (202-523-1376), Office of Investigations, U.S. International Trade Commission.

SUPPLEMENTARY INFORMATION:

Background.—On December 16, 1982, the Commission instituted this final countervailing duty investigation involving frozen concentrated orange juice from Brazil (47 FR 58051, December 29, 1982). The Commission suspended the investigation following the signing of a suspension agreement between the Government of Brazil and the Department of Commerce (48 FR 9969, March 9, 1983), but then continued its investigation, effective March 21, 1983, following receipt of a request for continuation by counsel for the Government of Brazil (48 FR 15016, April 6, 1983). On May 31, 1983, the Commission received Commerce's final subsidy determination and, accordingly, must make its final injury determination by July 14, 1983.

Hearing.—The Commission will hold a hearing in connection with this investigation beginning at 10:00 a.m. on June 17, 1983, at the U.S. International Trade Commission Building, 701 E Street, NW., Washington, D.C. 20436. Requests to appear at the hearing should be filed in writing with the Secretary to the Commission not later than the close of business (5:15 p.m.) on June 10, 1983. All persons desiring to appear at the hearing and make oral presentations should file prehearing briefs and attend a prehearing conference to be held at 11:00 a.m. on June 14, 1983, in room 117 of the U.S. International Trade Commission Building. The deadline for filing prehearing briefs is June 13, 1983.

Testimony at the public hearing is governed by section 207.23 of the Commission's rules (19 CFR § 207.23, as amended by 47 FR 33682, Aug. 4, 1982). This rule requires that testimony be limited to a nonconfidential summary and analysis of material contained in prehearing briefs and to information not available at the time the prehearing brief was submitted. All legal arguments, economic analyses, and factual materials relevant to the public hearing should be included in prehearing briefs in accordance with section 207.22 (19 CFR 207.22, as amended by 47 FR 33682, Aug. 4, 1982). Posthearing briefs must conform with the provisions of section 207.24 (19 CFR 207.24) and must be submitted not later than the close of business on June 24, 1983.

Written submissions.—As mentioned, parties to this investigation may file prehearing and posthearing briefs by the dates shown above. In addition, any person who has not entered an appearance as a party to the investigation may submit a written statement of information pertinent to the subject of the investigation on or before June 24, 1983. A signed original and fourteen (14) true copies of each submission must be filed with the Secretary to the Commission in accordance with section 201.8 of the Commission's rules (19 CFR 201.8). All written submissions except for confidential business data will be available for public inspection during regular business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary to the Commission.

Any business information for which confidential treatment is desired shall be submitted separately. The envelope and all pages of such submissions must be clearly labeled "Confidential Business Information." Confidential submissions and requests for confidential treatment must conform with the requirements of section 201.6 of the Commission's rules (19 CFR 201.6).

For further information concerning the conduct of the investigation, hearing procedures, and rules of general application, consult the Commission's Rules of Practice and Procedure, part 207, subparts A and C (19 CFR Part 207, as amended by 47 FR 33682, Aug. 4, (1982), and part 201, subparts A through E (19 CFR Part 201, as amended by 47 33682, Aug. 4, 1982).

This notice is published pursuant to section 207.20 of the Commission's rules (19 CFR 207.20).

Issued: June 2, 1983.

By order of the Commission.

Kenneth R. Mason,

Secretary.

[FR Doc. 83-15210 Filed 6-3-83; 8:45 am]

BILLING CODE 7020-02-M

INTERSTATE COMMERCE COMMISSION

Office of Proceedings

Motor Carriers; Permanent Authority Decisions

Motor Common and Contract Carriers of Property (fitness-only); Motor Common Carriers of Passengers (fitness-only); Motor Contract Carriers of Passengers; Property Brokers (other than household goods). The following application for motor common or contract carriage of property and for a broker of property (other than household goods) are governed by Subpart A of Part 1160 of the Commission's General Rules of Practice. See 49 CFR Part 1160, Subpart A, published in the **Federal Register** on November 1, 1982, at 47 FR 49583, which redesignated the regulations at 49 CFR 1100.251, published in the **Federal Register** on December 31, 1980. For compliance procedures, see 49 CFR 1160.19. Persons wishing to oppose an application must follow the rules under 49 CFR Part 1160, Subpart B.

The following applications for motor common or contract carriage of passengers filed on or after November 19, 1982, are governed by Subpart D of the Commission's Rules of Practice. See 49 CFR Part 1160, Subpart D, published in the **Federal Register** on November 24, 1982, at 49 FR 53271. For compliance procedures, see 49 CFR 1160.86. Persons wishing to oppose an application must follow the rules under 49 CFR Part 1160, Subpart E.

These applications may be protested *only* on the grounds that applicant is not fit, willing, and able to provide the transportation service or to comply with the appropriate statutes and Commission regulation.

Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated that it is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. This presumption shall not be deemed to exist where the application is opposed. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally suficient opposition in the form of verified statements filed on or before 45 days from date of publication, (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authoirity will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may deplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Agatha L. Mergenovich,

Secretary.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce, over irregular routes unless noted otherwise. Applications for motor contract carrier authority are those where service in for a named shipper "under contract."

Please direct status inquiries to Team Three at (202) 275–5223.

BILLING CODE 7035–01–M

Motor Carriers; Permanent Authority Decisions

Motor Common and Contract Carriers of Property (except fitness-only); Motor Common Carriers of Passengers (public interest); Freight Forwarders; Water Carriers; Household Goods Brokers. The following applications for motor common or contract carriers of property, water carriage, freight forwarders, and household goods brokers are governed by Subpart A of Part 1160 of the Commission's General Rules of Practice. See 49 CFR Part 1160, Subpart A, published in the **Federal Register** on November 1, 1982, at 47 FR 49583, which redesignated the regulations at 49 CFR 110.251, published in the **Federal Register** December 31, 1980. For compliance procedures, see 49 CFR 1160.19. Persons wishing to oppose an application must follow the rules under 49 CFR Part 1160, Subpart B.

The following applications for motor common carriage of passengers, filed on or after November 19, 1982, are governed by Subpart D of 49 CFR Part 1160, published in the **Federal Register** on November 24, 1982 at 47 FR 53271. For compliance procedures, see 49 CFR 1160.86. Carriers operating pursuant to an intrastate certificate also must comply with 49 U.S.C. 10922(c)(2)(E). Persons wishing to oppose an application must follow the rules under 49 CFR Part 1160, Subpart E. In addition to fitness grounds, these applications may be opposed on the grounds that the transportation to be authorized is not consistent with the public interest.

Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual

operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated that it is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations.

We make an additional preliminary finding with respect to each of the following types of applications as indicated: common carrier of property-that the service proposed will serve a useful public purpose, responsive to a public demand or need; water common carrier-that the transportation to be provided under the certificate is or will be required by the public convenience and necessity; water contract carrier, motor contract Carrier of property, freight forwarder, and household goods broker-that the transportation will be consistent with the public interest and the transportation policy of section 10101 of chapter 101 of Title 49 of the United States Code.

These presumptions shall not be deemed to exist where the application is opposed. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication, (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Agatha L. Mergenovich,

Secretary.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries to Team 3 at (202) 275–5223.

Volume No. OP3–241

Decided: May 26, 1983.

By the Commission, Review Board No. 3, Members Krock, Joyce, and Dowell.

MC 117465 (Sub-27), filed April 29, 1983. Applicant: BEAVER EXPRESS SERVICE, INC., d.b.a. BEAVER EXPRESS, P.O. Box 1147, Woodward, OK 73802. Representative: Timothy J. Herman 522 First Federal Plaza, Austin, TX 78701. BILLING CODE 7035-01-M

Motor Carrier Temporary Authority Application

The following are notices of filing of applications for temporary authority under Section 10928 of the Interstate Commerce Act and in accordance with the provisions of 49 CFR 1131.3. These rules provide that an original and two (2) copies of protests to an application may be filed with the Regional Office named in the **Federal Register** publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the **Federal Register**. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from the approval of its application.

A copy of the application is on file, and can be examined at the ICC Regional Office to which protests are to be transmitted.

Note.—All applications seek authority to operate as a common carrier over irregular routes except as otherwise noted.

Motor Carriers of Property

BILLING CODE 7035–01–M

Motor Carriers; Approved Exemptions

AGENCY: Interstate Commerce Commission.

ACTION: Notices of Approved Exemptions.

SUMMARY: The motor carriers shown below have been granted exemptions pursuant to 49 U.S.C. 11343(e), and the Commission's regulations in Ex Parte No. 400 (Sub-No. 1), *Procedures for Handling Exemptions Filed by Motor Carriers of Property Under 49 U.S.C. 1343,* 367 I.C.C. 113 (1982), 47 FR 53303 (November 24, 1982).

DATES: The exemptions will be effective on July 6, 1983. Petitions for reconsideration must be filed by June 27, 1983. Petitions for stay must be filed by June 16, 1983.

FOR FURTHER INFORMATION CONTACT: Warren C. Wood, (202) 275–7977.

SUPPLEMENTARY INFORMATION: For further information, see the decision(s) served in the proceeding(s) listed below. To purchase a copy of the full decision contact: TS Infosystems, Inc., Room 2227, 12th and Constitution Ave., NW, Washington, DC 20423; or call (202) 289–4357 in the DC metropolitan area; or (800) 424–5403 Toll-free outside the DC area.

Agatha L. Mergenovich,

Secretary.

[No. MC–F–15094]

L.W. Simpson and Joseph Simpson—Continuance in control exemption—Cross Country Corp., and Mid Seven Transportation Company

ADDRESSES: Send pleadings to: (1) Motor Section, Room 2139, Interstate Commerce Commission Washington D.C. 20423 and (2) Petitioner's representative William L. Fairbank, 2400 Financial Center Des Moines, Iowa 50309. Pleadings should refer to No. MC–F–15094.

Decided: May 25, 1983.

Under 49 U.S.C. 11343(e), The Interstate Commerce Commission exempts from the requirement of prior review and approval under 49 U.S.C. 11343(b)(2), the continuance in control of Cross Country, Corp., and Mid Seven Transportation Company by L.W. Simpson and Joseph Simpson and family.

By the Commission, Division 2, Commissioners Gradison, Taylor, and Sterrett. Commissioner Taylor is assigned to this Division for the purpose of resolving tie votes. Since there was no tie in this matter, Commissioner Taylor did not participate.

[No. MC–F–15157]

Alaska Terminals, Inc.—Control Exemption—Alaska SeaVan, Inc.

ADDRESSES: Send pleadings to: (1) Motor Section, Room 2139, Interstate Commerce Commission, Washington, D.C. 20423 and (2) Petitioners' representative J.G. Dail, Jr. P.O. Box LL, McLean, VA 22101. Pleadings should refer to No. MC–F–15157.

Decided: May 27,1983.

Under 49 U.S.C. 11343(e), the Interstate Commerce Commission exempts from the requirement of prior review and approval under 49 U.S.C. 11343(a)(3) the acquisition of control of Alaska SeaVan, Inc. (No. MC–136038), a regulated carrier doing business as Mitchell Moving and Storage, by Alaska Terminals, Inc. (No. MC–116491), through purchase by Alaska Terminals of all capital stock of Alaska SeaVan from Golden North Van Lines, Inc. (No. MC–140586).

By the Commission, Division 1, Commissioners Andre, Taylor, and Sterrett. Commissioner Taylor is assigned to this Division for the purpose of resolving tie votes. Since there was no tie in this matter, Commissioner Taylor did not participate.

[No, MC–F–15168]

Transport America, Inc.—Purchase Exemption—Chicago-St. Louis Transport Co.

ADDRESSES: Send pleadings to: (1) Motor Section, Room 2139, Interstate Commerce Commission, Washington, D.C. 20423 and (2) Petitioners representative, James C. Hardman, Suite 2108, 33 N. LaSalle St. Chicago, IL 60602. Pleadings should refer to No. MC–F–15168.

Decided: May 27, 1983.

Under 49 U.S.C. 11343(e), the Interstate Commerce Commission exempts from the requirement of prior review and approval under 49 U.S.C. 11343(a)(2), the purchase by Transport America, Inc., of a portion of the operating rights of Chicago-St. Louis Transport Co. i.e., Certificate Nos. MC–134493, (Sub-No. 9) X and MC–134493, authorizing (over regular routes) the transportation of (1) general commodities (with exceptions), between Chicago, IL and St. Louis, MO, and (2)

food and related products, and machinery, between St. Louis, MO and Waukegan, IL.

By the Commission, Division 2, Commissioners Gradison, Taylor, and Sterrett. Commissioner Taylor is assigned to this Division for the purpose of resolving tie votes. Since there was no tie in this matter, Commissioner Taylor did not participate.

BILLING CODE 7035-01-M

Motor Carriers; Decision-Notice; Finance Applications

As indicated by the findings below, the Commission has approved the following applications filed under 49 U.S.C. 10924, 10926, 10931 and 10932.

We find:

Each transaction is exempt from section 11343 of the Interstate Commerce Act, and complies with the appropriate transfer rules.

This decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

Petitions seeking reconsideration must be filed within 20 days from the date of this publication. Replies must be filed within 20 days after the final date for filing petitions for reconsideration; any interested person may file and serve a reply upon the parties to the proceeding. Petitions which do not comply with the relevant transfer rules at 49 CFR 1181.4 may be rejected.

If petitions for reconsideration are not timely filed, and applicants satisfy the conditions, if any, which have been imposed, the application is granted and they will receive an effective notice. The notice will recite the compliance requirements which must be met before the transferee may commence operations.

Applicants must comply with any conditions set forth in the following decision-notices within 20 days after publication, or within any approved extension period. Otherwise, the decision-notice shall have no further effect.

It is ordered:

The following applications are approved, subject to the conditions stated in the publication, and further subject to the administrative requirements stated in the effective notice to be issued hereafter.

By the Commission, Review Board Number 3, Members Krock, Joyce, and Dowell.

Agatha L. Mergenovich,

Secretary.

Please direct status inquiries to Team 4 at (202) 275-7669.

Volume No. OP4-FC-334

MC-FC-81482, filed May 16, 1983. By decision of May 25, 1983, issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1181, Review Board Number 3 approved the transfer to Reliable Crane and Rigging, Inc., d.b.a. Wilkins Draying Co., Sacramento, CA, of Certificate No. MC-69827, issued January 23, 1963, to Wilkins Draying Co., Sacramento, CA, authorizing the transportation of machinery, telephone poles and cables, and construction and building equipment, materials and supplies, between points within 85 miles of Sacramento, CA. Representative: Ellis Ross Anderson, 100 Bush St., Suite 410, San Francisco, CA 94104, (415) 421-6743.

Rail Carriers; Adoption of Uniform Rail Costing System for Determining Variable Cost for Jurisdictional Threshold and Surcharge Purposes

AGENCY: Interstate Commerce Commission.

ACTION: Extension of time to file comments on adoption of Commission's new Uniform Railroad Costing System.

SUMMARY: In the **Federal Register** notice of February 1, 1983 (48 FR 4562) the due date established for comments on the adoption of the Uniform Railroad Costing System for specific regulatory functions was June 1, 1983. At the request of the Association of American Railroads, Edison Institute and other parties the due date has been postponed to September 28, 1983.

DATE: Comments are due September 28, 1983.

ADDRESS: Send an original and 10 copies of any comments to: Office of the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

FOR FURTHER INFORMATION CONTACT: Leslie J. Selzer at (202) 275-7627.

Dated: May 25, 1983.

By the Commission, Reese H. Taylor, Jr., Chairman.

BILLING CODE 7035-01-M

[Docket No. AB-6 (Sub-147)]

Rail Carriers; Burlington Northern Railroad Co.—Abandonment—In Stevens and Pope Counties, MN; Findings

The Commission has issued a certificate authorizing Burlington Northern Railroad Company to abandon its line of railroad known as the Morris to Starbuck line extending from railroad milepost 66.00 near Morris, to milepost 67.00, at the end of the line near Starbuck, a distance of 19 miles to Stevens and Pope Counties, MN. The abandonment certificate will become effective 30 days after this publication unless the Commission also finds that: (1) a financially responsible person has offered financial assistance (through subsidy or purchase) to enable the rail service to be continued; and (2) it is likely that the assistance would fully compensate the railroad.

Any financial assistance offer must be filed with the Commission and served concurrently on the applicant, with copies to Mr. Louis E. Gitomer, Room 5417, Interstate Commerce Commission, Washington, DC 20423, no later than 10 days from publication of this Notice. Any offer previously made must be remade within this 10 day period.

Information and procedure regarding financial assistance for continued rail service are continued in 49 U.S.C. 10905 and 49 CFR 1152.27.

Agatha L. Mergenovich,

Secretary.

[Docket No. AB-31 (Sub-7)]

Rail Carriers; Grand Trunk Western Railroad Co.—Abandonment—In Huron County, MI; Findings

The Commission has issued a certificate authorizing Grand Trunk Western Railroad Company to abandon its 6.79 mile rail line between Pigeon, MI (milepost 92.84) and Caseville, MI (milepost 99.63) in Huron County, MI. The abandonment certificate will become effective 30 days after this publication unless the Commission also finds that: (1) a financially responsible person has offered financial assistance (through subsidy or purchase) to enable the rail service to be continued; and (2) it is likely that the assistance would fully compensate the railroad.

Any financial assistance offer must be filed with the Commission and served concurrently on the applicant, with copies to Mr. Louis E. Gitomer, Room 5417, Interstate Commerce Commission,

Washington, DC 20423, no later than 10 days from publication of this Notice. Any offer previously made must be remade within this 10 day period.

Information and procedures regarding financial assistance for continued rail service are contained in 49 U.S.C. 10905 and 49 CFR 1152.27.

BILLING CODE 7035-01-M

[I.C.C. Order No. P-54]

Passenger Train Operation

To: Union Pacific Railroad Company

It appearing, that the National Railroad Passenger Corporation (Amtrak) has established through passenger train service between Seattle, Washington and Los Angeles, California. The operation of these trains requires the use of the tracks and other facilities of Southern Pacific Transportation Company (SP). A portion of the SP tracks at Heather, Oregon, are temporarily out of service because of a derailment. An alternate route is available via the Union Pacific Railroad Company between Oregon Trunk Junction and Portland, Oregon.

It is the opinion of the Commission that the use of such alternate route is necessary in the interest of the public and the commerce of the people; that notice and public procedure herein are impracticable and contrary to the public interest; and that good cause exists for making this order effective upon less than thirty days' notice.

It is ordered,

(a) Pursuant to the authority vested in me by order of the Commission decided April 29, 1981, and of the authority vested in the Commission by Section 402(c) of the Rail Passenger Service Act of 1970 (45 USC 562(c)), the Union Pacific Railroad Company (UP), is directed to operate trains of the National Railroad Passenger Corporation (Amtrak) between Oregon Trunk Junction, Oregon, and a connectin with Southern Pacific Transportation Company (SP) at Portland, Oregon.

(b) In executing the provisions of this order, the common carriers involved shall proceed even though no agreements or arrangements now exist between them with reference to the compensation terms and conditions applicable to said transportation. The compensation terms and conditions shall be, during the time this order remains in force, those which are voluntarily agreed upoon by and between said carriers; or upon failure of the carriers to so agree, the compensation terms and conditions shall be as hereafter fixed by the Commission upon petition of any or all of the said carriers in accordance with pertinent authority conferred upon it by the Interstate Commerce Act and by the Rail Passenger Service Act of 1970, as amended.

(c) *Application.* The provisions of this order shall apply to intrastate, interstate and foreign commerce.

(d) *Effective date.* This order shall become effective at 7:30 a.m., May 24, 1983 (EDT).

(e) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., May 25, 1983, unless otherwise modified, amended, or vacated by order of this Commission.

This order shall be served upon Union Pacific Railroad Company and upon National Railroad Passenger Corporation (Amtrak), and a copy of this order shall be filed with the Director, Office of the Federal Register.

Issued at Washington, D.C., May 24, 1983.

Interstate Commerce Commission.

Bernard Gaillard,

Acting Director, Office of Compliance and Consumer Assistance.

Nationwide Coal Rate Guidelines; Extension of Time To File Comments

AGENCY: Interstate Commerce Commission.

ACTION: Extension of time to file comments to notice of proposed policy.

SUMMARY: In the **Federal Register** notice of April 26, 1983 (48 FR 18918) the due date established for comments on ratemaking issues was postponed to June 13, 1983. At the request of the Edison Electric Institute and other parties the due date has been further postponed by 45 days to July 28, 1983.

DATE: Comments are due July 28, 1983.

ADDRESS: Send an original and 10 copies of any comments to: Office of the Secretary, Interstate Commerce Commission, Washington, DC 20423.

FOR FURTHER INFORMATION CONTACT: Leslie J. Selzer at (202) 275-7627.

Dated: May 25, 1983.

For the Commission, Reese H. Taylor, Jr., Chairman.

NUCLEAR REGULATORY COMMISSION

Advisory Committee on Reactor Safeguards, Subcommittee on Committee Activities; Meeting

The ACRS Subcommittee on Committee Activities will hold a meeting on June 22, 1983, at Scripps Institution of Oceanography, Room 114, Administrative Building, 8602 La Jolla Shores Drive, La Jolla, Calif. The Subcommittee will disucss the future scope and direction of ACRS activities.

In accordance with the procedures outlined in the **Federal Register** on October 1, 1982 (47 FR 43474), oral or written statements may be presented by members of the public, recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by members of the Subcommittee and its Staff. Persons desiring to make oral statements should notify the cognizant Designated Federal Employee as far in advance as parcticable so that appropriate arrangements can be made to allow the necessary time during the meeting for such statements.

The entire meeting will be open to public attendance.

The agenda for subject meeting will be as follows: *Wednesday, June 22, 1983—8:30 a.m. until the conclusion of business.*

The Subcommittee members will exchange views regarding the future scope and direction of Committee activities.

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call to the cognizant designated Federal Employee, Mr. Marvin C. Gaske (telephone 202/634–3265) between 8:15 a.m. and 5:00 p.m., EDT.

Dated: May 31, 1983.

John C. Hoyle,

Advisory Committee Management Officer.

BILLING CODE 7590–01–M

[Docket No. 50–302]

Florida Power Corporation, et al.; Consideration of Issuance of Amendment to Facility Operating License and Proposed No Signficant Hazards Consideration Determination and Opportunity for Hearing

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Facility Operating License No. DPR–72, issued to Florida Power Corporation, City of Alachua, City of Bushnell, City of Gainesville, City of Kissimmee, City of Leesburg, City of New Smyrna Beach and Utilities Commission, City of New Smyrna Beach, City of Ocala, Orlando Utilities Commission and City of Orlando, Sebring Utilities Commission, Seminole Electric Cooperative, Inc., and the City of Tallahassee (the licensees), for operation of the Crystal River Unit No. 3 Nuclear Generating Plant (the facility) located in Citrus County, Florida.

The proposed amendment relates to the Cycle 5 reload, which has an increased cycle lifetime of 460 effective full power days (EFPD) instead of 350 EFPD in the previous cycle, and involves numerical changes to the regulating rod group insertion limit curves, the axial power shaping rod limit curves, the axial power imbalance envelope, and other related Technical Specification changes in accordance with the licensees' application for amendment dated March 31, 1983.

Before issuance of the proposed license amendment, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act) and the Commission's regulations.

The Commission has made a proposed determination that the amendment request involves no significant hazards consideration. Under the Commission's regulations in 10 CFR 50.92, this means that operation of the facility in accordance with the proposed amendment would not (1) involve a significant increase in the probability or consequences of an accident previously evaluated; or (2) create the possibility of a new or different kind of accident from any accident previously evaluated; or (3) involve a significant reduction in a margin of safety.

The Commission has provided guidance concerning the application of these standards by providing certain Examples (48 FR 14870). One of the examples of actions involving no significant hazards considerations relates to reload amendments involving no fuel assemblies significantly different from those found previously acceptable to the NRC for a previous core at the facility in question. This assumes that no significant changes are made to the acceptance criteria for the technical specifications, that the analytical methods used to demonstrate conformance with the technical specifications and regulations are not significantly changed, and that NRC has previously found such methods acceptable. The proposed amendment would permit operation for Cycle 5 with fuel that is not signficantly different from that used in previous cycles. The mechanical design of the fuel assemblies in Cycle 5 is unchanged from Cycle 4. There are no significant changes in the nuclear design of Cycle 5. The thermal-hydraulic design evaluation remains bounded by the Final Safety Analysis Report and the previous reloads and the thermal performance of the core during accidents and transients for the Cycle 5 reload remains within the bounds of previously accepted analyses. The additional cycle lifetime (460 EFPD vs 350 EFPD) is achieved by minor differences in fuel enrichment and compensated for by minor operational changes and by a larger quantity of burnable poison in the core. Therefore, the Commission proposes to determine that the proposed amendment does not involve a significant hazards consideration.

The Commission is seeking public comments on this proposed determination. Any comments received within 30 days after the date of publication of this notice will be considered in making any final determination. The Commission will not normally make a final determination unless it receives a request for a hearing.

Comments should be addressed to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attn: Docketing and Service Branch.

By July 7, 1983, the licensees may file a request for a hearing with respect to issuance of the amendment to the subject facility operating license and any person whose interest may be affected by this proceeding and who wishes to participate as a party in the proceeding must file a written petition for leave to intervene. Request for a hearing and petitions for leave to intervene shall be filed in accordance with the Commission's "Rules of Practice for Domestic Licensing Proceedings" in 10 CFR Part 2. If a request for a hearing or petition for leave to intervene is filed by the above date, the Commission or an Atomic Safety and Licensing Board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel, will rule on the request and/or petition and the Secretary or the designated Atomic Safety and Licensing Board will issue a notice of hearing or an appropriate order.

As required by 10 CFR 2.714, a petition for leave to intervene shall set forth with particularity the interest of the petitioner in the proceeding, and how that interest may be affected by the results of the proceeding. The petition should specifically explain the reasons why intervention should be permitted with particular reference to the following factors: (1) The nature of the petitioner's right under the Act to be made a party to the proceeding; (2) the

nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be entered in the proceeding on the petitioner's interest. The petition should also identify the specific aspect(s) of the subject matter of the proceeding as to which petitioner wishes to intervene. Any person who has filed a petition for leave to intervene or who has been admitted as a party may amend the petition without requesting leave of the Board up to fifteen (15) days prior to the first prehearing conference scheduled in the proceeding, but such an amended petition must satisfy the specificity requirements described above.

Not later than fifteen (15) days prior to the first prehearing conference scheduled in the proceeding, a petitioner shall file a supplement to the petition to intervene which must include a list of the contentions which are sought to be litigated in the matter, and the bases for each contention set forth with reasonable specificity. Contentions shall be limited to matters within the scope of the amendment under consideration. A petitioner who fails to file such a supplement which satisfies these requirements with respect to at least one contention will not be permitted to participate as a party.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have the opportunity to participate fully in the conduct of the hearing, including the opportunity to present evidence and cross-examine witnesses.

If a hearing is requested, the Commission will make a final determination on the issue of no significant hazards consideration. The final determination will serve to decide when the hearing is held.

If the final determination is that the amendment request involves no significant hazards consideration, the Commission may issue the amendment and make it effective, notwithstanding the request for a hearing. Any hearing held would take place after issuance of the amendment.

If the final determination is that the amendment involves a significant hazards consideration, any hearing held would take place before the issuance of any amendment.

Normally, the Commission will not issue the amendment until the expiration of the 30-day notice period. However, should circumstances change during the notice period such that failure to act in a timely way would result, for example, in derating or shutdown of the facility, the Commission may issue the license amendment before the expiration of the 30-day notice period, provided that its final determination is that the amendment involves no significant hazards consideration. The final determination will consider all public and State comments received. Should the Commission take this action, it will publish a notice of issuance and provide for opportunity for a hearing after issuance. The Commission expects that the need to take this action will occur very infrequently.

A request for a hearing or a petition for leave to intervene must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Branch, or may be delivered to the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C., by the above date. Where petitions are filed during the last ten (10) days of the notice period, it is requested that the petitioner promptly so inform the Commission by a toll-free telephone call to Western Union at (800) 325-6000 (in Missouri (800) 342-6700). The Western Union operator should be given Datagram Identification Number 3737 and the following message addressed to John F. Stolz: petitioner's name and telephone number; date petition was mailed; plant name; and publication date and page number of this **Federal Register** notice. A copy of the petition should also be sent to the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, and to S. A. Brandimore, Florida Power Corporation, Vice President and General Counsel, P.O. Box 14042, St. Petersburg, Florida 33733.

Nontimely filings of petitions for leave to intervene, amended petitions, supplemental petitions and/or requests for hearing will not be entertained absent a determination by the Commission, the presiding officer or the Atomic Safety and Licensing Board designated to rule on the petition and/or request, that the petitioner has made a substantial showing of good cause for the granting of a late petition and/or request. That determination will be based upon a balancing of the factors specified in 10 CFR 2.714(a)(1)(i)–(v) and 2.714(d).

For further details with respect to this action, see the application for amendment which is available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C., and at the Crystal River Public Library, 668 N. W. First Avenue, Crystal River, Florida.

Dated at Bethesda, Maryland, this 31st day of May 1983.

For the Nuclear Regulatory Commission.

John F. Stolz,

Chief, Operating Reactors Branch No. 4, Division of Licensing.

[Release No. 34-19829; File No. SR-NASD-83-6]

Self-Regulatory Organizations; Proposed Rule Change by National Association of Securities Dealers, Inc.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), notice is hereby given that on May 11, 1983, the National Association of Securities Dealers, Inc. filed with the Securities and Exchange Commission the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The following is the full text of the proposed amendment to Section 24 to Appendix E to Section 33 of Article III of the Association's Rules of Fair Practice.

Note.—Additions are italicized; deletions are bracketed.

Appendix E

* * * * *

Section 24—Options Transactions and Reports by Market Makers in Listed Securities

Every member who is [a] *an off-board* market maker in a security listed on a national securities exchange shall report to the Association in accordance with such procedures as may be prescribed by the Board of Governors, [any transaction either directly or indirectly for the benefit of such member and/or any partner, officer or director of the member in any option contract for which such security is the underlying security]. *transactions involving 50 or more option contracts on such listed securities which are either directly for the benefit of (a) the member or (b) any employee, partner, officer, or director of the member who, by virtue of his position with the member, is directly involved in the purchase or sale of the underlying security for the firm's proprietary account(s) or is directly responsible for supervision of such persons; or who by virtue of his position in the firm, is authorized to, and regularly does, obtain information on the proprietary account(s) of the member in which the underlying security is traded.* This rule shall apply to all options transactions including those executed on an exchange to which the member may belong.

II. Self-Regulatory Organization's Statements Regarding the Proposed Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization bas prepared summaries, set forth in Sections (A), (B), and (C) below, of the most significant aspects of such statements.

(A) Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

The purpose of the rule change, which was promulgated after receiving comment that the rule as presently structured could result in an unnecessary reporting burden on certain members, is to reduce that burden while maintaining a level of information reporting consistent with the purposes of the rule. The comments received after original implementation of the rule stated that for certain members monitoring of all options transactions for all officers of the firms would create a substantial administrative burden in that some firms have a very large class of employees who are officers of the member but whose responsibilities are totally unrelated to the firm's market making activities.

Under the amended rule, transactions would be reportable only if they are undertaken for the benefit of the member firm or for individuals who are directly involved in the purpose or sale of the underlying security for the firm's proprietary accounts or who are directly responsible for supervision of those persons. In addition, any other employee, partner, officer or director of the firm who, on a routine basis, receives information relating to the firm's proprietary accounts would be covered by the reporting requirement. In an additional effort to make the reporting requirement less burdensome and more meaningful to the Association's Market Surveillance Department, reporting would be required only when a covered account engages in transactions involving 50 or more option contracts in the security on any date during the Association's monthly reporting period since transactions of a lesser volume would have little impact on the marketplace.

Section 15A(b)(6) of the Act which applies to registered securities associations, requires that "[t]he rules of the association [be] designed to prohibit fraudulent and manipulative acts and practices, to promote just and equitable principles of trade . . . [and] to remove impediments to and perfect the mechanism of a free and open market and a national market system." The Association believes that the proposed amendment would still allow the meaningful monitoring of transactions in furtherance of this end but with a diminished reporting burden on its members.

(B) Self-Regulatory Organization's Statement on Burden on Competition

The proposed rule change will not result in a burden on competition in that it reduces an existing reporting requirement.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Association's Rules of Fair Practice provides that Appendix E may be amended by the Board without recourse to the membership. The amendment was, however, circulated to members making off-board markets in optionable exchange listing securities. One comment was received suggesting further reducing the scope transactions to be reported but this suggestion was not deemed appropriate by the Association.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) By order approve such proposed rule change, or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, D.C. 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street, NW., Washington, D.C. Copies of such filings will also be available for inspection and copying at the principal office of the above mentioned self-regulatory organization. All submissions should refer to the file number in the caption above and should be submitted within 21 days after the date of this publication.

For the Commission by the Division of Market Regulation pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

May 31, 1983.

Petition for Exemption; Summary of Petitions Received; Dispositions of Petitions Issued

Correction

In FR Doc. 83–12126 appearing on page 23015 in the issue of Monday, May 23, 1983, make the following correction:

In the table on page 23015, under *Docket No.*, the number for Jack Vance McCain now reading "2365" should have read "23625".

BILLING CODE 1505–01–M

National Highway Traffic Safety Administration

[Docket No. IP83–4; Notice 1]

Alliance Tire & Rubber Company Ltd.; Receipt of Petition for Determination of Inconsequential Noncompliance

Alliance Tire & Rubber Company Ltd. of Hadera, Israel, has petitioned to be exempted from the notification and remedy requirements of the National Traffic and Motor Vehicle Safety Act (15 U.S.C. 1381 *et seq.)* for an apparent noncompliance with 49 CFR 571.119, Motor Vehicle Safety Standard No. 119, *New Pneumatic Tires for Vehicles Other Than Passenger Cars.* The basis of the petition is that the noncompliance is inconsequential as it relates to motor vehicle safety.

This notice of receipt of a petition for a determination of inconsequentiality is published in accordance with section 157 of the National Traffic and Motor Vehicle Safety Act (15 U.S.C. 1417) and does not represent any agency decision or other exercise of judgment concerning the merits of the petition

Paragraph S6.5(f) of Standard No. 119 requires tires to be marked with the actual number of plies and the composition of the ply cord material in the sidewall and, if different, in the tread area. Alliance produced 150 truck tires size 11R24.5 between the 4th and 8th week of 1983 with incorrect markings. The sidewalls read "...Tread 5 Ply Steel Sidewall 1 Plies (sic) Nylon" instead of the correct marking, "...Tread 5 Ply Steel Sidewall 1 Ply Steel".

Petitioner argues that the error has an inconsequential relationship to motor vehicle safety as the tires otherwise comply with Standard No. 119.

Interested persons are invited to submit written data, views and arguments on the petition of Alliance Tire & Rubber Company described above. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5109, 400 Seventh Street, S.W., Washington, D.C. 20590. It is requested but not required that five copies be submitted.

All comments received before the close of business on the comment closing date indicated below will be considered. The application and supporting materials and all comments received after the closing date will also be filed and will be considered to the extent possible. When the petition is granted or denied, notice will be published in the **Federal Register** pursuant to the authority indicated below.

The engineer and attorney primarily responsible for this notice are P. L. Moore and Taylor Vinson, respectively.

Comment closing date: July 6, 1983.

(Sec. 102, Pub. L. 93–492, 88 Stat. 1470 (15 U.S.C. 1417); delegations of authority at 49 CFR 1.50 and 49 CFR 501.8)

Issued on May 27, 1983.

Kennerly H. Digges,

Acting Associate Administrator for Rulemaking.

BILLING CODE 4910–59–M

OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

Advisory Committee For Trade Negotiations; Closed Meeting

The meeting of the Advisory Committee for Trade Negotiations (the Advisory Committee) to be held Wednesday, June 29, 1983, from 2:00 p.m. to 5:00 p.m. at the Federal Home Loan Bank Board Amphitheater, will involve a review and discussion of the current issues involving the trade policy of the United States. The review and discussion will deal with information submitted in confidence by the private sector members of the Committee under Section 135(g)(1)(A) of the Trade Act of 1974, as amended (the Act); information submitted by government officials under Section 135(g)(2) of the Act the disclsoure of which could be reasonably expected to prejudice United States negotiating objectives; information the disclosure of which would be likely to significantly frustrate implementation of proposed government action; and information properly classified pursuant to Executive Order 12356 and specifically required by such Order to be kept secret in the interests of national security (i.e., the conduct of foreign relations) of the United States. All members of the Advisory Committee have all necessary security clearances. Consistent with previous determinations concerning other advisory committees, established under Section 135(c) of the Act, I hereby determine that the meeting of the Advisory Committee will be concerned with matters listed above and with matters listed in Section 552b(c) of Title 5 of the United States Code. Therefore, the meeting of the Advisory Committee for Trade Negotiations will be closed to the public.

More detailed information can be obtained by contacting Phyllis O. Bonanno, Director, Office of Private Sector Liaison, Office of the United States Trade Representative, Executive Office of the President, Washington, D.C. 20506.

William E. Brock,

United States Trade Representative.

Trade Policy Staff Committee; Generalized System of Preferences (GSP) Subcommittee Notice of Results of Reviews of Petitions Requesting Changes in the List of Articles Eligible for Duty-Free Treatment Under the GSP

This publication provides the disposition of the petitions accepted for review in the 1982 annual product review and other petitions as listed below. These petitions requested changes in the list of imported articles eligible for duty-free treatment under the U.S. Generalized System of Preferences (GSP). The GSP is provided for in the Tade Act of 1974 (19 U.S.C. 2461–2465). The review was conducted pursuant to regulations codified at 15 CFR 2007. Results of the review were implemented as of March 31, 1983, by Executive Order 12413 of March 30, 1983 (48 FR 13821). All communications with respect to this notice should be addressed to the Executive Director, Generalized System of Preferences, Office of the United States Trade Representative, Room 316, 600 17th Street, N.W., Washington, D.C. 20506. Questions may be directed to any member of the GSP Information Center at (202) 395–6971.

Frederick L. Montgomery,

Chairman, Trade Policy Staff Committee.

1

CONSUMER PRODUCT SAFETY COMMISSION

Agenda

TIME AND DATE: 10 a.m., Wednesday, June 8, 1983.

LOCATION: Third Floor Hearing Room, 1111–18th Street NW., Washington, D.C.

STATUS: Open to the Public.

MATTERS TO BE CONSIDERED:

1. *Chain Saws: Status Report*
The staff will brief the Commission on the report on the status of the chain saw project. The report includes information on: (1) The availability and use of various chain saw safety devices; (2) selected preliminary results from the consumer chain saw survey; (3) Summary of the ANSI B175 Committee Meetings; (4) summary of hand-held tests; (5) status of chain saw injury surveys; and (6) report on chain saw information and education activities.

2. *Closure Test Apparatus: Status Report*
The staff will brief the Commission on the report on the status of development of closure testing apparatus for use in evaluating child-resistant packaging.

3. *Diphenhydramine*
The Commission will consider whether or not to propose a regulation, under the Poison Prevention Packaging Act (PPPA), to require child-resistant packaging for over-the-counter (OTC) drug products containing diphenhydramine.

(For a recorded message containing the latest agenda information: call 301–492–5709)

CONTACT PERSON FOR ADDITIONAL INFORMATION: Sheldon D. Butts, Office of the Secretary, 5401 Westbard Ave., Bethesda, Md. 20207, 301–492–6800.

[S–800–83 Filed 6–2–83; 1:27 pm]

BILLING CODE 6355–01–M

2

FEDERAL MINE SAFETY AND HEALTH REVIEW COMMISSION

TIME AND DATE: 10 a.m., Wednesday, June 8, 1983.

PLACE: Room 600, 1730 K Street, N.W., Washington, D.C.

STATUS: Open.

MATTERS TO BE CONSIDERED: The Commission will consider and act upon the following:

1. Secretary of Labor *ex rel.* Ball v. B & B Mining Co., Inc., et al., Docket No. VA 80–128–D. (Issues include consideration of Secretary of Labor's motion to withdraw his petition for review and to dismiss the case.)

CONTACT PERSON FOR MORE INFORMATION: Jean Ellen, (202) 653–5632.

[S–802–83 Filed 6–2–83; 2:21 p.m.]

BILLING CODE 6735–01–M

3

FEDERAL TRADE COMMISSION

TIME AND DATE: 2:30 p.m., Monday, June 13, 1983.

PLACE: Room 432, Federal Trade Commission Building, 6th Street and Pennsylvania Avenue, N.W., Washington, D.C. 20580.

STATUS: Open.

MATTER TO BE CONSIDERED: Consideration of Proposed Trade Regulation Rule on Credit Practices.

CONTACT PERSON FOR MORE INFORMATION: Susan B. Ticknor, Office of Public Information: (202) 523–1892; Recorded Message: (202) 523–3806.

[S–799–83 Filed 6–2–83; 10:35 am]

BILLING CODE 6750–01–M

4

OCCUPATIONAL SAFETY AND HEALTH REVIEW COMMISSION

TIME AND DATE: 10 a.m. on June 23, 1983.

PLACE: Suite 316, 1825 K Street, N.W., Washington, D.C.

STATUS: Because of the subject matter, it is likely that this meeting will be closed.

MATTERS TO BE CONSIDERED: Discussion of specific cases in the Commission adjudicative process.

CONTACT PERSON FOR MORE INFORMATION: Mrs. Patricia Bausell. (202) 634–4015.

Date: June 2, 1983.

[S–801–83 Filed 6–2–83; 3:07 pm]

Part II

Department of Defense

Privacy Act of 1974; Annual Publication of Systems of Records

DEPARTMENT OF DEFENSE

Privacy Act of 1974; DoD System Notices

AGENCY: Department of Defense.

ACTION: Publication of system notices.

SUMMARY: The Department of Defense is publishing in their entirety the system notices for all of the systems of records maintained by that agency as of December 31, 1982.

DATES: All of the system notices listed have been previously published in the **Federal Register** as required by 5 U.S.C. § 552a(e)(11).

FOR FURTHER INFORMATION CONTACT: Lt. Col. William C. Goforth, USAF, Staff Executive (Attorney), Defense Privacy Board, c/o OSD Mail Room, Rm: 3A–948, The Pentagon, Washington, D.C. 20301. Telephone: 202/694–3027.

SUPPLEMENTARY INFORMATION: This publication represents a complete listing of all of the DoD systems of records subject to the Privacy Act of 1974 as amended Title 5, United States Code Section 552a being maintained as of December 31, 1982.

Anyone wishing to determine if he or she is included in any system, seeking access to any system or requesting amendment of a record in any system should contact the appropriate Component official listed in the applicable system notice.

The systems of records subject to the Privacy Act are maintained under the guidance of the following components:

Component	System identifier
The Department of the Army	A.
Defense Mapping Agency	B
Defense Criminal Investigative Service (Now Office of Inspector General, DoD).	C
Office of the Secretary of Defense	D
Defense Advanced Research Projects Agency	E
Department of the Air Force[1]	F.
National Security Agency	G.
Defense Nuclear Agency	H.
Organization of the Joint Chiefs of Staff	J.
Defense Communication Agency	K.
Defense Intelligence Agency	L
United States Marine Corp	M
Department of the Navy	N.
Defense Contract Audit Agency	R.
Defense Logistics Agency	S.
Defense Investigative Service	V.
Uniformed Services University of Health Science	W.

[1] The Department of the Air Force systems of records will be published at a later date.

The Component system identifier appears as the first symbol in the system identification number assigned each system of records for which the component provides guidance.

M. S. Healy,

OSD Federal Register Liaison Officer. Defense Privacy Board.

April 14, 1983.

BILLING CODE 3810–01–M

UNITED STATES ARMY

How Systems of Records are Arranged

Department of the Army records are arranged by major functional categories. Systems of records notices are grouped similarly. For example, a system of records about assignment of military personnel may be found in the 'military personnel' functional area - the 700 series; medical treatment records are in the 'medical' functional area - the 900 series. Some subjects, such as investigations, are treated as sub-elements of a major function; e.g., 'military police', 'security', and 'intelligence' investigations are found in the 500 series; 'criminal' investigations in the 400 series; 'military personnel' investigations in the 700 series. 'Civilian personnel' investigations, however, are not covered by Army system notices but can be found in Civil Service Commission systems of records - in this case, under 'CSC/GOVT-4'. The following list serves as a general guide to subjects which are retrieved by personal identifier and are contained in the Army systems of record notices. To this guide have been added Civil Service Commission systems of record notices which identify records in the temporary custody of the Army and bear CSC/GOVT identification numbers.

How to Use the Index Guide

As an aid in locating a particular system of records, follow the general guide below. The series in which the subject is located will appear as numbers of the system notice identification. For example: pay records for military and civilian personnel are in the 300 series; comparable system notices are A0305.08aDACA and A0306.01aDACA respectively. The first letter A represents the Army and the suffix letters are internal management accounting devices. System notices are published in numerical sequence. Following the identification number, the system notice is further identified by name, location, and the category of individuals included.

REQUESTING RECORDS

Records are retrieved by name or by some other personal identifier. It is therefore especially important for expeditious service when requesting a record that particular attention be provided to the Notification and/or Access Procedures of the particular record system involved so as to furnish the required personal identifiers, or any other pertinent personal information as may be required, to locate and retrieve the record.

BLANKET ROUTINE USES

Certain blanket 'routine uses' of the records have been established, that are applicable to every record system maintained within the Department of Defense, unless specifically stated otherwise within a particular record system. These additional blanket routine uses of the records are published below, only once in the interest of simplicity, economy and to avoid redundancy, before the individual record system notices begin rather than repeating them in every individual record system.

ROUTINE USE - LAW ENFORCEMENT

In the event that a system of records maintained by this component to carry out its functions indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute, or by regulation, rule or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether federal, state, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, rule, regulation or order issued pursuant thereto.

ROUTINE USE - DISCLOSURE WHEN REQUESTING INFORMATION

A record from a system of records maintained by this component may be disclosed as a routine use to a federal, state or local agency maintaining civil, criminal or other relevant enforcement information or other pertinent information, such as current licenses, if necessary to obtain information relevant to a component decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant or other benefit.

ROUTINE USE - DISCLOSURE OF REQUESTED INFORMATION

A record from a system of records maintained by this component may be disclosed to a federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

ROUTINE USE - CONGRESSIONAL INQUIRIES

Disclosure from a system of records maintained by this component may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

ROUTINE USE WITHIN THE DEPARTMENT OF DEFENSE

A record from a system of records maintained by this component may be disclosed as a routine use to other components of the Department of Defense if necessary and relevant for the performance of a lawful function such as, but not limited to, personnel actions, personnel security actions and criminal investigations of the Component requesting the record.

ROUTINE USE - PRIVATE RELIEF LEGISLATION

Relevant information contained in all systems of records of the Department of Defense published on or before August 22, 1975, will be disclosed to the Office of Management and Budget in connection with the review of private relief legislation as set forth in OMB Circular A-19 at any stage of the legislative coordination and clearance process as set forth in that Circular.

ROUTINE USE - DISCLOSURES REQUIRED BY INTERNATIONAL AGREEMENTS

A record from a system of records maintained by this Component may be disclosed to foreign law enforcement, security, investigatory, or administrative authorities in order to comply with requirements imposed by, or to claim rights conferred in international agreements and arrangements including those regulating the stationing and status in foreign countries of Department of Defense military and civilian personnel.

ROUTINE USE - DISCLOSURE TO STATE AND LOCAL TAXING AUTHORITIES

Any information normally contained in IRS Form W-2 which is maintained in a record from a system of records maintained by this Component may be disclosed to State and local taxing authorities with which the Secretary of the Treasury has entered into

agreements pursuant to Title 5, U.S.Code, Sections 5516, 5517, 5520, and only to those State and local taxing authorities for which an employee or military member is or was subject to tax regardless of whether tax is or was withheld. This routine use is in accordance with Treasury Fiscal Requirements Manual Bulletin Nr. 76-07.

ROUTINE USE - DISCLOSURE TO THE OFFICE OF PERSONNEL MANAGEMENT

A record from a system of records subject to the Privacy Act and maintained by this component may be disclosed to the Office of Personnel Management concerning information on pay and leave, benefits, retirement deductions, and any other information necessary for the Office of Personnel Management to carry out its legally authorized Government-wide personnel management functions and studies.

ROUTINE USE - DISCLOSURE OF INFORMATION TO NARS (GSA)

A record from a system of records maintained by this component may be disclosed as a routine use to the National Archives and Records Service of the General Services Administration in records management inspections conducted under authority of 44 U.S.C. 2904 and 2906.

ROUTINE USE - DISCLOSURE TO DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

All systems of records relating to compensation, employment or retirement, or extracts therefrom, maintained by this Component may be disclosed as a routine use to the Department of Health, Education, and Welfare for the purpose of comparing such record with records of programs administered by and in the possession of the Department of Health, Education, and Welfare in order to verify information where such verification is required by law or regulation or to identify violations or potential violations of law, whether criminal, civil, or regulatory, and whether arising by general statute or particular program statute, or by regulation, rule, or order issued pursuant thereto.

AAFES0207.02

SYSTEM NAME:

0207.02 Customer Comments, Complaints, and Direct Line Files.

SYSTEM LOCATION:

Headquarters (HQ) Army and Air Force Exchange Service (AAFES), Command and Public Relations Division; also oversea system headquarters, regional headquarters, area exchanges and individual exchanges, within the worldwide system.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Customer inquiries, complaints, and comments on all phases of AAFES operations; also, customer opinion survey information.

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains: Customer addresses, telephone numbers, information pertaining to nature of the inquiry, research information, and AAFES response to the customer.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 3012.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Specifically data includes such things as employee's name and social security number, PCS order number, employee's grade, marital status, number of dependents, present location and new assignment location. Additionally, all cost data relating to shipment, handling and storage of employee's personal property is captured in this system.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10, United States Code, Sections 3012 and 8012.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Personal Property Section-to review costs, by type, for all employee personal property shipments. To monitor records of payment and other statistical reports pertaining to personal property transactions.

General Accounting Branch, Comptroller Division-to monitor charges incurred by AAFES for shipping, handling, and storing of employee's personal property and to initiate payments accordingly.

Regional Storage Management Offices (RSMO)-to monitor volume of AAFES employees' personal property in non-temporary storage and the value of invoices paid.

Release of information contained in this system of records is made to civil or criminal law enforcement agencies for

law enforcement purposes and to officials and employees of the Department of Defense who have a need for the information in the performance of their duties.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Computer magnetic tapes, microfiche, and computer paper printouts.

RETRIEVABILITY:

Microfiche-by social security number and employee's name.

Computer Magnetic Tapes-by specific parameters as required by System Operating Procedures-AAFES Training Guide No. 1014.

Computer Paper Printouts-access depends upon the parameters used to generate the reports. The reports will be filed either by general parameter or by employee's name and social security number. Reports that specify employee name and social security number are of a one time nature and are destroyed after use.

SAFEGUARDS:

Building employs security guards. Magnetic tapes are kept in secured room in Data Processing Division which allows authorized personnel only.

Microfiche-maintained by Personal Property Section and Data Processing Division in filing cabinets accessible to authorized personnel only.

Computer Paper Printouts are maintained in filing cabinets in Personal Property Section.

RETENTION AND DISPOSAL:

Magnetic Tapes (Active)-maintained for 4 weeks in Data Processing Division, HQ AAFES.

Magnetic Tapes (History)-records are permanent, maintained in Data Processing Division, HQ AAFES.

Magnetic Tapes (COM)-maintained for 6 weeks in Data Processing Division, HQ AAFES.

Microfiche-maintained for 3 years by Personal Property Section, Distribution Division, HQ AAFES, and then destroyed.

Computer Paper Printouts-as needed by Personal Property Section, Distribution Division, HQ AAFES.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Administrative Services Division, HQ AAFES.

NOTIFICATION PROCEDURE:

Information may be obtained from:
HQ AAFES (AD)
3911 Walton Walker Blvd.
Dallas, Texas 75222
Telephone: Area Code 214/330-2011

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to Headquarters, Army and Air Force Exchange Service (HQ AAFES), Director, Distribution Division, Dallas, Texas 75222.

Written requests for information should contain the full name of the individual, social security number, current address, and telephone number.

For personal visits, the individual should be able to provide acceptable identification such as driver's license, etc.

CONTESTING RECORD PROCEDURES:

The Agency's rules for access to records and for contesting contents and appealing initial determinations may be obtained from the System Manager.

RECORD SOURCE CATEGORIES:

Employee's travel orders; Department of Defense (DOD) approved carriers and storage contractors invoices and substantiating documentation; Military Airlift Command, Military Sealift Command, and Military Traffic Management Command billing offices; Comptroller Division-HQ AAFES.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

SYSTEM NAME:

0903.06 Personal Profile.

SYSTEM LOCATION:

Headquarters (HQ) Army and Air Force Exchange Service (AAFES), Dallas, TX 75222; HQ AAFES-Pacific; HQ AAFES-Europe; HQ AAFES-Alaska; Continental United States (CONUS) exchange regions; oversea regional Exchanges; post and base area exchanges within the AAFES system.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All United States citizen (to include permanent-resident alien, non-immigrant alien) employees with category of regular full-time, regular part-time temporary full time, and temporary part-time who are serving as managerial (Universal Annual (UA)) employees.

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains social security number (SSN); name; date of birth; date of hire; citizenship; marital status; sex; security clearance to include type; employment category; pay plan; grade; step; mobility status; place of birth; date in grade; date in step; assignment/health restrictions; date of last Executive Management Program (EMP) physical examination; passport issuance date; number of dependents to accompany upon reassignment; dates of military service; number of months active military service; date assigned to an overseas area; date returned to the CONUS; foreign languages to include degree of proficiency; education to include high school, name of college, major, minor, type of degree, date completed, non-graduate semester/quarter hours completed, whether or not currently enrolled in college, and whether or not seeking a degree; professional licenses; professional/technical field of study to include date completed; assignment preference locations (overseas and within CONUS); career area interests outside current field; dependents to include name, date of birth, relationship, country of citizenship, and health restrictions; emergency contact to include name and address; whether or not employee is home-owner; training courses to include date, title, and type (AAFES, management development, correspondence, professional/technical; EMP member and date status attained; employment experience (beginning with current data) to include date in facility, location, date-in-job, job code, and job title.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Sections 3012 and 8012.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Personnel Division: To obtain information on current and past employment training history, education, and personal data for the purposes of job assignment, promotions, and career progression.

Servicing Personnel Offices located at CONUS exchange regions, area exchanges; and oversea headquarters, regional exchanges, and area exchanges: To provide hard-copy documentation on employee's career progression. CONUS exchange regions and overseas headquarters forward copy to gaining regional/area exchange where it is filed in Official Personnel Folder (OPF).

Personnel Division and Servicing Personnel Offices: Release of information contained in the system of records is made to civil or criminal law enforcement agencies for law enforcement purposes and to officials and employees of the Department of Defense who have a need for the

information in the performance of their duties.

Employee: To provide a permanent record of data as updated.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Computer printout maintained in Career Management Folder (CMF), Personnel Division; Convenience Personnel Folder (CPF) at CONUS Exchange regions; oversea headquarters; and OPF at gaining regional/area Exchange. All records are retrieved, retained, stored, and disposed of by authorization of the Director, Personnel Division.

RETRIEVABILITY:

Usually by SSN; however, capability exists to retrieve by any data item.

SAFEGUARDS:

The computer facility and terminal are located in restricted areas accessible only to authorized persons that are properly screened, cleared and trained. Personal Profiles are available only to authorized personnel having access to CMFs and OPFs where copies are maintained.

RETENTION AND DISPOSAL:

Disk file: Retained for 18 months after separation and destroyed, with the exception of employees terminated under disciplinary action (ineligible for rehire), retired employees and all UA Salary Plan employees, whose files remain a permanent record.

Computer printout:

CMF: Maintained in Career Management Branch, HQ AAFES and destroyed 3 years after employee is separated.

CPF: Transferred to gaining CONUS exchange region upon transfer of employee; oversea headquarters. Destroyed 1 year after employee is separated.

OPF: Placed in inactive file upon separation. Held at Servicing Personnel Office 1 year then forwarded to National Personnel Records Center (Civilian), 111 Winnebago Street, St. Louis, MO 63118. May be retired 3 months after separation when the volume of inactive OPF creates a storage problem.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Personnel Division, HQ AAFES, Dallas, TX 75222.

AAFES0903.06f

SYSTEM NAME:

0903.06 Personnel Management Information System (PMIS).

SYSTEM LOCATION:

Disk files and computer tapes are maintained at Headquarters (HQ) Army and Air Force Exchange Service (AAFES), Dallas, TX 75222.

System maintenance and output products are maintained by Servicing Personnel Offices of the AAFES.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All United States citizen (to include permanent-resident alien, non-immigrant alien) employees with category of regular full-time, regular part-time, temporary full-time, temporary part-time, and intermittent employment.

CATEGORIES OF RECORDS IN THE SYSTEM:

The system consists of those documents necessary to maintain the centralized AAFES personnel data base, that information which is mechanically stored, and a variety of computer printouts related to the personnel management function of AAFES. The system contains the following information: (a) non-managerial employees: social security number (SSN); name; Exchange location; home address to include street, city, state/country, zip code/Army Post Office (APO); date of birth; date of hire; leave accrual date; retirement participation date; service award base date; citizenship; marital status; sex; security clearance to include type; current and prior military status; prior AAFES service to include type; sponsor affiliation where the employee is a dependent of a US government/military member; job code and title; employment category; pay plan; wage schedule number; grade step; base hourly rate; scheduled work week and shift; commission rate where applicable to commission pay plan employees; Federal and State exemptions; type of insurance coverage; deductions to include janitorial fee, union dues, employees' association, Combined Federal Campaign, Panamanian hospital and life insurance supplement; disability identification; minority code; city tax code and deduction; (b) managerial employees: all of the above as well as mobility status; place of birth; date in grade and step; assignment/health restrictions; date of last Executive Management Program (EMP) physical examination; passport issuance date; number of dependents to accompany upon reassignment; dates of military service; number of months' active military service; date assigned to an oversea area; date returned to the Continental United States (CONUS); foreign languages to include degree of proficiency; education to include high school, name of college, major, minor, type of degree, date completed, non-graduate semester/quarter hours completed, whether or not currently enrolled in college and seeking a degree; professional licenses; professional/technical field of study to include date completed; assignment preference location (overseas and within the CONUS; career area interests outside current field; dependents to include name, date of birth, relationship, country of citizenship, and health restrictions; emergency contact to include name and address; whether or not employee is homeowner; training courses to include date, title, type (AAFES, management development, correspondence, professional/technical); EMP member and date status attained; and Personnel Evaluation Report to include period covered, total score, overall evaluation, promotion potential, career area, and recommended outside career area.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Sections 3012 and 8012.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Personnel Division: To produce statistical reports (without individual identification) for various echelons of AAFES management for use in projecting trends and evaluating results in such areas as personnel costs, organizational configurations, strength requirements, etc., or evaluating programs not directly related to personnel management function; to obtain information on individual's current and past employment for the purposes of job assignments, promotions, and career progression; to identify and correct errors in employees computerized data files; and to provide summary reports (with or without personal identification) in support of the function for which the records are maintained or for related personnel management or manpower studies.

Comptroller Division: To provide updated data on pay and deductions necessary to computer biweekly payrolls and/or to determine the validity of individual claims related to pay adjustments.

Audit and Inspection Division: To produce summary reports (with or without personal identification) in support of auditing the conduct of personnel programs within various AAFES elements.

Office of the Commander: To provide summary statistics (without individual identification) to evaluate AAFES Equal Employment Opportunity (EEO) programs and to report to the Civil Service Commission, and to produce summary listings or information (with or without individual identification) necessary to the investigation of EEO complaints or employee grievances and complaints.

Servicing Personnel Offices: To provide hard-copy documentation on employee's current pay and job data, career progression, cost analysis, etc.; to produce statistical reports (without individual identification) for various echelons of AAFES management for use in projecting trends and evaluating results in such areas as personnel costs, organizational configurations, strength requirements, etc., or evaluating programs not directly related to personnel management functions; to obtain information on individual's current and past employment for the purpose of job assignments, promotions, and career progression; to identify and correct errors in employees computerized data files; and to provide summary reports (with or without personal identification) in support of the function for which the records are maintained or for related personnel management or manpower studies.

Employee: To provide a permanent record of his/her personal master file record as updated.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained on disk file, computer tapes, computer printouts, and in file folders. All records are retrieved, retained, stored, and disposed of by authorization of the Director, Personnel Division.

RETRIEVABILITY:

Computer records are indexed by SSN, but may be retrieved by any data item listed under Record Category. Computer printouts are normally indexed by name or SSN within employment location but may be sorted chronologically and/or on the basis of any data item listed under Record Category.

SAFEGUARDS:

Disk files and tapes are located in restricted areas accessible only to authorized personnel who are properly screened, cleared, and trained. Retrievability requests must be written and under the signature of the Director, Personnel Division; manual records and computer printouts which contain individual identification are maintained in locked file drawers or storage cabinets and are available only to individuals having a need-to-know.

RETENTION AND DISPOSAL:

Disk file retained for 18 months after separation and destroyed, with the exception of employees terminated under disciplinary action (ineligible for rehire), retired employees and all Universal Annual Salary Plan employees whose file remains a permanent record. PMIS back-up tapes retained for 90 days. Computer printouts are maintained as follows: system edit reports are destroyed upon verification that identified errors have been corrected, printouts produced in connection with management functions (as described in routine uses) are maintained for periods varying from 2 to 10 years, and source documents and computer printouts which are included as part of the employees official personnel folder are permanent.

AAFES1203.03

SYSTEM NAME:

1203.03 Appointment of Contracting Officers

SYSTEM LOCATION:

Procurement Management Office, Headquarters Army and Air Force Exchange Service (HQ AAFES); HQ AAFES-Europe; HQ AAFES-Pacific; HQ AAFES-Alaska; all regional offices within the Continental United States.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All civilian employees and/or military personnel assigned to AAFES who are appointed as contracting officers.

CATEGORIES OF RECORDS IN THE SYSTEM:

Name, social security number (SSN), job title and grade; qualifications, training and experience; request for appointment as contracting officer; copy of Certificate of Appointment, and other correspondence and documents relating to the individual's qualifications to act as a contracting officer.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 U.S.C. 5012 and 8012 which identify the powers and duties delegated by the Secretary of the Army and the Secretary of the Air Force, respectively, each of whom is responsible for and has the authority necessary to conduct all affairs of his respective department, including functions necessary or appropriate for the training operations and administration.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Used by AAFES contracting officer appointing authority to ascertain an individual's qualifications to be appointed as contracting officer, to determine if limitations on procurement authority are appropriate; and to complete the Certificate of Appointment.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders.

RETRIEVABILITY:

Alphabetically by employee name.

SAFEGUARDS:

Information is retained in filing cabinets. Both the working and storage areas are within a controlled building, the entrance to which is limited to personnel assigned to AAFES.

RETENTION AND DISPOSAL:

Records in this system are retained only so long as individual's appointment as contracting officer is valid. Upon termination of this appointment, records are destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Procurement Management Office, HQ AAFES, Dallas, TX 75222.

AAFES1504.02

SYSTEM NAME:

1504.02 Personal Property Shipment Files

SYSTEM LOCATION:

Primary System - Personal Property Section, Distribution Division, Headquarters, Army and Air Force Exchange Service (HQ AAFES), Dallas, Texas;

Decentralized Segments - HQ AAFES-Pacific; HQ AAFES-Europe; Military Transportation Offices (European, Pacific, Alaskan, and United States Army Southern Commands); and Department of Defense (DOD) - Approved Household Goods and Mobile Home Carriers.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any Army and Air Force Exchange Service employee who has made or is in the process of making a permanent change of station (PCS) officially connected with his position as an AAFES employee.

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains documents relating to the receipt, crating, shipment, and storage of employees' household goods, privately-owned vehicles, and/or mobile homes pursuant to competent travel orders. Included are applications for shipment, travel orders, bills of lading, purchase orders, shipment orders, delivery orders, one-time manual rate tenders, insurance papers, accessorial service statements, inventories, receipts, loss and damage claims, payment and collection vouchers, and related documents.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10, United States Code, Sections 3012 and 8012.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Personal Property Section - to prepare and issue Government Bills of Lading (GBL) covering movement of employees' personal property, to audit carrier's handling and shipping charges, to verify employee shipping within authorized weight limits and between authorized locations.

DOD-Approved Household Goods and Mobile Home Carriers - to facilitate movement of employees' property and preparation of subsequent handling and shipping charges.

Employee - to maintain personal records and receipts pertaining to employee's shipping and storage data and entitlements.

Release of information contained in the files is made to civil or criminal law enforcement agencies for law enforcement purposes and to officials and employees of the Department of Defense who have a need for the information in the performance of their duties.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders.

RETRIEVABILITY:

Arranged in fiscal year groups alphabetically by employee name.

SAFEGUARDS:

Building employs security guards. Files are kept in filing cabinets in walled off section occupied by authorized Personal Property employees only. Auditing personnel have access to files for auditing of bills.

RETENTION AND DISPOSAL:

Records are permanent. They are retained in active file for three fiscal years and subsequently retired to the servicing AAFES warehouse and/or servicing General Services Administration Records Holding Center.

Telephone: Area Code 214/330-2011

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to: Headquarters, Army and Air Force Exchange Service (HQ AAFES), Director, Distribution Division, National Traffic Branch (DD-N), Dallas, Texas 75222.

Written requests for information should contain the full name of the individual, social security number, current address, and telephone number.

For personal visits, the individual should be able to provide acceptable identification such as driver's license, etc.

CONTESTING RECORD PROCEDURES:

The Agency's rules for access to records and for contesting contents and appealing initial determinations may be obtained from the System Manager.

RECORD SOURCE CATEGORIES:

From individuals to whom records pertain, DOD-Approved Storage Contractors, Finance and Accounting Office-HQ AAFES and Comptroller Office-HQ AAFES.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

AAFES1504.04

SYSTEM NAME:

1504.04 Carrier/Contractor Management Files

SYSTEM LOCATION:

Primary System - Personal Property Section, National Traffic Branch,Headquarters, Army and Air Force Exchange Service (HQ AAFES), Dallas, Texas.

Decentralized Segments - HQ AAFES-Pacific, HQ AAFES-Europe, Military Transportation Offices (European, Pacific, Alaskan, and the United States Army Southern Commands) and Department of Defense (DOD) approved household goods and mobile home carriers.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any Army and Air Force Exchange Service employee who has made a permanent change of station (PCS) officially connected with his position as an AAFES employee and subsequently has experienced a problem resulting in claim action or other related action against the carrier.

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains reports, complaints, commendations, inspection reports, performance records, quality control information, claims, and related documents pertaining to carrier/contractor qualification, selections, and performance.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10, United States Code, Sections 3012 and 8012.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Personal Property Section - to review carrier performance in shipment and storage of personal property and to issue letters of warning and suspensions when necessary.

DOD-Approved Household Goods and Mobile Home Carriers - to facilitate self evaluation of performance and to be aware when corrective action is required by AAFES.

Release of information contained in the files is made to civil or criminal law enforcement agencies for law enforcement purposes and to officials and employees of the Department of Defense who have a need for the information in the performance of their duties.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders.

RETRIEVABILITY:

Arranged in fiscal year groups subjectively and/or alphabetically by carrier/contractor.

SAFEGUARDS:

Building employs security guards. Files are kept in filing cabinets in walled off section occupied by authorized Personal Property employees only. Auditing personnel have access for auditing of bills.

RETENTION AND DISPOSAL:

Files are retained in the Personal Property Section, Distribution Division, HQ AAFES, until the close of the fiscal year in which action has been completed and subsequently retired to the servicing AAFES warehouse and/or servicing General Services Administration Records Holding Center. Records are destroyed after 6 years.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Administrative Services Division, HQ AAFES.

NOTIFICATION PROCEDURE:

Information may be obtained from:
HQ AAFES (AD)
3911 Walton Walker Blvd.
Dallas, Texas 75222
Telephone: Area Code 214/330-2011

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to Headquarters Army and Air Force Exchange Service (HQ AAFES), Director, Distribution Division, National Traffic Branch (DD-N), Dallas, Texas 75222.

Written requests for information should contain the full name of the individual, social security number, current address, and telephone number.

For personal visits, the individual should be able to provide acceptable identification such as driver's license, etc.

CONTESTING RECORD PROCEDURES:

The Agency's rules for access to records and for contesting contents and appealing initial determinations may be obtained from the System Manager.

RECORD SOURCE CATEGORIES:

From employee, Personal Property Section - HQ AAFES, DOD-approved carriers, HQ AAFES-Europe, and Military Transportation Offices (Europe, Pacific, Alaska, and United States Army Southern commands).

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

AAFES1609.02

SYSTEM NAME:

1609.02 AAFES Customer Service

SYSTEM LOCATION:

Headquarters, Army and Air Force Exchange Service (AAFES), Dallas, TX; Headquarters, AAFES-Pacific; Headquarters, AAFES-Europe, and all continental United States and oversea Exchange regions, area exchanges, post and base exchanges, and satellites within the AAFES system. Addresses are listed in the Directory of the Department of the Army, appearing in the Annual Compilation of System

Notices, published in the Federal Register.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All AAFES customers who elect to purchase merchandise on a time payment, layaway, or special order basis, or who need purchase adjustments or refunds.

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains copies of active layaway tickets, requests for refunds, special order forms, requests for special order procurement, special order logs, cash receipts vouchers, and repair vouchers.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Sections 3012 and 8012.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To record customer transactions/payments for layaways and special orders; to determine payment status before finalizing these transactions; to identify layaway account delinquencies and prepare customer reminder notices; to prepare and mail refunds to customers on cancelled layaways or special orders; and to process purchase refunds and repair orders.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file boxes/cabinets.

RETRIEVABILITY:

By last name of customer, document control number, and/or due date.

SAFEGUARDS:

Records are maintained in areas accessible to authorized personnel only. Layaway, special order, cash receipts, and refund vouchers are prenumbered and logged as used or retired.

RETENTION AND DISPOSAL:

Cancelled or completed layaway tickets: Held in file for 6 months after cancellation or delivery of merchandise, then destroyed.

Purchase orders: Retained for 2 years, then destroyed.

Refund vouchers: Retained for 6 years, then destroyed.

Returned merchandise slips: Retained for 6 years, then destroyed.

Cash receipts vouchers: Retained for 3 years, then destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Merchandising Division Headquarters, Army and Air Force Exchange Service, Dallas, TX 75222.

NOTIFICATION PROCEDURE:

Information may be obtained from:
Commander
Headquarters, Army and Air Force Exchange Service
ATTN: MR-O
Dallas, TX 75222
Telephone: Area Code 214/330-2653.

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to: Commander, Headquarters, Army and Air Force Exchange Service, ATTN: MR-O, Dallas, TX 75222, and should contain customer's full name, current address and telephone number, Army and Air Force Exchange Service activity at which transaction was initiated, date of transaction, and control number of document involved.

Neither instructions nor provisions for personal visits are provided at this time.

CONTESTING RECORD PROCEDURES:

The agency's rules for access to records and for contesting contents and appealing initial determinations may be obtained from the SYSMANAGER.

RECORD SOURCE CATEGORIES:

Information is furnished by the customer.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

AAFES1609.03

SYSTEM NAME:

1609.03 AAFES Catalog System (ACS)

SYSTEM LOCATION:

Catalog Sales Center (MR-S), Merchandising Division, Headquarters (HQ) Army and Air Force Exchange Service (AAFES)

Command and Public Relations Division, AAFES-Europe;

Command and Public Relations Division, AAFES-Pacific.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All exchange customers who place a catalog sales order.

CATEGORIES OF RECORDS IN THE SYSTEM:

Order Master Record containing the following: customer name, grade, social security number, address; recipient name and address; description and prices of items ordered; method of shipment; amount of order; amount of any refund; returned check identifier; claim data for returns, loss non-receipt, damage of shipments; accounts receivable or paid; replacement mailing; communication dates; and roster of customers and recipients.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10, United States Code, Sections 3012 and 8012.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To locate order information to reply to customer inquiries, complaints; to create the necessary labels to effect shipment to the proper location; to refund customer remittances or to collect monies due; to provide claim and postal authorities with confirmation/certification of shipment for customer claims for damage or lost shipments; and to release information contained in the System of Records to civil or criminal law enforcement agencies for law enforcement purposes.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Computer magnetic tapes, computer printouts, microfiche, microfilm

RETRIEVABILITY:

Primarily by control number assigned to order when received. Customer order information is also retrievable by social security number (SSN) or insurance number assigned to shipment when the control number assigned to the order is not located. Microfiche and microfilm records are retrievable by order control number.

SAFEGUARDS:

Active order information can only be obtained by submission of an approved file maintenance request to appropriate computer operation personnel. Computer operations rooms are locked and all visitors screened and visitor registers maintained. Microfiche and microfilm records are stored in a locked room.

RETENTION AND DISPOSAL:

Records are maintained on computer files for a period of 180 days following completion of shipment. Microfiche and microfilm records are retained for two years for postal claim purposes. These are destroyed after six years.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Catalog Sales Center, HQ AAFES, Dallas, Texas

NOTIFICATION PROCEDURE:

Requests for information should be submitted to the System Manager.

RECORD ACCESS PROCEDURES:

Same as Notification procedures.

CONTESTING RECORD PROCEDURES:

The Agency's rules for access to records and for contesting contents and appealing initial determinations may be obtained from the System Manager.

RECORD SOURCE CATEGORIES:

The record contains all specifics pertaining to the order for catalog merchandise. The complete name, title, SSN and address of the customer, the complete name and address of the recipient.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

A0101.20DAMI

SYSTEM NAME:

Controlled Accountable Document Inventory System

SYSTEM LOCATION:

Document Control Center/Security Office of Army Installations and/or major commands to the extent that classified inventories are directed by the commander. Addresses are listed in the appendix to the Army inventory of system notices.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Custodians of Classified Defense information.

CATEGORIES OF RECORDS IN THE SYSTEM:

Custodian's name, Social Security Account Number, and a listing of controlled classified documents for which the custodian is responsible. Records may also include document title, originator, and type and date.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 U.S.C. 3012; 5 U.S.C. 301.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

By the Department of the Army to conduct periodic inventory of classified documents and to determine or validate custodian accountability of those documents.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Magnetic tapes, discs, computer printouts; paper records.

RETRIEVABILITY:

Alphabetically by surname and numerically by Social Security Account Number

SAFEGUARDS:

Access is restricted to authorized personnel having a need-to-know and to security officers to verify inventory of classified documents. Information is housed in buildings which are controlled by security guards during non-duty hours.

RETENTION AND DISPOSAL:

Retained until the next inventory has been completed satisfactorily; is destroyed upon next inventory.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Chief of Staff for Intelligence, Headquarters, Department of the Army, The Pentagon, Washington, DC 20310.

NOTIFICATION PROCEDURE:

Individuals who desire to know whether or not this system of records contains information on them should write to the commander of the installation where they believe such information was collected or maintained.

RECORD ACCESS PROCEDURES:

An individual should write to the commander as indicated under 'Notification procedure', and provide his/her name, SSN, date and place of employment, and signature.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340-21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

From the individual who receipts for classified documents.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

NONE

A0102.02aDAAG

SYSTEM NAME:

102.02 Office Visitor/Commercial Solicitor Files

SYSTEM LOCATION:

Segments may be maintained at Headquarters, Department of the Army, staff and field operating agencies, commands, installations, and supporting activities.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Visitors to Army installations/activities and/or commercial solicitors who represent an individual, firm, corporation, academic institution, or other enterprise involved in official or business transactions with the Department of the Army and/or its members.

CATEGORIES OF RECORDS IN THE SYSTEM:

Files contain information which reflect the individual's name, name and address of firm represented, person/office visited, purpose of visit, and status of individual as regards past or present affiliation with the Department of Defense.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 3012.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To provide information to officials of the Army responsible for monitoring/controlling visitor's/solicitor's status and determining purpose of visit so as to preclude conflict of interest.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders.

RETRIEVABILITY:

By name of visitor/solicitor.

SAFEGUARDS:

Records are maintained in file cabinets with access limited to officials having primary interest.

RETENTION AND DISPOSAL:

Retained for 1 year after which records are destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

The Adjutant General, Headquarters, Department of the Army, (DAAG-PSI), Washington, DC 20310.

NOTIFICATION PROCEDURE:

Information may be obtained from the commander/supervisor maintaining the information.

RECORD ACCESS PROCEDURES:

Requests should be addressed to appropriate commander. Official mailing addresses are in the Directory of Army addresses preceding the annual compilation of Army system notices published in the Federal Register.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340-21 [32 CFR Part 505].

RECORD SOURCE CATEGORIES:

From the individual.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

A0102.03aDAAG

SYSTEM NAME:

102.03 Office Personnel Locator/ Organizational Rosters

SYSTEM LOCATION:

Segments are maintained by offices at Headquarters, Department of the Army, Staff and field operating agencies, commands, installations and activities. Official mailing addresses are in the organizational directory in the appendix to these system notices.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Military personnel and civilian employees and in some instances their dependents.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records include cards, sheets of individual paper files, lists and compilations of individual's name, social security number, unit of assignment and/or home address, unit and/or home telephone number, and related information. Rosters of office personnel, military alert rosters, and office directories are included in this system.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 3012.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Provide commanders and supervisors with locator information and emergency notification data pertaining to present and former military members or civilian employees.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders, card files and loose leaf and bound notebooks. Rosters may also be stored on magnetic tape, cards, or disks.

RETRIEVABILITY:

Filed alphabetically by name. Rosters may be filed by unit or organization.

SAFEGUARDS:

Records are filed in secure file containers, locked desks, or rooms accessible only to authorized personnel.

RETENTION AND DISPOSAL:

Individual records are destroyed upon separation or transfer of employee.

Previous rosters are destroyed when listing is updated.

SYSTEM MANAGER(S) AND ADDRESS:

Commander/supervisor of organization maintaining locator information, roster, or office directory.

NOTIFICATION PROCEDURE:

Information may be obtained from commander/supervisor of organization to which the individual is assigned or at which he/she is employed. Individual must provide full name and social security number.

RECORD ACCESS PROCEDURES:

Requests should be addressed to appropriate commander or super- visor. Official mailing addresses are in the appendix to Department of the Army system notices.

Written requests should include full name of individual and social security number.

For personal visits, individual must provide acceptable identification; e.g., driver's license, military or civilian identification card.

No identification is required if the individual has previously given consent for release to the general public.

CONTESTING RECORD PROCEDURES:

The Department of the Army rules for contesting contents and appealing initial determinations may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Information is obtained directly from the individual concerned or from official personnel files.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

A0102.13DAPC

SYSTEM NAME:

Administrative Military Personnel Records

SYSTEM LOCATION:

HQDA Staff, major commands, field operating agencies, installations and activities performing unit level administration for military personnel, whether active, inactive (reservist, MOBDES), and including the National Guard.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Military personnel (and in some instances, their dependents) at the local supervisory level (i.e., company, platoon/squad, or comparable office size) when the individual's MPRJ is maintained elsewhere.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records/documents of a temporary nature which are needed in the day-to-day administration/supervision of the individual.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C., Section 301

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To provide supervisors a ready source of information for day-to-day operations and administrative determinations pertaining to assigned/attached personnel.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Hard copy, index cards, microfiche, magnetic tape or disk.

RETRIEVABILITY:

By individual's surname or SSN.

SAFEGUARDS:

Information is stored in locked rooms or buildings with access restricted to individuals whose duties require a need-to-know. Where information exists on word processing disk/diskettes/tapes or in automated media, the administrative, physical, and technical requirements of Army Regulation 380-380 must be assured to preclude improper use or inadvertent disclosure.

RETENTION AND DISPOSAL:

Records are destroyed not later than 30 days after transfer/separation of member.

SYSTEM MANAGER(S) AND ADDRESS:

Commander US Army Military Personnel Center, Attn: DAPC-ALS, 200 Stovall Street, Alexandria, VA 22332.

NOTIFICATION PROCEDURE:

Individuals desiring to know whether this system contains information on them should inquire of their immediate supervisor.

RECORD ACCESS PROCEDURES:

Requests should be made of the custodian of the record at the location assigned/attached; individual must

provide full name, SSN, and particulars which enable finding the record.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340-21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

Copy of documents in one's OMPF, MPRJ, or CMIF; from the individual; his/her supervisor; other Army records and reports.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

A0124.06aUSAREC

SYSTEM NAME:

124.06 Recruiter Assignment Report

SYSTEM LOCATION:

Military Personnel Division, Directorate of Recruiting Force Management, US Army Recruiting Command, USARCRFM-MP-A, Fort Sheridan, IL 60037

Directorate of Management Information Systems/ADP, US Army Recruiting Command, USARCMIS, Fort Sheridan, IL 60037

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who have been relieved from or not accepted for recruiting duty.

CATEGORIES OF RECORDS IN THE SYSTEM:

System contains name, social security number (SSN), and reason for nonselection or relief from recruiting duty, and unit of assignment.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Federal Property and Administrative Services Act of 1949 (64 Stat. 578), as amended by act of 22 Oct 1968 (82 Stat. 1238; 44 U.S.C. 3101-03).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To screen applications for recruiting duty to insure that previously rejected or relieved individuals are not accepted for recruiting duty unless previous disqualification has been corrected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Computer printout in file cabinet.

RETRIEVABILITY:

Listed alphabetically by last name.

SAFEGUARDS:

Building secured. Records are maintained in area accessible only to properly screened and trained personnel.

RETENTION AND DISPOSAL:

Listing updated monthly and previous listing destroyed. Information contained in report covers a 6-year period.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Recruiting Force Management, US Army Recruiting Command

NOTIFICATION PROCEDURE:

Information may be obtained from:
Director, Recruiting Force Management, USARCRFM-MP-A
US Army Recruiting Command
Ft Sheridan, IL 60037
Telephone: 312/926-3910

Request for information should contain full name, SSN, and military status.

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to: Headquarters, US Army Recruiting Command, ATTN: USARCRFM-MP-A, Ft Sheridan, IL 60037.

Written requests for information should contain the full name of the individual, SSN, current address and telephone number.

For personal visits, the individual should be able to provide some acceptable identification; that is, drivers license, ID card.

CONTESTING RECORD PROCEDURES:

The agency's rules for access to records and for contesting contents and appealing initial determinations may be obtained from the SYSMANAGER.

RECORD SOURCE CATEGORIES:

Individual applications and relief actions.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

A0201.08aDACS

SYSTEM NAME:

201.08 Central Files, Office of the Chief of Staff (DACS-DAS)

SYSTEM LOCATION:

Office of the Chief of Staff, Department of the Army, The Pentagon, Washington, DC 20310.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any military or civilian employee or correspondent of the Army who may have been the subject of, or initiated correspondence referred to, the Office of the Chief of Staff, Army.

CATEGORIES OF RECORDS IN THE SYSTEM:

Original or copies of papers relating to matters concerning individuals which have been directed to the Office of the Chief of Staff, Army (e.g., inquiries, complaints, appeals, investigations, personnel actions).

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 3012.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Correspondence control and reference files used by action officers in Headquarters, Department of the Army (HQDA), in processing paperwork and documenting actions taken in Office of the Chief of Staff, Army (OCSA).

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM: FILES ARE CODED, INDEXED, AND FILED IN ALPHA-NUMERIC FILES ARRANGEMENT UNDER THE ARMY FUNCTIONAL FILES SYSTEM.

STORAGE:

Paper records in file folders are stored in mechanized files shelves.

RETRIEVABILITY:

Location of file folder is determined by searching files record cards, which are filed by numerical code, and alphabetically arranged by name, with further chronological breakdown of each entry. Each entry is cross referenced to all previous related entries.

SAFEGUARDS:

Files are released only to OCSA staff action officers cleared and authorized access. Pentagon employs security guards. Files area is protected by electronic surveillance system with combination lock doors.

RETENTION AND DISPOSAL:

Records are permanent. They are retained in active file until end of calendar year, held two additional years in inactive file and subsequently retired to Washington National Records Center.

SYSTEM MANAGER(S) AND ADDRESS:

The Chief of Staff, Headquarters, Department of the Army, The Pentagon, Washington, DC.

A0224.04DAIG

SYSTEM NAME:

224.04 Inspector General Investigative Files

SYSTEM LOCATION:

Primary System, Office of The Inspector General and Auditor General, Department of the Army.

Decentralized Segments: Washington National Records Center, Suitland, Maryland; US Army Inspector General offices and records holding areas located worldwide. Official mailing addresses are in the Department of Defense directory.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any person who has been the subject of, witness for, or referenced in an Inspector General investigation.

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains Inspector General reports of investigation which normally contain the authority for the investigation, the matters investigated, a narrative report, documentary evidence, and transcripts of verbatim testimony, or summaries thereof.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Sections 3039 and 3040.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The purpose of an Inspector General investigation is to determine the facts and circumstances surrounding the allegation(s)/problem(s). The information is assembled in report format and presented to the official directing the investigation.

The report of investigation may be used by any Department of Defense organization which has an official interest in the matters under investigation. The information contained therein may be used to take corrective

action or as a basis for making decisions concerning: Department of Defense/ Department of the Army policy; personnel actions; legal, fiscal, logistic, operational, public information, personnel management, and procurement matters.

The report of investigation may be forwarded to the Department of Justice if it contains evidence of possible criminality not within the jurisdiction of the Uniform Code of Military Justice. The Department of Justice will review the report to determine if further investigation by that agency is warranted.

The report of investigation may be used as a basis for summaries or briefing presented to Members of Congress. Members of Congress may use the material to respond to constituents, or to enlighten themselves on matters of concern and interest to them.

The report of investigation may be used as a basis for responses to agencies in the Executive Branch of the Federal government. This information may be used as a basis for responses to concerned citizens and other individuals/organizations querying the Executive Branch.

All or part of reports of investigation, subject to the rules of evidence, may be entered as evidence in court proceedings.

The report of investigation may be provided to appropriate individuals/ organizations under the provisions of the Freedom of Information Act.

The report of investigation may be used as the basis for responding to press queries.

Reports of investigation may be analyzed to determine trends within the Army.

Nonsensitive portions of reports of investigation may be used as instructional vehicles in certain Army schools to inform students about lessons learned as a result of the investigation.

The report of investigation may be used as reference material in other reports of investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in hard cover binders and/or file folders.

RETRIEVABILITY:

Reports are accessed and retrieved by reference to the case name which is normally derived from either the nature of the allegation, the geographic location of the investigation, or, in some instances, the name of the subject or the complainant. Case files are frequently, but not always, assigned a file code number which is cross-referenced with the case name. The file code number, if assigned, is used to administratively file the case, chronologically by calendar year.

SAFEGUARDS:

Primary System: Building employs security guards and access is limited to authorized personnel. Files are stored in locked containers and access given only to persons with an official need to know.

Safeguards for decentralized segments vary but should include, as a minimum, the storage of the reports in locked containers and access given only to persons with an official need to know.

RETENTION AND DISPOSAL:

Reports of investigation conducted by The Inspector General and Auditor General, Department of the Army will be stored permanently. Reports prepared by Inspectors General of other Department of the Army agencies/ organizations will be destroyed 10 years after completion. All other Inspectors General reports will be destroyed 3 years after completion.

SYSTEM MANAGER(S) AND ADDRESS:

The Inspector General and Auditor General, Department of the Army, the Pentagon, Washington, DC 20310

NOTIFICATION PROCEDURE:

Requests should be addressed to the SYSMANAGER.

Because reports are seldom filed by surname or social security number (SSN), requests to determine if the system contains a record about requester should include full name, rank (if applicable), SSN (if applicable), address or Army Post Office (APO) if applicable, approximate date of investigation, subject of investigation, location of Inspector General office conducting the investigation, and the requester's role in the investigation.

Information may be obtained from:
HQDA (DAIG-IN)
Room 1D731
Pentagon
Washington, DC 20310
Telephone: Area Code 202/695/7385

RECORD ACCESS PROCEDURES:

Because reports are seldom filed by surname or SSN, requests from individuals should be addressed to: Headquarters, Department of the Army (DAIG-IN), Room 1D731, Pentagon, Washington, DC 20310.

Written requests for information should include full name, rank (if applicable), SSN (if applicable), address or APO (if applicable), approximate date of investigation, subject of investigation, location of Inspector General office conducting the investigation, and the requester's role in the investigation.

For personal visits, the individual should be able to provide some acceptable identification; that is, driver's license, employing office's identification card, and give some verbal information that could be verified with his 'case' folder.

CONTESTING RECORD PROCEDURES:

The agency's rules for access to records and for contesting contents and appealing initial determinations may be obtained from the SYSMANAGER.

RECORD SOURCE CATEGORIES:

The nature of investigations varies greatly, and the source of the evidence required is not predictable. Previous sources have included: testimony of witnesses; correspondence/records maintained by organizations/ individuals party to the matters being investigated; military personnel files; military pay records; security dossiers; newspaper clippings, and other media material; photographs; reference material/correspondence originating in Department of the Army staff agencies and commands, and other Federal, State, local, and foreign agencies; research notes/documents obtained from reference libraries and records custodians; and other materials in the public domain.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Parts of this system may be exempt under 5 USC 552a (j) or (k) as applicable. For additional information, contact the System Manager.

A0224.05aDAIG

SYSTEM NAME:

224.05 Inspector General Complaint Files

SYSTEM LOCATION:

Assistance Division and Central Files, Office of the Inspector General (OTIG), Department of the Army (DA), Washington, DC 20310.

Decentralized Segments: Offices of all command Inspectors General, Army-Wide.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any Person, Civilian or Military, who presents to an Inspector General in writing or in person a Complaint/ Request for Assistance.

CATEGORIES OF RECORDS IN THE SYSTEM:

Record copy (hard copy) contains the Inspector General Action Request (IGAR) or letter submitted to an Inspector General requesting assistance and all related reports of investigation, inquiries, studies, memoranda and reference material and final replies.

Automated data elements of record contain: Case number, includes fiscal year and sequence number; case name, to include first, last and middle initial of complainant; component of complainant, the functional relationship to military, DA civilian, or other military service; source of complaint, such as the serviceman, his dependent, relative, or DA civilian. The recipient, or the Agency which received the case before it was referred to the OTIG, DA Command or Staff Agency against whom the complaint was made; date case was received by OTIG; suspense data to control information gathering; action officer in OTIG; command to which case referred to have investigation or inquiry conducted; type of allegations made by complainant; number of days for case processing; date reply sent to complainant; and whether complaints were justified/unjustified.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Sections 3039, 3040 and subsection 3065(a) provide for and describe the mission of The Inspector General and Auditor General of the Army and his deputies and assistants. Provides for the detail of commissioned officers as Inspectors General.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The purpose is to obtain sufficient information by investigation, inquiry, research of existing historical data; to review and process the data to insure that appropriate action was taken to substantiate or refute allegations presented, and to correct deficiencies.

The purpose of the automated data elements file is to provide a management system to report categories and frequency of complaints and trends by type and command and to improve processing of correspondence and thereby improve responsiveness of the Inspector General assistance function.

Users are Inspectors General Army-wide; Army Commanders at all levels, DA Staff Agencies, Members of Congress, and other government agencies, when determined by The Inspector General to be in the best interest of that agency.

Used to answer complainants or respond to requests for assistance, advice or information. After consultation with appropriate staff judge advocate may be referred for use in trials by court-martial or other military justice matters, as authorized by the Uniform Code of Military Justice. Used by commanders to correct deficiencies found during inquiry/investigation.

User of automated data file is the Office of The Inspector General, DA. Automated data is used to provide weekly and quarterly reports to elements of OTIG and the Army Staff concerning the categories and frequencies of the Inspector General Action Request and trends. Used as a management tool to improve responsiveness of OTIG in its assistance function. It is not used to associate allegations with complainant and does not divulge findings or recommendations as a result of an inquiry.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders.
Computer magnetic tapes.

RETRIEVABILITY:

Filed alphabetically by last name of requester for assistance or information.

Automated data information is filed by sequential case number or case name.

SAFEGUARDS:

Records are maintained in locked areas in locked containers accessible only to authorized personnel who are properly cleared and trained in their release.

RETENTION AND DISPOSAL:

IG complaint files are destroyed 1 year following final action, except those which include reports of investigation or inquiry conducted by Inspectors General. IG complaint files containing reports of investigation or inquiry or documents relating to investigations and inquiries conducted by Inspector General will be destroyed according to the level at which the inquiry/investigation was conducted: files which contain an investigation or inquiry conducted by the Office of The Inspector General, DA, will be permanent; files containing an investigation or inquiry conducted by other Headquarters, Department of the Army offices and field commands authorized an Inspector General, that report directly to Headquarters, Department of the Army will be destroyed after 10 years; files containing an investigation or inquiry conducted by any other Inspector General element will be destroyed after 3 years.

Automated record kept on active file 1 year then transferred to a history file and destroyed electronically after 5 years.

SYSTEM MANAGER(S) AND ADDRESS:

The Inspector General and Auditor General, Headquarters, Department of the Army, the Pentagon, Washington, DC 20310

NOTIFICATION PROCEDURE:

Information may be obtained from:
HQDA (DAIG-AC)
Room 1D736
Pentagon
Washington, DC 20310
Telephone: Area Code 202/695-1578

Requester must furnish full name, grade, social security number (SSN), unit of assignment, nature of complaint; and proof of personal identification, and identify the Command Inspector General to which his complaint was submitted.

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to: The Inspector General, Headquarters, Department of the Army, (DAIG-AC), Washington, DC 20310.

Written requests for information should contain: the full name, grade, SSN, current address and telephone number, and the nature of previous complaint.

For personal visits, the individual must provide acceptable identification and verbal information that could be verified with his case file.

CONTESTING RECORD PROCEDURES:

The Army's rules for contesting contents and appealing initial determinations may be obtained from SYSMANAGER.

RECORD SOURCE CATEGORIES:

Personal inquiry or investigation by Inspectors General into matters presented as a complaint or request for assistance. The nature of inquiries and investigations varies greatly, and the source of the evidence required is not predictable. Previous sources have included: testimony of witnesses; correspondence/records maintained by organizations/individuals party to the matters being investigated; military personnel files; military pay records; security dossiers; newspaper clippings, and other media material; photographs; reference material/correspondence originating in Department of the Army staff agencies; research notes/documents obtained from reference libraries and records custodians; and other materials in the public domain.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Parts of this system may be exempt under 5 USC 552a (j) or (k), as applicable. For additional information, contact the System Manager.

A0225.01aDAPE

SYSTEM NAME:

225.01 Military Police Management Information System (MPMIS) - Correctional Reporting System (CRS)

SYSTEM LOCATION:

Primary System: Law Enforcement Division, Human Resources Development Directorate, Office of the Deputy Chief of Staff for Personnel, Department of the Army, (DAPE-HRE).

Decentralized Copies: CRS is programmed for Army installations; the system will be maintained by the installation provost marshall office (PMO). Official mailing addresses are in the Department of Defense directory in the Appendix. The CRS will replace command-unique systems at installations where they exist.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any military member confined at any Army confinement facility as a result of, or pending, trial by courts-martial.

CATEGORIES OF RECORDS IN THE SYSTEM:

The CRS data are added to the corrections master file. Following output is produced: a daily 4 part prisoner status roster which provides a by name roster showing social security number (SSN), military occupational speciality (MOS), religion, marital status, education level and offense for which confined. Part 1 provides a history of all prisoners confined in the last 24 hours and shows totals by status (i.e., detained, pretrial, detained post trial, adjudged, etc.). Part 2 shows a recapitulation by custody of total number of prisoners in confinement by this category. Part 3 lists all prisoners that departed the facility in the past 24 hours and lists their disposition. Part 4 indicates those individuals in pretrial confinement in excess of 25 days; a monthly status roster showing, by name, all prisoners confined or released for the reporting period. Report shows detailed additional information including totals of new prisoners, total departures, total escapes. total in hospital and totals by custody grade, race, status and such information as total by types or release, confinement less than 30, 60, or 90 days; the semiannual prisoner profile report produces a series of two-dimensional matrices for each type offense and profiles prisoner age, race, education, marital status, and religion for each offense.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 3012(g).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The CRS is used to provide, on a daily basis, pertinent information required for proper management of confinement facility population; to provide on a monthly basis, statistical information required by the installation commander provost marshal and confinement facility commander pertaining to the prisoner population, status of discipline and responsiveness of personnel procedures relating to prisoner personnel; to provide the installation with monthly data on the total spectrum of the confinement facility utilization, i.e., population turnover, recidivism, and to identify semiannually, prisoner profiles showing the relationship of particular offenses to age, race, education, marital status and religion. CRS output will be furnished to criminal justice elements outside Department of Defense (DOD) and Department of the Army (DA) when law enforcement and crime prevention functions fall within their jurisdiction or concurrent jurisdiction is applicable. These include local, state and Federal agencies such as the Federal Bureau of Investigation, US Customs Service; US District Courts, US Magistrates; US Federal Marshals, state police agencies, local police agencies; and in overseà areas, host government law enforcement agencies.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

The CRS master file is stored on disk at the installation data processing activity. The CRS data, produced also in three copies, is maintained at the installation correctional facility in file folders.

RETRIEVABILITY:

Access to the data base/master file is restricted. To receive CRS output personnel must utilize a 'systems control card'. This control card must be prepared for each specific entry and requires unique originator codes. Instructions for creating and using the control card are maintained at two locations; the PMO and the data processing facility. Access to hard copy output is prescribed by installation standard operating procedures (SOP) and policies.

SAFEGUARDS:

The data base and output are managed through extensive SOP and policies prescribed in system functional users manuals. Safeguards include: limited output with distribution controlled by the PMO and released only to designated persons; output is controlled at both pick-up and delivery points: the PMO, confinement facility and data processing activity are 24 hour per day operations; consequently, reports are continuously under scrutiny; the confinement facility and the data processing site are considered secure areas with limited access.

RETENTION AND DISPOSAL:

Individuals are deleted from the CRS master file upon their departure from the correctional/confinement facility. Certain elements of information, pertaining to the prisoner are posted to a corrections history tape which produces the semiannual prisoner profile report. A prisoner can remain on this history tape for as long as 5 months or until the semiannual report is produced. Once this occurs, he is then deleted from the CRS master file.

SYSTEM MANAGER(S) AND ADDRESS:

Deputy Chief of Staff for Personnel, Headquarters, Department of the Army, The Pentagon, Washington, DC 20310. Decentralized to command/installation.

NOTIFICATION PROCEDURE:

Information may be obtained from the command/installation/activity office of record.

RECORD ACCESS PROCEDURES:

Requests for access should be addressed to the command/installation/activity at which the record is located. Written requests should contain full name of individual, current address, SSN and specificity as to the information sought.

CONTESTING RECORD PROCEDURES:

Rules for contesting contents and appealing initial determinations are contained in Army Regulation 340-21.

RECORD SOURCE CATEGORIES:

Subjects, suspects, witnesses, victims, military police and US Army Criminal Investigation Command personnel and special agents, informants, various Department of Defense Federal, state and local investigative and law enforcement agencies, departments or agencies of foreign governments, personnel records of the individual and other individuals and organizations which may provide exempt information.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Parts of this system may be exempt under 5 U.S.C., 552a (j) or (k) as applicable. For additional information contact the SYSMANAGER.

A0225.01bDAPE

SYSTEM NAME:

225.01 Carpool Information/ Registration System

SYSTEM LOCATION:

Primary System: Law Enforcement Division, Human Resources Development Directorate, Office of the Deputy Chief of Staff for Personnel, Department of the Army (DAPE-HRE): Decentralized to Army installation/ activity level, the official mailing addresses of which are in the appendix.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All personnel participating in carpool program who voluntarily provide information for release.

CATEGORIES OF RECORDS IN THE SYSTEM:

Name of individual, Social Security Number (SSN), home phone, and address, office address and phone, map coordinates of home or nearby reference points, working hours, etc.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 3012 and Federal Property and Administrative Service Act of 1949 as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To assign and administer allocated carpool parking assignments; establish priority of assignments, assist members and applicants in contacting one another and provide printout of individuals in system to other participants who desire to make contact.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Reference cards, computer cards, disk or tape, file folders.

RETRIEVABILITY:

Access is based on name, SSN, grid coordinate reference system and working hours.

SAFEGUARDS:

Accessible only to authorized personnel and those providing identification and purpose for which information is requested; may be accessed by persons seeking members with voluntary consent of person providing information.

RETENTION AND DISPOSAL:

Data are retained only on active participants; destroyed upon request/ reassignment.

SYSTEM MANAGER(S) AND ADDRESS:

Deputy Chief of Staff for Personnel, Department of the Army (DAPE-HRE); decentralized to command/installation/ activity level.

NOTIFICATION PROCEDURE:

Information may be obtained from command/installation/activity office of record.

RECORD ACCESS PROCEDURES:

Requests should be addressed to command/installation/activity office; on personal visits, individual should provide acceptable means of identification, e.g., driver's license, SSN card, DD FM 2. Written requests should contain full name of individual, current address, SSN and specificity.

CONTESTING RECORD PROCEDURES:

Rules for contesting contents and appealing initial determinations are contained in Army Regulation 340-21.

RECORD SOURCE CATEGORIES:

Provided by individual on various local, Department of Army, Department of Defense, or Department of Transportation Forms 1700.9.1.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

A0225.07aDACS

SYSTEM NAME:

225.07 Teleprocessing Customer Identification System

SYSTEM LOCATION:

United States Army Management System Support Agency (USAMSSA), DACS-AMH-B, Pentagon, Washington, DC 20310.

Data processing installations Army-wide maintaining this system.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Personnel and teleprocessing customers of the data processing activity.

CATEGORIES OF RECORDS IN THE SYSTEM:

Automated file contains individual's name, terminal customer identification codes, organizational element responsible for automatic data processing (ADP) jobs run, system acronym, routing box number, assigned ADP job number, option list to be presented, terminals authorized for use and related information.

Manual file contains customer's social security number, office phone, office symbol, location of terminals to be used and related information.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 3012(g).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Teleprocessing customers, agency personnel who use terminal, staff users who access remote terminals, authorized contractors who access terminals connected to central computer facility.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders, punch cards, disk.

RETRIEVABILITY:

Control number, option list, name, delete date.

SAFEGUARDS:

Records are maintained in secure areas accessible only to authorized personnel.

RETENTION AND DISPOSAL:

Records on file are updated every 6 months. Customer roster updated weekly. Records not in use are destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Director, USAMSSA, The Pentagon, Washington, D.C. 20310.

Commander of each data processing installation maintaining the system.

NOTIFICATION PROCEDURE:

USAMSSA, ATTN: DACS-AMH-B, Room BD965A, The Pentagon, Washington, D.C. 20310. Telephone 202/ 695-9974.

Inquiries should be addressed to the commander of the data processing installation maintaining the system.

RECORD ACCESS PROCEDURES:

See Notification

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340-21.

RECORD SOURCE CATEGORIES:

Information is supplied by individual, automated system interfaces for user codes on file at the agency.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

A0225.11aDAAG

SYSTEM NAME:

225.11 Master Index (NMI)

SYSTEM LOCATION:

Automated Equipment Division, Systems Support Directorate, United States (US) Army Reserve Components Personnel and Administration Center (USARCPAC) AGUZ-SSD; 9700 Page Blvd., St Louis, MO 63132.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any individual who subsequent to 1961 has been released from the active Army.

Any individual retired from the US Army or US Army Reserves.

Any individual who has been or is a member of the US Army Reserves.

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains personnel identification and location indicator of the Official Military Personnel File.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 275.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

USARCPAC: To determine the location of the Official Military Personnel File.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Computer magnetic tapes.

RETRIEVABILITY:

By full name or by social security number.

SAFEGUARDS:

Computer Keyword Distribution of output information, routed by interoffice symbols only.

Building employs security guards, ID badge required to enter building, floor badge required.

RETENTION AND DISPOSAL:

Records are permanent.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, USARCPAC, 9700 Page Blvd., St Louis, MO 63132.

NOTIFICATION PROCEDURE:

Information may be obtained from:
Commander, USARCPAC
9700 Page Blvd
St Louis, MO 63132
Telephone: Area Code 314/268-7733

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to: Commander, USARCPAC, 9700 Page Blvd., St Louis, MO 63132.

Written requests for information should contain the full name and social security number of the individual.

For personal visits, the individual should be able to provide some acceptable identification, such as driver's license.

CONTESTING RECORD PROCEDURES:

The rules of the agency for access to records and for contesting contents and appealing initial determinations may be obtained from the SYSMANAGER.

RECORD SOURCE CATEGORIES:

A0225.11bDAAG

SYSTEM NAME:

225.11 The USA Individual Ready, Standby and Retired Reserve Personnel Information System.

SYSTEM LOCATION:

Automated Equipment Division, Systems Support Directorate, United States (US) Army Reserve Components Personnel and Administration Center (USARCPAC), ATTN: AGUZ-SSD, 9700 Page Boulevard, St Louis, MO 63132.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All members of the US Army Reserve who are not assigned to a Reserve unit and not serving on extended active duty in an enlisted reserve status.

CATEGORIES OF RECORDS IN THE SYSTEM:

Record contains personal and military status and qualifications data.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 275.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

US Army Reserve Components Personnel Center, Department of the Army staff and command agencies, and Department of Defense and components thereof: The data records are primarily used to select qualified members for assignment to active Army units and mobilized reserve component units in the event of mobilization during a national emergency. Record is also used to support day-to-day personnel management and administration. Specifically, these uses include: selecting qualified personnel for potential assignment to reserve units based on military occupational specialty, grade, and geographical location; selecting and ordering individuals to military active duty training; identifying personnel for promotion consideration; identifying individuals not qualified for retention in the reserve; issuing annual statements of retirement credits; printing statements of total retirement credits; and publishing orders directing personnel actions and training.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Computer magnetic tapes and disks.

RETRIEVABILITY:

Filed numerically, social security number (SSN) ascending.

SAFEGUARDS:

Computer located in building which has entrance controlled by Federal Protective Officers. An ID badge is required to enter building and a different floor badge is required to enter the floor. The tape and disk library is a fireproof vault with a safe combination door plus a steel bar key-locked door. The functional and systems directors approve production requests for both one-time and recurring information.

RETENTION AND DISPOSAL:

Records are maintained for six years after completion of statutory or contractual reserve commitment.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, US Army Reserve Components Personnel and Administration Center, 9700 Page Boulevard, St Louis, MO 63132.

NOTIFICATION PROCEDURE:

SYSTEM NAME:

225.12 Data Processing Installation Control System

SYSTEM LOCATION:

Primary System: Automatic Data Processing Branch, Operations Division, Personnel Information Systems Directorate, US Army Military Personnel Center.

Decentralized Segments-Room 7E028 Forrestal Building- Room 2B744 Pentagon, both remote sites of the Primary System.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any DOD employee requiring access to US Army Military Personnel Center computer facility or equipment.

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains individual's name, social security number, office symbol and telephone number. In addition, the following information is maintained on operators of the equipment-assigned Table of Distribution and Allowances paragraph and line number, job title, authorized and actual grade, occupational skill, security clearance, section assignment and projected separation date.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 3012.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Automatic Data Processing Branch and decentralized sites: To verify individual authority to use computer equipment; Security requirements: The processing of classified information and personnel information on equipment by users requires limited access to major remote terminals and the primary computer site.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Data Base Management Mass Storage. Input correspondence maintained in paper record folders.

RETRIEVABILITY:

Filed alphabetically or by submitting agency.

SAFEGUARDS:

The primary site employs security guards that check individual access against system reports. Remote location operators check access against system reports.

RETENTION AND DISPOSAL:

Records are retained for the duration the individual is authorized access.

Destroy after 1 year.

SYSTEM MANAGER(S) AND ADDRESS:

US Army Military Personnel Center (DAPC-PSO-A), 200 Stovall Street, Alexandria, Virginia 22332

NOTIFICATION PROCEDURE:

Information may be obtained from the SYSMANAGER.

RECORD ACCESS PROCEDURES:

Individuals should write or contact SYSMANAGER in person.

CONTESTING RECORD PROCEDURES:

The Army's rules for contesting contents and appealing initial

determinations are contained in Army Regulation 340-21; as supplemented by Army Regulations 18-7 and 380-5.

RECORD SOURCE CATEGORIES:

Agencies utilizing the computer facility are requested to submit written input to the SYSMANAGER. SYSMANAGER periodically revalidates access directly with these agencies.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

A0228.01DAMH

SYSTEM NAME:

228.01 Army History Files

SYSTEM LOCATION:

US Army Center of Military History, Department of the Army, Washington, DC 20310.

Decentralized segments exist at historical offices at HQDA and field operating agencies, major commands, and the USA Military Historical Research Collection, Carlisle Barracks, PA 17013.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Military and civilian personnel associated with the Army; individuals who seek information concerning U.S. Army activities.

CATEGORIES OF RECORDS IN THE SYSTEM:

Biographical resumes and personal working files of U.S. Army personnel; personal papers donated by individuals for historical research; photographs of Army personages; requests for historical documents regarding U.S. Army activities; and responses thereto.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 3012, Title 5 U.S.C., Section 301.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To provide information of a general nature concerning U.S. Army history in response to inquiries; to assist in preparing official studies of the U.S. Army and events pertaining thereto.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records, tapes, and photographs in file folders.

RETRIEVABILITY:

By individual's name.

SAFEGUARDS:

Records are maintained in secured areas accessible only to persons having need for the information in the performance of official duties.

RETENTION AND DISPOSAL:

Historical material and photographs are retained in historical reference collections permanently. Some are retired to the Washington National Records Center when no longer needed in historical offices; others are transferred to the Military History Research Collection at Carlisle Barracks, PA for preservation.

SYSTEM MANAGER(S) AND ADDRESS:

Chief of Military History, Headquarters, Department of the Army, Washington, DC 20310.

NOTIFICATION PROCEDURE:

Individuals wishing to inquire whether this system of records contains information about them should contact the SYSMANAGER.

RECORD ACCESS PROCEDURES:

Individuals may request access to their records by contacting the SYSMANAGER, furnishing their full name, social security number, and signature.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340-21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

From the individual, his/her Army record, photographs, official Army documents, public records.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

A0228.11DAAG

SYSTEM NAME:

228.11 Memorialization Board Files

SYSTEM LOCATION:

Primary System: Operations Division, Administrative Management Directorate, The Adjutant General Center (i.e., HQDA (DAAG-AMO) WASH DC 20314);

Decentralized segments exist throughout the Army to the installation level.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any individual for whom a memorialization action is recommended or taken. Only deceased personnel are eligible for memorialization, but sometimes living personnel are recommended.

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains a record of memorialization actions taken and background information of each, consisting of letters, staff studies and related information leading to a memorialization decision. Also included in the file may be memorialization for record pertaining to processing of a particular action and an information copy of orders announcing that a street, building, installation or similar object or thing has been or will be named after a deceased individual.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 3012

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Memorialization board files are used as an essentially decentralized record of memorialization actions taken throughout the Army. When a memorialization action is approved, orders are issued formalizing the approval. (A copy of each order is sent to operations Division where a card is prepared and filed indicating action taken, date, order number and location.)

Files maintained by the approval authority are also used as a source of information from which it can be determined whether others were considered for a particular action and, by exclusion, those who have not been memorialized.

Unusual cases in the Operations Division file also serve as a source of policy and precedence information.

After an action is approved, records may provide information supportive of publicity and news releases.

Records are also used for historical reference.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders.

RETRIEVABILITY:

Operations Division: filed alphabetically by last name of those memorialized.

Decentralized segments: filed loosely in a file folder by calendar year in which memorialization action occurred. Accessible by name.

SAFEGUARDS:

Operations Division - building employs security guards. Records are maintained in areas accessible only to authorized personnel that are properly screened, cleared and trained.

Decentralized segments: files accessible to records maintenance and managerial personnel.

RETENTION AND DISPOSAL:

Records of final approving authority are permanent. In most cases approval authority is delegated to installation commanders for memorialization actions on a particular installation except when a policy exception is required or in major naming cases which must be approved by higher authority. Permanent records are held 5 years in the current files area and then sent to a records holding area from which they are retired to the Washington National Records Center. Records of supervisory, reviewing or other offices are destroyed 2 years after the end of calendar year in which a memorialization occurred or on discontinuance of the office concerned (whichever occurs first).

SYSTEM MANAGER(S) AND ADDRESS:

The Adjutant General, Headquarters, Department of the Army, the Pentagon, Washington DC

NOTIFICATION PROCEDURE:

Information may be obtained from:
HQDA (DAAG-AMO)
Room GA 159
Forrestal Building
Washington, DC 20314
Telephone: Area Code 202/693-8380

RECORD ACCESS PROCEDURES:

Requests for information concerning those rare memorialization actions in which a living person has been recommended should be addressed to the installation concerned or: HQDA (DAAG-AMO), Room GA 175, Forrestal Building, Washington, DC 20314.

Written requests for information should include the full name of the individual and when applicable, information about the building, street, installation, etc., concerned.

For personal visits an individual must be able to provide proper identification such as a driver's license or employing office identification card.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations may be obtained from the SYSMANAGER.

RECORD SOURCE CATEGORIES:

Information supporting a memorialization request is extracted from personnel records and orders and from historical references (as applicable).

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

A0239.01DAAG

SYSTEM NAME:

202.08 Request for Information Files

SYSTEM LOCATION:

These records exist at Headquarters, Department of the Army, staff and field operating agencies, major commands, installations and activities receiving requests to access records pursuant to the Freedom of Information Act or to declassify documents pursuant to Executive Order 12065. They also exist in offices of Initial Denial Authorities (enumerated in Army Regulation 340-17) when an individual's request is denied; upon appeal of that denial, record is maintained in the Secretary of the Army's Office of General Counsel. Official mailing addresses are in the DOD Directory following the Annual Compilation of system notices appearing at 44 FR 74011 on December 17, 1979.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any individual who requests an Army record under the Freedom of Information Act or requests mandatory review of a classified document pursuant to Executive Order 12065.

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains individual's request; related processing papers; correspondence between the office of receipt, records custodians, Army staff offices and other government agencies; retained copies of classified or other exempt materials; and other selective documents.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 5 U.S.C., Section 552: Freedom of Information Act as amended by Pub. L. 93-502; Executive Order 12065.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To control administrative processing of requests for information either pursuant to the Freedom of Information Act or to Executive Order 12065, including appeals from denials.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders

RETRIEVABILITY:

Files alphabetically by last name of requestor.

SAFEGUARDS:

Records are maintained in areas accessible only to authorized personnel that are properly trained.

RETENTION AND DISPOSAL:

Records reflecting granted requests are destroyed after 2 years. When requests have been denied, records are retained for 5 years except that if appeals result, records are retained until 4 years after final denial by the Army or 3 years after final adjudication by the courts, whichever is later.

SYSTEM MANAGER(S) AND ADDRESS:

The Adjutant General, Headquarters, Department of the Army, Washington DC 20310

NOTIFICATION PROCEDURE:

Requests should be addressed to the custodian of the record sought; if unknown, write to: HQDA (DAAG-AMR-S), Room GA-082, Forrestal Building, Washington DC 20310, telephone: 202/693-1847.

RECORD ACCESS PROCEDURES:

Written requests should be addressed to the office that processed the initial inquiry or access request. Individual may obtain assistance from the System Manager.

Personal visits may be made to the office maintaining the records upon presentation of acceptable identification such as driver's license, and furnishing verbal information that can be verified.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340-21(32 CFR Part 505).

RECORD SOURCE CATEGORIES:

From the individual requestor, Department of Army organizations, other Department of Defense components, and other Federal, state, and local government agencies.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

The majority of records in this system are not exempt. Copies of documents residing in the office of an Initial Denial Authority having a law enforcement mission which fall within (j)(2) are exempt from the following provisions of Title 5 U.S.C., section 552a: (c)(3), (d), (e)(1), (e)(2), (e)(3), (e)(4)(G), (e)(4)(H), (e)(5), (e)(8), (f), and (g). Copies of

documents maintained by other Initial Denial Authorities not having a law enforcement mission which fall within 5 U.S.C., section 552a (k)(1) through (k)(7) are exempt from the following provisions of Title 5 U.S.C., section 552a: (c) (3), (d), (e)(1), (e)(4)(G), (e)(4)(H), and (f).

A0240.01DAAG

SYSTEM NAME:

201.08 Privacy Case Files

SYSTEM LOCATION:

These records exist at Headquarters, Department of the Army, staff and field operating agencies, major commands, installations and activities receiving Privacy Act requests. They also exist in offices of Access and Amendment Refusal Authorities (enumerated in Army Regulation 340-21) when an individual's request to access and/or amend his/her record is denied; upon appeal of that denial, record is maintained by the DA Privacy Review Board. Official mailing addresses are in the DOD Directory following the Annual Compilation of system notices appearing at 44 FR 74011 on December 17, 1979.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who request information concerning themselves which is in the custody of the Department of the Army, including requests to amend such records pursuant to Title 5, U.S.C. section 552a(d) (Privacy Act of 1974).

CATEGORIES OF RECORDS IN THE SYSTEM:

Documents which notify requestors of the existence of records on them, providing or refusing access to or amendment of records, acting on appeals or refusals to provide access to or amend records, and providing or developing information for use in litigation. Included are requests; approval and refusal actions; appeals and actions on appeals, including DA Privacy Review Board minutes and actions; coordination actions; copies of the requested and amended/unamended records; statements of disagreement; and related documents.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 3012; Title 5 U.S.C., Section 552a.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Files are used to process and coordinate individual requests for access, and amendment of personal records; to process and record appeals on denials of requests for access or amendment to personal records by the individual against agency rulings; and to ensure timely response to requestors.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file holders.

RETRIEVABILITY:

By name of requestor on whom the records pertain.

SAFEGUARDS:

Records are accessed by custodian of the record system and by persons responsible for servicing the record system in performance of their official duties who are properly screened and cleared. Records are stored in locked cabinets or rooms.

RETENTION AND DISPOSAL:

Offices of Access and Amendment Refusal Authorities: Approved requests, unappealed refusals and refusals fully overruled by appellate authorities: Destroy after 4 years; refusals upheld in whole or in part by appellate authorities: destroyed after 10 years, provided legal proceedings are completed.

Offices of appellate authorities: Appeals adjudicated fully in favor of requestor: destroyed after 4 years. Appeals refused in full or in part: destroyed after 10 years provided legal proceedings are completed.

Other offices: Destroyed after 4 years.

SYSTEM MANAGER(S) AND ADDRESS:

The Adjutant General, Headquarters, Department of the Army, ATTN: DAAG-AMR-R, Washington, DC 20310.

NOTIFICATION PROCEDURE:

Requests should be addressed to the custodian of the record sought; if unknown, write to: HQDA (DAAG-AMR-R), 1000 Independence Avenue, SW, Washington, DC 20310, telephone: 202/693-0973.

RECORD ACCESS PROCEDURES:

Written requests should be addressed to the office that processed the initial inquiry, access request, or amendment request. Individual may obtain assistance from the System Manager.

Personal visits may be made to the office maintaining the records upon presentation of acceptable identification such as driver's license, employee identification card, and furnishing verbal information that can be verified from individual's case file.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340-21(32 CFR Part 505).

RECORD SOURCE CATEGORIES:

From the individual requestor, Department of Army organizations, other Department of Defense components, and other Federal, state, and local government agencies.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

The majority of records in this system are not exempt. Copies of documents residing in the office of an Access and Amendment Refusal Authority having a law enforcement mission which fall within (j)(2) are exempt from the following provisions of Title 5 U.S.C., section 552a: (c)(3), (d), (e)(1), (e)(2), (e)(3), (e)(4)(G), (e)(4)(H), (e)(5), (e)(8), (f) and (g). Copies of documents maintained by the DA Privacy Review Board and by those Access and Amendment Refusal Authorities not having a law enforcement mission which fall within 5 U.S.C., section 552a (k)(1) through (k)(7) are exempt from the following provisions of Title 5 U.S.C., section 552a: (c)(3), (d), (e)(1), (e)(4)(G), (e)(4)(H), and (f).

A0301.07aDAAG

SYSTEM NAME:

301.07 Army Club Membership Registration System

SYSTEM LOCATION:

Decentralized at Army installations worldwide; the systems will be maintained by the Officers' or NCO club manager at Army installations having club activities. Official mailing addresses are in the Department of the Defense Directory in the Appendix.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any individual active military, reserve component, retired, civilian, or dependent who voluntarily applies for membership in an Army club.

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains name, grade, social security number (SSN), address, phone number, name of spouse, credits, merchandise code, date of purchase, activities code. Card number, club bill, date estimated return from overseas (DEROS) where applicable.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 3012.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Administration of club membership, billing by local commercial institutions maintaining credit systems for individual Army clubs or for billing by local finance and accounting office, preparation of club membership cards, determination of eligibility for membership, identification for collection of accounts due, and dissemination of information regarding club activities.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File cards, kardex files, automated files, file folders/ jackets, and computer printouts.

RETRIEVABILITY:

Filed alphabetically by name, SSN, or club membership number.

SAFEGUARDS:

Records are maintained in areas accessible only to authorized personnel.

RETENTION AND DISPOSAL:

An individual's record is maintained on the individual club membership registration file as long as the individual remains a bona fide member of the particular Army club. Routinely destroyed after three years.

SYSTEM MANAGER(S) AND ADDRESS:

The Adjutant General, Headquarters, Department of the Army, (DAAG-ZA), Washington, DC 20310.

NOTIFICATION PROCEDURE:

Information may be obtained from:
Executive, Club Management Directorate,
The Adjutant General Center,
Washington, DC 20314.
Telephone (Area Code) 202/693-1090.

RECORD ACCESS PROCEDURES:

Written requests for information by an individual pertaining to himself should contain the full name of individual, the club at which the individual is a member, current address and SSN. Requests from individuals should be addressed to the respective club at which the individual is a member or has been a member and remains on records as having an account due. For personal visits the individual should be able to provide some acceptable identification (e.g., driver's license, employee identification card).

CONTESTING RECORD PROCEDURES:

The Army's rules for contesting contents and appealing initial determinations may be obtained from Army Regulation 340-21, The Army Privacy Program.

RECORD SOURCE CATEGORIES:

Information contained in membership registration file is obtained directly from individual making application for membership in the respective Army club.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

A0301.08aDACA

SYSTEM NAME:

301.08 Military and Civilian Waiver Files

SYSTEM LOCATION:

United States Army Finance and Accounting Center (USAFAC), Indianapolis, IN 46249.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any Army member or civilian employee or former Army member or civilian employee who applies for waiver of claims arising out of erroneous payments of pay and allowances.

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains application, employment history of the individual, reports of investigation, copies of vouchers, certificates, record of disposition, and correspondence with the U.S. General Accounting Office, Army staff offices, and other government agencies.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 44 U.S.C., Section 3101.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Field Services Office: To obtain data to determine the validity of waivers, or to make referrals to the U.S. General Accounting Office.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders.

RETRIEVABILITY:

Filed alphabetically by last name of individual.

SAFEGUARDS:

Building employs security guards. Records are maintained in areas accessible only to authorized personnel of Field Services Office.

RETENTION AND DISPOSAL:

Records are retained indefinitely in active file.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, USAFAC, Indianapolis, IN 46249.

NOTIFICATION PROCEDURE:

Information may be obtained from:
Chief, Field Services Office
USAFAC
Indianapolis, IN 46249
Telephone: Area Code 317/542-3127

RECORD ACCESS PROCEDURES:

Requests should be addressed to: Chief, Field Services Office, U.S. Army Finance and Accounting Center, Indianapolis, IN 46249

Written requests for information should contain the full name of the individual, social security number and current address. Visits are limited to Field Services Office (FINCY), U.S. Army Finance and Accounting Center, Indianapolis, IN 46249.

For personal visits, the individual should be able to provide some acceptable identification, that is, driver's license, employing office's identification card, and give some verbal information that could be verified with his 'case' folder.

CONTESTING RECORD PROCEDURES:

The Army's rules for contesting contents and appealing initial determinations may be obtained from Chief, Field Services Office (FINCY), U.S. Army Finance and Accounting Center, Indianapolis, IN 46249.

RECORD SOURCE CATEGORIES:

Finance and Accounting Offices, Army member's commanding officer, records custodian and other Government agencies.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

A0301.08bDACA

SYSTEM NAME:

301.08b Contractor Indebtedness Files

SYSTEM LOCATION:

Primary System: Contract Financing Office, Directorate of Finance and Accounting, Office Comptroller of the Army, Department of the Army.

Decentralized Segments: All Army installation and commands, and Defense Contract Administration Services Regions that administer contracts for the Department of the Army.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Contractors as individuals determined indebted to the United States Government.

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains correspondence between contracting officer, administrative contracting officer and/or Contract Financing Office, Directorate of Finance and Accounting and the contractor, that terminates contract, demands payment and extablishes debt, and any other related papers.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Federal Claim Collection Act of 1966, 80 Sta. 308, Title 31 U.S.C., Section 951-53.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Files are used to initiate collection action against a contractor who is determined to be indebted to the United States, to determine whether judicial proceedings should be initiated against the contractor and to maintain and distribute a list of contractors determined to be indebted to the United States. This list is maintained by the US Army Finance and Accounting Center and used by all agencies of the Government.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders, stored in steel filing cabinets.

RETRIEVABILITY:

File alphabetically by last name of individual.

SAFEGUARDS:

Building employs GSA Security Guards. Records are maintained in file cabinets accessible only by authorized personnel in area that is locked after duty hours.

RETENTION AND DISPOSAL:

Files are permanent. They are retained in active file until end of calendar year in which final action is taken, held 2 years after file is closed then transferred to the Washington National Records Center. Copies of files that are sent to the General Accounting Office for determination of judicial proceedings or further collection action are retained in the Contract Financing Office until notification is received that the file has been closed.

A0305.10aDACA

SYSTEM NAME:

Joint Uniform Military Pay System-Active Army (JUMPS-AA)

SYSTEM LOCATION:

Primary System-United States Army Finance and Accounting Center (USAFAC), Indianapolis, IN 46249.

Decentralized Segments-Approximately 122 Army Finance Offices and Finance and Accounting Offices (FAO) world-wide.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All active duty military personnel.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records include individual military pay records, casual payment receipts, substantiating documents, temporary pay records, transmittal letters, locator files, financial data record folders (FDRF), miscellaneous military pay files, and personal financial records (PFR).

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 37 U.S.C., Section 101 and following (Pay and Allowances of the Uniformed Services).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

USAFAC-Purpose is to provide a basis for establishment of computation of each active member's military pay entitlement, to provide a history of pay transactions, and to answer inquiries or claims pertaining to such entitlements. This information is also used to provide necessary data to the Treasury Department, the Social Security Administration, the US Army Military Personnel Center, the Veterans Administration, those states and cities which have an agreement with the Department of the Army to receive taxable earnings information, the American Red Cross and the Department of Health, Education and Welfare.

Treasury Department-To record check and bond issue data and to record taxable earnings and taxes witheld from military personnel.

Social Security Administration: To record earned wages by member under the Federal Insurance Contributions Act (FICA).

US Army Military Personnel Center (MILPERCEN): To compare military personnel identification with the Social Security Administration for purpose of correction and to compare and correct common data elements with USAFAC.

Veterans Administration: To record the collection of premiums for National Service Life Insurance and to transfer contributions to Post-Vietnam Era Veterans Education Account.

States and Cities: To verify tax liability against members' state and city income tax returns.

American Red Cross: To assist military personnel and their dependents in determining the status of monthly pay, dependents allotments, loans, and related financial transactions.

Department of Health, Education and Welfare: Disclose the name, rank and social security account number of each member of the Armed Services on active duty to the Inspector General of that Department only for comparison with appropriate rolls reflecting recipients of Aid to Families with Dependent Children (AFDC).

City of New York: Department of Income Maintenance: Name and address of allottees whose ZIP Codes are in New York City and dollar amount of allotments for the purpose of detecting and curtailing fraud and abuse in Federal Assistance Programs, specifically Aid to Families with Dependent Children and Food Stamps.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders and in bulk storage, card files, computer magnetic tapes, computer paper printout, and microfiche.

SYSTEM NAME:

305.11a USMA Cadet Pay and Accounts System

SYSTEM LOCATION:

Finance and Accounting Office, United States Military Academy, West Point, New York 10996

Treasurer, United States Military Academy (USMA), West Point, New York 10996

Adjutant General (AG) Data Processing Branch, Adjutant General Division, United States Military Academy, West Point, New York 10996

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Members of the United States Corps of Cadets

CATEGORIES OF RECORDS IN THE SYSTEM:

Monthly payroll listings of present members of the Corps showing entitlements and deductions (both required and voluntary).

Bank identification data for deposit of pay.

Individual account activity pertaining to funds held in trust by the Treasurer, United States Military Academy.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Sections 205, 4340 and 4350.

Executive Orders which establish salary tables.

Title 6, General Accounting Office (GAO) Policy and Procedures Manual for Guidance of Federal Agencies.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

A payroll system for computing pay entitlements and deductions for Federal Tax; Social Security; Servicemen's Group Life Insurance, Combined Federal Campaign; Barber, Laundry & Dry Cleaning charges; Advanced Pay and funds deposited with Treasurer, United States Military Academy for holding in trust to pay for required uniforms, books, and equipment.

Internal Revenue Service (IRS): tax and social security reports.

States and Cities: to provide taxable earnings information of cadets to those states and cities who have entered into an agreement with Department of the Army and Treasury Department.

Individual Cadet Statement supplied monthly to each cadet.

United States Army Military Personnel Center furnished magnetic tape for use in verifying social security account numbers with Social Security Administration.

Commandant of Cadets, United States Military Academy: furnished copy of payroll listing for reference purposes to respond to individual cadet inquiries.

Financial institutions: furnished listings of their depositors and amounts to be credited to individual depositor accounts.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Magnetic Tape
Paper records in file folders
Computer paper printouts

RETRIEVABILITY:

Files by cadet number (alphabetical within graduating class year)

Hard copy records are maintained in the Finance and Accounting Office.

SAFEGUARDS:

The Finance and Accounting Office and Treasurer's Office are within buildings and the buildings themselves are secured at night and patrolled. Records are accessible to authorized employees (payroll clerks and supervisors of the Finance and Accounting Office and accounting clerks and supervisors within the Office of the Treasurer). Requests for data, except those which are based on law or court order, are answered only with the written consent of the individual cadet.

Computer access is restricted to authorized computer activity personnel. There is no remote terminal access capability. All master data files and back-up files are stored in secure facilities.

RETENTION AND DISPOSAL:

Original payrolls are submitted monthly to the US General Accounting Office Field Office located and alternately stored at US Army Finance and Accounting Center, Indianapolis, IN 46249.

Duplicate payrolls are retained locally for 3 years and then destroyed by recycling.

Data processing input cards are retained 1 month and then salvaged.

Transaction tapes are retained 1 month then erased.

Master tape and pay check tape files are retained 3 months, then erased.

Quarterly tax report tapes - original is sent to Social Security Administration (SSA) and a back-up is retained by the computer facility. On return both the original and back-up are retained until original tape for annual report is returned, then all quarterly report tapes are erased.

Annual tax report tapes: original is sent to SSA and a back-up is retained. On return of the original, both tapes are retained for 1 year then erased.

SYSTEM NAME:

306.01 Civilian Employee Pay System

SYSTEM LOCATION:

Army Finance and Accounting Offices (FAO) worldwide and United States Property and Fiscal Offices in the United States, Puerto Rico, the Virgin Islands, and the District of Columbia, having civilian payroll responsibilities.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Civilians and contract teachers employed by Department of the Army (DA), Office, Secretary of Defense, and specified elements of the Navy and Air Force.

CATEGORIES OF RECORDS IN THE SYSTEM:

Employees' pay, leave, and retirement records; individual withholding/deduction authorization for dependents, allotments, health benefits, savings bonds, etc.; tax exemption certificates; personal exception and indebtedness papers; subsistence and quarters records, statements of charges, claims, repatriated payment files; roster of authorized timekeepers and signature cards; payroll and retirement control and working paper files; unemployment compensation data requests; reports of retirement fund deductions to Office of Personnel Management (OPM); management narrative and statistical reports relating to pay, leave, and retirement.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 6, General Accounting Office Policy and Procedures Manual for Guidance of Federal Agencies.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

FAO/United States Property and Fiscal Offices: To provide basis for computing civilian pay entitlements; to record history of pay transactions; to record leave accrued and taken, bonds due and issued, taxes paid; to answer inquiries and process claims.

Treasury Department: To record checks and bonds issued.

Social Security Administration (SSA): To report earned wages by employee under the Federal Insurance Contributions Act.

Internal Revenue Service: To record taxable earnings and taxes withheld.

OPM: To record monies paid into Federal Retirement Fund and to provide information pertaining to health benefits.

States and cities: To provide taxable earnings of civilian employees to those states and cities which have entered into an agreement with DA and Treasury Department.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders and in bulk storage, card files, computer magnetic tapes, disks and printouts, and microfilm.

RETRIEVABILITY:

In automated media: By social security number (SSN) within payroll block. In manual form: By last name within payroll block.

SAFEGUARDS:

Records are restricted to personnel who are properly cleared and trained, and have an official need therefor. In addition, integrity of automated data is ensured by internal audit procedures, data base access accounting reports, and controls to preclude unauthorized disclosure.

RETENTION AND DISPOSAL:

Individual pay record files: Permanent. Forward to National Personnel Records Center (NPRC) after 3 years.

Individual retirement records file: Permanent. Retain at installation while member is actively employed. Forward to new installation when member is transferred to another DA activity. Forward to OPM when employee transfers to another installation under the Department of Defense (DOD) NOT serviced by Army or separates from Federal Service. Forward microfilm of

manually maintained individual retirement records to NPRC after 3 years.

Personnel exception and indebtedness files: Permanent. Filed in official personnel folder (OPF). Upon separation or transfer, if OPF is not on file locally, files are forwarded to NPRC, General Services Administration, St. Louis, MO 63118.

Repatriated personnel payment files: Permanent. Forward to NPRC after 3 years.

Subsistence and quarters rate deviation files: Permanent. Retire on discontinuance of the installation.

Other records: Retention periods vary according to category of record. The minimum retention period is 2 years and the maximum period 12 years, after which records are destroyed.

Forward to new installation when member is transferred NAF position. Upon separation or termination of employment files are placed in an inactive status and retained 18 months after close of pay year.

Leave records are retained 10 years and then destroyed.

Individual insurance and retirement records are destroyed 6 years after termination of involvement with nonappropriated fund activity.

Other management and accounting information reports are retained from 1 to 3 years before destruction.

SYSTEM MANAGER(S) AND ADDRESS:

Custodians of nonappropriated fund activities at various installations worldwide. Official mailing addresses are listed in the Department of Defense Directory in the Appendix.

NOTIFICATION PROCEDURE:

Information may be obtained from:
Commander United States Army
Finance and Accounting Center
Attention: FINCD
Indianapolis, Indiana 46249.

Individual may obtain information from the appropriate SYSMANAGER.

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to SYSMANAGER at activities located at commands and installations world-wide.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting the contents and appealing initial determinations are contained in AR 340-21.

Initial determination from SYSMANAGER.

RECORD SOURCE CATEGORIES:

Information is received from DOD staff agencies and field installations, former employers, Social Security Administration, US Treasuty Department, Nonappropriated Fund benefit plans and servicing Civilian Personnel Offices.

Time and attendance data are received from the employing office records.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

A0309.05aDAAG

SYSTEM NAME:

Resource Management and Cost Accounting Files

SYSTEM LOCATION:

Headquarters, Department of the Army, Staff and field operating agencies, major commands, installations and activities. Official mailing addresses are contained in the appendix to the Army's inventory of System Notices published at 44 FR 74011, December 17, 1979.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Military and civilian personnel assigned/attached to the organization.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records by individual of manhours applied to the accomplishment of assigned tasks or projects. Specific data elements include name, Social Security Number/employee identification number, organizational element, military rank/civilian grade, job title, clearance status, rating data, regular/overtime wage rates, regular/overtime hours worked, hours of leave taken, record of official travel, project code, accounting code and cost data, workload units accomplished, file references and related information, and records control data.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C., 301; 10 U.S.C., 3012.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Used by management to project manpower and monetary requirements; to allocate available resources to specific projects; to schedule workload and assess progress; to project a calendar of future organizational milestones; to evaluate individual performance and equipment efficiency; to set standards and methods; to provide a record of personnel and equipment utilization; to control personnel, equipment, and document inventnry; to interpolate training needed by unit or individual; to monitor use of overtime; to control and monitor obligation and expenditure of Government funds; to provide audit trail; to generate statistical reports of workload and production levels and other trends within the organization; and to provide other accounting and monitoring reports.

STORAGE:

Punch cards, magnetic tapes, cards, or disks; microform/microfiche, computer printouts and paper records.

RETRIEVABILITY:

By individual's name, SSN or employee identification number; information may also be accessed by a nonpersonal data element such as project code, cost accounting code, or organizational element.

SAFEGUARDS:

Automated systems employ computer hardware/software safeguard features. All records are maintained in controlled areas, within buildings/rooms which are secured during nonduty hours. Personal information is accessed only by individuals who have need therefore in their official duties.

RETENTION AND DISPOSAL:

Magnetic media are erased after 1 year. Manual records are destroyed after 1 year by pulping, tearing, or shredding.

SYSTEM MANAGER(S) AND ADDRESS:

The Adjutant General, Headquarters, Department of the Army (DAAG-AMR-R), 2461 Eisenhower Ave, Alexandria, VA 22331.

NOTIFICATION PROCEDURE:

Individuals desiring to know whether this system contains information on them should contact the agency head/installation commander of the Department of the Army organization to which they are (or were) assigned/employed and should furnish full name, SSN, Army Activity believed to have the record, and time frame, any other information which will assist in locating the information.

RECORD ACCESS PROCEDURES:

Individuals seeking access to information from this System of Records should provide information in notification procedure above.

CONTESTING RECORD PROCEDURES:

The Army's rules for contesting contents or records and appealing initial determinations are contained in AR 340-21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

Employee time cards; organization manpower rosters; individual personnel and training records; production records; travel orders; unit inventory records and other relevant Dept. of Army documends and reports.

314.09 Nonappropriated Fund Accounts Receivable System (NAFARS)

SYSTEM LOCATION:

Nonappropriated Fund activities decentralized at various Army installations and activities world-wide. Official mailing addresses are listed in the Department of Defense Directory in the appendix to the Department of Army System Notices.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All current members of Officer club facilities and past members who have other than zero balance in their accounts.

Noncommissioned Officer Club facilities whose members accounts show balances other than zero.

All personnel using Post billeting facilities on a fee-paid-basis (Bachelor Officer Quarters, Visitor Officer Quarters and Guesthouse facilities) and personnel no longer using such facilities whose accounts have other than zero balances.

Any individual, military or civilian, having a statement of account for the billing period.

All military and other personnel occupying government housing at any military installation world-wide.

Individual class B telephone subscribers.

Members, customers or civilians having 30-day credit terms for 'charge' sales and/or dues obligations to NAF activities.

All personnel whose accounts have been charged with dollar accounts of checks that have been dishonored by banking institutions and returned to NAF activities.

Individuals who have cash loans charged to their accounts.

CATEGORIES OF RECORDS IN THE SYSTEM:

Dues/Charge Sales

Files contain records of individual names, social security number, rank, amount of charges, and billings of items or services furnished.

Billeting, Quarters and Utilities

Records include individual files showing establishment of quarters and utility accounts containing all charges, collections and balances on a current basis.

Files of subscriber's requests for installation or removal of telephones.

Cross references between name and telephone numbers.

Individual records describing services provided.

Retained copies of billing showing current and cumulative charges.

Subsidiary ledgers containing detail of services billed and paid by individual receiving services or items.

Customer account listings.

Alpha and numeric lists of delinquent accounts.

Invoice listings.

Toll listings, unmatched toll lists, error lists and billing lists.

Work order forms.

Master list of account showing name, social security number, phone number, unit and home address.

Cash summary lists, cumulative unpaid transaction (unpaid totals by telephone, taxes, rent and utilities).

Master transaction files showing total by type of charge.

Monthly lists compiled by building and/or room number, name and rank of occupant.

Monthly receipt vouchers, date of payment with payment method (cash/check).

File of billings associated with returned dishonored checks.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 3012; Title 5 U.S.C., Section 5101, Section 401 PL 216, Section 113 PL 784; Title 10 U.S.C., Section 2481. Title 31 U.S.C., Section 66.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Central Accounting Officers, custodians and independent accounting service facilities maintain current rosters as subsidiary records for accounts receivable and cash accountability control.

Provide monthly statements to be mailed to customers.

Provide ledger balances for activity financial statements.

To answer inquiries of members on account status and specific transactions, researching errors and nonagreement in general ledger and subsidiary ledger account balances.

Prepare aged listing of accounts receivable, 30, 60 and 90 days.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Computer hardcopy printouts filed in binders, copies of statements filed in folders identified by customer name and social security number.

Account master files on tape (disks) showing current and cumulative balance data.

RETRIEVABILITY:

Magnetic tapes and/or disks by account in numerical and alphabetical order.

SAFEGUARDS:

Records are maintained in lock-type cabinets within storage areas accessible only to authorized personnel.

RETENTION AND DISPOSAL:

Hardcopy records destroyed after 3 years provided audit has been performed and no exceptions or irregularities have been disclosed.

Magnetic tapes and disk files same as other hardcopy.

Punched cards destroyed upon conversion to tape or disk files.

SYSTEM MANAGER(S) AND ADDRESS:

Custodian of nonappropriated fund activities at various installations worldwide.

Official mailing addresses are listed in the appendix to the Department of Army System Notices.

NOTIFICATION PROCEDURE:

Obtain all information from appropriate SYSMANAGER.

RECORD ACCESS PROCEDURES:

Written requests for information must consist of full name, social security number and account number.

CONTESTING RECORD PROCEDURES:

The rules for access to records and for contesting and appeals (AR 340-21) may be obtained from the SYSMANAGER.

SYSTEM NAME:

320.01 Corps of Engineers Management Information System Files

SYSTEM LOCATION:

US Army Engineer Waterways Experiment Station, P.O. Box 631, Vicksburg, MS; US Army Engineer Division, Missouri River, P.O. Box 103 Downtown Station, Omaha, NE; US Army Engineer District, Norfolk, 803

Front Street, Norfolk, VA; US Army Engineer Division, North Central, 536 S. Clark Street, Chicago, IL; US Army Engineer Division, North Pacific, 220 N.W. 8th Avenue, Portland, OR; US Army Engineer Division, Ohio River 550 Main Street, Cincinnati, OH; US Army Engineer Division, South Atlantic, 30 Pryor Street, S.W., Atlanta, GA; US Army Engineer Division, South Pacific, 630 Sansome Street, San Francisco, CA; US Army Engineer Division, Southwestern, 1200 Main Street, Dallas, TX; US Army Engineer Data Processing Center, P.O. Box 2828, Washington, DC; US Army Engineer Division, Europe, Army Post Office (APO) New York; US Army Engineer Division, Middle East, APO New York.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

US Army Corps of Engineers civilian and military employees at locations covered by the system regardless of whether they are employed in the continental United States or overseas; whether employed on a part time, full time or intermittent basis; and regardless of pay plan.

CATEGORIES OF RECORDS IN THE SYSTEM:

Files contain employee's travel advance records identified by social security number (SSN). For computation of employee's labor cost, the Finance and Accounting (F&A) Subsystem retrieves 8 of the 62 personal data elements per employee from the Personnel Subsystem files of the Corps of Engineers as follows: name, SSN, pay rates, employing office, organizational breakdown, Fair Labor Standards Act coverage, cost codes and funds (functional designator).

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 5 U.S.C., Section 301.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The employee data elements are retrieved from the Personnel Subsystem of the Corps by employee SSN. These data elements are used to compute and extend the employee labor costs which are charged to the job worked on by the employee identified by cost code and reflected as obligations and expenditures. The computer printouts produced by the common system F&A programs will list the employee labor costs by SSN or name and are used for control and checking costs recorded in accounting records. The accounting records of the F&A Subsystem will identify the employee labor by cost code and/or organization code. Travel advances are recorded and liquidated in the system using the employee SSN. The Corps of Engineers F&A field offices are provided computer printouts which are used to manage and control financial expenditures that will be recorded and updated in the applicable appropriation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Computer magnetic tape and computer paper printouts.

RETRIEVABILITY:

By SSN.

SAFEGUARDS:

Computers are housed behind locked doors.

Rooms are accessible only to authorized persons possessing a special badge or password.

Unauthorized access to the employee file is precluded through a system of passwords.

The official printouts are used by supervisors, managers, and members of the comptroller's office in carrying out F&A responsibilities.

RETENTION AND DISPOSAL:

Corps of Engineers Management Information System Finance and Accounting (COEMIS F&A) files for site audits consist of cost forms as input documents and voucher output listing of employee labor and travel costs. These files are destroyed after 6 years and 3 months. Punch cards that process these data into the computer are destroyed upon completion of General Accounting Office audit.

COEMIS F&A internal or external output files containing this data are destroyed after 30 years.

COEMIS F&A utility files consisting of output reports for maintaining and controlling the F&A Subsystem transactions are destroyed after 5 years.

COEMIS F&A magnetic tape data base files that contain the net result of all transactions processed by the update programs are retained for 30 years.

F&A audit trail tape files contain each valid transaction processed by the update program. These files are retained for 6 years and 3 months.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Office of the Engineer Comptroller, Office of the Chief of Engineers, Washington, DC 20314.

NOTIFICATION PROCEDURE:

Information may be obtained from the servicing comptroller office.

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to the servicing comptroller office. Written requests should contain, as a minimum, the individual employee's name and SSN.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340-21.

RECORD SOURCE CATEGORIES:

The Official Personnel Folder (201 File) maintained by the employing Civilian Personnel Office.

SYSTEM NAME:

401.02 Mailing List for Army Newspapers/Periodicals

SYSTEM LOCATION:

HQDA Staff and Field Operating Agencies, Major Commands, field installations and activities, Army Service Schools/Colleges, Army National Guard Bureau Headquarters and field activities. Official addresses are in the Department of Defense Directory appearing in the Annual Compilation of System Notices.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

File contains name and current mailing address of recipients of Army and/or National Guard magazines, newspapers, professional and trade publications, journals, digests, and newsletters. Recipients may be current or former Army and/or National Guard personnel, staff and faculty or graduate/resident/correspondence student of Service Schools, military reservists, ROTC cadets, civilian academicians, professional or other personnel who have requested inclusion on mailing lists.

CATEGORIES OF RECORDS IN THE SYSTEM:

Mailing lists containing names and addresses of recipients of various periodicals published by the Army and/or the National Guard which have public relations value. Types of periodicals include but are not limited to the following:

a. Journals published by military schools and colleges, medical facilities, and training institutions.

b. Army newspapers or digests containing official or quasi-official but non-directive data of either a

technical or administrative nature. Other personal data may be included such as Alumni Association Member number, professional society or trade organization of which a member and related information.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 3012; Title 32 U.S.C., Section 110.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

a. To produce mailing lists for distribution of Army periodicals, newspapers and various journals, digests and newsletters.

b. To perform statistical analyses and surveys of reader interest and opinion.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records, magnetic and computer tape, disk, cards, printouts, and addressograph plates.

RETRIEVABILITY:

By name of individual.

SAFEGUARDS:

Records are maintained by authorized personnel who have a need-to-know.

RETENTION AND DISPOSAL:

Retained until no longer needed, normally until individual requests deletion from mailing list, after which record is destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Heads of DA Staff and Field Operating Agencies, Major Commands, commanders of installations/activities, Army Service Schools/Colleges and National Guard activities that publish periodicals, command newspapers, or other special-interest recurring publications.

NOTIFICATION PROCEDURE:

Information may be obtained from either the Editor of the publication or the Public Affairs Officer of the Army and/or National Guard element publishing the periodical.

RECORD ACCESS PROCEDURES:

Requests should be addressed to the Editor or the Public Affairs Officer as in 'Notification procedure'.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340-21.

RECORD SOURCE CATEGORIES:

Individual's application for the periodical; records of the Army and/or National Guard organization publishing same.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

SYSTEM NAME:

402.01 General Legal Files

SYSTEM LOCATION:

Office of the Judge Advocate General, Pentagon, Washington, DC 20310; Offices of Staff Judge Advocates, Judge Advocates, and Legal Counsels of subordinate commands, installations, and organizations.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who have been the subject of matters (civil or criminal) referred to the Office of the Judge Advocate General or to legal offices of subordinate commands, installations, and organizations for legal opinion, legal review, or other action. Some examples of matters frequently referred for legal opinion, legal review, or other action are: Elimination and separation proceedings; questions pertaining to entitlement to pay, allowances, or other benefits; flying evaluation boards, line of duty investigations, reports of survey, and other boards of investigating officers; unfavorable information (DASEB) cases, efficiency report (DASRB) appeals; petitions to the Army Board for the Correction of Military Records; matters pertaining to on-post solicitation, revocation of privileges, and bars to entry on military installations; matters pertaining to appointments, promotions, enlistments, and discharges; matters pertaining to prohibited activities and conflicts of interest for Army personnel and employees; Article 138, UCMJ complaints (10 USC 938); private relief legislation; military justice matters including requests for delivery of service members for trial by civilian authorities, appeals from non-judicial punishment imposed under Article 15, UCMJ (10 USC 815), appeals under Article 69, UCMJ 869), Secretarial review of officer dismissal cases, petitions for clemency, requests for pardons, and requests for grants of immunity for civilian witnesses; matters pertaining to civilian employees and employees of nonappropriated fund instrumentalities including employment, pay, allowances, benefits, separations, discipline and adverse actions, grievances, equal opportunity complaints, awards, and claims processed by other agencies; and correspondence addressed to the Office of The Judge Advocate General (or subordinate legal offices), or addressed to the President, members of Congress, Department of Defense, or Department of the Army which is referred to the Office of The Judge Advocate General or other legal office for response.

CATEGORIES OF RECORDS IN THE SYSTEM:

Inquiries with substantiating documents, personnel actions, investigations, petitions, complaints, or other matters to be reviewed or acted upon; legal memoranda and legal opinions; and correspondence and responses thereto. Legal opinion files which are not indexed by individual name or personal identifier are frequently commingled with subject files, but are not a part of this system of records.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Sections 3037 and 3072.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Department of Justice for grants of immunity and requests for pardons.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders.

RETRIEVABILITY:

Alphabetically by last name.

SAFEGUARDS:

Maintained in locked file cabinets and/or in locked offices in buildings employing security guards and/or located on military installations with military police patrols and protection.

RETENTION AND DISPOSAL:

Permanent due to legal precedence value at Army staff and headquarters of major commands. In other offices, some types of records not having legal precedence value are retained for lesser periods (as little as two years) and destoyed.

SYSTEM MANAGER(S) AND ADDRESS:

The Judge Advocate General, Headquarters, Department of the Army (DAJA), Washington, DC 20310. For records maintained in legal offices of subordinate commands, installations, or organizations, the Staff Judge Advocate, Judge Advocate, or Chief Legal Counsel, as appropriate. Official mailing addresses are in the DOD directory in the Appendix.

NOTIFICATION PROCEDURE:

Information may be obtained by writing or visiting the office of the appropriate SYSMANAGER. Written requests for notification should contain the full name, address and telephone number of the requester, and any other personal data which would assist in identifying records pertaining to the requester such as current or former military status, date of birth, SSN or service number, and if applicable, the date, place, and type of incident which the requester believes may have been referred for legal review.

RECORD ACCESS PROCEDURES:

Access to records may be obtained in the same manner as notification, except that requests for access in person will require verification of identity by military, civil service or dependent ID card, driver's license, or other reasonable means.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in AR 340-21.

RECORD SOURCE CATEGORIES:

Legal memoranda and opinions are based on records submitted with the inquiry from various Department of the Army staff agencies, commands, installations, and organizations. When responding to correspondence, the files contain information supplied by the individual, and in some cases, facts gathered from various Department of the Army records.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Parts of this system may be exempt under Title U.S.C., Section 552a (k)(1), (2), (5), (6) or (7), as applicable. For additional information, contact the SYSMANAGER.

Major Command/Department of Army Staff Agencies and installations/activities, the addresses of which are in the Appendix.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All civilian officers and employees paid at the level of grades GS-16 to GS-18 and at a level of the executive schedule in subchapter 11 of chapter 53 of Title 5, United States Code.

All general officers.

Commanders and Deputy Commanders of major Army installations. For this purpose, major installations are those authorized a

commander in the grade of LTC or higher.

DOD personnel classified at GS-13 or above under Section 5332 of Title 5, United States Code or at a comparable pay level under another authority, or members of the military in the rank of LTC or above whose basic duties and responsibilities require the incumbent to exercise judgment in making a government decision or in taking government action in regard to administering or monitoring grants or subsidies.

DOD personnel classified at GS-13 or above under Section 5332 of Title 5, United States Code or at a comparable pay level under another authority or members of the military in the rank of LTC, or above whose basic duties and responsibilities require the incumbent to exercise judgment in making a government decision or in taking government action in regard to: (1) Contracting or Procurement. For the purpose of this section 'Contracting or Procurement' is defined as executing or approving the award of contracts. (2) Auditing. Auditing private or other non-federal enterprise including the supervision of auditors engaged in audit activities or participating in the development of policies and procedures for the performing of such audits, including the authorizing and monitoring of grants to institutions or other non-federal enterprise. (3) Other activities in which the final decision or action has a significant economic impact on the interests of any non-federal enterprise.

Major commanders and heads of DA Staff Agencies.

Enlisted personnel occupying designated positions of trust and responsibility (para 4-2b(2) of Section 5332, Title 5).

Military personnel designated as contracting personnel for officers, non-commissioned officers or enlisted members open mess.

CATEGORIES OF RECORDS IN THE SYSTEM:

Statements of employment and financial interest, supplementary statements, reports of change, review comments, and related papers.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 3012 and Executive Order 11222.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Review for sufficiency and determine if conflict of interest exists, and assist in resolving conflicts in accordance with Army Regulation 600-50.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders.

RETRIEVABILITY:

Alphabetically by last name of individual.

SAFEGUARDS:

Kept in locked cabinet in building under 24 hour surveillance by security police.

RETENTION AND DISPOSAL:

Destroyed 6 years after reassignment, retirement, or termination of employment.

SYSTEM MANAGER(S) AND ADDRESS:

Office of the Deputy Chief of Staff for Personnel, Department of Army, Director of Human Resources Development, Leadership and Motivation Division (DAPE-HRL).

NOTIFICATION PROCEDURE:

Information may be obtained from: Major Command or Head of DA Staff Agency.

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to: Major Command or Head of DA Staff Agency.

Written requests for information should contain the full name of the individual, social security number, duty assignment, current address, and telephone number.

For personal visits, the individual should be able to provide acceptable identification; for example: valid driver's license and current identification card.

CONTESTING RECORD PROCEDURES:

The Army's rules for contesting contents and appealing initial determinations are contained in AR 340-21 and AR 600-50.

RECORD SOURCE CATEGORIES:

Information is provided by the individual.

CATEGORIES OF RECORDS IN THE SYSTEM:

Interview Card.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 3012.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Interview Card contains basic information which is necessary in the preparation of the legal documents, i.e., wills, power of attorneys, etc. The cards are used in the preparation of the annual statistical report which only shows the number and types of actions handled by the Legal Assistance Office during the year. The Interview Card is subject to the attorney-client privilege rule and the information contained thereon will not be given to any source without the prior approval of the client.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders.

RETRIEVABILITY:

Filed alphabetically by last name of client.

SAFEGUARDS:

Various Federal buildings employ security guards. Records are maintained in file cabinets accessible only by authorized personnel who are properly instructed in the permissible use of the information.

RETENTION AND DISPOSAL:

The Interview Record File is destroyed after 1 year.

SYSTEM MANAGER(S) AND ADDRESS:

Decentralized Systemm - Chief, Legal Assistance Office, Office of the Judge Advocate General, Department of the Army, Washington, DC 20310 and Staff Judge Advocate offices at organizations listed in the DOD organizational directory.

NOTIFICATION PROCEDURE:

Information may be obtained from the SYSMANAGER.

Written requests for information should contain the full name of the individual, current address and telephone number, the case number that appears with the office symbol on all correspondence received from this office and any other personal identifying data (driver's license number, if any) which would assist in determining the identity of the requestor.

For personal visits, the individual should be able to provide some positive identification (driver's license, identification card) and give some information that could be verified within his 'case' folder. Visits may be made to any Staff Judge Advocate Office.

RECORD ACCESS PROCEDURES:

Written requests for information should contain the full name of the individual, current address and telophone number, the case number that appears with the office symbol on all correspondence received from this office and any other personal identifying data (driver's license number, if any) which would assist in determining the identity of the requester.

For personal visits, the individual should be able to provide some positive identification (driver's license, identification card) and give some information that could be verified within his 'case' folder. Visits may be made to any Staff Judge Advocate Office or the Legal Assistance Office, Office of The Judge Advocate General, Room 2C467, The Pentagon, Washington, DC 20310.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting countents and appealing initial determinations may be obtained from the SYSMANAGER.

RECORD SOURCE CATEGORIES:

The Legal Assistance Interview Record File contains the Interview Cards which are prepared byy the individuals who come into the Legal Assistance Office for assistance. The card contains basic information about the individual; such as, name, grade, organization, wife's name, social security number.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

A0403.01aDAJA

SYSTEM NAME:

403.01 U.S. Army Claims Service Management Information System (USARCS MISO).

SYSTEM LOCATION:

For the manual system, the claims index cards and data output are located at the United States (US) Army Claims Service, Office of The Judge Advocate General, Ft Meade, MD 20755, and the individual claims index cards and claims files pertaining to settled cases are located at Reference Service Branch, Washington National Records Center, General Services Administration, Washington, DC 20409.

The automated systems are stored on computer disks located at the Management Information Systems Office, US Army Garrison, Ft Meade, MD 20755.

Relevant command sections of the automated reports are furnished to the respective Army commands monthly. In addition, claims files on all unsettled and settled claims are retained at Staff Judge Advocate offices at subordinate levels where the claim was filed until they are forwarded to US Army Claims Service.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Records pertain to all individuals, corporations, associations, countries, states, territories, political subdivisions presenting a claim against the United States cognizable under the following statutes and Army Regulation 27-20: (a) The Military Claims Act (10 U.S.C. 2733); (b) The Federal Tort Claims Act (28 U.S.C. 2671-2680); (c) The Act of 9 October 1962 (10 U.S.C. 2737); (d) The National Guard Claims Act (32 U.S.C. 715); (e) Title 10, U.S.C. section 2734a and 2734b (NATO claims); (f) The Maritime Claims Settlement Act (10 U.S.C. 4801-4808); (g) Article 139, Uniform Code of Military Justice (10 U.S.C. 939); (h) The Foreign Claims Act (10 U.S.C. 2734), (i) The Military Personnel and Civilian Employees' Claims Act (31 U.S.C.240-243), (j) Claims for Reimbursement under Industrial Security Regulations (DOI) Directive 5220.6) and (k) Nonappropriated Fund Claim.

CATEGORIES OF RECORDS IN THE SYSTEM:

Claims Journal and Individual claims index cards: Contain brief synopsis of claims information including name of claimant; claim file number; type of claim presented (tort, maritime, foreign, personnel, etc.); date claim received by the Army; the date of the incident giving rise to the claim; the amount claimed; and if settled, the date and disposition of the claim. In appropriate claims, data on amounts recovered or paid by third parties is included on the card.

Claims files; Contain the claim forms submitted by the claimant; reports of investigation of claims or potential claims; the witness statements; police reports; photographs; diagrams; bills; estimates; expert opinions; medical records and similar reports; and copies of correspondence with the claimant, potential claimants, third parties, and insurers of claimants or third parties, concerning claims or potential claims. When applicable, copies of finance vouchers evidencing payment of the claims are included. Occasionally Inspector General or similar reports will be included in such files.

U.S.ARCS MISO: Provides a record of every noncontractual claim arising from Army activities. Information is maintained on magnetic tape and stored in alphabetical order by fiscal year. Data includes claimant's name, file number, type of claim, date of incident, amount claimed and amount paid, if anything.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Sections 939, 2733, 2734, 2734a, 2734b, 2737; Title 28 U.S.C., Sections 2671-2680; Title 31 U.S.C, Sections 240-243; Title 32 U.S.C., Section 715.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The primary purpose of claims investigative reports and ancillary records is to develop and preserve all relevant evidentiary facts about incidents which may generate claims against the Army. The evidence developed is used as a legal basis for payment of claims, and the amount authorized, or to support a denial of the claim. If the claimant initiates litigation the evidence helps provide a basis to defend the suit. Evidence in the files is also used to provide information to reply to the President, the Cabinet, members of Congress or to General Accounting Office and public or private insurers who may be required to participate in the settlement of claims against the United States or who may be required to reimburse the United States as a subrogee for claims paid. Information is also recorded to insure that the use of appropriated funds is legally correct. The data are also used as a management tool to supervise claims operations at subordinate commands worldwide.

Users include claimants and/or their legal representatives for use in legal action against the Government or third parties for tax purposes (Internal Revenue Service (IRS)) and/or to support or provide private relief legislation; US Department of Justice representatives in deciding disposition of claims files against the Government and for consideration of criminal prosecution, civil court action or regulatory orders; US Court of Claims to support legal actions, considerations or evidence to support proposed legislative or regulatory changes, for budgetary purposes, for quality control or assurance type studies or to support action against a third party; foreign governments for use in settlements of claims under North Atlantic Treaty Organization Status of Forces Agreement (NATO SOFA) or similar international agreements; state governments for use in defending or prosecuting claim by the state or its representatives; Department of Labor for consideration in determining rights under Federal Employees' Compensation Act or similar legislation; civilian and governmental medical experts for evaluation of medical aspects and records and related material; The President, Vice President and members of the Congress in order to provide information upon which to base replies to inquiries from claimants; Office of Management and Budget for preparation of private relief bills to be presented to Congress for its consideration; Government contractors for use in defending or settling claims filed against them arising out of the performance of a Government contract; and workmen's compensation agencies, federal and local, for use in adjudicating claims.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Manual system: Paper records in file folders at locations indicated.

Automated system: Computer discs located at the USARCS MISO.

RETRIEVABILITY:

Filed alphabetically by last name.

SAFEGUARDS:

Various Federal buildings employ security guards. Records are accessible only by authorized personnel who are properly instructed in the permissible use of the information.

RETENTION AND DISPOSAL:

Destroy 10 years after final action on the case.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, United States Army Claims Service, Ft Meade, MD 20755.

NOTIFICATION PROCEDURE:

Information may be obtained from the SYSMANAGER.

Written requests for information should contain the full name of the individual, current address and telephone number, the claim number if known, the date and place of the incident giving rise to the claim, and any other personal identifying data (driver's license, if any) which could assist in determining the identity of the requester.

For personal visits, the individual should be able to provide some positive identification (driver's license, identification card) and give some information that could be verified within his 'case' folder. Visits may be made to any Staff Judge Advocate Office.

RECORD ACCESS PROCEDURES:

Written requests for information should contain the full name of the individual, current address and telephone number, the claim number if known, the date and place of the incident giving rise to the claim, or personal identifying data (driver's license, if any) which could assist in determining the identity of the requester.

For personal visits, the individual should be able to provide some positive identification (driver's license, identification card) and give some information that could be verified within his 'case' folder. Visits may be made to any Staff Judge Advocate Office or to the US Army Claims Service, Ft Meade, MD 20755

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations may be obtained from the SYSMANAGER.

RECORD SOURCE CATEGORIES:

Federal Bureau of Investigation, Counterintelligence Corps, Criminal Investigations Division, Inspector General, medical treatment facilities, Physicians, Armed Forces Institute of Pathology, Maritime Survey Reports, Corps of Engineers.

A0403.06DAJA

SYSTEM NAME:

403.06 Tort Claim Files

SYSTEM LOCATION:

Litigation Division, Office of The Judge Advocate General, Department of the Army, Room 2D435, The Pentagon, Washington, DC 20310.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Personnel, military affiliated or civilians with no military connection, who have filed a complaint against the United States Army in the United States District Court under the Federal Tort Claims Act.

CATEGORIES OF RECORDS IN THE SYSTEM:

All pleadings, motions, briefs, orders, decisions, memoranda, opinions, supporting documentation, and allied material, including claims investigation, reports, and files, involved in representing the United States Army in the Federal Court System.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 28 U.S.C., Section 2671-80.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The collected information is used to defend the Army in civil suits filed against it in the Federal Court System. Routine users of the information, in addition to Litigation Division, Office of The Judge Advocate General of the Army, are the Department of Justice and United States Attorneys' offices handling the particular case. Most of the collected information is filed in some manner in the courts in which the litigation is pending and therefore becomes a matter of public record. In addition, some of the collected information will appear in some form or fashion in the written orders, opinions, and decisions of the courts. For the most part, these orders, opinions, and decisions are published in the Federal Reporter System under the name or style of the case and are freely open and available to anyone with access to a law library.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders.

RETRIEVABILITY:

Filed alphabetically by last name of claimant.

SAFEGUARDS:

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

A0404.02DAJA

SYSTEM NAME:

Courts-Martial Files

SYSTEM LOCATION:

U.S. Army Legal Services Agency, Falls Church, VA, 22041; Washington National Records Center, Suitland, MD, 20409; National Personnel Records Center, St. Louis, MO, 63132; and offices of Staff Judge Advocates, Judge Advocates, and Legal Counsel of subordinate commands and installations.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All individuals tried by courts-martial.

CATEGORIES OF RECORDS IN THE SYSTEM:

General and special (BCD) courts-martial records of trial include a verbatim transcript of the trial and all allied papers relating to the charge offenses and legal review of the case. Special (non-BCD) and summary court-martial records of trial include a summarized transcript of the trial and all allied papers relating to the charged offenses, but ordinarily do not include all records of review pursuant to Articles 69 and/or 73, Uniform Code of Military Justice (UCMJ). (See 'Retention and disposal' below.)

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., 801-940 (Uniform Code of Military Justice).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Courts-martial records are transcribed and used to provide an accurate account of the proceedings for legal review. As such records reflect criminal proceedings ordinarily open to the public, they are normally releasable to the public pursuant to the Freedom of Information Act. They are also used to formulate responses to inquiries from members of Congress, the White House Staff, the individual concerned, or other agencies or individuals interested in the case.

Courts-martial records may be transferred within the Department of Defense, to the Department of Justice, the Veterans Administration, and Federal, state, and local law enforcement agencies for determination of rights and entitlements of the individuals concerned or use in the enforcement of criminal or civil law. If a conviction results, portions of the record in every case are transmitted to Army personnel authorities for use in evaluating the individual's overall performance and for inclusion in his military personnel records. A record of a conviction may be introduced at a subsequent courts-martial involving the same individual, or in any other case in which it is relevant. Statistical data obtained from records of trial are used in determining jurisdictional and Army-wide trends of disciplinary infractions in the Armed Forces, and serve as a guide for officials repsonsible for making policy decisions regarding military justice activities.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Papers stored in file folders; index cards, computer disk-packs, and courts-martial coding sheets.

RETRIEVABILITY:

Records are retrieved by reference to the name and social security number of the individual and through the court-martial number assigned to the case.

SAFEGUARDS:

Those portions of the system maintained by the U.S. Army Legal Services Agency and the National Personnel Records Center are contained in file cabinets and are safeguarded by systems of personnel screening and hand receipts. During non-duty hours, guards assure that the areas where records are located are accessible only to authorized personnel. Decentralized segments of the system are maintained in locked file cabinets and/or locked offices in buildings employing security guards and/or located on military installations with military police or contract guard patrols and protection.

RETENTION AND DISPOSAL:

With respect to each courts-martial, there is an original record and between one and four copies. One copy is given to the accused and the remaining copies are used in the review of the case for legal sufficiency. The original record is disposed of as follows: All records of trial by general courts-martial and those special courts-martial records in which a bad conduct discharge (BCD) was approved are retained in the Office of the Clerk of Court, U.S. Army Jidiciary, for 1 - 2 years after completion of appellate review. Thereafter, the records are forwarded to the Washington National Records Center, Suitland, MD 20409 for permanent storage. Records of trial by special courts-martial (non-BCD) and summary courts-martial are retained in the staff judge advocate office of the general courts-martial authority for one year after completion of supervisory review and thereafter for two years in the records holding area or overseas records center. Records are then sent to the National Personnel Records Center (Military Records), 9700 Page Boulevard, St. Louis, MO, 63132 where they are retained for seven years. Thereafter, the records are destroyed and the remaining evidence of conviction are the special (non-BCD) and summary courts-martial promulgating orders maintained in the individual's permanent records and any review(s) of the cases conducted pursuant to Article(s) 69 and/or 73, UCMJ. The original review of special (non-BCD) and summary courts-martial cases and a copy of all other reviews pursuant to Articles 69 or 73 UCMJ, are maintained for three years in the office of the Chief, Examination and New Trials, U.S. Army Judiciary, Falls Church, VA, 22041. They are retained an additional seven years at the Washington National Records Center, Suitland, MD 20409 and destroyed. Statistical data obtained from general and special (BCD) courts-martial records are maintained permanently on master index cards which serve as a means of listing records of trial sent to storage.

SYSTEM MANAGER(S) AND ADDRESS:

The Judge Advocate General, Department of the Army, The Pentagon, Washington, DC 20310.

NOTIFICATION PROCEDURE:

Requests from individuals as to whether there are any general or special (BCD) courts-martial records in the system pertaining to them should be addressed to the Clerk of Court (JALS-CC), U.S. Army Judicairy, Nassif Building, Falls Church, VA, 22041. Requests for information as to special (non-BCD) and summary courts-martial records should be addressed to the staff judge advocate of the command where the record was reviewed or, if no longer there, to the National Personnel Records Center (Military Records), 9700 Page Boulevard, St. Louis, MO, 63132. Official mailing address of subordinate commands and installations is in the DOD Directory in the appendix to the Army's inventory of system notices.

Requests for information concerning reviews pursuant to Articles 69 or 73, UCMJ, should be addressed to the Chief, Examination and New Trials, U.S. Army Judiciary, Nassif Building, Falls Church, VA, 22041. Written requests for information should include the full name of the individual, social security number (SSN), the record file number if available, and any other personal information which would assist in locating the records.

Personal visits may be made to the Office of the Clerk of Court or Chief, Examination and New Trials, during normal business hours. The individual should provide identification such as a valid driver's license, or verbal information sufficient to permit locating the record.

RECORD ACCESS PROCEDURES:

Requests for access should be submitted as specified under 'Notification procedure' above. Requests should be directed to the Clerk of Court (JALS-CC), U.S. Army Judiciary, Nassif Building, Falls Church, VA, 22041 if the type of courts-martial or reviewing command is unknown.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340-21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

Information from almost any source may be included in the record if it is relevant and material to courts-martial proceedings.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

All portions of this system of records which fall within 5 U.S.C. 552a(j)(2) are exempt from the following provisions of 5 U.S.C. 552a: (d)(2), (d)(3), (d)(4), (e)(2), (e)(3), (e)(4)(H), and (g). The rules exempting this system are set forth in 32 CFR Part 505.

A0405.02DAJA

SYSTEM NAME:

405.02 Foreign Jurisdiction Case Files.

SYSTEM LOCATION:

Primary System: International Affairs Division, Office of The Judge Advocate General, Department of the Army, Room 2D443, The Pentagon, Washington, DC 20310.

Decentralized Segments: Army commands where case originates.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All members of the United States (US) Army, civilians in the employ of, serving with, or accompanying the US Army abroad, and the dependents of individuals in such categories, who have been subject to the exercises of civil or criminal jurisdiction of foreign courts or foreign administrative agencies.

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains individual case reports on the exercise of criminal jurisdiction by foreign tribunals, trial observer reports, requests for provision of counsel, records of trials, requests for local authorities to refrain from exercising their criminal jurisdiction, and communications with staff judge advocates, Department of the Army, diplomatic missions, and other selected documents.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., 3012.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The International Affairs Division and the office where the case originates use the information to monitor developments of each individual case to insure that all rights and protections to which United States personnel abroad and their dependents are entitled under pertinent international agreements are accorded such personnel;and to obtain

information to answer appropriate queries regarding the status or disposition of individual cases involving the exercise of civil or criminal jurisdiction by foreign courts or foreign administrative agencies.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders.

RETRIEVABILITY:

Filed alphabetically by last name.

SAFEGUARDS:

Various Federal buildings employ security guards. Records are maintained in file cabinets accessible only by authorized personnel who are properly instructed in the permissible use of the information.

RETENTION AND DISPOSAL:

The Judge Advocate General's Office: Destroy after 30 years. Cut off annually following acquittal, fine, reprimand, dropping of charges, or on completion of sentence, as applicable.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, International Affairs Division, Office of the Judge Advocate General, HQDA (DAJA-IA), Washington, DC 20310 and the staff judge advocate offices where the case originates.

NOTIFICATION PROCEDURE:

Information may be obtained from the SYSMANAGER.

Written requests for information should contain the full name of the individual, current address and telephone number, the case number that appears with the office symbol on all correspondence received from this office and any other personal identifying data (driver's license number, if any) which would assist in determining the identity of the requester.

For personal visits, the individual should be able to provide some positive identification (driver's license, identification card) and give some information that could be verified within his 'case' folder. Visits may be made to any Staff Judge Advocate Office.

RECORD ACCESS PROCEDURES:

Written requests for information should contain the full name of the individual, current address and telephone number, the case number that appears with the office symbol on all correspondence received from this office and any other personal identifying data (driver's license number, if any) which would assist in determining the identity of the requester.

For personal visits, the individual should be able to provide some positive identification (driver's license, identification card) and give some information that could be verified within his 'case' folder.. Visits may be made to the International Affairs Division, Office of The Judge Advocate General, Room 2D443, The Pentagon, Washington, DC 20310.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations may be obtained from the SYSMANAGER.

RECORD SOURCE CATEGORIES:

Information is derived from reports prepared by relevant command.

A0405.04DAJA

SYSTEM NAME:

405.04 Foreign Jurisdiction Reporting Files

SYSTEM LOCATION:

Primary System: International Affairs Division, Office of The Judge Advocate General, Department of the Army, Rm 2D433, The Pentagon, Washington, DC 20310.

Decentralized Segments: Army commands where case originates.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All members of the United States (US) Army, civilians in the employ of, serving with, or accompanying the US Army abroad, and the dependents of individuals in such categories, who have been subject to the exercise of criminal jurisdiction by foreign courts and sentenced to unsuspended confinement.

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains reports concerning personnel who are confined in foreign penal institutions and reports of results of visits to confined personnel.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 3012.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Both the primary and decentralized segments are used to monitor development of each individual case so as to insure that all rights and protections to which US personnel abroad and their dependents are entitled under pertinent international agreements are accorded such personnel and to obtain information in order to answer appropriate queries regarding the status of individual cases involving US personnel abroad serving a sentence to confinement in a foreign prison.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders.

RETRIEVABILITY:

Filed alphabetically by last name.

SAFEGUARDS:

Various Federal buildings employ security guards. Records are maintained in file cabinets accessible only by authorized personnel who are properly instructed in the permissible use of the information.

RETENTION AND DISPOSAL:

The Judge Advocate General's Office: Consolidations and summaries are permanent. Feeder reports are destroyed on extraction and/or consolidation of the data contained therein.

Other offices destroy records 3 years after completion of the next report.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, International Affairs Division, Office of The Judge Advocate General, Headquarters, Department of the Army, Washington, DC and the Staff Judge Advocate Office where the case originates.

NOTIFICATION PROCEDURE:

Information may be obtained from the SYSMANAGER.

Written requests for information should contain the full name of the individual, current address and telephone number, the case number that appears with the office symbol on all correspondence received from this office and any other personal identifying data (driver's license number, if any) which would assist in determining the identity of the requester.

For personal visits, the individual should be able to provide some positive identification (driver's license, identification card) and give some information that could be verified within his 'case' folder. Visits may be made to any Staff Judge Advocate Office.

RECORD ACCESS PROCEDURES:

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Government employees and others who have submitted inventions to the Government; inventors with patents or applications for patents procured on behalf of Department of the Army, or in which the Government has an interest; authors of copywritable or copyrighted material in which the Government has an interest.

CATEGORIES OF RECORDS IN THE SYSTEM:

Documents relating to disposition of rights in inventions of Government employees including information about the nature and duration of the employee's employment; documents relating to the filing for a foreign patent; documents evidencing interests of the Government in or under patents or applications for patents procured on behalf of Department of the Army, including copies of licenses, assignments, other instruments, and letters of transmittal; documents relating to the granting of licenses on Government-owned patents, including requests for licenses and communications relating to the licensing arrangement; documents reflecting interests of the Government in or under copyrights procured or obtained on behalf of Department of the Army, including copies of copyright licenses and assignments; documents relating to all phases of the granting of licenses on Government-owned copyrights, service marks, and related items.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 5 U.S.C., Section 301.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Purposes are to determine the rights of the Government and employees in employee inventions, to maintain documents used in foreign filing for patents, to provide evidence of Government interest in or under patents or applications for patents procured on behalf of Department of the Army, to provide evidence and record of patent and copyright licensing and assignments. US Patent and Trademark Office has access to specific files for resolving disputes between the Government and the inventor concerning invention rights; for foreign filing of patents, records are presented to the Director of Patent Administration, Department of National Defense in Ottawa, Ontario, Canada and to the Patent's Agent's Managing Clerk Principal Directorate of Patents, Procurement Executive, Ministry of Defense, London, England, to obtain patents in Canada and England, respectively; the parties involved in particular licensing arrangement have access to the specific files involved, as well as the US Patent and Trademark Office and the Copyright Office, Library of Congress, as evidence of legal interests in the patent or copyright license or assignment.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders.

RETRIEVABILITY:

Filed alphabetically by last name.

SAFEGUARDS:

Various Federal buildings employ security guards. Records are maintained in file cabinets accessible only to authorized personnel who are properly instructed in the permissible use of the information.

RETENTION AND DISPOSAL:

The Judge Advocate General's Office: For patent matters records are destroyed after 20 or 25 years depending on the specific case; for copyright matters records are destroyed after 56 years or on expiration of copyright not renewed. Other offices: records are destroyed after 2 years.

SYSTEM MANAGER(S) AND ADDRESS:

Chief Patents Division, HQDA (DAJA-PA), Washington, DC 20310 and the senior patent attorney at each location listed.

NOTIFICATION PROCEDURE:

Information may be obtained from the SYSMANAGER.

Written requests for information should contain the full name of the individual, current address and telephone number, the case number that appears with the office symbol on all correspondence received from this office and any other personal identifying data (driver's license number, if any) which would assist in determining the identity of the requester.

For personal visits, the individual should be able to provide some positive

identification (driver's license, identification card) and give some information that could be verified within his 'case' folder. Visits may be made to any Department of the Army patent location.

RECORD ACCESS PROCEDURES:

Written requests for information should contain the full name of the individual, current address and telephone number, the case number that appears with the office symbol on all correspondence received from this office and any other personal identifying data (driver's license number if any) which would assist in determining the identity of the requester.

For personal visits, the individual should be able to provide some positive identification (driver's license, identification card) and give some information that could be verified within his 'case' folder. Visits may be made to any Department of the Army patent location.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations may be obtained from the SYSMANAGER.

RECORD SOURCE CATEGORIES:

Employment records, job description, employee's supervisor; the invention, patent application or copyrighted material concerned; the Government agency interested in the invention or copyright; and the party seeking the license.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

A0406.01bUSAREUR

SYSTEM NAME:

406.01b Civil Process Case Files and Reference Files

SYSTEM LOCATION:

In Federal Republic of Germany (FRG), Civil Process Section, International Affairs Division, Office of The Judge Advocate, Headquarters (HQ), United States (US) Army, Europe (USAREUR) and 7th Army, Army Post Office (APO) New York 09403, Heidelberg, and decentralized segments at approximately 35 Judge Advocate Offices throughout the FRG to which documents have been forwarded for service.

In Berlin, Office of The Staff Judge Advocate, HQ, US Army, Berlin, APO New York 09742.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

US Army, US Air Force and US Navy personnel, members of the civilian component of the US Forces and dependents of the foregoing upon whom service is made of documents issued by German civil courts, customs and taxing agencies, and other administrative agencies, governmental and otherwise, which, pursuant to German law, may issue: payment orders; execution orders; demands for payment of indebtedness; notifications to establish civil liability; customs and tax demands; documents assessing fines and penalties; demands for court costs or for costs for administrative proceedings; summonses and subpoenas; paternity notices; complaints; judgments; briefs; final and interlocutory orders; orders of confiscation; notices; and other judicial or administrative writs.

CATEGORIES OF RECORDS IN THE SYSTEM:

Copies of correspondence from German courts, bailiffs and administrative agencies forwarding documents for service; copies of German documents forwarded to or between Judge Advocate offices in the FRG for service; copies of forwarding correspondence to or between Judge Advocate offices in the field; copies of certificates of service; copies of correspondence to German courts, bailiffs or administrative agencies stating why documents could not be served or could not be served within a prescribed period; copies of routine or specialized instructions to Judge Advocate offices in the field pertaining to service of documents; copies of correspondence to German courts, bailiffs, or administrative authorities denying requests for service of documents, advising them of the individual's name, grade, social security account number and unit for identification purposes, advising them in accordance with applicable regulations of individual's place of residence in the FRG in connection with requests for execution or attachment, and granting or declining to grant authority to enter premises under the control of the US Forces for the purpose of effecting execution on or attachment of personal property, moneys, etc. in compliance with a writ executable pursuant to German law; card files on each document received identifying nature of document, source of document, dates received, forwarded, and served; date on which certificate of service or other reply to source was dispatched, and full identifying data on the individual.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

The North Atlantic Treaty Organization (NATO) Status of Forces Agreement, the NATO Status of Forces Supplementary Agreement, and administrative agreements executed in implementation or on the basis of the foregoing by which this office is designated as the central liaison agency of the US Forces for service of civil process documents issued by German courts or authorities upon members of the US Army, the US Navy, members of the civilian component of the US Forces, and dependents of the foregoing; Title 10 U.S.C., Section 3012.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Used to establish strict controls on receipt and forwarding for service of German civil court documents on US personnel; to determine if time limits for service of documents as prescribed by NATO Status of Forces Supplementary Agreement have been complied with and to establish a suspense system to insure compliance by Judge Advocate offices in the FRG of service within prescribed time limits; to determine whether initial documents have been served through the agency of this office as a precondition to service of subsequent documents in the same case. Files are maintained and used in this office and in Judge Advocate offices thoughout the FRG to which documents are forwarded for service to insure that US Forces obligations under the NATO Status of Forces Supplementary Agreement are complied with and to insure that rights of individuals are protected. When individual is served the document by the Judge Advocate office in the field, the document is translated for him; its contents and legal effects are explained to him and legal assistance is made available to him to protect his interests and to enable him to avail himself of his legal rights under German law. The card file is used as a locator and control device and is essential when cases are reopened after a period of years. It records whether the individual was served the initial and subsequent documents through the agency of this office and whether the individual, following personal service on him, was afforded the opportunity to contest the initial and subsequent documents or proceedings based on them. The files or information contained in them may be transferred or disclosed to any other agency of the Department of Defense. Information from the files may be disclosed to foreign law enforcement or

investigatory or administrative authorities in order to comply with requirements imposed by, or to claim rights conferred in international agreements and arrangements regulating the stationing and status in the FRG of DOD military and civilian personnel. Information disclosed to authorities of the FRG may be further disclosed by them to claimants, creditors or their attorneys. Information may be disclosed in accordance with applicable regulations in response to inquiries from Congressmen or the news media.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folders are stored in cabinets by individual's name. Card files are stored in cabinets.

RETRIEVABILITY:

Filed in alphabetical order by last name.

SAFEGUARDS:

Doors to office to hallway and building are locked each night (triple security).

RETENTION AND DISPOSAL:

File folders are retained 2 years and destroyed. Card files are retained indefinitely due to the continuing nature of these cases.

SYSTEM MANAGER(S) AND ADDRESS:

In FRG, Chief, International Affairs Division, Office of The Judge Advocate, HQ, USAREUR and 7th Army, Heidelberg.

In Berlin, The Staff Judge Advocate, HQ, US Army, Berlin, APO New York 09742.

NOTIFICATION PROCEDURE:

Individuals may submit a written request or visit Office of the SYSMANAGER. An individual's name, rank and service number would be sufficient information to locate the individual's files. Verification of identity is not required since information on these court documents is a matter of public record.

RECORD ACCESS PROCEDURES:

Personnel desiring access to information can contact the International Affairs Division, HQ USAREUR and 7th Army, APO New York 09403, located in Building 9, Campbell Barracks, Heidelberg, FRG.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations may be obtained from the SYSMANAGER.

RECORD SOURCE CATEGORIES:

Documents received from German authorities to be served on each individual and correspondence to these authorities stating whether or not the document was served.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Claimants or defendants in administrative proceedings or litigation with the Government for improper use, infringement, enforcement of agreements, or comparable claims concerning patents or copyrights; individuals having copyrights in material Department of the Army is interested in; individuals who own patents which they offer to license to Department of the Army; individuals seeking private relief before Congress because of right in inventions, patents, copyrights, or data.

CATEGORIES OF RECORDS IN THE SYSTEM:

Documents relating to the administrative assertion of claims by and against the Government and to litigation with the Government for alleged misuse of patents, copyrights, trademarks, and data, including inquiries, investigations, settlements, communications with claimants or defendants, and related correspondence; documents relating to advice and assistance provided in obtaining licenses for Department of the Army use of copyright material; documents relating to the investigation and disposition of patent license offers; documents relating to investigations in connection with processing proposed legislation or bills for private relief of individuals because of right of individuals in inventions, patents, copyrights, or data, including reports of investigations, comments or recommendations, and related correspondence.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 5 U.S.C., SEction 301.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Purposes are to maintain evidence and record of claims and litigation involving Department of the Army concerning patents, trademarks, copyrights, and data; to maintain evidence and record of Department of the Army attempts to use copyrighted material and to receive the copyright owner's permission for such use; to maintain record and evidence of patent license offers received and investigations and reports pursuant thereto; and to maintain record and evidence of investigations of proposed legislation or bills for private relief. Government agencies involved in the claims or litigation and the Civil Division, Department of Justice, have access to the records to determine the validity of allegations and to properly prosecute or defend the case; Government agencies potentially interested have access to the records of offered licenses to determine actual interest; Congress receives reports on Department of the Army's position on particular bills for private relief.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders.

411.03 Congressional Inquiry File

SYSTEM LOCATION:

Executive Services Division, Office, Chief of Legislative Liaison, Headquarters, Department of the Army (HQDA), Washington, DC

Decentralized segments are maintained by HQDA staff agencies, field operating agencies, major commands, installations and activities.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any citizen who writes a Congressman and is so identified by the Congressman in his request to the Office, Chief of Legislative Liaison, for an answer to his respondent.

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains copy of individual's letter to Congressman, letter from Congressman requesting information, and information provided to the Congressman relative to his inquiry.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 1034 provides that no person may restrict any member of an armed force from communication with a Member of Congress. The records are maintained to ensure an effective service to the Member of Congress and his respondent.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Congressional Inquiry Division: To obtain information relative to timely responses and ensure that a specific case does not become 'lost' in the paperwork channels.

HQDA staff agencies, field operating agencies, major commands installations and activities: To conduct investigations based on Congressional inquiries and prepare appropriate response to Members of Congress.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Microfilm records in an automatic retrieval device.

Paper records in file folders.

RETRIEVABILITY:

Coded by Congressman and individual name.

SAFEGUARDS:

Primary system: Building employs security guards. Records are maintained in an area accessible only to authorized personnel. Coding system must be known to access records.

Decentralized Segments: Records are maintained in an area accessible only to trained and authorized personnel.

RETENTION AND DISPOSAL:

Records collected prior to 27 September 1975 are maintained in an active status until the end of the calendar year, held one additional year in the current files area in an inactive status and then destroyed. Records collected after 27 September 1975 are maintained in an active status until the end of the calendar year, held 4 additional years in the current files area in an inactive status then destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Legislative Liaison, Headquarters, Department of the Army, The Pentagon, Washington, DC 20310

NOTIFICATION PROCEDURE:

Information may be obtained from: OSA(SALL), Chief, Executive Services Division, Room 20600, The Pentagon, Washington, DC 20310, Telephone: Area Code 202/695-6028.

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to: Office, Chief of Legislative Liaison OSA(SALL), Room 2C600, The Pentagon, Washington, DC 20301.

Written requests for information should contain the full name of the individual concerned, his current address and telephone number, the name of the Member of Congress who initiated the inquiry.

Visits are limited to Executive Services Division, SALL, The Pentagon, Washington, DC 20310.

For personal visits, the individual should be able to provide some acceptable identification (i.e., driver's license or employing office's identification card) and be able to give relevant verbal information that pertains to the records sought.

CONTESTING RECORD PROCEDURES:

The Army's rules for contesting contents and appealing initial determinations may be obtained from SYSMANAGER.

RECORD SOURCE CATEGORIES:

Letter from the individual to a Congressman requiring HQDA to provide information to that Congressman.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

A0411.08aOSA

SYSTEM NAME:

411.08 Biographical Files of Members of Congress

SYSTEM LOCATION:

Office, Secretary of the Army, Chief of Legislative Liaison, Plans and Operations Branch.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Current Members of U.S. Congress.

CATEGORIES OF RECORDS IN THE SYSTEM:

Files contain biographical information on members of Congress, voting trends, and committee memberships.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 1034.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Department of Army Congressional witnesses: To provide background information on Members of Congress before whom Army representatives may be testifying, in order to familiarize them with the members' attitudes towards the Department of Army.

Department of Army Congressional escorts: To provide background information on Members of Congress, in order to familiarize them in their official capacity as escorts to those members.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in looseleaf binders.

RETRIEVABILITY:

Filed alphabetically by last name of Member of Congress.

SAFEGUARDS:

Building employs security guards. Records are maintained in areas accessible only to authorized personnel who are properly screened and cleared.

RETENTION AND DISPOSAL:

Records are temporary. They are retained only for the tenure of the Member of Congress.

SYSTEM MANAGER(S) AND ADDRESS:

The Chief of Legislative Liaison. Office, Secretary of the Army, The Pentagon, Wash., DC

NOTIFICATION PROCEDURE:

Information may be obtained from:
Office, Secretary of Army (SALL)
Chief, Plans and Operations Branch
Room 2C638, The Pentagon
Wash., DC 20310

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to Office, Chief of Legislative Liaison, OSA(SALL), Room 2C638, The Pentagon, Washington, DC 20310, Telephone: Area Code 202/697-2417.

Written requests for information should contain the full name and state of representation of Member of Congress.

For personal visits, the Member should be able to provide acceptable identification such as driver's license or employment identification card.

CONTESTING RECORD PROCEDURES:

The Army's rules for contesting contents and appealing initial determinations may be obtained from the SYSMANAGER.

RECORD SOURCE CATEGORIES:

Official public records, such as the Congressional Record, Congressional Quarterly Weekly Report, official transcripts of unclassified committee hearings, published proceedings of committee hearings, and the Congressional Staff Directory.

A0412.05aOSA

SYSTEM NAME:

412.05 Press Interest Reference Files

SYSTEM LOCATION:

Primary system: Public Information Division, Office of the Chief of Public Affairs, Headquarters, Department of the Army (HQDA) (SAPA-PI), Washington, DC 20310.

Decentralized Segments: New York Branch, Office of the Chief of Public Affairs, United States (US) Army, 663 Fifth Avenue, New York, NY; Los Angeles Branch, Office of the Chief of Public Affairs, US Army, 11000 Wilshire Boulevard, Suite 10104, Los Angeles, CA; Public Affairs Offices of major subordinate commands to HQDA; Headquarters First, Fifth, and Sixth Armies and major active installations worldwide; and Office, Chief of Engineers Public Affairs Office, and all Corps of Engineers field operating public affairs offices.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Active, retired, and discharged Army members and civilian employees who are, have been, or are likely to again become the subject of press interest.

CATEGORIES OF RECORDS IN THE SYSTEM:

Files contain miscellaneous documents depending on the reason for the individual coming to the attention of the press. Most common items are query sheets, fact sheets, statements of service, serious incident reports, copies or extracts from investigative reports, news clippings, memoranda and correspondence relating to the individual.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10, U.S.C., Section 3012.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To respond to queries from the press relating to the individuals concerned and from the Office of the Assistant

Secretary of Defense (Public Affairs) and other agencies or commands in the Army for information about the individuals, particularly with respect to the press interest displayed.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders.

RETRIEVABILITY:

Filed alphabetically by last name of individual.

SAFEGUARDS:

Buildings employ security guards. Records are maintained in security containers and are accessible only to authorized personnel.

RETENTION AND DISPOSAL:

Records are maintained as long as individual seems likely to be a recurring subject of press interest. Records are routinely destroyed thereafter.

SYSTEM MANAGER(S) AND ADDRESS:

The Office of the Chief of Public Affairs, Headquarters, Department of the Army, The Pentagon, Washington, DC 20310.

NOTIFICATION PROCEDURE:

Information may be obtained from: Headquarters, Department of the Army, (SAPA-PI), Room 2E-641, The Pentagon, Washington, DC 20310; Telephone: Area Code 202/695-5136

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to: Headquarters, Department of the Army, (SAPA-PI), Room 2E-641, The Pentagon, Washington, DC 20310.

Written requests should include a notarized statement of identity.

Personal visits may be made to any of the three Army Public Affairs Offices (Washington, New York or Los Angeles). Presentation of acceptable identification required.

CONTESTING RECORD PROCEDURES:

The Army's rules for contesting contents and appealing initial determinations may be obtained from the SYSMANAGER.

RECORD SOURCE CATEGORIES:

Query sheets and fact sheets filed by staff public affairs officers; statements of service from the US Army Military Personnel Center or National Personnel Records Center; serious incident reports through information channels from originating commands; clippings from published media; copies or extracts of investigative reports from investigating agencies to include US Army Inspector General, US Army Criminal Investigation Command, and US Army Assistant Chief of Staff for Intelligence and memoranda and correspondence from miscellaneous sources relating to the individual case.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

A0501.02bDAAG

SYSTEM NAME:

Vendor Misconduct/Fraud/Mismanagement Information Exchange Program

SYSTEM LOCATION:

Primary System is at Headquarters, Department of the Army, Office of The Adjutant General, Club and Community Activities Management Directorate, Washington, DC 20310.

Decentralized segments exist at other Army activities and nonappropriated fund instrumentalities' management and procurement offices.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals whose names are contained in reports of vendor misconduct, fraud, or mismanagement.

CATEGORIES OF RECORDS IN THE SYSTEM:

Names of individuals; companies represented; and reports of misconduct, fraud or mismanagement in procurement efforts concerning military installations/activities (see 'Record Source Categories').

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 3012(g).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To provide management officials of nonappropriated fund activities and commissaries with timely and useful information regarding incidents of vendor misconduct, fraud, and/or mismanagement and of individuals involved in such incidents through the collection, exchange and dissemination of relevant information to the Army, Navy, Air Force, and Marine Corps so as to permit informed responsible procurement decisions.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders.

RETRIEVABILITY:

Alphabetically by individual, vendor, or company name.

SAFEGUARDS:

Records are retained in combination lock file safes when not under personal supervision of responsible officials.

RETENTION AND DISPOSAL:

Destroyed two years after final determination is made on case.

SYSTEM MANAGER(S) AND ADDRESS:

The Adjutant General, Headquarters, Department of the Army (DAAG-CMP-S), Washington, DC 20310.

NOTIFICATION PROCEDURE:

Information may be obtained from the SYSMANAGER.

RECORD ACCESS PROCEDURES:

Individuals may submit written requests for information to either the SYSMANAGER or appropriate decentralized record custodian and should contain the full name of the individual or company, current address, including telephone number, and other information which will identify the record sought.

CONTESTING RECORD PROCEDURES:

The Army's rules for contesting contents and appealing initial determinations are contained in Army Regulation 340-21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

Copies of reports of audits, inspections, administrative investigations (e.g., Army Regulation 15-6 Board of Officers Proceedings); summaries of criminal reports issued pursuant to Defense Acquisition Regulation 1-608 received from the Inspector General, The Auditor General, The Judge Advocate General, The Deputy Chief of Staff for Personnel, The Deputy Chief of Staff for Logistics (TSA Commissary Operations), US Army

Criminal Investigation Command, major Army commands, Army and Air Force Exchange Service, Departments of the Navy and Air Force, US Marine Corps, and Regional Offices and Central NAF Procurement Offices of the Adjutant General's Office.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Various state and local criminal law enforcement units, departments, or agencies.

Criminal law enforcement means any activity pertaining to crime prevention, control, or reduction or enforcement of the criminal law, including, but not limited to, police effort to prevent, control, or reduce crime, or to apprehend criminals, activities of courts having criminal jurisdiction and related agencies, activities of corrections, probation or parole authorities, and programs relating to the prevention, control, or reduction of juvenile delinquency or narcotic addiction.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Card files and paper records in file folders.

RETRIEVABILITY:

Records are retrieved by the individual's name, military occupational specialty (MOS), or code number.

SAFEGUARDS:

HQ USACIDC buildings employ security guards, files are stored in locked containers during non-duty hours and are accessible only by the Informant Register Officer and an alternate.

USACIDC subordinate elements generally maintain a 24 hour duty officer, store the files in locked containers during non-duty hours and permit access only by Field Office Commander and the individual informant handler.

RETENTION AND DISPOSAL:

3 years, or permanent.

SYSTEM MANAGER(S) AND ADDRESS:

The Commander, Headquarters (HQ), US Army Criminal Investigation Command (USACIDC), 5611 Columbia Pike, Falls Church, VA 22041.

NOTIFICATION PROCEDURE:

Information may be obtained from:
Commander
USACIDC
ATTN: CIJA-RI
5611 Columbia Pike, Falls Church, VA 22041.

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to: Commander, USACIDC, ATTN: CIJA-RI, 5611 Columbia Pike, Falls Church, VA 22041.

Written request for information should contain the full name of the individual, address, date of birth. Personal visits should be made to: Office of the Staff Judge Advocate-Release of Information, USACIDC, 5611 Columbia Pike, Falls Church, VA, 22041.

For personal visits, the requesting individual must present positive identification, such as a driver's license or other identification card with a photograph, in addition to the information required for written requests.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations may be obtained from the SYSMANAGER, ATTN: CIJA-RI.

RECORD SOURCE CATEGORIES:

The military personnel records if the informant is in the military, or the civilian personnel records if the person is a civilian employee.

Executive Order 10450

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To provide a quick reference file to support the Assistant Chief of Staff for Intelligence and to provide the counterintelligence desk analyst a working tool for study of historical and current intelligence material for possible trends in the state of the art.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Microfilmed reels in cassettes and indexed on computer diskpack.

RETRIEVABILITY:

Microfilmed in random order. Retrieved by personality name via computer index which identifies the reel and document location containing the requested name.

SAFEGUARDS:

Building protected by security guards and storage point electronically monitored for illegal entry. Computerized index is access controlled by a code word that is issued only to properly screened, cleared and trained personnel. Code word is presently held only by the Assistant Chief of Staff for Intelligence and issued only to the team of a group conducting a screening operation of the CIRFS.

RETENTION AND DISPOSAL:

Records are permanent. They are photographed onto microfilm and the original document destroyed. The file is presently being screened for identification of documents no longer needed and selected documents are being destroyed at the direction of the Assistant Chief of Staff for Intelligence, Headquarters, Department of the Army, the Pentagon, Washington, DC

SYSTEM MANAGER(S) AND ADDRESS:

The Assistant Chief of Staff for Intelligence, Department of the Army, Washington, DC.

NOTIFICATION PROCEDURE:

Information may be obtained from: Deputy Commander, United States Army Intelligence and Security Command, ATTN: IACSF-FI, Ft Meade, MD 20755; Telephone: Area Code 301/677-4742/3.

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to: Deputy Commander, United States Army Intelligence and Security Command, ATTN: IACSF-FI, Ft Meade, MD 20755.

Written requests for information must contain the full name and social security number of the individual, current address, and telephone number.

For personal visits, the individual should be able to furnish acceptable identification and give verbal information that could be verified from his file card.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations may be obtained from the SYSMANAGER.

RECORD SOURCE CATEGORIES:

Information obtained from investigative reports of the Defense Investigative Service, USAINSCOM, other Federal and Department of Defense investigative and law enforcement agencies.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Parts of this system may be exempt under Title 5 U.S.C., Section 552a (k)(1)(2) or (5), as applicable. For additional information, contact the SYSMANAGER.

A0502.03aDAMI

SYSTEM NAME:

502.03a Intelligence Collection Files

SYSTEM LOCATION:

United States Army Intelligence and Security Command (USAINSCOM), Ft Meade, MD 20755.

Decentralized segments located at USAINSCOM groups, field stations, battalions, detachments, field offices and resident offices stationed worldwide.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any individual who qualified and may be accepted for sensitive intelligence duties with the US Army.

CATEGORIES OF RECORDS IN THE SYSTEM:

Files contain documents which describe the requirements, the objectives, the approvals, the implementation, the reports, and the results of Department of the Army (DA) sensitive intelligence activities.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Executive Order 10450, 2,3,4,5,6,7,8,9 and 14; Title 10 U.S.C., Section 3012 (b)(c)(g); National Security Act of 1947 as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information is used to support contingency planning and military operations.

Information is used by Department of the Army, Department of Defense, Federal Bureau of Investigation, Central Intelligence Agency, and the Defense Intelligence Agency.

Information may be disclosed to foreign law enforcement, security, investigatory, or administrative authorities in order to comply with requirements imposed by, or to claim rights conferred in, international agreements and arrangements including those regulating the stationing and status in foreign countries of DOD military and civilian personnel and other countries where there are routine reciprocal exchange of information.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders and visible, vertical card files. Automated data processing records on disk with video display of individual source records on cathode ray tube.

RETRIEVABILITY:

Filed alphabetically by last name, numerically by source and numerically by project number.

SAFEGUARDS:

Buildings employ security guards. Records are maintained in areas accessible only to authorized personnel that are properly cleared, and have a need-to-know for the information. Automated media are protected by authorized code word for access to system, controlled access to operations rooms, and controlled input distribution.

RETENTION AND DISPOSAL:

Records are permanent and retained in active file until no longer needed then retired to the Investigative Records Repository, USAINSCOM, Ft Meade, MD 20755.

SYSTEM MANAGER(S) AND ADDRESS:

The Assistant Chief of Staff for Intelligence, Department of the Army, The Pentagon, Washington, DC 20310

NOTIFICATION PROCEDURE:

Information may be obtained from:
Deputy Commander, United States Army Intelligence and Security Command,
ATTN: IACSF-FI, Ft Meade, MD 20755;
Telephone: Area Code 301/377-4742/3.

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to:
Deputy Commander, United States Army Intelligence and Security Command,
ATTN: IACSF-FI, Ft Meade, MD 20755.

Written requests for information must contain the full name and Social Security Number of the individual, current address, and telephone number.

For personal visits, the individual should be able to furnish acceptable identification and give verbal information that could be verified from his file.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and for appealing initial determinations may be obtained from the SYSMANAGER.

RECORD SOURCE CATEGORIES:

Applications and related information is obtained from the individual investigative reports of Defense Investigative Service, USAINSCOM, and other Federal and DOD investigative and law enforcement agencies.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Parts of this system may be exempt under Title 5 U.S.C., Section 552a (k)(1) or (5), as applicable. For additional information, contact the SYSMANAGER.

A0502.03bDAMI

SYSTEM NAME:

502.03b Technical Surveillance Index

SYSTEM LOCATION:

Decentralized locations at Investigative Records Repository, Headquarters (HQ), United States Army Intelligence and Security Command (USAINSCOM) Ft Meade, MD; Systems Division, Office of the Deputy Chief of Staff, Intelligence, HQ, United States Army Europe and Seventh Army (USAREUR), Heidelberg, W. Germany; Office of the Deputy Chief of Staff for Personnel, Headquarters, Department of the Army (HQDA), The Pentagon; and Crimes Records Directorate, Ft Holabird, MD.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Persons whose conversations have been intercepted during technical surveillance operations conducted by, or on behalf of the Army.

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains individual's name and citizenship, any associated telephone number or radio call sign; location, date, and time of the surveillance activity, and the source document.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 18 U.S.C., Sections 2510-2520 and 3504.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Use limited to Motions for Discovery, Military Courts-Martial, Privacy Act Requests, and Congressional inquiries.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Magnetic tapes and paper records.

RETRIEVABILITY:

USAREUR segment utilizes a computerized retrieval system using name, address, telephone number or case designation. Other segments are retrieved manually by name, address, telephone number or case designation.

SAFEGUARDS:

Access to buildings are controlled by security guards. Records are maintained in General Services Administration approved security containers, physically separated from other materials, and are accessible only to authorized personnel who are properly screened, cleared, and trained.

RETENTION AND DISPOSAL:

Records are permanent.

SYSTEM MANAGER(S) AND ADDRESS:

The Assistant Chief of Staff for Intelligence, Headquarters, Department of the Army (DAMI-CIS), The Pentagon, Washington, DC 20310

NOTIFICATION PROCEDURE:

Information may be obtained from:
Headquarters, Department of the Army,
(DAMI-CIS), Room 2D481,
The Pentagon,
Washington, DC 20310;
Telephone: Area Code 202/695-4474.

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to the appropriate decentralized repository.

Written requests for information should contain the full name of the individual, current address, and telephone number.

CONTESTING RECORD PROCEDURES:

The Army's rules for contesting contents and appealing initial determinations may be obtained from HQDA (DAMI-DOS) Washington, DC 20310.

RECORD SOURCE CATEGORIES:

Army and other investigative agencies.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Parts of this system may be exempt under Title 5 U.S.C., Section 552a (k), (1), (2), or (5), as applicable. For additional information, contact the SYSMANAGER.

A0502.08aDAMI

SYSTEM NAME:

502.08a Badge and Credential Files

SYSTEM LOCATION:

United States Army Intelligence and Security Command (USAINSCOM), Ft Meade, MD 20755.

Decentralized Segments: Each USAINSCOM group, field station, battalion, detachment, field or resident office having assigned personnel who possess Military Intelligence Badges and Credentials (B&C).

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who currently possess or in the past possessed Military Intelligence B&C.

CATEGORIES OF RECORDS IN THE SYSTEM:

Card file containing the name, social security number (SSN), rank, and B&C number of each person who has been issued Military Intelligence (B&C). This card file is an index to a numerical filing system consisting of envelopes having a B&C status and Control Card (MIIA form 70) attached which contains the name of the individual, B&C number, component (military or civilian), military occupational specialty (MOS), clearance of civilian, authority for issue, and comments which indicate the history of the B&C keyed to the individuals having been assigned the B&C.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Executive Order 10450, Sections 2,3,4,5,6,7,8,9, and 14; Title 10 U.S.C., Section 3012(b)(c)(d) and (g); National Security Act of 1947, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Purpose of system is to maintain control and accountability over Military Intelligence B&C.

USAINSCOM uses system to maintain strict control and accountability over all B&C; to conduct periodic inventories; to determine SSN, rank, and/or location of B&C possessors or expossessors; and to determine whether individuals have B&C.

Federal investigative and/or intelligence agencies on occasion use the file to ascertain if an individual legally possesses B&C.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Card files.

RETRIEVABILITY:

Filed alphabetically by last name of possessor of B&C.

SAFEGUARDS:

Primary system is maintained in buildings employing security guards. Records are maintained in area accessible only to authorized personnel who are properly cleared and trained.

RETENTION AND DISPOSAL:

Records are maintained indefinitely. Destruction is authorized by Central Custodian of the B&C.

SYSTEM MANAGER(S) AND ADDRESS:

The Assistant Chief of Staff for Intelligence, Headquarters, Department of the Army, The Pentagon, Washington, DC 20310.

NOTIFICATION PROCEDURE:

Information may be obtained from:
Deputy Commander,
United States Army Intelligence and Security Command,
ATTN: IACSF-FI, Ft Meade, MD 20755;
Telephone: Area Code 301/677-4742/3.

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to: Deputy Commander, United States Army Intelligence and Security Command, ATTN: IACSF-FI, Ft Meade, MD 20755.

Written requests for information must contain the full name and SSN of the individual, current address, and telephone number.

For personal visits, the individual should be able to furnish acceptable identification and give verbal information that could be verified from his file card.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations may be obtained from the SYSMANAGER.

RECORD SOURCE CATEGORIES:

United States Army personnel and security records and United States Army Orders.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

A0502.10aDAMI

SYSTEM NAME:

502.10 USAINSCOM Investigative Files System

SYSTEM LOCATION:

United States Army Intelligence and Security Command, (USAINSCOM), Ft Meade, MD 20755.

Decentralized Segments located at USAINSCOM groups, field stations, battalions, detachments, and field offices stationed worldwide.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Military personnel of the United States (US) Army to include active duty, National Guard members, reservists and retirees; civilian employees of the Department of the Army (DA), to include contract, temporary, part time, advisory, and volunteer, including citizen and alien employees located both in the US and in oversea areas; industrial or contractor personnel who are civilians working in private industry for firms which have contracts involving access to classified Department of Defense (DOD) information; aliens granted limited access authorization to US Defense information; DOD alien personnel investigated for visa purposes; individuals about whom there is a reasonable basis to believe that they are engaged in, or plan to engage in, activities such as (1) theft, destruction, or sabotage of ammunition, equipment, facilities, or records belonging to DOD units or installations, (2) possible compromise of classified defense information by unauthorized disclosure or by espionage, (3) subversion of loyalty, discipline or

morale of DA military or civilian personnel by actively encouraging violation of lawful orders and regulations or disruption of military activities, (4) demonstrations on active or reserve Army installations or immediately adjacent thereto which are of such character that they are likely to interfere with the conduct of military operations, (5) direct threats to DOD military or civilian employees regarding their official duties or to other persons authorized protection by DOD resources, and (6) activities or demonstrations endangering classified defense contract facilities or key defense facilities of the Panama Canal approved by Headquarters, Department of the Army; certain non-DOD affiliated persons whose activities involve them with the DOD, namely, activities involving requests for admission to DOD facilities or requests for certain information regarding DOD personnel, activities, or facilities; persons formerly affiliated with the DOD; persons who applied for or are/were being considered for employment with or access to DOD such as applicants for military service, pre-inductees and prospective contractors; visa applicants, individuals residing on, having authorized official access to, or conducting or operating any business or other function at any DOD installation and facility; and USAINSCOM sources.

CATEGORIES OF RECORDS IN THE SYSTEM:

Requests for investigation and attachments thereto such as personal history statements; fingerprint cards; personnel security questionnaire; waivers for release of credit; medical and/or educational records; and National Agency check requests.

Investigations conducted by USAINSCOM or other DOD, Federal, State or local investigative agency to include: National Agency checks; local agency checks; military records; birth records; employment records; education records; credit records: interviews of education, employment, and credit references; interviews of listed and developed character references; interviews of neighbors; documents which succinctly summarize information in subjects investigative file; case summaries prepared by both investigative control offices and requesters of investigation interrogation reports; correspondence pertaining to the investigation or its adjudication by clearance authority to include; (1) information which reflects the chronology of the investigation and adjudication, (2) all recommendations regarding the future status of the subject, (3) actions of security/loyalty review boards, (4) final actions/determinations made regarding the subject, and (5) security clearance, limited access authorization, or security determination; index tracing reference which contains aliases and nee names of the subject and names of co-subjects; USAINSCOM form indicating dossier has been reviewed and all material therein conforms to DOD policy regarding retention criteria; USAINSCOM form to indicate material has been removed and forwarded to the Defense Investigative Service (DIS); security termination statements; notification of denial, suspension, or revocation of clearance; record of USAINSCOM agent case assignments; reports of casualty, biographic data concerning Army personnel who are missing or captured; cross reference sheets which indicate the removal of investigative documents requiring limited access.

Case control and management documents that serve as the basis for conducting the investigation. This includes documents requesting the investigation; background data such as personal history statement, fingerprint cards, National Agency check requests, and release statments; and documents used in case management and control such as lead sheets, other field tasking documents, and transfer forms.

Card index of personnel investigations/operations which are under controlled access, to include USAINSCOM personnel, file procurement officers, and sensitive counter-espionage, counter-sabotage, and counter-subversion investigations and/or operations.

Accession file maintained to keep record of all persons and agencies authorized to receive Investigative Records Repository (IRR) Files.

Microfilm index and catalogue file, which is an index to all investigative holdings contained in microfilmed investigative records.

Investigative index card file record system maintained to keep a permanent record of all dossiers charged out of USAINSCOM on loan to user agencies or on permanent transfer to DIS.

Document account record or dossiers of their reproductions or microfiche files forwarded from and returned to USAINSCOM.

Card file and paper listing of all personnel under Army cognizance, whose clearances have been revoked. File contains individual's name, date and place of birth, social security number (SSN), coded reason for revocation, and name of agency which designated the revocation.

File containing a record of all favorable IRR dossiers destroyed because no action has transpired in the file within the past 15 years. File consists of either the last clearance certificate contained in the dossier or, if no clearance certificate exists, a summary card containing the name of the individual, his date and place of birth, his SSN, or Army service number, date and type of investigation, and the name of the agency which conducted the investigation.

Records accounting for the disclosure of USAINSCOM investigative material made outside the US Army.

Summaries of release actions under the Freedom of Information Act (FOIA) and the Privacy Act (PVA) of 1974.

Card file containing a summary of all actions taken by the USAINSCOM in the conduct of security adjudication.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Executive Order 10450, Sections 2,3,4,5,6,7,8,9 and 14; Title 10 U.S.C., Section 3012(b)(c)(g); National Security Act of 1947, as amended; Executive Order 11652, Sections 1,2,3,4,5,6,7,8,9,10 and 12.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The purposes for which information in the system is collected are as follows:

To conduct personnel security investigations (PSI). A PSI is an inquiry into the activities of the individual which is designed to develop pertinent information pertaining to his suitability for a position of trust. Information is compiled on loyalty, character, emotional stability, trustworthiness, and reliability to insure that an individual's access or continued access to defense information, entry to restricted areas, access to nuclear weapons, security eligibility or acceptability for assignments to or retention in sensitive civilian positions and acceptance or retention as a member of the Armed Forces is clearly consistent with the interest of national security.

To provide protective services when authorized by the Secretary of Defense for the DOD Distinguished Visitors Protection Program. The objective of this program is to provide physical protection for distinguished foreign visitors of DOD and the military departments and high ranking members of DOD and its agencies, and to assist the U.S. Secret Service in its protective functions.

To conduct special investigations as authorized by the Secretary of the Army,

which are counterintelligence investigations concerning highly sensitive matters and highly placed persons within the DOD and its agencies.

To conduct limited reciprocal investigations on receipt of an official request from Federal law investigative agencies. These investigations involve the review of DA and military records.

Categories of users of USAINSCOM investigative files are:

USAINSCOM personnel in the course of their official duties.

Other DOD investigative elements, DOD agencies and elements of the Military Departments designated by the departments in official directives or regulations, and accredited representatives of the Secretary of Defense and the Joint Chiefs of Staff.

Accredited Federal criminal and civil law enforcement agencies including those responsible for conducting their own investigations as to suitability for employment or access of current or potential employees formerly affiliated with the DOD.

Other accredited Federal agencies serviced by the Civil Service Commission but with a need to evaluate the suitability of potential employees formerly affiliated with the DOD.

Congress, including the General Accounting Office.

Veterans Administration.

Specific uses of USAINSCOM Investigative Files are:

To determine the loyality, suitability, eligibility, and general trustworthiness of individuals for assignment or appointment to sensitive military duties or to critical sensitive civilian positions by the first four categories of users, above.

To determine the eligibility and suitability of individuals for entry and retention in the Armed Forces by the first and second category of users, above.

To provide information for ongoing security and suitability investigations being conducted by Federal agencies, by the first three categories of users, above.

To provide information to assist Federal agencies in the administration of criminal justice and prosecution of offenders by the first three categories of users, above.

To provide information in judicial or adjudicative proceedings including litigation, or in accordance with a court order by the first three categories of users, above.

To make statistical evaluations of investigative activities by all categories of users, above.

To respond to legitimate FOIA and PVA access requests by the first category of users, above.

To provide information in response to Inspector General, Equal Employment Opportunity, other complaint investigations and Congressional inquiries by the first and fifth categories of users, above.

To determine the eligibility and suitability of an individual for favorable personnel actions in the Armed Forces of the United States, to include Reserve and National Guard. Unfavorable information may be used as appropriate by personnel decision managers in first and second category of users, above.

For use in alien admission and naturalization inquiries conducted under Section 105 of the Immigration and Nationality Act of 1952, as amended, by the third category of users, above.

For use in benefit determinations by the sixth category of users, above.

The distribution of investigative information to other DA activities or outside agencies is based on this agency's evaluation of their needs and the relevance of the information to the use for which it is provided. Information collected for one purpose is not automatically used for the other purposes or by the other users indicated in this description. Transfer of information from this record system to other DOD components is regarded as a routine intra-agency use under the provisions of Title 5 U.S.C., Section 552a(b)(1).

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

Upon receipt of a valid request for an investigation, the request package is given a control number and placed in a case folder (paper record) together with identification data concerning the subject of the request for investigation and the control number. The request is entered into an automatic data processing (ADP) system (USAINSCOM case control system), which is designed to provide statistical data and case control management information on the number and types of investigations that are opened, currently pending, and closed in USAINSCOM. This ADP system triggers automatic requests upon the Defense Central Index of Investigations (DCII), a master index that holds reference to all DOD investigations conducted by USAINSCOM and the Military Services investigative file repositories. If there are files on the subject, a request is generated by USAINSCOM upon the appropriate repository. Upon review of the request package and other investigative files retrieved through DCII, investigative requirements are then determined by the USAINSCOM Control Office and investigative leads are dispatched to the USAINSCOM field elements and other pertinent Governmental investigative agencies. Upon receipt of the investigative leads at the field level, a duplicate investigative file is prepared by the receiving DIS field element. This file contains investigatory report and case control material pertaining only to the specific investigative leads assigned to the controlling field element. At this point the USAINSCOM investigative file enters into a pending status. During this pending status investigative reports are prepared by USAINSCOM field elements and sent to the control office, based upon record and interview data obtained during the investigation. Upon completion of the investigation, the closed investigative file held by the USAINSCOM Control Office is forwarded thru the IRR to the requestor of the investigation. Upon receipt, the requestor adjudicates the investigation and returns it to the IRR for retention. The duplicate files prepared by USAINSCOM field elements are destroyed 120 days after the closing.

STORAGE:

Paper records in file folders, rolled microfilm, and microfiche.

RETRIEVABILITY:

File folders are maintained in terminal digit order by regular dossier number and SSN. In order to obtain the dossier number of the subject at least one personal identifier is required. For those subjects who have no identifying data such as date of birth, military service number or SSN, the name only index is searched. Additionally, a non-standard search is required. The name only index will provide a subject's name and dossier number only. The non-standard search will provide a listing of all subjects with identifying data. In these instances, some other identifying data must be furnished such as address. Dossiers possibly identical with the subject may be forwarded to the requester.

Microfiche files are maintained in duplicate copy in separate locations in Microfilm Division, IRR. The records are maintained in terminal digit order according to regular dossier number or SSN.

Microfilm records are retrieved by name or dossier number.

SAFEGUARDS:

Building 4552, which houses the IRR, is under 24-hour guard and accessible only to authorized personnel. Only individuals accredited as file procurement officers may obtain and review IRR investigative records. Subordinate USAINSCOM elements and other official requesters are required to have General Services Administration-approved containers for the storage of investigative files. Certified mail is used to forward any investigative files to official requesters of USAINSCOM subordinate elements.

RETENTION AND DISPOSAL:

Personnel Security Investigative Files may be retained for 15 years after last action reflected in the file, except that files which resulted in adverse action against the individual will be retained permanently. However, once affiliation is terminated, acquiring and adding material to the file is prohibited unless affiliation is renewed.

SYSTEM MANAGER(S) AND ADDRESS:

The Assistant Chief of Staff for Intelligence, Headquarters, Department of the Army, the Pentagon, Washington, DC 20310.

NOTIFICATION PROCEDURE:

Information may be obtained from
Deputy Commander
United States Army Intelligence and Security Command
ATTN: IACSF-FI
Ft Meade, MD 20755
Telephone: Area Code 301/677-4742/3.

RECORD ACCESS PROCEDURES:

Requests should be sent to: Deputy Commander, United States Army Intelligence and Security Command, ATTN: IACSF-FI, Ft Meade, MD 20755.

Written requests for information should contain the full name of the individual, SSN, previous service number (if any), current address, and telephone number. Visits are limited to Building 4552, Ft Meade, MD 20755.

For personal visits, the individual should be able to provide acceptable identification (e.g. driver's license, employing office's identification card) and give verbal information that could be verified with his 'case' folder.

CONTESTING RECORD PROCEDURES:

The Army's rules for contesting contents and appealing initial determinations may be obtained from the SYSMANAGER.

RECORD SOURCE CATEGORIES:

DOD and Military Department records; Federal Agency records; State, county, and municipal records; employment records of private schools, colleges, universities, technical and trade schools; hospital records; real estate agencies; credit bureaus, loan companies, credit unions, banks, and other financial institutions which maintain credit information on individuals; Transportation companies (airlines, railroads, etc.); Other private records sources deemed necessary in order to complete an investigation; Miscellaneous records such as: telephone directories; city directories; Who's Who in America; Who's Who in Commerce and Industry; Who Knows What - A listing of experts in various fields; American Medical Directory; Martindale-Hubbell Law Directory; US Postal Guide; Insurance Directory; Dunn and Bradstreet; and The US Army Register; any other type of miscellaneous record deemed necessary to complete the USAINSCOM investigation; the interview of individuals who have knowledge of the subject's background and activities; the interview of witnesses; the interview of victims; the interview of confidential sources; and the interview of other individuals deemed necessary to complete the USAINSCOM investigation.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Parts of this system may be exempt under Title 5 U.S.C., Section 552a(k)(1), (2) or (5), as applicable. For additional information, contact the SYSMANAGER.

A0503.03aDAMI

SYSTEM NAME:

503.03a Department of the Army Operational Support Activities Files

SYSTEM LOCATION:

United States Army Intelligence and Security Command, (USAINSCOM), Ft Meade, MD 20755.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Selected members of the US Army and civilian employees of the Department of the Army (DA) who participate in and have received support for conducting US Army intelligence and counterintelligence duties. Included are personnel of other Federal agencies who have requested and received support from appropriate authority.

CATEGORIES OF RECORDS IN THE SYSTEM:

Card file with Automatic Data Processing (ADP) index of individuals who have received support from DA in completing specialized duties within the Army's intelligence and counterintelligence activities.

Card files and duplicate ADP files of individuals indicating any identity and other data which may be used to identify them in their support of DA's intelligence and counterintelligence activities.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Executive Order 10450, Sections 2,3,4,5,6,7,8,9 and 14; Title 10 U.S.C., Section 3012(b) (c) (g); National Security Act of 1947 as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To maintain within records which identify individuals performing duties in DA specialized intelligence and counterintelligence assignments data to support or refute any possible future claim of the individual to the US Government.

To facilitate administrative actions by providing a reference to names and identities.

To manage individual's career while he is assigned to duties in support of the Army's intelligence and counterintelligence functions. Records provide reference during individual's period of assignment.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders, vertical card file, ADP printouts, ADP diskpack.

RETRIEVABILITY:

Filed alphabetically by last name of individual. ADP files by Social Security Number (SSN).

SAFEGUARDS:

Material is stored in General Services Administration (GSA) containers approved for the storage of secret material. Building in which material is stored is locked during hours of nonoccupancy.

ADP files are access controlled by a codeword issued only to properly screened, cleared, and trained personnel.

RETENTION AND DISPOSAL:

Files are maintained permanently.

SYSTEM MANAGER(S) AND ADDRESS:

The Assistant Chief of Staff for Intelligence, Department of the Army, Washington, DC 20310.

NOTIFICATION PROCEDURE:

Information may be obtained from:

Deputy Commander, United States Army Intelligence and Security Command,
ATTN: IACSF-FI, Ft Meade, MD 20755;
Telephone: Area Code 301/677-4742/3.

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to:
Deputy Commander, United States Army Intelligence and Security Command,
ATTN: IACSF-FI, Ft Meade, MD 20755.

Written requests for information must contain the full name and (SSN) of the individual, current address, and telephone number.

For personal visits, the individual should be able to furnish acceptable identification and give verbal information that could be verified from his file card.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations may be obtained from the SYSMANAGER.

RECORD SOURCE CATEGORIES:

Applications and related information is obtained from the individual; investigative reports of Defense Investigative Service, USAINSCOM, and other Federal and Department of Defense investigative and law enforcement agencies.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Parts of this system may be exempt under Title 5 U.S.C., Section 552a (k) (1), (2) or (5), as applicable. For additional information, contact the SYSMANAGER.

A0503.06aDAMI

SYSTEM NAME:

Counterintelligence Operations Files

SYSTEM LOCATION:

Primary System: US Army Intelligence and Security Command, Fort Meade, Maryland 20755.

Decentralized Segments: Locations of the US Army Intelligence and Security Command's decentralized segments may be obtained from the Appendix to the last Federal Register compilation of Army system notices.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Active and Retired Military Personnel, Department of Defense (DOD) affiliated civilians including contractor personnel employed by civilian firms having defense contracts, and individuals not affiliated with the Department of Defense only if there is a reasonable basis to believe that one or more of the following situations exist: Theft, destruction or sabotage of weapons, ammunition, equipment, facilities or records belonging to DOD units or installations. Possible compromise of classified defense information by unauthorized disclosure or by espionage. Subversion of loyalty, discipline or morale of Department of the Army military or civilian personnel by actively encouraging violation of laws, disobedience of lawful orders and regulations, or disruption of military activities. Demonstrations on active or reserve Army installations or demonstrations immediately adjacent to them which are of such a size or character that they are likely to interfere with the conduct of military activites. (Armed Forces Induction Centers, US Army Recruiting Stations located offpost and facilities of Federalized National Guard Units are considered to be active DOD installations. For the purpose of the sub-paragraph, Reserve Officer Training Corps (ROTC) installations on campuses are not considered to be active or reserve Army installations and coverage of demonstrations at or adjacent to such installations is not authorized). Direct threats to DOD military or civilian personnel regarding their official duties or to other persons authorized protection by DOD resources. Activities or demonstrations endangering classified defense contract facilities or key defense facilities, including Panama Canal, approved by Headquarters, Department of the Army (HQDA), as key to the defense and operation of the Panama Canal.

CATEGORIES OF RECORDS IN THE SYSTEM:

Files contain those documents used to conduct foreign counterintelligence operations and investigations pertaining to the US Army's responsibilities under the categories of counterintelligence, counterespionage, counter-sabotage, and counter-subversion.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Executive Order 10450, Security Requirements for Government Employment, in particular Sections 2 and 9c thereof. Executive Order 12036, United States Intelligence Activities, in particular paragraphs 1-1104, 1-1112, 1-1113, 1-204(b) and 2-208. The National Security Act of 1947 as amended (Title 10 of the U.S. Code Sections 3012 (b)(c) and (g).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Files are maintained: To detail results of investigations and operations, to facilitate guidance, control and effectiveness of the investigations and operations, to document for record purposes the results of investigations and operations, and to allow analysis of information on foreign intelligence agencies and personalities who are known or suspected of posing a threat to the security of the DOD.

To support authorized counterintelligence investigations and operations initiated to detect, identify and neutralize foreign counterintelligence threats to the DOD.

Information is provided to DOD Components, Federal Agencies, and other services and governmental agencies whose missions contain responsibility for foreign counterintelligence activites.

Information may be disclosed to foreign law enforcement, security, investigatory or administrative authorities in order to comply with requirements imposed by or to claim rights conferred in international agreements and arrangements including those regulating the stationing and status in foreign countries of DOD military and civilian personnel and other countries where there are routine reciprocal exchanges of information.

This distribution of operational and investigative information to Army activities or outside agencies is based on the evaluation by the U.S. Army Intelligence and Security Command of the other activity's needs and the relevance of the information to the use for which it is to be provided. Information collected is not automatically used for all the purposes or by all the other users listed in this description.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Reports generated in the documentation of agency investigations and operations are retained in original report format as paper records in file folders. Other records and reports are maintained as paper records in file folders and in microfiche. Extracted information is converted into appropriate language for storage on a computer diskpack.

RETRIEVABILITY:

Paper records are retrieved by name or file number. Computerized data are retrieved by name, date of birth, place of birth, and aliases; by designation of the operation or investigations, or by identification of foreign intelligence agency.

SAFEGUARDS:

Files are maintained in three-position combination, fire resistant steel security containers housed in security controlled areas accessible only to authorized personnel. Computerized data are controlled by a codeword that is issued only to properly screened, cleared and trained personnel. System employs on-line, dial-up procedures, enhanced by shielding and other appropriate technical safeguards to protect data against potential compromising emanations and/or unauthorized access.

RETENTION AND DISPOSAL:

Paper records documenting foreign counterintelligence operations and investigations are permanent. At the termination of the operation/investigation, files are retired to the US Army Intelligence and Security Command's Investigative Records Repository. Computerized information is updated periodically and all previous copies destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

The Assistant Chief of Staff for Intelligence, Department of the Army, Washington, D.C. 20310.

NOTIFICATION PROCEDURE:

Information may be obtained from the Assistant Chief of Staff for Intelligence, Department of the Army, Washington, D.C. 20310.

RECORD ACCESS PROCEDURES:

Requestor should contact the Assistant Chief of Staff for Intelligence, Department of the Army, Washington, D.C. 20310. For personal visits, the requestor should present such acceptable proof of identity as a drivers license, military identification card, Department of Defense (DOD) building pass, or other type of identification containing photograph and identity data.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340-21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

Information is obtained from individuals.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Portions of this system of records may be exempt under Title 5 of the U.S. Code Sections 552a(k)(1), (2) and (5) as applicable. The specific exemptions for this system may be found in Army Regulation 340-21 (32 CFR Part 505).

A0506.01fDAMI

SYSTEM NAME:

506.01 Personnel Security Clearance Information Files

SYSTEM LOCATION:

Primary System: Joint Adjudicative Clearance System (JACS) (segment of the Defense Central Index of Investigation (DCII), Defense Investigative Service (DIS), Ft Holabird, MD 21203.

Decentralized Segments: Records as to the individual's personnel security and clearance status may be maintained by offices at Department of the Army (DA) Staff agencies, major commands, installations, activities, and unified and specified commands.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any individual, civilian or military, affiliated with the United States Army by assignment, employment, contractual relationship, or as the result of an interservice support agreement on whom a personnel security clearance determination has been completed, is in process, or may be pending.

CATEGORIES OF RECORDS IN THE SYSTEM:

File may contain pending and completed personnel security clearance actions on individuals by personal identifying data. Also may contain briefing/debriefing statements for special programs, sensitive positions, and other related information and documents required in connection with personnel security clearance determinations.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Executive Orders 10450 and 10865; Title 10 U.S.C., Section 3012; Title 50 U.S.C., Section 4039; and the National Security Act of 1947.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To process request for personnel security clearance actions; to determine eligibility for access to classified information or assignment to sensitive position; and to record security clearance issued or accepted.

Information may be released to other Department of Defense (DOD) and Federal agencies, based on formal accreditation as specified in official directives, regulations, and demonstrated need-to-know; to Federal, State, local, and foreign law enforcement, intelligence, or security agencies in connection with a lawful investigation under their jurisdiction; and to commanders/agency heads for adverse personnel actions such as fraudulent enlistment proceedings, removal from sensitive duties, elimination from the service, removal from employment, denial to a restricted or sensitive area, and revocation of security clearance.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in folders, file cards; computer tape, punch cards, or disks.

RETRIEVABILITY:

Filed alphabetically by last name of individual or social security number (SSN).

SAFEGUARDS:

Records are stored in locked buildings which employ security guards and are subject to Military Police and/or local civilian law enforcement patrol security. All records are maintained in areas accessible only to authorized personnel who are properly screened, cleared, and trained. Use of computers, including remote terminals, requires knowledge of special transaction codes to preserve integrity of data.

RETENTION AND DISPOSAL:

Primary system files are destroyed at the same time as the dossier upon which security clearance action was based. Decentralized segment personnel security clearance files are either (1) destroyed upon termination of access, (2) destroyed 1 year from date of transfer or separation of individual, or (3) forwarded to the gaining organization. Investigative reports are forwarded to the United States Army Central Personnel Security Clearance Facility, Ft Meade, MD for inclusion in dossier at the United States Army Intelligence and Security Command (USAINSCOM) Investigative Records Repository (IRR), Ft Meade, MD 20755. Dossiers are maintained no longer than 15 years from date of last entry inless significant adverse information is present, in which case retention is 25 years. Copies of investigative reports are destroyed upon completion of final action.

SYSTEM MANAGER(S) AND ADDRESS:

United States Army Central Personnel Security Clearance Facility, Ft Meade, MD 20755.

NOTIFICATION PROCEDURE:

Information concerning status or degree of personnel security clearance/access may be obtained from the

Installation or Command Security Officer where applicant was assigned or employed. Information contained in investigative files may be obtained from the appropriate investigative agency.

RECORD ACCESS PROCEDURES:

Requests for security clearance information should be sent to: Commander, ATTN: Security Officer, of the command or installation of assignment or employment.

Requests for information should contain the full name of the individual, SSN, current address, and telephone number.

For personal visits to the Security Office, the individual should be able to provide identification (e.g., driver's license, identification card) and give verbal information that can be verified with office records.

Requests for information contained in investigative files should be addressed to appropriate investigative agency with personal identifying data required by that system as published in the Federal Register.

CONTESTING RECORD PROCEDURES:

The Army's rules for contesting contents and appealing initial determinations are contained in Army Regulation 340-21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

Application and related forms obtained from the individual; investigative results from the DIS, USAINSCOM IRR, and other Federal, DOD, and DA investigative or law enforcement agencies.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Parts of this system may be exempt under Title 5 U.S.C., Section 552a(k)(1), (2), and (5). For additional information, contact the SYSMANAGER.

A0506.01|USAREUR

SYSTEM NAME:

506.01 Employee Screening Program/ Installation Access Files

SYSTEM LOCATION:

Security Branch, Office of the Deputy Chief of Staff, Intelligence, Office of the United States (US) Commander, Berlin, Germany.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All civilian applicants for and/or employees in positions in US Forces activities in the Berlin Command, other than Department of Defense (DOD) civilians. Persons included are of various nationalities, paid from both appropriated and nonappropriated funds, as well as from funds provided by the German Occupation Costs Office, who are administered under the Berlin Tariff Agreement, which governs employment of the local national workforce. Non-US citizen applicants for and holders of passes authorizing unoffical access to closed US Forces installations and facilities in Berlin.

CATEGORIES OF RECORDS IN THE SYSTEM:

Cards or paper files contain name; date and place of birth; social security number (SSN) for US citizens; address; personal identity documents by type and serial number; employing or potential employing agency; type of position held or applied for and related information; dates security screening action initiated and completed; list of investigative agencies' files checked with results and disposition of case.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 3012 and Title 50 U.S.C.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To determine suitability for employment and to grant access to closed military installations as warranted. Information on security screening actions is provided to DOD and US State Department law enforcement investigative agencies in Berlin for use in criminal/security investigative purposes, when warranted.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Cards are stored in file boxes, paper records in file folders.

RETRIEVABILITY:

Alphabetically by last name.

SAFEGUARDS:

Records are maintainted in locked areas, accessible only by authorized personnel who are properly screened, cleared, and trained. Buildings are enclosed in a compound to which access is controlled at all times.

RETENTION AND DISPOSAL:

Files pertaining to US citizens are destroyed on transfer or separation of individual. Files on non-US employeés on whom no derogatory information is developed during their tenure of service are held in the inactive files for 6 months after termination of employment, then destoyed; derogatory files are destroyed 2 years after termination. Files pertaining to applicants who are not accepted are destroyed upon notification by appropriate Civilian Personnel Officer. Files pertaining to non-US citizen applicants or holders of installation passes are disposed of in accordance with the following schedule: When file contains no or only minor derogatory information, destroyed upon notification from responsible official of surrender of pass. When pass is denied or withdrawn for cause, it is placed in the inactive file, held for 3 years and then destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Deputy Chief of Staff, Intelligence, Office of the US Commander Berlin, APO New York 09742.

NOTIFICATION PROCEDURE:

Information may be obtained from:
Deputy Chief of Staff, Intelligence
Office of the US Commander, Berlin
APO New York 09742

RECORD ACCESS PROCEDURES:

Request from individuals should be addressed to:
Commander, United States Army, Berlin
ATTN: AEBA-IC(S),
APO New York 09742

Written request for information should contain the full name, date and place of birth, SSN (where appropriate), and current address of the individual.

For personal visits, the individual should be able to provide acceptable indentification such as national passport, government identity document, employing offical's identification card, and give verbal information that could be verified with his/her 'case' folder.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in AR 340-21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

Application forms from the individual, employee personnel records, files of various government investigative agencies, previous employers, financial institutions, educational institutions, and research notes/documents from records custodians.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

A0506.05DAAG

SYSTEM NAME:

506.05 Diplomatic Immunity Roster

SYSTEM LOCATION:

Washington National Records Center, General Services Administration, Suitland, MD 20409.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any member who was assigned to any of the following units which were stationed in Thailand: 7th Radio Relay Field Station; 6924 Security Squadron; Navy Detachment, Radio Relay Field Station; 4802 Joint Liaison Detachment; 17th DAR Squadron; Postal Courier Region, AI16, Det 1, 1985th Communications Squadron; 6201 Aerospace Support Squadron; Department of Defense (DOD) Special Representative, Thailand; General Electric, Kokha.

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains individual's name, social security number (SSN) and organization.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 3012.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Records are used only to answer inquiries.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

IBM card stock and rosters in file folders.

RETRIEVABILITY:

Filed alphabetically by last name of individual.

SAFEGUARDS:

Building employs security guards. Records are maintained in storage areas accessible only to authorized personnel.

RETENTION AND DISPOSAL:

Normal disposition procedures were preempted by imposition of a DOD moratorium. At the present time, these records will be retained indefinitely.

SYSTEM MANAGER(S) AND ADDRESS:

The Adjutant General, Headquarters, Department of the Army, Washington, DC 20314.

NOTIFICATION PROCEDURE:

Information may be obtained from HQDA (DAAG-AMR-S), Room GA-080, Forrestal Building, Washington, DC 20314, telephone: Area Code 202/693-1845.

RECORD ACCESS PROCEDURES:

Requests should be submitted to The Adjutant General, HQDA (DAAG-AMR-S), Washington, DC 20314. Requesters should furnish their full name and any information that would readily identify the record sought. Personal visits are not permitted.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340-21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

Messages and other written communications from the individual units requesting members' addition or deletion from the roster.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

A0508.04USACIDC

SYSTEM NAME:

508.04 US Army Criminal Investigation Fund Vouchers.

SYSTEM LOCATION:

Primary System: Comptroller, US Army Criminal Investigation Command (USACIDC), 5611 Columbia Pike, Falls Church, VA 22041.

Decentralized Segments: USACIDC subordinate elements. Official mailing addresses are in the Department of Defense directory in the Appendix.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any special agent of USACIDC or Military Police Investigator (MPI), US Army, who has made expenditures of or has requested reimbursement from USACIDC limitation, 015 contingency funds (described in Army Regulation (AR) 37-47).

CATEGORIES OF RECORDS IN THE SYSTEM:

Files contain the USACIDC special agent's or MPI's name, reason for such expenditure, grade, receipts, certificates of expenditure when receipts are unavailable, statements by persons as to the receipt of funds and/or reasons for such payment, or cash advances.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 3012(g).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

USACIDC personnel with a need to know: to maintain a proper accounting of the expenditure of USACIDC funds.

Department of the Army staff, major commands and subordinates with a need to know: to monitor the proper accounting of USACIDC funds.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders

RETRIEVABILITY:

Filed by voucher number only at Headquarters (HQ) USACIDC. Filed by the individual's name at USACIDC subordinate levels.

SAFEGUARDS:

Subordinate USACIDC elements generally employ 24 hour duty officers and maintain the records in locked buildings. Access is limited to authorized personnel.

HQ USACIDC buildings employ security guards; records are maintained in locked rooms; and access is limited to authorized personnel.

RETENTION AND DISPOSAL:

Clothing records are transferred with the USACIDC special agents.

Individual vouchers are destroyed 8 years after the last entry.

SYSTEM MANAGER(S) AND ADDRESS:

The Commander, US Army Criminal Investigation Command, 5611 Columbia Pike, Falls Church, VA 22041

NOTIFICATION PROCEDURE:

Information may be obtained from:
Commander
USACIDC

Falls Church, VA 22041

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to: Commander, USACIDC, ATTN: CIJA-RI, 5611 Columbia Pike, Falls Church, VA 22041

Written requests for information should contain the individual's full name, address, and date of birth. Personal visits should be made to Office of the Staff Judge Advocate-Release of Information, USACIDC, 5611 Columbia Pike, Falls Church, VA 22041.

For personal visits, the requesting individual must present positive identification, such as a driver's license or other identification card with a photograph, in addition to the information required in written requests.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations may be obtained from the SYSMANAGER, ATTN: CIJA-RI.

RECORD SOURCE CATEGORIES:

Special agent or MPI, informant, or other persons' statements pertaining to expenditures.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

A0508.07aUSACIDC

SYSTEM NAME:

508.07 Criminal Investigation Accreditation Files

SYSTEM LOCATION:

Primary System: Accreditation Division, Directorate of Personnel and Administration, Headquarters (HQ), US Army Criminal Investigation Command (USACIDC), 5611 Columbia Pike, Falls Church, VA 22041

Decentralized Segments: Crime Records Directorate, USACIDC, 2301 Chesapeake Avenue, Baltimore, MD 21222; Washington National Records Center, GSA, Suitland, MD.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any person who makes an application to the USACIDC for acceptance into the USACIDC program as an apprentice special agent; for a warrant officer appointment in USACIDC; for USACIDC supervisor credentials; for the USACIDC officer specialty program; or for USACIDC laboratory technician credentials.

CATEGORIES OF RECORDS IN THE SYSTEM:

Files contain the individual's application to USACIDC, a statement of personal history, personal identifiers, photographs, fingerprint cards, qualifications record, biography, information pertaining to assignment capability or location, letters of recommendation, educational documents, character investigation data, reclassification orders, reassignment orders, commander's inquiry data, reports of investigation, reasons for withdrawal from the program, reason for denying the application, date of acceptance into the program, date appointed (if an officer or warrant officer), date of accreditation, badge number, credential number polygraph certificate number (if a certified polygraph examiner), agent sequence number, assignment, date assigned, marital status, and other data pertaining to the accreditation function, polygraph examiner performance and evaluation data, physical profile, date of last physical, assignment preference, humanitarian transfer restrictions, current job title, date current security clearance authorized, date of last background investigation; primary, secondary, tertiary foreign language capability, special qualifications, service agreement, spouse's place of birth and citizenship, agent's place of birth, agent's last ten assignments, agent's hobbies, and agent's private licenses.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 3012(g).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Staff elements of USACIDC with a need-to-know: to determine an applicant's initial acceptance or non-acceptance into the USACIDC program, and if accepted the individual's continued eligibility, placement or standing within the USACIDC program.

U.S. Army Intelligence Security Command, for storage and utilization in determining security classifications.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Alpha file: paper records in file folders.

Criminal Investigator Information Data Card: vertical card file.

Machine Punch Card System: vertical card file.

Automated data files are maintained on magnetic tapes.

RETRIEVABILITY:

Alpha Card File, Criminal Information Card, and Machine Punch Card Systems are all retrievable by last name of the individual, agent Sequence number SSN, badge number, credential number and polygraph number.

SAFEGUARDS:

HQ USACIDC buildings employ security guards, material is stored in locked containers during non-duty hours, and is accessible only by authorized personnel.

Crime Records Directorate building employs security guards, data is stored within a locked wire enclosure, and is accessible only by authorized personnel.

Washington National Records Center: buildings employ security guards during non-duty hours, 24 hour intrusion alarms, and locked external doors, and is accessible only by authorized personnel.

Automated records are maintained in a building employing security guards, room and data are accessible only by authorized personnel.

RETENTION AND DISPOSAL:

Alpha files; files of approved applicants are retained in the active file until the individual retires, is released from active duty, or is voluntarily or involuntarily removed from the USACIDC program; the file is placed in an inactive storage at HQ USACIDC for the remainder of that year plus two additional years; it is then transferred to the Washington National Records Center where it is stored for eight additional years and then destroyed; files of personnel not accepted into the USACIDC program are retained in inactive storage at HQ USACIDC for the remainder of that year plus one additional year and then destroyed.

Criminal Investigation Information Data Cards are maintained permanently.

Machine Punch Cards are maintained only during such time as the individual is currently in the USACIDC program and are destroyed upon cessation of that status.

Automated data on individuals are maintained while the individual is serving as an investigator and for 90 days after he or she leaves the program.

SYSTEM MANAGER(S) AND ADDRESS:

The Army's rules for access to records and for contesting contents and appealing initial determinations by the individual concerned may be obtained from the sysmanager, ATTN: CIJA-RI.

RECORD SOURCE CATEGORIES:

Suspects, witnesses, victims, USACIDC special agents and other personnel, informants; various DOD, Federal, State, and local investigative agencies; departments or agencies of foreign governments; and any other individual or organization which may supply pertinent information.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Parts of this system may be exempt under 5 USC 552a (j) or (k) as applicable. For additional information contact SYSMANAGER.

A0508.11bUSACIDC

SYSTEM NAME:

508.11b Criminal Information Reports and Cross Index Card Files

SYSTEM LOCATION:

Primary System Operations Directorate, Headquarters (HQ), United States (US) Army Criminal Investigation Command (USACIDC), 5611 Columbia Pike, Falls Church, VA 22041.

Decentralized Segments: USACIDC subordinate elements, official mailing addresses are in the Department of Defense directory in the appendix to the Department of the Army systems notice.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any individual, civilian or military, involved or suspected of being involved in or reporting possible criminal activity affecting the US Army's interests, property, and/or personnel.

CATEGORIES OF RECORDS IN THE SYSTEM:

Files contain names, social security numbers, rank, units, location, date and place of birth, physical descriptions, chronology of events, action officer's activity summary, letters, messages, notes; reports of investigation containing witness statements, subject statements, agents statements, laboratory reports, documentary evidence, polygraph examination reports, physical evidence, summary data and administrative data pertaining to the preparation and distribution of the report; basis for the action (allegation), Serious and Sensitive Incident reports, talking papers, fact sheets, aliases, descriptions, modus operandi, and other investigative information from Federal, State, and local investigative agencies and departments. Indices contain codes for the type of crime, location of investigation, year and date of offense, names and personal identifiers of persons who have been subjects of electronic surveillance, suspects, subjects and victims of crimes, the report number which allows access to the files noted above; agencies, firms, Department of the Army (DA), and Department of Defense (DOD) organizations which were the subjects of criminal investigations; and disposition and suspense of offenders listed in criminal investigative case files.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 3012(g).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To afford index to criminal information case files that are not indexed in Defense Central Index of Investigations (DCII). These records are utilized to develop investigative leads during the conduct of ongoing Army criminal investigations. This data is released only for US Army Criminal Investigation Division (CID) and Military Police (MP) investigative purposes. Statistics generated by this data are also utilized as a management tool to determine crime trends, frequency and rates. In the event that information maintained in this system of records indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether

arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether Federal, state, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, rule, regulation or order issued pursuant thereto.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Card file and paper records in file folders.

RETRIEVABILITY:

Retrievable by name, file number and the field assigned criminal information report number.

SAFEGUARDS:

HQ USACIDC buildings employ security guards, information is stored in locked containers during non-duty hours and access is limited to authorized personnel. Buildings of subordinate elements of USACIDC generally employ 24 hour duty officers, store the information in locked containers and access is limited to authorized personnel.

RETENTION AND DISPOSAL:

Permanent, 40 years

SYSTEM MANAGER(S) AND ADDRESS:

Commander, U.S. Army Criminal Investigation Command, 5611 Columbia Pike, Falls Church, VA 22041.

NOTIFICATION PROCEDURE:

Information may be obtained from:
Commander
USACIDC
ATTN: CIJA-RI
5611 Columbia Pike
Falls Church, VA 22041

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to : Commander, USACIDC, ATTN: CIJA-RI, 5611 Columbia Pike, Falls Church, VA 22041

Written requests for information should contain the full name, address and date of birth. Personal visits should be made at: Office of the Staff Judge Advocate - Release of Information, USACIDC, 5611 Columbia Pike, Falls Church, VA 22041.

For personal visits, the requesting individuals must present positive identification, such as a driver's license or other identification card with a photograph in addition to the information required in written requests.

CONTESTING RECORD PROCEDURES:

The Army's rules for contesting contents and appealing initial determinations are contained in Army Regulation 340-21.

RECORD SOURCE CATEGORIES:

Suspects, witnesses, victims, informants, USACIDC special agents and other personnel; various Department of Defense, Federal, State and local investigative agencies; department or agencies of foreign governments; and any other individual or organizations which may supply pertinent information.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Parts of this system may be exempt under 5 USC 552 a(j) or (k) as applicable. For additional information, contact the Systems Manager.

A0508.11cUSACIDC

SYSTEM NAME:

508.11c Special Agent Evaluation Files

SYSTEM LOCATION:

Primary System: Operations Directorate, Headquarters (HQ), United States (US) Army Criminal Investigation Command (USACIDC), 5611 Columbia Pike, Falls Church, VA 22041.

Decentralized segments USACIDC subordinate elements which exercise local administrative and technical control of special agents; official mailing addresses are in the Department of Defense directory in the appendix to the Department of the Army systems notice.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All USACIDC Special Agents, Warrant Officer and enlisted, who prepare USACIDC reports of investigation (ROI's).

CATEGORIES OF RECORDS IN THE SYSTEM:

Files contain special agent's name and sequence number; investigative history; e.g., primary or secondary agent, or whether the special agent inherited the case; office of assignment; year of the report of investigation; ROI number; type of ROI; offense codes for the ROI; the number of days the ROI covered; determination of whether or not the number of days the ROI covered was justified; name of the field office reviewer; name of the field office approver; disposition status of the ROI; location of the incident; i.e., on post, off post or combination; determination of case difficulty; determination of the special agent's investigative effort; type of administrative deficiencies, if any; and type of investigative deficiencies, if any.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 3012(g).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Personnel of HQ USACIDC and all USACIDC subordinate elements with an official need-to-know, to accomplish various management functions such as statistical compilations, quality control, and special agent investigative and administative evaluations.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders and computer paper printouts.

RETRIEVABILITY:

Information is retrievable by the name of the individual or other identifier.

SAFEGUARDS:

HQ USACIDC buildings employ security guards, information is stored in locked containers or rooms during non-duty hours and access is limited to authorized personnel. Buildings of subordinate elements of USACIDC generally employ 24 hour duty officers, store the information in locked containers or rooms, and access is limited to authorized personnel.

RETENTION AND DISPOSAL:

Files are retained for an indefinite period, as the disposition policy has not yet been determined.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, US Army Criminal Investigation Command, 5611 Columbia Pike, Falls Church, VA 22041.

NOTIFICATION PROCEDURE:

Information may be obtained from:
Commander
USACIDC
ATTN: Dir Opns
5611 Columbia Pike
Falls Church, VA 22041

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to: Commander, USACIDC, ATTN: Dir, Opns, 5611 Columbia Pike, Falls Church, VA 22041

Written requests for information should contain the full name, address, and date of birth. Personnel visits

should be made to: Director of Operations, USACIDC, 5611 Columbia Pike, Falls Church, VA 22041.

For personal visits, the requesting individuals must present positive identification, such as a driver's license or other identification card with a photograph in addition to the information required in written requests.

CONTESTING RECORD PROCEDURES:

The Army's rules for contesting contents and appealing initial determinations are contained in Army Regulation (AR) 340-21.

RECORD SOURCE CATEGORIES:

The completed ROI, with all attachments and inclosures, and the objective and subjective analysis by the reviewers.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

A0506.16aDAPE

SYSTEM NAME:

Absentee Case Files

SYSTEM LOCATION:

Primary: US Army Deserter Information Point, US Army Enlisted Records and Evaluation Center, Ft Benjamin Harrison, IN 46249.

Manual Backup Records: US Army Deserter Information Point (USADIP), US Army Enlisted Records Center, Ft Benjamin Harrison, IN 46249.

A copy of all or portions of this system is maintained at the installation initiating the report of absence and at respective law enforcement agencies. Official mailing addresses are in the appendix to the Army's inventory of system notices (44 FR 74011, December 17, 1979), except that mailing addresses for law enforcement agencies may be obtained from the US Army Deserter Information Point.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any active Army member absent without proper authority and administratively designated as a deserter in accordance with AR 630-10.

CATEGORIES OF RECORDS IN THE SYSTEM:

Reports and records which document the individual's absence; notice of unauthorized absence from US Army which constitutes the warrant for arrest; notice of return to military control or continued absence in hands of civil authorities.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 U.S.C., Section 3012(g).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information is used by the Department of the Army to enter data in the FBI National Crime Information Center 'wanted person' file; to insure apprehension actions are initiated/terminated promptly and accurately; and to serve management purposes thrnugh examining causes of absenteeism and developing programs to deter unauthorized absences.

Furnished to local, State, Federal, international, or foreign law enforcement authorities in efforts to apprehend, detain, and return offenders to military custody. In overseas areas, information may be disclosed to foreign governmental and civil authorities as required by local customs, law, treaties, and agreements with allied forces and foreign governments.

Information may be disclosed to the Veterans Administration for assistance in determining whereabouts of Army deserters through the Veterans and Beneficiarias Identification and records Locator Subsystem.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper documents and the record copy of the Arrest Warrant are maintained in The Official Military Personnel Files; verified desertion data are stored on the Deserter Verification Information System at the US Army Deserter Information Point.

RETRIEVABILITY:

Manually, by name; automated records are retrieved by name, plus any numeric identifier such as date of birth, Social Security Account Number, or Army serial number.

SAFEGUARDS:

Access is limited to authorized individuals having a need-to-know. Records are stored in facilities manned 24 hours, 7 days a week. Additional controls which meet the administrative, physical, and technical safeguard requirements of Army Regulation 380-380 are in effect.

RETENTION AND DISPOSAL:

Automated records are erased when individual returns to military custody, is discharged, or dies. Paper or microform records remain a permanent part of the individual's Official Military Personnel File.

SYSTEM MANAGER(S) AND ADDRESS:

The Deputy Chief of Staff for Personnel, Headquarters, Department of the Army, Washington, DC 20310.

NOTIFICATION PROCEDURE:

Individuals wishing to know whether or not this system contains information about them should contact the US Army Deserter Information Point, US Army Enlisted Records Center, Ft Benjamin Harrison, IN; furnishing full name, SSAN and/or Army serial number, address, telephone number, and signature.

RECORD ACCESS PROCEDURES:

Individuals seeking access to information concerning themselves should provide information in 'Notification procedure' above.

CONTESTING RECORD PROCEDURES:

The Army's rulf for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340-21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

Unit Commander, First Sergeants; subjects; witnesses; Military Police; US Army Criminal Investigation Command personnel and special agents; informants; DOD Federal, State, and local investigative and law enforcement agencies, departments, or agencies of foreign governments; and any other individuals or organizations which may furnish pertinent information.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

All portions of this system of records which fall within 5 U.S.C. 552a(j)(2) are exempt from the following provisions of Title 5 U.S.C., Section 552a: (c)(3), (c)(4), (d), (e)(2), (e)(3), (e)(4)(G), (e)(4)(H), (e)(8), (f), and (g). (See 32 CFR 505.9 (Army Regulation 340-21)).

A0508.17aDAPE

SYSTEM NAME:

Military Police (MP) Law Enforcement Reporting System

SYSTEM LOCATION:

The Army installation which created the Military Police (MP) report retains a copy; original of special categories of MP investigations - determined by type of crime and identified in Army Regulation 190-45 - is forwarded to the Crime Records Center, Ft. Holabird, MD.

A cross-reference index in either manual or automated media may exist at intermediate and higher command levels.

Statistical data are derived from individual reports and stored in

automated media at major Army commands and HQDA for the purposes of (1) developing crime trends by major categories (i.e., rape and sex, blackmarketing, drugs, crimes of violence, crimes against property, other crimes of misconduct), and (2) making comparative analyses within crime categories by rank, sex, race, and type offender (i.e., first-time, repeat), organizational or geographical determinant. Such statistics, however, are not used to make determinations about the rights, benefits, or entitlements of individuals.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any individual who is the subject, victim, complainant, witness, or suspect in a criminal, civil, or traffic offense.

CATEGORIES OF RECORDS IN THE SYSTEM:

Alleged or founded criminal information directed against or involving the Army which may be related to local criminal investigative files and comprising the following: MP reports or similar reports containing investigative data, supporting or sworn statements, affidavits, provisional passes, receipts for prisoners or detained persons, commanders reports of disciplinary action taken, and disposition of cases. Personal information includes individual's name, grade/rank, organization, affiliation, social security account number, category of offense, involvement, and case number.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 3012(g).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Purpose of this system is to provide detailed information necessary for Army officials, commanders, and civil/criminal justice agencies to discharge their responsibilities for maintaining discipline, law and order through investigation of complaints and incidents and possible criminal prosecution, civil court action, or regulatory order. Statistical information is compiled for determining crime trends and making comparative analyses.

May be disclosed to criminal justice agencies for investigation and prosecution when cases are either within their jurisdiction or when concurrent jurisdiction applies. These include: Federal Bureau of Investigation; Drug Enforcement Administration; US Customs Service; Bureau of Alcohol, Tobacco and Firearms; US District Courts; US Magistrates, State and local law enforcement agencies; local wildlife conservation agencies; and, in overseas areas, host government law enforcement agencies.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders; Microfiche; magnetic tapes and disc; punched cards; and computer printouts.

RETRIEVABILITY:

By case number; individual's name, date of birth, SSN.

SAFEGUARDS:

Distribution controls are specified by Army Regulation 190-45; only authorized personnel have access to information in this System. Physical security measures include locked containers/ storage areas, controlled personnel access, and continuous presence of authorized personnel.

RETENTION AND DISPOSAL:

Information is destroyed after 5 years except for that required by Army Regulation 190-45 to be sent to the Crime Records Center which is retained 40 years following final action.

SYSTEM MANAGER(S) AND ADDRESS:

Deputy Chief of Staff for Personnel, Headquarters, Department of the Army, Washington, DC 20310;

NOTIFICATION PROCEDURE:

Individuals wishing to inquire whether this system contains information about them should write to the commander of the installation where incident occurred; if more than five years have elapsed since occurrence of incident, inquiry may be made of the Crime Records Center, Ft Holabird, MD. Individual should provide full name, SSN, and details as to date and place of incident about which inquiry is made.

RECORD ACCESS PROCEDURES:

Individual desiring access to his/her records should follow the requirements in 'Notification procedures', sign the request and have it notarized.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340-21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

From the individual; witnesses; victims; subjects; Military Police; US Army Criminal Investigation Command special agents; informants; investigative and law enforcement persons of Federal, state, local and foreign government agencies; any source which may supply pertinent information.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

All portions of this system which fall within 5 U.S.C. 552a(j)(2) are exempted from the following provisions of Title 5 U.S.C. 552a: (c)(3), (c)(4), (d), (e)(2), (e)(3), (e)(4)(G), (e)(4)(H), (e)(8), (f) and (g).

A0508.17bUSARJ

SYSTEM NAME:

508.17 Blackmarket Monitoring Files

SYSTEM LOCATION:

Office of Provost Marshal, United States Army Garrison, Honshu, Japan

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Members of the US Armed Forces civilian employees, and their dependents, who are assigned to, or under the judicial or administrative control of the United States Army Japan (USARJ), including contractors and their employees who make purchases of controlled items from authorized resale activities on mainland Japan.

CATEGORIES OF RECORDS IN THE SYSTEM:

Sales slips and control sheets used in sales of controlled items by US Forces, Japan sales outlets; overspending/overpurchase printout, produced monthly and forwarded from central computer facility.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Status of Forces Agreement between the United States of America and Japan; Title 10 U.S.C., Section 3012.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Records are used to assist Military Police, United States Army Criminal Investigation Command, Unites States Air Force Office of Special Investigations, and the Navy Investigative Service in monitoring purchases of controlled items; also to reflect those individuals who have had shopping privileges revoked or suspended and to comply with USARJ and Joint Services blackmarket control policies.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in individual envelopes. Paper printouts are stored by run type and number.

RETRIEVABILITY:

Paper records filed alphabetically by last name. Printouts filed by social security number (SSN), name, unit or station.

SAFEGUARDS:

Records are maintained in room accessible only to authorized personnel who are properly screened and cleared.

RETENTION AND DISPOSAL:

Records are maintained in the active file until departure of the sponsor on permanent change of station. The records are then placed in the inactive file. The inactive file is cut off at the end of the calendar year, held 2 years in the current files area and then destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, United States Army Japan, APO San Francisco 96343.

NOTIFICATION PROCEDURE:

Information may be obtained from: United States Army Garrison, Honshu, Office of the Provost Marshal, Camp Zama, APO San Francisco 96343

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to: Commander, United States Army Garrison, Honshu, ATTN: GARH-MP-PM, APO San Francisco 96343.

Written requests for information should contain the full name of the individual, SSN, and current address.

For personal visits, the individual should be able to provide acceptable identification such as valid driver's license or employee identification card.

CONTESTING RECORD PROCEDURES:

The Army's rules for contesting contents and appealing initial determinations may be obtained from the SYSMANAGER.

RECORD SOURCE CATEGORIES:

Sales slips and control sheets from exchanges, clubs, commissaries, and other authorized resale activities.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

A0508.17cUSARJ

SYSTEM NAME:

508.17 Transfer of POV Files

SYSTEM LOCATION:

Office of Provost Marshal, United States Army Garrison, Honshu, Japan.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Members of the US Armed Forces and members of the civilian component and their dependents, as defined in Articles I and XIV of the Status of Forces Agreement.

CATEGORIES OF RECORDS IN THE SYSTEM:

Cards and documents pertaining to acquisition, disposition and transfer of ownership of privately owned vehicles (POV) between the United States of America and Japan.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 5 U.S.C., Section 301.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To maintain record and control on purchase and disposal limitations, transfer of POV to other authorized United States personnel, and transfer to residents of Japan.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Visible file cards.

RETRIEVABILITY:

Filed alphabetically by last name.

SAFEGUARDS:

Records are maintained in room accessible only to authorized personnel that are properly screened and cleared.

RETENTION AND DISPOSAL:

Records are cut off at the end of a calendar year, held 2 years in the current files area, and then destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, US Army Japan, APO San Francisco 96343.

NOTIFICATION PROCEDURE:

Information may be obtained from:
United States Army Garrison (PA-PM)
Room 8, Bldg 400
Camp Zama, Japan
APO San Francisco 96343
Telephone: AUTOVON 315/233-3011/ 233-3732

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to: Commander, United States Army Garrison, Honshu, ATTN: PA-PM, APO San Francisco 96343.

Written requests for information should contain the full name of the individual, current address, and telephone number.

For personal visits, the individual should be able to provide acceptable identification, e.g., driver's license, employing office's identification, and give verbal information that could be verified with their case folder.

CONTESTING RECORD PROCEDURES:

The Army's rules for contesting contents and appealing initial determinations may be obtained from the SYSMANAGER.

RECORD SOURCE CATEGORIES:

Department of Defense Form 430, Military Registration and Certificate of Title of Motor Vehicle.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

A0508.24aDAPE

SYSTEM NAME:

508.24 Serious Incident Reporting Files

SYSTEM LOCATION:

Primary System: Law Enforcement Division, Human Resources Development Directorate, Office of the Deputy Chief of Staff for Personnel, Department of the Army, (DAPE-HRE).

Decentralized Copies: Copies are maintained at the installation initiating the report and at the respective major Army command. Official mailing addresses are in the Department of Defense directory in the Appendix.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any citizen identified as the subject or victim of a serious incident reportable to Department of the Army (DA) in accordance with Army Regulation 190-40, Military Police Serious Incident Report. This includes in general any criminal act or other incident which because of its sensitivity or nature, publicity or other considerations should be brought to the attention of Headquarters, DA (HQDA).

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains the initial report of the incident plus any supplemental reports including reports of final adjudication.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 3012(g).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To provide the chain of command with timely information regarding serious incidents to permit a valid early determination of possible implication; to provide an early indication of acts or conditions which may have widespread adverse publicity; to provide a means of analysis of crime and conditions conducive to crime on which to base crime prevention policies and programs; and to meet the general needs of DA staff agencies for information regarding selected incidents which impact on their respective areas of responsibility.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders.

RETRIEVABILITY:

Filed numerically by installation report sequence number.

SAFEGUARDS:

Building employs security guards and controls access. Distribution and access to files based on strict need to know. Files contained in locked safes when not under personal supervision of authorized personnel.

RETENTION AND DISPOSAL:

Destroyed 1 year after receipt of final report.

SYSTEM MANAGER(S) AND ADDRESS:

Deputy Chief of Staff for Personnel, HQDA, The Pentagon, Washington, DC 20310.

NOTIFICATION PROCEDURE:

See EXEMPTION

RECORD ACCESS PROCEDURES:

See EXEMPTION

CONTESTING RECORD PROCEDURES:

See EXEMPTION

RECORD SOURCE CATEGORIES:

Subjects, witnesses, victims, Military Police and US Army Criminal Investigation Command personnel and special agents, informants, various Department of Defense, Federal, State and local investigative and law enforcement agencies, departments or agencies of foreign governments, and any other individuals or organizations which may supply pertinent information.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Parts of this system may be exempt under 55 USC 552a or (k), as applicable. For additonal information contact the Systems Manager.

A0508.25aUSACIDC

SYSTEM NAME:

508.25a Index to Criminal Investigative Case Files

SYSTEM LOCATION:

Criminal Records Directorate, United States (US) Army Criminal Investigation Command (USACIDC), 2301 Chesapeake Avenue, Baltimore, MD 21222.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any individual, civilian or military, involved or suspected of being involved in criminal activity affecting the US Army's interests, property, and/or personnel.

CATEGORIES OF RECORDS IN THE SYSTEM:

Indices contain codes for type of crime and location of investigation, year, date of crime, names and personnel identifiers of offenders and victims of crime and report number.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 3012(g)

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To afford index to Criminal Investigation Case Files and Military Police (MP) Reporting Files that are not indexed by any other activity. These records are utilized to develop investigative leads during the conduct of ongoing Army criminal investigations. These data are released only for US Army CID and MP investigative purposes. Statistics generated by these data are also utilized as a management tool to determine crime trends, frequency and rates. In the event that information maintained in this system of records indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether Federal, state, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, rule, regulation, or order issued pursuant thereto.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper card size 3x5 and computer punch cards.

RETRIEVABILITY:

By name of offender, suspect or victim.

SAFEGUARDS:

Contained in a secure area; protected by a locked wire inclosure under 24 hour guard. Access to the files area is controlled through a photograph/badge ID System. No visitors are authorized access to the area, except under escort; files do not afford 'For Official Use Only' protection and release of information data is recorded on a permanent log.

RETENTION AND DISPOSAL:

Permanent; 40 years.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, USACIDC, Crime Records Directorate, 5611 Columbia Pike, Falls Church, VA 22041.

NOTIFICATION PROCEDURE:

Information may be obtained from:
Commander
USACIDC
ATTN: CIJA-RI
5611 Columbia Pike
Falls Church, VA 22041

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to: Commander, USACIDC, ATTN: CIJA-RI, 5611 Columbia Pike, Falls Church, VA 22041.

Written requests for information should contain the full name, address, and date of birth. Personal visits should be made at: Office of the Staff Judge Advocate - Release of Information, USACIDC, 5611 Columbia Pike, Falls Church, VA 22041.

For personal visits, the requesting individuals must present positive identification, such as a driver's license or other identification card with a photograph in addition to the information required in written request.

CONTESTING RECORD PROCEDURES:

The Army's rules for contesting contents and appealing initial determinations are contained in Army Regulation 340-21.

RECORD SOURCE CATEGORIES:

Suspects, victims, USACIDC special agents and other personnel, informants; various Department of Defense, Federal,

State, and local investigative agencies; departments or agencies of foreign governments; and any other individual or organization which may supply pertinent information.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Parts of this system may be exempt under 5 USC 552a(j) or (k) as applicable. For additional information, contact the System Manager.

A0509.02aDAAG

SYSTEM NAME:

509.02 Security Badge/Identification Card Files

SYSTEM LOCATION:

Offices which issue security badges and identification cards authorized by Army Regulation (AR) 606-5 and AR 190-21, located at Headquarters, Department of the Army; staff and field operating agencies; states' adjutant general; and installations/activities. Official mailing addresses are in the organizational Directory of Department of the Army Offices, Commands, Agencies, and Installations/ Activities.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Active duty, reserve, and retired military personnel and authorized dependents; Department of the Army (DA) civilians and authorized dependents; Medal of Honor recipients; visitors authorized for official purposes, e.g., vendors, deliverymen, utility and special equipment servicemen; accident investigators; contractor personnel and their authorized dependents; Red Cross personnel; and persons authorized by the Geneva Convention to accompany the Armed Forces.

CATEGORIES OF RECORDS IN THE SYSTEM:

Individual's application on appropriate DA and Department of Defense (DD) forms specified by AR 606-5 (the original of which may be filed in the individual's personnel file) for identification and/or building security pass/badge issuance; individual's photograph, fingerprint record, special credentials, and allied papers; registers/ logs reflecting sequential numbering of badges/cards.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 5 U.S.C., Section 301; Title 10 U.S.C., Section 3012(g).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To provide a record of security badges and identification cards issued; to restrict entry into installations/ activities; and to insure positive identification of personnel authorized access to restricted areas. Registers/logs maintain accountability for issuance and disposition of badges and identification cards.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records on cards and in file folders; magnetic tapes, disks, and cassettes; computer printouts and microfiche.

RETRIEVABILITY:

By individual's name, social security number, card/badge number.

SAFEGUARDS:

Data are maintained in secure buildings and are accessed only by authorized personnel who are trained and cleared for access. Information in computer facilities is further protected by alarms and established procedures for the control of computer access.

RETENTION AND DISPOSAL:

Applications for military identification cards are maintained by the issuing office for 1 year. Applications for civilian identification cards are retained 4 years after which they are destroyed. Registers/ logs are destroyed 3 years after last badge has been accounted for.

Limited area credentials will be replaced at the expiration of 3 years or whenever a total of 5 percent of the total have been lost or unaccounted for, whichever occurs earlier; exclusion area credentials will be replaced at least once every 3 years; controlled area credentials will be replaced at the discretion of the major command.

SYSTEM MANAGER(S) AND ADDRESS:

The Adjutant General, Headquarters, Department of the Army (DAAG-PSI), Washington, DC 20314.

NOTIFICATION PROCEDURE:

Information may be obtained from the issuing office where the individual obtained the identification card.

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to: Major Command or installation headquarters issuing the security badge or identification card.

Written requests for information should contain the full name of the individual and the number of the identification card, if known.

For personal visits, the individual should be able to provide acceptable identification, e.g., driver's license and verbal information that can be verified.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in AR 340-21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

Application, on appropriate DA form, from individual.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

A0509.03aDAPE

SYSTEM NAME:

509.03 Trophy Firearm Registration

SYSTEM LOCATION:

Primary System: Headquarters, Department of the Army, (DAPE-HRE-CP), Washington, DC 20310.

Decentralized copies of War Trophy Firearm (WTF) Registration records are maintained at the offices of provost marshals initiating the record. Official mailing addresses are in the Department of Defense directory in the Appendix.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Members of the Armed Forces of the US who acquire, during periods of hostilities, firearms approved for personal retention as war trophies.

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains record copies of DD Form 603, Registration of War Trophy Firearm acquired by military personnel in combat areas or zones during periods of hostilities.

AUTHORITY FOR MAINTENENCE OF THE SYSTEM:

10 U.S.C. 3012(g).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Review to assure acquisition is authorized as a war trophy firearm within the meaning of the National Firearms Act and Title 18 U.S.C., Section 102.

Verify importation authorization.

Establish ownership if weapon is identified in commission of a crime. Furnish information to criminal justice elements within Department of Defense and outside the agency for investigation and prosecution for violations of the National Firearms Act or the agency for investigation and prosecution for violations of the National Firearms Act

or investigation and prosecution of criminal activities involving a weapon imported as a war trophy firearm. These agencies include: Federal Bureau of Investigation; Drug Enforcement Administration; US Customs Service; Bureau of Alcohol, Tobacco and Firearms; US District Courts; US Magistrates; local law enforcement agencies; local criminal justice agencies; and, in oversea areas, most government law enforcement agencies as prescribed in status of forces agreements.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file cabinets.

RETRIEVABILITY:

Filed alphabetically by last name of owner.

SAFEGUARDS:

Building employs security guards. Records accessible only to authorized personnel.

RETENTION AND DISPOSAL:

Records are created at the onset of hostilities and retained in Headquarters, Department of Army files until end of calendar year in which hostilities ceased and held 1 additional year or until arrangements are complete to transfer the records to Director, Bureau of Alcohol, Tobacco and Firearms, Department of Treasury, Washington, DC 20226.

SYSTEM MANAGER(S) AND ADDRESS:

Deputy Chief of Staff for Personnel, Headquarters, Department of the Army, the Pentagon, Washington, DC 20310.

NOTIFICATION PROCEDURE:

Inquiries may be addressed to:
Official mailing address of SYSMANAGER listed above.

RECORD ACCESS PROCEDURES:

Official mailing address of SYSMANAGER is listed above.
Written requests should contain full name, social security number, date and location acquired, and current address.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation (AR) 340-21.

RECORD SOURCE CATEGORIES:

All information is obtained from the individual at time of registration.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

A0509.04aDAAG

SYSTEM NAME:

509.04 Rod and Gun Clubs, Posts, Camps and Stations

SYSTEM LOCATION:

Rod and Gun Clubs located on Army posts, camps, and stations.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Active duty and retired military personnel and Department of Defense civilians who are active registered members of Rod and Gun Clubs.

CATEGORIES OF RECORDS IN THE SYSTEM:

Federal Firearms Form 4473 from the Department of the Treasury, Alcohol, Tobacco and Firearms Division, and related papers.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 3012.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To maintain a permanent record of firearm registration for tracing weapons to owner. This file is made available to the Department of the Treasury upon written request.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Book form and file folder.

RETRIEVABILITY:

Date and alphabetically by name.

SAFEGUARDS:

Records are maintained in locked containers with access limited to authorized personnel only.

RETENTION AND DISPOSAL:

Disposal not authorized.

SYSTEM MANAGER(S) AND ADDRESS:

Commander of the installation where the Rod and Gun Club is established. Official mailing addresses are in the organizational directory in the appendix to these system notices.

NOTIFICATION PROCEDURE:

Information may be obtained from the SYSMANAGER.

RECORD ACCESS PROCEDURES:

Individual should contact the Manager of the Rod and Gun Club where the firearm was purchased.

CONTESTING RECORD PROCEDURES:

The Army's rules for contesting contents and appealing initial determinations are contained in Army Regulation (AR) 340-21.

RECORD SOURCE CATEGORIES:

Information is obtained from the individual being registered.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

SYSTEM NAME:

509.05 Camper Trailer Registration Card File

SYSTEM LOCATION:

Office of the Director of Personnel and Community Activities (DPCA), ATZA-PA

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Applies to active duty and retired military personnel in the Ft Belvoir Area.

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains individual's application for access to camper trailer storage area.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 3012.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To maintain record of personnel given authorization to park recreational vehicles in the storage area. Requested information will be used only by the personnel of the Office, DPCA for reregistration, emergency notification, administrative control of storage area and identification of recreational vehicle ownership.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Card File

RETRIEVABILITY:

Alphabetically by last name.

SAFEGUARDS:

Building access controlled by personnel of the office DPCA.

RETENTION AND DISPOSAL:

Records are maintained in active file until the registrant has cancelled his registration. After cancellation of registration, the card is destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Administrative Division, Office of the DPCA, Headquarters, US Army Engineer Center and Ft Belvoir, Ft Belvoir, VA 22060.

NOTIFICATION PROCEDURE:

Information may be obtained from Administrative Division, Office of the DPCA. Requesting individual will be required.to identify himself by name, rank, duty status, home address.

RECORD ACCESS PROCEDURES:

Requests from individuals are accepted by personal interview, written correspondence or telephonic inquiries to SYSMANAGER.

CONTESTING RECORD PROCEDURES:

The Army's rules for contesting contents and appealing initial determinations are contained in Army Regulation (AR) 340-21.

RECORD SOURCE CATEGORIES:

Individual being registered.

A0509.08aDAPE

SYSTEM NAME:

509.08a Registration and Permit Files

SYSTEM LOCATION:

Maintained at the installation level. Official mailing addresses are in the Department of Defense directory in the Appendix.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any citizen registering restricted items of property on a military installation or desiring to engage in restricted activities on a military installation. Items/activities include but are not limited to privately owned firearms/weapons, pets and hunting and fishing.

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains the registration form for items of restricted property and the permit application for restricted activities.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 3012(g).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Files contain information acquired to assist the commander in carrying out effective law enforcement, troop safety, and crime prevention programs. Routine users within the agency include: commanders in exercising their authority under the provisions of chapter 47, Title 10, US Code, 'Uniform Code of Military Justice'; persons designated by the commander to assist him in carrying out his judicial and administrative responsibilities; United States (US) Army Criminal Investigation Command (USACIDC); and law enforcement personnel of other Armed services when personnel of these services are involved. Information is furnished to criminal justice elements outside the agency for investigation and prosecution purposes when such cases fall within their jurisdiction or concurrent jurisdiction is applicable. These include: Federal Bureau of Investigation; US Customs Services; Bureau of Alcohol, Tobacco and Firearms; US District Courts; US Magistrates; state and local law enforcement, 'wildlife conservation' and public health agencies; and in oversea areas, host government law enforcement agencies.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders.

RETRIEVABILITY:

Filed alphabetically by name.

SAFEGUARDS:

Only authorized personnel have access to files. Physical security measures include locked containers/storage areas, controlled personnel access, and continuous presence of authorized personnel.

RETENTION AND DISPOSAL:

Destroyed upon removal of the restricted property from the military installation or upon expiration of the permit.

SYSTEM MANAGER(S) AND ADDRESS:

Deputy Chief of Staff for Personnel, Headquarters, Department of the Army, Washington, DC 20310

NOTIFICATION PROCEDURE:

See EXEMPTION

RECORD ACCESS PROCEDURES:

RECORD SOURCE CATEGORIES:

Army citizen desiring/required to register firearms/weapons, pets, etc., that will be maintained within or desiring to hunt/fish within the confines of an installation.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Parts of this system may be exempt under 5 USC 552a (j) or (k), as applicable. For additional information, contact the System Manager.

A0509.09aDAPE

SYSTEM NAME:

509.09 Traffic Law Enforcement Files

SYSTEM LOCATION:

Files are maintained at the installation producing the files. Official mailing addresses are in the Department of Defense (DOD) directory in the Appendix.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any citizen who, at a military installation, registers a privately owned motor vehicle; is subject of a traffic violation/summons; is a subject, victim, complainant or witness to a traffic accident; or has registered to participate in the installation car pool system or has a parking permit issued.

CATEGORIES OF RECORDS IN THE SYSTEM:

Files contain: Documents used to register privately owned motor vehicles and to record moving traffic violations and chargeable accidents of individual drivers; accident reports; traffic violation reports, notices and summons; and documents relating to issuance of car pool or individual parking permits. File may be automated as a part of the Vehicle Registration System (VRS) which is a part of the Military Police Management Information System (MPMIS). The registration information may be coded for entry on the master file, normally updated weekly when a part of MPMIS VRS. The master file is management manipulated to produce the following reports: listing of all registrants and their vehicles on an as required basis by decal number, state license number or name; as required, rosters by unit and decal number showing registrants with safety inspections due and those requiring annual verification of DA Form 3626; monthly rosters of registrants with suspended or revoked driving privileges.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 3012(g).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Vehicle registration information is collected to assist the commander in carrying out effective law enforcement, traffic safety, and crime prevention programs. Vehicle registration facilitates Department of Army (DA) compliance with Highway Safety Program Standards (Title 23 U.S.C., Section 402) that have been made applicable to federally administered areas. Information is released only to authorized law enforcement agencies upon request. To assist in identification and apprehension of individuals who commit traffic and criminal offenses. Car pool registrations are utilized to assist person(s) desiring to participate in the program, to be identified with other persons within the same residential geographical area to create or join existing car pools. Car pools parking permits are issued and are a means of identifying those vehicles authorized to park in Car Pool Only parking spaces. Information is released only to any law enforcement agency upon request. Traffic violation reports, notices, and summonses are: basis for disciplinary action by commander in accordance with Chapter 47, Title 10, U.S.C., 'Uniform Code of Military Justice'; referred to US Magistrates and US District Courts in accordance with Title 18, U.S.C., Section 13, 'Assimilated Crimes'; and referred to DOD agencies and host State Motor Vehicle Departments for appropriate driver improvement measures including suspension/revocation of driving privilege, remedial driver training, counseling, or rehabilitation/treatment. Accident reports, which include violation data described above, are used to identify factors contributing to the causes of accidents, injuries, and deaths as a means for initiating appropriate measures (engineer, enforcement, educational) to reduce the frequency/severity of accidents occurring on military installations. Accident reports are routinely distributed to commanders, safety directors, facility engineers, and staff judge advocates. Disclosure outside the agency is only made upon request. VRS is used to insure registrants attest to meeting certain insurance standards; to preclude individuals who have suspended or revoked installation driving privileges from operating motor vehicles or who have vehicles that fail to meet vehicle inspection standards; to assist in rapid identification and apprehension of traffic violators; to provide management data on which to base crime prevention, selective enforcement and improved driving safety.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders and card files.

Portions of VRS and index cards may be automated using paper tape, disk, magnetic tape or card.

RETRIEVABILITY:

Vehicle registrations are filed alphabetically by name and/or by any category of information contained therein; traffic violations are filed alphabetically by name; and accident reports are filed by location of accident. A cross-reference index is maintained.

SAFEGUARDS:

Distribution controls are outlined in Army Regulation (AR) 190-45, and only authorized personnel have access to files. Physical security measures include locked containers/storage areas, controlled access, and continuous presence of authorized personnel.

RETENTION AND DISPOSAL:

Destroyed after two years or discontinuance, unless transferred with individual upon reassignment.

SYSTEM MANAGER(S) AND ADDRESS:

Deputy Chief of Staff for Personnel, Headquarters, Department of the Army, Washington, DC 20310, and installation commanders producing the records.

NOTIFICATION PROCEDURE:

Information may be obtained from the command/installation/ activity office of record.

RECORD ACCESS PROCEDURES:

Requests for access should be addressed to the command/installation/activity at which the record is located. Written requests should contain the full name of individual, current address, social security number and specificity as to the information sought.

CONTESTING RECORD PROCEDURES:

The Army's rules for contesting contents and appealing initial determinations are contained in AR 340-21.

RECORD SOURCE CATEGORIES:

Subjects, witnesses, victims, persons desiring to participate in the car pool system, Military Police personnel and special agents, Federal, state and local investigative and law enforcement agencies, departments or agencies of foreign governments and other individuals or organizations which may supply pertinent information.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Parts of this system may be exempt under Title 5 U.S.C., 552a (j) or (k) as applicable. For additional information, contact the SYSMANAGER.

A0509.18aDAAG

SYSTEM NAME:

509.18 Solicitation Ban List Files.

SYSTEM LOCATION:

Field Policy Division, Administrative Management Directorate, The Adjutant General Center.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any individual whose on base solicitation privileges have been withdrawn by the Department of the Army or the Department of the Navy.

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains individual's name and the name of the company he represented.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 3012.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Major Army commands, OASD (M&RA), Dept of the Navy and Dept of the Air Force. To deny solicitation privileges to individuals who have been banned from military installations.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folder.

RETRIEVABILITY:

Alphabetical list.

SAFEGUARDS:

Records are maintained in area accessible only to authorized personnel.

RETENTION AND DISPOSAL:

Retained in active file until new list is published and then destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

The Adjutant General, Headquarters Department of the Army, The Pentagon, Washington, DC

A0509.19bUSAREUR

SYSTEM NAME:

509.19 US Army, Europe (USAREUR) Motor Vehicle Registry Files

SYSTEM LOCATION:

Primary System-USAREUR Motor Vehicle Registry, Army Post Office (APO) NY 09102, Heidelberg, Federal Republic of Germany (FRG).

Decentralized Segments: Temporary Registration Stations, Customer Service Centers Driver Testing Stations, Privately Owned Vehicle (POV) Inspection Stations, and Rod and Gun Clubs. Official mailing addresses are available upon request from the USAREUR Motor Vehicle Registry.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any individual who has requested a service (this includes the sponsor when a dependent requests the service) from the USAREUR Motor Vehicle Registry, e.g., the registration of a POV or a privately owned firearm (POF), or the issuance of a POV operator's license, or any other service performed for individuals.

Any individual who has been reported to have committed an offense which could have resulted in adverse action against their USAREUR POV driving privilege or their declaration of ineligibility therefore in accordance with existing directives.

Any individual who has acquired, legally or illegally, custody or ownership of a POV or POF which was or should have been registered with the USAREUR Motor Vehicle Registry in accordance with existing directives.

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains information derived from individual applications to register POV and POF, applications for USAREUR POV operators license, applications for other services provided by the USAREUR Motor Vehicle Registry, and correspondence related thereto; applications include information with respect to the individual (i.e., name, rank, SSN, unit/organization, duty phone, date of birth, place of birth, marital status, accompanied or unaccompanied, whether glasses worn, and driving record), with respect to the vehicle (i.e., make, model, body type, year, color, chassis number, horsepower, insurer, policy number, effective date, lien holder and amount, origin of vehicle, disposition of vehicle, name of buyer), and with respect to a firearm (i.e., manufacturer, type, caliber, serial number, class of registration, origin, disposition, and name of buyer); information derived from reports issued by US military or host country authorities which, in accordance with existing directives, concern an offense or circumstances for which action against the USAREUR POV or POF registration or the USAREUR POV driving privilege may be or has been taken; and information concerning the transfer of ownership of POV or POF which have been or should have been registered with the USAREUR Motor Vehicle Registry in accordance with existing directives.

Manual backup is maintained of: (1) POV registration applications, supporting and related documents and correspondence - filed by registration number; (2) POV operator license applications and related documents and correspondence-filed partially by operator license number and partially alphabetically by last name of individual; and (3) POF applications-filed alphabetically by last name of individual.

The file also consists of certain manually-maintained records which are comprised of correspondence between the USAREUR Motor Vehicle Registry and individuals, groups, agencies, activities or other collective bodies - these are filed chronologically by category.

Manual records are also maintained for access to USAREUR Motor Vehicle Registry files and related processing papers.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 3012; Secretary of the Army: powers and duties; delegation by.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Purpose of the files are to (1) establish prima facie ownership of POV or POF (2) determine registration status of POV and POF, insurance and lien status of POV, and licensed status of POV operators; and (3) record driving history of vehicle operators.

Offices within the USAREUR Motor Vehicle Registry use the information: (1) to evaluate and process applications for registration of POV and POF and applications for issuance of USAREUR POV operators license; (2) for locator purposes; (3) to insure compliance with existing regulations pertinent to the registration of POV and POF; (4) to take or recommend action against individuals whose driving history reflects adversely against their driving ability or performance or when conditions occur which require that action be taken to comply with existing regulations or host country laws; (5) to notify commanders, supervisors, or other responsible agencies when a violation of existing regulations has occurred; (6) to respond to requests for identification, registration, insurance and lien data concerning POV, POF and their owners, and licensed status of POV operators received from authorities of US Forces, from government agencies of Germany and other foreign countries, or from verifying authorities, attorneys, lien holders, prospective lien holders, prospective POV purchasers, or insurance companies; (7) to enable fulfillment of requests received from individuals for miscellaneous services performed by the USAREUR Motor Vehicle Registry within the scope of the registry function.

Commanders and supervisors use information provided to detect, investigate and evaluate alleged or suspected offenses, and when appropriate, to support administrative or disciplinary action against offenders, and to assist personnel with problems.

Authorities of the US Forces and other governments use information provided for law enforcement and investigative purposes, to support requests for services from US Forces personnel, to

establish insured status of POV and POV operators, to aid in establishing identification of an individual, and to comply with requirements imposed by, or to claim rights conferred in, international agreements and arrangements regulating the stationing and status in foreign countries of DOD military and civilian personnel.

Attorneys use information to aid them in civil and criminal proceedings on behalf of a client.

Lien holders use information provided to assist in determining compliance with terms of contracts and agreements.

Insurance companies use information provided to validate compliance with terms of contracts, to terminate contracts for cause (cancel insurance); and to determine insured status of POV and POV operators, or to identify a POV owner, on behalf of a client.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Computer disks, computer magnetic tapes, computer paper printouts, computer punch cards, paper records in file folders, application forms and supporting documents and related correspondence in file trays and cabinets, and microfiche.

RETRIEVABILITY:

Indexed by computer alphabetically by last name, social security number, POV chassis number, POF serial number, POV operator's license number, POV registration number, and by MP or CID report number.

Manual backup records are filed by POV registration number, by POV operator's license number (however some operator's licenses will be filed alphabetically by last name until 1980), and by last name of POF registrants.

SAFEGUARDS:

Building has employees who make periodic and scheduled security checks. Records are maintained in areas accessible only to authorized personnel who are screened, cleared and trained. Computer programs have safety checks, validation code systems, and editing procedures.

RETENTION AND DISPOSAL:

POV Registration Files: Automated files are cleared and manual files are destroyed three years after the end of the year in which final disposition of the license plates occurred (e.g., plates destroyed, cancelled or replaced or POV shipped outside of FRG).

POF Registration Files: Automated files are cleared and manual files are destroyed five years after the end of the year in which registration expired or was cancelled.

POV Operator License Files: Manual files are destroyed at the end of the year in which expiration occurred, and computer is cleared three years after the end of the year in which expiration occurred, except that both files may be transferred to Driving History Files when the license has been revoked or suspended or the individual has been declared ineligible to receive a license.

Driving History Files: (1) Records reflecting chargeable nonfatal traffic accidents/moving violations: automated files are cleared and manual files destroyed 3 years after the end of the year in which the accident/violation occurred; (2) Records reflecting nonmandatory suspensions or revocations; automated files are cleared and manual files are destroyed 5 years after the end of the year in which the suspension or revocation was imposed: (3) Records reflecting mandatory revocations or declarations of ineligibility to receive a license; automated files are cleared and manual files are destroyed 7 years after the end of the year in which revocation or declaration of ineligibility occurred.

Manual files concerning requests for services are destroyed two years after the end of the year of accumulation.

Manual files relative to applications for access to USAREUR Motor Vehicle Registry files are destroyed 5 years after the end of the year of accumulation.

SYSTEM MANAGER(S) AND ADDRESS:

Commander in Chief, US Army, Europe and Seventh Army, APO NY 09403.

NOTIFICATION PROCEDURE:

Requests from individuals should be addressed to the Registrar, USAREUR Motor Vehicle Registry, APO New York 09102

To determine whether or not the system contains a record about himself, the requesting individual must provide his full name and either (1) social security number (SSN)--disclosure of SSN is voluntary and an individual will not be denied his right under the Privacy Act to access to a record pertaining to him solely for failure or refusal to supply his SSN, or (2) other precise information which can enable unique identification of him as a particular individual from among others with identical or similar names, e.g., date of birth, operator's license number(s), POV or POF registration numbers, chassis number of POV or serial number of POF.

A person requesting information on whether or not the system contains records pertaining to him may visit the Office of the Registrar, USAREUR Motor Vehicle Registry, APO New York 09102.

For Personal visits, the requester must provide an identification document issued by a US Federal agency (military ID card, Department of State ID card, US Passport, etc.) and verbal information that can be verified with his case folder(s).

RECORD ACCESS PROCEDURES:

An individual may contact the Registrar, USAREUR Motor Vehicle Registry, APO New York 09102, to obtain procedures whereby he can be notified how to gain access to any record pertaining to himself in the system of records.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation (AR) 340-21.

RECORD SOURCE CATEGORIES:

Applications and supporting documentation, and correspondence related thereto, received from individuals for registration of POF or POV, for issue of POV operator's license, and for other services provided by the USAREUR Motor Vehicle Registry.

Communications from insurance companies relative to POV insurance and registration data.

Reports from US military or host country authorities.

Communications from Temporary Registration Stations and Customer Service Centers, Driving Testing Stations, POV Inspection Stations and Rod and Gun Clubs.

Applications and related documentation from individuals requesting access to USAREUR Motor Vehicle Registry files.

A0509.19cDAAG

SYSTEM NAME:

509.19 Vehicle Registration File

SYSTEM LOCATION:

Washington National Records Center, General Services Administration, Suitland, MD 20409.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any US Government Personnel who resided in Thailand and who was required to register vehicles under USMACTHAI Regulation 1-13.

CATEGORIES OF RECORDS IN THE SYSTEM:

The file contains information related to importing, local purchase, and vehicle registration with the Royal Thai Government.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 3012.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Records are used only to answer inquiries.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Vehicle Registration File is a card file. Privately Owned Vehicle(s) (POV) records are in file folders. Files of the various categories of POV are on computer printouts.

RETRIEVABILITY:

All records are filed alphabetically. In addition, the files on the categories of POV are also retrieved by license plate number.

SAFEGUARDS:

Building employs security guards. Records are maintained in storage areas accessible only to authorized personnel.

RETENTION AND DISPOSAL:

Normal disposition procedures were preempted by imposition of a Department of Defense moratorium. At the present time, these records will be retained indefinitely.

SYSTEM MANAGER(S) AND ADDRESS:

The Adjutant General, Headquarters, Department of the Army, Washington, DC 20314.

NOTIFICATION PROCEDURE:

Information may be obtained from HQDA (DAAG-AMR-S), Room GA-060, Forrestal Building, Washington, DC 20314; telphone: Area Code 202/693-1845.

RECORD ACCESS PROCEDURES:

Requests should be submitted to The Adjutant General, HQDA (DAAG-AMR-S), Washington, DC 20314. Requesters should furnish their full name and any information that would readily identify the record sought. Personal visits are not permitted.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340-21(32 CFR Part 505).

RECORD SOURCE CATEGORIES:

Information is obtained from individuals and messages.

A0509.20aDAAG

SYSTEM NAME:

509.20 Ration Control/Commissary/ Cosmetic Purchase File

SYSTEM LOCATION:

Washington National Records Center, General Services Administration, Suitland, MD 20409.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who made purchases in Thailand Regional Exhcange (TRE) facilities.

CATEGORIES OF RECORDS IN THE SYSTEM:

Major Item Ration Control Printout: The master file was used to produce listing on an 'as required' basis of all major TRE purchases made by an individual.

Commissary Printout: Used to produce a listing of individuals who overspent their monthly dollar amount in the commissary.

PX, Commissary, Class VI Questionnaire File: Used to issue ration control cards on a semiannual basis; record all requests for supplemental purchases, items under control of the MACT Form 120, and major household applicance purchases.

PACEX Catalog Purchase File: Used to produce a listing of all items purchased by an individual from PACEX on an 'as required' basis.

Ration Control Registers: Used for control of MACT Forms 36S, 36D, 36U, 81 and 57.

Duty-Free Inspection File: Used to provide information on proper disposition of duty-free merchandise.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 3012.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Records are used only to answer inquiries.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are in file folders and on computer printouts in file cabinets within a Government secured building.

RETRIEVABILITY:

Information on the printouts is retrived by social secuirty number (SSN), and by Ration Control Unit Number. Information on PX, Commissary, Class VI file is retrived by name and unit. Information on Duty-Free Inspection File is retrived by name.

SAFEGUARDS:

Building employs security guards. Records are maintained in storage areas accessible only to authorized personnel.

RETENTION AND DISPOSAL:

Normal disposition procedures were preempted by imposition of a Department of Defense moratorium. At the present time, these records will be retained indefinitely.

SYSTEM MANAGER(S) AND ADDRESS:

The Adjutant General, Headquarters, Department of the Army, Washington, DC 20314.

A0509.21aDAPE

SYSTEM NAME:

509.21a Local Criminal Information Files

SYSTEM LOCATION:

Records are maintained at the installation initiating or collecting the documents. Official mailing addresses are in Department of Defense (DOD) directory in the Appendix.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any citizen or group of citizens who is suspected or involved in criminal activity directed against or involving the United States Army.

CATEGORIES OF RECORDS IN THE SYSTEM:

Files contain reports and supporting documents of criminal activity directed against or involving the US Army.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., SEction 3012(g).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Local criminal information files contain reports of criminal activity to include methods of operation received from individuals or agencies and documents acquired pursuant to receipt of such reports. Information is acquired to identify individuals or groups of individuals in an effort to anticipate, prevent or monitor possible criminal activity directed against or involving the US Army; to enable agency officials, commanders, or civil criminal justice agencies to meet their responsibilities regarding the maintenance of discipline, law and order through investigation and possible criminal prosecution, civil court action, or regulatory order. Routine users within the agency include: commanders in exercising their authority under the provisions of Title 10 and 18, US Code; persons designated by the commander to assist in carrying out his responsibilities, i.e., staff judge advocate, investigating officers appointed in accordance with Army regulations, US Army Criminal Investigation Command (USACIDC), military intelligence personnel in those incidents involving possible or actual sabotage or espionage; and other persons or agencies having a need for such information, e.g., law enforcement personnel of other Armed services when such service personnel or property are involved. Acquired information falls within their jurisdiction or concurrent jurisdiction is applicable. These include: Federal Bureau of Investigation; Drug Enforcement Administration; US Customs Service; Bureau of Alcohol, Tobacco and Firearms; local law enforcement agencies; and in oversea areas, host government law enforcement agencies.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders.

RETRIEVABILITY:

File alphabetically by name, or by any category of information contained therein. A cross-reference index may be maintained.

SAFEGUARDS:

Only authorized personnel have access to files. Physical security measures include locked containers/storage areas, controlled personnel access, and continuous presence of authorized personnel.

RETENTION AND DISPOSAL:

Destroyed upon supersession, obsolescence, or deactivation of the related command.

SYSTEM MANAGER(S) AND ADDRESS:

Deputy Chief of Staff for Personnel, Headquarters, Department of the Army, Washington, DC 20310

NOTIFICATION PROCEDURE:

SYSTEM NAME:

601.08 Club Management Personnel Files

SYSTEM LOCATION:

Headquarters, Department of the Army (HQDA) (DAAG-CMT-CS), Washington, DC 20314.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Personnel who have applied, are employed by, assigned to, or were employed by the Army Club System.

CATEGORIES OF RECORDS IN THE SYSTEM:

Request for Intelligence Agency dossier check copies of the individual applications, together with letters of recommendation, Enlisted Club Management Career and Development Program applications for award of Primary Military Occupational Specialties (PMOS)/00J50 and/or 021A. Data report; qualification record; determination of moral eligibility and waiver of disqualifications; educational transcripts; reliefs, component; awards, releases, transfers and other military service data; transmittal letters; control cards and related documents. Informational paper and card files on officers, warrant officers, enlisted personnel and civilians; training information, general personnel printouts of officer, warrant officer and enlisted temporary duty orders; copies of assignment instructions; PMOS 00J50, 021A, and Specialty Skill Identifier Code 43; letters of recommendation on Club personnel; military personnel information files; recommendations for award; letters of welcome, orders, and letters of reprimand; extracts of results of US Army Criminal Investigation Command/Intelligence Agency Records check on military personnel only; training information and letters of commendation.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 3012.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Records are used to facilitate, recruit, select, appoint, assign, pay, evaluate, recognize, discipline, train, develop, and separate individuals; and execute managerial and supervisory functions.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders, file cards in cardex files.

RETRIEVABILITY:

By last name, social security number (SSN), or other personal identifier.

SAFEGUARDS:

Storage area restricted to authorized personnel and documents treated as if they were For Official Use Only.

RETENTION AND DISPOSAL:

Records are held for the period of probability of use; then retained in records holding area for a safety period and subsequently destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

The Adjutant General, HQDA, The Pentagon, Washington, DC 20310.

NOTIFICATION PROCEDURE:

Information may be obtained from HQDA (DAAG-CMT-CS), Washington, DC 20314.

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to: HQDA (DAAG-CMT-CS), Washington, DC 20314. Written requests from individuals should contain the full name of the requester, current address and telephone number, a specific description of the information/records sought, and any identifying numbers such as SSN. For personal visits, the individuals should be able to provide acceptable identification, such as: driver's license, employing offices, identification card and furnish verbal information that can be verified.

CONTESTING RECORD PROCEDURES:

The Army's rules for contesting contents of the records and appealing initial determinations may be obtained from Army Regulation 340-21.

RECORD SOURCE CATEGORIES:

Applicant or employee prepared or introduced documents, statements, or correspondence from persons having knowledge of the individual or acts of the individual, official records; officially generated documents noting actions or events affecting employment and/or pay.

None

A0606.07aDAPE

SYSTEM NAME:

606.07 Safety Award Files

SYSTEM LOCATION:

Decentralized maintenance: Safety Offices at all levels of command including Department of the Army (DA), Major Command and installation level.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any DA military/civilian personnel who have received or who have been considered for an award for accomplishments in the safety field, i.e., operators of Army motor vehicles/ equipment, and other deserving individuals.

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains approved requests, orders, certificates, citations, disapproved requests and similar or related documents reflecting the consideration and selection of individuals for recognition of outstanding effort and achieve- ment in the prevention of accidents. Automated file consists solely of Broken Wing Award data.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Pub. L. 91-596, Section 19, Occupational Safety and Health Act of 1970; and Section 2, Executive Order 11807, Occupational Safety and Health Programs for Federal Employees.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Safety Offices at all levels of command including DA, Major

Command and installation level use documents in this file for history of outstanding individual effort and achievement in the prevention of accidents. The file is used to evaluate the need for additional awards for outstanding individuals.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders.

Portions of Broken Wing Award files are maintained on computer magnetic tape at the United States Army Safety Center Ft Rucker, AL 36362.

RETRIEVABILITY:

File is arranged by time interval such as by month, quarter, year, as required, for promotion of accident prevention; within time interval, documents are filed alphabetically by the last name of award recipient.

SAFEGUARDS:

Buildings are kept locked, and records are maintained in areas accessible only to authorized personnel who are properly screened and trained.

RETENTION AND DISPOSAL:

Office performing award selection responsibility: Permanent.

Recipient offices: Permanent.

All other offices: Destroyed after 2 years, or on discontinuance, whichever is first.

SYSTEM MANAGER(S) AND ADDRESS:

Army Director of Safety, Headquarters, Department of the Army, Office of the Deputy Chief of Staff for Personnel, Washington, DC 20310.

NOTIFICATION PROCEDURE:

Information may be obtained from:
HQDA (DAPE-HRS)
Room 1E686
The Pentagon
Washington, DC 20310
Telephone: Area Code 202/697-6180

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to: HQDA (DAPE-HRS), Washington, DC 20310.

Written requests for information should contain full name of recipient, date and location of award presentation, current address, and telephone number.

For personal visits, the individual should be able to provide acceptable identification such as driver's license or employing office identification card.

CONTESTING RECORD PROCEDURES:

The Army's rule for access to records and for contesting contents and appealing initial determinations may be obtained from the SYSMANAGER.

RECORD SOURCE CATEGORIES:

Documents supporting outstanding effort and achievement in accident prevention such as accident history, driver record, efforts made in safety promotion and education as supplied by the applicable unit, are used toward the completion of the award process.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

A0607.01bDAPE

SYSTEM NAME:

607.01 Accident and Incident Case Files; Army Safety Management Information System

SYSTEM LOCATION:

Primary System: US Army Safety Center (USASC), Attn: PESC-D Ft Rucker, AL 36362.

Decentralized Segments: Safety Offices at all levels of command including Department, Major Command and installation level.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Documents describing Army accidents are maintained with personnel identification when the following categories of persons are involved in Army accidents: Active Army military personnel; Army civilian employees; Army Reserve; Army Reserve Officers Training Corps under Army supervision; Army National Guard; Army contractor employees working on an Army installation; non-US citizen Army employees both direct and indirect hire; other persons not engaged in normal activities of an Army installation or activity not specifically defined as a separate category such as persons paid from nonappropriated funds; visitors to an installation, local residents, personnel of other agencies and services, foreign military students, dependents, and government and contractor employees injured on post in activities outside their employment duties; individuals off-post involved in accidents incident to Army operation.

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains all pertinent and relevant information relating to Army accidents, including Aviator Mishap Data File consisting of Preliminary Reports of Aviation Mishaps, but excludes aircraft accident reports.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 5 U.S.C., section 7902; Pub. L. 91-596, Section 19, Occupational Safety and Health Act of 1970 and Section 2, Executive Order 11807, Occupational Safety and Health Programs for Federal Employees.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information is gathered and maintained solely for accident prevention purposes. Users are Department of the Army or National Guard personnel (military or civilian) tasked with analyzing and improving the Army or National Guard Safety Programs; and for determining qualification of Army or National Guard aviators for selected programs. Various Department of Defense agencies, the Department of Labor, Federal Aviation Agency, other Federal, State, and local agencies, and applicable civilian organizations, such as the National Safety Council; National Transportation Safety Board, are furnished categories of data for use in a combined effort of accident prevention.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records, computer magnetic tapes, magnetic disks and microfilm.

RETRIEVABILITY:

By date, location, and type of accident involved. In rare instances it may be retrieved by individual's last name and social security number (SSN) in addition to other necessary information. Aviator accident mishap data is retrieved by individual's last name and/or SSN.

SAFEGUARDS:

Information is coded, located in locked rooms, accessed by authorized personnel only. Only Major Army Command Safety Data Managers and the SYSMANAGER are allowed access to the records.

RETENTION AND DISPOSAL:

Office performing Army-wide staff responsibility for safety function and reviewing offices at lower echelons: Destroyed after 5 years.

USASC: Permanent. Retired to Washington National Records Center on discontinuance. Aviator Mishap Data File: Destroyed after 20 years.

Offices initiating reports and investigations: Destroyed after 2 years or on discontinuance, whichever is first.

SYSTEM MANAGER(S) AND ADDRESS:

Army Director of Safety, Headquarters, Department of the Army (HQDA), Office of The Deputy Chief of Staff for Personnel, Washington, DC 20310

NOTIFICATION PROCEDURE:

Information may be obtained from:
HQDA (DAPE-HRS)
Room 1E686
The Pentagon
Washington, DC 20310
Telephone: Area Code 202/697-6180

RECORD ACCESS PROCEDURES:

Written requests for information should contain full name, SSN, when and where accident occurred, and type of accident.

Individuals should contact Commander, U.S. Army Safety Center, Ft Rucker, AL 36362.

For personal visits, the individual should be able to provide acceptable identification; i.e., military ID, driver's license, employment ID, or other document which displays photograph/name/SSN/address/or physical characteristics to adequately identify the visitor.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations may be obtained from the SYSMANAGER.

RECORD SOURCE CATEGORIES:

Documents originating at various Army command levels, which include reports of accident, injury, fire, morbidity, military police traffic accident investigations, casualty, individual sick slips, serious incident reports, operator's reports of motor vehicle accidents, marine casualty reports, and Preliminary Report of Aviation Mishap.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

SYSTEM NAME:

608.04 Radiation Incident Case Files

SYSTEM LOCATION:

Primary System: Health and Environment Division, Health Care Directorate, The Surgeon General's Office, Washington, DC 20310.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All Army personnel, military and civilian, overexposed to hazards of ionizing and non-ionizing radiation.

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains documents related to investigating and reporting cases of overexposure of individuals to ionizing and non-ionizing radiation, including personnel dosimetry results, reports of film badge readings and similar and related documents; and analysis of biological specimens, whole-body counts, eye examinations, and similar or related documents.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 CFR; Pub. L. 91-596; Executive Order 11807.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Health and Environment Division, The Surgeon General's Office: To identify and correct unsafe working conditions, provide data for use in possible subsequent litigation, and determine whether individual should be permitted to continue to work in a radiation environment.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders.

RETRIEVABILITY:

Filed alphabetically by name in approved user files.

SAFEGUARDS:

Building employs security guards. Records are maintained in area accessible only to authorized personnel who are properly screened.

RETENTION AND DISPOSAL:

Permanent; cut off on completion of the investigation or operation. Destroyed after 30 years.

SYSTEM MANAGER(S) AND ADDRESS:

The Surgeon General, Headquarters, Department of the Army, (HQDA), The Pentagon, Washington, DC 20310.

NOTIFICATION PROCEDURE:

Information may be obtained by written request to:
HQDA (DASG-HCH)
The Pentagon
Washington, DC 20310

RECORD ACCESS PROCEDURES:

Requests should be addressed to: Office of The Surgeon General, Department of the Army (DASG-HCH), Washington, DC 20310.

CONTESTING RECORD PROCEDURES:

The Army's rules for contesting contents and appealing initial determinations may be obtained from the SYSMANAGER.

RECORD SOURCE CATEGORIES:

Interview with individual; medical records; reports of investigation.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

A0609.01aDASG

SYSTEM NAME:

609.01 Individual Radiation Protection Files

SYSTEM LOCATION:

Primary System - Army installations/activities which possess, use, or store radiation producing devices or radioactive materials.

Decentralized Segment - Nucleonics Section, Quality Assurance Division, Lexington Blue Grass Depot Activity, Lexington, KY.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All Army personnel, civilian and military, occupationally exposed to hazards of ionizing radiation and occasionally exposed and monitored visitors.

CATEGORIES OF RECORDS IN THE SYSTEM:

Installation personnel and Radiation Protection Committee files contain documents, DD Forms 1952, DD Forms 1141, DA Forms 3484, exposed dosimetry film, and related papers reflecting the training, experience, and certification of individual radiation workers to handle specific sources of ionizing radiation; summary listings of certified individuals; external exposures to ionizing radiation, including personnel dosimetry results and reports of film badge readings; and internal exposures to radioactive materials, including analysis of biological specimens and whole-body counts.

Lexington Blue Grass Depot Activity automated dosimetry file contains data elements reflecting individual name, social security number, film badge number, coded cross-reference to place of assignment at time of exposure, from-to dates of exposure and radiation dose, cumulative quarterly, annual and life-time dose, type of measuring device, and coded cross-reference to qualifying data regarding exposure readings.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 CFR 35; 10 CFR 20; Title 44 U.S.C., Section 3101; Title 5 U.S.C., Section 301.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To insure individual qualifications to handle radioactive materials; to monitor, evaluate, and control the risks of individual exposures to ionizing radiation or radioactive materials by comparison of both current (short-term) and long-term exposures; to provide radiation data to other Federal agencies, academic institutions, and non-governmental agencies, such as the National Council on Radiation Protection and Measurement and the National Research Council, authorized to conduct radiation research, evaluation, and monitorship.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folders, film packets, magnetic tape/disk.

RETRIEVABILITY:

Filed alphabetically by name; automated data retrievable by name, social security number, or automatic data processing parameters.

SAFEGUARDS:

Buildings employs security guards. Records are maintained in areas accessible only to authorized personnel who are properly screened and trained; access to computer operations room is controlled by card key system, which requires positive identification and authorization.

RETENTION AND DISPOSAL:

Certified user listing files - Retained 5 years after reassignment, transfer or separation of individual.

Personnel Dosimetry files - Permanent. Processed film indicating normal exposure is retained 5 years after evaluation and recorded on permanent records.

Personnel Bioassay files - Permanent medical records.

SYSTEM MANAGER(S) AND ADDRESS:

The Surgeon General, Headquarters, Department of the Army (HQDA), The Pentagon, Washington, DC 20310.

NOTIFICATION PROCEDURE:

Information may be obtained by written request to:
HQDA (DASG-PSP)
Room 2D453
The Pentagon
Washington, DC 20310

RECORD ACCESS PROCEDURES:

Requests should be addressed to: Office of The Surgeon General, HQDA (DASG-PSP), Room 2D453, The Pentagon, Washington, DC 20310.

All requests should be written since files are not stored in HQDA. If telephone conversation is desired, at the expense of the inquirer, area code and telephone number will be furnished.

Personal visits by the individual requesting access may be arranged only with the official assigned to respond to a written request.

CONTESTING RECORD PROCEDURES:

The Army's rules for contesting content and appealing initial determination may be obtained from the SYSMANAGER.

RECORD SOURCE CATEGORIES:

Monitored individuals and exposed dosimetry film.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

A0609.02DAAG

SYSTEM NAME:

Army Nuclear Test Personnel Review Program (ANTPR)

SYSTEM LOCATION:

Primary system exists at The Adjutant General's Office, Headquarters, Department of the Army, Washington, DC 20310.

Automated segments exist at the US Army Management Systems Support Agency, The Pentagon, Washington, DC 20310; US Army Reserve Components Personnel and Administration Center, St. Louis, MO 63132; and at Lexington-Blue Grass Depot, Lexington, KY 40507.

Extracts of individualized records reside at Headquarters, Defense Nuclear Agency (DNA), Washington, DC 20305.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Army military and civilian personnel and/or contractor personnel in support of the Army who were exposed to radiation as the direct result of government-sponsored atmospheric nuclear detonation occurring between 1945 and 1962.

CATEGORIES OF RECORDS IN THE SYSTEM:

Name, rank/grade, service number, social security number (SSN), current or last known address, dates of test participation, radiation exposure and dosage data, Army unit/office of assignment at time of exposure, current medical status, and next-of-kin data.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 3012; Title 42 U.S.C., Section 2013c.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

By the Department of the Army to identify personnel who either were exposed to or participated in the atmospheric nuclear detonation program and to collect radiation exposure information so as to determine appropriate government-provided medical treatment; and to answer inquiries.

By the Veterans Administration (VA) to process/adjudicate claims in which service-connected disabilities resulting from radiation exposure are alleged.

By the National Research Council and similar government authorized agencies to conduct epidemiological studies of effects of ionizing radiation from atmospheric nuclear weapons tests.

By authorized contractors of the Department of Defense/Department of Energy to reconstruct individual dosimetry data based on research and application of mathematical factors and to write historical summaries of atmospheric nuclear testing.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records on file folders; computer magnetic tapes, disks, and computer printouts.

RETRIEVABILITY:

By individual's name and/or service number/SSN.

SAFEGUARDS:

Access is limited to properly cleared personnel having need for the information in the performance of official duties. Paper records are maintained in locked containers. Magnetic tapes and disks are stored in secured computer areas, access to which is controlled by password.

RETENTION AND DISPOSAL:

Paper records are retained after data are transferred to magnetic tapes. Paper records will be retired to Washington National Records Center after completion of ANTPR effort. Magnetic tapes and disks are retained indefinitely.

SYSTEM MANAGER(S) AND ADDRESS:

The Adjutant General, Headquarters, Department of the Army (DAAG-AMR-S), Washington, DC 20310.

NOTIFICATION PROCEDURE:

Information may be obtained from the SYSMANAGER.

RECORD ACCESS PROCEDURES:

Individuals may access records pertaining to them by furnishing full name, SSN and/or service number, Army unit/office to which assigned at time of radiation exposure, and place and approximate date(s) of exposure.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340-21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

From the individual; Army organizational personnel, and medical records; the Veterans Administration, Department of Energy, Defense Nuclear Agency, and other military departments.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

SYSTEM LOCATION:

Primary System: Cemetery Division, Memorial Affairs Directorate, The Adjutant General Center TAGCEN).

Decentralized Segments: Arlington National Cemetery, Arlington, VA 22211; Soldiers' Home National Cemetery, 21 Harewood Road, NW, Washington, DC 20011; and Army post cemeteries.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Active and former Armed Forces personnel and non-service-connected dependents.

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains records of gravesite reservations (Department of the Army (DA) Forms 2121) in Army national cemeteries and Army post cemeteries. DA Form 2121 contains reservee's address, number of grave and section reserved, and military service and reservation data of service-connected member.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 3012.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Cemetery Division: To maintain official records of individuals holding gravesite reservations in Army national cemeteries and post cemeteries made prior to establishment of the one-gravesite-per-family-unit policy in 1961. Records are used in the conduct of gravesite reservation 2-year and 5-year surveys and to respond to general inquiries from individuals holding gravesite reservations.

Army national cemeteries and post cemeteries: To maintain duplicate records of individuals holding gravesite reservations.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders.

RETRIEVABILITY:

Alphabetically by last name of reservee.

SAFEGUARDS:

Building employs security guards. Records are maintained in areas accessible only to authorized personnel who are properly screened and trained.

RETENTION AND DISPOSAL:

Records are destroyed when gravesite reservation is utilized or officially cancelled.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Secretary of the Army (Civil Works), DA, The Pentagon, Washington, DC; or Director, Memorial Affairs (TAGCEN), DA, Forrestal Building, Washington, DC 20314.

NOTIFICATION PROCEDURE:

Information may be obtained from:
DA, Memorial Affairs Directorate
(TAGCEN)
Room 7F 057
Forrestal Building
Washington, DC 20314
Telephone: Area Code 202/693-0876

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to: Director, Memorial Affairs (TAGCEN), DA, ATTN: DAAG-MEC, Room 7F 057, Forrestal Building, Washington, DC 20314.

Written requests for information should contain reservee's full name and name of service member, rank, and date of death. Visits are limited to Cemetery Division (DAAG-MEC), Forrestal Building, Washington, DC 20314.

CONTESTING RECORD PROCEDURES:

The Army's rules for contesting contents and appealing initial determinations may be obtained from the Memorial Affairs Directorate (TAGCEN), ATTN: DAAG-MEC, Washington, DC 20314.

RECORD SOURCE CATEGORIES:

Information obtained from next-of-kin and DA Forms 2122 and 2123.

SYSTEM NAME:

614.01 Equal Opportunity Investigative Files

SYSTEM LOCATION:

Equal Employment Opportunity Branch, National Guard Bureau, NGB-EO, Nassif Building, Room 301, 5611 Columbia Pike, Falls Church, VA 22041

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All National Guard Technicians and military members who have filed complaints of discrimination and those National Guard Technicians and military members who are involved in these complaints.

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains: formal complaints of discrimination, counselors' reports, notification letters to the complainant, affidavits from the complainant and witnesses, decision on the cases, investigative reports, hearings, complaints, examiners' findings, and recommendations and related correspondence.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title VI Civil Rights Act 1964; Pub. L. 92-261, Nondiscrimination in the Federal Government.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The routine uses are to investigate complaints of discrimination, provide facts to the Adjutant General of a State for issuing a proposed disposition to the complainant, provide information to the Civil Service Commission Complaints Examiner in the Bureau or other agencies to be used in issuing final decisions, provide information to Civil Service Commission Appeals Review Board in making its determination, make data available to National Guard Bureau Legal Officers as required and provide

data to the complainants to assist them in making their decisions to accept or reject proposals.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

The investigative files are maintained as paper records in file folders.

RETRIEVABILITY:

Filed by name of complainant and investigation number

SAFEGUARDS:

Building employs security guards. Records are maintained in cabinets accessible only to authorized personnel that are properly screened, cleared and trained.

RETENTION AND DISPOSAL:

Records are permanent. They are retained in active file until the case is closed by final decision of the agency. Then forwarded to the Washington National Records Center, Suitland, MD.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, National Guard Bureau, Office of Minority Affairs

NOTIFICATION PROCEDURE:

Information may be obtained from:
NGB-EO
Room 301
Nassif Building
5611 Columbia Pike
Falls Church, VA 22041
Telephone, Area Code 202/756-1563

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to: National Guard Bureau, Office of Minority Affairs, Nassif Building, Room 301, 5611 Columbia Pike, Falls Church, VA 22041

For personal visits positive identification is required

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations may be obtained from the SYSMANAGER.

RECORD SOURCE CATEGORIES:

Correspondence relating to the complaint, investigative reports by investigators and attached documents, hearing files and attached documents.

A0614.03aDAPE

SYSTEM NAME:

614.03 Race Relations/Equal Opportunity & Equal Employment Opportunity Complaint Files

SYSTEM LOCATION:

Primary System: Office of Equal Opportunity Programs, Office of the Deputy Chief of Staff for Personnel, Headquarters, Department of the Army.

Decentralized Copies are maintained at the installation initiating the complaint and at the respective major Army command. Official mailing addresses are in the Department of Defense directory in the Appendix.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any member of the United States (US) Army, Active and Reserve Components who submits a complaint to this office, orally, telephonically, or in writing, or whose complaint is forwarded by a major command to this office for appropriate action.

CATEGORIES OF RECORDS IN THE SYSTEM:

Files contain correspondence relating to individuals' complaints, basic complaint, interim replies; final replies; referrals to appropriate offices, i.e., Office of the Inspector General, requests for information upon which to base a reply.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 3012(g).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Office of Equal Opportunity Programs: Insure complaints are properly investigated and steps taken to correct inequities; encourage chain of command to make necessary changes in cases where soldiers are obviously discriminated against.

Major commands and installations: Investigate complaints and take necessary corrective action.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders.

RETRIEVABILITY:

Filed by installation; cross referenced by Cross Reference Sheet only, according to rank, i.e., officer or enlisted, for easier retrievability by Central File Officer.

SAFEGUARDS:

Building employs security guards. Records are maintained in safes. Action officers must request file through the Central File Officer. Charge-out sheets are used and action officers queried periodically for continued need of file.

RETENTION AND DISPOSAL:

Office of Equal Opportunity Programs: Files are permanent. They are retained in active file until end of calendar year, held 2 additional years in inactive file and subsequently retired to Washington National Records Center. Cross Reference Sheets are destroyed upon retirement of files.

Major Commands and installations: Files are retained in active file until end of calendar year, held an additional year in inactive file, and then destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

The Deputy Chief of Staff for Personnel, Headquarters, Department of the Army (HQDA), The Pentagon, Washington, DC 20310.

NOTIFICATION PROCEDURE:

Information may be obtained from:
HQDA (DAPE-HRR)
Room 2D745
The Pentagon
Washington, DC 20310
Telephone: Area Code 202/695-4200 or 697-1860

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to: HQDA, (DAPE-HRR), Room 2D745, The Pentagon, Washington, DC 20310.

Written requests for information should contain the full name of the individual, current address and telephone number, year in which complaint was written, and installation at which the complaint generated.

For personal visits, the individual should be able to provide some acceptable identification; i.e., driver's license or military identification card; name the installation at which the complaint initiated; and give verbal information that can be verified from the file; e.g., date of reply to him, name of office replying.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations by the individual concerned may be obtained from the Deputy Chief of Staff for Personnel.

RECORD SOURCE CATEGORIES:

Individuals, Congressional inquiries, Office of the Inspector General referrals,

major command and installation referrals.

SYSTEM NAME:

701.02 Dependents of Military Personnel/US Citizen Employees

SYSTEM LOCATION:

Maintained in decentralized segments: Department of the Army commands/installations/agencies in Europe, Africa, Middle East, Japan, Korea, Alaska, Hawaii, Central and South America, and Caribbean Area.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All military personnel with dependents located overseas and Army citizen civilian employees and their dependents located outside the Continental United States.

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains name, social security number (SSN), military classification (officer, enlisted, civilian), unit of assignment, area of overseas residence, type sponsor, and the following information on the individual sponsor dependents located overseas: name, if paid from Army nonappropriated funds, month and year of birth, relationship to sponsor, if command sponsored; if member of household, overseas residence (city and country) and country of citizenship.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 3012.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

US Army Military Personnel Center (USAMILPERCEN): to provide statistical information to Congress on the number of dependents located outside the United States; for contingency planning; for background reference in planning for movement of dependents to and from overseas; for planning for services available to dependents in overseas areas, and similar uses.

Department of the Army staff agencies/commands/installations: to coordinate, facilitate, plan and execute the orderly evacuation of noncombatants from hostile zones when required. Personal data are utilized to verify dependency, issuance of ration cards during emergency operations, logistical manifesting and establishing priorities of evacuation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are stored on computer magnetic tapes, disks, and computer punch cards. Initial input on paper records is in file folders until data are verified by computer printout.

RETRIEVABILITY:

Normal access is by geographic location of dependent/employee residence; access may be made by individual identifier.

SAFEGUARDS:

Physical security is provided by storing computer tapes in a restricted area manned at all times. Normal computer hardware and software safeguards are employed. Computer printouts are stored in security containers and limited access by authorized Department of Defense personnel making routine use of data in the performance of official duties.

RETENTION AND DISPOSAL:

Records are maintained as long as the civilian employee, his/her dependents and/or the dependents of military personnel reside outside the Continental United States. Upon departure from overseas area, the file is purged of all data pertaining to the individual.

701.08 Clemency Project

SYSTEM LOCATION:

Automated Equipment Division, Systems Support Directorate and Personnel Services Directorate, United States (US) Army Reserve Components Personnel and Administration Center (USARCPAC), AGUZ-SSD, PSD, 9700 Page Boulevard, St Louis, MO 63132.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who were identified as being possible eligibles for clemency discharges by Department of Defense (DOD) Components.

Individuals discharged by the Clemency Processing Center, Ft Benjamin Harrison, IN who were members of the US Army.

Individuals who had served in the US Army and applied for and were potentially eligible to participate in the Clemency Program.

CATEGORIES OF RECORDS IN THE SYSTEM:

For those individuals that were identified by DOD Components a computer print out which indicates name, social security number (SSN) or military service number, home address as shown on discharge, and service component code of the identified individuals.

For individuals that were discharged by the Clemency Processing Center a computer print out indicates name, SSN and a registry number used by National Personnel Records Center (NPRC), General Services Administration (GSA) for filing and retrieval purposes to locate the hard copy personnel record in the file storage area.

For individuals who applied to the Presidential Clemency Board a computer print out shows name, SSN or service number, NPRC, GSA registry number for filing and retrieval purposes used to locate the hard copy personnel record in the file storage area, status of the individual which indicates: performing alternate service, applied for and was not eligible for the program, authorized issuance of a Clemency discharge as recommended by the Presidential Clemency Board and directed by the President, and terminated from the program. The records received from the Presidential Clemency Board are those that were loaned to that Board from the consolidated registry of the NPRC, GSA or from USARCPAC.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Presidential Proclamation 4313, 16 September 1974 - Program for Return Viet Nam Era Draft Evaders and Military Deserters.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Personnel Services Directorate, RCPAC: to issue Clemency discharges as directed, answer inquiries pertaining to or from identified individuals, complete other routine administrative actions prior to returning the records to the NPRC, GSA.

DOD or any component thereof: to provide personnel or statistical information if required, provide administrative data to include, but not limited to, the status of clemency discharges issued, individuals performing alternate service or terminated from the program.

Veterans Administration: to provide information or records to assist in making determinations and decisions in the adjudication of veterans claims.

Selective Service System: to provide statistical data and personnel information to include data relative to clemency discharges issued.

Presidential Clemency Board: to provide status, complete actions, receive and locate records necessary for the orderly phase-out and return of records used by the Board.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Computer magnetic tapes and computer printouts.

Paper records in file folder/jacket; military personnel files.

RETRIEVABILITY:

By full name or SSN.

Hard copy personnel records filed alphabetically by last name or records may be filed by status of action required, SSN or service number to facilitate positive identification.

SAFEGUARDS:

Computer keyword distribution of output information, routed by interoffice symbols only.

Building employs security guards; identification badge required to enter building; floor badge required.

RETENTION AND DISPOSAL:

Indefinite for computer printouts and computer magnetic tapes.

Paper records in file folders/jackets are returned periodically to NPRC, GSA for storage and maintenance as personnel actions are completed.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, USARCPAC, 9700 Page Boulevard, St Louis, MO 63132.

NOTIFICATION PROCEDURE:

Information may be obtained from:
Commander, USARCPAC
9700 Page Boulevard
St Louis, MO 63132.
Telephone: Area Code 314/268-7777

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to: Commander, USARCPAC, 9700 Page Boulevard, St Louis, MO 63132.

Written requests for information should contain the full name and SSN or Military Service Number of the individual.

For personal visits, the individual should be able to provide acceptable identification, such as driver's license.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations may be obtained from the SYSMANAGER.

RECORD SOURCE CATEGORIES:

Individuals were identified by the DOD Components as individuals who may be eligible for discharge under the Presidential Clemency Program.

Individuals were identified by U. S. Army Clemency Processing Center, Ft Benjamin Harrison, IN as having received an undesirable discharge from the US Army.

Individuals who had served in the US Army and applied for the Clemency program.

A0702.04bDAPC

SYSTEM NAME:

702.04 Eligibility Determination Files

SYSTEM LOCATION:

United States (US) Army Enlistment Eligibility Activity, 9700 Page Boulevard, St Louis, MO 63132.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any individual applying for enlistment or reenlistment who requires a waiver of one or more disqualifications by Headquarters, Department of the Army (HQDA).

Persons requesting continuation on active duty under the provisions of Army Regulation 635-40, requesting withdrawal of counseling statement or cancellation of extension, or seeking clarification of enlistment/reenlistment eligibility.

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains requests for enlistment eligibility or waiver of disqualifications for enlistment/reenlistment, requests for grade determinations, documents reflecting determinations made on requests for waiver or grade determinations, copies or extracted items from basic records, transmittals, and suspense documents needed to provide a means of assuring that requests are acted upon in a timely manner. Copies of auxiliary documentation submitted by applicants.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 333.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Department of the Army Staff agencies and commands - To evaluate waiver requests and provide record of waiver considered, determinations, and disposition. To provide record of requests for enlistment eligibility determinations and disposition.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records between file dividers.

RETRIEVABILITY:

Filed alphabetically.

SAFEGUARDS:

Building employs security guards and requires identification badges of authorized employees. Records are maintained in area accessible only to authorized personnel that are properly screened, cleared, and trained.

RETENTION AND DISPOSAL:

Destroyed after 1 year.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, US Army Military Personnel Center, 200 Stovall Street, Alexandria, VA 22332.

NOTIFICATION PROCEDURE:

Information may be obtained from: Commander, US Army Enlistment Eligibility Activity, 9700 Page Boulevard, St Louis, MO 63132.

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to: Commander, US Army Enlistment Eligibility Activity, 9700 Page Boulevard, St Louis, MO 63132. Requests should include the full name of the requester, current address, social security number, date of separation, and service component, if applicable.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340-21.

RECORD SOURCE CATEGORIES:

Extracts from official military personnel files; extracts from dossiers; letters originating from applicant or inquirer; forms, documents and related papers originated by Army staff offices, command offices, or present or former service member; medical evaluations; application and related forms, records, and correspondence from applicant. Individual file may contain some or all of the foregoing.

A0703.01aDAPC

SYSTEM NAME:

Military Personnel Action Files

SYSTEM LOCATION:

Primary: US Army Military Personnel Center (MILPERCEN), 200 Stovall Street, Alexandria, VA 22332.

Army installations and commands may maintain some records in this system.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals applying for appointment in the US Army or US Army Reserves.

CATEGORIES OF RECORDS IN THE SYSTEM:

Officer candidate applications; individual application for appointment as a warrant or commissioned officer, waivers, recommendations, evaluation reports, test papers, interview records; relevant board determinations on applications; emergency data regarding next-of-kin and survivor benefits; supplemental information regarding qualifications, efficiency, duty assignment, grade, date of rank; transitory adverse suitability information concerning non-support, debts, and similar acts of wrongdoing (adverse suitability information that is supported, substantiated, or otherwise determined to be true is transferred into the official military personnel file); and similar information used by offices exercising administrative jurisdiction as reference records of routine actions.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C., Section 301

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

By the Department of the Army to satisfy administrative and management requirements concerning acceptability of applicants. Information may be disclosed to other branches of the Armed Forces when relevant to an individual's application for transfer or duty with another Service.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders; microfiche.

RETRIEVABILITY:

By individual's surname.

SAFEGUARDS:

Records are maintained in controlled areas accessible only to authorized persons having official need therefor.

RETENTION AND DISPOSAL:

Records are retained from 3 months to 3 years depending on the type document, following which they are destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, US Army Military Personnel Center, 200 Stovall Street, Alexandria, VA 22332.

NOTIFICATION PROCEDURE:

Individuals desiring to know whether or not this system of records contains information on them should inquire of the Army installation to which application was sent, or to the System Manager. Individual should furnish complete name, Social Security Account Number, date of application, place to which sent, and any other information that will assist in locating record.

RECORD ACCESS PROCEDURES:

Individuals should submit a written request as specified under 'Notification Procedure'.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340-21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

From the individual; extracts from personnel records; forms, documents, and related papers originated by or received in army offices.

RECORD ACCESS PROCEDURES:

Requests should be addressed to the SYSMANAGER or Archives, USMA.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations may be obtained from the SYSMANAGER.

RECORD SOURCE CATEGORIES:

Transcripts from secondary and post secondary schools; faculty evaluations; employer evaluations; military supervisor evaluation; medical information from the Department of Defense Medical Review Board; interviews from Admissions Participants; American College Testing Program; Educational Testing Service; Director of Intercollegiate Athletics; Members of Congress.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

A0703.04DAPC

SYSTEM NAME:

ROTC Applicant/Member Records

SYSTEM LOCATION:

Manual records exist in Office of the Professor of Military Science at civilian educational institutions, in ROTC Regional Offices, and at US Army Military Personnel Center, Alexandria, VA 22332.

Automated records are maintained at HQ US Army Training and Doctrine Command, Ft. Monroe, VA 23651.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Persons who apply and are accepted in the Army Reserve Officers Training Corps (ROTC) program.

CATEGORIES OF RECORDS IN THE SYSTEM:

Application for appointment, including such personal data as name, Social Security Account Number, date and place of birth, citizenship, home address and telephone; marital status; dependents; transcripts and certificates of education, training, and qualifications; medical examinations; financial assistance documents; awards; ROTC contract; photograph; correspondence between member and the Army or other Federal agencies; letter of appointment in Active Army on completion of ROTC status; security clearance documents. Official documents include DA Form 131, DA

Form 597, DA Form 61, DA Form 873, SF 88 and SF 93, DD Forms 4/1-4/4, and DOJ Form I-151 if applicable.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 U.S.C., Sections 2101-2111.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

By the Department of the Army (a) in the selection, training, and commissioning of eligible ROTC cadets in the Active Army and Reserve Forces and (b) for personnel management, strength accounting, and manpower management purposes.

May be disclosed to the Federal Aviation Administration to obtain flight certification/licensing.

May be disclosed to the Veterans Administration for member Group Life insurance and/or other benefits.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in folders, punched cards, microfilm/fiche, magnetic tape, drum, or disc.

RETRIEVABILITY:

By name, social security number, or ADP parameter of characteristics of qualification or identity.

SAFEGUARDS:

All records are maintained in areas accessible only to authorized personnel who are trained and cleared for duties relating to personnel administration. Insofar as automated records are concerned, each outline terminal employs users identification and password edits to protect the system from unauthorized access and to restrict each user to specific files and data elements. User identifications and passwords are changed at random times, control data are maintained by the system manager in a sealed envelope in an authorized safe.

RETENTION AND DISPOSAL:

DA Form 131 is retained in the ROTC unit for 5 years after cadet leaves the institution or is disenrolled from the ROTC program. Following successful completion of ROTC and academic programs and appointment as a commissioned officer with initial assignment to active duty for training, copy of pp. 1 and 2 will be reproduced and sent to the commandant of individual's basic branch course school.

Records of rejected ROTC applicants are destroyed. Other records not mentioned in preceding paragraph and in the 'Category of records' element above are destroyed if not required to become part of the MPRJ.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, United States Army Military Personnel Center, 200 Stovall Street, Alexandria, VA 22332

NOTIFICATION PROCEDURE:

Individuals desiring to know whether or not this system of records contains information on them should inquire of the Professor of Military Science of the civilian educational institution in which the individual is an enrolled ROTC member.

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to the official in 'Notification procedure', furnishing his/her full name, current address and telephone number, and definitive description of the information sought. For personal visits, the individual must provide commonly used identification such as valid driver's license or personal identification card used in the normal transaction of business.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340-21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

From the individual, civilian educational institutions, official Army records addressing entitlement status, medical examination and treatment, security determination, and attendance and training information while an ROTC cadet.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

A0703.07aDAPE

SYSTEM NAME:

703.07 Officer Availability and Civil School Mgt System

SYSTEM LOCATION:

Adjutant General Data Processing Branch, Adjutant General Division, United States (US) Military Academy (USMA), West Point, NY 10996.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any Army officer previously assigned, presently assigned, scheduled for assignment, or declared permanently not available for assignment to the USMA. Additionally, any officer declared temporarily not available, or available for a specific academic year. When a new academic year is begun, these records are removed from the file.

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains name, rank, social security number (SSN), branch, status of officer, individual's desires regarding assignment, departments/activities interested in the officer, department/activity to which officer will be assigned, if applicable; school attending or attended for masters or PhD training, and Army Educational Requirements Board number used for schooling and utilization.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 4334(b).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

USMA: Provide information to interested departments/ activities on officer's desires and availability. Used as a means to verify status of officer. Used to prepare requisitioning documents for use at the USMA and Headquarters, Department of the Army (HQDA). Used to prepare reports to HQDA on utilization of officers.

HQDA: uses information provided on the requisitioning document (name, rank, branch and SSN) to verify availability and begin preparation of orders for direct assignment or civil schooling. Uses information on utilization reports (name, rank, branch, SSN, Army Educational Requirements Board number assigned against) to verify that officer is being utilized properly (proper discipline).

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Computer Disk.

RETRIEVABILITY:

Filed by SSN.

SAFEGUARDS:

Computer disk is maintained in vault when not being used. Disk is maintained in area accessible only to authorized personnel that are properly screened, cleared and trained.

RETENTION AND DISPOSAL:

All records of individuals declared temporarily not available or available and not assigned are destroyed annually. Records of individuals

assigned to the USMA are destroyed on official confirmation of the assignment.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Military Personnel Branch, Adjutant General Division, USMA, West Point, NY 10996.

RETRIEVABILITY:

Filed alphabetically by last name within year-group or USMA class.

SAFEGUARDS:

Records are maintained in an area accessible to authorized personnel only.

RETENTION AND DISPOSAL:

Records are retained until, in the opinion of the Department Head, they are no longer necessary. Disposal is by destruction.

SYSTEM MANAGER(S) AND ADDRESS:

Dean of the Academic Board, USMA, West Point, NY 10996.

Professor and Head, Departments of Chemistry; Earth, Space and Graphic Sciences; Electrical Engineering; English; Foreign Languages; History; Law; Mathematics; Mechanics; Physics; and Social Sciences; USMA, West Point, NY 10996.

Commandant of Cadets, ATTN: MACC-B, USMA, West Point, NY 10996.

Commanders, 1st, 2nd, 3rd and 4th Regiments, United States Corps of Cadets, USMA, West Point, NY 10996.

Director, Offices of Military Instruction, Military Leadership, and Physical Education.

NOTIFICATION PROCEDURE:

Write or call the specific SYSMANAGER.

RECORD ACCESS PROCEDURES:

Write or call the specific SYSMANAGER.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations may be obtained from the SYSMANAGER.

RECORD SOURCE CATEGORIES:

Applications of individual officers; recommendations of individual officers submitted by others; college transcripts; potential instructor ratings submitted on cadets by departmental instructors; information provided by the US Army Military Personnel Center in response to requests for availability data; correspondence between individuals and departments; personal data available from other agency publications.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

A0704.03aDAPE

SYSTEM NAME:

704.03 Accelerated Promotion/Early Discharge Report

SYSTEM LOCATION:

Primary System: Headquarters, United States Army Recruiting Command (USAREC), Ft Sheridan, IL 60037;

decentralized segments: regional, district, and area recruiting command headquarters, and recruiting stations. Official mailing addresses of the decentralized segment are in the Appendix.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals discharged from the Army during initial 179 days of service; and individuals who received an accelerated promotion to private E2 after basic combat training. In both cases, the name of the recruiter who recruited the soldier is provided.

CATEGORIES OF RECORDS IN THE SYSTEM:

Report contains name of soldier discharged or promoted along with the date of enlistment, date of promotion or discharge, code of the Armed Forces Examining and Entrance Station that processed the enlistee, waiver code (if

applicable), separation program designator (discharged soldier only), and the name and identification number of the recruiter who recruited the soldier.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 5 U.S.C., Section 301: Title 10 U.S.C., Section 3012.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To identify recruiting organization, recruiters, and geographic areas with high discharge or promotion rates.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Computer printout in a metal cabinet.

RETRIEVABILITY:

By geographical area and district recruiting command identifying the recruiter of the soldier.

SAFEGUARDS:

Records are maintained in cabinets; accessibility is limited to authorized personnel who are properly instructed in the permissible use of the information.

RETENTION AND DISPOSAL:

Report files remain active for 1 year, inactive for 1 year, and are destroyed at the beginning of the 3rd year.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, USAREC, Ft Sheridan, IL 60037.

NOTIFICATION PROCEDURE:

Information may be obtained from:
Director, Market Studies and Analysis,
USAREC
Ft Sheridan, IL 60037
Telephone: Area Code 312/926-2570.

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to: Headquarters, USAREC, ATTN: USARCMSA, Ft Sheridan, IL 60037.

Written requests for information should contain the full name of the individual, social security number, current address, and telephone number.

For personal visits, the individual should be able to provide acceptable identification; i.e., driver's license, identification card.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and contesting contents and appealing initial determination may be obtained from the SYSMANAGER.

RECORD SOURCE CATEGORIES:

Enlisted Master File

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

A0704.04bMEPCOM

SYSTEM NAME:

Military Entrance Processing Reporting system (MEPRS)

SYSTEM LOCATION:

Primary: US Military Enlistment Processing Command, US Naval Training Center, Great Lakes, IL 60088.

Secondary: 73 locations at Military Enlistment Processing Command sector headquarters and individual Military Entrance Processing Stations located in the United States. (Addresses can be obtained from MEPCOM.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All individuals who report to a Military Entrance Processing Station to be aptitudinally tested and/or physically examined to determine their fitness for entry into one of the Armed Services.

CATEGORIES OF RECORDS IN THE SYSTEM:

Individual's name, Social Security Number, date and place of birth, home address and telephone number, results of aptitude tests, physical examination, and relevant documentation concerning individual's acceptance/rejection for military service.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 U.S.C. 505,511; 50 U.S.C. 451-473.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

By the US Military Enlistment Processing command for determining qualifications of applicants for the Armed Forces through aptitude testing, medical examination, and administrative processing. Information is used also for statistical analyses within the Department of Defense to determine patterns and trends in the military population.

Information from this system is disclosed to the Selective Service System to update the SSS registrant data base.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records, Computer Magnetic tape

RETRIEVABILITY:

By Social Security Number.

SAFEGUARDS:

All data are retained in locked rooms/compartments with access limited to designated personnel having an official need to know. Access to computerized data is by use of a valid site ID number assigned to the individual terminal and by a valid user ID and password code assigned to the individual user, changed periodically to avoid compromise. Data entry is on-line using a dial-up terminal. Physical acess to computer files is controlled by keys known only to MEPCOM and MEPS personnel assigned to work on the data base.

RETENTION AND DISPOSAL:

Each MEPS retains a copy of coding sheets for each applicant, plus a copy of the Application for Enlistment on accepted applicants for 6 months after which they are destroyed. For applicants who are not accepted, each MEPS retains a copy of the Report of Medical Examination with supporting documents, the Report of Medical History, and the Coding Sheets for a period not to exceed 2 years after which they are destroyed. Original or copy of documents is filed permanently in the Official Military Personnel File for acceptable applicants and transferred to the gaining Armed Service. All information is transferred to magnetic tapes at the primary site and retained for 7 years, after which it is erased.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, US Military enlistment Processing Command, US Naval Training Center, Great Lakes, IL 60088.

NOTIFICATION PROCEDURE:

Individuals desiring to know whether this system of records contains information on them should write to the System Manager, furnishing their full name, Social Security Number, date and location of the Military Enlistment Processing Station (MEPS) (formerly named Armed Forces Examining and Entrance Stations (AFEES)) where the testing or examination occurred, and signature.

RECORD ACCESS PROCEDURES:

Individuals desiring access to records concerning them should write to the system manager furnishing information identified under 'Notification procedure'. On personal visits, individual should provide acceptable identification such as valid driver's license, employer identification card, building pass, etc.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340-21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

From the individual, physicians, results of tests, Federal/State/local law enforcement activities/agencies.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

A0704.04DASG

SYSTEM NAME:

704.04 Medical and Dental Registrant Case Files

SYSTEM LOCATION:

Army Medical Support Agency, Office of the Surgeon General, Washington, DC.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Those physicians who registered under the Selective Service Act. Preinduction files and brief record pertaining to professional qualifications.

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains individual's registration for the draft, including information on his professional education and training, preinduction physical information and in cases of non-citizens, information necessary to initiate National Agency Check.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 3012.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Not currently used. Records are being held, pending possible reinstatement of physician draft.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders in boxes.

RETRIEVABILITY:

Filed alphabetically by name of applicant, Army Area, and age of applicant.

SAFEGUARDS:

Buildings employ security guards. Records are maintained in areas accessible only to authorized personnel that are properly screened, cleared and trained.

RETENTION AND DISPOSAL:

Records are retained until registrant reaches maximum draft age plus 1 year then destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

The Surgeon General, Headquarters, Department of the Army, The Pentagon, Washington, DC 20310

NOTIFICATION PROCEDURE:

Information may be obtained from:
Commander, Army Medical Personnel Support Agency
Officer Procurement Division
Room 7B054
Forrestal Building
Washington, DC 20314
Telephone: Area Code 202/693-6160

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to: Commander, Army Medical Support Agency, Officer Procurement Division, Room 7B054, Forrestal Building, Washington, DC 20314.

Written requests for information should contain full name of individual, current address and telephone number, address at time of registration for draft and date of birth. Visits are limited to Officer Procurement Division, Room 7B054, Forrestal Building, Washington, DC 20314.

For personal visits, the individual should be able to provide some acceptable identification, i.e., driver's license, employing office's identification card, and verbal information that can be verified from folder.

CONTESTING RECORD PROCEDURES:

The Army's rules for contesting contents and appealing initial determinations may be obtained from the SYSMANAGER.

RECORD SOURCE CATEGORIES:

Registrant, or his legal guardian or committee, if incompetent.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

A0704.06aUSAREC

SYSTEM NAME:

704.06 Recruiting Prospect Card Files

SYSTEM LOCATION:

Army recruiting stations reached through the following Recruiting Commands: Northeast Regional Recruiting Command, Ft Meade, MD.; Southeast Regional Recruiting Command, 1628 Virginia Avenue, College Park, GA.; Southwest Regional Recruiting Command, Ft Sam Houston, TX.; Midwest Regional Recruiting Command, Ft Sheridan, IL.; Western Regional Recruiting Command, Ft Baker, CA.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Persons of both sexes, between the ages of 17 and 35, who may reasonably be assumed to be prospects for enlistment in the Army; those persons who have recently been enlisted into the Army through a recruiting station; and those persons who have recently been determined to be ineligible for enlistment.

CATEGORIES OF RECORDS IN THE SYSTEM:

System contains name, address, social security number (SSN), telephone number and information required to determine prospect's qualifications for enlistment and desires concerning enlistment options; items of information required to process enlistment forms, to conduct testing and physical examination and/or to enlist or reject the prospect for Army service.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Sections 503, 505, 510 and 3012 of Title 10, US Code

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Used by field recruiters to record information necessary to locate prospects, to process for testing and physical examination and to enlist those who are qualified and desire to enlist.

Used by Army Guidance Counselors to transcribe information onto enlistment forms; is then returned to the recruiting station responsible for the prospect.

Used by field recruiters as market data information to determine recruiting trends.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Vertical file cards in metal file card container.

RETRIEVABILITY:

Filed alphabetically by last name of prospect.

SAFEGUARDS:

Records are maintained by individual recruiters and are considered privileged information.

RETENTION AND DISPOSAL:

Active prospect cards are maintained until it is apparent that the prospect will not enlist, is not qualified to enlist or has enlisted in the Army or another armed service or Reserve component.

Recruiting prospect cards on persons who have enlisted in the Army are cut off at the end of each calendar year, held in the current files area for 2 years and then destroyed.

Recruiting prospect cards on persons who have been determined to be unqualified for Army service are cut off at the end of the calendar year, held in the current files area for 2 years and then destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Commanding General, United States Army Recruiting Command, Fort Sheridan, IL 60037.

NOTIFICATION PROCEDURE:

Individuals who desire information as to whether the recruiting prospect card system contains information on them, should write to Commander, United States Army Recruiting Command, ATTN: USARCRFM-A, Fort Sheridan, IL 60037.

Requests should include the full name of the individual desiring the information, SSN, whether individual has prior service, current address and telephone number, and the location of the recruiting station where the information is believed to be stored.

RECORD ACCESS PROCEDURES:

Requests from individuals for access to information in these files should be addressed to: Commander, United States Army Recruiting Command, ATTN: USARCRFM-A, Fort Sheridan, IL 60037.

Request should include the full name of the individual desiring access to the information, SSN, current address and telephone number, and the location of the recruiting station where the information is believed to be stored.

CONTESTING RECORD PROCEDURES:

Rules for contesting content of records and appealing initial determinations are contained in Army Regulation 340-21.

RECORD SOURCE CATEGORIES:

The majority of the items of information on the prospect card are solicited directly from the prospect, though some items may be verified with outside documents such as a driver's license, social security card, educational records, selective service card and/or birth certificate.

Testing information is received from testing personnel at the Armed Forces Examining and Entrance Station (AFEES) and/or the Armed Forces Vocational Testing Group (AFVTG).

Prior service verification is provided from information recorded on the prospect's DD Form 214, DA Form 1181, and/or from the US Army Personnel Records Center and Army Separation Activities.

Follow-up information (locator data) and other information provided to the Army by the prospect in response to Army advertising is forwarded to the recruiting station on USAREC Form 200 cards.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

A0704.06bTRADOC

SYSTEM NAME:

704.06b Army Reserve Officers' Training Corps (ROTC) LEADS Referral Card System

SYSTEM LOCATION:

Primary System - LCS Industries, 10 Pelham Parkway, Pelham Manor, NY 10803.

Decentralized Segments - Ayer Direct, 1345 Avenue of the Americas, New York, NY 10019; Office of the Deputy Chief of Staff for ROTC (ODCSROTC), Headquarters (HQ), United States Army Training and Doctrine Command (TRADOC), Ft Monroe, VA 23651; United States (US) Army ROTC Region (ROTCR) HQ, and ROTC Instructor Group Staffs.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any US citizen who can reasonably be assumed to be a potential enrollee in the Senior ROTC (SROTC) program.

CATEGORIES OF RECORDS IN THE SYSTEM:

System contains individual names, addresses, telephone numbers, social security numbers, high school graduation dates, colleges planning to attend, and enrollment information following recruitment follow-up actions.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Chapter 103, Section 2101-2111.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

LCS Industries - To establish and maintain a central computerized master file of prospective SROTC enrollees; to generate SROTC prospect LEADS cards and recruitment management information reports.

ROTC Instructor Group Staffs - To recruit individual SROTC prospects for possible enrollment and to maintain a future reference and follow-up suspense file of prospective enrollees.

HQ, TRADOC; HQ, ROTC; and Ayer Direct - To analyze SROTC advertising program effectiveness and recruitment activitites.

United States Army Recruiting Command (USAREC); United States Army Reserve (USAR); and Army National Guard (ARNG) - To recruit individual prospects for enlistment purposes when the individual has specifically requested transfer of his/her name from the SROTC prospect file to the USAREC, USAR, or ARNG.

Admissions/Registrars Offices - To provide prospective enrollees who have indicated a desire to attend a particular host or cross-enrolled institution with catalogs or other information concerning that school.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

LCS Industries stores information on magnetic tape and magnetic disk in a film library secured by a controlled access roster.

Ayer Direct stores computer print-outs in standard file containers.

HQ, TRADOC and ROTCR store computer print-outs in standard file containers.

ROTC Instructor Groupd Staffs store LEADS cards in file folders or in standard card index files.

Admissions/Resistrars Offices store individual referral data in standard file containers.

RETRIEVABILITY:

LCS Industires - Filed alphabetically by last name of prospect and by ROTCR.

HQ, TRADOC, ROTCR, and Ayer Direct - Print-out reports are alphabetized by last name of prospect and by ROTCR. Reports are filed chronologically by month.

ROTC Instructor Group Staffs - LEADS cards are filed alphabetically by last name of prospect.

Admissions/Registrars Offices - Filed alphabetically by last name of prospect.

SAFEGUARDS:

LCS Industries - Building and offices are locked in the evening. Keys are controlled. Records are maintained in areas accessible only to authorized personnel who are properly screened and trained.

Ayer Direct - Building employs security guard. Employees carry passes.

Records are maintained in areas accessible only to authorized personnel who are properly screened, cleared, and trained.

HQ, TRADOC and ROTCR - Buildings are located on military reservations. Records are maintained in areas accessible only to authorized personnel who are properly screened, cleared, and trained.

ROTC Instructor Group Staffs and Admissions/Registrars Offices - Buildings are located on college campuses guarded by college security officials. Records are maintained in areas accessible only to authorized personnel who are properly screened, cleared, and trained.

RETENTION AND DISPOSAL:

LCS Industries - Records are retained in active file until the end of the fiscal year in which the data is recieved, held in an inactive file until expiration of contract.

Ayer Direct - Records are retained in an active file for up to two years and then destroyed.

HQ, TRADOC and HQ, ROTCR - Records are retained in an active file for up to two years and then destroyed.

ROTC Instructor Group Staffs and Admissions/Registrars Offices - Records are retained for as long as it is deemed necessary for appropriate follow-up action and then destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

The Deputy Chief of Staff for ROTC, Headquarters, United States Army Training and Doctrine Command, Ft Monroe, VA 23651.

NOTIFICATION PROCEDURE:

Information may be obtained from:
HQ, TRADOC
ODCSROTC (ATRO-AM)
Ft Monroe, VA 23651
Telephone: Area Code 804/727-3077

RECORD ACCESS PROCEDURES:

Request from individuals should be addressed to: Headquarters, United States Army Training and Doctrine Command, Office of the Deputy Chief of Staff for ROTC (ATRO-AM), Ft Monroe, VA 23651.

Written requests for information should contain the full name of the individual, current address, and telephone number. Visits are limited to the Office of the Deputy Chief of Staff for ROTC, HQ, TRADOC (ATRO-AM), Ft Monroe, VA 23651.

For personal visits, the individual should be able to provide some acceptable identification; e.g., driver's license or employing office's identification card.

CONTESTING RECORD PROCEDURES:

The Army's rules for contesting contents and appealing initial determinations are contained in Army Regulation 340-21.

RECORD SOURCE CATEGORIES:

Magazine, newspaper, and poster advertising coupons; mailback reply cards; letters; walk-ins; referrals from parents, relatives, counselors, teachers, coaches, friends, associates, college registrars, dormitory directors, national testing organizations, honor societies, Boys' Clubs, Boy Scout organizations, Future Farmers of America, minority and civil rights organizations, fraternal and chruch organizations, neighborhood youth centers, YMCA, YWCA, social clubs, athletic clubs, Boy's State/Boys' Nation, scholarship organizations, previous employers, trade organizations and other agencies and commands within the Department of Defense.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

A0704.09#USAREC

SYSTEM NAME:

704.09 Center of Influence Card Files (USAREC Form 125)

SYSTEM LOCATION:

Army recruiting stations reached through the following Recruiting Commands: Northeast Regional Recruiting Command, Ft Meade, MD; Southeast Regional Recruiting Command, 1628 Virginia Avenue, College Park, GA; Southwest Regional Recruiting Command, Ft Sam Houston, TX; Midwest Regional Recruiting Command, Ft Sheridan, IL; Western Regional Recruiting Command, Ft Baker, CA.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

United States Army Recruiting Command (USAREC) Form 125 Cards are initiated and maintained on persons who actively assist the recruiter by referring applicants for enlistment.

Cards are also maintained on persons who have been or should be cultivated for improvement of community relations. In this category are program directors for radio and TV stations, newspaper editors and important civic persons, such as the town/city mayors (when applicable).

Cards will also contain by name references to persons actually referred to the recruiters by the center of influence.

CATEGORIES OF RECORDS IN THE SYSTEM:

System contains name, title, address, phone number, and specific data about the person which has caused him to be selected as a center of influence for a specific recruiter, and the manner of assistance and effectiveness of the center of influence.

Additionally, the reverse side of the USAREC Form 125 is used to record the names of persons referred to the recruiter for enlistment by the center of influence. Other information about the person referred includes social security number, date enlisted, option selected, educational level and achievement scores resulting from the Armed Forces Qualification Test (AFQT).

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Sections 503, 505, 510 and 3012.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Used by the recruiter to determine which persons are providing recruiting assistance, and to recognize and reward those persons who assist the recruiter.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Vertical file cards in metal file card container.

RETRIEVABILITY:

Filed alphabetically by last name of center of influence.

SAFEGUARDS:

Records are maintained by individual recruiter and are considered privileged information.

RETENTION AND DISPOSAL:

Center of influence cards are destroyed by the individual recruiter when they are no longer needed for reference and are not transferred to any other file.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, USAREC, Ft Sheridan, IL 60037.

NOTIFICATION PROCEDURE:

Individuals who desire information as to whether the center of influence card system contains information about them should write to Commander, USAREC, ATTN: USARCRFM-A, Ft Sheridan, IL [illegible]

Requests should include the full name of the individual desiring the

information, current address and telephone number, and the location of the recruiting station where the information is believed to be stored.

RECORD ACCESS PROCEDURES:

Requests from individuals for access to information in these files should be addressed to: Commander, USAREC, ATTN: USARCRFM-A, Ft Sheridan, IL 60037.

Requests should include the full name of the person desiring access to the information, current address and telephone number, and the location of the recruiting station where the information is believed to be stored.

CONTESTING RECORD PROCEDURES:

The Army's rules for contesting content of records and appealing initial determinations are contained in Army Regulation 340-21.

RECORD SOURCE CATEGORIES:

Personal information is solicited directly from the center of influence.

Information about persons referred for enlistment is taken directly from the USAREC Form 200, Recruiting Prospect Card.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

A0704.10bMEPCOM

SYSTEM NAME:

704.10 ASVAB Institutional Test Scoring and Reporting System

SYSTEM LOCATION:

Primary System: Plans/Program/Test Scoring Division, Testing Directorate, United States Military Enlistment Processing Command (MEPCOM), FT Sheridan, IL 60037.

Decentralized Segments: Armed Forces Examining and Entrance Stations (AFEES); participating school systems; state departments of education/testing agencies; Air Force Human Resources Laboratory, Brooks Air Force Base, TX 78236; Defense Manpower Data Center, Monterey, CA 93940; all service recruiters/recruiting commands.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

High School, job corps, college, and other students who have been administered the institutional version of the Armed Services Vocational Aptitude Battery (ASVAB).

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains individual's name, social security number (SSN), address, telephone number, date of birth, sex, ethnic group identification, grade, booklet number of ASVAB test, individual's plans after graduation, and individual item responses to each of the 12 ASVAB tests.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 44 U.S.C., Section 3101; Title 10 U.S.C., Sections 133 and 3012.

Executive Order 9397, 'Numbering Systems for Federal Accounts Relating to Individual Personnel.'

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Plans/Program/Test Scoring: To compute and furnish test score products for career/vocational guidance and group assessment of aptitude test performance; for research use by selected government contractors.

Armed Forces Examining and Entrance Stations: To establish eligibility for enlistment and verify enlistment and placement scores and retest eligibility.

School Systems: For vocational/career counseling, curriculum planning, and group assessment.

Air Force Human Resources Laboratory: For future test development, test validation, and related statistical purposes.

Defense Manpower Data Center: For marketing evaluation, assessment of manpower trends, and characteristics.

Recruiters/Recruiting Commands: For recruitment, enlistment, and placement.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Plans/Program/Test Scoring Division: Microfiche, optical mark sense cards, and computer magnetic tapes.

AFEES: Microfiche.

School Systems: Computer paper printout and magnetic tapes.

Air Force Human Resources Laboratory: Magnetic tapes.

Defense Manpower Data Center: Magnetic tapes.

Recruiter/Recruiting Commands: Computer paper printout and cards.

RETRIEVABILITY:

Data are first accessed by date tested, then by high school name, and then alphabetically by student name.

SAFEGUARDS:

Records are maintained in areas (locked rooms or filing cabinets) accessible only to authorized personnel who are properly screened, cleared, and trained in accordance with governing regulations. Magnetic tapes are protected by user identification and manual controls.

RETENTION AND DISPOSAL:

Plans/Program/Test Scoring Division: Primary records (mark sense data cards) are retained 4 months after which they are destroyed. Magnetic tapes are retained for 1 year; microfiche retained for 2 years. Research data retained by contractors for more than 2 years require segregation of personal identifying information and test score data, with analyses performed using only summary statistics.

AFEES: Records retained for 2 years after which they are destroyed.

School Systems: Records released to students; counselors retain scores with student master records.

Air Force Human Resources Laboratory: Records are retained indefinitely or as long as the system is operational. Files maintained after 2 years are purged to delete each student's personal identifying information.

Defense Manpower Data Center: Data maintained for 2 years, at which time personal identifying information is erased from this system.

Recruiter/Recruiting Commands: Records are maintained for 2 years from date ASVAB are administered, then destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, United States Military Enlistment Processing Command, Ft. Sheridan, IL 60037.

NOTIFICATION PROCEDURE:

Information may be obtained from:
Commander
United States Military Enlistment Processing Command
Testing Directorate
Ft. Sheridan, IL 60037 Telephone: Area Code 312/926-2366

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to Commander, United States Military Enlistment Processing Command, Testing Directorate, Ft. Sheridan, IL 60037.

Written requests for information should contain the correct name and full address of the high school, date tested, full name of individual tested, SSN, and address at the time of testing.

CONTESTING RECORD PROCEDURES:

The Army's rules for contesting contents and appealing initial determinations are contained in Army Regulation 340-21.

RECORD SOURCE CATEGORIES:

Students who are tested with ASVAB.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C., Section 301.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Department of the Army (DA): To maintain, use, collect, and disseminate information with respect to an individual holding a military status or former military status, including regular reserve, retired, former member separated, or deceased. Information pertains to individual's former, current, and subsequent to active duty status; birth; citizenship; parentage; home of record; education; training; dependents; travel; language proficiency; former and current association; brotherhood, memberships and related affiliations with organizations and like collective elements which service member divulges as having meaning, substance, or significance to his/her military service status; assignment history; and other related military experiences, qualification, training, preferences, restriction, and status actions.

Department of State: To issue passport/visa; to document persona-non-grata status, attache assignments, and related administration of personnel assigned and performing duty with the Department of State.

Department of Treasury: To issue bonds; to collect and record income taxes.

Department of Defense: To authorize and consummate interdepartmental actions relating to interservice requirements pertaining to the Army, Navy, Air Force, and Coast Guard (when the Coast Guard is operational under DOD.)

Department of Justice: To file fingerprints; to perform intelligence function.

Department of Agriculture: To coordinate matters related to its advanced education program.

Department of Labor: To accomplish actions required under Federal Employees Compensation Act.

Department of Health and Human Services: To provide services authorized by medical, health, and related functions authorzied by Title 10 U.S.C., Sections 1074 thru 1079.

Nuclear Regulatory Commission: To accomplish requirements incident to Nuclear Accident/Incident Control Officer functions.

American Red Cross: To accomplish coordination and complete service functions including blood donor programs and emergency investigative support and notifications.

Civil Aeronautics Board: To accomplish flight qualifications, certification and license actions.

Federal Aviation Agency: To determine Rating sand Certification (including medical) of in-service aviators.

General Services Administration: For records storage and archival services and for printing of directories and related material which includes personal data.

US Postal Service: To accomplish postal service authorization involving postal officers and mail clerk authorizations.

Veteran's Administration: To provide information relating to benefits, pensions, inservice loans, insurance, and appropriate hospital support.

Bureau of Immigration and Naturalization: To comply with statutes relating to alien registration, and annual residence/location.

Office of the President of the United States of America: To exchange required information relating to White House Fellows, regular Army promotions, aides, and related support functions staffed by Army members.

Federal Maritime Commission: To obtain licenses for military members accredited as captain, mate, and harbor master for duty as Transportation Corps warrant officer.

Each of the several States, and US possessions: To support state bonus applications; to fulfill income tax requirements appropriate to the service member's home of record; to record name changes in state bureaus of vital statistics; and for National Guard affairs.

Civilian educational and training institutions: To accomplish student registration, tuition support, tests, and related requirements incident to inservice education programs in compliance with Title 10 U.S.C., Chapters 102 and 103.

Social Security Administration: To obtain or verify Social Security Account Number; to transmit Federal Insurance Compensation Act deductions made from inservice members' wages.

Department of Transportation: To coordinate and exchange necessary information pertaining to interservice relationships between US Coast Guard and US Army when service members perform duty with the USCG.

Civil authorities: For compliance with Title 10 U.S.C., Section 814.

Department of the Air Force: To administer personnel support for individual Army members assigned for duty with the Air Force.

Department of the Navy: To administer personnel support for individual Army members assigned for duty with the Navy or Marine Corps.

US International Communication Agency: To investigated applicants for sensitive positions pursuant to Executive Order 10450.

Federal Emergency Management Agency: To facilitate participation of Army members in defense planning, training, and emergency operations pursuant to the military support of civil defense as prescribed by DOD Directive 3025.10 and Army Regulation 500-70.

Other elements of the Federal Government pursuant to their respective authority and responsibility.

Record of the identity, diagnosis, prognosis, or treatment of any client/patient, irrespective of whether or when he/she ceases to be a client/patient, maintained in connection with the performance of any alcohol or drug abuse prevention and treatment function conducted, regulated, or directly or indirectly assisted by any department or agency of the United States, shall, except as provided therein, be confidential and be disclosed only for the purposes and under the circumstances expressly authorized in 21 U.S.C., Section 1175 and 42 U.S.C., Section 4582. These statutes take precedence over the Privacy Act of 1974, in regard to accessibility of such records except to the individual to whom the record pertains. Blanket 'routine uses' identified in 44 FR 72728 do not apply to these records.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Microfiche stored randomly in electro-mechanical storage/retrieval devices. Temporary files consist of paper records in file folder; selected data automated for management purposes on tapes, disks, cards, and other computer media.

RETRIEVABILITY:

Alphabetically by surname; automated data retrievable by name, SSN, or ADP parameter; Records of Reserve, retired, and deceased persons retrieved by SSN terminal digit sequence.

SAFEGUARDS:

Records are maintained in areas accessible only to authorized personnel; automated records are further protected by authorized passwork system for access terminal, controlled access to operation locations, and controlled output distribution.

RETENTION AND DISPOSAL:

Microfiche and paper records are permanent. They are retained in active file until termination of service, held in inactive file in accordance with retention and retirement schedule and subsequently retired to National Personnel Records Center, St. Louis, MO.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, United States Army Military Personnel Center, 200 Stovall Street, Alexandria, VA 22332.

NOTIFICATION PROCEDURE:

Inquiries for records of commissioned or warrant officers (including members of Reserve Components) serving of active duty should be sent to: Commander, US Army Military Personnel Center, 200 Stovall Street, Alexandria, VA 22332; (703) 325-9606.

Inquiries for records of enlisted members (including members of Reserve Components) serving of active duty should be sent to: Commander, US Army Enlisted Records and Evaluation Center, Ft. Benjamin Harrison, IN 46249, (317) 542-3361.

Inquiries for records of commissioned officers or warrant officers in a reserve status not on active duty, or Army enlisted reservists not on active duty, or members of the National Guard who performed active duty, or commissioned officers, warrant officers, or enlisted members in a retired status should be sent to: Commander, US Army Reserve Components Personnel and Administration Center, 9700 Page Boulevard, St. Louis, MO 63132; (314) 268-7770.

Inquiries for records of commissioned officers and warrant officers who were completely separated from the service after 30 June 1917, or enlisted members who were completely separated after 31 October 1912 should be sent to: Chief, National Personnel Records Center, General Services Administration, 9700 Page Boulevard, St. Louis, MO 63132; (314) 268-7262.

RECORD ACCESS PROCEDURES:

Written requests for information should contain full name of individual, service identification number, current or former military status, and appropriate return address.

Personal visits may be made to the appropriate location based on the individual's status; individual should provide commonly acceptable identification, such as valid driver's license, employment identification, and verbal information relating to his/her military status.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army regulation 340-21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

Enlistment, appointment, or commission related forms pertaining to the individual's military status; academic, training or qualification records acquired prior to or during military service; correspondence, forms, records, documents and other related papers originating in or collected by DA staff agencies and commands; other Federal agencies, commissions, boards, or authority; state and local governmental entities; civilian education and training institutions; and members of the public when such information obtained directly concerns the military service member.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

A0708.02bNGB

SYSTEM NAME:

708.02 Official Military Personnel File (Army National Guard)

SYSTEM LOCATION:

Army National Guard Personnel Center, National Guard Bureau, Columbia Pike Office Building, 5600 Columbia Pike, Falls Church, VA 22041.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Each commissioned officer or warrant officer in the Army National Guard not on active duty.

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains individual records including enlistment contract; Veterans Administration (VA) laws; physical evaluation board proceedings; military occupational specialty report; statement of service; qualification record; group life insurance election; emergency data form; application for appointment; qualification/evaluation report; oath of office; medical examination; security questionnaire; application for retired pay; application for correction of military records; application for active duty; transfer or discharge report; active duty report; voluntary reduction; line of duty and misconduct determinations; discharge or separation reviews; police record checks; consent/declaration of parent/guardian; Army Reserve Officers Training Corps (ROTC) supplemental agreement; award recommendations;

academic reports; casualty reports; United States (US) field medical card; retirement points; deferment; preinduction processing and commissioning data transcripts of military records; summary sheets of conscientious objector; election of options; oath of enlistment extensions; survivor benefit plans; efficiency reports; records of proceeding, Title 10 U.S.C., Section 815 and appellate actions; determination of moral eligibility; waiver of disqualifications; temporary disability record; change of name; statements for enlistment; acknowledgments of service requirements; retired benefits; application for review of physical evaluation board and disability board; appointments; designations; evaluations; birth certificates; photographs; citizenship statements and status; educational constructive credit; educational transcripts; flight status board reviews; assignment agreements/ limitations/ waivers/election and travel; efficiency appeals; promotion/ reduction recommendations/approvals/ declinations/announcements/ notifications/reconsiderations/ worksheets; elections/letters of notification to deferred officers and promotion passover notifications; absence without leave and desertion records; Federal Bureau of Investigation reports; Social Security Administration (SSA) correspondence; miscellaneous correspondence, documents, and military orders relating to military service including information pertaining to dependents, interservice actions, inservice details, determinations, reliefs, component; awards, pay entitlements, releases, transfers, and other military service data.

AUTHORITY FOR MAINTENENCE OF THE SYSTEM:

Title 5 U.S.C., Section 301; Title 10, U.S.C., Sections 275 and 3012; and Title 32 U.S.C.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Department of the Army (DA): To maintain, use, collect, and disseminate information with respect to an individual holding a military status or former military status, including regular reserve, retired, and former member separated. Information pertains to individual's former, current, and subsequent to active duty status relating to birth; citizenship; parentage; home of record; education; training; dependents; travel; language proficiency; former and current association; brotherhood, memberships, and related affiliations with organizations and like collective elements which service member divulges as having meaning, substance, or significance to his/her military service status; assignment history, and other related military experiences, qualifications, training, preferences, restriction, and status actions.

Department of State: To issue passport/visa; to document persona-non-grata status, attache assignments, and related administration of personnel assigned and performing duty with the State Department.

Department of Defense (DOD): To authorize and consummate interdepartmental actions relating to interservice requirements pertaining to the Army, Navy, Air Force, and Coast Guard when the Coast Guard is operational under DOD.

Department of Justice: To file fingerprint cards; to perform intelligence function.

Department of Labor: To accomplish actions required under Federal Employees Compensation Act.

Department of Health, Education and Welfare: To provide services authorized by medical, health, and related functions authorized by Title 10 U.S.C., Sections 1074-1079.

Atomic Energy Commission: To accomplish requirements incident to Nuclear Accident/Incident Control Officer functions.

American Red Cross: To accomplish coordination and complete service functions including blood donor programs and emergency investigative support and notifications.

Civil Aeronautics Board: Flight qualifications, certification and license actions relating to inservice pilots.

Federal Aviation Agency: To accomplish aviation and air service actions involving inservice aviators.

General Services Administration: For records storage, archival services, and for printing of directories and related material which includes personal data.

US Postal Service: To accomplish postal service authorization involving postal officers and mail clerk authorizations.

VA: To provide information relating to benefits, pensions, inservice loans, insurance, and appropriate hospital support.

Bureau of Immigration and Naturalization: To comply with statutes relating to inservice alien registration, and annual residence/locations.

Office of the President of the United States of America: To exchange required information relating to White House Fellows, regular Army promotions, aides, and related support functions staffed by Army members.

Federal Maritime Commission: To obtain licenses for military members accredited as captain, mate, and harbor master for duty as Transportation Corps warrant officer.

Each State and US possessions: To support state bonus applications; to fulfill income tax requirements appropriate to the service member's home of record; to record name changes in state bureaus of vital statistics; and for National Guard affairs.

Civilian educational and training institutions: To accomplish student registration, tuition support, Graduate Record Examination (GRE) tests requirement, and related school requirements incident to inservice education programs in compliance with Title 10 U.S.C., Chapters 102 and 103.

SSA: To obtain or verify social security numbers (SSN); to transmit Federal Insurance Compensation Act deductions made from inservice members' wages.

Department of Transportation: To coordinate and exchange necessary information pertaining to interservice relationships between US Coast Guard and US Army when service members perform duty with the US Coast Guard elements or training activities.

Civil Authorities: For compliance with Title 10 U.S.C., Section 814.

Department of the Air Force: To administer personnel support for individual Army members assigned for duty with the Air Force.

Department of the Navy: To administer personnel support for individual Army members assigned for duty with the Navy or Marine Corps.

Record of the identity, diagnosis, prognosis, or treatment of any client/ patient, irrespective of whe/shether or when he ceases to be a client/patient, maintained in connection with the performance of any alcohol or drug abuse prevention and treatment function conducted, regulated, or directly or indirectly assisted by any department or agency of the United States, shall, except as provided therein, be confidential and be disclosed only for the purposes and under the circumstances expressly authorized in Title 21 U.S.C., Section 1175 and Title 42 U.S.C., Section 4582. These statutes take precedence over the Privacy Act of 1974, in regard to accessibility of such records except to the individual to whom the record pertains. Blanket 'routine-uses' identified in 44FR73728 do not apply to these records.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folder/jacket; selected data automated for management facility in a perishable manner on tapes, disks, cards, and other computer media.

RETRIEVABILITY:

Filed alphabetically by last name; automated data retrievable by name, SSN, or automatic data processing (ADP) parameter.

SAFEGUARDS:

Records maintained in areas accessible only to authorized personnel; automated media protected by authorized password system for access terminals, controlled access to operation rooms, and controlled output distribution.

RETENTION AND DISPOSAL:

Paper records are permanent. They are retained in active file until termination of service or transfer to the US Army Reserve, at which time records are transferred to the custody of the Commander, US Army Reserve Components Personnel and Administration Center.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, National Guard Bureau, The Pentagon, Washington, DC 20310

NOTIFICATION PROCEDURE:

Information may be obtained from:
Army National Guard Personnel Center,
Columbia Pike Office Building
Falls Church, VA 22041
Telephone: Area Code 202/756-1210.

RECORD ACCESS PROCEDURES:

Written requests for information should contain full name of individual, service identification number, current or former military status and appropriate return address.

Personal visits may be made to the appropriate location based on the individual's status; individual should be able to provide commonly acceptable identification, such as driver's license, employment identification card, and give some verbal information relative to his/her current or former military status.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations may be obtained from Chief, National Guard Bureau, The Pentagon, Washington, DC 20310.

RECORD SOURCE CATEGORIES:

Enlistment, appointment, or commission related forms pertaining to the individual having a current or former military status; academic, training or qualification records acquired prior to or during military service; correspondence, forms, documents and other related papers originating in or collected by DA Staff agencies and commands; other Federal departmental agencies, administrations, Federal separate agencies, commissions, boards, service, or authority; state and local governmental entities; civilian education and training institutions; and members of the public when such information obtained directly concerns the military service member.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

A0708.02cDAPC

SYSTEM NAME:

Officer Personnel Management Information System (OPMIS)

SYSTEM LOCATION:

US Army Military Personnel Center (MILPERCEN), 200 Stovall Street, Alexandria, VA 22332.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals projected for entrance into the Army officer corps; Army officer and warrant officer personnel projected to enter on active duty, on active duty, separated, or in retired status; individuals, civilian and military, who serve as senior rating officials on the officer evaluation reports (OERs) of Army officers.

CATEGORIES OF RECORDS IN THE SYSTEM:

Officer Master File (OMF) contains name, social security number (SSN), grade and date of rank, appointment and service agreement, service data and date, promotion, assignment, qualifications, specialties, efficiency, education and training, occupation, language, career pattern, awards and badges, physical location, separation, retirement, date and place of birth, race, religion, ethnic group, dependents, sex, citizenship, marital status, and mailing address.

Officer Accession Suspense Information System (OASIS) contains selected information from the OMF, date of entry on active duty, temporary duty data, and permanent change of station data.

Officer Evaluation Reporting System (OERS) contains selected information from the OMF; selection board status; OER suspense indicator for action being taken to obtain missing or erroneous OER; selected information for each of the last ten OERs; and the name, SSN, and rating history of each individual, military and civilian, who has served as the senior rating official for an active duty Army officer.

Assignments and Training Selection for ROTC graduates contains selected information from the OMF, the cadet's preference statement for specialty (branch), duty and initial training; Reserve Forces duty or delay selection, Regular Army selection, and branch selection.

Officer Personnel Utilization System (OPUS) contains selected information from the OMF, projected assignment information for accessions and officers or warrant officers who are being reassigned.

Reserve Officer Training Corps (ROTC) Instructor File contains selected information from the OMF and the following information pertaining to ROTC instructors; ROTC detachment, duty station, date assigned to ROTC detachment, date projected to be reassigned.

Officer Fully Funded Civil School File contains selected information from the OMF and the following information concerning officer and warrant officer personnel participating or who have participated in the Army sponsored degree completion program; school attended, start and completion dates, degree level and discipline, and Army Education Requirements Board (AERB) positions.

Officer Partially Funded Civil School File contains the same type information maintained in the Fully Funded Civil School File for officer and warrant officer personnel participating or who have participated in the Army partially sponsored degree completion program.

Army Education Requirements Board (AERB) File contains selected information from the OMF for officer and warrant officer personnel who are serving or are projected to serve in an AERB approved position requiring graduate level education.

Distribution Management File contains selected information from the OMF and summary manner of performance data for MILPERCEN managed officers.

USMA Potential Instructor File contains selected information from the OMF and the following information pertaining to previous, current, and potential instructors for the United States Miliary Academy (USMA) teaching staff: academic department and

projected availability for USMA instructor duty.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C., 301; 10 U.S.C., 3012.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

By the Department of the Army: For personnel management, strength accounting, manpower management, accessioning and determining basic entry specialty (branch) and initial duty assignments; tracking OER; monitoring actions to obtain missing, late, or erroneous OER; tracking the rating history of senior rating officials; posting of the senior rating official's rating history on individual OER; producing reports on active duty officers who have served as senior rating officials, for inclusion in their Official Military Personnel File; managing instructor population at ROTC detachments and USMA; tracking information relating to the Army Degree Completion Civil School Program; transmitting necessary assignment instructions.

By the Department of Defense: For interdepartmental actions and personnel management.

By Social Security Administration: To verify SSNs.

By General Services Administration: To publish US Army Registers as authorized by 10 U.S.C., 122.

By the Smithsonian Institution (The National Museum of American History): Copy of the US Army Active Duty Register, for historical research purposes (not authorized for public display).

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Computer magnetic tapes and disks.

RETRIEVABILITY:

By SSN, name, or other individual identifying characteristics.

SAFEGUARDS:

Physical security devices, guards, computer hardware and software safeguard features, and personnel clearances. Magnetic tape is maintained in an area accessible only to authorized personnel. Automated media protected by authorized password for system, controlled access to operator rooms, and controlled output distribution.

RETENTION AND DISPOSAL:

Records are retained on the active OMF files for 4 months after separation. Historical OMF records are retained dating back to FY 1970. Accessions in OASIS are retained on active file until effective date of accession and are then placed on a history file for a period of 6 months. Records in the ROTC Graduate Assignment and Training Selection File are retained for approximately 400 days after the file is created (approximately December each year). Historic files for the OER system will be kept for the life of the system. All other records are retained for active duty only until the individual is released from active duty and then destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, United States Army Military Personnel Center, 200 Stovall Street, Alexandria, VA 22332.

NOTIFICATION PROCEDURE:

Information may be obtained from United States Army Military Personnel Center (DAPC-MSO-S), 200 Stovall Street; Alexandria, VA 22332; Telephone: (202) 325-9305.

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to US Army Military Personnel Center (DAPC-MSO-S), 200 Stovall Street, Alexandria, VA 22332. Written requests should contain the individual's full name, social security number, whether awaiting active duty, active, retired, or separated; return address; and must identify the specific category of record involved. Blanket requests against this consolidated system will not be accepted. If separated, individual must state date of separation; if awaiting active duty, specify the date thereof. Visits are limited to US Army Military Personnel Center, 200 Stovall Street, Alexandria, VA. Individual must provide acceptable identification, and give verbal information that could be verified with his/her record.

CONTESTING RECORD PROCEDURES:

The Army's rules for contesting contents and appealing initial determinations are contained in Army Regulation 340-21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

Information is obtained in document and computer readable form from other DA Staff and commands, other Federal agencies and departments, and individuals.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

A0708.02dDAPC

SYSTEM NAME:

Enlisted Personnel Management Information System (EPMIS)

SYSTEM LOCATION:

US Army Military Personnel Center (MILPERCEN), 200 Stovall Street, Alexandria, VA 22332. (The Enlisted Evaluation System is maintained at US Army Enlisted Records Evaluation Center, Ft Benjamin Harrison, IN 46249.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Army enlisted personnel on active duty; non-prior service and prior service personnel who either have, or indicate a desire to enlist in the US Army, US Army National Guard, or US Army Reserves; initial active duty training personnel undergoing basic training or advanced individual training; former military personnel who are applicants for enlistment in grades E1 to E9.

CATEGORIES OF RECORDS IN THE SYSTEM:

Enlisted Master File (EMF) contains name, Social Security Number (SSN), sex, race, citizenship, religion, marital status, dependents, date and place of birth, residence, assignments, physical profile, ethnic group, grade/date of rank, enlistment and service promotion qualifications, Military Occupational Skill code, education and training, aptitude, separation, retirement, and mailing address.

Recruit Quota System (REQUEST) contains selected information from EMF and soldier's educational level achieved and school subjects, driver's license, color perception, aptitude battery scores, audio perception score, defense language aptitude battery score, motor vehicle battery test score; type of enlistment and date, term, and option; initial processing and training assignments, types, locations, and dates; unit of assignment identification, system identification of location that created accession record, recruiter identification and recruiting area credit code.

Enlisted Training Base contains selected information from EMF and the soldier's enlistment and service, assignment, enlistment commitments by MOS and type, college subjects, civilian acquired skills, advanced or basic individual training start and graduation date, location and MOS, follow-on MOS, location training recommended versus preferred, aptitude area scores and categories.

Enlisted Year Group Management File (RETAIN) contains selected information from the EMF and control number, reclassification/enlistment action, type

of enlistment, basic active service data, estimated termination of service, reenlistment date, civilian education, career management field, primary military occupational specialty code and date of award, source of new Primary Occupational Specialty Code, personnel charged to school code, status of application, assignment code, date of last status change, current location, year group, security investigation status and term reenlisted.

Enlisted Linguist Data Base contains selected information from the EMF and foreign language code, listening and reading proficiency, ratings and scores, dates of evaluation test or interview, how each language capability was acquired, with the principal type, highest level and date of recency for each foreign language in which proficient.

Enlisted Evaluation System contains selected information from the EMF and the soldiers' primary and career progression military occupational specialties, skill qualification test data, enlisted evaluation scores used to create the Enlisted Evaluation Report Weighted Average and other enlisted evaluation report data.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C., Section 301.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

By the Department of the Army: for personnel management, strength accounting and manpower management. Within the Department of Defense, information is used for interdepartmental actions and personnel management.

By Social Security Administration: to verify SSN's.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Computer magnetic tapes and disks; hard copy computer printouts.

RETRIEVABILITY:

SSN, name, or other individually identifying characteristics.

SAFEGUARDS:

Information is protected by physical security devices, guards, computer hardware and software safeguard features, personnel clearances and passwords.

RETENTION AND DISPOSAL:

Records are retained 5 years after separation except enlisted linguist data base records which are retained 6 months after separation.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, US Army Military Personnel Center, 200 Stovall Street, Alexandria, VA 22332.

NOTIFICATION PROCEDURE:

Information may be obtained from Commander, US Army Military Personnel Center, 200 Stovall Street, Alexandria, VA 22332, except that information regarding the Enlistment Evaluation System should be obtained from the Commander, US Army Enlisted Records Evaluation Center, Ft Benjamin Harrison, IN 46249; (317) 542-3282.

RECORD ACCESS PROCEDURES:

Written requests for information should contain the name of the individual, SSN, whether awaiting active duty, active, or separated, return address, and must identify the specific category of records involved. Blanket requests against this consolidated system will not be accepted. Visits are limited to US Army Military Personnel Center, 200 Stovall Street, Alexandria, VA, except that information from the Enlisted Evaluation System should be obtained from either the servicing military personnel office, the headquarters of the individual's organizational station, or US Army Enlisted Records Evaluation Center. For personal visits, the individual must be able to provide acceptable identification and give verbal information that can be verified with his/her record.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340-21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

From the individual, from documents and computer readable output, other DA Staff agencies and commands, other Federal agencies and departments.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

A0708.05DAAG

SYSTEM NAME:

708.05 Emergency Data Files

SYSTEM LOCATION:

Primary System: Casualty Services Office, Casualty Directorate, The Adjutant General Center, Department of the Army (DA).

Decentralized Segments: Military Personnel Records Jacket (MPRJ), maintained at Army personnel offices world-wide.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All military personnel on active duty.

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains DA Form 41, Record of Emergency Data (1 Apr 74 or 1 Jul 70 edition). Document reflects the service member's name; social security number (SSN); wife and children's names and current address; persons to be and not to be notified in the event of death or injury; information on wills, insurance, and other such information; and designation of beneficiaries for certain benefits.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 3012.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Casualty Services Office: When properly completed, it is an official and legal document that governs the disposition of pay and allowances of a member who is missing, is captured, or becomes a casualty. It is also used to determine the person(s) to receive death gratuity payments and beneficiary(ies) to receive other benefits. The form provides the names and addresses of the person(s) to be notified in case of emergency or death.

MPRJ: Copy serves the same purposes as stated above in the event the record copy can not be located.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Original (machine processed card) in vertical file.

Paper copy in MPRJ.

RETRIEVABILITY:

Card is filed numerically using SSN. File is sorted initially by last digit of the SSN, then in numerical sequence. Paper copy located at unit level is fastened on the left side of the MPRJ.

SAFEGUARDS:

Building employs security guards. Office is in operation 24 hours a day, 7 days a week. Records are accessible only to authorized personnel.

RETENTION AND DISPOSAL:

Form is retained in the DA active file until individual's separation from the Army, then destroyed. Copy in personnel folder remains with file when records are retired. If individual dies, the form is placed in the casualty case file. Casualty case files are retired upon completion to National Personnel Records Center (Military), St Louis, MO 63122.

Physical security devices, guards, and personnel clearances for individuals working with the system.

RETENTION AND DISPOSAL:

Records are retained for duration of individual's membership in the program.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, USAMILPERCEN, 200 Stovall Street, Alexandria, VA 22332.

NOTIFICATION PROCEDURE:

Information may be obtained from: Headquarters, Department of the Army, (HQDA), USAMILPERCEN, (DAPC-OPP-S), 200 Stovall Street, Alexandria, VA 22332.

RECORD ACCESS PROCEDURES:

Written requests for information should include full name of the requester, SSN, grade and appropriate return address.

Personal visits may be made to USAMILPERCEN; individual should be able to provide military service identification or other means of identification normally acceptable in the transaction of business.

CONTESTING RECORD PROCEDURES:

The Army's rules for contesting contents and appealing initial determination may be obtained from: USAMILPERCEN (DAPC-OPP-S), 200 Stovall Street, Alexandria, VA 22332.

RECORD SOURCE CATEGORIES:

Information is obtained from documented personnel records, other Department of Army organizations, and program member.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

A0708.07DAPE

SYSTEM NAME:

Unfavorable Information Files

SYSTEM LOCATION:

Primary: Department of the Army Suitability Evaluation Board, Office of the Deputy Chief of Staff for Personnel, The Pentagon, Washington, DC 20310.

Secondary: Suitability Evaluation Board at Major Commands; addresses appear in the appendix to the Army's inventory of system notices.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Army personnel (active, reserve, National Guard) on whom unfavorable information has been discovered, considered, referred to individual, and disposed of, to include appeals and petitions for removal or transfer of such information from the individual's performance record.

CATEGORIES OF RECORDS IN THE SYSTEM:

Summary of unfavorable information, copy of letter of notification to individual, individual's response or appeal, summary of consideration of response or appeal, disposition determination, and voting record of Board members.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 U.S.C., Section 3012.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

By the Suitability Evaluation Board to record Board action and to provide pattern of subsequent unfavorable information. Information filed in the performance portion of the OMPF is also used by DA promotion/selection boards when the individual has been afforded due process.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders.

RETRIEVABILITY:

By individual's surname.

SAFEGUARDS:

Records are maintained in areas accessible only to authorized personnel having official need for the information. Buildings are secured at all times.

RETENTION AND DISPOSAL:

Records are retained by the Suitability Evaluation Board for 20 years, following which they are destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Deputy Chief of Staff for Personnel (ATTN: DAPE-MPD), Headquarters, Department of the Army, The Pentagon, Washington, DC 20310.

NOTIFICATION PROCEDURE:

Individuals desiring to know whether or not information exists on them may inquire of the System Manager. Inquirer should furnish his/her full name, Social Security Account Number, sufficient details concerning time and place of event to insure location of the records, and signature.

RECORD ACCESS PROCEDURES:

Individuals seeking access should provide information in 'Notification procedure'.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340-21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

Suitability Evaluation Board case summary of unfavorable information; letter of notification/request for comment to the individual; individual's response to the Board; individual appeals or petitions to the Board; summary of consideration of response on appeal/petition; final determination case summary by the Board.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

A0708.08aDAPC

SYSTEM NAME:

708.08 Career Management Individual Files

SYSTEM LOCATION:

Primary System: United States Army Military Personnel Center (MILPERCEN).

Decentralized Segments: The Surgeon General's Office (TSGO), the Judge Advocate General's Office (TJAGO), Office of Chief of Chaplains, and United States Army Intelligence and Security Command (INSCOM).

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Active duty members of the US Army in enlisted grades of E1 through E9, all warrant officers and commissioned officers.

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains orders; record briefs; statements of preference; school credit papers; transcripts; details; career personnel actions; memorandum for record of telephone calls; personal correspondence originated by individual concerned; original copy of efficiency report; appeal actions; assignment memoranda and requests for orders; memoranda of professional development actions; promotion orders; classification data; papers relating to service awards; letters and other forms of written communications relating to military career matters; service agreements; variable incentive pay data memoranda of interviews; copies of applications for assignment

consideration; resumes of qualifications, personal background, and service experience supporting service member's desires, or nominative action by career managers; academic reports; copies of admonitions/ reprimands imposed under Article l5 Uniform Code of Military Justice (Title 10 U.S.C., Section 815); letters of appreciation/ commendation/recommendation; and correspondence among (l) MILPERCEN, (2) individual service member, (3) Army Staff offices and Army organizations (4) other Federal, State, and local government elements, and (5) accredited educational and training organizations.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 5 U.S.C., Section 301; Title 10 U.S.C.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

MILPERCEN, TSGO, TJAGO, Office of Chief of Chaplains, INSCOM: To accomplish military service career management including assignment, professional development, service training and education, and other related military actions.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders; card files.

RETRIEVABILITY:

Record accessed by name.

SAFEGUARDS:

Records maintained in areas accessible only to authorized career management activity personnel.

RETENTION AND DISPOSAL:

Records range from transitory to permanent depending on the continuing value to the service member or the Army. Records determined to be permanent are merged with the Official Military Personnel File (when not duplicated) upon separation of the service member from active duty by reason of discharge, transfer, retirement, or death.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, United States Army Military Personnel Center, 200 Stovall Street, Alexandria, VA 22332.

NOTIFICATION PROCEDURE:

Information in regard to other than professional officers may be obtained from:

Headquarters, Department of the Army
(DAPC-MSO)
Hoffman Bldg II
200 Stovall Street
Alexandria, VA 22332.

Information in regard to medical department officers:
The Surgeon General's Office
1900 Half Street, SW, Room 6126
Washington, DC 20324

Information in regard to Chaplains:
Office of the Chief of Chaplains
The Pentagon, Room 1E417
Washington, DC 20310

The Judge Advocate General's Office
The Pentagon, Room lE444
Washington, DC 203l0.

Information in regard to United States Army Intelligence and Security Command enlisted personnel:
Headquarters, United States Army Intelligence and Security Command
Ft George G. Meade, MD 20755.

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to: Headquarters, Department of the Army (DAPC-MSO), Hoffman Bldg II, 200 Stovall Street, Alexandria, VA 22332.

Written requests for information should contain the full name of the requester, service identification number, current or former military status, and appropriate return address.

Personal visits may be made to the United States Army Military Personnel Center; individual should be able to provide his/her military service identification card; Department of Defense Form 2A for active duty persons; or other commonly acceptable means of identification used in normal transaction of business.

CONTESTING RECORD PROCEDURES:

The Army's rules for contesting contents and appealing initial determinations may be obtained from Headquarters Department of the Army (DAPC-MSO), 200 Stovall Street, Alexandria, VA 22332.

RECORD SOURCE CATEGORIES:

Enlistment, appointment, or commission related forms pertaining to the service member having a current active duty military status; academic, training, and qualification records acquired incident to military service; correspondence, forms, documents and other related papers originating in or collected by the military department for management purposes.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

A0708.08bUSAREC

SYSTEM NAME:

708.08 Rapid Electric Ad Coupon Transmission (REACT)

SYSTEM LOCATION:

Philadelphia, PA. Maintained by Worldwide Direct Marketing, Inc., an Army subcontractor through N.W. Ayer ABA International of New York, NY.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

The file contains data on individuals who have specifically inquired for information on Army enlistment and, conversely, individuals who have specifically asked not to be included in Army promotional mailings.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records include name and address (including zip code) of individuals who have requested enlistment information. If the individual volunteered additional information, the following is also included: age, telephone number, social security number, years of education, and the individual's source of request coupon. Each record also contains a unique identification (ID) number generated from the date of initial processing and its sequence in receipt. Finally, each record is ultimately annotated with the final disposition of recruiter action on the individual as an enlistment lead.

Records include name and address of individuals who have asked to be excluded from Army promotional mailings.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Federal Property and Administrative Services Act of 1949 (64 Stat. 578), as amended by Act of 22 Oct 1968 (82 Stat. 1238; Title 44 U.S.C. 3101-03).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To prepare a solicitation letter to the prospect providing requested information and referral to the local recruiter.

To notify the field recruiter and his supervisor of the inquiry.

To follow-up the lead with a second letter to the individual if requested by the local recruiter.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained on computer magnetic tape.

RETRIEVABILITY:

Individual records are retrieved by ID number for adding information provided by the individual through the local recruiter. Records are retrieved by a date signal when a second letter to the individual has been requested by the recruiter.

SAFEGUARDS:

Subcontractor is under contract stipulating proprietary use of the file by Army or Army-authorized agents.

RETENTION AND DISPOSAL:

Once created, records are retained permanently.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Advertising & Sales Promotion (USARCASP), Headquarters, United States Army Recruiting Command (USAREC), ATTN: USARCASP-D, Ft Sheridan, IL 60037.

NOTIFICATION PROCEDURE:

Information may be obtained from:
Director, Advertising & Sales
Promotion, ATTN: USARCASP-D
USAREC
Ft Sheridan, IL 60037
Telephone: Area Code 312/926/2547
Name and address (including zip code) are needed.
Requesters may visit SYSMANAGER office.
Full name, address, driver's license required as identification.

RECORD ACCESS PROCEDURES:

Individuals may contact SYSMANAGER.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations by individuals concerned may be obtained from SYSMANAGER.

RECORD SOURCE CATEGORIES:

Sources are either coupon or letter requests for information from individuals or letters requesting exclusion from future Army promotional mailings.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

A0708.13cDAPC

SYSTEM NAME:

708.13 Foreign Area Officer (FAO) Training

SYSTEM LOCATION:

Department of the Army (DA), United States (US) Army Military Personnel Center (USAMILPERCEN), (DAPC-OP).

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Commissioned officers.

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains name, social security number(SSN), sex, race, citizenship, religion, marital status, dependents, date of birth, residence, physical profile, ethnic group, grade and date of rank of appointment and service agreement, service data and dates, promotion, assignment, qualifications, skill, education and training, specialty, aptitude, occupation, language, career pattern, awards and badges, mailing address, letters to and from individual, memoranda of telephone conversations with member, correspondence originating with FAO members and USAMILPERCEN; application for training, preferences, DA Form 873 (Certificate of Clearance and/or Security Determination); other forms/papers/documents relating to the FAO training.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 5 U.S.C., Section 301; Title 10 U.S.C., Section 3012.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

DA: Records are used for personnel manage- ment, strength accounting, and manpower management; and for monitoring the training and professional development of FAO specialty members.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders.

RETRIEVABILITY:

Access is alphabetically by name.

SAFEGUARDS:

Physical security devices, guards, and personnel clearances for individuals working with the system.

RETENTION AND DISPOSAL:

Records are retained for duration of member's training; then destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, USAMILPERCEN, 200 Stovall Street, Alexandria, VA 22332.

NOTIFICATION PROCEDURE:

Information may be obtained from: Headquarters, Department of the Army, (DAPC-OPP-S), 200 Stovall Street, Alexandria, VA 22332.

RECORD ACCESS PROCEDURES:

Written requests for information should include full name of requester, SSN, grade and appropriate return address.

Personal visits may be made (by appointment) to the USAMILPERCEN; individual should be able to provide military service identification or other means of identification normally acceptable in the transaction of business.

CONTESTING RECORD PROCEDURES:

The Army's rules for contesting contents and appealing initial determinations may be obtained from USAMILPERCEN (DAPC-OPP-S), 200 Stovall Street, Alexandria, VA 22332.

RECORD SOURCE CATEGORIES:

Information is obtained from service member, various related correspondence, preferences for training, DA Form 873, and docu- ments originating in or collected by the military department for training specialty purposes.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

A0708.13DAIG

SYSTEM NAME:

Inspector General Personnel System (IGPERS)

SYSTEM LOCATION:

U.S. Army Inspector General Agency (USAIGA), The Pentagon, Washington, DC 20310

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Personnel assigned and/or detailed to Inspector General offices/positions in Department of the Army and certain Department of Defense and Joint activities.

CATEGORIES OF RECORDS IN THE SYSTEM:

Name, rank/grade, Social Security Account Number, education, duty position, organization of assignment, date assigned, estimated departure date, job specialty, and relevant career data.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 U.S.C. 3012.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

By the Department of the Army for strength accounting and management of IG assignments.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Cards, computer disk, tapes, and printouts of alphabetical and unit rosters.

RETRIEVABILITY:

By name or SSN.

SAFEGUARDS:

Physical security devices, limited access via building guard and personnel clearances restrict access to authorized personnel having need for the information in their offical duties. Access to and update of information in the system are protected through a double password system (terminal control and designation of individuals). Password changes are made at specified intervals.

RETENTION AND DISPOSAL:

Information on cards and printouts is created upon individual's detail to Inspector General and is retained until individual transfers or is separated; information in automated media is retained for 4 years after individual's detail to IG has been terminated to provide relevant historical data.

SYSTEM MANAGER(S) AND ADDRESS:

The Inspector General, Headquarters, Department of the Army, Room 1E-740, The Pentagon, Washington, DC 20310.

NOTIFICATION PROCEDURE:

Individuals desiring to know whether or not this system contains information on them should inquire of The Inspector General, Headquarters, Department of the Army (DAIG-ZXM), Room 1E-740, The Pentagon, Washington, DC 20310; telephone: (202) 695-4580.

RECORD ACCESS PROCEDURES:

Written requests should be addressed as indicated in 'Notification procedures' and include the individual's full name, Social Security Account Number, current address and telephone number, and signature. For personal visits, individual should be able to provide acceptable identification such as military, employer, or other individually identifying data such as a valid driver's license.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340-21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

From the individual; reports, letters, assignment and detail orders from Inspector General offices; Army Register; US Army Military Personnel Center.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

A0708.16aUSREDCOM

SYSTEM NAME:

708.16 Military Personnel Data File, USREDCOM

SYSTEM LOCATION:

Primary System-Computer Operations Section, Command Control Support Division, Directorate of Operations, J3, Building 501, United States Readiness Command (USREDCOM), MacDill Air Force Base (AFB), FL 33608.

Computer Products-Military Personnel Division, J1, Room 160, Building 501, USREDCOM, MacDill AFB, FL 33608.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All Army, Navy, Marine Corps, and Air Force personnel assigned for duty with USREDCOM, MacDill AFB, FL 33608.

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains following information on all military personnel assigned for duty with USREDCOM: (1) social security number (SSN), (2) name, (3) rank, (4) pay grade, (5) date of rank, (6) branch of service, (7) Army officer branch, (8) basic active service date, (9) basic pay entry date, (10) date of birth, (11) passport expiration date, (12) organization and division, (13) Joint Table of Distribution paragraph and line number, (14) alert status - joint task force, (15) immunization dates, (16) weapon qualification, (17) primary military specialty/Air Force specialty code (MOS/AFSC), (18) marital status, (19) secondary MOS/AFSC, (20) duty MOS/AFSC, (21) officer evaluation report/enlisted efficiency report (OER/EER) date, (22) date assigned to supervisor, (23) reserve/regular officer, (24) duty telephone number, (25) building and room number, (26) home address, (27) nearest town, (28) home telephone number, (29) spouse's name, (30) date arrived USREDCOM, (31) projected loss date, (32) expiration term of service, (33) foreign service availability code, (34) human personal reliability screening date, (35) language proficiency, (36) enlisted evaluation report weighted average, (37) primary MOS evaluated, (38) primary evaluation date, (39) primary score, (40) secondary MOS evaluated, (41) secondary evaluation date, (42) secondary score, (43) name of OER rater, (44) duty title, (45) permanent grade, officers, (46) permanent date of rank, (47) rated category, (48) highest professional military education, (49) civilian education, (50) source of commission, (51) mandatory retirement date, officers.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 3012.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Purpose of system is to maintain a consolidated joint personnel file pertaining to Army, Navy, Marine Corps, and Air Force personnel. Although each service has its own personnel reocrds system, USREDCOM requires a consolidated system of basic personnel data that would allow the production of Command Manning Rosters, Immunization Rosters, Joint Task Force Deployment Rosters, and retrievability of individual personnel data as needed in the Joint Military Personnel Division.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

The entire personnel system is an on-line disk resident application with back-up maintained on magnetic tape.

RETRIEVABILITY:

Standard reports and ad hoc retrievals are generated via remote terminals using a data management system. Additionally, updates and record brousing may be accomplished in the interactive mode through keying by SSN.

SAFEGUARDS:

All personnel qualified to add, change, or delete records of this file must be cleared for TOP SECRET as the computer equipment used to maintain this file is physically located within a TOP SECRET access area. The overall classification of the personnel file is 'FOR OFFICIAL USE ONLY,' but all operators have individual 'Pass Words'

which are required for access to the computer file. All output products have the following statement printed at the beginning of each page: 'This roster contains Privacy Act information and will not be released unless request meets the requirements of para 3-2, AR 340-21'.

RETENTION AND DISPOSAL:

All personnel data collected from military records for local use of this command are deleted from the data file upon the departure of the individual from USREDCOM. No history is maintained on departing individuals under this system.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Military Personnel Division, Directorate of Personnel, J1, USREDCOM, MacDill AFB, FL 33608.

NOTIFICATION PROCEDURE:

Information may be obtained from:
Directorate of Personnel, J1
ATTN: RCJ1-MP
Room 160, Building 501
USREDCOM
MacDill AFB, FL 33608
Telephone: Area Code 813/830-4106

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to : Chief, Military Personnel Division, ATTN: RCJ1-MP, USREDCOM, MacDill AFB, FL 33608.

Written requests for information should contain the full name of the individual, SSN, current address, and telephone number.

Visits are permitted at the Directorate of Personnel, J1, Room 168, and at the Military Personnel Division, Room 160, Building 501, MacDill AFB, FL 33608, where computer products are maintained.

For personal visits, the individual should be able to provide some acceptable identification; e.g., military identification card, driver's license, or some other acceptable identification card, and give some verbal information which can be verified from his/her file.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records, contesting contents, and appealing initial determinations are contained in 32 CFR Part 505 (Army Regulation 340-21).

RECORD SOURCE CATEGORIES:

Fields of data recorded in this system were taken from official military personnel records of the individual upon his/her reporting to USREDCOM for duty.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

A0708.17bDASG

SYSTEM NAME:

708.17 Contract Surgeon Personnel Files

SYSTEM LOCATION:

Primary System: Management Office, Medical Centers and hospitals where contract surgeons are employed.

Decentralized Segments: Office of The Surgeon General (OTSG), Department of the Army (DA).

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any civilian physician with an executed contract, employed as a contract surgeon.

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains individual's justification for employment; executed contract; correspondence between medical centers and hospitals and applicant; and selected documents.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 4022, Contract Surgeons; Title 37 U.S.C., Section 201, Basic Pay; Title 37, U.S.C., Section 421, Contract Surgeons

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Medical Center or Hospital Management Office: To determine need, accessibility, and qualification of private physician for employment as contract surgeon; to coordinate and request DA approval for employment as contract surgeon; to execute contract with private physician as contract surgeon.

OTSG, DA: To control, review, and approve need and qualifications of contract surgeon.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders.

RETRIEVABILITY:

Filed alphabetically by last name of contract surgeon.

SAFEGUARDS:

Buildings employ security guards. Records are maintained in areas accessible only to authorized personnel.

RETENTION AND DISPOSAL:

Records are destroyed after 2 years or on discontinuance, whichever occurs last.

SYSTEM MANAGER(S) AND ADDRESS:

The Surgeon General, DA.

NOTIFICATION PROCEDURE:

Information may be obtained from:
Headquarters, Department of the Army (HQDA), (DASG-HCC)
Washington, DC 20310
Telephone: Area Code 202/697-8394

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to: Commander, Medical center or hospital where employed; or HQDA (DASG-HCC), Room 2D528, The Pentagon, Washington, DC 20310.

Written requests for information should contain the full name of the individual, current address and telephone number. Visits are limited to Management Office, Medical Center or hospital where employed; and Professional Services Division (DASG-HCC), The Pentagon, Washington, DC 20310.

For personal visits, the individual should be able to provide sufficient identification, including verbal information that can be verified from his/her file.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations by the individual concerned may be obtained from the SYSMANAGER.

RECORD SOURCE CATEGORIES:

Related papers and forms from individual physician.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

SYSTEM NAME:

708.18 Line of Duty Investigations

SYSTEM LOCATION:

Personnel Actions Branch, all Army Installations. Official mailing addresses are in the Department of Defense (DOD) directory in the Appendix.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

A service member who has been injured.

CATEGORIES OF RECORDS IN THE SYSTEM:

Department of the Army (DA) Form 2173 (Statement of Medical Examination

and Duty Status); DD Form 261 (Report of Investigation-Line of Duty and Misconduct Status); and supporting documents such as military police reports, accident reports, witness statements, and appointment instruments.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Sections 972, 1204, 1207, 3722; and Title 37 U.S.C., Section 802.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information collected will be used within DA for making a line of duty determination.

Information may be used as a basis for denying certain active military benefits and pay and allowances.

May be provided to Veterans Administration or other government agencies, to include state agencies, for a determination of the service member's entitlements to benefits.

May be used as a basis for determining facts and circumstances concerning service member's injuries in correspondence to members of the United States House of Representatives and Senate.

Will be provided to the service member or next-of-kin in cases of deceased or mentally incompetent personnel.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders.

RETRIEVABILITY:

Filed alphabetically by last name of service member.

SAFEGUARDS:

Records are maintained in metal file cabinets accessible only to authorized personnel who are instructed in the permissible use of the information.

RETENTION AND DISPOSAL:

Original: Permanently maintained as a part of service member's Official Military Personnel File (OMPF). For active duty personnel: Enlisted personnel file is maintained at Enlisted Records Center (AGPE), Ft Benjamin Harrison, IN 46249; Officer personnel file is maintained at Headquarters, Department of the Army (HQDA), Military Personnel Center, Hoffman Building II, Alexandria, VA 22332. For United States (US) Army Reserve Personnel: US Army Reserve Components Personnel and Administration Center (USARCPAC), 9700 Page Boulevard, St Louis, MO 63132. Upon separation of service member (officer and enlisted), file is transferred to the National Personnel Records Center (NPRC) (Military), 9700 Page Boulevard, St Louis, MO 63132. Copies filed in offices of investigating officer, unit commander, appointing authority, and final reviewing authority are destroyed after 5 years.

SYSTEM MANAGER(S) AND ADDRESS:

The Adjutant General, HQDA, The Pentagon, Washington, DC 20310.

NOTIFICATION PROCEDURE:

Information may be obtained from: Commander, US Army Enlisted Records Center, Ft Benjamin Harrison, IN 46249 (for enlisted personnel on active duty); HQDA, ATTN: DAPC-PAR-R, 200 Stovall Street, Alexandria, VA 22332 (for officers on active duty); Commander, USARCPAC, 9700 Page Boulevard, St Louis MO 63132 (for US Army Reserve personnel); NRPC (military), 9700 Page Boulevard, St Louis, MO 63132 (for separated personnel, both enlisted and officer).

Individual must provide name and social security number (SSN) to determine if a record is maintained on him/her. Individual must present positive proof of identification if requesting a personal visit.

RECORD ACCESS PROCEDURES:

Requests should be addressed as appropriate to: Commander, US Army Enlisted Records Center (AGPD), Ft Benjamin Harrison, IN 46249; HQDA (DAPC-PAR-R),Alexandria, VA 22332; Commander, USARCPAC (AGUZ-SAD), St Louis, MO 63132; NPRC (Military), 9700 Page Boulevard, St Louis, MO 63132.

Written requests for information should contain the full name of the service member, SSN, and Army service number if known.

For personal visits, individual should be able to provide information which can be verified with the OMPF, and a valid identification card.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340-21.

RECORD SOURCE CATEGORIES:

Medical Records
DA Form 2173
Commander in Continental United States Army or overseas Army installation assigned responsibility for the geographic area in which an injury occurs.
Personnel Records Jacket.
Official Military Personnel File.
Witness statements.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

A0708.19sOSA

SYSTEM NAME:

708.19 Correction Case Folders

SYSTEM LOCATION:

Department of the Army Military Review Boards Agency, Army Board for the Correction of Military Records (ABCMR).

Decentralized segments in United States (US) Army Military Personnel Center, and in individual Official Military Personnel File of the service member.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any member or former member of the US Army who has applied for the correction of his/her military records.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records consist of file cards with basic case information and case files containing Board proceedings and related correspondence, hearing transcripts, and action taken by the Board.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 1552.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

ABCMR: To review applicants' military records to issue rulings on merits of applicants' requests for correction of records; to answer inquiries from applicants, counsel, and Members of Congress for reasons of Board's denial of application or status/disposition of applications.

Litigation Division of Judge Advocate General's Office: To assemble information for transmittal to Department of Justice.

Department of Justice: To gather information sufficient to defend cases in court.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders and card files.

RETRIEVABILITY:

Filed alphabetically by last name of applicant.

SAFEGUARDS:

Buildings employ security guards. Records are maintained in areas accessible only to authorized personnel.

RETENTION AND DISPOSAL:

File cards are retained permanently.

Case files are permanent. They are retained in active file at least 6 months after the case is closed, held until the end of that calendar year, and subsequently retired to the Washington National Records Center.

SYSTEM MANAGER(S) AND ADDRESS:

Special Assistant to the Under Secretary of the Army, DA Military Review Boards Agency, The Pentagon, Washington, DC 20310.

NOTIFICATION PROCEDURE:

Information may be obtained from:
Office, Secretary of the Army
ABCMR
Room 1E512
The Pentagon
Washington, DC 20310
Telephone: Area Code 202/697-4254

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to: Office, Secretary of the Army, ABCMR, Room 1E512, The Pentagon, Washington, DC 20310.

Written requests for information should contain the full name of the individual, current address and telephone number, social security number and Army Service Number if applicable. Visits are limited to the ABCMR The Pentagon, Washington, DC 20310.

For personal visits, the individual should be able to provide acceptable identification such as driver's license, employing office's identification card, including verbal information that can be verified with his case folder.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations may be obtained from the SYSMANAGER.

RECORD SOURCE CATEGORIES:

All official Army records, Veterans Administration records and Police and Law Enforcement Agency records.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

A0708.20DAAG

SYSTEM NAME:

708.20 Philippine Army Files

SYSTEM LOCATION:

Philippine Army Branch, Special Actions Division, United States (US) Army Reserve Components Personnel and Administration Center (USARCPAC), 9700 Page Boulevard, St Louis, MO 63132.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

US Armed Forces Far East (USAFFE): Applies to those members of the Philippine Commonwealth Army who were inducted for service with USAFFE under the Military Order of the President of the United States dated 26 July 1941.

USAFFE Guerrillas: Applies to Filippinos who served in Guerrilla units officially recognized and listed in the Recognized Philippine Guerrilla Rosters.

CATEGORIES OF RECORDS IN THE SYSTEM:

Individual military personnel file contains enlistment papers, orders inducting individual into USAFFE service, soldier's qualification card, unit orders of assignment, efficiency rating sheets, pay vouchers or receipts, affidavits and certificates, service records, determination of status under the Missing Persons Act.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Pub. L. 490-77, 7 May 1942.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Veterans Administration (VA): To certify or verify service with USAFFE or recognized guerrilla units; provide any available medical records or other documents in order to assist in determining benefits.

Department of Justice: To certify or verify service regarding applications for citizenship.

Department of Health, Education and Welfare: To verify type of service which is used to assist in determining eligibility for benefits.

Department of the Army (DA) Staff agencies and commands: To provide information regarding the individuals status, service, and awards in response to requests from the Philippine Goverment to include Embassy and military attaches; to review policies and procedures.

Department of State: To provide statement of service or verification of type of service performed.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Individual military personnel file; paper records in file folders.

RETRIEVABILITY:

Filed alphabetically by name; identified by name, service number, VA claim number, units assigned to during period of service in question, names of parents, birth date and place, name of spouse and children if applicable. Due to similarity of names complete file must be screened to determine correct individual.

SAFEGUARDS:

Records are maintained in areas accessible only to authorized personnel. Building is secured through 24 hour guard service. Entry to building is by authorized badge only.

RETENTION AND DISPOSAL:

Records are permanent. Remain as active file and are not retired.

SYSTEM MANAGER(S) AND ADDRESS:

The Secretary of the Army, The Pentagon, Washington, DC 20310;

Commander, USARCPAC, St Louis, MO 63132.

NOTIFICATION PROCEDURE:

Information may be obtained from:
Commander USARCPAC.
ATTN: AGUZ-SAD-PA
St Louis, MO 63132
Telephone: Area Code 314/268-7359

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to: Commander, USARCPAC, ATTN: AGUZ-SAD-PA, 9700 Page Boulevard, St Louis, MO 63132.

Written requests for information should contain the full name of the individual, service number, VA claim number if applicable, and name and/or number of the unit assigned to during the period of service.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations by the individual concerned may be obtained from the Commander, USARCPAC.

RECORD SOURCE CATEGORIES:

Military record compiled during service of each individual who served with the Philippine Commonwealth Army and or/the US Armed Forces Far East prior to 7 December 1941 up to August 1945. Entire record file

transferred from the Philippines to the US Army in 1951. Nothing has been added to the files other than current copies of papers concerning the service in question.

SYSTEM NAME:

709.01 United States Military Academy Candidate Files

SYSTEM LOCATION:

Primary system: Office of the Director of Admissions and Registrar, MAAR-R, United States Military Academy (USMA).

Decentralized Segment: Instruction Support and Information System Division, Office of the Dean, USMA.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Potential and actual candidates of the USMA for the current and previous 2 years.

CATEGORIES OF RECORDS IN THE SYSTEM:

Candidate Activities Record (Department of Defense (DD) Form 1868); Prospective Candidate Questionnaire, DD Form 1908; Interview Sheets; Evaluation by Director of Intercollegiate Athletics; School Official's Evaluation, DD Form 1869; Employer's Evaluation of Candidate, USMA Form 5-518; Scholastic Aptitude Exam Scores; American College Testing Program Scores; Request for Secondary School Transcript, DD Form 1875; High School Transcript; College Transcript; Physical Aptitude Exam; Candidate Summary Sheets; Nomination Letter; Progress Report 5-413; Selection Letter; Naturalization Papers; Adoption Papers; Birth Certificate; Statement of Consent; OATH 5-50; Special Orders; all correspondence to, from and about candidate; Personal Data Record (DD Form 1867).

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Sections 4331, 4332, 4334.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Director of Admissions and Registrar: to evaluate a candidate's academic, leadership, and physical aptitude potential for the USMA; to assist candidates in the completion of their file; to counsel candidates in their potential for USMA.

Office of the Dean: to evaluate an admitted candidate's academic potential

Office of the Director of Intercollegiate Athletics: to evaluate a candidate's intercollegiate athletic potential.

Director of Institutional Research: to assist the Director of Admissions in evaluating current admissions procedures and recommend changes in admissions procedures.

Members of Congress, Washington, DC: to aid them in the selection of candidates.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records are maintained in file folder. Selected items of information are on computer printouts and magnetic disks.

RETRIEVABILITY:

File folders are filed alphabetically by last name of candidate. Computer printouts are printed alphabetically by source of nomination, current status, and special categories.

SAFEGUARDS:

File folders and computer printouts stored in a room in which authorized representative is always present during working hours. After working hours the room is locked with restricted access to appropriate personnel. Records are accessible only to authorized personnel. Magnetic disks are protected by a user identification and password convention.

RETENTION AND DISPOSAL:

Admitted candidates: Records are transferred to the office of the Dean in August of each year. Other candidates: Records are maintained in the Admissions Office for 2 years and then transferred to Records Holding Area for 2 years after which they are destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Director of Admissions and Registrar, USMA.

NOTIFICATION PROCEDURE:

Information can be obtained from SYSMANAGER.

RECORD ACCESS PROCEDURES:

Requests should be addressed to the SYSMANAGER.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determination by the individual concerned may be obtained from the SYSMANAGER.

RECORD SOURCE CATEGORIES:

Transcripts from secondary and post secondary schools; faculty evaluations; employer evaluations; military supervisor evaluation; medical information from the Department of Defense Medical Review Board; interviews from Admissions Participants; American College Testing Program; Educational Testing Service; Director of Intercollegiate Athletics; Members of Congress.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

All portions of this system are exempt pursuant to 5 U.S.C. 552a(k)(5), (6), or (7). Publication of rules is set forth in 32 CFR Part 505.

A0709.11aDAPE

SYSTEM NAME:

709.11 United STates Military Academy Cadet Record Card.

SYSTEM LOCATION:

United States Military Academy (USMA) Archives, West Point, NY 10996.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals admitted to USMA as cadets during the period 1802 to 1965.

CATEGORIES OF RECORDS IN THE SYSTEM:

Card contains class year, date of admission, age at date of admission, legal residence, date and place of birth, source of appointment, name and address of parent or guardian, order of general merit for each academic year and at graduation, date of graduation, branch in which commissioned, Cullum number, and remarks relating to separation (e.g., for physical disability or academic deficiency) and readmission.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 4334.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Cards are a basic biographical and historical summary of a cadet's tenure at the USMA. They are a source of conveniently available information which eliminates a time-consuming search through numerous other series of official records.

Used by members of the archives or library staff for special studies, expedient replies to historical, biographical, and genealogical inquiries, and confirmation of attendance at the USMA; cadets and faculty members conducting geographic, social, or demographic studies on the background of cadets admitted or graduated; other USMA staff agencies, such as the Office of Institutional Research or the Office of the Dean, engaged in officially sanctioned projects or functions; investigators from the Federal Bureau of Investigation, United States Civil Service Commission, or the Department of Defense conducting records checks on former cadets; the Association of Graduates, USMA, and the Army Athletic Association to determine eligibility of former cadets applying for membership; and scholars and historians conducting research on former cadets or private citizens seeking information on their forebears.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Vertical file cards.

RETRIEVABILITY:

Filed alphabetically by surname of cadet.

SAFEGUARDS:

Cards are maintained in steel cabinets in the Archives office and are under the observation of staff members from 8:00 A.M. to 4:30 P.M. Monday through Friday. Room is locked during non-duty hours. Only authorized personnel and properly screened visitors are allowed access to or use of the cards.

RETENTION AND DISPOSAL:

Records are permanent and will remain in the Archives Office.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, USMA Archives, West Point, NY 10996.

NOTIFICATION PROCEDURE:

Information may be obtained from the SYSMANAGER.

RECORD ACCESS PROCEDURES:

Written requests should be addressed to the SYSMANAGER and should include the full name of the individual and the approximate dates of his attendance at USMA.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determination are contained in Army Regulation 340-21.

RECORD SOURCE CATEGORIES:

For cadets in the Classes of 1920 through 1969, the primary sources of information are various documents in the USMA cadet's personnel file, supplemented by publications such as the Register of Graduates and Former Cadets of the USMA, post orders, and the Official Register of Officers and Cadets. Information on earlier cadets has been obtained from the latter source and other registers, lists, books, and academic records formerly maintained by the Adjutant, USMA.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

A0709.12aDAPE

SYSTEM NAME:

709.12a USMA Admissions Participant Roster and File

SYSTEM LOCATION:

Primary system: Office of the Director of Admissions and Registrar, MAAR-R, United States Military Academy (USMA), West Point, NY 10996.

Decentralized segment: Instruction Support and Information System Division, Office of the Dean, USMA, West Point, NY 10996.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Admissions Participants (USMA recruiter contacts) including active and inactive, actual and potential, in following general categories: USMA Reserve Liaison Officers currently attached to Admissions, USMA; USMA graduate volunteers; USMA Admissions contacts at United States (US) Army Installations/Agencies/Activities worldwide; USMA alumni organizations; secondary school educators who have visited USMA under Educator Visit Program; Association of the US Army Presidents and applicants for Reserve Liaison Officer positions; Members of Congress; and Congressional Staff Assistants dealing directly with USMA applicants.

CATEGORIES OF RECORDS IN THE SYSTEM:

Admissions Participant Roster and Admissions Participant files include the names, addresses and telephone numbers of active and inactive USMA admissions contacts and correspondence reference USMA Admissions recruiting activities. Congressional file includes current mailing address (Washington and local office) of all current Members, including Staff Assistants' names and office telephone numbers, and all Admissions related Congressional correspondence. A subsystem Admissions Participant mailing list entitled, 'Educator Visitors' includes the name and school address of visitors to USMA under the Admissions Educator Visit Program. Applications from US Army Reservists seeking a position as USMA Reserve Liaison Officer include name, address, SSN, telephone number and resumes which are periodically reviewed for position selection.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Sections 4331, 4332, 4334.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Active Admissions Participants, to include each Member of the US Congress and educators who have visited the USMA under the 'USMA Admissions Educator Visit Program', receive informational Admissions mailings concerning present USMA Admissions policy and procedures from the Admissions Participant mailing list. USMA appli- cants are referred to Admissions Participants who render advice and assistance in regard to West Point's admission process. US Army Reservists' applications for USMA Liaison Officer positions are maintained and reviewed at Admissions, USMA, to fill nation-wide position vacancies as they occur. A correspondence file is maintained for each active Admissions Participant containing file copies of all correspondence related to the Admissions Participant's activity in support of West Point programs.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records are maintained in file folders. Selected items of information (name, address, telephone numbers, organization) are maintained on completed paper printouts, magnetic disks, magnetic tape for all active Admissions

RETRIEVABILITY:

File folders and computer printouts are maintained by name in State and ZIP Code sequence.

SAFEGUARDS:

File folders and computer printouts stored in room where Admissions Officers are always present during working hours. After working hours, rooms are locked. Access to the building is limited during non-duty hours. Records are accessible only to authorized personnel. Computer file magnetic disks are protected by a user identifi- cation and password convention.

RETENTION AND DISPOSAL:

Files are under continuous review for additions and deletions. Once a file is deleted, all related correspondence is destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Director of Admissions and Registrar, USMA, West Point, NY 10996.

NOTIFICATION PROCEDURE:

SYSTEM NAME:

710.02 JAGC Reserve Components Officer Personnel Records

SYSTEM LOCATION:

Reserve Affairs Department (Room 232), The Judge Advocate General's School, United States Army (TJAGSA), Charlottesville, VA 22901.

Computer Center, University of Virginia, Charlottesville, VA 22901.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All Judge Advocate General Corps (JAGC) United States Army Reserve and National Guard officers, not serving on extended active duty; and officers seeking appointment, branch transfer, or Federal Recognition to the JAGC without concurrent call to active duty.

CATEGORIES OF RECORDS IN THE SYSTEM:

Data bank includes individual officer's name, social security number (SSN), home and business addresses, home and business telephone numbers, grade, promotion eligibility date, primary military occupational specialty, date of birth, sex, basic date of mandatory removal, educational courses taken, unit assignment and unit address, employer, job title, specialty, and awards.

Personnel file contains such documents as application for appointment, active duty training, constructive credit, mobilization designee (MOBDES) position, and related matters dealing with educational courses completed; correspondence between Reserve Affairs Department personnel and the individual.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 275(a) and regulations promulgated thereto.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Career Management: To schedule JAGC reserve officer training; select officers for reserve unit command positions; identify individual reservists in need of training; determine mandatory retirement dates; provide full

background information on individuals applying for MOBDES positions, constructive credit by The Judge Advocate General for portions of a judge advocate course, and/or Active Duty for Training; to document background of applicants for appointment in the JAGC or branch transfer to JAGC consistent with prerequisites required for type of appointment/branch transfer and to establish eligibility for appointment/branch transfer.

Communications: To maintain current and complete address and telephone listings to insure that each officer can be quickly and reliably contacted.

Manpower Management: To forecast field grade officer requirements and the number of officers required to fill positions vacated by officers transferred to the Retired Reserve; to provide aggregate statistical reports to other Department of the Army elements for analysis of Total Force and mobilization readiness.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders; automated records on magnetic tape.

RETRIEVABILITY:

Alphabetically by last name and SSN.

SAFEGUARDS:

Records maintained in areas where authorized personnel work. During non-duty hours files and office doors are secured.

Computer records maintained in computer building in areas accessible only to authorized personnel; system entry by password.

RETENTION AND DISPOSAL:

Records are maintained until individual officer retires from Reserve Component. They are then placed in inactive file for two years after which they are destroyed.

710.08 Career Management Files of Dual Component Personnel.

SYSTEM LOCATION:

Counseling Section, Guidance Branch, Personnel Management and Training Division, Reserve Components Personnel Directorate, and Systems Support Directorate, United States Army Reserve Components Personnel and Administration Center (USARCPAC), 9700 Page Boulevard, St. Louis, MO 63132.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any reserve or warrant officer on active duty as an enlisted man; any reserve officer on active duty as a Regular Army warrant officer.

CATEGORIES OF RECORDS IN THE SYSTEM:

Manual file contains copies of officer evaluation reports, academic reports, officer qualification records, letters of appreciation and commendation, general orders announcing awards, and other documents furnished by individual concerned. Automated file contains name, rank, social security number (SSN), basic pay entry date, promotion eligibility date, mandatory removal date, highest military education completed and current military education being completed.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 275.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To advise reserve officers when they will be considered for promotion; what military education must be completed to be eligible for promotion; to determine if officer should be removed for substandard performance of duty; to advise them of eligibility for retirement as either an officer or enlisted man; (Officer evaluation reports are available for review by promotion boards when officers are being considered for promotion); and to advise officers of latest changes in reserve program.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders, and computer tape.

RETRIEVABILITY:

Filed alphabetically by last name of officer and SSN.

SAFEGUARDS:

Buildings employ security guards. Computer tapes are stored in tape vault. Paper records are stored in filing cabinets with access limited to individuals with a need-to-know.

RETENTION AND DISPOSAL:

Records are retained as long as officer remains on active duty. When an officer retires, his career management file is combined with his active Army enlisted file. If officer separated and is still on active duty as enlisted man, his career management file is sent to United States (US) Army Enlisted Records Center, Ft Harrison and combined with his enlisted record.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, USARCPAC, 9700 Page Boulevard, St Louis, MO 63132.

NOTIFICATION PROCEDURE:

Information may be obtained from:
Commander, USARCPAC,
9700 Page Boulevard
St. Louis, MO 63132
Telephone: Area Code 314/268-7868 or Autovon 698-7868.

RECORD ACCESS PROCEDURES:

Requests from officers should be addressed to: Commander, USARCPAC, 9700 Page Boulevard, St Louis, MO 63132.

Written requests for information should contain the full name of the officer, current address and SSN. Visits are limited to Guidance Branch, Personnel Management and Training Division, USARCPAC, 9700 Page Boulevard, St Louis, MO 63132.

For personal visits, the officer must present active Army identification card.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations by the

individual concerned may be obtained from the SYSMANAGER.

RECORD SOURCE CATEGORIES:

All material is obtained from elements of the US Army, officer's company commander, military schools completed in residence or by correspondence, copies of general orders.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

A0710.09DAAG

SYSTEM NAME:

710.09 Personnel Management/Action Working Files

SYSTEM LOCATION:

Working files and/or folders are maintained by each of the operating Divisions within the United States (US) Army Reserve Components Personnel and Administration Center (USARCPAC), 9700 Page Boulevard, St Louis, MO 63132 and, in certain instances, such as mobilization designation assignments, attachments to Reinforcement Training Units or Army National Guard/US Army Reserve Units, in Department of Defense (DOD) elements and military departments and Selective Service Headquarters in order to accomplish administrative actions.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Pertains to members of the Individual Ready Reserve (IRR), Standby Reserve, Retired Reserve, unit personnel, and civilians relating to a variety of personnel actions and inquiries concerning Reserve component personnel management and administration.

CATEGORIES OF RECORDS IN THE SYSTEM:

Files and/or folders contain varied types of applications; correspondence; orders; pay vouchers; efficiency reports; assignment instructions; replies to correspondence; medical evaluations; request for waiver of disqualifications; grade determinations; approvals or disapprovals of specific actions; flagging actions which preclude completion of favorable personnel actions; computer transcripts; requests for transfer to another Branch, status, or service; claims for pay; and notifications to the individual of personnel actions being processed.

These are all working files/folders which contain information and copies of correspondence pertaining to appointment as US Army Reserve (USAR) commissioned or warrant officers; applications for active duty; assignment instructions for active duty (AD) or Active Duty for Training (ADT); applications for delay or exemption from AD/ADT; requests for branch transfers; requests for award of Military Occupational Specialty; nominations for decorations or awards; selection or nonselection for promotion of commissioned or warrant officers; notifications of removal from an active Reserve status for physical disqualification, nonparticipation, two-time passover for promotion or elimination action; request for grade determinations for enlistment in the USAR; applications for waiver of disqualifications for enlistment in the USAR; request for discharge or voiding of enlistments; requests for transfer to or from the Ready Reserve, Standby Reserve, or Retired Reserve; claims for pay not received while on ADT; request for assignment or attachment to Army National Guard (ARNG)/USAR units, mobilization designation positions or detachments, reinforcement training units, and USAR school student detachments; applications for participation in Army Reserve Logistics Career Program and Foreign Area Officers Program; applications for ADT; and correspondence pertaining to the career management of officers and senior enlisted personnel. Correspondence includes copies or orders; approvals or disapprovals of actions requested by the individual and backup copies of correspondence relating to the specific action; these are reference copies of documents normally filed in the individual's Military Personnel Records Jacket or Official Military Personnel File.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title l0 U.S.C., SEction 275.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Working or reading files are maintained in order for the action element of USARCPAC to respond to written, personal, or telephonic inquiries received from an individual or other government agency. Files maintained in DOD elements, military departments and Selective Service Headquarters are used to insure that administrative actions are accomplished.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Files and folders are maintained in 4 drawer file cabinets and card files are maintained in standard card file drawers or IBM card cabinets, as appropriate.

RETRIEVABILITY:

Filed alphabetically by last name.

SAFEGUARDS:

USARCPAC building has security guard at all times. Papers are maintained in areas accessible only to authorized personnel who are properly screened and trained.

RETENTION AND DISPOSAL:

Files or folders are maintained for a period of 6 months to 3 years depending on the type of action involved. At the specified time, the file is destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, USARCPAC, 9700 Page Boulevard, St Louis, MO 63132. 9700 Page Boulevard, St Louis, MO 63132

NOTIFICATION PROCEDURE:

Information may be obtained from:
Commander, USARCPAC,
ATTN: AGUZ-RCPD
9700 Page Boulevard
St Louis, MO 63132
Telephone: Area Code 314/268-7733

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to: Commander, USARCPAC, ATTN: AGUZ-RCPD, 9700 Page Boulevard, St Louis, MO 63132.

Written requests for information should contain full name of individual, current address, and telephone number. Visits are limited to Reports and Inquiries Section, Personnel Management and Training Division (AGUZ-PMT-GRI) USARCPAC, 9700 Page Boulevard, St Louis, MO 63132.

For personal visits, the individual should be able to provide acceptable identification, i.e., Reserve Identification Card, driver's license, employing office's identification card, and give some verbal information that could be verified from his 'Reading file'.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations may be obtained from the SYSMANAGER.

RECORD SOURCE CATEGORIES:

Individual/Department of Defense.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

A0710.10DAAG

SYSTEM NAME:

710.10 Reserve Personnel Information Reporting System

SYSTEM LOCATION:

Decentralized Segments: Commander, First United States Army, Ft George G. Meade, MD 20755; Commander, Fifth United States Army, Ft Sam Houston, TX 78234; Commander, Sixth United States Army, Presidio of San Francisco, CA 94129; Commander, United States Army Western Command, (WESTCOM), Ft. Shafter, HI96858; Ft. Richardson, AK 99505; Chief, United States Army Reserve (USAR) Affairs, Europe, APO New York 09245. Commander, 172d Infantry Brigade Alaska. Each Army Headquarters (HQ) maintains the records pertaining to its geographical area.

Centralized User: Systems Support Directorate, United States Army Reserve Components Personnel and Administration Center (RCPAC), 9700 Page Boulevard, St. Louis, MO 63132.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All individuals currently assigned to a USAR unit.

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains identification data, including name, social security number (SSN); current assignment data, including unit identification code grade, and occupational specialty; retirement data, including number of retirement points and years of satisfactory military service; and other selected data which serve in the administration and reporting of the individual, including security clearance, date entered military service, date of last promotion, date military obligation expires, sex, race and civilian occupation.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 275.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

File is maintained at each Army Command HQ for the administration of USAR unit personnel. Administration includes control of promotions, transfers, and other day-to-day actions in addition to maintaining unit readiness which includes identifying training needs and assuring that needs are filled on a continuing basis.

A copy of each Army file is sent to RCPAC on a monthly basis for reporting purposes. Statistical reports are prepared at RCPAC for use by various Department of the Army (DA) and Department of Defense Staff agencies. The main users of this report are: Office of Chief, Army Reserve; HQ, United States Army Forces Command; HQ, Continental United States (CONUS) Armies, Office of the Chief of Chaplains, and Office of the Deputy Chief of Staff for Personnel (DCSPER). Uses include: strength accounting, budgeting, readiness in case of mobilization of reserve units, and forecasting of future needs based upon expected attrition. In addition, the Command Involvement Program (CIP) computer system inspects the personal data contained in each record and reports percentage of accuracy and completeness to the unit commander and his/her superiors.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File is stored on computer magnetic tapes and in air- conditioned libraries.

RETRIEVABILITY:

File is sequenced by SSN within unit identification code. To retrieve an individual's record, an authorized requester must enter SSN, five characters of last name, unit identification code, military personnel class (indicates individual is an officer, warrant officer or enlisted), and a particular code identifying the transaction as a record request.

SAFEGUARDS:

Tape files are stored on tape racks in reel number sequence in a restricted library within the computer room complex which is a restricted area. In addition, the building housing the computer room is restricted to authorized personnel.

RETENTION AND DISPOSAL:

A record is retained for the duration of the reservist's unit assignment.

CONUS: The current tape file and the two previous tape files are retained at any given time.

OVERSEAS: Record files are retained for historical data reporting as follows: 4 years for reports for months of March, June, and December; 6 years for the report month of September; and 2 years for all other report months.

SYSTEM MANAGER(S) AND ADDRESS:

Deputy Chief of Staff for Personnel, The Pentagon, Washington, DC 20310.

NOTIFICATION PROCEDURE:

To ascertain if the tape file contains data on a particular individual, the individual should write or visit the Headquarters of the Continental United States Army area in which his/her unit is located.

RECORD ACCESS PROCEDURES:

To request access to the information contained on this tape file, the individual should write or visit the Headquarters of the Continental United States Army in which his/her unit is located.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations may be obtained from the SYSMANAGER, ATTN: DAPE-PBP.

RECORD SOURCE CATEGORIES:

Data are extracted from the following sources:

Correspondence from Reservist; National ZIP Code Directory; DA Form 1383, Statement of Retirement Points; Release From Active Duty Orders; DA Form 873, Certificate of Clearance and/or Security Determination; DA Form 1379, USAR Unit Record of Reserve Training; Promotion Orders; Assignment Orders; Language Proficiency Questionnaire; DA Form 268, Report for Suspension of Favorable Personnel Actions; DA Form 67-7, US Army Officer Efficiency Report; DA Form 1506, Statement of Service; National Guard Bureau Form 23, Retirement Credits Record; Department of Defense (DD) Form 4, Enlistment Contract Armed Forces of the US; DD Form 47, Record of Induction; DA Form 61, Application for Appointment; DA Form 2, 2-1, Qualification Record; DA Form 3725, Army Reserve Status and Address Verification Questionnaire; Dictionary of Occupational Titles; DA Form 3726, 3726-1, Ready Reserve Service Agreement; DD Form 214, Armed Forces of the US Report of Transfer or Discharge; Standard Form 88, Report of Medical Examination.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

A0713.09aTRADOC

SYSTEM NAME:

713.09a Skill Qualification Test (SQT)

SYSTEM LOCATION:

a. Headquarters, United States Army Training and Doctrine Command (TRADOC), Ft Monroe, VA 23651: Main computer location and soldier response files.

b. United States Army Training Support Center, Individual Training Evaluation Directorate (ITED): Enlisted Master File and original test forms.

c. Test Control Officers (TCO) at military installations worldwide: Transmittal rosters and source documents for Hands-On Component (HOC) and Performance Certification Component (PCC): (retained 120 days).

d. United States Army Military Personnel Center (MILPERCEN) (Enlisted Evaluation Center: Soldier's SQT scores (DA Form 10a).

e. Supervisory Non-Commissioned Officers (NCOs) at unit level worldwide: SQT Job Books.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All active Army and Reserve Component enlisted personnel who take the SQT.

CATEGORIES OF RECORDS IN THE SYSTEM:

Soldier response history of answers to SQTs, both individual and cumulative; quarterly analyses of soldier's test results. The Enlisted Master File at ITED contains update listings of name, social security number (SSN), pay grade, primary and secondary military occupational specialties (MOS), and component. File in TCO (located at the soldier's installation) contains name, rank, SSN, and source document for HOC and PCC. SQT Job Book (located at soldier's unit) contains name, rank, and record of individual performance of job tasks conducted in a unit training environment.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 3012.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

ITED, Ft Eustis, VA and Enlisted Records and Evaluation Center, Ft Benjamin Harrison, IN. Individual scores are computed and forwarded to MILPERCEN for entry on DA Form 10a. This score is used to measure a soldier's job proficiency, to determine eligibility for schooling, and eligibility for promotions. SQT Job Books are used by Commanders and NCOs to assess individual and unit proficiency and combat readiness and to identify routine and intensified training needs.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders; computer magnetic tape, disks and printouts.

RETRIEVABILITY:

Paper records filed in folders retrieved by processing date and imprinted serial number. Computer magnetic tape and disk retrieved by SSN and name.

SAFEGUARDS:

Paper records are filed in folders sorted in a locked room: Magnetic tapes are kept in controlled vault area: Magnetic disks are protected by a user identification and manual controls.

RETENTION AND DISPOSAL:

Magnetic tapes are retained 1 year after which data are erased; disks retained for 6 months before data are erased; hard copy is retained for 5 years; then destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, United States Army Training Support Center, ATTN: ITED, Ft Eustis, VA 23604.

NOTIFICATION PROCEDURE:

Information may be obtained from the SYSMANAGER.

RECORD ACCESS PROCEDURES:

Requests should be addressed to the SYSMANAGER. Appropriate identification such as driver's license, is required if request is presented in person; written requests must bear notarized signature of the individual making request to prevent disclosure to unauthorized persons.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340-21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

From other Department of Army Staff and Commands in document and computer readable form.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

All portions of this system are exempt pursuant to Title 5 U.S.C., Section 552a(k)(6). Publication of rules in order to exempt this system is set forth in 32 CFR Part 505.

A0714.02aDAPC

SYSTEM NAME:

714.02 Military Personnel Assignment Files

SYSTEM LOCATION:

Primary System: (1) officers: United States Army Military Personnel Center (MILPERCEN), Officer Personnel Directorate, (2) enlisted: USAMILPERCEN, Enlisted Personnel Directorate.

Decentralized Segments: Army commands.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Active duty enlisted, warrant officer, and commissioned officer members of the United States (US) Army worldwide.

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains letters, forms, statements relating to travel restrictions, dual nationality status, controlled Military Occupational Specialty (MOS) constraints on assignment, Special Forces organization, sole surviving son limitations, compassionate requests, permissive reassignments. Preference for assignment statements, service member/spouse kinship with foreign national considerations, Criminal Investigation eligibility determinations, initial accession assignment data, conscientious objector statement, application and special orders pertaining to airborne qualification and assignemnt, Army Research Association selection and assignment to Atomic Energy Commission, results of Graduate Record Examination or Aptitude Test for Graduate Studies in Business examinations relating to graduate school selection, nominations for position assignment, biographical sketch supporting assignment as Military Assistance Operations Program positions and (1) letters from service member, (2) documents, and forms originating in departmental/ command assignment officers, (3) correspondence between Department of Navy, US Marine Corps, US Coast Guard, Department of the Air Force, Army Staff offices, and Army Command.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 5 U.S.C., Section 301; Title 10 U.S.C.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Department of the Army Staff offices and commands: To document assignment considerations of each service member to assure equity of duty, basis for special assignment, protection of service member and dependents assigned in foreign areas; to insure that service member is not assigned contrary to persona non-grata status; and related assignment limitations, restrictions, and constraints.

Department of the Navy: To accomplish administration incident to service when Army members are

assigned for duty with the Navy, Marine Corps or Coast Guard when the Coast Guard is under operational control of the Navy.

Department of the Air Force: To accomplish administration incident to service when Army members are assigned for duty with the Air Force.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders.

RETRIEVABILITY:

Filed alphabetically by name.

SAFEGUARDS:

Records maintained in area accessible to authorized personnel engaged in assignment and reassignment actions.

RETENTION AND DISPOSAL:

Records are destroyed when superseded by subsequent assignment or, in accordance with scheduled destruction, upon discontinuance or obsolescence.

SYSTEM MANAGER(S) AND ADDRESS:

United States Army Military Personnel Center, 200 Stovall Street, Alexandria, VA 22332.

NOTIFICATION PROCEDURE:

Information for officer personnel may be obtained from:
Headquarters, Department of the Army, (DAPC-OP)
Hoffman Bldg II
200 Stovall Street
Alexandria, VA 22332

Information for enlisted personnel may be obtained from:
Headquarters Department of the Army (DAPC-EP)
Hoffman Bldg II
200 Stovall Street
Alexandria, VA 22332

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to Headquarters Department of the Army ((DAPC-OP) or DAPC-EP)), 200 Stovall Street, Alexandria, VA 22332, or to Commander of the command in which the service member is assigned for duty.

Written requests for information should contain the full name of the requester, his/her service identification number, branch of service if the requester is an officer; grade, and current address.

Visits may be made to command headquarters, or to the Directorate of Officer Personnel for officer visitors, or the Directorate of Enlisted Personnel for enlisted visitors located in Hoffman Bldg I and II, 200 Stovall Street, Alexandria, VA 22332.

CONTESTING RECORD PROCEDURES:

The Army's rules for contesting contents and appealing initial determinations may be obtained from HQDA (DAPC-MSO), 200 Stovall Street, Alexandria, VA 22332.

RECORD SOURCE CATEGORIES:

Letters, forms, statements and related forms originating from individual service member; letters, forms, documents originating in assignment offices of United States Army Military Personnel Center or in Army Ccommands.

SYSTEM NAME:

714.04 Branch Transfer/Detail Files.

SYSTEM LOCATION:

US Army Military Personnel Center (USAMILPERCEN), (DAPC-OP), Washington, DC 22332.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Commissioned officers on active duty in the United States Army.

CATEGORIES OF RECORDS IN THE SYSTEM:

The categories of information stored include; name, social security number (SSN), grade, service agreement, branch of ser- vice, date of receipt of request for branch transfer and final action (approval/disapproval).

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 5 U.S.C., Section 301; Title 10 U.S.C.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Department of Army: Records are used for personnel management, strength accounting, and manpower management.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are stored in paper folders and on cards (Office of Personnel Operations-Officer Personnel Directorate Form 177).

RETRIEVABILITY:

Access is by name.

SAFEGUARDS:

Physical security devices and guards.

RETENTION AND DISPOSAL:

Records are retained for 1 year; then destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, USAMILPERCEN, 200 Stovall Street, Alexandria, VA 22332.

NOTIFICATION PROCEDURE:

Information may be obtained from: Headquarters, Department of the Army, (HQDA)(DAPC-OP), 200 Stovall Street, Alexandria, VA 22332.

RECORD ACCESS PROCEDURES:

Written requests for information should include the full name, SSN, and current address, and submitted to USAMILPERCEN.

For personal visits, the requester should provide acceptable identification, i.e., military identification card or other identi- fication normally acceptable in the transaction of business.

CONTESTING RECORD PROCEDURES:

The Army's rules for contesting contents and appealing initial determinations may be obtained from USAMILPERCEN (DAPC-OP), 200 Stovall Street, Alexandria, VA 22332.

RECORD SOURCE CATEGORIES:

Information is obtained from documents, papers, and forms related to branch transfer and branch detail actions.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

A0714.06aHSC

SYSTEM NAME:

714.06 Army Medical Department Personnel Management and Manpower Control System

SYSTEM LOCATION:

United States (US) Army Medical Centers: Brooke Army Medical Center, Ft Sam Houston, TX; William Beaumont Army Medical Center, Ft Bliss, TX; Madigan Army Medical Center, Ft Lewis, WA; Letterman Army Medical Center, Presidio of San Francisco, CA; Walter Reed Army Medical Center, Washington, DC; Fitzsimons Army Medical Center, Denver, CO; and Tripler Army Medical Center, Honolulu, HI.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All military personnel assigned or attached, and all civilian employees of the organization.

CATEGORIES OF RECORDS IN THE SYSTEM:

Military personnel management subsystem contains data extracted from military personnel records and is essentially that data maintained on enlisted and officer master files at Department of the Army (DA) plus selected suspense items such as immunization requirements, efficiency report and periodic photograph submission dates.

Civilian personnel management subsystem contains data extracted from civilian personnel records and is essentially that data maintained in the civilian personnel information system at DA.

Manpower control subsystem contains data to identify authorized military and civilian positions within the organization.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 3012.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

System is utilized to provide numerous reporting suspense action and general personnel management requirements for the personnel divisions of the medical centers. System provides interface with automated finance, accounting, civilian pay, and leave accounting. System will be closed out following minor modifications in the Standard Installation/Division Personnel System (SIDPERS) and full implementation of the Civilian Personnel Information System (CIVPERSINS). Type data generated includes authorized and assigned strengths by grade and military occupational specialty (MOS) with projected losses, notification of individual requirements for immunizations, listing of personnel requiring proficiency testing or eligible for promotion or civilian within-grade increases. It also provides information retrieval of combinations of data elements for special or one-time reports. Examples are listings of: all personnel within a given MOS; all personnel of a given grade; all personnel assigned before or after a given date; all personnel whose expiration of term of service (ETS) occurs before or after a given date; and all personnel not occupying an authorized position.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

System uses disk and tape storage.

RETRIEVABILITY:

Data may be extracted by name, social security number (SSN), military occupational specialty or other element included in the system.

SAFEGUARDS:

Records are maintained in secured areas accessible only to authorized personnel who are properly screened, cleared and trained.

RETENTION AND DISPOSAL:

Data are retained in system until departure of the individual; erased from system on reassignment, discharge, separation, retirement or termination of individual's employment.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, US Army Health Services Command, Ft Sam Houston, TX 78234.

NOTIFICATION PROCEDURE:

Information may be obtained from Director of Personnel at each medical center operating the system. Military or civilian identification card, name, SSN and military or civilian employee status required.

RECORD ACCESS PROCEDURES:

Information may be obtained from Director of Personnel at each medical center operating the system. Military or civilian identification card, name, SSN and military or civilian employee status required.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations by the individual concerned may be obtained from the SYSMANAGER.

RECORD SOURCE CATEGORIES:

Military and civilian personnel records.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

A0714.06cDASG

SYSTEM NAME:

AMEDD Personnel Management System

SYSTEM LOCATION:

United States Army Medical Department Personnel Support Agency (USAMEDDPERSA), 1900 Half Street, S.W., Washington, DC 20324.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals either applying for commissions in, on active duty as an officer in, or recently released from active duty in one of the six Army Medical Department Corps.

CATEGORIES OF RECORDS IN THE SYSTEM:

The categories of information stored include name, social security number, sex, race, date and place of birth, home of record, dependent data, physical profile data, religious preference, ethnic group, citizenship, marital status, personal mailing address, professional qualification data, assignment data, promotion data, education and training data, awards and badges, and incentive pay data.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 5 U.S.C., Section 301; Title 10 U.S.C.; Title 37 U.S.C.; and Executive Order 9397.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Department of Army-Used for strength accounting, manpower and budgetary management, recruitment, military service career management of officers to include assignments, promotion, professional development and training, and in the administration of the Variable Incentive Pay Program.

Department of Defense-Used for interdepartmental management regarding medical assets, and development of policies and statistical accounting.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are stored on computer magnetic tape and disk.

RETRIEVABILITY:

Normal access is by name, the first data element in the file, with SSN or other individual or group discriminators for positive identification. Computerized indices are utilized in record retrievals.

SAFEGUARDS:

Physical security devices, limited access via building guard and personnel clearances will limit computer access to only authorized personnel. Each on-line terminal access or update to the system will be protected through a system of

passwords that will restrict each user to specific data elements. Password changes will be made incrementally at the rate of 20 percent per month. System reconstruction procedures provide for two copies of files, programs, and procedures in-house and one copy at an offsite location both updated and maintained in an operational condition.

RETENTION AND DISPOSAL:

Records are retained on an active file for three months after separation, and accumulated on an inactive file for five years after separation.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, United States Army Medical Department Personnel Support Agency, 1900 Half Street, S.W., Washington, DC 20324.

NOTIFICATION PROCEDURE:

Information may be obtained from: Commander, USAMEDDPERSA, 1900 Half Street, S.W., Washington, DC 20324.

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to: Commander, USAMEDDPERSA, 1900 Half Street, S.W., Washington, DC 20324.

Written requests for information should contain the full name of the individual, SSN, current or former military status, and appropriate return address.

Visits may be made to USAMEDDPERSA. Individual should be able to provide some acceptable identification, and give some verbal information that could be verified with his/her record.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in 32 CFR Part 505 (Army Regulation 340-21).

RECORD SOURCE CATEGORIES:

Data contained in this system of records is obtained in document and computer readable form from the following systems of records: Army Medical Procurement Applicant Files, Officer Master File, Career Management Individual Files, AMEDD Training Application Status Record, Long-Term Civilian Training Student Contract Files, Residency, Subspecialty and Fellowship Training, and US Army Graduate Medical Education Trainee Card File.

SYSTEM NAME:

SIDPERS Personnel Data Card

SYSTEM LOCATION:

Each active Army unit furnishing personnel and strength data to the Department of the Army.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Active duty Army members (commissioned, warrant, and enlisted).

CATEGORIES OF RECORDS IN THE SYSTEM:

DA Form 2475-2 which includes individual's name, Social Security Number, organization, unit, station, grade and pay group, blood type, duty assignment, duty phone, local address and phone number, name and address of next-of-kin, home of record, place of birth, awards, military occupational specialty evaluation data, and unit commander's name and grade. In addition, records include actions reported as SIDPERS change report remarks on members assigned/attached to a military unit bearing on the legal and financial rights of the individual.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C., section 301; 10 U.S.C., section 3012.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

By the Department of the Army: to account for and maintain data relating to each assigned and/or attached active military person; to support the accounting of and reporting function incident to maintenance of the Officer Master File, Enlisted Master File, the Military Personnel Records Jacket, and the Official Military Personnel File; for personnel management actions and reports.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders; magnetic tapes and disks.

RETRIEVABILITY:

By individual's surname; SSN.

SAFEGUARDS:

Records are maintained in secured areas accessible only to authorized personnel who are trained, cleared, and have official need for the information.

RETENTION AND DISPOSAL:

Records are retained in the reporting unit for 1 year following the date of the last entry on the personnel data card; they are then shipped to the National Personnel Records Center (MPR), St. Louis, MO where they are retained 74 additional years before being destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, US Army Military Personnel Center, 200 Stovall Street, Alexandria, VA 22332.

NOTIFICATION PROCEDURE:

Information may be obtained from the reporting unit of assignment/attachment of the individual.

RECORD ACCESS PROCEDURES:

Individual should write or visit the reporting unit of assignment/attachment, furnishing name, SSN, military or other normally acceptable identification and details that will assist in locating the information sought.

CONTESTING RECORD PROCEDURES:

The Army's rules for contesting contents and appealing initial determinations are contained in Army Regulation 340-21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

From the Enlistment Record (DD Form 4), Report of Separation (DD Form 214) for reenlistees; Extention of enlistment (DA Form 1695); Special Orders issued by enlistment/reenlistment authorities, personal information furnished by the individual, documents/records/reports/forms originated within the reporting unit.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

The Army's rules for contesting contents and appealing initial determinations may be obtained from USAMILPERCEN (DAPC-MSO), 200 Stovall Street, Alexandria, VA 22332.

RECORD SOURCE CATEGORIES:

Information is obtained in documented and other computer readable form from other Department of Army organizations/stations and other federal agencies.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

A0715.07cUSFK

SYSTEM NAME:

Command Unique Personnel Information Data System (CUPIDS)

SYSTEM LOCATION:

Primary System: Office of the Assistant Chief of Staff, Personnel Directorate (J1), Headquarters United Nations Command (UNC)/United States (US) Forces, Korea (USFK)/Eighth US Army (EUSA), ATTN: AJ-PER-DM, APO San Francisco 96301.

Decentralized Segments: US Army Yongsan Data Processing Center Korea, APO SF 96301; HQ UNC/USFK/EUSA, ATTN: PMJ-O, APO SF 96301; HQ UNC/USFK/EUSA, ATTN: DJ-SP, APO SF 96301; and HQ UNC/USFK/EUSA, ATTN: GCT, APO SF 96301.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All members of UNC/USFK/EUSA who are authorized duty-free privileges in the Republic of Korea (ROK) as well as US Embassy personnel, contract personnel, technical representatives, and authorized potential noncombatant evacuees living in ROK.

CATEGORIES OF RECORDS IN THE SYSTEM:

Individual's name, social security number, date and place of birth, sex, rotation date, citizenship, passport number, date arrived in ROK, previous tours in ROK, service component, pay grade/position title, marital status, dependent status, and religion. The following dependent information is maintained: spouse's name, date and place of birth, date arrived in ROK, passport number, citizenship, sex, date and place of marriage, local address, and religion. Applicable information is extracted from this central data base to provide a noncombatant report, contractor and technical representative listing, religious preference listing, and dependent information roster.

An individual purchase record is maintained for those personnel authorized duty-free privileges. It consists of a record of exchange catalog sales and purchases made by authorized shoppers in the exchange system, Class VI stores, commissaries, and retail outlets located on US facilities and installations in ROK.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C., Section 301; Status of Forces Agreement, United States of America and the Republic of Korea.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To record the number and location of contractor and technical representatives in the ROK for reporting to the Korean Government in accordance with the USA-ROK Status of Forces Agreement.

To identify and locate noncombatant evacuees in case of emergency.

To provide Department of Defense information pertaining to the number of dependents in ROK.

To obtain a religious profile to determine a realistic distribution of Chaplain assets throughout the command.

To produce lists of (1) suspected violators of the ration control authorization set for retail facilities in ROK and (2) exchange catalog sales shipped into ROK. Information is provided the Provost Marshal, US Army Criminal Investigation Command, US Department of State, Office of Special Investigation, Customs Officials, law enforcement authorities of the ROK and commanders for investigative action where appropriate and/or administrative or judicial disposition.

To provide listing of dependents in Korea for verification of housing dollar authorizations.

To maintain file of selected controlled item purchases made in retail facilities.

To provide management data pertaining to expenditures by grade and

family size for use in determining if authorizations are sufficient.

To provide a dependent profile throughout the command for management purposes.

To produce ration control plates for authorized individuals for use in recording purchases in retail facilities.

To produce medical cards which are used for identification in medical facilities.

To provide retail sales information to the USA-ROK Status of Forces Ad Hoc Committee on black marketing activities.

To provide list by date eligible for return from overseas for transportation forecasting requirements.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Magnetic tapes, microfiche, and paper printouts.

RETRIEVABILITY:

Alphabetically by surname of noncombatants listed by area and geographical sub-area; all other records by SSN.

SAFEGUARDS:

Records are accessible only to authorized personnel. During off duty hours, the facility is locked and secured by sound activated alarm.

RETENTION AND DISPOSAL:

The command profile, sales profile, and individual sales file are retained for 1 year. Individual violations are retained until the end of the tour of the individual concerned.

Regular card sales are destroyed monthly unless retained for evidence.

Controlled item sales records are maintained for duration of individual's tour.

The data base account is retained for the duration of the individual's tour, plus one month.

All other information is destroyed at termination of tour or employment.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Chief of Staff, J1, HQ UNC/USFK/EUSA, APO San Francisco 96301.

NOTIFICATION PROCEDURE:

Information may be obtained from: HQ UNC/USFK/EUSA (A]-PER-DM) Yongsan/Seoul, Korea.

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to: HQ, UNC/USFK/EUSA (A]-PER-DM), APO SF 96301. Written requests should contain full name of the individual, current address, telephone number, and SSN. For personal visits, the individual should provide a military identification card and ration control plate, if issued, or other acceptable identification such as a valid vehicle operator's license.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340-21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

Application for ration control; recorded sales made with ration control plate at retail US military facilities throughout ROK; orders made through exchange catalog sales and retail outlets located on US facilities and installations in the ROK.
